Directors' Report

For the year ended 30 September 2023

The Directors submit this report together with the Annual Report and the Audited Financial Statements of the KraneShares ICAV (the "ICAV"), for the financial year ended 30 September 2023.

The ICAV

The ICAV was registered in Ireland, registration number C181441, pursuant to the Irish Collective Asset-management Vehicles Act 2015 to 2021 (the "ICAV Act") on 15 May 2018 and authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investments in Transferable Securities) Regulations 2019 (collectively the "UCITS Regulations"). The objective of the ICAV is the collective investment in transferrable securities and/or other liquid financial assets of capital raised from the public, operating on the principle of risk spreading in accordance with the UCITS regulations.

The ICAV is organised in the form of an umbrella fund with segregated liability between sub-funds. Each sub-fund has a distinct portfolio of investments and the investment objective and policy of each sub-fund is formulated by the investment manager. At 30 September 2023, the following funds ("Sub-Funds") were in operation:

	Central Bank	
Sub-Funds	Authorisation Date	Launch date
KraneShares CSI China Internet UCITS ETF	11 October 2018	20 November 2018
KraneShares MSCI China A 50 Connect UCITS ETF	14 June 2019	27 June 2019
KraneShares MSCI China ESG Leaders UCITS ETF	10 October 2019	4 February 2020
KraneShares Bloomberg China Bond Inclusion UCITS ETF	26 March 2020	26 May 2020
KraneShares MSCI All China Health Care Index UCITS ETF	19 October 2020	14 January 2021
KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF	28 April 2021	26 May 2021
KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF	16 March 2022	26 May 2022

At 30 September 2023, the following funds ("Sub-Funds") were authorised by the Central Bank but were not in operation:

Sub-Funds	Central Bank Authorisation Date	Launch date
KraneShares MSCI China Clean Technology Index UCITS ETF	29 June 2023	12 October 2023
KraneShares ICBCCS S&P China 500 UCITS ETF	21 July 2023	16 October 2023

The Sub-Funds

Investment Objective and Policies, and review of business developments

KraneShares CSI China Internet UCITS ETF

KraneShares CSI China Internet UCITS ETF ("the Sub-Fund") is listed on the Irish, London and Amsterdam Stock Exchanges. The Sub-Fund listed on the Dublin and London stock exchanges on 19 and 20 November 2018 respectively, on the Euronext Amsterdam on 17 May 2019 and on the Italian Stock Exchange on 8 January 2021.

The objective of the Sub-Fund is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the investable universe of publicly traded China-based companies whose primary business or businesses are in the Internet and Internet-related sectors and which are listed outside of China ("China Internet Companies"). The Schedule of Investments (Unaudited) lists the investments by country of incorporation. In order to seek to achieve the Sub-Fund's investment objective, the Investment Manager will aim to replicate the CSI Overseas China Internet Index ("Index") by holding all of the constituents of the Index in a similar proportion to their weighting in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail on page 11 in the Investment Manager's Report.

KraneShares MSCI China A 50 Connect UCITS ETF

KraneShares MSCI China A 50 Connect UCITS ETF ("the Sub-Fund") is listed on the Main Securities Market of Euronext Dublin, the London Stock Exchange and the Italian Stock Exchange. The Sub-Fund listed on the Dublin and London stock exchanges on 26 June 2019 and on the Italian Stock Exchange on 13 October 2022.

The Sub-Funds (continued)

Investment Objective and Policies, and review of business developments (continued)

KraneShares MSCI China A 50 Connect UCITS ETF (continued)

The objective of the Sub-Fund is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the investable universe of Chinese Yuan Renminbi ("RMB") denominated equity securities listed on the Shenzhen or Shanghai Stock Exchanges ("A Shares") ("China Renminbi Companies"). The Schedule of Investments (Unaudited) lists the investments by country of incorporation. In order to seek to achieve the Sub-Fund's investment objective, the Investment Manager will aim to replicate the MSCI China A Index ("Index") by holding all of the constituents of the Index in a similar proportion to their weighting in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail on page 12 in the Investment Manager's Report.

KraneShares MSCI China ESG Leaders UCITS ETF

KraneShares MSCI China ESG leaders UCITS ETF ("the Sub-Fund") is listed on the Main Securities Market of Euronext Dublin, the London Stock Exchange and the Italian Stock Exchange. The Sub-Fund listed on the Dublin and London stock exchanges on 4 February 2020 and on the Italian Stock Exchange on 17 January 2023.

The objective of the Sub-Fund is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the investable universe of Chinese companies listed on the Shanghai, Shenzhen or Hong Kong Stock Exchanges ("China Companies"). This Sub-Fund tracks the MSCI China ESG Leaders Index, which is comprised of securities which would have a strong focus on ESG integration. The Investment Manager will seek to have regard to relevant Sustainability Risks and their potential detrimental impact generally where possible, and where it appears to the Investment Manager to be appropriate to do so. The Schedule of Investments (Unaudited) lists the investments by country of incorporation. In order to seek to achieve the Sub-Fund's investment objective, the Investment Manager will aim to replicate the MSCI China ESG Leaders Index ("Index") by holding all of the constituents of the Index in a similar proportion to their weighting in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail on page 13 in the Investment Manager's Report.

KraneShares Bloomberg China Bond Inclusion UCITS ETF

KraneShares Bloomberg China Bond Inclusion UCITS ETF ("the Sub-Fund") is listed on the Main Securities Market of Euronext Dublin and the London Stock Exchange. The Sub-Fund listed on the Dublin and London stock exchanges on 14 January 2021.

The objective of the Sub-Fund is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the investable universe of publicly traded fixed income securities issued by the Chinese government and government-related Chinese banks (the "Issuers"). The Schedule of Investments (Unaudited) lists the investments by country of incorporation. In order to seek to achieve the Sub-Fund's investment objective, the Investment Manager will use the optimisation methodology to select Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Chinese onshore renminbi denominated government and government related bank fixed income market index ("Index"). Consequently, the Sub-Fund may only hold a certain sub-set of the components of the Index. The Sub-Fund follows a strategy of not replicating any Indexes. The performance of the Sub-Fund is reviewed in detail on page 14 in the Investment Manager's Report.

KraneShares MSCI All China Health Care Index UCITS ETF

KraneShares MSCI All China Health Care Index UCITS ETF ("the Sub-Fund") is listed on the Main Securities Market of Euronext Dublin, the London Stock Exchange and the Italian Stock Exchange. The Sub-Fund listed on the Dublin and London stock exchanges on 14 January 2021, and on the Italian Stock Exchange on 17 January 2023.

The objective of the Sub-Fund is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the investable universe of publicly traded China-based companies, whose primary business or businesses are in the healthcare and healthcare-related sectors and whose securities are listed in Hong Kong, Shanghai, Shenzhen and outside of China ("China Healthcare Companies"). The Schedule of Investments (Unaudited) lists the investments by country of incorporation. In order to seek to achieve the Sub-Fund's investment objective, the Investment Manager will aim to replicate the MSCI China All Shares Health Care 10/40 Index by holding all of the constituents of the Index in a similar proportion to their weighting in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail on page 15 in the Investment Manager's Report.

The Sub-Funds (continued)

Investment Objective and Policies, and review of business developments (continued)

KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF

KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF ("the Sub-Fund") is listed on the Main Securities Market of Euronext Dublin, the London Stock Exchange and the Italian Stock Exchange. The Sub-Fund listed on the Dublin and London stock exchanges on 25 May 2021 and on the Italian Stock Exchange on 21 July 2021.

The objective of the Sub-Fund is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the investable universe of publicly traded China-based companies whose primary business or businesses involve science and technology ("China Science and Technology Companies"). The Schedule of Investments (Unaudited) lists the investments by country of incorporation. In order to seek to achieve the Sub-Fund's investment objective, the Investment Manager will aim to replicate the SSE Science and Technology Innovation Board 50 Index ("Index") by holding all of the constituents of the Index in a similar proportion to their weighting in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail on page 16 in the Investment Manager's Report.

KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF

KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF ("the Sub-Fund") is listed on the Main Securities Market of Euronext Dublin, the London Stock Exchange and the Italian Stock Exchange. The Sub-Fund listed on the Dublin and London stock exchanges on 25 May 2022 and on the Italian Stock Exchange on 2 August 2022.

The objective of the Sub-Fund is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of companies that are engaged in or expected to derive significant revenues from the production of electric vehicles or their components or in other initiatives that may change the future of mobility ("Electric Vehicle Companies"). The Schedule of Investments (Unaudited) lists the investments by country of incorporation. In order to seek to achieve the Sub-Fund's investment objective, the Investment Manager will aim to replicate the Bloomberg Electric Vehicles ESG Screened Index ("Index") by holding all of the constituents of the Index in a similar proportion to their weighting in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail on page 17 in the Investment Manager's Report.

Risk management objectives and policies

The Directors have identified certain risks arising from the ICAV's holdings. The principal risks and uncertainties which the ICAV faces relate to the use of financial instruments and are listed in Note 7 "Financial risk management".

Results

The results of operations of the ICAV for the financial year are set out in the Statement of Comprehensive Income on pages 49 to 51. A review of the performance of the Sub-Funds for the financial year is included in the Investment Manager's report on pages 10 to 17.

Significant events during the reporting year

The Investment Manager has agreed to bear the cost of fees and operational expenses which are over and above the total expense ratio or "TER" of each Sub-Fund. Please refer to Note 5 "Fees and Expenses" for further details.

An updated Prospectus was issued for the ICAV on 1 December 2022. Updated Supplements were issued for the Sub-Funds on 1 December 2022. The updates included:

- passage of time updates for all Supplements and Prospectus;
- KraneShares MSCI China ESG Leaders UCITS ETF and KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF added an Annex on its Supplements for further details on how the Investment Manager addresses sustainability risks and ESG Integration for both sub-funds

On 29 June 2023, KraneShares MSCI China Clean Technology Index UCITS ETF was authorised as a Sub-Fund of the ICAV by the Central Bank of Ireland.

On 21 July 2023, KraneShares ICBCCS S&P China 500 UCITS ETF was authorised as a Sub-Fund of the ICAV by the Central Bank of Ireland.

There were no other significant events during the reporting year that requires adjustments or disclosure in these financial statements.

Directors' Report (continued)

For the year ended 30 September 2023

Events after the reporting financial year

The effects of the conflict between Ukraine and Russia and the conflict between Israel and Hamas may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may impact the Sub-Funds' performance.

On 12 October 2023, the Sub-Fund KraneShares MSCI China Clean Technology Index UCITS ETF launched.

On 16 October 2023, the Sub-Fund KraneShares ICBCCS S&P China 500 UCITS ETF launched. The Luxembourg domiciled fund ICBCCS S&P China 500 UCITS ETF closed on 13 October 2023 and merged its assets into the newly launched Sub-Fund.

