It is the intention of Jupiter Unit Trust Managers Limited to make this Report & Accounts available on their website. The maintenance and integrity of the Jupiter Unit Trust Managers Limited website is the responsibility of the Directors; the work carried out by the auditors of the Jupiter Merlin Growth Portfolio does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.

Fund Information *(continued)*

Investment Objective

(Prior to 15 May 2023)

To provide a return, net of fees, higher than the IA Flexible Investment Sector average over the long term (at least five years).

(From 15 May 2023)

To provide a return, through a combination of capital growth and income, net of fees, over the long term (at least five years).

Investment Policy

(Prior to 15 May 2023)

At least 70% of the Fund is invested in collective investment schemes. Up to 30% of the Fund may be invested in other assets, including shares of companies, cash and near cash.

The Fund may only enter into derivative transactions for the purposes of efficient portfolio management (including hedging), i.e. to reduce risk, minimise costs or generate additional capital and/or income. The Fund may not enter into derivative transactions for investment (i.e. speculative) purposes.

(From 15 May 2023)

At least 70% of the Fund is invested in collective investment schemes. Up to 30% of the Fund may be invested in other assets, including shares of companies, cash and near cash. Typically the Fund will have at least 75% exposure (direct and/or indirect) to shares of companies.

The Fund may only enter into derivative transactions for the purposes of efficient portfolio management (including hedging), i.e. to reduce risk, minimise costs or generate additional capital and/or income. The Fund may not enter into derivative transactions for investment (i.e. speculative) purposes.

Benchmark

With effect from 15 May 2023, the benchmark was reclassified from target benchmark to comparator benchmark, with consequent revisions to the investment objectives and investment policy.

Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics. This Fund is classified in the IA Flexible Investment Sector.

Status

The Fund operates under the Investment Funds Sourcebook (FUND) where applicable and the Collective Investment Schemes Sourcebook (COLL) of the Financial Conduct Authority. The Fund is an authorised unit trust scheme under Section 237 of the Financial Services and Markets Act 2000 and is a Non UCITS Retail Scheme (NURS) as defined in the COLL rules.

The Fund is a qualifying fund for inclusion within a stocks and shares Individual Savings Account (ISA). It is the Manager's intention to continue to manage the affairs of the Fund in order to meet the qualifying requirements as outlined in current legislation.

Unit Classes

In addition to the basic class of units which are available to all types of investors, the Fund also offers I-Class Units which are available to investors who invest a minimum of £1,000,000 and J-Class Units are available to investors who invest a minimum of £500 (who buys units directly from the Manager and not through any intermediary or advisor). Further details are available from the Manager on request. Please note that in order to distinguish between the unit classes within the Fund they are defined in this report as either L-Class Units (non I-Class and non J-Class) or I-Class or J-Class Units. The unit types associated with each unit class are disclosed in the Comparative Tables on pages 6 and 7.

This document is for informational purposes only and is not investment advice. Market and exchange rate movements can cause the value of an investment to fall as well as rise, and you may get back less than originally invested. We recommend you discuss any investment decisions with a financial adviser, particularly if you are unsure whether an investment is suitable. Jupiter is unable to provide investment advice. Current tax levels and reliefs will depend on your individual circumstances and are subject to change in the future. **This Fund can invest more than 35% of its value in securities issued or guaranteed by an EEA state.** For definitions please see the glossary at jupiteram.com. Every effort is made to ensure the accuracy of any information provided but no assurances or warranties are given. Company examples are for illustrative purposes only and are not a recommendation to buy or sell. Quoted yields are not guaranteed and may change in the future. Jupiter Unit Trust Managers Limited is authorised and regulated by the Financial Conduct Authority and their registered address is The Zig Zag Building, 70 Victoria Street, London, SW1E 6SQ.

Investment Report

Performance Review

For the year ended 31 August 2023, the Fund returned 4.9%* in sterling terms, compared to 0.4%* for its comparator benchmark, IA Flexible Investment sector average. Over five years, the Fund returned 32.5%* compared to 17.3%* for its comparator benchmark.

**Source: Morningstar, gross income reinvested net of fees, in GBP. The performance statistics disclosed above relate to I-Class units unless otherwise stated.*

Market Review

As western economies flirt with recession (though despite the most aggressive series of interest rate rises in history, the US remains frustratingly buoyant as the Federal Reserve tries to return American inflation below 2%), equity investors have lost none of their appetite for rapidly chasing up the share prices of a small number of apparently attractive 'growth' companies while largely avoiding most others. In dollar terms, the broad-based US S&P500 index appreciated 15% over the period under review; however, more than 80% of this rise was attributable to only seven companies (dubbed 'The Magnificent 7'), mainly focused on technology and including electric vehicle maker Tesla; collectively, the remaining 493 made very little impression. Meanwhile, the UK FSTE100, having experienced some volatility in the interim, ended the period almost exactly where it began.

Policy Review

We continue actively to manage the Portfolio according to the conditions.

Activity in the first half of the period largely focused on the style tilt within our equity holdings, trimming our 'growth' holdings in Fundsmith Equity and BlueBox Global Technology and adding to the Jupiter 'value' funds managed by Ben Whitmore (the eagle-eyed will notice a reduction in Jupiter UK Special Situations and an increase in Jupiter Global Value; both are managed by Ben; this switch was merely a geographic shift away from a significant UK exposure towards global equities but within the same investment strategy.)

We believe that in the transition towards carbon net-zero, oil companies are part of the solution not merely the problem; selectively, some present investment opportunities. Having opened a position in BlackRock World Energy a year ago, we subsequently added to it, benefiting from the oil price rise in the most recent quarter.

