Fidelity Investment Funds IV Annual Report and Financial Statements for the year ended 31 October 2023

Director's Report

We are pleased to present the annual report and financial statements for Fidelity Investment Funds IV (the "Company"), covering the year to 31 October 2023.

Reference in this document to specific securities should not be construed as a recommendation to buy or sell these securities but is included for the purpose of illustration only. Investors should also note that the views expressed may no longer be current and may already have been acted upon by Fidelity.

Company and Status

The Company is an open-ended investment company with variable capital (ICVC) incorporated in England and Wales under registered number IC000712 and authorised by the Financial Conduct Authority (FCA) on 2 October 2008. The Company has an unlimited duration.

The Company is authorised as a non-UCITS retail scheme (NURS) and is an alternative investment fund (AIF) under the AIFM Directive. It is structured as an umbrella company comprising various funds, each of which is operated as a distinct fund, with their own portfolio of investments.

The funds in which shares are currently available are:

Fidelity Allocator World Fund
 Fidelity Multi Asset Allocator Adventurous Fund
 Fidelity Multi Asset Allocator Defensive Fund
 Fidelity Multi Asset Allocator Growth Fund
 Fidelity Multi Asset Allocator Strategic Fund
 Fidelity Multi Asset Balanced Income Fund
 Fidelity Multi Asset Income & Growth Fund
 Fidelity Multi Asset Income Fund
 Fidelity Multi Asset Open Adventurous Fund
 Fidelity Multi Asset Open Defensive Fund
 Fidelity Multi Asset Open Growth Fund
 Fidelity Multi Asset Open Strategic Fund
 Fidelity Open World Fund
 Fidelity Select 50 Balanced Fund
 Fidelity Strategic Defensive Portfolio
 Fidelity Strategic Growth Portfolio
 Fidelity Sustainable Multi Asset Balanced Fund
 Fidelity Sustainable Multi Asset Conservative Fund
 Fidelity Sustainable Multi Asset Growth Fund

In the future additional funds or new classes of shares within the existing funds may be launched by the ACD.

Each fund has the investment powers equivalent to those of a NURS as per the Prospectus.

Shareholders are not liable for the debts of the Company. A shareholder is not liable to make any further payment to the Company after they have paid the purchase price of the shares.

The Company is governed by the requirements of the Open-Ended Investment Companies Regulations 2001 (SI 2001/1228) ("OEIC Regulations") and the FCA's Handbook of rules and guidance, specifically the Collective Investment Schemes sourcebook (COLL). As permitted by the COLL, the Company does not hold Annual General Meetings.

The Company has segregated liability status between funds. This means that the assets of a fund belong exclusively to that fund and shall not be used to discharge directly or indirectly the liabilities of, or claims against, any other person or body, including the Company, or any other fund.

Alternative Investment Fund Managers Directive (AIFMD) (Unaudited)

In compliance with the AIFMD, Fidelity Investment Services (UK) Limited (FISL) has been appointed the Company's Alternative Investment Fund Manager (AIFM).

The AIFM operates under the terms of Fidelity's Global Remuneration Policy Statement. This ensures that the AIFM complies with the requirements of the FCA's Remuneration Code (SYSC19A), the AIFM Remuneration Code (SYSC19B) and the BIPRU Remuneration Code (SYSC19C).

FISL does not employ staff directly so the total remuneration to be disclosed under AIFMD remuneration disclosure for the financial performance year to 30 June 2023 is £nil.

The total remuneration paid to code staff supporting the AIFM (FISL) is €11.65m (£10.02m).

Code staff includes the following individuals:

- (a) senior management (Registered Directors);
- (b) risk takers (Senior Management team);
- (c) staff engaged in control functions (Risk, Compliance, Audit, HR, Finance).

The funds use leverage to increase their exposure to the stock markets in line with the investment objectives. The AIFM has set maximum levels of leverage that are reasonable. It has implemented systems to calculate and monitor compliance against these limits and has ensured that the limits have been complied with at all times.

The maximum leverage limits are 300% for the Gross Method of calculating leverage and 200% for the Commitment Method.

There have been no changes to the maximum level of leverage that the Company may employ during the year.

At 31 October 2023, actual leverage for both the Gross Method and the Commitment Method for the funds are as follows:

Fund name	Gross Method	Commitment Method
Fidelity Allocator World Fund	103.40%	100.01%
Fidelity Multi Asset Allocator Adventurous Fund	102.49%	100.00%
Fidelity Multi Asset Allocator Defensive Fund	101.97%	99.98%
Fidelity Multi Asset Allocator Growth Fund	102.98%	99.99%
Fidelity Multi Asset Allocator Strategic Fund	102.66%	99.99%
Fidelity Multi Asset Balanced Income Fund	150.95%	115.77%
Fidelity Multi Asset Income & Growth Fund	167.24%	135.57%
Fidelity Multi Asset Income Fund	159.67%	114.78%
Fidelity Multi Asset Open Adventurous Fund	120.46%	120.78%
Fidelity Multi Asset Open Defensive Fund	119.02%	120.03%
Fidelity Multi Asset Open Growth Fund	119.68%	120.33%
Fidelity Multi Asset Open Strategic Fund	122.60%	123.56%
Fidelity Open World Fund	113.41%	114.83%
Fidelity Select 50 Balanced Fund	104.58%	100.00%
Fidelity Strategic Defensive Portfolio	99.71%	99.99%
Fidelity Strategic Growth Portfolio	107.57%	119.19%
Fidelity Sustainable Multi Asset Balanced Fund	95.05%	99.89%
Fidelity Sustainable Multi Asset Conservative Fund	85.02%	99.90%
Fidelity Sustainable Multi Asset Growth Fund	99.09%	99.92%

The Gross Method is a measure of overall total financial markets exposure and provides insight into the total amount at risk from market fluctuations.

The Commitment Method is a measure (after appropriate netting and hedging) of overall total financial markets exposure and provides insight into the total amount at risk from market fluctuations (after netting and hedging).

Holdings in other sub-funds within the same Company

No sub-fund held shares in any other sub-fund in the same Company throughout the year ended 31 October 2023.

Objectives

The broad aim of the Company is to provide access, both indirectly through investing in other collective investment schemes and directly, to the global research resources and stock picking skills of Fidelity's investment management teams throughout the world.

Each fund provides the opportunity to benefit from investment in professionally managed pools of securities and other financial instruments in different geographic areas and currencies.

The investment objective and a review of the investment activities of each fund during the year under review are included within the Fund Manager Reviews.

Changes to the Prospectus

For the year ended 31 October 2023 there were no significant changes made to the Prospectus and Instrument of Incorporation.

Statement of Authorised Corporate Director's (ACD) Responsibilities in relation to the Annual Report and Financial Statements of the Company

The Open-Ended Investment Companies Regulations 2001 (SI 2001/1228) and Collective Investment Schemes sourcebook (COLL) require the ACD to prepare financial statements for each annual and half-yearly accounting period which give a true and fair view of the financial position of the Company and of its net revenue and net capital gains or losses on the property of the Company for the year. In preparing the financial statements the ACD is required to:

- select suitable accounting policies and then apply them consistently;
- comply with the requirements of the UK Financial Reporting Standard 102 (FRS 102) and the Statement of Recommended Practice for UK Authorised Funds issued by The Investment Association (IA) in May 2014, as amended June 2017, the COLL, the Prospectus and the Instrument of Incorporation;
- follow generally accepted accounting principles and applicable accounting standards;
- keep proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume the Company will continue in operation;
- take reasonable steps for the prevention and detection of fraud or other irregularities.

Certification of the Annual Report and Financial Statements by Directors of the ACD

In accordance with the requirements of the COLL as issued and amended by the Financial Conduct Authority, the report and financial statements are approved on behalf of the Directors of FIL Investment Services (UK) Limited, the ACD.