There were no events after the reporting year that require adjustments or disclosure in these financial statements.

Directors

Feargal Dempsey, Lorcan Murphy, Xiaolin Chen and Jonathan Krane were appointed as Directors on 1 October 2018. Sjef Pieters was appointed as a Director on 10 February 2020. Paolo Iurcotta was appointed as a Director on 29 July 2021.

Directors' and Secretary's Interests

Two directors held interest in the shares of the Sub-Funds during the financial year as disclosed in Note 9 "Related Parties". None of the remaining directors, their families or the Secretary held any interest in the shares of the Sub-Funds during the financial year. Jonathan Krane is a principal of the Investment Manager. Accordingly, Jonathan Krane has an interest in the Investment Management Agreement.

Transactions involving Directors and ICAV Secretary

Contracts or arrangements of any significance in relation to the business of the ICAV in which the Directors or the ICAV Secretary had any interest as defined in the ICAV Act, at any time during the year ended 30 September 2023, are disclosed in Note 9 "Related Parties" in the notes to the financial statements.

Secretary

Matsack Trust Limited held the office of Secretary throughout the financial year ended 30 September 2023 and 30 September 2022.

Directors' Remuneration

The Manager shall be responsible for discharging any fees and expenses of the Directors' of the ICAV out of the fee which it receives from the ICAV. The fixed fee of the independent Directors of the Board will be commercially negotiated.

Segregated Liability

The ICAV is an umbrella fund with segregated liability between the Sub-Funds and as such, as a matter of Irish law, the assets of a Sub-Fund will not be exposed to the liabilities of the ICAV's other Sub-Funds.

Segregated liability ensures that the liabilities incurred on behalf of a Sub-Fund will be discharged solely out of the assets of that Sub-Fund and there can generally be no recourse to the other Sub-Funds to satisfy those liabilities.

Each Sub-Fund will be responsible for paying its fees and expenses regardless of the level of profitability. Notwithstanding the foregoing there can be no guarantee or assurance that, should an action be brought against the ICAV in a court of another jurisdiction, that the segregated nature of the Sub-Funds would necessarily be upheld.

Connected Persons

In accordance with the requirements of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, (the "Central Bank UCITS Regulations"), all transactions carried out with the ICAV by the Manager, Investment Manager, Depositary, delegates or sub-delegates of these parties (the "connected persons") must be conducted at arm's length and be in the best interests of shareholders of the ICAV. The Directors are satisfied that there are arrangements in place to ensure that the obligations set out in the Central Bank UCITS Regulations are applied to all transactions with connected persons and transactions with connected persons entered into during the financial year complied with the obligations set out in the Central Bank UCITS Regulations.

Shareholders should note that not all connected persons as defined by the Central Bank UCITS Regulations are deemed related parties as defined by IAS 24 'Related Party Disclosures'. Related parties include the board of Directors, the Manager, and the Investment Manager.

Directors' Report (continued)

For the year ended 30 September 2023

Connected Persons (continued)

Transactions with related parties during the year ended 30 September 2023 are disclosed in Note 9 "Related Parties" in the notes to the financial statements.

Dividends

All the Sub-Funds have accumulating share classes, and with the exception of KraneShares Bloomberg China Bond Inclusion UCITS ETF, which has distributing share classes, intend to accumulate all net investment income and net realised capital gains. The KraneShares CSI China Internet UCITS ETF, KraneShares MSCI China A 50 Connect UCITS ETF and KraneShares MSCI China ESG Leaders UCITS ETF, KraneShares MSCI All China Health Care Index UCITS ETF, KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF and KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF do not intend to make distributions in respect of the accumulating share classes.

KraneShares Bloomberg China Bond Inclusion UCITS ETF have made distributions in respect of the distributing share class, which are made at the discretion of the directors, with the first distribution declared in December 2022, and a second distribution declared in June 2023. Total distributions of USD 48,528 on the distributing class were made by the Sub-Fund for the year ended 30 September 2023 (2022: USD 525,919). The dividend ex-dates were 29 December 2022 and 22 June 2023, and the pay dates were 13 January 2023 and 29 June 2023 respectively.

Soft Commissions

There were no soft commission arrangements during the year (2022: Nil).

Securities Lending

The ICAV entered into a securities lending agency agreement with the Sub-Custodian on 28 July 2020. A tri-party agreement was entered into between the ICAV, Sub-Custodian and BNY Mellon in February 2021. Securities lending commenced on KraneShares CSI China Internet UCITS ETF in August 2020. Securities lending commenced on KraneShares MSCI China ESG Leaders UCITS ETF in April 2021. As at 30 September 2023 the KraneShares CSI China Internet UCITS ETF was engaged in 3 (2022: 17) securities lending arrangements with a combined value of USD 9,218,566 (2022: USD 11,065,427). As at 30 September 2023 the KraneShares MSCI China ESG Leaders UCITS ETF was engaged in one (2022: None) securities lending arrangement with a combined value of USD 75,868 (2022: USD Nil). Further details on securities lending are detailed in Note 2 (d)(ix) and Note 11 "Securities Lending".

Impact of War between Ukraine and Russia

The effects of the conflict between Ukraine and Russia may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may impact the Sub-Funds' performance.

Impact of War between Israel and Gaza

On 7 October 2023, the militant group Hamas led surprise attacks against Israel by land, sea, and air in the Gaza Strip, leading to retaliation by Israel. The conflict continues to escalate with devastating implications for the region both politically and economically in addition to the human tragedies. To date the conflict has not had an impact on the performance of the Sub-Funds, with the exception of KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF, which holds shares in one security domiciled in Israel valued at 0.81% of the net asset value of the sub-fund as at 30 September 2023.

Going Concern

It is critical for the Directors of the ICAV to assess what impacts the current events and conditions have on the ICAV and Sub-Funds operations with the key issue being whether the ICAV and Sub-Funds has sufficient liquidity to continue to meet their obligations as they fall due. In this case, the Directors are of the view that the ICAV and Sub-Funds have sufficient liquidity to cover its obligations for at least 12 months and they believe that the ICAV and Sub-Funds will continue in operational existence for the foreseeable future. The Investment Manager has agreed to bear the cost of fees and operational expenses which are over and above the total expense ratio or "TER" of each Sub-Fund. Please refer to Note 5 "Fees and Expenses" for further details.

As at 30 September 2023, the Directors believe that the ICAV and Sub-Funds will continue in operational existence for the foreseeable future. For this reason, the going concern basis has been adopted in preparing the financial statements.

Employees

The ICAV had no employees throughout the year ended 30 September 2023 (2022: no employees).

Key Performance Indicators

The Directors consider that the change in net asset value ("NAV") per share is a key indicator of the performance of the ICAV. Key performance indicators monitored by the Directors for each Sub-Fund include the month to month movement in the NAV per share, the tracking of each Sub-Fund's performance to the performance of the relevant Index and the share capital movements.

Directors' Report (continued)

For the year ended 30 September 2023

Future Developments

No further developments are expected as at the date of issue of the financial statements of the ICAV.

Updates to Legal Documents

The most recent Prospectus and Supplements of the Sub-Funds trading on 30 September 2023 were issued on 1 December 2022. No further updates have been made since these documents were issued.

Accounting Records

The Directors have ensured that adequate accounting record requirements under Sections 109 to 113 of the ICAV Act have been complied with by outsourcing this function to a specialist provider of such services. The accounting records are held by SEI Investments – Global Fund Services Limited in their office which is located at Styne House, Upper Hatch Street, Dublin 2, Ireland.

Directors' Responsibilities Statement

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

The ICAV Act requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and applicable law.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the ICAV at the end of the financial year and of the increase or decrease in net assets attributable to holders of redeemable participating shares in the ICAV for the financial year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and,
- use the going concern basis of accounting unless they either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and increase or decrease in net assets attributable to holders of redeemable participating shares in the ICAV and enable them to ensure that the financial statements comply with the ICAV Act and the UCITS Regulations. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the ICAV. In this regard they have entrusted the assets of the ICAV to a depositary for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a Directors' Report that complies with the requirements of the ICAV Act.

The financial statements are published on the Manager's website: https://waystone.com/funds/kraneshares-icav/. The Directors, together with the Investment Manager and Manager, are responsible for the maintenance and integrity of the corporate and financial information included on the Manager's website. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

Directors' Report (continued)

For the year ended 30 September 2023

Corporate Governance

The ICAV is subject to compliance with the requirements of the ICAV Act and the Central Bank UCITS Regulations. During the year under review, the ICAV was subject to corporate governance imposed by:

- i. The ICAV Act which can be obtained at http://www.irishstatutebook.ie;
- ii. The Instrument of Incorporation of the ICAV which is available for inspection at the registered office of the ICAV at 70 Sir John Rogerson's Quay, Dublin 2, Ireland; and
- iii. The Central Bank UCITS Regulations which can be obtained from the Central Bank's website at: http://www.centralbank.ie/regulation/industry-sectors/funds/ucits/Pages/default.aspx and is available for inspection at the registered office of the ICAV.
- iv. The Euronext Dublin through the Euronext Dublin Code of Listing Requirements and Procedures which can be obtained from the Euronext Dublin's website at http://www.ise.ie/. The Euronext Amsterdam through the Euronext Amsterdam Code of Listing Requirements and Procedures which can be obtained from the Euronext Amsterdam's website at http://www.euronext.com/. The London Stock Exchange through the London Stock Exchange Rule book which can be obtained from the London Stock Exchange's website at http://www.londonstockexchange.com/. The Frankfurt Stock Exchange's website at http://www.londonstockexchange.com/. The Frankfurt Stock Exchange's website at http://www.boerse-frankfurt.de/en/. The Italian Stock Exchange through the Market Rules which can be obtained from the Italian Stock Exchange's website at http://www.boerse-frankfurt.de/en/.
- v. The Irish Funds, formally Irish Funds Industry Association, Corporate Governance Code for Collective Investment Schemes and Management Companies (December 2011) which can be found at http://www.irishfunds.ie/regulatory-technical/corporate-governance.

(a) Compliance with the Irish Corporate Governance Code

The Directors have adopted the voluntary Irish Funds (formerly Irish Funds Industry Association) ("IFIA") Corporate Governance Code for Irish domiciled Collective Investment Schemes and Management Companies, issued 14 December 2011 (the "Code"). The Directors have reviewed and assessed the measure included in the Code and consider its corporate governance practices and procedures since the adoption of the Code as consistent therewith.

The Code provides a framework for the organisation and operation of funds to ensure that funds operate efficiently and in the interests of shareholders.

The Board considers that the ICAV has complied with the main provisions contained in the Code throughout this accounting year and that it complies with the various other corporate governance requirements prescribed by the legislation noted above.

