Interim management report

The directors (the "Directors") present the interim report and unaudited financial statements of Leverage Shares Plc (the "Company") for the half financial year ended 31 December 2023.

Principal activities and business review

The Company is a limited liability company, incorporated in Ireland on 27 January 2017, under Irish Company law with registered number 597399. The Company is an orphan vehicle, with the shares held for the benefit of a charitable trust (see note 15 to the interim financial statements). The Company is registered in Ireland as a Section 110 vehicle. The Company has been established as a special purpose vehicle (the "SPV") for the purpose of issuing exchange traded securities. The Company commenced trading on 8 December 2017.

The Company established a collateralised exchange traded product programme (the "Programme") under which the Company issues, on an ongoing basis, collateralised exchange traded products (the "ETPs") of different series (each a "Series") or tranches (each a "Tranche") linked to underlying equity securities each providing leveraged long or short exposure to specified equity securities or basket of securities tracking particular investment strategies or industry sectors (each individually a "Component Security", collectively the "Component Securities"). The aggregate number of ETPs issued under the Programme will not at any time exceed 5,000,000,000,000.

Each Series constitutes limited recourse obligations of the Company, secured on and payable solely from the Component Securities constituting the ETP in respect of such Series. Each Series of ETPs may comprise one or more Tranches. The ETPs have been listed for trading on the London Stock Exchange, Euronext Amsterdam. Borsa Italiana and Deutsche Boerse.

Each ETP provides leveraged or short exposure to a single Component Security. Each Series is assigned a leverage factor in the relevant final terms. The proceeds of the issuance of each Series or Tranche will be deposited with Interactive Brokers LLC and Goldman Sachs (the "Custodians" and the "Margin Account Providers"). For leveraged Series the Margin Account Provider provides funding so as to enable an amount equal to the proceeds of the issuance of the relevant Series multiplied by the applicable leverage factor will be invested in the Component Security of the relevant Series. For each Series providing long exposure the Company has physical ownership of the Component Securities. For Series providing short exposure the Issuer will short sell the Component Securities which it will borrow from the Margin Account Provider with the proceeds from the issuance acting as collateral.

The ETPs do not bear interest at a prescribed rate. The return (if any) on the ETPs is calculated in accordance with the redemption provisions set out in the base prospectus of the Company.

During the financial period ended 31 December 2023, the Company fully redeemed 36 Series (31 December 2022: fully redeemed five Series) and 10 Series were created (31 December 2022: 42 Series). As at 31 December 2023, the Company had 149 Series in issue (30 June 2023: 175 Series).

General information regarding the Company is further described in note 1 to the interim financial statements.

Key performance indicators

During the half financial year:

- the Company made a profit before tax of USD Nil (31 December 2022: USD Nil) and profit after tax of USD Nil (31 December 2022: loss after tax of USD 15.094):
- the Company's realised gains on financial assets designated at fair value through profit or loss amounted to USD 65,422,544 (31 December 2022 : realised losses of USD 122,461,476);
- the Company's unrealised losses on financial assets designated at fair value through profit or loss amounted to USD 81,614,060 (31 December 2022: USD 15 385 326):
- the Company's realised losses on financial liabilities designated at fair value through profit or loss amounted to USD 65,422,544 (31 December 2022: realised gains of USD 122,461,476);
- the Company's unrealised gains on financial liabilities designated at fair value through profit or loss amounted to USD 106,932,526 (31 December 2022: USD 21,679,333);
- dividend income from Component Securities amounted to USD 1,127,680 (31 December 2022: USD 249,595);
- there were subscriptions in the existing Series of ETP Securities as disclosed in note 11 to the interim financial statements; and
- there were partial redemptions of the existing Series of ETP Securities as disclosed in note 11 to the interim financial statements;
 - 36 Series were fully redeemed (31 Dec 2022: 5 Series); and
 - 10 new Series were issued (31 Dec 2022: 42 Series).

As at 31 December 2023:

- the net liabilities of the Company were USD 17,939 (2022: assets of USD 7,574).