Statement of the Depositary's Responsibilities in respect of the Scheme and the Report of the Depositary to the Shareholders of the Fidelity Investment Funds IV

Depositary must ensure that the company is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, and the Investment Funds Sourcebook, the Open-Ended Investment Companies Regulations 2001 (SI 2001/1228), as amended, the Financial Services and Markets Act 2000, as amended, (together 'the Regulations'), the company's Instrument of Incorporation and Prospectus (together 'the Scheme documents') as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the company and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the company in accordance with the regulations.

The Depositary must ensure that:

- the company's cash flows are properly monitored and that cash of the company is booked into the cash accounts in accordance with the regulations;
- the sale, issue, repurchase, redemption and cancellation of shares are carried out in accordance with the regulations;
- the value of shares of the company are calculated in accordance with the regulations;
- any consideration relating to transactions in the company's assets is remitted to the company within the usual time limits;
- the company's income is applied in accordance with the regulations; and
- the instructions of the Alternative Investment Fund Manager ('the AIFM' or 'the Manager') are carried out (unless they conflict with the regulations).

The Depositary also has a duty to take reasonable care to ensure that the company is managed in accordance with the Scheme documents and the regulations in relation to the investment and borrowing powers applicable to the company.

Having carried out such procedures as we consider necessary to discharge our responsibilities as Depositary of the company, it is our opinion, based on the information available to us and the explanations provided, that in all material respects the company, acting through the AIFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the company's shares and the application of the company's income in accordance with the regulations and the Scheme documents of the company; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the company in accordance with the regulations and Scheme documents of the company.

Independent Auditors' report to the Shareholders of Fidelity Investment Funds IV

Report on the audit of the financial statements

Opinion

In our opinion, the financial statements of Fidelity Investment Funds IV (the "Company"):

- give a true and fair view of the financial position of the Company and each of the sub-funds as at 31 October 2023 and of the net revenue and the net capital gains/losses on the property of the Company and the sub-funds for the year ended 31 October 2023; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", the Statement of Recommended Practice "Financial Statements of UK Authorised Funds", the rules in the Collective Investment Schemes Sourcebook and the Instrument of Incorporation.

We have audited the financial statements which comprise for each sub-fund:

- the statement of total return;
- the statement of change in net assets attributable to shareholders;
- the balance sheet;
- the accounting policies, risk management policies and individual notes; and
- the distribution tables.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice), the Statement of Recommended Practice: "Financial Statements of UK Authorised Funds" issued by the Investment Association in May 2014, as amended June 2017, the Collective Investment Schemes Sourcebook and the Instrument of Incorporation.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the authorised corporate director's (ACD's) use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least 12 months from when the financial statements are authorized for issue.

Our responsibilities and the responsibilities of the ACD with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The ACD is responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of depositary and ACD

As explained more fully in the depositary's responsibilities statement and the ACD's responsibilities statement, the depositary is responsible for the safeguarding the property of the Company and the ACD is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the ACD determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the ACD is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the ACD either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the Company's industry and its control environment, and reviewed the Company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management and the ACD about their own identification and assessment of the irregularities, including those that are specific to the company's business sector.

We obtained an understanding of the legal and regulatory frameworks that the Company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included the Collective Investment Schemes Sourcebook and relevant tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the Company's ability to operate or to avoid a material penalty. These included The Open-Ended Investment Companies Regulations 2001.

Fidelity Investment Funds IV Annual Report and Financial Statements for the year ended 31 October 2023

We discussed among the audit engagement team including relevant internal specialists such as valuations and IT specialists regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

As a result of performing the above, we identified the greatest potential for fraud in the valuation and existence of investments. In response we have: involved our financial instruments specialists to assess the applied valuation methodologies; agreed investment holdings to independent confirmations; and agreed investment valuations to reliable independent sources.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance and reviewing correspondence with HMRC and the FCA.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Collective Investment Schemes Sourcebook

In our opinion:

- proper accounting records for the Company and the sub-funds have been kept and the financial statements are in agreement with those records;
- we have received all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit; and
- the information disclosed in the annual report for the year ended 31 October 2023 for the purpose of complying with Paragraph 4.5.9R of the Collective Investment Schemes Sourcebook is consistent with the financial statements.

Use of our report

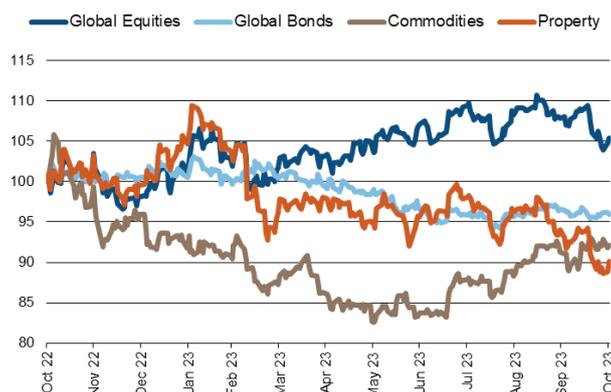

This report is made solely to the Company's shareholders, as a body, in accordance with Paragraph 4.5.12R of the Collective Investment Schemes Sourcebook of the Financial Conduct Authority. Our audit work has been undertaken so that we might state to the Company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Market Performance Review

Performance Overview - year ended 31 October 2023

Global equities as measured by the MSCI World Index, ended a volatile period in positive territory. Moderating inflationary pressures in developed markets heightened expectations that major central banks would eventually pursue less restrictive policies. Of note, the US Federal Reserve and the European Central Bank slowed the pace of interest rate hikes. Investor sentiment was also supported by healthy corporate earnings and resilient economic data. That said, inflation remains above target levels in developed markets, leading major central banks to retain their hawkish stance and underpinning views that interest rates are likely to stay high for some time. Turmoil in the banking sector in developed markets, uncertainties before the US debt ceiling deal and renewed stress in China's real estate sector weighed on markets. Towards the end of the period, the unfolding conflict and tragic events in Israel and Gaza kept global sentiment in check. Against this backdrop, key regional equity markets ended higher, with equities in Europe ex-UK and Japan outperforming other regions. At a sector level, telecommunications and information technology were among the leading performers. Overall, returns in sterling terms were undermined by its appreciation against the US dollar and yen, but were supported by its depreciation against the euro.

Global property markets ended the period in negative territory amid expectations of a 'higher for longer' interest rate scenario. Weakness in China's real estate sector further dampened investor sentiment towards the broader sector. From a country perspective, the US housing market came under pressure on high prices due to tight supply and high mortgage rates. In the eurozone, the German property market advanced on easing price pressure, though it remains clouded by higher mortgage costs. Within Asia, property stocks in Hong Kong fell sharply amid rising volatility in Chinese markets. The UK property market declined as investors digested a larger-than-expected interest rate hike from the Bank of England in June.

Commodities declined over the period, led by the weak performance of energy. A mild winter and seasonal demand declines, as well as concerns about the health of the global economy dampened the demand outlook in the initial part of the period. Although concerns about tightening supply later pushed up prices, energy ended the 12-month period lower. Agricultural commodities also fell amid reports of bumper wheat harvests. Meanwhile, industrial metals were subdued as manufacturing activity weakened. Nickel, zinc and aluminium prices declined, while copper and tin gained as China, the world's largest consumer of commodities, decided to move away from COVID-19 restrictions and provide support to the real estate sector. Precious metals gained, with gold benefiting from the flight to safety following concerns about the potential fallout from the collapse of Silicon Valley Bank in the US, and subsequently, the unfolding conflict and tragic events in Israel and Gaza. However, expectations of rising interest rates maintained downward pressure and limited gains. Higher interest rates boosted bond yields, increasing the opportunity cost of holding non-yielding bullion.