The US remains an attractive place in which to invest. The bedrock of capitalism, it is one of the global cradles of innovation and development. Seeking alternative means of accessing attractive opportunities and using proceeds from our existing holding in Findlay Park American, we opened three new positions. First, the Prevatt Global Master Fund, managed by Jonathan Tepper with an impressive track record focusing on a limited number of quality growth companies, particularly those with oligopoly or dominant market positions; second, the Long Walk Master Fund, managed by James Zimmerman, another concentrated portfolio this time biased towards technology but in an alignment with shareholder interests focusing very much on companies in which management teams have a substantial equity interest in their own business; finally, Pacific North American Opportunities managed by Chris Fidyk, with an emphasis on quality US small/midcap companies and healthcare in particular. A further source of funds was from the disposal of Jupiter Global Equity Growth Unconstrained, a good quality fund but one which struggled in an environment of high interest rates.

The final new equity addition was Evenlode Global Equity which applies the same successful investment process as Evenlode Income to the global universe, populating its portfolio with high quality companies priced at what they deem to be reasonable valuations.

A foot in both 'growth' and 'value' camps avoids the traps inherent in chasing momentum and constantly being faced with making binary decisions and second-guessing swings in style. Our performance, whether absolute or relative to the sector, suggests this nudge-on-the-tiller approach has been appropriate, not least because we do not profess to have all the answers when it comes to the outcome of momentous world events.

Investment Report *(continued)*

Investment Outlook

Interest rates must be closer to their peak than at the beginning of the cycle when they were virtually zero (or negative in Europe). Whether they are actually at the peak is a moot point, as is the expectation of when they might begin to come down again. Much depends on the future path of inflation in the context of the principal central banks' common target of 2%. Their narrative remains that interest rates will probably remain 'higher for longer', confounding many investors' hopes for an inverted 'V' shape to the rate cycle.

In such extraordinary times we believe it pays to keep an open investment mind, not to paint oneself into a corner from which later it may be difficult to exit. Commensurate with one's own appetite for risk, to have a diversified portfolio whether by asset class, geography, or investment style according to preference. Equities remain our own preferred asset class and whether with a 'growth' or 'value' tilt, we continue to focus on the best, most resilient companies the managers with whom we invest with can find.

The Jupiter Merlin Portfolios are long-term investments; they are certainly not immune from market volatility, but they are expected to be less volatile over time, depending on the risk tolerance of each. With liquidity uppermost in our mind, we seek to invest in funds run by experienced managers with a blend of styles but who share our core philosophy of trying to capture good performance in buoyant markets while minimising as far as possible the risk of losses in more challenging conditions.

Comparative Tables *(continued)*

Portfolio Turnover Rate

The Portfolio Turnover Rate (PTR) of the Fund, based on the figures included within the financial statements for the year as indicated below, is as follows:

	Year to 31.08.23	Year to 31.08.22
Portfolio Turnover Rate	60.26%	88.59%

The PTR provides an indication of the rate the Manager has bought and sold the underlying assets of the Fund during the year as indicated above. In general, the higher the PTR of a fund, the greater level of portfolio transaction costs will be incurred.

Risk and Reward Indicator

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The lowest category does not mean 'no risk'. Some risk will still be present in funds with a risk and reward rating of 1.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls).

Charges

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. They include the costs (less any rebates) incurred by the underlying funds held during the period.

Charges taken from the Fund over the year to:	31.08.23	31.08.22
Ongoing charges for L-Class Units	2.22%	2.26%
Ongoing charges for I-Class Units	1.47%	1.51%
Ongoing charges for J-Class Units	1.82%	1.86%

Statement of Authorised Fund Manager's Responsibilities in relation to the Financial Statements of the Scheme

The Financial Conduct Authority's Collective Investment Schemes (COLL) and, where applicable, Investment Funds (FUND) Sourcebooks, as amended (the Sourcebooks) require the Authorised Fund Manager (the 'Manager') to prepare financial statements for each annual accounting period which give a true and fair view of the financial affairs of the Scheme and of its revenue and expenditure for the year. In preparing the financial statements the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- prepare the accounts on a going concern basis, unless it is inappropriate to do so;
- comply with the requirements of the Statement of Recommended Practice for Authorised Funds;
- follow applicable accounting standards; and
- keep proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements.

The Manager is responsible for the management of the Scheme in accordance with the Sourcebooks and the Scheme's Trust Deed and Prospectus. The Manager is also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of Trustee's Responsibilities in relation to the Financial Statements of the Scheme and Report of the Trustee to the Unitholders of the Jupiter Merlin Growth Portfolio ("the Fund") for the Year Ended 31 August 2023

The Trustee must ensure that the Fund is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Trust Deed and Prospectus (together "the Scheme documents") as detailed below.

The Trustee must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Fund and its investors.

The Trustee is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Fund in accordance with the Regulations.

The Trustee must ensure that:

- the Fund's cash flows are properly monitored and that cash of the Fund is booked in cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Fund are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Fund's assets is remitted to the Fund within the usual time limits
- the Fund's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

The Trustee also has a duty to take reasonable care to ensure that the Fund is managed in accordance with the Regulations and the Scheme documents of the Fund in relation to the investment and borrowing powers applicable to the Fund.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Trustee of the Fund, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects the Fund, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Fund's units and the application of the Fund's income in accordance with the Regulations and the Scheme documents of the Fund; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Fund in accordance with the Regulations and the Scheme documents of the Fund.