Relevant Audit Information

The Directors believe that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the Company's statutory auditors are aware of that information. In so far as they are aware, there is no relevant audit information of which the Company's statutory auditors are unaware.

Independent Auditors

The auditor, KPMG, Chartered Accountants, were appointed statutory auditor on 6 November 2019 and have been re-appointed annually since that date, and pursuant to section 125 of the ICAV Act will continue in office.

Investment Manager's Report

For the year ended 30 September 2023

Dear shareholders,

The past year saw many equity asset classes regain ground following the aggressive repricing of risks that occurred in 2022, especially in the US and Europe. China's equity market was also higher for the period, driven by the repeal of the country's zero COVID policy. China's economic recovery so far this year has been uneven, skewed towards services and low-value goods consumption. Also, China's monetary policy stance has remained accommodative, especially when compared with the hawkish stance of the European Central Bank (ECB). This may continue to provide a tailwind to China equities going forward.

We are encouraged by recent developments in China and climate-related markets. The challenging macroeconomic environment and resulting volatility in global equity markets that has ensued over the past two years has led many investors to seek uncorrelated sources of return, including the asset classes in which we invest: China and climate.

- We believe that both China and climate will continue to grow and become essential elements of a well-designed investment portfolio.
- We believe that investors should have low-cost, transparent tools to obtain exposure to China's equity and fixed income
 markets and hedge against climate change related risks.
- China has been cutting key lending rates and made various pledges to support its stock market and institute significant
 market reforms.
- We are dedicated to helping investors obtain more complete passive market exposures and more balanced investment portfolios.

Thank you for investing with us!

Sincerely,

Jonathan Krane, KraneShares CEO

China capital market overview for the reporting period

- China's equity market, as measured by the MSCI China Index, was up for the period, returning 5.43%, while the global equity market, as measured by the MSCI All Country World Index (ACWI), returned 21.43%.
- China's Fixed Income market demonstrated relative stability during the period as the US Fed instituted six interest rate hikes. The 10-Year China Government Bond currently offers a yield of 2.67%, down only -2.20% from 3 October 2022, versus the 10-Year US Treasury yield of 4.57%, which is up 19.32% from 3 October 2022. China's currency, the renminbi (RMB) depreciated by -2.56% versus the US dollar for the reporting period.
- The CSI Overseas China Internet Index tracks the performance of Chinese internet companies listed in the United States and Hong Kong. The index was up 11.92% for the period compared to 5.43% for the broad China equity market, as measured by the MSCI China Index.
- The MSCI China ESG Leaders 10/40 Index is designed to provide exposure to large and mid-cap companies in China with high Environmental, Social, and Governance (ESG) ratings relative to their sector peers, according to MSCI. The index was up 4.55% for the reporting period compared to 5.43% for the broad China equity market, as measured by the MSCI China Index.
- Electric vehicle (EV) ecosystem equities, as measured by the Bloomberg Electric Vehicles & Future Mobility ESG
 Screened Index, were down -8.39% during the period compared to the global equity market, which returned 21.43%, as
 measured by the MSCI All Country World Index (ACWI). Despite the underperformance for the period, many EV
 manufacturers reported better-than-expected second quarter sales. We continue to believe in the electrification of
 transport and urge investors in the EV ecosystem to take a long-term view.
- Despite a difficult macroeconomic environment globally, we continue to see investors maturing in their understanding
 of China's capital markets and strong interest in China-focused investment solutions, especially as China continues to
 pursue a relatively accommodative monetary policy stance.

KraneShares CSI China Internet UCITS ETF (a sub-fund of KraneShares ICAV)

The KraneShares CSI China Internet UCITS ETF (the "Fund") seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the CSI Overseas China Internet Index (the "Underlying Index").

The Underlying Index is designed to measure the performance of the investable universe of publicly traded China-based companies whose primary business or businesses are in the Internet and Internet-related sectors ("China Internet Companies"), as defined by the index sponsor, China Securities Index Co., Ltd. ("CSI").

From the Fund's last reporting period to 29 September 2023 (the "reporting period"), the NAV of the Fund increased by 12.13% while the Underlying Index increased by 11.92 %, a performance difference of 0.21%. The performance difference was calculated as the deviation between the NAV return of the Fund and the total return of the underlying index.

Please see details for the Fund and the Underlying Index returns for the reporting period and since the Fund inception below:

China Internet Market Review

The repeal of China's zero COVID policy was a powerful catalyst for China Internet equities during the period. However, China Internet equities saw some declines on profit taking and uncertainty regarding China's uneven economic recovery and geopolitical tensions during the second half of the period. Going forward, we believe economic data and policy support may be the key drivers of performance in China Internet equities.

The best performing sector within the Fund for the period was Information Technology. Meanwhile, the Real Estate sector was the worst-performing sector.

We see three key positive catalysts for China Internet equities in the year to come:

- The People's Bank of China (PBOC) is likely to maintain a dovish monetary policy stance, to the benefit of growth equities.
- China's retail sales increased +5.5% year-over-year in September, indicating a continued consumer recovery.
- China's government continues to target peak emissions by 2030 and carbon neutrality by 2060, exceedingly ambitions
 goals that will require massive contributions from the private sector, including many of the companies held by the
 Fund.

KraneShares MSCI China A 50 Connect UCITS ETF (a sub-fund of KraneShares ICAV)

The KraneShares MSCI China A 50 Connect UCITS ETF (the "Fund") seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the MSCI China A 50 Connect Index (the "Underlying Index").

The Underlying Index includes 50 of the largest and most liquid large-cap Shanghai and Shenzhen listed stocks (A-Shares) available through Stock Connect. The index offers the first officially recognized Futures contracts for Stock Connect-eligible A-shares, representing a powerful risk-management tool for international investors.

From the Fund's last reporting period to 29 September 2023 (the "reporting period"), the NAV of the Fund decreased by -7.99% while the Underlying Index decreased by -7.57%, a performance difference of -0.42%. The performance difference was calculated as the deviation between the NAV return of the Fund and the total return of the underlying index and was mainly driven by the deduction of management fees.

China A Share Market Review

China's A share market was down for the period, which was reflected in the performance of the Fund. Several macroeconomic headwinds impacted the Fund's performance including the continued strengthening of the US dollar, which weighed on assets denominated in other currencies, including China's Renminbi.

Although the Fund underperformed the broad China equity market, represented by the MSCI China Index, during the period, we believe it is important to recognize that the Fund has outperformed the MSCI China Index significantly since its inception. We believe this differentiated performance over both the reporting period and the Fund's lifetime demonstrate the potential diversification benefits of owning China A shares.

The best-performing sector within the Fund for the period was Communication Services. Meanwhile, the Real Estate sector was the worst-performing sector.

We see three positive catalysts for China's A share equity market in the year to come:

- China A shares are particularly attractive due to the dovish monetary policy stance of the People's Bank of China (PBOC) and the potential for the US dollar to reverse some of its recent gains versus the Renminbi as US interest rates plateau.
- China's retail sales increased +5.50% year-over-year in September, indicating a continued consumer recovery.
- The China Securities Regulatory Commission (CSRC), PBOC, among other tax and financial authorities have announced a variety of measures to support markets including lowering stock transaction costs, lowering margin financing requirements, extending market hours, and the approval of 40 new stock funds for launches on Mainland exchanges.

The KraneShares MSCI China ESG Leaders UCITS ETF (the "Fund") seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the MSCI China ESG Leaders 10/40 Index (the "Underlying Index").

The Underlying Index captures large and mid-cap companies listed in China with a limit on individual constituent weights to 10% and sector weights to 40% of its composition to ensure satisfaction of the UCITS diversification rule. The Underlying Index is designed to provide exposure to companies with high Environmental, Social, and Governance (ESG) ratings relative to their sector peers, according to MSCI.

From the Fund's last reporting period to 29 September 2023 (the "reporting period"), the NAV of the Fund increased by 4.06%, while the Underlying Index increased by 4.55%, a performance difference of -0.49%. The performance difference was calculated as the deviation between the NAV return of the Fund and the total return of the underlying index and was mainly driven by the deduction of management fees.

China ESG Market Review

We are encouraged by the Fund's performance since inception, which still outpaces broad China equity, as represented by the MSCI China Index, supporting our thesis that ESG considerations may lead to outperformance in China.

The Fund's performance during the period was driven by exuberance over the repeal of China's zero COVID policy. The Fund's outsized exposure to technology and consumer-oriented stocks contributed significantly to gains during the period, though the Fund underperformed the MSCI China Index slightly.

In June, China extended tax breaks for new energy vehicles through 2027. The extended tax subsidy could lead to over \$70 billion in total savings for consumers who choose new energy vehicles over internal combustion engine (ICE) vehicles. This was overwhelmingly positive for the multiple electric vehicle companies held by the Fund. Nonetheless, these companies were caught up in the overall technology and growth stock selloff in China during the second half of the period.

The best-performing sector within the Fund for the period was Energy. Meanwhile, the Materials sector was the worst performing sector.

We see three key positive catalysts for China ESG Equities in the year to come:

- The People's Bank of China (PBOC) is likely to maintain a dovish monetary policy stance, to the benefit of growth equities.
- China's retail sales increased +5.5% year-over-year in September, indicating a continued consumer recovery.
- China's government continues to target peak emissions by 2030 and carbon neutrality by 2060, exceedingly ambitions
 goals that will require massive contributions from the private sector, including many of the companies held by the Fund.

The KraneShares Bloomberg Barclays China Bond Inclusion UCITS ETF (the "Fund") seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the Bloomberg Barclays China Treasury and Policy Bank 9% Capped Index (the "Underlying Index").

The Underlying Index is designed to track the performance of China's onshore, Renminbi-denominated, fixed-rate Treasury and Policy Bank debt securities that are listed on China's Interbank bond market, while capping the exposure to individual Policy Banks at 9%.

From the Fund's last reporting period to 29 September 2023 (the "reporting period"), the NAV of the Fund decreased by (0.64%) while the Underlying Index increased by 0.46%, a performance difference of (1.10%). The performance difference was calculated as the deviation between the NAV return of the Fund and the total return of the underlying index and was mainly driven by the sampling of the index performed by the Fund.

China Government Bond Market Review

The Fund was nearly flat for the period, reflecting the performance of China's currency, which appreciated slightly versus the US dollar. The People's Bank of China cut several key interest rates including the medium-term lending facility (MLF) rate, during the period, which impacted the Fund's performance by reducing the income level offered by China's government bonds. Nonetheless, the Fund performed nearly in line with the Bloomberg Global-Aggregate Bond Index.