Interim management report (continued)

Future developments

The Company has plans to grow its range of ETPs over the course of 2023/2024 and is actively working on increasing its market penetration across its full range of products.

Going concern

The Directors believe the Company is a going concern. The nature of the Company's business dictates that the outstanding ETPs may be redeemed at any time by any authorised participant who has entered into an authorised participant agreement with the Company. As the redemption of ETPs will coincide with the sale of an equal amount of the Component Security, no liquidity risk is considered to arise. The Company has entered into its primary service contracts with service providers on a non-recourse and non-petition basis and these costs are being met by Leverage Shares Management Company Limited (as Arranger) and in return the Arranger receives the arrangement fees earned on the Series. Therefore, the Directors consider the Company to be a going concern and have prepared the financial statements on this basis.

The Company has a small deficit in reserves and is engaging with the Arranger on the most appropriate means to address same and is confident the deficit will be addressed.

Principal risks and uncertainties

The ETP's are exposed to investor sentiment as regards: the overall markets, specific sectors; individual equities; and, investment strategies. The ETPs can therefore be exposed to significant price adjustments which are magnified by the use of leverage in some of the products.

The key risks to the business relate to the use of financial instruments. A summary of these risks, including Operational Risk, is set out in note 17 to the financial statements.

Market overview

The following aspects of the underlying market may affect the market price of the ETP Securities among other factors:

- the value and volatility of the Index referenced by such Series of ETP Securities and the Component Securities underlying that Index;
- the nature and value of any Component Securities relating to such Series of ETP Securities;
- market perception, interest rates, yields and foreign exchange rates; and
- whether or not any market disruption is subsisting.

For the half financial year from July 1, 2023 till the end of December, the S&P 500 was up 7% while the Nasdaq-100 was up 10.6%. "AI" ("Artificial Intelligence") dominated market narratives: tech companies - both large and small - central to this field received the lion's share of investor attention as large corporations ramped up spending to build out service offerings centered around AI. This investor focus was to the detriment of other companies that derived their revenues from consumption of goods and services, with their forward outlook and guidance becoming increasingly cautious.

Results and dividends for the financial year

The results for the financial period are set out on page 7. The Directors do not recommend the payment of a dividend for the financial period (31 December 2022: USD Nil).

Directors, Secretary and their Interests

None of the Directors who held office on 1 July 2023 and 31 December 2023 held any shares or ETP Securities in the Company at that date, or during the half financial year. There were no contracts of any significance in relation to the business of the Company in which the Directors had any interest, as defined in Section 309 of the Companies Act 2014, at any time during the half financial year. Further information is set out in note 16 to the interim financial statements.

Lisa Hand resigned as Director of the Company on 14 August 2023 and Ciaran Connolly was apppointed on same date.

Shares and shareholders

The authorised share capital of the Company is EUR 25,000 which has been fully issued and paid. All the issued shares are held by Monument Trustees Limited. All shares are held in trust for charity under the terms of declaration of trust. Further information is set out in note 14 and note 15 to the interim financial statements.

Accounting records

The Directors believe that they have complied with requirements of Section 281 to 285 of the Companies Act 2014 with regards to keeping adequate accounting records by contracting with the Administrator who has appropriate experience and expertise. The accounting records of the Company are maintained at 2nd Floor, Block 5, Irish Life Centre, Lower Abbey Street, Dublin 1, Ireland.

Subsequent events

Subsequent events are disclosed in note 18 of the financial statements.

Interim management report (continued)

Audit committee

The sole business of the Company relates to the issuance of ETPs. Given the functions performed by the various service providers and the limited recourse nature of the securities issued by the Company, the Directors has concluded that there is currently no need for the Company to have a separate audit committee in order for the Board to perform effective monitoring and oversight of the internal controls and risk management systems of the Company in relation to the financial reporting process. Accordingly the Company has availed itself of the exemption under Section 1551 of the Companies Act 2014.

On behalf of the Directors

Neil Fleming

Ciaran Connolly Director

Date: 28 March 2024

Directors' responsibilities statement

The Directors are responsible for preparing the management report and the interim financial statements in accordance with the Companies Act 2014 and the applicable regulations.