Independent auditors' report to the Unitholders of Jupiter Merlin Growth Portfolio

Report on the audit of the financial statements

Opinion

In our opinion, the financial statements of Jupiter Merlin Growth Portfolio (the "Fund"):

- give a true and fair view of the financial position of the Fund as at 31 August 2023 and of the net revenue and the net capital gains on its scheme property for the year then ended; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law), the Statement of Recommended Practice for UK Authorised Funds, the Collective Investment Schemes sourcebook and the Trust Deed.

We have audited the financial statements, included within the Annual Report & Accounts (the "Annual Report"), which comprise: the Balance Sheet as at 31 August 2023; the Statement of Total Return, and the Statement of Change in Net Assets Attributable to Unitholders for the year then ended; the Distribution Tables; and the Notes to the Financial Statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Fund's ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the Authorised Fund Manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Fund's ability to continue as a going concern.

Our responsibilities and the responsibilities of the Authorised Fund Manager with respect to going concern are described in the relevant sections of this report.

Independent auditors' report to the Unitholders of Jupiter Merlin Growth Portfolio *(continued)*

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Authorised Fund Manager is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Based on our work undertaken in the course of the audit, the Collective Investment Schemes sourcebook requires us also to report certain opinions as described below.

Authorised Fund Manager's Report

In our opinion, the information given in the Authorised Fund Manager's Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Responsibilities for the financial statements and the audit

Responsibilities of the Authorised Fund Manager for the financial statements

As explained more fully in the Statement of Authorised Fund Manager's Responsibilities in relation to the Financial Statements of the Scheme, the Authorised Fund Manager is responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Authorised Fund Manager is also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Authorised Fund Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Authorised Fund Manager either intends to wind up or terminate the Fund, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Independent auditors' report to the Unitholders of Jupiter Merlin Growth Portfolio *(continued)*

Based on our understanding of the Fund/industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of the Collective Investment Schemes sourcebook, and we considered the extent to which non-compliance might have a material effect on the financial statements, in particular those parts of the sourcebook which may directly impact on the determination of amounts and disclosures in the financial statements. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to increase revenue or to increase the net asset value of the Fund. Audit procedures performed included:

- Discussions with the Authorised Fund Manager, including consideration of known or suspected instances of non-compliance with laws and regulation and fraud;
- Reviewing relevant meeting minutes, including those of the Authorised Fund Manager's board of directors;
- Identifying and testing journal entries, specifically any journals posted as part of the financial year end close process; and
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Fund's unitholders as a body in accordance with paragraph 4.5.12 of the Collective Investment Schemes sourcebook and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Independent auditors' report to the Unitholders of Jupiter Merlin Growth Portfolio *(continued)*

Other required reporting

Opinion on matter required by the Collective Investment Schemes sourcebook

In our opinion, we have obtained all the information and explanations we consider necessary for the purposes of the audit.

Collective Investment Schemes sourcebook exception reporting

Under the Collective Investment Schemes sourcebook we are also required to report to you if, in our opinion:

- proper accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Directors' Statement

Jupiter Merlin Growth Portfolio

This report has been prepared in accordance with the requirements of the Financial Conduct Authority's Collective Investment Schemes Sourcebook and Investment Funds Sourcebook where applicable and the Statement of Recommended Practice issued by the Investment Association.

Directors: Paula Moore, Philip Wagstaff

Jupiter Unit Trust Managers Limited

London

31 October 2023

Notes to the Financial Statements

1. Significant Accounting Policies

(a) Basis of Accounting

The financial statements have been prepared on the historical cost basis as modified by the revaluation of investments, in compliance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook. They have been prepared in accordance with FRS 102 and the Statement of Recommended Practice for Financial Statements of UK Authorised Funds issued by The Investment Management Association (now referred to as the Investment Association) in May 2014 (the 2014 SORP) and amended in June 2017.

As stated in the Statement of Authorised Fund Managers' Responsibilities in relation to the Financial Statements of the Scheme on page 11, the Manager continues to adopt the going concern basis in the preparation of the financial statements of the Fund.

The accounting policies outlined below have been applied on a consistent basis throughout the year.

(b) Revenue

All dividends and interest from underlying funds declared ex-dividend during the year ended 31 August 2023 are included in revenue, net of any attributable tax.

Any reported revenue from an offshore fund in excess of any distributions is recognised as revenue after the end of the reporting period, not later than the date when the reporting fund makes this information available.

Bank interest are accrued up to the year end date.

The Fund holds units or shares in other Collective Investment Schemes and funds (underlying funds). Any management fee rebates from underlying funds are recognised on an accruals basis. Where it is the policy of the underlying fund to charge its management fee to capital in determining its distribution, the Fund has recognised any such rebates as capital.

(c) Expenses

All expenses, including overdraft interest, but excluding those relating to the purchase and sale of investments, are charged against the revenue of the Fund. All of the Fund's expenses are recognised on an accruals basis.

(d) Valuation of Investments

The investments of the Fund have been valued using bid market values ruling on international stock exchanges at Close of Business on 31 August 2023, being the last valuation point of the year. Market value is defined by the SORP as fair value which is generally the bid value of each security.

The investments of the Fund in other Jupiter Unit Trusts which are single priced have been valued at the single price at Close of Business on 31 August 2023. For investments in other Collective Investment Schemes, they are valued at the bid price for dual priced funds and at the single price for single priced funds as defined by the SORP as being their respective fair value.

Where a stock is unlisted or where there is a non liquid market, a valuation for this stock has been obtained from market makers where possible, and suspended stocks are normally valued at their suspension price. However, where the Manager believes that these prices do not reflect a fair value, or where no reliable price exists for a security, it is valued at a price which in the opinion of the Manager reflects a fair and reasonable price for that investment.