Global bond markets endured a volatile period, with corporate bonds outperforming sovereign bonds. Markets battled with soaring inflation, unprecedented interest rate hikes by most major central banks and a subsequent synchronised slowdown in global economic activity. Russia's invasion of Ukraine, supply chain disruptions, the collapse of US-based Silicon Valley Bank and worries over broader contagion across the banking system, as well as concerns about China's economic recovery and the fast approaching deadline for a decision on the US government's debt ceiling weighed on markets. However, sentiment improved as negotiators reached an agreement to avert a default. Markets remained healthy on the back of strong corporate earnings and receding recession risks following healthy labour markets, resilient growth and weakening inflation data. Volatility returned in October due to the unfolding conflict and tragic events in Israel and Gaza, which led to significant concerns about geopolitical risks in the region. Central banks maintained their higher for longer interest rate stance, which led to a sell-off in sovereign bonds as yields rose. 10-year US Treasury yields rose for the sixth consecutive month to close at 4.9% in October, while UK sovereign bonds were the worst hit amid several upside inflation surprises and continued interest rate hikes by the Bank of England (BoE). However, signs of slowing inflation allowed the BoE to keep rates unchanged in September. This helped UK government bonds (Gilts) to recover, with the 10-year Gilt remaining relatively unchanged over the third quarter. In the corporate bond space, credit spreads tightened as investors downgraded recession risks. High yield bonds outperformed investment grade bonds, except for Asian high yield bonds, which continued to disappoint amid a broad-based sell-off in China's property sector. Strong balance sheets, positive technicals and improving capital market conditions supported tighter credit spreads.

Accounting Policies of Fidelity Investment Funds IV and its sub-funds

Accounting policies

- a) Basis of preparation - The financial statements of the sub-funds have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss. The financial statements are also prepared in accordance with applicable law and United Kingdom Generally Accepted Accounting Practice (UK GAAP) and the Statement of Recommended Practice (SORP) for UK Authorised Funds issued by the Investment Association (IA) in May 2014, as amended in June 2017.
- b) Recognition of revenue:
- Income from quoted equities is recognised when the security is quoted ex-dividend. Overseas dividends are accounted for gross of any tax deducted at source.
 - Income from a debt security comprises the coupon interest and the difference between the purchase price and the expected maturity price. The total income recognised on a debt security is spread over its expected remaining life at a constant rate or an amount having regard to the IA SORP. When a distressed security is purchased and the Authorised Corporate Director (ACD) expects future cash flows to be uncertain, the discount or premium is not recognised as income. Where the fund invests predominately into Index Linked securities, COLL 6.8.3 R permits funds whose policy is to invest predominantly in index-linked securities to make transfers in respect of index-linked gilt-edged securities in order to exclude from the distribution. The distributions are determined disregarding the effect of amortisation, provided that the resultant distribution is not less than if those transfers had not been made.
 - Stock dividends - Where the fund manager has elected to receive a dividend in the form of shares rather than cash, the dividend is treated as revenue but does not form part of the distribution.
 - Underwriting commission is recognised when the issue takes place, except where the fund is required to take up all or some of the shares underwritten, in which case an appropriate proportion of the commission received should be deducted from the cost of those shares.
 - Special dividends may be treated as revenue or capital depending on the facts of each particular case.
 - Income from collective investment schemes is treated as revenue in nature. Any equalisation element is treated as capital and deducted from the cost of the investment.
 - Where a fund invests in a transparent entity, the revenue earned by the entity should be recognised as revenue by the fund.
 - Management fee rebates from investing in other collective investment schemes are recognised on an accruals basis and treated as revenue or capital in accordance with the underlying scheme's distribution policy. Where any fund invests in collective investment schemes managed by the ACD or an associate of the ACD, to avoid a double management charge, the full amounts of the charges which the ACD and/or any associated company of the ACD receives for managing the investments of the underlying fund, will be credited to the fund.
 - All other income is accounted for on an accruals basis.
- c) Treatment of expenses:
- All expenses are accounted for on an accruals basis.
 - All expenses are chargeable against revenue for distribution purposes other than those relating to purchases and sales of investments which are treated as capital. In accordance with the COLL and agreed by the Depositary, charges and expenses may be treated as income or capital for the purpose of the distribution. When expenses are charged to capital it will enhance income returns but may constrain capital growth.
 - Where a fund invests in a transparent entity, the expenses incurred by the entity will be recognised as expenses by the fund.
 - All charges and expenses which are directly attributable to a particular fund (or class within a fund) will be charged to that fund (or class).
 - If there is more than one class within a fund, charges and expenses which are directly attributable to the fund (but not a particular class) will normally be allocated between the classes within the fund pro rata to the net asset value of the fund attributable to each class.
 - Any charges and expenses not attributable to any one fund will normally be allocated by the ACD to all funds (and their classes) pro rata to the net asset values of the funds (and their classes), although the ACD has the discretion to allocate such charges and expenses in a different manner which it considers fair to shareholders generally.
- d) Distribution policy - The distribution policy of the individual funds is to distribute or accumulate all available revenue after deduction of expenses properly chargeable against revenue.
- e) Taxation:
- Provision is made for corporation tax at the current rate on the excess of taxable revenue over allowable expenses, with relief for overseas tax taken where appropriate.
 - UK dividend income is disclosed net of any related tax credit.
 - Deferred taxation is recognised in respect of temporary timing differences that have originated but not reversed by the balance sheet date. Any liability to deferred taxation is provided for on the average rate of taxation expected to apply in the period. Deferred tax assets are recognised to the extent that they are considered recoverable.

Fidelity Investment Funds IV Annual Report and Financial Statements for the year ended 31 October 2023

Accounting Policies of Fidelity Investment Funds IV and its sub-funds

f) Basis of valuation of investments:

- Investments in securities and underlying funds have been valued using the market price at the noon valuation point on the last business day of the accounting period. Market value is defined by the SORP as fair value which in an active market is the value of long positions at the quoted bid price and fair value of short positions is the quoted offer price.
- Holdings in collective investment schemes are valued at bid price for dual priced funds and at single price for single priced funds.
- The Fair Value Committee (FVC) ensures pricing sources and methodologies used to value securities are appropriate as delegated by the ACD. Where there is no price source from an active market for an investment, the FVC will assess information available from internal and external sources in order to arrive at a fair value. In seeking to value such securities, the FVC will gather valuation related information from multiple internal and external sources and may apply judgement in determining the fair value. These sources include historic trading and pricing information (including grey market trades), the views of internal security analysts, company specific news and fundamental data as well as information relating to comparable companies within related industries and sectors. The FVC policies and procedures remain under continuous review by the ACD.
- Fair value adjustments may be implemented to protect the interests of the Shareholder Funds against market timing practices. Accordingly, if a fund invests in markets that are closed for business at the time the fund is valued, the ACD may, by derogation from the provisions above, allow for the securities included in a particular portfolio to be adjusted to reflect more accurately the fair value of the fund's investments at the point of valuation.
- Fair value adjustments were applied to investments with the following effect on the funds midday prices as at 31 October 2023: Japan (futures) 1.30% (2022: Brazil -4.00%).
- The market value disclosed alongside each investment in the Portfolio Statement represents the fair value. Each derivative position is shown as a separate investment. The Portfolio Statement includes for each investment the percentage of the net assets. This may result in the geographical or sector allocations being different to the comparative index. The largest holdings disclosure is consistent with this basis, and therefore derivative positions may not appear in the list of largest holdings. A copy of the Fund Factsheet report disclosing the sector/industry exposure, country exposure and top holdings including derivatives exposures may be obtained upon request from the ACD alternatively, please go to <http://www.fidelity.co.uk>.

g) Derivatives:

- Where appropriate, certain permitted transactions such as derivatives are used. Where such transactions are used to protect or enhance revenue, the revenue and expenses derived from them are included in the Revenue or Expenses in the Statement of Total Return. Where such transactions are used to protect or enhance capital, the gains or losses are included in Net capital gains/(losses) in the Statement of Total Return. Any positions on such transactions open at the year end are reflected in the Balance Sheet at their market value. All gains and losses in the value of futures contracts, interest rates swaps, credit default swaps, equity forwards, contracts for difference, equity linked notes and options are disclosed in the Statement of Total Return under Net capital gains/(losses).
- Futures, equity forwards and contracts for difference, the dividend element is included in revenue along with the associated finance costs of these contracts. Ongoing premia on credit default swaps are charged or credited to revenue/expenses on an accruals basis, depending on whether protection is bought or sold. Revenue receivable/payable on interest rate swaps is included in revenue on an accruals basis. The premium received on covered call options is taken to revenue over the life of the contract provided the strike price of the option is greater than the price of the underlying security at the time of trade.
- Where forward foreign exchange contracts have been entered into to hedge the underlying funds and securities against currency exchange rate movements, any subsequent hedge gain or loss is taken to capital.

