DEFINITIONS

Pay Date: This is the date on which the fund will pay income to eligible investors.

XD Date: This is the date after which new investors who buy shares in the fund will not be eligible to receive the next income payment.

Historic Yield: The sum of income payments announced in the previous 12 months, divided by the fund price as at the date of the factsheet.

Investors may be subject to tax on income payments they receive.

FUND OBJECTIVE AND POLICY

The Scheme's objective is to provide capital growth, and potentially some income over 5+ years. It will also aim to outperform (after fees) the Target Benchmark over a rolling 3 year period. Average outperformance will typically not exceed 1.35% per annum (not guaranteed).

The Scheme is actively managed and invests at least 80% in shares in companies listed in the UK, including REITs and other investment trusts. The Scheme may invest up to 20% in shares in companies listed in developed markets outside the UK. It may invest in developed markets globally up to: 5% in investment grade bonds; and 10% in cash/ cash like instruments. The Scheme typically invests directly but can also invest indirectly: up to 10% via other funds; and in property via REITs. The Scheme may use derivatives for efficient portfolio management (inc. hedging).

A Sub-Investment Manager has been appointed to manage the Scheme. When selecting companies, the Sub-IM will focus on quality, momentum, and value. Typically it will select shares with good quality and momentum, offering capital growth. This results in a bias to medium sized companies. The Scheme is a Tracking Error (deviation from Benchmark) of up to 6%. The Target Benchmark has been selected as it is representative of the Scheme's investment policy.

Negative weightings may result from the use of certain financial instruments, including derivatives. Derivatives used to gain or reduce market exposure are shown in the relevant asset class. Derivatives used for risk management (including duration management) are shown alongside cash.

Past performance is not a reliable indicator of future results. The value of investments and revenue from them can fall as well as rise and investors may not get back the amount originally invested. Please note that the value of any foreign investments may be affected by changes in currency exchange rates.

RISK AND REWARD PROFILE

LOWER RISK

HIGHER RISK

Typically lower rewards

Typically higher rewards

Risk and Reward Indicator: The Risk and Reward Indicator table shown above demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money, and the lowest risk and reward indicator does not mean risk free. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The value of your investment is not guaranteed and you may get back less than the original amount you invested. Investors should refer to the most up to date Key Investor Information Document available from our website.