We see three key positive catalysts for China's investment grade & government bond market in the years to come:

- Increased demand for China's currency, the Renminbi, stemming from the recent commitments from multiple economies, especially oil-exporters, to transact in the currency as opposed to the US dollar.
- The Renminbi may also appreciate if the US Federal Reserve ceases hiking interest rates for a significant period.
- China's expected economic recovery this year may also increase the attractiveness of Renminbi-denominated assets.

The KraneShares MSCI All China Health Care Index UCITS ETF (the "Fund") seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the MSCI All China Health Care Index (the "Underlying Index").

The Underlying Index is a free float-adjusted market capitalization-weighted index designed to track the equity market performance of Chinese companies engaged in the health care sector. The securities in the Index include all types of publicly issued shares of Chinese issuers, which are listed in Mainland China, Hong Kong, and the United States. Issuers eligible for inclusion must be classified under the Global Industry Classification Standard (GICS) as engaged in the healthcare sector. The issuers included in the Underlying Index may include small-cap, mid-cap, and large-cap companies.

From the Fund's last reporting period to 29 September 2023 (the "reporting period"), the NAV of the Fund increased 0.08% while the Underlying Index increased 0.49%, a performance difference of -0.41%. The performance difference was calculated as the deviation between the NAV return of the Fund and the total return of the underlying index and was mainly driven by the deduction of management fees.

China Health Care Review

The Fund was mostly flat for the period amid a challenging environment for China's healthcare sector. New antigraft regulations led to concerns about the impact on pharmaceutical sales and additional restrictions on public hospitals and medical distributors. However, the Deputy President of KURE holding Aier Eye Hospital said that the new regulations will benefit private healthcare providers such as Aier due to their transparent pricing.

The best performing industry within the Fund for the period was health care technology. Meanwhile, hospital/nursing management was the worst performing industry within the Fund.

We would also like to remind investors that China's healthcare sector is still in its early stages of development and short-term volatility should be expected. We believe the long-term growth thesis for this massive market remains intact.

We see three key positive catalysts for China's healthcare equities in the year to come:

- According to Fortune Business Insights, the global market size of contracted medical research services provided by contract research organizations (CROs) is projected to grow +12.5% in 2023 compared to last year.
- According to a paper published by Lancet Public Health this year, life expectancy in China is likely to increase to over 80 by 2035 and potentially as high as 90 for women in certain areas. This could lead to long-term, stable demand for healthcare in the foreseeable future.
- China's aging population, rising incomes, and increasing urbanization may provide a sustained catalyst for China's healthcare sector.

The KraneShares SSE STAR Market 50 Index UCITS ETF (the "Fund") seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the SSE Science and Technology Innovation Board 50 Index (the "Underlying Index").

The Underlying Index is comprised of the 50 largest companies listed on the SSE Science and Technology Innovation Board (STAR Market) as determined by market capitalization and liquidity.

From the Fund's last reporting period to 29 September 2023 (the "reporting period"), the NAV of the Fund decreased by -12.02% while the Underlying Index decreased by -7.68%, a performance difference of -4.34%. The performance difference was calculated as the deviation between the NAV return of the Fund and the total return of the underlying index and was primarily driven by the index's inclusion of a name indicated in US Executive Order 1359, which was not held in the portfolio during the period, and the deduction of management fees.

STAR Market Review

The Fund was down for the period after a significant rally in the first three months of this year. China's STAR Market, a prominent venue for technology and innovation-driven companies, faced a challenging market environment over the last reporting period, marked by several factors that applied downward pressure on the prices of shares listed on this special board of the Shanghai Stock Exchange.

China's STAR Market had experienced remarkable growth and enthusiasm from investors in the years following its launch in 2019. Many technology companies listed on the STAR Market with relatively high valuations due to the board's start-up focus. These companies were subsequently re-rated against the backdrop of a slowing economic cycle in China. The economic deceleration in China and softening global demand for electronic devices also led to margin pressure for many technology companies. Moreover, the capital raised in previous years led to, in some cases, extreme competition in certain technological industries, including semiconductors, clean technology, and biotechnology.

We believe it is important to recognize that local technology companies are seen as the primary future growth drivers of China's economy. If the Chinese economy experiences a pickup in growth, as many economists anticipate, we believe it could alleviate some of the margin pressures faced by technology companies. Additionally, a more favourable economic environment may reignite investor interest in growth sectors, leading to improved valuations and performance.

The best-performing sector within the Fund for the period was Consumer Discretionary. Meanwhile, the Industrials sector was the worst-performing sector.

We see three positive catalysts for the STAR Market in the year to come:

- Ample liquidity driven by dovish central bank policy in China, in contrast to the hawkish policy likely to continue in the US and Europe may create the conditions for a vibrant IPO market in China over the next few years.
- China's government is increasing its support for high-tech industries such as semiconductor manufacturing after restrictions on the export of high-end chips to China implemented by the US last year.
- The potential revival of financial technology company Ant Group's IPO on the STAR Market may also contribute to an
 improvement in investor sentiment.

The KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF (the "Fund) seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the Bloomberg Electric Vehicles & Future Mobility ESG Screened Index (the "Underlying Index").

The Underlying Index seeks to measure the performance of companies that are engaged in the production of electric vehicles, their components, or other initiatives that may change the future of mobility. This includes electric vehicles, autonomous driving, lithium and/or copper production, lithium-ion/lead acid battery production, hydrogen fuel cell manufacturing, and/or electric infrastructure businesses. Companies involved in ESG controversies and controversial business activities are excluded from the index.

From the Fund's last reporting period to 29 September 2023 (the "reporting period"), the NAV of the Fund decreased by -10.20% while the Underlying Index decreased by -8.39%, a performance difference of -1.81%. The performance difference was calculated as the deviation between the NAV return of the Fund and the total return of the underlying index and was mainly driven by the deduction of management fees.

Electric Vehicles Market Review

Global electric vehicle (EV) ecosystem equities were mostly lower during the period following a strong rebound to begin 2023 on positive news regarding China's reopening and declining metal prices. The higher-than-expected US inflation print for August, coupled with price cuts from electric vehicle (EV) manufacturers, may have negatively impacted investor sentiment towards the EV space towards the end of the period. Strikes organized by United Auto Workers (UAW) in the United States also weighed on EV stocks because of the potential negative impact any resolution may have on the margins of major US automakers, which have become significant players in the global EV ecosystem.

However, we believe negative sentiment towards EV equities began to subside following upbeat second quarter sales and more policy support. In June, China extended tax breaks for new energy vehicles through 2027. The extended tax subsidy could lead to over \$70 billion in total savings for consumers who choose new energy vehicles over internal combustion engine (ICE) vehicles.

EV components and raw materials stocks have led the ecosystem over the past year while charging infrastructure companies were under pressure.

We see three key positive catalysts for EV ecosystem equities in the year to come:

- Progress towards global electrification has continued steadily as electric vehicle (EV) sales reached 4 million units during the first five months of 2023 and 10 million were sold in 2022.
- In a research report published in June, Bloomberg New Energy Finance (BNEF) estimated that ICE vehicle sales peaked in 2017 and could decline to 39% below peak by 2030, a significant opportunity for EV ecosystem companies.
- China's tax break extension may fuel demand for new energy vehicles in the world's second largest economy for the next four years.

Independent Auditor's Report to the Shareholders of Kraneshares ICAV Report on the audit of the financial statements Opinion

We have audited the financial statements of Kraneshares ICAV ('the ICAV') for the year ended 30 September 2023 set out on pages 46 to 98, which comprise the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows and related notes, including the summary of significant accounting policies set out in note 2.

The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the ICAV as at 30 September 2023 and of its increase in net assets attributable to holders of redeemable participating shares for the year then ended;
- the financial statements have been properly prepared in accordance with IFRS as adopted by the European Union; and
- the financial statements have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Acts 2015 to 2021 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities section of our report. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion. Our audit opinion is consistent with our report to the audit committee.

We were appointed as auditor by the directors on 6 November 2019. The period of total uninterrupted engagement is the 5 years ended 30 September 2023. We have fulfilled our ethical responsibilities under, and we remained independent of the ICAV in accordance with, ethical requirements applicable in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA) as applied to listed public interest entities. No non-audit services prohibited by that standard were provided.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the director's assessment of the entity's ability to continue to adopt the going concern basis of accounting included:

Our evaluation of the directors' assessment of the ICAV's ability to continue to adopt the going concern basis of accounting included consideration of the inherent risks to the ICAV's business model and analysing how those risks might affect the ICAV's financial resources or ability to continue as a going concern over the twelve months from the date of when the financial statements are authorised for issue. The risks that we considered most likely to adversely affect the ICAV's available financial resources over this period included the value of assets under management, the Investment Manager's intention to continue to manage the portfolio and the directors' assessment of the operational resilience of the ICAV.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Detecting irregularities including fraud

We identified the areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements and risks of material misstatement due to fraud, using our understanding of the entity's industry, regulatory environment and other external factors and inquiry with the directors. In addition, our risk assessment procedures included:

- Inquiring with the directors and other management as to the ICAV's policies and procedures regarding compliance with laws and regulations, identifying, evaluating and accounting for litigation and claims, as well as whether they have knowledge of non-compliance or instances of litigation or claims.
- Inquiring of directors as to the ICAV's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Inquiring of directors regarding their assessment of the risk that the financial statements may be materially misstated due to irregularities, including fraud.
- Inspecting the ICAV's regulatory and legal correspondence.
- Reading Board minutes.
- Performing planning analytical procedures to identify any usual or unexpected relationships.

We discussed identified laws and regulations, fraud risk factors and the need to remain alert among the audit team.

Firstly, the ICAV is subject to laws and regulations that directly affect the financial statements including ICAV and financial reporting legislation. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items, including assessing the financial statement disclosures and agreeing them to supporting documentation when necessary.

Secondly, the ICAV is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: UCITS compliance and certain aspects of company legislation recognising the financial and regulated nature of the ICAV's activities and its legal form.

Auditing standards limit the required audit procedures to identify non-compliance with these non-direct laws and regulations to inquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. These limited procedures did not identify actual or suspected non-compliance.

We assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. As required by auditing standards, we performed procedures to address the risk of management override of controls and the risk of fraudulent revenue recognition. On this audit we do not believe there is a fraud risk related to revenue recognition. We did not identify any additional fraud risks.

In response to the fraud risks, we also performed procedures including:

- Identifying journal entries to test based on risk criteria and comparing the identified entries to supporting documentation.
- Assessing significant accounting estimates for bias.