h) Cash and bank balances - These may comprise cash at bank. Amounts held at futures clearing houses and/or brokers are where amounts are held in segregated accounts as collateral on behalf of brokers.

i) Cash and cash equivalents - These may comprise money market funds which are short term, highly liquid and are readily convertible to a known amount of cash. These are subject to an insignificant risk of change in value.

j) Exchange rates - Assets and liabilities denominated in foreign currencies have been translated into sterling at the rate of exchange ruling at the noon valuation point on the last business day of the accounting period. Revenue items denominated in foreign currency are translated into sterling at exchange rates ruling at the date of the transaction. Differences on exchange are included within the Statement of Total Return.

k) Dilution levy:

- In certain circumstances, the value of the property of a Fund may be reduced as a result of costs incurred in dealings in the fund's investments or through dealing in those investments at prices other than the mid-market price. In order to prevent this effect, known as 'dilution', and the consequent potential adverse effect on remaining Shareholders, the ACD has the power to charge a 'dilution levy' when Shares are bought or sold.
- As at 31 October 2023 no dilution levy was paid to the Company (2022: none).

Risk Management policies of Fidelity Investment Funds IV and its sub-funds

Risk framework

The Board of Directors of FIL Limited, the ultimate parent company of the ACD, has established a Risk Policy, a Risk Appetite statement and a number of other risk related policies for adoption throughout the Fidelity International group of companies, including the ACD. There is a clearly defined structure operating within a corporate governance and management framework that is designed to address the related business risks, including those arising from financial instruments. Risk management policies and procedures are established by the Board and updated according to market, industry and government initiatives and regulatory developments. The Board monitors that a robust system of internal control exists to ensure compliance with rules, regulations and policies. It is the Board of Directors of the ACD that is ultimately responsible for monitoring risk but day to day management of the risk process has been delegated to other areas as appropriate.

Fidelity operates a 'multiple lines of defence' approach to risk management; also, the risk control processes are comprehensive, multi-layered, both quantitative and qualitative and do not rely on any one risk measure or system. The primary responsibility for financial instrument risk management rests with the portfolio manager of each fund who is overseen by the relevant Chief Investment Officer (CIO). On a regular basis each fund is formally reviewed in a meeting involving the portfolio manager, the relevant CIO, Investment Management Portfolio Analytics and others; the review covers multiple aspects of the fund's profile including trading activity, turnover, performance, structure, style profile, the use of derivatives and other relevant subjects such as yield curve exposure and sector and credit rating positioning in the case of Fixed Income funds. In addition to this review there is a formal Investment Risk Oversight Committee (IROC), chaired by the head of the Investment Management Risk function, whose remit includes review of various risk and performance measures, liquidity and other investment risks.

Furthermore, there is a Derivative Risk Committee that focuses on all aspects of risk arising from the use of derivative instruments. The global exposure relating to derivatives held in a fund may not exceed the net value of that fund. Global exposure calculations for all funds, unless otherwise indicated, use the commitment approach as part of their risk management process, measure and limits. The funds in this umbrella OEIC are governed by non-UCITS rules. The rules and prospectus limits are monitored and reported on by an independent Investment Compliance function.

Risk factors

The main risks arising from financial instruments are market price, foreign currency, interest rate, liquidity, counterparty and credit risks. There are policies in place to ensure each of these risks are managed in an appropriate manner.

Market price risk

Market price risk arises from the uncertainty about future price movements on financial instruments held. It represents the potential loss each fund might suffer through holding market positions in the face of adverse price movements. The value of investments (including derivatives) is not fixed and may go down as well as up. This may be as a result of a specific factor affecting the value of an individual investment or may be caused by general market factors. Some of the funds may invest in securities of countries experiencing rapid economic growth. Investors should appreciate that these securities may be more volatile than securities in more developed markets with the result that there may be greater risk of price fluctuation and the suspension of redemptions in such funds compared with funds in more mature markets. This volatility may stem from political and economic factors, and be exacerbated by legal, trading liquidity, settlement, currency and other factors. Some emerging market countries may have relatively prosperous economies but may be sensitive to world commodity prices or other factors. Where derivatives are used for either efficient management of the fund or for investment purposes, market price risk will exist as for any other non-derivative investments. The volatility of option prices could be greater than for other derivatives.

Foreign currency risk

The fund's Total Returns and Balance Sheets can be significantly affected by foreign exchange movements if the fund's assets and revenue are denominated in currencies other than the fund's base currency. Three principal areas where foreign currency risk could impact each fund have been identified as:

- Movements in rates affecting the value of investments
- Movements in rates affecting short term timing differences
- Movements in rates affecting the revenue received

The funds may hold forward foreign exchange contracts to hedge the fund's base currency. The funds may be exposed to short term exchange rate movements, for example between the date when an investment is bought or sold and the date when settlement of the transaction occurs. The ACD may seek to manage exposure to currency movements by using forward and spot foreign exchange contracts. Revenue received in other currencies is converted into base currency on or near the date of receipt.

Interest rate risk

Debt securities have varying levels of sensitivity to changes in interest rates. In general, the price of a fixed rate debt security can fall when interest rates rise and can rise when interest rates fall. Securities with longer maturities can be more sensitive to interest rate changes. The fixed rate component of an interest rate swap will have a similar interest rate risk profile to that of a fixed rate debt security where the currency, fixed rate and maturity are the same.

Liquidity risk

The fund's assets comprise mainly realisable securities which can be readily sold or redeemed in normal market conditions. The fund's main liability is the redemption of any shares that investors wish to sell. In general, the ACD manages the cash to ensure it can meet its liabilities. Assets from a fund may need to be sold if insufficient cash is available to finance such redemptions. The fund's holdings are reviewed on a regular basis, with particular emphasis on the market capitalisation of the issuer (securities issued by larger capitalised companies generally have greater liquidity) and the number of days it would take to trade out of a given security position or percentage of the fund as a whole (determined by reference to available market trading volumes). Where investments cannot be realised in time to meet any potential liability, the fund may borrow up to 10% of its value to ensure settlement.

Risk Management policies of Fidelity Investment Funds IV and its sub-funds

Counterparty risk

All security transactions and derivatives are transacted with brokers and carry the risk that the counterparty to a transaction may not meet their financial obligations. All counterparties for any type of trading are assessed by an independent Credit Research and Analysis function and approved for use by any Fidelity company, including the ACD. Exposures to counterparties are monitored and reported frequently. Margin on exchange-traded derivatives mitigates counterparty risk exposure and in the case of over-the-counter derivatives, collateral is transferred to reduce counterparty risk exposure in accordance with the terms outlined in market standard (ISDA) derivative legal contracts.

Credit risk

Investments may be adversely affected if any of the institutions with which money is deposited suffers insolvency or other financial difficulties. The process outlined above under 'Counterparty risk' is used to review, approve and report on exposures to institutions with which money is deposited.

Credit risk also arises from the uncertainty about the payment of interest and the repayment of principal bond investments. Default risk is based on the issuer's ability to make interest payments and to repay the loan at maturity. Due to the higher possibility of default, an investment in corporate bonds is generally less secure than an investment in government bonds. Default risk may therefore vary between different government issuers as well as between different corporate issuers. In certain cases, government bonds may have higher probability of default than specific corporate issuers. The funds may hold credit default swaps to manage their credit risk profile. Credit default swaps are transacted to take advantage of expected movements in credit spreads on either individual securities or baskets of securities.

Fair values of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value. The numerical information in respect of financial instruments disclosure is provided in the financial statements for the individual funds.

Leverage

The funds use leverage to increase their exposure to the stock markets in line with the investment objectives. The AIFM has set maximum levels of leverage that are reasonable. It has implemented systems to calculate and monitor compliance against these limits and has ensured that the limits have been complied with at all times.