A Valuation and Pricing Committee (VPC) of the Investment Manager is responsible for approving unquoted prices. The VPC meets on a quarterly basis and consists of representatives from various parts of the Investment Manager who act as an independent party, segregated from the fund management function to review and approve fair value pricing decisions and pricing models on a regular basis.

Notes to the Financial Statements *(continued)*

1. Significant Accounting Policies *(continued)*

(e) Foreign Exchange

Transactions in foreign currencies are translated into Sterling at the rates ruling at the dates of the transactions. Assets and liabilities expressed in foreign currencies are translated at the rates ruling at Close of Business on 31 August 2023, being the last valuation point of the year.

(f) Taxation

Corporation Tax is provided at 20% on revenue, other than UK dividends and overseas dividends, after deduction of expenses. Where overseas tax has been deducted from overseas revenue that tax can, in some instances, be set off against Corporation Tax payable, by way of double taxation relief.

The charge for tax is based on the profit for the year and takes into account deferred taxation because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred Tax is provided using the liability method on all timing differences, calculated at the rate at which it is anticipated the timing differences will reverse. Deferred Tax assets are recognised only when, on the basis of available evidence, it is more likely than not that there will be taxable profits in the future against which the Deferred Tax can be offset.

(g) Equalisation

Equalisation received from underlying funds is treated as capital of the Fund.

2. Distribution Policies

(a) Basis of Distribution

All of the net revenue available for distribution at the end of the final accounting period will be distributed to unitholders as a dividend distribution. In order to achieve a controlled dividend flow to unitholders, interim distributions may be made at the Manager's discretion, up to a maximum of the distributable revenue available for the period. Should expenses and taxation together exceed revenue, there will be no distribution and the shortfall will be met from capital.

(b) Distributions Dates

Net revenue, if any, will be distributed or accumulated to unitholders as a dividend distribution, semi-annually on 30 April (interim) and 31 October (final) in respect of the accounting year periods ending the last day of February (interim) and 31 August (Final).

(c) Unclaimed Distribution

Distributions which have remained unclaimed by Unitholders for more than six years are credited to the capital property of the Fund.

Notes to the Financial Statements *(continued)*

3. Net Capital Gains/(Losses)

The net gains/(losses) on investments during the year comprise:

	31.08.23 £	31.08.22 £
Currency gains	656,692	1,102,944
Gains/(losses) on non-derivative securities	63,976,569	(38,988,033)
Management fee rebates	2,330,957	2,925,870
Net capital gains/(losses)	66,964,218	(34,959,219)

Gains on non-derivative securities	£	£
Realised gains	154,913,981	245,278,749
Unrealised losses	(90,937,412)	(284,266,782)
	63,976,569	(38,988,033)

Where realised gains/(losses) include (losses)/gains arising in previous periods, a corresponding gain/(loss) is included in unrealised (losses)/gains.

4. Revenue

	31.08.23 £	31.08.22 £
UK dividends (franked) from authorised collective investment schemes	23,078,170	23,721,384
Offshore distributions from collective investment schemes	1,328,340	–
UK dividends (unfranked) from authorised ICVCs and unit trusts	20,677	–
Bank interest	486,299	18,498
Management fee rebates	3,566,340	2,683,721
Total revenue	28,479,826	26,423,603

5. Expenses

	31.08.23 £	31.08.22 £
Payable to the Manager, associates of the Manager and agents of either of them:		
Annual management charge	–	14,166,287
	–	14,166,287
Other expenses:		
Fixed Annual Charge	18,893,087	3,364,576
Aggregate Operating Fee	–	3,132,966
	18,893,087	6,497,542
Total expenses	18,893,087	20,663,829

*The audit fee (excluding VAT) incurred during the year was £14,157 (31.08.22: £12,528). The current year amount is borne by the Manager.

Notes to the Financial Statements *(continued)*

6. Taxation

(a) Analysis of charge in the year:

	31.08.23 £	31.08.22 £
Irrecoverable income tax	796	–
Total tax charge for the year	796	–

(b) Factors affecting total tax charge for the year:

The tax assessed for the year is lower (2022: lower) than the standard rate of Corporation Tax in the UK for an authorised unit trust. The differences are explained below:

	31.08.23 £	31.08.22 £
Net revenue before taxation	9,471,976	5,755,629
Corporation tax of 20% (2022: 20%)	1,894,395	1,151,126
Effects of:		
Current year expenses not utilised	2,255,048	3,007,977
Revenue not subject to taxation	(4,615,634)	(4,744,277)
Irrecoverable income tax	796	–
Taxable revenue in capital	466,191	585,174
Total tax charge for the year	796	–

Authorised unit trusts are exempt from tax on capital gains, therefore any capital return is not included in the above reconciliation.

(c) Provision for Deferred Tax

At 31 August 2023, there are surplus management expenses of £254,019,353 (31.08.22: £242,744,116). It is unlikely the Fund will generate sufficient taxable profits in the future to utilise this amount and therefore a Deferred Tax asset of £50,803,872 (31.08.22: £48,548,824) has not been recognised.

