

STONEHAGE FLEMING GLOBAL BEST IDEAS EQUITY FUND

OUR FOUR
FUNDAMENTAL
QUALITY PILLARS -
IDENTIFYING
GLOBAL BEST IN
CLASS BUSINESSES

INVESTMENT OBJECTIVE

To achieve long-term growth in capital and income in a focused portfolio of high quality listed businesses from around the world.

INVESTMENT PHILOSOPHY

We invest in best in class businesses for their quality, strategic competitive edge and value.

FUND COMMENTARY

Global equity markets suffered in October from continuing rising US interest rates and the escalating war in Gaza. It served as a potent combination to dampen investor sentiment.

The US reporting season is in full swing. Whilst both top and bottom line results have generally delivered well compared to consensus expectations, the weak investor sentiment has led to large drawdowns in cases of even relatively minor disappointments.

Investors are taking serious cognisance of the potential longer-term effects of the new diabetes drugs (e.g. Ozempic, Wegovy) – especially on some Food & Beverage and Health Care businesses. Whilst their operational results may not be materially affected for some time, it seems a derating process in these sectors has already begun. The Staples sector is further challenged with diminishing buying pressure as higher interest rates attract savers away from higher yielding stocks.

As often happens under such material sentiment shifts, it is possible that the market overreacts on some Health Care stocks and potentially offers some longer-term buying opportunities. Our exposures are predominantly confined to equipment related stocks that should be relatively less affected. Against this, United Health may well benefit from healthier members with lower claim activity in the longer term.

Whilst we expect solid results during the current season from our Staples exposures, the two-pronged risks the sector faces has prompted us to lower our exposures to this sector. The proceeds have not yet been reinvested.

The best contributors to performance over October have been Microsoft, Nike and United Health, with Zoetis, Alphabet and Thermo Fisher the largest detractors.

Opinions expressed represent the view of SFIM at the time of preparation. They are subject to change and should not be interpreted as investment advice.

RISK DISCLOSURE

Past performance is not a guide to future performance. The value of investments can fall. Investors may not get back the amount invested. Income from investments may vary and is not guaranteed. The return may increase or decrease due to currency fluctuations. Performance figures are net of fees and charges. The Fund may hold a relatively small number of stocks as compared to many other funds. This may make the Fund's performance more volatile than would be the case if it had a more diversified investment portfolio. For a full list of risks applicable to this fund, please refer to the Prospectus.

STONEHAGE FLEMING GLOBAL BEST IDEAS EQUITY FUND

OUTCOME OF FAIR VALUE ASSESSMENTS (2023)

Our assessment confirms:

- The fund meets the needs of the target market.
- The intended distribution strategy remains appropriate.
- The fund provides fair value to customers.

INVESTOR PROFILE

The fund is appropriate for all investor types, including those with only a basic knowledge of funds. It is compatible with investors who do not need a capital guarantee (investors must be prepared to accept fluctuations in the value of capital, including the ability to bear 100% capital loss) and are seeking capital growth. Due to the volatility of markets, investors should be willing to accept price fluctuations in exchange for the opportunity of potentially higher returns. This is a long term investment and investors should have an investment time horizon of at least 5 years. The recommended holding period does not provide any guarantee that the objective will be achieved. This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

The fund is unlikely to be appropriate for those who:

- Are looking for full capital protection or full repayment of the amount invested, and those who want a guaranteed return
- Have no risk tolerance
- Who are unwilling to accept price fluctuations (volatility) in the value of the fund
- Do not intend to invest for the long term