As the ICAV is regulated, our assessment of risks involved obtaining an understanding of the legal and regulatory framework that the ICAV operates in and gaining an understanding of the control environment including the entity's procedures for complying with regulatory requirements.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remains a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

Key audit matters: our assessment of risks of material misstatement

Key audit matters are those matters that, in our professional judgement, were of most significance in the audit of the financial statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In arriving at our audit opinion above, the key audit matters was as follows (unchanged from 2022):

Valuation and accuracy of the pricing of Financial Assets at Fair Value Through Profit or Loss: USD 422.21m (2022: USD 444.02m)

Refer to note 2 (basis of preparation and significant accounting policies) note 7 (financial risk management) and note 8 (fair value measurement)

The key audit matter

The ICAV's financial assets make up 99.76% of the net asset value and are considered to be the key driver of the ICAV's results.

While the nature of the ICAV's financial assets do not require a significant level of judgement, the financial assets are identified as a significant area of audit focus due to their significance in the context of the financial statements as a whole.

The financial assets held by the ICAV includes equities and fixed income instruments.

The ICAV's financial assets have the greatest effect on our overall audit strategy and allocation of resources in planning and completing our audit and as a result is determined to be a key audit matter.

How the matter was addressed in our audit

Our audit procedures over the valuation and accuracy of the pricing of the ICAV's investment portfolio included but were not limited to:

- Obtaining an understanding of, and documenting, the process in place to record investment transactions and to value the portfolio of investments:
- Agreeing 100% of the year end portfolio prices to independent sources; and
- Assessing the disclosures of financial assets in accordance with the fair value hierarchy set out in IFRS as adopted by the EU.

Based on evidence obtained, no material misstatements were identified.

Our application of materiality and an overview of the scope of our audit

Materiality for the financial statements as a whole was set at USD 4.24m (2022: USD 4.45m), determined with reference to a benchmark of Total Assets (of which it represents 1% (2022: 1%).

In applying our judgement in determining the most appropriate benchmark, the factors, which had the most significant impact were:

- the elements of the financial statements (for example, total assets, net asset value, total investment income and decrease in net assets attributable to holders of redeemable participating shares);
- the items on which attention of the users of the ICAV's financial statements tends to be focused:

- the nature of the ICAV, where the ICAV is in its life cycle, and the industry and economic environment in which the ICAV operates; and
- the ICAV's ownership structure and the way it is financed.

In applying our judgement in determining the percentage to be applied to the benchmark, the following qualitative factors, which had the most significant impact, increasing our assessment of materiality were:

- the ICAV's ownership structure and the way in which the entity is financed;
- the limited amount of external debt on the ICAV's balance sheet; and
- the stability of the business environment in which it operates.

We applied ICAV materiality to assist us determine the overall audit strategy.

Performance materiality for the financial statements as a whole was set at USD 3.18m (2022: USD 3.34m), determined with reference to a benchmark of materiality (of which it represents 75% (2022: 75%). We applied this percentage in our determination of performance materiality because we did not identify any factors indicating a significant level of aggregation risk.

In applying our judgement in determining performance materiality, the following factors were considered to have the most significant impact on our assessment of performance materiality:

- entity level control deficiencies, such as in the control environment;
- the number and severity of deficiencies in control activities, including those that may be pervasive:
- turnover of senior management or key financial reporting personnel;
- the number and/or value of detected misstatements;
- the value of uncorrected misstatements, including the cumulative current period effect of immaterial prior period uncorrected misstatements; and
- management's attitude towards correcting misstatements.

We applied ICAV performance materiality to assist us in determining what risks were significant risks for the ICAV.

We reported to the Board of Directors any corrected or uncorrected identified misstatements exceeding USD 0.21m (2022: USD 0.22m), in addition to other identified misstatements that warranted reporting on qualitative grounds. With specific regard to the valuation of the ICAV's financial assets at fair value through profit or loss, we also report to the Board of Directors all corrected and uncorrected misstatements we have identified through our audit with a value in excess of 50 basis points of each of the ICAV's sub-funds Total Assets.

Our audit was undertaken to the materiality and performance materiality level specified above and was all performed by a single engagement team in Dublin.

Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in directors' and other information, the directors' report, investment manager's report, depositary's report, schedule of investments and supplemental unaudited information including the Statement of Portfolio Changes, UCITS Manager's Report, Securities Financing Transactions Regulations Disclosures and Sustainable Finance Disclosure Regulation. The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work undertaken during the course of the audit, we have not identified material misstatements in the other information.

Opinion on other matter prescribed by the Irish Collective Asset-management Vehicles Acts 2015 to 2021

In our opinion, the information given in the Directors' Report is consistent with the financial statements.

Matters on which we are required to report by exception

The Irish Collective Asset-management Vehicles Acts 2015 to 2021 requires us to report to you, if in our opinion, the disclosures of Directors' remuneration specified by law are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 8, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at

https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the shareholders of the ICAV, as a body, in accordance with the Section 120 of the Irish Collective Asset-management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the ICAVs shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

For the year ended 30 September 2023 (Expressed in United States Dollars)

1. Nature of operations

KraneShares ICAV (the "ICAV") was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 to 2021 (the "ICAV Act") on 15 May 2018 and authorised on 11 October 2018 by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investments in Transferable Securities) Regulations 2019 (collectively the "UCITS Regulations"). The ICAV has been established for the purpose of investing in transferable securities in accordance with the UCITS Regulations.

The ICAV is organised in the form of an umbrella fund with segregated liability between sub-funds. Each sub-fund has a distinct portfolio of investments and the investment objective and policy of each sub-fund is formulated by the investment manager. At 30 September 2023, the following sub-funds were in operation:

Sub-Funds	Launch date
KraneShares CSI China Internet UCITS ETF	20 November 2018
KraneShares MSCI China A 50 Connect UCITS ETF	27 June 2019
KraneShares MSCI China ESG Leaders UCITS ETF	4 February 2020
KraneShares Bloomberg China Bond Inclusion UCITS ETF	26 May 2020
KraneShares MSCI All China Health Care Index UCITS ETF	14 January 2021
KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF	26 May 2021
KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF	26 May 2022

At 30 September 2023, the following sub-funds were authorised by the Central Bank but were not in operation:

	Central Bank	
Sub-Funds	Authorisation Date	Launch date
KraneShares MSCI China Clean Technology Index UCITS ETF	29 June 2023	12 October 2023
KraneShares ICBCCS S&P China 500 UCITS ETF	21 July 2023	16 October 2023

Waystone Management Company (IE) Limited (the "Manager") has appointed Krane Funds Advisors LLC as Investment Manager and Distributor of the ICAV pursuant to the investment management and distribution agreement between the ICAV, the Manager and the Investment Manager dated 11 October 2018.

The registered office of the ICAV is 70 Sir John Rogerson's Quay, Dublin 2, Ireland. SEI Investments - Global Fund Services Limited (the "Administrator") is the administrator. SEI Investments - Depositary and Custodial Services (Ireland) Limited (the "Depositary") is the depositary. Brown Brothers Harriman & Co. has been appointed as the sub-custodian (the "Sub-Custodian") in accordance with the requirements of the Central Bank to perform in whole or in part any of the Depositary's duties.

2. Basis of preparation and significant accounting policies

(a) Statement of compliance

The financial statements of the ICAV is prepared in accordance with International Financial Reporting Standards ("IFRS"), as adopted by the European Union, the UCITS Regulations, and the ICAV Act 2015 to 2021. This report presents financial statements for KraneShares CSI China Internet UCITS ETF, KraneShares MSCI China A 50 Connect UCITS ETF, KraneShares MSCI China ESG Leaders UCITS ETF, KraneShares Bloomberg China Bond Inclusion UCITS ETF, KraneShares MSCI All China Health Care Index UCITS ETF, KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF and KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF as at and for the year ended 30 September 2023. There was a change in presentation during the period, whereby the financial statements were previously prepared on a Sub-Fund basis and are now prepared for the ICAV. Comparative information has been reported for the ICAV following the change in presentation.

Notes to the Financial Statements

For the year ended 30 September 2023 (Expressed in United States Dollars)

2. Basis of preparation and significant accounting policies (continued)

(b) Basis of preparation

The financial statements are presented in United States Dollars ("USD"). The financial statements have been prepared on a going concern basis and under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss.

Going concern

When reviewing the going concern basis, the Directors are of the view that the ICAV and Sub-Funds have sufficient liquidity to cover their obligations for at least 12 months and they believe that the ICAV and Sub-Funds will continue in operational existence for the foreseeable future.

No material uncertainties related to events or conditions that may cast significant doubt about the ability of the ICAV and Sub-Funds to continue as a going concern have been identified by the Directors. The portfolio of investments of all sub-funds can be easily liquidated in order to meet the redemption requests of the shareholders as they occur and meet contractual financial liabilities. Disclosures on liquidity risks and how these are managed are set out in Note 7.

The preparation of financial statements in conformity with IFRS requires management to make judgements, critical accounting estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. Please refer to Note 8 "Fair value measurement" for further details.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period and future periods if the revision affects both current and future periods.

All references to net assets throughout this document refer to net assets attributable to holders of redeemable participating shares.

(c) New standards, amendments and interpretations issued and effective for the financial year beginning 1 October 2022

The following amended standards and interpretations became effective during the calendar year 2023 but do not have a material impact on the ICAV's financial statements.

Effective date 1 January 2023:

- Disclosure of Accounting Policies Amendments to IAS 1 and IFRS Practice Statement 2
- Definition of Accounting Estimate Amendments to IAS 8
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction Amendments to IAS 12

Standards, amendments and interpretations that are not yet effective for the year and not early adopted

The following amended standard is issued but not yet effective.

Effective date 1 January 2024:

- Classification of Liabilities as Current or Non-current Amendments to IAS 1
- IFRS S1 General requirements for Disclosure of Sustainability related Financial Information
- IFRS S2 Climate related disclosures

The ICAV has not early applied this amended standard in preparing these financial statements. This standard is not expected to have a material impact on the financial statements of the ICAV in the year of initial application.

Notes to the Financial Statements

For the year ended 30 September 2023 (Expressed in United States Dollars)

2. Basis of preparation and significant accounting policies (continued)

(d) Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied for the years presented, unless otherwise stated.

i. Foreign currency translation

Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the ICAV and Sub-Funds operate. The functional currency of all Sub-Funds is United States Dollars ("USD"), being the Sub-Funds' base currency. Investor subscriptions and redemptions are received and paid in the currency of the relevant Share Class. The expenses (including management fees, custodian fees and administration fees) are denominated and paid mostly in USD. Investment securities in RMB are translated into the presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the year end date.

Foreign exchange gains and losses arising from translation are included in the Statement of Comprehensive Income.

Net gain on foreign exchange translation

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within 'Net (loss)/gain on foreign exchange translation'.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within 'Net (loss)/gain on financial assets at fair value through profit or loss'.

ii. Financial instruments

Recognition and initial measurement

The ICAV initially recognises financial assets at fair value through profit or loss ("FVTPL") on the trade date, which is the date on which the respective Sub-Fund of the ICAV becomes a party to the contractual provisions of the instrument. Other financial assets are recognised on the date on which they are originated. A financial asset or financial liability is measured initially at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue.