Notes to the Financial Statements *(continued)*

7. Distributions

The distributions take account of amounts received on the issue of units and deducted on the cancellation of units and comprise:

	31.08.23 £	31.08.22 £
Interim distribution	1,841,158	1,902,383
Final distribution	8,076,731	5,095,935
	9,917,889	6,998,318
Amounts received on issue of units	(115,002)	(43,276)
Amounts paid on cancellation of units	343,887	199,570
Net distributions for the year	10,146,774	7,154,612
Reconciliation of net revenue after taxation to distributions:		
Net revenue after taxation	9,471,180	5,755,629
Tax relief on capitalised expenses	466,191	585,174
Equalisation on conversions	209,403	161,478
Net movement in revenue account	–	37
Transfer from capital for revenue deficit**	–	652,294
Net distributions for the year	10,146,774	7,154,612

**No final distribution has been paid to holders of L-Class Units as there was an excess of expenses over revenue in respect of these unit classes for the prior year. No interim distribution has been made in respect of J-Class units as there was an excess of expenses over revenue in respect of these unit classes during the interim period and prior year. No interim distribution has been made in respect of L-Class units as there was an excess of expenses over revenue in respect of these unit classes during the interim period. The deficit has been covered by a transfer from the capital of the Fund during the prior year (as described in Note 2 on page 20).

Details of the distributions in pence per unit are shown in the Distribution Tables on pages 33 to 35.

8. Debtors

	31.08.23 £	31.08.22 £
Accrued revenue	1,593,361	1,594,288
Amounts receivable for issue of units	518,838	467,162
Management fee rebates receivable	820,481	849,328
Sales awaiting settlement	–	41,604,750
Income tax recoverable	3,340	–
Total debtors	2,936,020	44,515,528

Notes to the Financial Statements *(continued)*

9. Cash and Bank Balances

	31.08.23 £	31.08.22 £
Cash and bank balances	15,279,698	164,074,200
Total cash and bank balances	15,279,698	164,074,200

10. Other Creditors

	31.08.23 £	31.08.22 £
Accrued expenses	403,907	439,766
Amounts payable for cancellation of units	1,527,147	765,612
Purchases awaiting settlement	–	42,086,250
Total other creditors	1,931,054	43,291,628

11. Contingent Assets, Liabilities and Capital Commitments

The Fund had no contingent assets and liabilities or capital commitments at the balance sheet date (31.08.22: £nil).

12. Related Party Transactions

Jupiter Unit Trust Managers Limited (JUTM), as Manager, is a related party in respect of their dealings with the Fund. JUTM acts as principal in respect of all transactions of units in the Fund. The aggregate monies received through issue and paid on cancellation are disclosed in the Statement of Change in Net Assets Attributable to Unitholders and, if applicable, in Note 7 (Distributions).

Amounts receivable/(payable) from JUTM in respect of issues/cancellations are disclosed in the Statement of Change in Net Assets Attributable to Unitholders. At the year end, a net balance of £1,008,310 was payable to JUTM (31.08.22: £298,450 payable to JUTM). These amounts are included in amounts receivable for issue of units in Note 8 (Debtors) and amounts payable for cancellation of units in Note 10 (Other Creditors).

Any amounts due to or from JUTM at the end of the accounting year are disclosed in Notes 8 and 10. Amounts paid to JUTM in respect of fund management and if any rebates/expense waiver received are included in Note 5 (expenses). At the year end, £403,907 (31.08.22: £439,766) was payable to JUTM. This amount is included as part of accrued expenses in Note 10.

Holdings in other Jupiter products at the year-end, which are shown in the portfolio statement on page 9 are valued at £413,713,550 (31.08.22: £422,650,175). During the year, the Fund had purchases totalling to £63,305,950 and sales proceeds totalling to £97,555,453. There were no outstanding trade transaction at year end (31.08.22: receivable £41,604,750 and payable £42,086,250).

Dividends received from Jupiter products during the year totalled £6,922,540 (31.08.22: £3,324,434). At the year end, dividend receivable amounted to £81,692 (31.08.22: £65,182). This amount is included as part of accrued revenue in Note 8.

Where investments are held in other Jupiter products, a rebate could be paid into the Fund. Amounts received from other Jupiter products as management fee rebates are included in Note 3 (Net Capital Gains) and Note 4 (Revenue). At the year end, £320,134 (31.08.22: £234,052) was receivable from other Jupiter products. This amount is included as management fee rebates receivable in Note 8.

Notes to the Financial Statements *(continued)*

13. Financial Instruments

In pursuing its investment objectives the Fund invests in other funds, which in turn, will invest in a number of financial instruments. The Fund, and the underlying funds, can also invest in securities and other investments and hold cash balances, short term fixed deposits, bank overdrafts and debtors and creditors that arise directly from its operations, for example, in respect of sales and purchases awaiting settlement, amounts receivable from issues and payable for cancellations and debtors for accrued revenue.

The Fund may enter into derivative transactions, the purpose of which will only be for efficient management of the Fund and not for investment purposes.

The Fund has little exposure to liquidity, credit, cash flow and counterparty risk. These risks are not significant at current levels. The main risks it faces from its financial instruments are market price, foreign currency and interest rate risk. The Manager reviews policies for managing these risks in pursuance of the Investment Objective and Policy as set out on page 2 and they are summarised later. These risks remain unchanged from the prior year.

Adherence to investment guidelines and to investment and borrowing powers set out in the Trust Deed, Scheme Particulars and in the rules of the Collective Investment Schemes Sourcebook mitigates the risk of excessive exposure to any particular type of security or issuer. Further information on the investment portfolio is set out in the Investment Review and Portfolio Statement.

Leverage

In accordance with the requirements under the Alternative Investments Fund Managers Directive (AIFMD), the leverage employed by the Fund as at 31 August 2023 was 1:0:99 (31.08.22: 1:0:90) as determined using the Gross method and 1:1 (31.08.22: 1:1) as determined using the Commitment method.

Average leverage on a gross exposure basis is calculated by taking the sum of the notional values of the derivatives used by the Fund, without netting, and is expressed as a ratio of the Fund's net asset value. Average leverage on a commitment basis is calculated by netting the sum of the notional values of the derivatives and expressing it as a ratio of the Fund's net asset value.