The Directors confirm that, to the best of their knowledge:

- the condensed financial statements, which have been prepared in accordance with applicable accounting standards, give a true and fair view of the assets, liabilities, financial position and results of the Company; and
- the Interim Management Report includes a fair review of:
 - important events that have occurred during the first six months of the financial year;
 - the impact of those events on the condensed financial statements; and
 - a description of the principal risks and uncertainties for the remaining six months of the financial year.

The Directors further indicate that such interim financial statements for the half financial year ended 31 December 2023 have not been audited.

Approved and authorised for issue on behalf of the Board:

Notes to the financial statements

For the half financial year ended 31 December 2023

1 General information

The Company is a limited liability company, incorporated in Ireland on 27 January 2017, under Irish Company law with registered number 597399. The Company is an orphan vehicle, with the shares held for the benefit of a charitable trust (see note 15). The Company is registered in Ireland as a Section 110 vehicle. The Company has been established as an SPV for the purpose of issuing exchange traded securities. The Company commenced trading on 8 December 2017

The Company established a collateralised Programme under which the Company issues, on an ongoing basis, collateralised ETPs of different Series or Tranche linked to underlying equity securities each providing leveraged long or short exposure to specified Component Securities. The aggregate number of ETPs issued under the Programme will not at any time exceed 5,000,000,000,000.

Each Series constitutes limited recourse obligations of the Company, secured on and payable solely from the Component Securities constituting the ETP in respect of such Series. Each Series of ETPs may comprise one or more Tranches. The ETPs have been listed for trading on the London Stock Exchange, Euronext Amsterdam, Borsa Italiana and Deutsche Boerse.

Each ETP provides leveraged or short exposure to a single Component Security. Each Series is assigned a leverage factor in the relevant final terms. The proceeds of the issuance of each Series or Tranche will be deposited with the Custodian and the Margin Account Provider. For leveraged Series the Margin Account Provider will procure that an amount equal to the proceeds of the issuance of the relevant Series multiplied by the applicable leverage factor will be invested in the Component Security of the relevant Series. For each Series providing long exposure the Company has physical ownership of the Component Securities. For Series providing short exposure the Issuer will short sell the Component Securities which it will borrow from the Margin Account Provider with the proceeds from the issuance acting as collateral.

The ETPs do not bear interest at a prescribed rate. The return (if any) on the ETPs is calculated in accordance with the redemption provisions set out in the base prospectus of the Company.

2 Basis of preparation

(a) Statement of compliance

The condensed financial statements for the half financial year ended 31 December 2023 have been prepared in accordance with International Accounting Standard ("IAS") 34 'Interim Financial Reporting'. The condensed interim financial statements should be read in conjunction with the annual financial statements for the financial year ended 30 June 2023 and the unaudited interim financial statements for the financial period ended 31 December 2022.

(b) New standards, amendments or interpretations

(i) New standards and interpretations adopted during the half financial year

No accounting standards became effective on or after 1 July 2023.

(ii) Standards not yet effective, but available for early adoption

A number of new standards and amendments to existing standards, listed below, have been published which are mandatory, but are not effective for the period ended 31 December 2023. The directors do not anticipate that the adoption of these revised standards and interpretations will have a significant impact on the figures included in the financial statements in the period of initial application.

The following amendments are effective for the period beginning 1 January 2024:

- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2);
- \bullet Definition of Accounting Estimates (Amendments to IAS 8); and \square
- Deferred Tax Related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12).

For the half financial year ended 31 December 2023

2 Basis of preparation (continued)

(b) New standards, amendments or interpretations (continued)

(ii) Standards not yet effective, but available for early adoption (continued)

The following amendments are effective for the period beginning 1 January 2024:

- IFRS 16 Leases (Amendment Lease liability in a Sale and Leaseback
- IAS 1 Presentation of Financial Statements (Amendment Classification of Liabilities as Current or Non-current); and
- IAS 1 Presentation of Financial Statements (Amendment Non-current Liabilities with Covenants).

