## OBJECTIVE AND INVESTMENT POLICY

### Objective

To grow both income and capital over a five year period.

### Investment policy

#### What the fund invests in

- 80% to 100% in company shares.
- Up to 20% in bonds, cash and near cash, other transferable securities, other funds (up to 10%) managed by Artemis and third party funds, money market instruments, and derivatives.

#### Use of derivatives

The fund may use derivatives for efficient portfolio management purposes to:

- reduce risk
- manage the fund efficiently.

#### Where the fund invests

- At least 80% in the United Kingdom
- Up to 20% in other countries

#### Industries the fund invests in

- Any

#### Other limitations specific to this fund

- None

### Investment strategy

- The fund is actively managed.
- The manager believes that a company's free cashflow yield drives its valuation.
- Accordingly, the fund focuses on companies' free cashflow yield by taking into account current and prospective dividends and the likelihood of the dividend being maintained in the future.

### Benchmarks

- FTSE All-Share Index TR  
A widely-used indicator of the performance of the UK stockmarket, in which the fund invests. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.
- IA UK Equity Income NR  
A group of other asset managers' funds that invest in similar asset types as this fund, collated by the Investment Association. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

# RISK CONSIDERATIONS

To ensure you understand whether this fund is suitable for you, please read the Key Investor Information which is available, along with the fund's Prospectus, from [www.artemisfunds.com](http://www.artemisfunds.com) or [www.fundinfo.com](http://www.fundinfo.com).

The fund is exposed to the following risks:

|                           |                                                                                                                                                                                                                                                                   |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Market volatility risk    | The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events. |
| Currency risk             | The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.                                                                                                        |
| Charges from capital risk | Where charges are taken wholly or partly out of a fund's capital, distributable income may be increased at the expense of capital, which may constrain or erode capital growth.                                                                                   |
| Income risk               | The payment of income and its level is not guaranteed.                                                                                                                                                                                                            |

## PRICE AND YIELD

|                |         |
|----------------|---------|
| Price          | 571.15p |
| Historic yield | 3.60%   |

Source: Artemis as at 31 March 2024.  
The historic yield reflects distributions declared over the past 12 months as a percentage of the price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions.

## CHARGES

|                |        |
|----------------|--------|
| Initial charge | 0%     |
| Ongoing charge | 1.550% |

The ongoing charge covers the annual operating expenses of running the fund and is shown as at the date of the Key Investor Information Document, where further information about the fund's charges can be found. Additional costs may be incurred, such as portfolio transaction costs and transfer taxes, which may reduce performance. For further information, visit [www.artemisfunds.com/charges](http://www.artemisfunds.com/charges).

## RISK AND REWARD PROFILE

The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