Disclosed in the table below is the level of leverage employed by the Fund.

	Maximum limit	Average leverage employed during the year to 31.08.23
Gross exposure	2:1	1:0:99
Commitment exposure	2:1	1:1

	Maximum limit	Average leverage employed during the year to 31.08.22
Gross exposure	2:1	1:0:90
Commitment exposure	2:1	1:1

Market Price Risk

Market price risk arises mainly from uncertainty about future prices of financial instruments held by the Fund. It represents the potential loss the Fund might suffer through holding market positions which are affected by adverse price movements.

The Manager regularly considers the asset allocation of the portfolio in order to minimise the risk associated with particular markets or industry sectors whilst continuing to follow the Investment Objective and Policy (as set out on page 2).

Notes to the Financial Statements *(continued)*

13. Financial Instruments *(continued)*

Price Risk Sensitivity

A ten per cent increase in the value of the Fund's portfolio would have the effect of increasing the return and net assets by £161,448,925 (31.08.22: £148,231,586). A ten per cent decrease would have an equal and opposite effect.

Foreign Currency Risk

A substantial proportion of the net assets of the Fund is denominated in currencies other than Sterling, with the effect that the balance sheet and total return can be significantly affected by currency movements.

Currency	31.08.23 £	31.08.22 £
US Dollar	529,527,624	475,533,384

Foreign Currency Risk Sensitivity

A ten per cent increase in the value of the Fund's foreign currency exposure would have the effect of increasing the return and net assets by £52,952,762 (31.08.22: £47,553,338). A ten per cent decrease would have an equal and opposite effect.

Notes to the Financial Statements *(continued)*

13. Financial Instruments *(continued)*

Interest Rate Risk

The Fund holds various cash positions and any change to the interest rates may result in either revenue increasing or decreasing.

Interest Rate Risk Profile of Financial Assets and Financial Liabilities

The interest rate risk profile of the Fund's financial assets and liabilities at 31 August 2023 was:

Currency	Floating Rate financial assets £	Fixed Rate financial assets £	Financial assets not carrying interest £	Total £
31.08.23				
US Dollar	54,266	–	529,473,358	529,527,624
Sterling	15,225,432	–	1,087,951,908	1,103,177,340
Total	15,279,698	–	1,617,425,266	1,632,704,964

31.08.22				
US Dollar	–	–	475,533,384	475,533,384
Sterling	164,074,200	–	1,051,298,008	1,215,372,208
Total	164,074,200	–	1,526,831,392	1,690,905,592

Currency	Floating Rate financial liabilities £	Fixed Rate financial liabilities £	Financial liabilities not carrying interest £	Total £
31.08.23				
Sterling	–	–	2,394,158	2,394,158
Total	–	–	2,394,158	2,394,158

31.08.22				
Sterling	–	–	43,587,745	43,587,745
Total	–	–	43,587,745	43,587,745

There are no material amounts of non interest-bearing financial assets, which do not have maturity dates, other than equities, and therefore no sensitivity analysis has been disclosed in these financial statements.

The floating rate financial assets and liabilities include bank balances that bear interest. Interest rates on Sterling and overseas bank balances as supplied by the custodian may vary in line with market conditions and the size of deposit. Overdraft interest is calculated at the current Bank of England base rate plus 1.00%.

Notes to the Financial Statements *(continued)*

14. Fair Value of Investments

There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value.

The fair value of investments has been determined using the following hierarchy:

Level 1: Unadjusted quoted price in an active market for an identical instrument;

Level 2: Valuation techniques using observable inputs other than quoted prices within level 1;

Level 3: Valuation techniques using unobservable inputs.

Basis of valuation	Assets £	Liabilities £
31.08.23		
Level 1	35,885,206	–
Level 2	1,470,892,744	–
Level 3	107,711,296	–
Total	1,614,489,246	–

Basis of valuation	Assets £	Liabilities £
31.08.22		
Level 1	34,697,020	–
Level 2	1,447,618,844	–
Level 3	–	–
Total	1,482,315,864	–

Notes to the Financial Statements *(continued)*

14. Fair Value of Investments *(continued)*

The majority of financial instruments are classified as level 2: Observable Inputs. Instruments classified as level 3: Unobservable data comprise non-market traded and unquoted securities

Generally for the non-market traded and unquoted securities, where there is no price source from an active market for an investment, the Manager has applied judgement in determining the fair value. The Manager has used several valuation methodologies as prescribed in the International Private Equity and Venture Capital valuation guidelines to arrive at their best estimate of fair value. Valuation techniques used by the Manager are set out in Accounting Policies note 1(d). The fair value is established by using measures of value such as:

- Price of recent transactions — Management determine the fair value based on the price of recent transactions made by management or a third party.
- Milestone analysis — Management assess the investment company's progress against milestones expected at the time of investment in order to determine whether an adjustment is required to the transaction price to determine fair value.
- Multiples — Earnings or Revenue multiples are selected from comparable public companies based on geographic location, industry, size, risk profile, earnings growth prospects, target markets and other factors that management consider reasonable. A discount for lack of liquidity may then be applied to represent the adjustment to comparable company multiples to reflect the illiquidity of the portfolio companies relative to the comparable peer group. Management determines the discount for lack of liquidity based on its judgement, after considering market liquidity conditions and company specific factors such as the development stage of the portfolio company. One of the most common forms of multiples used for cash generating companies are EV/EBITDA multiples as EBITDA is generally seen to represent a good proxy for free cash flow. These are applied where appropriate based on the development of underlying portfolio companies but other multiples such as EV/Revenue may also be considered.
- Net assets — Management determine the fair value based on the net asset value of the underlying portfolio company.