*Where new requirements are endorsed, the EU effective date is disclosed. For un-endorsed standards and interpretations, the IASB's effective date is noted. Where any of the upcoming requirements are applicable to the Company, it will apply them from their EU effective date.

The Directors have considered the new standards as detailed in the above table and does not plan to adopt these standards early. The application of the above standards will be considered in detail in advance of a confirmed effective date by the Company.

(c) Segmental reporting

The standard on segmental reporting puts emphasis on the "management approach" to reporting on operating segments. An operating segment is a component of the Company that engages in business activities from which it may earn revenue and incur expenses.

The Company is engaged in one segment, being a Collateralised ETP Securities Programme under which the Company issues on an ongoing basis ETP Securities of different Series linked to a range of equity securities. All the Company's ETPs track equities of US companies.

The financial results from this segment are equivalent to the financial statements of the Company as a whole.

The following is a geographical analysis of the revenue by the country of the counterparty:

All unrealised gains/(losses) on assets are attributable to market risk arising from price movements on the Component Securities.

The Company purchases Component Securities in underlying traded companies, exchange traded funds and investment structures as set out in the relevant Series documentation. The Company has physical ownership of the Component Securities. The Component Securities are traded regularly on US stock exchanges and the prices listed on the exchange of these securities as at 31 December 2023 represent their fair value.

The Component Securities held by the Company as at 31 December 2023 and 30 June 2023 are as follows:

The Component Securities are held by the Custodians in margin accounts. Margin accounts represent (i) cash borrowings or, (ii) in respect of positive balances, cash held in the margin account as collateral for short positions. A daily margin interest rate corresponding to the relevant benchmark rate plus 1.5% is charged by the Margin Account Provider to the Company due to cash borrowing costs resulting from obtaining exposure to the Component Security of the relevant index of such Series.

Fair value on short exposure to Component Securities is the market value of the short positions taken in equities that underly the short exposure Series and is measured at fair value through profit and loss. ETP Securities issued for a particular Series are measured at fair value through profit or loss.

The Company's obligations under the financial liabilities issued are secured by the Component Securities and margin account balances as per notes 8 and 10 to the financial statements. The noteholders' recourse per Series is limited to the assets of that particular Series. Each Series has an option for early redemption.

All unrealised gains/(losses) on financial liabilities are primarily attributable to market risk arising from price movements in the Component Securities.

Details about the ETP Securities exchanges on which the ETPs are listed are disclosed in the Director's report.

The ETPs in issue at 31 December 2023 and 30 June 2023 are as follows:

The return on each Series of ETPs is linked to the daily performance of the applicable index for such Series. The redemption amount of the ETPs is derived from the liquidation of the collateral assets, as purchased or sold in accordance with the leverage factor of such Series of ETPs. Each Series of ETPs constitutes limited recourse obligations of the Company, secured on and payable solely from the assets constituting the Security in respect of such Series.

13 Payable to GWM Limited

Where new capital is being invested into an ETP there may be a timing gap between the trade date and the receipt of the proceeds from the ETP issuance (normally T+3) and the Margin Account Provider may not provide the funding required to enable the portfolio administrator to execute the trade and maintain the economic exposure to the relevant index. When such events occurred during the year, GWM Limited provided the necessary funding to facilitate the trade. GWM Limited have been making available to the Company a line of credit of up USD 1,000,000. GWM Limited has limited recourse to the proceeds of the ETP issuances.

The balance payable to GWM Limited at the year end is USD 268,764 (30 June 2023: receivable of USD 1,947,855).

17 Financial risk management

Risk management framework

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company has attempted to match the properties of its financial liabilities to its financial assets, to avoid significant elements of risk generated by mismatches of investment performance against its obligations together with any maturity or interest rate risk. The Company uses the net proceeds of the issuance of ETPs to invest in Component Securities. The Component Securities (including cash held as collateral) for each Series of ETPs will produce net cash flows to service all the Company's payment obligations in respect of that Series. The Company mitigates its exposure to market risk (interest rate risk, currency risk and price risk) and liquidity risk. However, the security holders are still exposed to these risks and these risks are not managed by the Company as the investors have entered the ETP program for the purpose of obtaining exposure to these risks. This economic hedge is executed through the Company's activities as described above and through its agreements with its counterparties. Refer to "Operational risk" section for more details.