Classification and subsequent measurement

On initial recognition, the Sub-Funds classify financial assets as measured at amortised cost or FVTPL. A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI").
- Assets that are held for collection of contractual cash flows where those cash flows represent solely payment of principal and interest ("SPPI"), and that are not designed at fair value through profit and loss, are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance.

All other financial assets of the Sub-Funds are measured at FVTPL.

Business model assessment

In making an assessment of the objective of the business model in which a financial asset is held, the Sub-Funds consider all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Sub-Fund management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Sub-Funds continuing recognition of the assets.

The ICAV has determined that it has two business models.

- Held-to-collect business model: this includes cash and cash equivalents, subscriptions receivable and other receivables. These financial assets are held to collect contractual cash flow.
- Other business model: this includes bonds, equities and financial derivative instruments. Bonds are managed and their
 performance is evaluated, on a fair value basis, with sales taking place as required. The equities are managed and their
 performance is evaluated, on a fair value basis, with sales taking place as required. Financial derivative instruments are
 managed and their performance is evaluated, on a fair value basis, with contracts entered into on a NAV hedging and
 portfolio hedging basis.

Subsequent measurement of financial assets

Financial assets at FVTPL - These assets are subsequently measured at fair value. Net gains and losses, including any foreign exchange gains and losses, are recognised in profit or loss in 'net gain/(loss) from financial instruments at FVTPL' in the Statement of Comprehensive Income.

Equities, bonds, American depositary receipts, forward foreign exchange contracts and accrued interest are included in this category.

Financial assets at amortised cost - These assets are subsequently measured at amortised cost using the effective interest method. Interest income is recognised in 'interest income calculated using the effective interest method', foreign exchange gains and losses are recognised in 'net foreign exchange (loss)/gain' and, where significant, impairment is recognised in 'impairment losses on financial instruments' in the Statement of Comprehensive Income. Any gain or loss on derecognition is also recognised in profit or loss.

Cash and cash equivalents and subscriptions receivable are included in this category.

Financial liabilities – Classification, subsequent measurement and gains and losses Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss.

Forward foreign exchange contracts shall be valued as at the valuation point for the relevant dealing day by reference to the prevailing market maker quotations, namely, the price at which a new forward contract of the same size and maturity could be undertaken.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Financial liabilities at FVTPL:

• Held for trading: this comprises forward foreign exchange contracts.

Financial liabilities at amortised cost:

• This comprises the TER fees payable and accrued expenses and other liabilities.

Derecognition

The Sub-Funds derecognise a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the respective Sub-Fund neither transfers nor retains substantially all of the risks and rewards of ownership and do not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss. Any interest in such transferred financial assets that is created or retained by the respective Sub-Fund is recognised as a separate asset or liability.

The Sub-Funds of the ICAV enter into transactions whereby they transfer assets recognised on the respective Statement of Financial Position, but retain either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all of the risks and rewards are retained, then the transferred assets are not derecognised. Transfers of assets with retention of all or substantially all of the risks and rewards include sale transactions.

The Sub-Funds derecognise a financial liability when its contractual obligations are discharged or cancelled, or expire.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

Impairment

The ICAV recognises loss allowances for expected credit losses ("ECLs") on financial assets measured at amortised cost. The ICAV measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the ICAV considers reasonable and supporting information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the ICAV's historical experiences and informed credit assessments and including forward-looking information.

The ICAV assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due. The ICAV considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the respective Sub-Fund of the ICAV in full, without recourse by the respective Sub-Fund to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The ICAV considers a financial asset to have low credit risk when the credit rating of the counterparty is equivalent to the globally understood definition of 'investment grade'. The ICAV considers this to be Baa3 or higher per Moody's Investors Service or BBB- or higher per Standard & Poor's.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Sub-Funds are exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Sub-Funds of the ICAV expect to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Sub-Funds assess whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due; or
- it is probable that the borrower will enter bankruptcy or other financial reorganisation.

Impairment (continued)

Presentation of allowance for ECLs in the Statement of Financial Position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off when the respective Sub-Fund has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported on the Statement of Financial Position when, and only when, there is a legal enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously. Please refer to Note 7(g) "Offsetting and amounts subject to master netting/similar agreements" for further details.

iii. Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less. As at 30 September 2023 and 30 September 2022, all cash and cash equivalents were held with the Sub-Custodian.

iv. Expenses

Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using effective interest rate method.

v. Income

Dividend income is recognised when the right to receive payment is established and it is shown separately in the Statement of Comprehensive Income. The ICAV currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statement of Comprehensive Income.

Interest income is recognised on a time-proportionate basis using the effective interest method. It includes interest income on debt securities at fair value through profit or loss. Interest income from cash and cash equivalents is recognised in other income.

vi. Redeemable participating shares

The Sub-Funds of the ICAV are open-ended and issue redeemable participating shares, which are redeemable at a Shareholder's option. These shares can be put back to the respective Sub-Fund for cash equal to a proportionate share of the Sub-Funds trading Net Asset Value ("NAV") calculated in accordance with the Prospectus.

vi. Redeemable participating shares (continued)

A puttable financial instrument that includes a contractual obligation for the ICAV's Sub-Funds to repurchase or redeem that instrument for cash or another financial asset is classified as equity if it meets all of the conditions below:

- it entitles the holder to a pro rata share of the ICAV's Sub-Funds net assets in the event of the ICAV's Sub-Funds liquidation;
- it is in the class of instruments that is subordinate to all other classes of instruments;
- all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- apart from the contractual obligation for the ICAV's Sub-Funds to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any other features that would require classification as a liability; and
- the total expected cash flows attributable to the instrument over its life are based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the ICAV's Sub-Funds over the life of the instrument.

Following the change in presentation from Sub-Fund to ICAV, as noted in Note 2 (a), all shares of the Sub-Funds have been classified as liability under IAS 32 as at 30 September 2023.

KraneShares MSCI China A 50 Connect UCITS ETF, KraneShares MSCI China ESG Leaders UCITS ETF, KraneShares Bloomberg China Bond Inclusion UCITS ETF, KraneShares MSCI All China Health Care Index UCITS ETF, and KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF were previously equity classified as at 30 September 2022. Refer to the Statement of Changes in Net Assets for further details.

vii. Distribution policy

KraneShares CSI China Internet UCITS ETF, KraneShares MSCI China A 50 Connect UCITS ETF, KraneShares MSCI China ESG Leaders UCITS ETF, KraneShares MSCI All China Health Care Index UCITS ETF, KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF and KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF has accumulating share classes. The ICAV intends to accumulate all net investment income and net realised capital gains. The ICAV does not intend to make distributions in respect of the accumulating share classes.

KraneShares Bloomberg China Bond Inclusion UCITS ETF has distributing share classes. The ICAV intends to declare and pay dividends semi-annually, subject to income being available for distribution at the discretion of the Board.

KraneShares Bloomberg China Bond Inclusion UCITS ETF have made distributions in respect of the distributing share class. Total distributions of USD 48,528 on the distributing class were made by the Sub-Fund for the year ended 30 September 2023 (2022: USD 525,919).

viii. Subscriptions receivable

Subscriptions receivable are reported on the Statement of Financial Position and relate to unsettled subscriptions.

ix. Securities lending

The ICAV entered into a securities lending agency agreement with the Sub-Custodian on 28 July 2020.

Securities lending commenced on KraneShares CSI China Internet UCITS ETF in August 2020. As at 30 September 2023 the KraneShares CSI China Internet UCITS ETF was engaged in three securities lending arrangements, with multiple agreements for the same securities in some instances (30 September 2022: engaged in 17 securities lending arrangements).

Securities lending commenced on KraneShares MSCI China ESG Leaders UCITS ETF on 29 April 2021. As at 30 September 2023 the KraneShares MSCI China ESG Leaders UCITS ETF was engaged in one securities lending arrangement (30 September 2022: None).

Further information on these securities lending arrangements is available in Note 11 "Securities lending".

x. Segment reporting

Operating segments are the components of the ICAV whose results are regularly reviewed by the ICAV's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance. Various sub-fund revenues are disclosed in the respective Statement of Comprehensive Income of the sub-funds. The Board, which is considered to be the CODM, managed the ICAV on the basis of business divisions determined with reference to market focus, geographical focus, investment funding model and the ICAV's management hierarchy. It is the opinion of the CODM that each sub-fund can be treated as a segment as the return on each sub-fund is linked to a different benchmark. Revenue generated from each sub-fund is presented in the Statement of Comprehensive Income of the relevant sub-fund.

xi. Restricted cash

Each Renminbi Qualified Foreign Institutional Investor ("RQFII") is required to have a minimum reserve funding in place to mitigate settlement risks in the Shanghai and Shenzhen markets. The calculation of the settlement reserve funds requirement are performed by the local custodian based on the RQFII net remitted amount. The settlement reserve funds cannot be used for trading and repatriation, and this is why it is segregated. There is no NAV impact, just a split of the total CNY cash balance based on the requirement. The RQFII applies to KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF.

Notes to the Financial Statements

3. Taxation

Under current law and practice the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

Notwithstanding the above, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes:

- a) Any distribution payments made to shareholders by the ICAV in respect of their shares;
- b) Any encashment, redemption, cancellation or transfer of shares;
- c) The holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the ICAV in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with Section 739D of the Taxes Consolidation Act, 1997, as amended, are held by the ICAV or the ICAV has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations under the ICAV with the necessary signed statutory declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the ICAV with the necessary signed statutory declarations.

Capital gains, dividends and interest received by the ICAV may be subject to taxes, including withholding taxes in the countries in which the issuers of investments are located, which may be reflected in the Net Asset Value ("NAV") of the ICAV. Dividend and interest income has been recognised gross in the Statement of Comprehensive Income, with withholding taxes recognised separately. Such taxes may not be recoverable by the ICAV or its shareholders.

The ICAV has evaluated the tax positions and has concluded that there are no significant tax positions requiring recognition, measurement or disclosure in the financial statements. Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the Statement of Comprehensive Income. During the year ended 30 September 2023, the ICAV did not incur any interest or penalties.