In applying the above valuation techniques in arriving at the fair value the Manager has assessed any further information available from internal and external sources to arrive at an estimated fair value, which includes but is not limited to the following:

- Reference to listed securities of the same company.
- Consideration of seniority of the securities held and terms of repayment upon realisation.
- Consideration of any trading restrictions on the investment company's shares that would limit Manager's ability to realise its holding.
- Consideration of any outstanding payments to be made by Manager.
- Industry statistics or events (such as mergers and acquisitions).

The fair value of the Fund's investment in Long Walk Master Fund and Prevatt Global Investments Funds are determined using the independently provided external valuation which is then verified as part of a robust governance process involving the Valuation and Pricing Committee.

Expenses and other charges	–	–	–
	<u>319</u>		<u>319</u>
Purchases including transaction costs	<u>700,147,332</u>		<u>700,147,332</u>
Analysis of total sales costs			
Sales in year before transaction costs	946,732,058		946,732,058
Commissions	(321)	–	(321)
Expenses and other charges	–	–	–
	<u>(321)</u>		<u>(321)</u>
Sales net of transaction costs	<u>946,731,737</u>		<u>946,731,737</u>

Commissions and expenses and other charges as % of average net assets:

Commissions	0.00%
Expenses and other charges	0.00%

The average portfolio dealing spread as at the balance sheet date was 0.00%

16. Unitholders' Funds

The Fund has the following unit classes in issue, with the following charges and minimum initial investment levels:

Unit Class	Initial Charge	Fixed Annual Charge	Minimum Initial investment
L-Class Units	0.00%	1.72%	£500
I-Class Units	0.00%	0.97%	£1,000,000
J-Class Units	0.00%	1.32%	£500

Revenue and other expenses, not included in the table above, are allocated each day pro rata to the value of the assets attributable to each unit class and taxation is calculated by reference to the net revenue after expenses attributable to each unit class. Due to the varying expenses, the level of net revenue after expenses attributable to each unit class and the distributable revenue is likely to differ.

Notes to the Financial Statements *(continued)*

16. Unitholders' Funds *(continued)*

The Net Asset Value per unit and the number of units in each class are given in the Comparative Tables on pages 6 and 7. All unit classes have the same rights on winding up.

Reconciliation of Units	L-Class Income	L-Class Accumulation	I-Class Income	I-Class Accumulation
Opening number of units at 1 September 2022	9,358,154	78,181,469	11,868,258	184,337,661

Distribution Tables *(continued)*

All Unit Types

The relevant information required by a corporate unitholder is as follows:

■ Franked investment income	100.00%
■ Annual payment	0.00%
(non-foreign element)	

Equalisation applies only to units purchased during the distribution period (Group 2 units). It is the average amount of revenue included in the purchase price of all Group 2 units and is refunded to holders of these units as a return of capital. Being capital, it is not liable to Income Tax but must be deducted from the cost of units for Capital Gains Tax purposes.

General Information (unaudited)

UCITS V Remuneration Qualitative Disclosures

Decision-making process to determine remuneration policies

Under the Jupiter's Group's framework ultimate responsibility in remuneration matters is held by the Board of Directors of Jupiter Fund Management Plc. The Board is supported in remunerated-related issues by the Remuneration Committee ("RemCo").

The Board is responsible for establishing the Group Remuneration Policy, and with support of the RemCo regularly reviewing the Group Remuneration Policy to meet any important regulatory developments and the objectives of the Group.

The RemCo is delegated with the role of supporting the Board in setting remuneration guidelines, establishing share-based remuneration plans, and approving the aggregate variable remuneration expenditure of the Group as well as determining and proposing to the Board the individual total remuneration payable to the members of the Board (other than its chairman) for approval. The RemCo ensures that the Remuneration Policy and practices across the Group operate in line with EU regulations that apply to its regulated entities and delegates.

The RemCo regularly reports to the Board on the status of its activities, the development of the remuneration architecture within the Group as well as on the operational implementation of this Policy. The RemCo consists of at least three members of the Board all of whom are Non-Executive Directors.

Jupiter's remuneration philosophy is aligned with the Group's pre-incentive operating profit as well as its tolerance for risk. The Group's approach provides for remuneration that attracts and retains employees in each local market and motivates them to contribute to the development and growth of its business. The policy promotes sound and effective risk management and does not encourage inappropriate risk taking.

Link between pay and performance

As described above, Jupiter operates a Group-wide remuneration policy, which applies to all employees across the Group.

Jupiter ensures that any measurement of performance used to evaluate the quantum of variable remuneration elements or pools of variable remuneration elements:

- includes adjustments for current and future risks, taking into account the cost and quantity of the capital and the liquidity required;
- takes into account the need for consistency with the timing and likelihood of the firm receiving potential future revenues incorporated into current earnings;
- is based on the performance of the Group, the individual and the relevant function / business unit or in the case of a fund manager, the fund(s), where financial and non-financial criteria are considered when assessing individual performance; and
- is set within a multi-year framework to ensure that the assessment process is based on longer term performance and associated risks, and to ensure that payment is spread over an appropriate period.

General Information (unaudited) *(continued)*

Material Risk Takers

The categories of staff for inclusion as Material Risk Takers for JUTM include:

- Executive and non-executive members of the Board
- Other members of senior management
- Staff responsible for control functions

The Material Risk Takers are identified and reviewed on an annual basis by the relevant entities and the RemCo in line with the criteria set out under EU regulations, namely:

If, in the performance of their professional activities certain staff of a delegate portfolio manager can have a material impact on the risk profiles of the funds they manage, these employees are considered as "Identified Staff". For this purpose, the Group considers the respective delegate portfolio manager as subject to equally effective regulation if they are required by law and regulations or in accordance with internal standards to put in place a remuneration policy, which in accordance to the ESMA Remuneration Guidelines is considered equivalent in its objectives. The Group's regulated entities will only delegate its portfolio management to firms, whose remuneration policy complies with the 'equivalence standard' as described.