The risk profile of the Company is such that market, credit, liquidity and other risks of the Component Securities are borne fully by the holders of ETPs issued. The ETPs issued are initially recorded at the value of the net proceeds received and are carried as financial liabilities at fair value through profit or loss. The ultimate amount to be repaid to the ETP holders will depend on the proceeds from the related Component Securities (including cash held as collateral). All substantial risks and rewards associated with the performance of the Component Securities are ultimately borne by the ETP holders. Therefore, any change in risk variables would not affect the equity or the results of the Company.

The Company, and ultimately the holders of the ETP Securities, have exposure to the following risks from its use of financial instruments:

- (a) Market risk;
- (b) Credit risk;
- (c) Liquidity risk; and
- (d) Operational risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing these risks.

(a) Market risk

The Company's liabilities in respect of the ETP Securities issued is referenced to various equity securities and is managed by the Company by investing in Component Securities which match the liability created by the issue of ETPs and margin account funding.

(i) Interest rate risk

As the Company has invested in Component Securities to match the ETP Securities in issue and the margin account balance, there is deemed to be no interest rate risk to the Company.

For the half financial year ended 31 December 2023

(a) Market risk (continued)

(i) Interest rate risk (continued)

Sensitivity analysis

Any change in the benchmark rate for the margin account will be offset by a change in the valuation of the ETP Securities. The ETP Security value includes cash borrowing costs. This is the finance expense on the margin account. The finance expense on the margin account equates to a daily margin interest rate corresponding to the relevant benchmark rate plus one per cent and as a result is floating in nature.

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. As the Company's activity is the investment in Component Securities whose base currency matches the base currency of the ETPs and margin account, there is deemed to be no currency risk to the Company. As at 31 December 2023, the Company is owed EUR 26,703 from Leverage Shares LLC (30 June 2023: Eur 26,703). As the balance is minimal, the Directors are satisfied that the Company faces minimal currency risk and thus have not included any sensitivity analysis in these financial statements.

(iii) Price risk

Price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its Company or all factors affecting all instruments traded in the market. The Company does not consider price risk to be a significant risk to the Company as any fluctuation in the value of financial assets at fair value through profit or loss held by the Company will be offset by movements in the fair value of the issued ETP Securities.

(b) Credit risk

Credit/Counterparty risk refers to the risk that the Custodian will default on its contractual obligations resulting in the Company being unable to make payment of amounts due to the ETP Securities holders or collect the amounts due from broker. Accordingly, the Company and the ETP Securities holders are exposed to the creditworthiness of the Custodian.

The broker and the Custodian for the Component Securities, held on 31 December 2023 is Interactive Brokers Ireland Limited. Interactive Brokers Ireland Limited has a BBB+ (30 June 2023: BBB+) Outlook Positive rating from Standard and Poor's. The Custodian will identify in its own books that the Component Securities belong to the Company.

(c) Liquidity risk

Liquidity risk is the risk that the Company may be unable to fulfil its obligations, whether expected or unexpected. The maturity date of the ETP Securities has been disclosed in note 11 to the interim financial statements. ETP Securities cannot be issued without a matching investment in a Component Security being put in place. ETPs can be issued and redeemed daily, therefore this is the earliest maturity date for the purpose of the maturity analysis below.

The ability of the Company to generate enough arranger fees for Leverage Shares Management Company Limited to fund the Company's operational expenses on a long term basis is impacted by the value of the Company's investment in Component Securities which is in turn principally impacted by investor appetite for the ETPs and movements in the market value of the Component Securities.

Contractual undiscounted cashflows

The return on each Series of ETP Securities will be linked to the daily performance of the applicable Index for such Series, which in turn will be linked to the performance of the Component Security underlying that index. The redemption amount of the ETP Securities will be derived from the liquidation of the collateral assets, as purchased or sold in accordance with the Leverage Factor of such Series of ETP Securities. The amount payable on redemption of the ETP Securities will depend on the liquidation of the collateral assets held in the margin account.