Details of the leverage levels as at 31 October 2023 for each fund are included on page 2.

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a period of 5 years or more through global exposure to higher risk assets.

The fund will invest at least 70% into funds that use an 'index tracking' (also known as 'passive') investment management approach (these may include funds managed by Fidelity), with the aim of pursuing a lower cost investment approach. The fund can also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

The Investment Manager will actively select investments for the fund. As part of the investment process, the Investment Manager aims to maintain a fixed allocation of 100% in higher-risk assets (such as global equities, global emerging market equities, global smaller companies and global property securities). This allocation, as well as the breakdown of higher-risk assets, may change according to prevailing market conditions and the efficient management of the portfolio, and will be periodically rebalanced back to its target allocation.

As part of the fund's asset allocation process, the Investment Manager will aim to maintain an underlying static asset allocation that is designed in-house and based on proprietary capital market assumptions using quantitative research. For these higher-risk assets, the fund will aim to maintain an allocation of at least 70% in global equities with the remainder spread across assets including global real estate investment trusts, global small cap and emerging market equities. The Investment Manager rebalances the strategy regularly back to these static asset allocations and has discretion over when to do so. However, the Portfolio Manager does not take relative positions 'overweight' or 'underweight' versus this static mix. The funds do not aim to outperform this static asset allocation.

The fund is managed without reference to a benchmark.

Performance and Portfolio Activity

The fund delivered positive returns over the period, driven by its allocation to both global and emerging market equities. Conversely, positions in global real estate investment trusts (REITs) and global small-cap equities held back gains. The fund is managed to provide diversified and efficient exposure to global markets and has a purely static strategic asset allocation – 100% of the portfolio is invested in higher risk growth assets. Over the period, the position in iShares Environment & Low Carbon Tilt Real Estate Index was sold in favour of a new holding in Amundi Index FTSE EPRA NAREIT Global UCITS ETF. Meanwhile, Xtrackers MSCI World UCITS ETF was added to the portfolio.

Outlook

The fund's asset allocation is not impacted by the market outlook. The portfolio is managed to provide diversified and efficient exposure to global markets and is rebalanced periodically to keep asset allocation in line with the fund's long-term strategic asset allocation.

Risk and Reward Indicator

SRRI

W Accumulation Shares

5

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	(135)	(7,213)
Gains/(losses) on forward currency contracts+	(79)	99
Other currency gains/(losses)	1	2
ACD fee rebate/waiver to capital	91	67
	<u>(122)</u>	<u>(7,045)</u>
Net capital gains/(losses)		
+ These comprise:		
Realised gains/(losses)++	3,698	1,876
Unrealised gains/(losses)	(3,912)	(8,990)
	<u>(214)</u>	<u>(7,114)</u>

Total

++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).

5 Revenue

	31/10/23 £'000	31/10/22 £'000
UK dividend distributions	1,467	910
Unfranked UK dividend distributions	18	305
Overseas dividend distributions	517	282
Management fee rebate to income	1	5
ACD fee rebate/waiver to income	85	78
Bank interest	22	2
	<u>2,110</u>	<u>1,582</u>

6 Expenses

Payable to the ACD, associates of the ACD, and agents of either of them:		
Investment management fees	288	232
	<u>288</u>	<u>232</u>

Total expenses*

*The ACD is responsible for payment of all charges and expenses of the fund out of its investment management fees including audit fees amounting to £10,000 (including VAT) (2022: £10,000).

7 Taxation

	31/10/23 £'000	31/10/22 £'000
a) Analysis of charge/(credit) for the year		
UK corporation tax	-	45
Overseas taxation	5	34
Double taxation relief	-	(34)
	<u>5</u>	<u>45</u>

Notes to the Financial Statements

b) Factors affecting tax charge/(credit) for the year

Net revenue/(expense) before taxation	1,817	1,350
Net revenue/(expense) multiplied by the standard rate of corporation tax of 20% (2022: 20%).	363	270
Effects of:		
ACD fee waiver to capital	18	13
Double taxation relief	-	(34)
Increase/(decrease) in unutilised management expenses	16	-
Overseas tax expensed	(1)	-
Overseas taxation	5	34
Revenue not included for tax purposes	(396)	(238)
Current tax charge/(credit)	5	45

Open ended investment companies are exempt from UK tax on capital gains.

The fund has unrelieved excess management expenses resulting in a potential deferred tax asset of £16,000 (2022: nil). It is unlikely that the fund will generate sufficient taxable profits in the future to utilise these and therefore no deferred tax asset has been recognised.

8 Finance costs

	31/10/23 £'000	31/10/22 £'000
Distributions		
The distribution takes account of revenue received on the issue of shares and revenue deducted on cancellation of shares.		
W Accumulation Shares		
Final	2,100	1,557
Add: Revenue deducted on cancellation of shares	38	41
Deduct: Revenue received on issue of shares	(326)	(293)
Net distributions for the year	1,812	1,305
Interest/other		
Interest	5	-
Total finance costs	1,817	1,305

Details of the distribution per share is set out in the Distribution Statement.

9 Debtors

	31/10/23 £'000	31/10/22 £'000

Amounts payable for cancellation of shares	164	-
Total other creditors	368	258

11 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

Notes to the Financial Statements

The currency exposure of the fund was:

Currency	Non-monetary exposures		Monetary exposures	Monetary exposures	Total exposure
	Investments [^]	Cash balances	Debtors/(Creditors)		
31/10/23	£'000	£'000	£'000	£'000	£'000
UK Pound	149,713	434	2		150,149
US Dollar	5,726	-	-		5,726
Total	155,439	434	2		155,875
31/10/22	£'000	£'000	£'000	£'000	£'000
UK Pound	121,928	565	360		122,853
US Dollar	5,295	-	-		5,295
Total	127,223	565	360		128,148

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.77% rise or fall in the fund's market value (2022: 0.87%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: same).

12 Portfolio transaction costs

15 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 10.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £27,000 (2022: £21,000) are included within accrued expenses in Note 10.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £1,499,000 (2022: £900,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £32,356,000 and £30,485,000 respectively (2022: £39,716,000 and £15,428,000).

Amounts receivable at the year end in respect of investments sold of £52,000 (2022: £226,000) are included within sales awaiting settlement in Note 9.

Amounts due at the year end in respect of investments purchased of £166,000 (2022: nil) are included within purchases awaiting settlement in Note 10.

Group 2	0.6384	2.9010	3.5394	3.1379

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a period of 5 years or more through a portfolio providing global exposure to both lower and higher risk assets.

The fund will invest at least 70% into funds that use 'index tracking' (also known as 'passive') investment management approach (these may include funds managed by Fidelity), with the aim of pursuing a lower cost investment approach. The fund can also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

The Investment Manager will actively select investments for the fund. As part of the investment process, the Investment Manager aims to maintain a fixed allocation of 20% in lower-risk assets (such as debt instruments including global government bonds, global corporate bonds and cash) and 80% higher-risk assets (such as global equities, global emerging market equities, global smaller companies and global property securities). This allocation, as well as the breakdown of higher-risk and lower-risk assets, may change according to prevailing market conditions and the efficient management of the portfolio, and will be periodically rebalanced back to its target 20/80 allocation.

As part of the fund's asset allocation process, the Investment Manager will aim to maintain an underlying static asset allocation that is designed in-house and based on proprietary capital market assumptions using quantitative research. For the 20% lower-risk assets, the fund will aim to maintain an allocation of at least 8% in government bonds and the remainder in corporate bonds. For the 80% higher-risk assets, the fund will aim to maintain an allocation of at least 45% in global equities with the remainder spread across assets including global real estate investment trusts, global small cap and emerging market equities. The Investment Manager rebalances the strategy regularly back to these static asset allocations and has discretion over when to do so. However, the Portfolio Manager does not take relative positions 'overweight' or 'underweight' versus this static mix. The fund does not aim to outperform this static asset allocation.

The fund is managed without reference to a benchmark.