4. Share capital

The authorised share capital of the ICAV is 500,000,000,000,002 shares of no par value divided into 2 Subscriber Shares of no par value and 500,000,000,000,000 shares of no par value. The Directors are empowered to issue up to all of the Shares of the ICAV on such terms as they think fit. The Subscriber Shares entitle the holders to attend and vote at any general meetings of the ICAV but do not entitle the holders to participate in the profits or assets of the ICAV except for a return of capital on a winding-up. The Subscriber Shares do not form part of the NAV of any of the ICAV's Sub-Funds. The participating shares entitle the holders to attend and vote at general meetings of the ICAV and (other than the Subscriber Shares) to participate equally in the profits and assets of the Sub-Fund to which the Shares relate, subject to any differences between fees, charges and expenses applicable to different share classes. The ICAV may from time to time by ordinary resolution increase its capital, consolidate the shares or any of them into a smaller number of shares, sub-divide the shares or any of them into a larger number of shares or cancel any shares not taken or agreed to be taken by any person. The ICAV may by special resolution from time to time reduce its share capital in any way permitted by law. At a meeting of Shareholders, on a show of hands, each Shareholder shall have one vote and, on a poll, each Shareholder shall have one vote for each whole share held by such Shareholder.

7. Financial risk management

Each Sub-Fund has exposure to the following specific risks from financial instruments:

- market risk (including price risk, currency risk, interest rate risk, and concentration risk);
- liquidity risk; and
- credit risk.

(a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The likelihood of these types of adverse changes and the extent to which they affect the business of the Sub-Funds cannot always be accurately predicted.

(i) Price Risk

Price risk is the risk that the value of an investment may fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment or all factors affecting all instruments traded in the market. The Investment Manager mitigates this risk by maintaining a diverse portfolio and by diversifying its investments across multiple industries.

The Manager monitors price risk on a daily basis in accordance with the Sub-Funds specific restrictions and the UCITS regulatory limits. The Manager has escalation procedures in place to report breaches of these risks limits to the Directors, the Depositary, the Investment Manager and the Regulator where appropriate.

Sensitivity analysis

As at 30 September 2023 and 30 September 2022, had the USD weakened by 10% in relation to all currencies, with all other variables held constant, the increase in the value of the Sub-Funds' and ICAV's investments and other net assets and liabilities including cash and cash equivalents denominated in currencies other than USD attributable to holders of redeemable participating shares is disclosed on the prior pages and above.

A 10% strengthening of the USD would have resulted in an equal but opposite effect on the above financial statement amounts on the basis that all other variables remain constant.

Foreign currency rates used in the preparation of these financial statements are disclosed in Note 6.

(iii) Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. For the years ended 30 September 2023 and 30 September 2022, interest rate risk is not material for KraneShares CSI China Internet UCITS ETF, KraneShares MSCI China A 50 Connect UCITS ETF, KraneShares MSCI China ESG Leaders UCITS ETF, KraneShares MSCI All China Health Care Index UCITS ETF, KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF and KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF.

Exposure to Interest Rate Risk

The KraneShares Bloomberg China Bond Inclusion UCITS ETF is exposed to the risk that the fair value or future cash flows from its financial instruments will fluctuate as a result of changes in market interest rates. The Sub-Fund monitors its exposure to market interest rates through its investments and cash balances. A summary of the Sub-Fund's interest rate gap positions as at 30 September 2023, categorised by maturity date, is disclosed on the next page.

Sensitivity analysis

As at 30 September 2023, had interest rates strengthened by 5%, with all other variables held constant, total net assets and the change in net assets per the Statement of Comprehensive Income would have changed by the amounts shown above. A 3% weakening of interest rates would have resulted in an equal but opposite effect on the above financial statement amounts on the basis that all other variables remain constant.

As at 30 September 2022, had interest rates strengthened by 3%, with all other variables held constant, total net assets and the change in net assets per the Statement of Comprehensive Income would have changed by the amounts shown above. A 1% weakening of interest rates would have resulted in an equal but opposite effect on the above financial statement amounts on the basis that all other variables remain constant.

(b) Liquidity Risk

This is the risk that a lack of a market in certain portfolio securities could prevent the Sub-Fund from liquidating unfavourable positions or prevent the Sub-Funds from funding redemptions from existing shareholders. As at 30 September 2023 and 30 September 2022, the investments of the Sub-Funds of the ICAV are all readily realisable. The Manager compares the liquidity of portfolio assets versus the redemption profile of the sub-funds to determine if there are any potential liquidity shortfalls. The portfolio of investments can be easily liquidated in order to meet the redemption requests of the shareholders as they occur and meet contractual financial liabilities.

The following tables details the ICAV and Sub-Funds' remaining contractual maturity for their financial liabilities.

(c) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the ICAV, resulting in a financial loss to the ICAV.

The ICAV manages credit risk by monitoring the financial condition and credit rating of their Sub-Custodian and other counter parties. All bond securities under the KraneShares Bloomberg China Bond Inclusion UCITS ETF are currently rated by Fitch Ratings with a Long Term Debt rating of A+ as at 30 September 2023 (2022: A+).

The Sub-Funds currently hold no assets with any party other than the Sub-Custodian. The Sub-Custodian, is currently rated by Fitch Ratings with a Long Term Debt rating of A+ as at 30 September 2023 (2022: A+). Insolvency or bankruptcy of the Sub-Custodian may cause the ICAV's rights with respect to its assets held by the Depositary to be delayed or limited. The maximum exposure to credit risk is the carrying value of the assets held by the respective Sub-Fund.

(d) Concentration Risk

The Sub-Funds are subject to concentration risk if they have a large exposure to a particular holding or if investors to the Sub-Funds have a holding of shares greater than 5%. Apart from KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF, the Sub-Funds invest substantively all of their assets in Chinese or Chinese related securities, and as a result these Sub-Funds will have greater exposure to market, political, legal, economic and social risks of that country than a Sub-Fund which diversifies country risk across a number of countries. KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF diversifies its country risk across a number of countries.

Each Index Tracking Sub-Fund seeks to achieve a return which corresponds generally to the price and yield performance, before fees and expenses, of the relevant Index as published by the Index Provider. There is no assurance that the Index Provider will compile the Index accurately, or that the Index will be determined, composed or calculated accurately. While the Index Provider does provide descriptions of what the Index is designed to achieve, the Index Provider does not provide any warranty or accept any liability in relation to the quality, accuracy or completeness of data in respect of the Index, and does not guarantee that the Index will be in line with the described methodology.

(e) Global exposure and leverage

Each Sub-Fund's global exposure and leverage will be calculated using the commitment approach and the Sub-Funds' global exposure will not exceed 100% of Net Asset Value. The commitment approach converts each Sub-Fund's FDI positions into the equivalent positions in the underlying assets and seeks to ensure that the FDI risk is monitored in terms of any future "commitments" to which it is (or may be) obligated.

The commitment approach global exposure rate is 0% for the Sub-Funds as at 30 September 2023 (2022: 0%).

(f) Efficient portfolio management

The ICAV on behalf of the Sub-Funds may employ techniques and instruments relating to financial derivative instruments ("FDIs") in which it invests for efficient portfolio management purposes, a list of which (if any) shall be, where relevant, set out in the relevant Supplements of the Sub-Funds. FDI's such as currency forwards and interest rate futures may be utilised for portfolio hedging. Currency forwards may be utilised for NAV hedging.

7. Financial risk management (continued)

(g) Offsetting and amounts subject to master netting/similar agreements

As at 30 September 2023, the Sub-Funds were not subject to ISDA Master Netting Agreements, which are applicable if a Sub-Fund entered into FDI contracts on an OTC basis. As part of the Securities lending arrangements for the ICAV, collateral is held with BNY Mellon as part of a tri party arrangement. As at 30 September 2023, the Sub-Funds were subject to ISDA Master Netting Agreements.

As at 30 September 2023 and 30 September 2022, there were no open financial instruments subject to enforceable master netting agreements.

8. Fair value measurement

As the Sub-Funds' investments are classified as financial assets at fair value through profit or loss, the carrying value of the Sub-Funds' investments is a reasonable approximation of fair value. The Sub-Funds accounting policy on fair value measurements is discussed in Note 2(d). The Sub-Funds measure fair values, as defined by IFRS 13 'Fair Value Measurement' ("IFRS 13"), using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data. Some bonds held by the KraneShares Bloomberg China Bond Inclusion UCITS ETF Sub-Fund would be considered less than active, and thus would be considered as Level 2 due to the limited activity in the markets that they reside. The bonds valuation methodology are vendor priced.
- Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments, each Sub-Fund determines fair values using valuation techniques as described above.

Appendix 2 – UCITS Manager's Report (Unaudited)

For the year ended 30 September 2023 (Expressed in United States Dollars)

Waystone Management Company (IE) Limited is authorized and regulated as a UCITS Manager (the "Manager") by the Central Bank under the European Union (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ("UCITS Regulations"). The Manager has appointed Krane Funds Advisors LLC as the "Investment Manager" to carry out discretionary investment management in relation to KraneShares ICAV.

Investment Objective of the Fund

The assets of the ICAV must be invested in accordance with the restrictions on investments set out in the UCITS Regulations and such additional investment restrictions in accordance with Central Bank requirements. The investment objective of the ICAV is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the investable universe of publicly traded China-based companies whose primary business or businesses are in the Internet and Internet Related sectors and which are listed outside of China ("China Internet Companies").

Remuneration Policy

The Manager has implemented a Remuneration Policy which is in line with the provisions of the UCITS Regulations and in accordance with the European Securities Market Authority Guidelines on Sound Remuneration Policies under the UCITS Directive (ESMA/2016/575). It is consistent with the business strategy, objectives, values and interests of the Manager, the ICAV and the Shareholders of the ICAV and includes measures to avoid conflicts of interest. The objective of this Policy is to ensure that the Manager maintains and applies a sound and prudent remuneration process, which identifies and manages any conflicts of interest, promotes sound and effective risk management and does not encourage risk taking which is inconsistent with the risk profile of the Manager or the risk profiles and rules of the managed UCITS.

The Manager has established a Remuneration Policy to ensure that the requirements of the Remuneration Code are met proportionately for all relevant staff. This policy applies to the Manager and the Funds it manages. In accordance with the proportionality provisions of the ESMA Guidelines on Remuneration and taking into account its size, nature and the scope of its activities, the Board has dis-applied the requirements of the ESMA Guidelines in relation to the following: variable remuneration in instruments, retention, deferral, ex post incorporation of risk for variable remuneration (together, with the immediately foregoing bullets points, the Pay-out Process Rules); and the requirement to establish a remuneration committee.

Employee remuneration disclosure

The table below provides an overview of Aggregate total remuneration paid by the Manager to all staff; and aggregate total remuneration paid by the Manager to Manager Remuneration Code Staff. The total remuneration in relation to the ICAV has been calculated by apportioning the total remuneration costs based on the Assets Under Management ("AUM") of the ICAV as a percentage of the total AUM of funds managed by the Manager.

	Headcount	Total Remuneration (USD \$'000s)
Manager staff (apportioned to ICAV)	74	\$76
of which		
Fixed remuneration	74	\$76
Variable remuneration	N/A	0

Risk Management & Risk Profile

The risk management function has effective policies and procedures in order to identify, measure, manage and monitor, on an on-going basis, all risks relevant to the ICAV's investment strategy, and to ensure that the risk profile is consistent with the risk limits. The risk management function monitors compliance with these risk limits and the Manager's Chief Risk Officer manages situations when the ICAVs risk profile is inconsistent with these limits. There were no significant changes to systems during the year.