(d) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, personnel and infrastructure, and from external factors other than credit, markets and liquidity issues such as those arising from legal and regulatory requirements and generally accepted standards to corporate behaviour.

Operational risks arise from all the Company's operations. The Company was incorporated with the purpose of engaging in those activities outlined in note 1 to the interim financial statements. Various management and administration functions are outsourced to Apex IFS, the Arranger and other parties as set out in the prospectus.

The Company is also exposed to operational risks such as custody risk. Custody risk is the risk of loss of collateral held in custody occasioned by the insolvency or negligence of the Custodian. Although an appropriate legal framework is in place that reduces the risk of loss of value of the securities held by the Custodian, in the event of its failure, the ability of the Company to transfer the securities might be impaired.

(e) Fair Values

Fair value measurement principles of Component Securities

The fair values of the Component Securities are their listed price on the recognised stock exchanges in the United States of America.

For the half financial year ended 31 December 2023

17 Financial risk management (continued)

(e) Fair Values (continued)

Fair value measurement principles of ETP Securities

The ETP Securities are valued independently of the Company by a calculation agent using readily available, observable inputs.

The ETP value in respect of a Series of ETPs tracks the value of the specified Component Security and is calculated in accordance with the following:

On the issue date of each Tranche, the ETP Security value will be equal to the issue price of the ETP Security. On any valuation date thereafter, the ETP Security value is calculated as the ETP Security value on the immediately preceding valuation date adjusted by:

- the change in the value of the Component Securities since such preceding Valuation Date (as referenced to on the applicable stock exchange),
 less
- any cash borrowing costs, cash lending revenues, stock borrowing costs, revenues on collateral or costs of transaction taxes in respect of a
 Series of ETP Securities resulting from obtaining leveraged or short exposure to the Component Security (as described in the ETP agreement,
 using market observable inputs), minus
- applicable fees (as disclosed in the ETPs final terms).

The fair value of financial instruments carried at fair value is determined according to the following hierarchy:

- Level 1: Financial instruments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities. Quoted prices for these instruments are not adjusted. The Component Securities held by the Company are classified as Level 1.
- Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. As level 2 financial instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The ETPs issued by the Company are classified as Level 2. Refer to note 2c for determining the fair value of financial instruments.
- Level 3: Financial instruments classified within level 3 have significant unobservable inputs, as they trade infrequently. Pricing inputs are unobservable for the financial instrument and include situations where there is little, if any, market activity for the financial instrument. As observable prices are not available for these securities, the Company has used valuation techniques to derive the fair value, if applicable.

The Company's policy is to recognise transfers into and transfers out of the fair value hierarchy levels as at the last day of the accounting period. There were no transfers during the financial year between levels of the fair value hierarchy for either the financial assets or the financial liabilities, which are both recorded at fair value. At the reporting date the collateral assets are classified as Level 1, as a quoted price is available and the ETP Securities are classified as Level 2 as all inputs are observable.

18 Subsequent events

There has been no significant subsequent event that requires disclosures and/or adjustments to the financial statements, up to the date of signing this report.

19 Capital management

For the purpose of the Company's capital management, capital includes issued share capital. The primary objective of the Company's capital management is to maintain shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions. In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to debt securities (i.e. the ETPs). There have been no breaches of any covenants in the current financial period. No changes were made to the objectives, policies or processes for managing capital since the beginning of the financial period.

20 Comparatives

In line with IAS 34, the comparative information for the Statement of comprehensive income, Statement of cash flows and Statement of changes in equity are for the half financial year ended 31 December 2022 and the comparative information for the Statement of financial position is as at 30 June 2023.

21 Commitments and Contingencies

The Company had no commitments or contingencies as at 31 December 2023 (31 December 2022: none).

22 Approval of financial statements

The Directors authorised these financial statements for issue on 28 March 2024.