Performance and Portfolio Activity

The fund delivered positive returns over the period, driven by its allocation to both global and emerging market equities, as well as global corporate bonds. Conversely, positions in global real estate investment trusts (REITs) and global small-cap equities held back gains. The fund is managed to provide diversified and efficient exposure to global markets and has a purely static strategic asset allocation. 20% of the portfolio is invested in lower risk defensive assets and 80% is held in higher risk growth assets. Over the period, the position in iShares Environment & Low Carbon Tilt Real Estate Index was sold in favour of a new holding in Amundi Index FTSE EPRA NAREIT Global UCITS ETF. Meanwhile, Xtrackers MSCI World UCITS ETF and Fidelity Index Global Government Bond Fund were added to the portfolio.

Outlook

The fund's asset allocation is not impacted by the market outlook. The portfolio is managed to provide diversified and efficient exposure to global markets and is rebalanced periodically to keep asset allocation in line with the fund's long-term strategic asset allocation.

Risk and Reward Indicator

SRRI

W Accumulation Shares

5

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000

11 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

Notes to the Financial Statements

The currency exposure of the fund was:

Currency	Non-monetary exposures		Monetary exposures	Monetary exposures	Total exposure
	Investments [^]	Cash balances	Debtors/(Creditors)		
31/10/23	£'000	£'000	£'000	£'000	£'000
UK Pound	393,790	3,791	(240)		397,341
US Dollar	10,726	-	-		10,726
Total	404,516	3,791	(240)		408,067
31/10/22	£'000	£'000	£'000	£'000	£'000
UK Pound	311,442	2,165	604		314,211
US Dollar	10,116	-	-		10,116
Total	321,558	2,165	604		324,327

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.79% rise or fall in the fund's market value (2022: 0.90%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 1.21% fall or rise in the fund's market value (2022: 1.32%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: same).

15 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 10.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £70,000 (2022: £54,000) are included within accrued expenses in Note 10.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £3,132,000 (2022: £1,655,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £69,875,000 and £64,458,000 respectively (2022: £88,955,000 and £29,733,000).

Amounts due at the year end in respect of investments purchased of £5,234,000 (2022: £638,000) are included within purchases awaiting settlement in Note 10.

Amounts receivable at the year end in respect of investments sold of £267,000 (2022: nil) are included within sales awaiting settlement in note 9.

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a period of 5 years or more through a portfolio providing global exposure to both lower and higher risk assets.

The fund will invest at least 70% into funds that use an 'index tracking' (also known as 'passive') investment management approach (these may include funds managed by Fidelity), with the aim of pursuing a lower cost investment approach.

The fund can also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

The Investment Manager will actively select investments for the fund. As part of the investment process, the Investment Manager aims to maintain a fixed allocation of 80% in lower-risk assets (such as debt instruments including global government bonds, global corporate bonds and cash) and 20% higher-risk assets (including global equities, global emerging market equities, global smaller companies and global property securities). This allocation, as well as the breakdown of higher-risk and lower-risk assets, may change according to prevailing market conditions and the efficient management of the portfolio, and will be periodically rebalanced back to its target 80/20 allocation.

As part of the fund's asset allocation process, the Investment Manager will aim to maintain an underlying static asset allocation that is designed in-house and based on proprietary capital market assumptions using quantitative research. For the 80% lower-risk assets, the fund will aim to maintain an allocation of at least 40% in government bonds and over 25% in corporate bonds. For the 20% higher-risk assets, the fund will aim to maintain an allocation of at least 10% in global equities with the remainder spread across assets including global real estate investment trusts, global small cap and emerging market equities. The Investment Manager rebalances the strategy regularly back to these static asset allocations and has discretion over when to do so. However, the Portfolio Manager does not take relative positions 'overweight' or 'underweight' versus this static mix. The fund does not aim to outperform this static asset allocation.

The fund is managed without reference to a benchmark.

Performance and Portfolio Activity

The fund delivered positive returns over the period, driven by its allocation to global corporate bonds, as well as global and emerging market equities. Conversely, positions in global government bonds and global real estate investment trusts (REITs) held back gains. The fund is managed to provide diversified and efficient exposure to global markets and has a purely static strategic asset allocation. 80% of the portfolio is invested in lower risk defensive assets and 20% is held in higher risk growth assets. Over the period, the position in iShares Environment & Low Carbon Tilt Real Estate Index was sold in favour of a new holding in Amundi Index FTSE EPRA NAREIT Global UCITS ETF. Meanwhile, a new position was purchased in Fidelity Index Global Government Bond Fund.

Outlook

The fund's asset allocation is not impacted by the market outlook. The portfolio is managed to provide diversified and efficient exposure to global markets and is rebalanced periodically to ensure that it is in line with its long-term strategic asset allocation.

Risk and Reward Indicator

SRRI

W Accumulation Shares

4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	(1,299)	(19,588)
Gains/(losses) on forward currency contracts+	(97)	(129)

6 Expenses

	31/10/23 £'000	31/10/22 £'000
Payable to the ACD, associates of the ACD, and agents of either of them:		
Investment management fees	245	261
	<u>245</u>	<u>261</u>
Total expenses*		

*The ACD is responsible for payment of all charges and expenses of the fund out of its investment management fees including audit fees amounting to £10,000 (including VAT) (2022: £10,000).

7 Taxation

	31/10/23 £'000	31/10/22 £'000
a) Analysis of charge/(credit) for the year		
UK corporation tax	4	5
Overseas taxation	1	3
Double taxation relief	(1)	(3)
Prior year adjustment	(2)	-
	<u>2</u>	<u>5</u>
Total current taxation		
b) Factors affecting tax charge/(credit) for the year		
Net revenue/(expense) before taxation	<u>2,045</u>	<u>1,481</u>
Net revenue/(expense) multiplied by the standard rate of corporation tax of 20% (2022: 20%).	409	296

Notes to the Financial Statements

Effects of:

Double taxation relief	(1)	(3)
Interest distributions	(329)	(229)
Management fee rebate	3	4
Overseas taxation	1	3
Prior year adjustment	(2)	-
Revenue not included for tax purposes	(79)	(66)
	<u>2</u>	<u>5</u>

Current tax charge/(credit)

Open ended investment companies are exempt from UK tax on capital gains.

The fund is an interest distributing fund under Corporation Tax Act 2009 and as interest distributions are deductible when calculating the liability, the corporation tax charge will usually be reduced to nil, except where there are expenses which are not deductible.

Notes to the Financial Statements

11 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures	Monetary exposures	Monetary exposures	Total exposure
	Investments [^]	Cash balances	Debtors/(Creditors)	
31/10/23	£'000	£'000	£'000	£'000
UK Pound	114,544	336	(342)	114,538
US Dollar	675	-	-	675
Total	115,219	336	(342)	115,213
31/10/22	£'000	£'000	£'000	£'000
UK Pound	120,840	533	239	121,612
US Dollar	780	-	-	780
Total	121,620	533	239	122,392

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile of financial assets and financial liabilities

The interest rate risk profile of the fund's financial assets was:

Currency	Floating rate financial assets	Fixed rate financial assets	Financial assets on which no	Total assets
			interest is paid	
31/10/23	£'000	£'000	£'000	£'000
UK Pound	339	-	120,294	120,633
US Dollar	-	-	677	677
Total	339	-	120,971	121,310
31/10/22	£'000	£'000	£'000	£'000
UK Pound	59,019	-	62,643	121,662
US Dollar	-	-	811	811
Total	59,019	-	63,454	122,473

The interest rate risk profile of the fund's financial liabilities was:

Currency	Floating rate financial	Fixed rate financial liabilities	Financial liabilities on which	Total liabilities [^]
	liabilities		no interest is paid [^]	
31/10/23	£'000	£'000	£'000	£'000
UK Pound	-	-	121,308	121,308
US Dollar	-	-	2	2
Total	-	-	121,310	121,310
31/10/22	£'000	£'000	£'000	£'000
UK Pound	-	-	122,442	122,442
US Dollar	-	-	31	31
Total	-	-	122,473	122,473

[^] Includes £115,213,000 in respect of the fund's liability to redeem all shares (2022: £122,392,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.90% rise or fall in the fund's market value (2022: 0.95%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 4.80% fall or rise in the fund's market value (2022: 5.32%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Notes to the Financial Statements

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: same).