Operational Risk

The Manager has operational risk management policies and procedures in order to identify, measure, manage and monitor appropriately operational risks including professional liability risks to which the ICAV is or could be reasonably exposed. As a result of this ongoing review, the Manager is satisfied that the control framework in place is adequate for the services being provided to the ICAV. There have been no material changes to the above process since the Manager was appointed. There were no areas of concern identified by the Manager.

Appendix 4 – Sustainable Finance Disclosure Regulation (Unaudited)

For the year ended 30 September 2023

The Sustainable Finance Disclosure Regulation ("SFDR") and Taxonomy Regulation

KraneShares MSCI China ESG Leaders UCITS ETF and KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF are classified as Article 8 funds according to the Sustainable Finance Disclosure Regulation ("SFDR"). This means that these Sub-Funds promote environmental or social characteristics in a way that meets the specific criteria contained in Article 8 of SFDR. Details are disclosed in Appendix 4. The rest of the Sub-Funds are classified as Article 6 funds. The investments underlying these Sub-Funds do not take into account the European Union criteria for environmentally sustainable activities.

During the course of the year, regulation around sustainability-related disclosures continued to evolve, through the Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088) (the "SFDR") and the EU Taxonomy Regulation (Regulation (EU) 2020/852, and amending SFDR) (the "Taxonomy Regulation") and their associated regulatory technical standards and available guidance. Additional disclosure requirements under SFDR Level 2 are applicable to all annual reports published on or after 1 January 2023 and such disclosures as they relate to the Sub-Funds can be found in Appendix 4 of this report. Such disclosures have in part been prepared using data sourced from third party data providers which was available as at the date of which the disclosures were produced. It has been observed that the availability of data continues to be challenging in some respects and there may be further regulatory guidance of relevance to the content of the disclosures that is still to be issued. The disclosures included in Appendix 4 of this report should consequently be read and understood in light of these continuing challenges. With the assistance of the Manager and the Investment Managers, the Board continues to monitor the ongoing development and evolution of sustainability-related regulation and associated guidance and the availability of relevant data in this regard.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?		
Yes	• No	
in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of% of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective	
It made sustainable investments with a social objective:%	It promoted E/S characteristics, but did not make any sustainable investments	

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Unless otherwise stated, all data provided in this disclosure is measured as at 30 September 2023.

The environmental and/or social characteristics promoted by the Sub-Fund are those promoted by the The MSCI China ESG Leaders 10/40 Index (the "Index") which the Sub-Fund tracks. The Index aims to represent the performance of large and mid-cap China Companies with high environmental, social and governance ("ESG") performance relative to their sector peers (the "China Companies").

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation

That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Appendix 4 – Sustainable Finance Disclosure Regulation (Unaudited) (continued)

For the year ended 30 September 2023

Through tracking the Index, the Sub-Fund promotes the following environmental/social characteristics:

- Investment in environmentally and socially responsible companies; and
- Avoidance of investment in companies which show a qualifying involvement from controversial activities including the production of alcohol and tobacco or gambling

How did the sustainability indicators perform?

During the period, the following sustainability indicators were used to measure the attainment of the Sub-Fund's social and environmental characteristics:

- ESG Ratings provided by the Index Provider securities must be rated average (BB) or above to be included in the Index;
- ESG Controversy Rating provided by the Index Provider securities must not be rated in the two lowest categories to be included in the Index; and
- Companies showing qualifying involvement in the following sectors are excluded from the index in compliance with the exclusionary thresholds detailed in Annex II: thermal coal, tobacco, alcohol, gambling, nuclear power and weapons, conventional weapons, controversial weapons, civilian firearms, fossil fuel extraction and thermal coal power.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-

bribery matters.

During the reporting period, the Sub-Fund held 99.74% of investments with environmental and / or social characteristics as measured as against the indicators set out above. The average tracking error for the reporting period was 0.002%. These figures are percentages average net assets as at the end of September 2022, December 2022, March 2023, June 2023, and September 2023.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Sub-Fund's Net Asset Value is invested in sustainable investments that have an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Sub-Fund does not commit to make investments that are aligned with the EU Taxonomy. For the reporting period, 0% of the Fund's investments were identified for the purpose of this report as being in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

not

What was the share of sustainable investments with an environmental objective aligned with the EU Taxonomy?

NOT APPLICABLE – The Sub-Fund does not commit to investing in sustainable investments.

What was the share of socially sustainable investments?

NOT APPLICABLE - The Sub-Fund does not commit to investing in sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments made by the Sub-Fund that may be classified as "#2 Other" include only the cash held in the Sub-Fund.

No minimum environmental or social safeguards were applied to these assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund is an index fund tracking the performance of the Index. The objective of the Sub-Fund is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the China Companies.

The investment policy of the Sub-Fund is to track the performance of the Index (or such other index determined by the Directors from time to time as being able to track substantially the same market as the Index and which is considered by the Directors to be an appropriate index for the Sub-Fund to track, in accordance with the Prospectus), as closely as possible.

The Index is a free-float adjusted market capitalisation weighted index that is designed to measure the performance of large and mid-cap China Companies with high ESG performance relative to their sector peers. The Index methodology aimed to include securities of companies with the highest ESG ratings representing 50% of the market capitalisation in each Global Industry Classification Standard ("GICS") sector.

In determining the ESG requirements for inclusion in the Index, the Index Provider utilised a three step process. Firstly, an overall rating was provided based on how well companies managed ESG risks and opportunities such as climate change, product liability and corporate behaviour, with scores and percentiles also indicating how well a company managed each individual ESG element relative to their industry peers. Secondly, an assessment of any negative ESG controversies for the relevant company was undertaken. The ESG controversies framework of the Index Provider is designed to be consistent with international norms represented by the UN Declaration of Human Rights, the International Labour Organization Declaration on Fundamental Principles and Rights of Work, and the UN Global Compact. Thirdly, an exclusion list was applied where companies meet the relevant criteria to be deemed to be involved in controversial activities including the production of alcohol and tobacco or gambling.

How did this financial product perform compared to the reference benchmark?

The Sub-Fund tracked the Index as closely as possible throughout the reporting period, regardless of whether the Index level rose or fell. The Investment Manager sought to minimise as far as possible the tracking error between the performance of the Index and that of the Sub-Fund. The average tracking error for the reporting period was 0.002%.

How does the reference benchmark differ from a broad market index?

As outline above, the Index uses specific MSCI ESG Research products – MSCI ESG Ratings, MSCI ESG Controversies, MSCI Business Involvement Screening Research and MSCI Climate Change Metrics - to determine eligibility for index exclusions, which are not a feature of the Parent Index..

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Both the Sub-Fund and the Benchmark abided by the sustainability indicators described the section above titled "How did the sustainability indicators perform". The Sub-Fund invested in assets that met these criteria 99.74% of the time on average based on quarter-end information as compared to the Benchmark which maintained exposure to assets that met these criteria 100%.

How did this financial product perform compared with the reference benchmark?

The Sub-Fund is passive and tracked the Index with minimal tracking error. The Sub-Fund returned 4.43% on a gross of fees basis, underperforming the Index performance of 4.55% by 0.12%. The Sub-Fund returned 4.03% on a net of fees basis during the reporting period.

How did this financial product perform compared with the broad market index?

The Sub-Fund returned 4.43% on a gross of fees basis, underperforming the broad market index (MSCI Global Investable Market Indexes) performance of 5.33% by 0.90%. The Sub-Fund returned 4.03% on a net of fees basis during the reporting period. The investment policy of the Sub-Fund is to track the performance of the Benchmark Index as closely as possible while seeking to minimize as far as possible the tracking difference between the Sub-Fund's performance and that of the Benchmark Index. It is not expected that the Sub-Fund will track the broad market index.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Taxonomy-aligned activities are expressed as a share of:

- turnover
 reflecting the
 share of revenue
 from green
 activities of
 investee
 companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational
 expenditure
 (OpEx) reflecting
 green operational
 activities of
 investee
 companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Sub-Fund does not commit to make investments that are aligned with the EU Taxonomy. For the reporting period, 0% of the Fund's investments were identified for the purpose of this report as being in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

NOT APPLICABLE – The Sub-Fund does not commit to investing in sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments made by the Sub-Fund that may be classified as "#2 Other" include only the cash held in the Sub-Fund.

No minimum environmental or social safeguards were applied to these assets.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund is an index fund tracking the performance of the Index. The objective of the Sub-Fund is to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of companies that are engaged in or expected to derive significant revenues from the production of electric vehicles or their components or in other initiatives that may change the future of mobility ("Electric Vehicle Companies").

The investment policy of the Sub-Fund is to track the performance of the Index (or such other index determined by the Directors from time to time as being able to track substantially the same market as the Index and which is considered by the Directors to be an appropriate index for the Sub-Fund to track, in accordance with the Prospectus), as closely as possible.

The Index screened out companies involved in ESG controversies and controversial business activities. Data for such ESG controversies was sourced by the Index Provider from Sustainalytics, an ESG data provider. The thresholds for exclusion were determined by in the Index Provider and can be summarised as follows: Extreme Event Controversies, Controversial Weapons, UNGC Violation, Civilian Firearms, Thermal Coal Extraction and Tobacoo.

All companies which have been assessed by ESG data provider, Sustainalytics as being subject to Extreme Event Controversies or which have that have breached a principle of the UN Global Compact were excluded from the Index.

Further details on the Index can be found at: https://www.bloomberg.com/professional/product/indices/bloomberg-equity-indices/, https://assets.bbhub.io/professional/sites/10/Bloomberg-Electric-Vehicles-ESG-Screened-Index-Select-Constituents.pdf.

https://assets.bbhub.io/professional/sites/10/Bloomberg-Electric-Vehicles-ESG-Screened-Index-Select-Constituents.pdf.

The Sub-Fund tracked the Index as closely as possible throughout the reporting period, regardless of whether the Index level rose or fell. The Investment Manager sought to minimise as far as possible the tracking error between the performance of the Index and that of the Sub-Fund. The average tracking error for the reporting period was 0.003%.

How does the reference benchmark differ from a broad market index?

The Index methodology provides for two core exclusionary criteria which are not features of the Parent Index (Bloomberg World Equity Aggregate Index):

- Investment in companies that were engaged in or expected to derive significant revenues from the production of electric vehicles or their components or in other initiatives that may change the future of mobility; and
- Avoidance of investment in companies which were involved in environmental, social and governance ("ESG") controversies and controversial business activities, based on data from the ESG data provider,

 Sustainalytics.