In line with ESMA Guidelines, proportionality is considered taking into account the following factors:

- The percentage of assets under management;
- Total assets under management; and
- The average ratio between its fixed and variable remuneration paid to staff.

It should be noted that despite use of proportionality, the Group's compensation arrangements involve high levels of deferral, payment in shares and performance adjustment provisions on commercial and risk management grounds.

Further details in relation to the Qualitative disclosures are included in the Group Remuneration Policy.

General Information (unaudited) *(continued)*

Quantitative disclosures

The remuneration data provided below reflects amounts paid in respect of the performance year 2022 in relation to the funds managed by JUTM.

As at 31 December 2022, JUTM had GBP 27.3 billion assets under management consisting of 34 authorised Unit Trust, 12 sub-funds within 2 Open-Ended Investment Companies and 2 Investment Trusts.

Total annual remuneration paid to all Management Company employees:	
Of which fixed:	
Of which variable:	
Number of Management Company employees:	
Total remuneration paid to Identified Staff of the Management Company:	£8,678,282
Of which paid to Senior Management:	£2,755,669
Of which paid to other Identified Staff:	£5,922,613
Number of Identified Staff:	23
Total annual remuneration paid to employees in delegate(s):	£10,337,391
Of which fixed:	£1,344,131
Of which variable:	£8,993,260
Number of beneficiaries:	6

Notes

Remuneration for Material Risk Takers includes remuneration paid to employees of other group companies performing senior management functions for the Management Company.

Remuneration for Material Risk Takers includes remuneration paid to employees of other group companies who perform fund management activities on behalf of the Management Company under the terms of a delegation agreement between the Management Company and their employer. The remuneration disclosed for these employees is the proportion of their total remuneration for the fund management activities they perform under a delegation agreement.

In the figures above, fixed remuneration relates to salary and pension benefits and variable remuneration includes the annual bonus including any long-term incentive awards.

These disclosures are in line with Jupiter's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops Jupiter may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other Jupiter fund disclosures in that same year.

Due to the increasing complexity of the business (i.e., Merian transaction), the information that is needed to provide a further breakdown of remuneration is not readily available and would not be relevant or reliable.

Implementation of the remuneration policy for the Group is subject to an annual independent review. No material outcomes or irregularities were identified as a result of the most recent independent review, which took place in 2022.

General Information (unaudited) *(continued)*

Tax Information Reporting

UK tax legislation requires fund managers to provide information to HMRC on certain investors who purchase units in unit trusts. Accordingly, the Fund may have to provide information annually to HMRC on the tax residencies of those unitholders that are tax resident out with the UK, in those countries that have signed up to the OECD's ('Organisation for Economic Cooperation and Development') Common Reporting Standard for Automatic Exchange of Financial Account Information (the 'Common Reporting Standard'), or the United States (under the Foreign Account Tax Compliance Act, 'FATCA').

All new unitholders that invest in the Fund must complete a certification form as part of the application form. Existing unitholders may also be contacted by the Registrar should any extra information be needed to correctly determine their tax residence.

Failure to provide this information may result in the account being reported to HMRC.

For further information, please see HMRC's Quick Guide: Automatic Exchange of Information – **information for account holders: gov.uk/government/publications/exchange-of-information-account-holders**.

Value Assessment

The Assessment of Value report for Jupiter Merlin Growth Portfolio, contained within a Composite Report on each of Jupiter's Unit Trusts is published annually on the Document Library at **www.jupiteram.com** within 4 months of the reference date 31 March.

General Information (unaudited) *(continued)*

Advice to Unitholders

In recent years, investment related scams have become increasingly sophisticated and difficult to spot. We are therefore warning all our unitholders to be cautious so that they can protect themselves and spot the warning signs.

Fraudsters will often:

- contact you out of the blue
- apply pressure to invest quickly
- downplay the risks to your money
- promise tempting returns that sound too good to be true
- say that they are only making the offer available to you
- ask you to not tell anyone else about it

You can avoid investment scams by:

- **Rejecting unexpected offers** – Scammers usually cold call but contact can also come by email, post, word of mouth or at a seminar. If you have been offered an investment out of the blue, chances are it's a high risk investment or a scam.
- **Checking the FCA Warning List** – Use the FCA Warning List to check the risks of a potential investment. You can also search to see if the firm is known to be operating without proper FCA authorisation.
- **Getting impartial advice** – Before investing get impartial advice and don't use an adviser from the firm that contacted you.

If you are suspicious, report it:

- You can report the firm or scam to the FCA by contacting their Consumer Helpline on **0800 111 6768** or using their online reporting form.
- If you have lost money in a scam, contact **Action Fraud** on **0300 123 2040** or **www.actionfraud.police.uk**

For further helpful information about investment scams and how to avoid them please visit **www.fca.org.uk/scamsmart**

Responsible Stewardship

Jupiter believes that responsible stewardship is an important issue and aims to act in the best interests of all its stakeholders by engaging with the companies that it invests in, and by exercising its voting rights with care. We believe companies with high standards of corporate responsibility, governance and sustainable business practices create an appropriate culture to enhance good investment performance. **Jupiter's Corporate Governance and Voting Policy** and its compliance with the **UK Stewardship Code**, together with supporting disclosure reports are available at **www.jupiteram.com**.