Notes to the Financial Statements

15 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 10.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £20,000 (2022: £21,000) are included within accrued expenses in Note 10.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £331,000 (2022: £269,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £4,041,000 and £6,216,000 respectively (2022: £6,385,000 and £5,616,000).

Amounts receivable at the year end in respect of investments sold of £26,000 (2022: nil) are included within sales awaiting settlement in Note 9.

Amounts due at the year end in respect of investments purchased of nil (2022: £28,000) are included within purchases awaiting settlement in Note 10.

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a period of 5 years or more through a portfolio providing global exposure to both lower and higher risk assets.

The fund will invest at least 70% into funds that use an 'index tracking' (also known as 'passive') investment management approach (these may include funds managed by Fidelity), with the aim of pursuing a lower cost investment approach. The fund can also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

The Investment Manager will actively select investments for the fund. As part of the investment process, the Investment Manager aims to maintain a fixed allocation of 40% in lower-risk assets (such as debt instruments including global government bonds, global corporate bonds and cash) and 60% higher-risk assets (including global equities, global emerging market equities, global smaller companies and global property securities). This allocation, as well as the breakdown of higher-risk and lower-risk assets, may change according to prevailing market conditions and the efficient management of the portfolio, and will be periodically rebalanced back to its target 40/60 allocation.

As part of the fund's asset allocation process, the Investment Manager will aim to maintain an underlying static asset allocation that is designed in-house and based on proprietary capital market assumptions using quantitative research. For the 40% lower-risk assets, the fund will aim to maintain an allocation of at least 20% in government bonds and over 10% in corporate bonds. For the 60% higher-risk assets, the fund will aim to maintain an allocation of at least 35% in global equities with the remainder spread across assets including global real estate investment trusts, global small cap and emerging market equities. The Investment Manager rebalances the strategy regularly back to these static asset allocations and has discretion over when to do so. However, the Portfolio Manager does not take relative positions 'overweight' or 'underweight' versus this static mix. The fund does not aim to outperform this static asset allocation.

The fund is managed without reference to a benchmark.

Performance and Portfolio Activity

The fund delivered positive returns over the period, driven by its allocation to global equities, global corporate bonds and emerging market equities. Conversely, positions in global real estate investment trusts (REITs) and global government bonds held back gains. The fund is managed to provide diversified and efficient exposure to global markets and has a purely static strategic asset allocation. 40% of the portfolio is invested in lower risk defensive assets and 60% is held in higher risk growth assets. Over the period, the position in iShares Environment & Low Carbon Tilt Real Estate Index was sold in favour of a new holding in Amundi Index FTSE EPRA NAREIT Global UCITS ETF. Meanwhile, Xtrackers MSCI World UCITS ETF and Fidelity Index Global Government Bond Fund were added to the portfolio, while the position in Fidelity Index US Fund was sold.

Outlook

The fund's asset allocation is not impacted by the market outlook. The portfolio is managed to provide diversified and efficient exposure to global markets and is rebalanced periodically to ensure that it is in line with its long-term strategic asset allocation.

Risk and Reward Indicator

SRRI

W Accumulation Shares

4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case. There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	(4,727)	(70,783)
Gains/(losses) on forward currency contracts+	(644)	(130)

11 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

Notes to the Financial Statements

The currency exposure of the fund was:

Currency	Non-monetary exposures Investments^	Monetary exposures Cash balances	Monetary exposures Debtors/(Creditors)	Total exposure
	£'000	£'000	£'000	£'000
31/10/23				
UK Pound	773,695	2,090	(267)	775,518
US Dollar	13,418	-	-	13,418
Total	787,113	2,090	(267)	788,936
31/10/22				
UK Pound	699,481	5,232	1,006	705,719
US Dollar	14,810	-	-	14,810
Total	714,291	5,232	1,006	720,529

^ includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.81% rise or fall in the fund's market value (2022: 0.91%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 2.43% fall or rise in the fund's market value (2022: 2.64%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: same).

*During the year dealing spread costs may be applicable to purchases and sales (the difference between bid and offer prices of all investments expressed as a percentage of the offer price value), which are not separately identifiable and do not form part of the analysis above. Dealing spread costs suffered by the fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment. At the Balance Sheet date the average portfolio dealing spread was 0.00% (2022: 0.00%).

13 Basis of valuation

15 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 10.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £137,000 (2022: £120,000) are included within accrued expenses in Note 10.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £5,262,000 (2022: £3,203,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £74,260,000 and £111,936,000 respectively (2022: £121,933,000 and £42,376,000).

Amounts due at the year end in respect of investments purchased of £20,336,000 (2022: £592,000) are included within purchases awaiting settlement in Note 10.

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a period of 5 years or more through a portfolio providing global exposure to both lower and higher risk assets.

The fund will invest at least 70% into funds that use an 'index tracking' (also known as 'passive') investment management approach (these may include funds managed by Fidelity), with the aim of pursuing a lower cost investment approach. The fund can also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

The Investment Manager will actively select investments for the fund. As part of the investment process, the Investment Manager aims to maintain a fixed allocation of 60% in lower-risk assets (such as debt instruments including global government bonds, global corporate bonds and cash) and 40% higher-risk assets (such as global equities, global emerging market equities, global smaller companies and global property securities). This allocation, as well as the breakdown of higher-risk and lower-risk assets, may change according to prevailing market conditions and the efficient management of the portfolio, and will be periodically rebalanced back to its target 60/40 allocation.

As part of the fund's asset allocation process, the Investment Manager will aim to maintain an underlying static asset allocation that is designed in-house and based on proprietary capital market assumptions using quantitative research. For the 60% lower-risk assets, the fund will aim to maintain an allocation of at least 30% in government bonds and over 20% in corporate bonds. For the 40% higher-risk assets, the fund will aim to maintain an allocation of at least 20% in global equities with the remainder spread across assets including global real estate investment trusts, global small cap and emerging market equities. The Investment Manager rebalances the strategy regularly back to these static asset allocations and has discretion over when to do so. However, the Portfolio Manager does not take relative positions 'overweight' or 'underweight' versus this static mix. The fund does not aim to outperform this static asset allocation.

The fund is managed without reference to a benchmark.

Performance and Portfolio Activity

The fund delivered positive returns over the period, driven by its allocation to global equities, global corporate bonds and emerging market equities. Conversely, positions in global government bonds and global real estate investment trusts (REITs) held back gains. The fund is managed to provide diversified and efficient exposure to global markets and has a purely static strategic asset allocation. 60% of the portfolio is invested in lower risk defensive assets and 40% is held in higher risk growth assets. Over the period, the position in iShares Environment & Low Carbon Tilt Real Estate Index was sold in favour of a new holding in Amundi Index FTSE EPRA NAREIT Global UCITS ETF. Meanwhile, the Fidelity Index Global Government Bond Fund was added to the portfolio.

Outlook

The fund's asset allocation is not impacted by the market outlook. The portfolio is managed to provide diversified and efficient exposure to global markets and is rebalanced periodically to ensure that it is in line with its long-term strategic asset allocation.

Risk and Reward Indicator

SRRI

W Accumulation Shares

4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	(3,421)	(43,446)
Gains/(losses) on forward currency contracts+	(154)	(311)
Other currency gains/(losses)	-	(2)
ACD fee rebate/waiver to capital	102	95
	<u>(3,473)</u>	<u>(43,664)</u>
Net capital gains/(losses)		
+ These comprise:		
Realised gains/(losses)++	(4,146)	2,346
Unrealised gains/(losses)	571	(46,103)
	<u>(3,575)</u>	<u>(43,757)</u>
Total		
++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).		

5 Revenue

	31/10/23 £'000	31/10/22 £'000
UK dividend distributions	1,924	1,389
Unfranked UK dividend distributions	5	330
Overseas dividend distributions	334	233

UK corporation tax payable	483	313
UK income tax payable	1	-
Total other creditors	<u>15,433</u>	<u>1,085</u>

11 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures Investments [^]	Monetary exposures Cash balances	Monetary exposures Debtors/(Creditors)	Total exposure
	£'000	£'000	£'000	£'000
31/10/23				
UK Pound	361,496	1,106	(854)	361,748
US Dollar	4,206	-	-	4,206
Total	365,702	1,106	(854)	365,954
31/10/22				
UK Pound	332,922	2,249	(102)	335,069
US Dollar	4,182	-	-	4,182
Total	337,104	2,249	(102)	339,251

[^] includes cash equivalents where appropriate.

Notes to the Financial Statements

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile of financial assets and financial liabilities

The interest rate risk profile of the fund's financial assets was:

Currency	Floating rate financial assets	Fixed rate financial assets	Financial assets on which no interest is paid	Total assets
31/10/23	£'000	£'000	£'000	£'000
UK Pound	162,883	-	214,298	377,181
US Dollar	-	-	4,215	4,215
Total	162,883	-	218,513	381,396
31/10/22	£'000	£'000	£'000	£'000
UK Pound	203,234	-	132,920	336,154
US Dollar	-	-	4,304	4,304
Total	203,234	-	137,224	340,458

The interest rate risk profile of the fund's financial liabilities was:

Currency	Floating rate financial liabilities	Fixed rate financial liabilities	Financial liabilities on which no interest is paid [^]	Total liabilities [^]
31/10/23	£'000	£'000	£'000	£'000
UK Pound	-	-	381,387	381,387
US Dollar	-	-	9	9
Total	-	-	381,396	381,396
31/10/22	£'000	£'000	£'000	£'000
UK Pound	-	-	340,336	340,336
US Dollar	-	-	122	122
Total	-	-	340,458	340,458

[^] Includes £365,954,000 in respect of the fund's liability to redeem all shares (2022: £339,251,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.91% rise or fall in the fund's market value (2022: 0.96%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 3.88% fall or rise in the fund's market value (2022: 3.98%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: same).

12 Portfolio transaction costs

15 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 10.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £63,000 (2022: £58,000) are included within accrued expenses in Note 10.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £1,939,000 (2022: £1,372,000) is included in Note 5.

Notes to the Financial Statements

During the year, the aggregate value of purchases and sales in Fidelity funds were £23,388,000 and £20,113,000 respectively (2022: £31,395,000 and £18,860,000).

Amounts receivable at the year end in respect of investments sold of nil (2022: £177,000) are included within sales awaiting settlement in Note 9.

Amounts due at the year end in respect of investments purchased of £14,105,000 (2022: £45,000) are included within purchases awaiting settlement in Note 10.

Group 2	1.2249	0.9129	2.1378	1.6541

Fund Manager's Review

Investment Objective and Policy

The fund aims to achieve an income yield of 3-5% per annum over a typical market cycle (5-7 years). The fund also aims to increase the value of your investment over a period of 5 years or more. Any income you may receive will vary depending on the share class of the fund into which you are invested.

The fund invests at least 70% into funds (including index-tracking funds and funds managed by Fidelity) which provide global exposure to a mixture of asset classes (including bonds, equities and alternative investments). Alternative investments may include infrastructure securities and real estate. The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes. The fund is actively managed without reference to a benchmark.

Asset allocation exposure of the fund will be actively managed subject to it remaining within the following parameters: 20-100% income assets (such as bonds and cash) and 0-60% growth assets (such as equities and alternative investments as stipulated above). Exposure to index-tracking funds may represent between 30% to 70% of the fund's investments at any time. The fund's asset allocation can be adjusted within the ranges in order to preserve capital or to take advantage of market opportunities.

Performance and Portfolio Activity

The fund generated income in line with its objective and posted positive returns. The allocation to hybrid bonds added value. Emerging market local currency debt performed well as the US dollar remained weak over most of the period. Elsewhere, equity holdings supported performance, specifically the UK, Asian and Europe ex-UK equities. Conversely, equity hedges detracted from returns as broader equity markets did well. Meanwhile, US government bonds held back gains due to rising yields.

Despite geopolitical tensions and several rounds of interest rate hikes, moderating inflationary pressures in developed markets buoyed market sentiment. Against this backdrop, we bought holdings in Brazilian and South African government bonds, Neuberger Berman Short Duration High Yield Bond Fund and MSCI Brazil. Meanwhile, short equity positions in Euro STOXX 50 and eMini S&P 500 were sold.

Outlook

The consensus is now for a soft landing as investors are optimistic on economic data releases. We maintain an overall cautious stance but are taking some risk tactically as economies remain resilient and seasonality is positive for equities. Inflation is still above target and major central banks are unlikely to cut interest rates anytime soon.

Risk and Reward Indicator

	SRRI
Investment Pathway 3 Accumulation Shares	4
Lovewell Blake FP Income Shares	4
W Accumulation Shares	4
W Income Shares	4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.
- The risk level for W Income Shares has decreased to level 4 (2022: level 5).

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	(1,384)	(13,585)
Gains/(losses) on derivative contracts+	(1,641)	848
Gains/(losses) on forward currency contracts+	80	(6,275)
Other currency gains/(losses)	(72)	(64)
ACD fee rebate/waiver to capital	280	369
Management fee rebate to capital	7	11
	<u>(2,730)</u>	<u>(18,696)</u>
Net capital gains/(losses)		
+ These comprise:		
Realised gains/(losses)++	(5,667)	(10,473)
Unrealised gains/(losses)	2,722	(8,539)
	<u>(2,945)</u>	<u>(19,012)</u>
Total		
++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).		

5 Revenue

	31/10/23 £'000	31/10/22 £'000
UK dividend distributions	569	786
Unfranked UK dividend distributions	303	317
Overseas dividend distributions	798	913
Interest on securities	495	21
Interest distributions	2,861	2,535
Derivative revenue	389	121
Management fee rebate to income	-	5
ACD fee rebate/waiver to income	266	276
Bank interest	59	17

12 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures		Monetary exposures		Total exposure £'000
	Investments^		Cash balances	Debtors/(Creditors)	
31/10/23	£'000		£'000	£'000

Total	25	-	101,964	101,989

^ Includes £95,304,000 in respect of the fund's liability to redeem all shares (2022: £94,763,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.53% rise or fall in the fund's market value (2022: 0.36%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 2.55% fall or rise in the fund's market value (2022: 2.70%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: same).

16 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 11.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £33,000 (2022: £32,000) are included within accrued expenses in Note 11.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £905,000 (2022: £1,200,000) is included in Note 5 and amounts receivable at the year end of £64,000 (2022: £65,000) are included within accrued revenue in Note 9.

During the year, the aggregate value of purchases and sales in Fidelity funds were £9,069,000 and £10,325,000 respectively (2022: £5,595,000 and £8,842,000).

Fund Manager's Review

Investment Objective and Policy

The fund aims to achieve an income yield of 4-6% per annum over a typical market cycle (5-7 years). The fund also aims to increase the value of your investment over a period of 5 years or more which will typically be in line with inflation. Any income you may receive will vary depending on the share class of the fund into which you are invested and is not guaranteed.

The fund invests at least 70% into funds (including funds managed by Fidelity) which provide global exposure to a mixture of asset classes. The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes. The fund is actively managed without reference to a benchmark.

Asset allocation exposure of the fund will be actively managed subject to it remaining within the following parameters: 25-100% growth assets (such as equities, infrastructure securities and real estate securities) and 0-100% income assets (such as bonds and cash). The fund's asset allocation can be adjusted within the ranges in order to preserve capital or to take advantage of market opportunities.

Performance and Portfolio Activity

The fund generated income in line with its objective and posted positive returns. Equities supported performance, specifically the UK, Europe ex-UK and financials. The allocation to hybrid bonds and loans and structured credit also added value. Emerging market local currency debt performed well as the US dollar remained weak over most of the period. Conversely, the allocation to social and renewable energy infrastructure was negatively impacted by volatility in the government bond market and the UK mid-cap equity market. Equity hedges also detracted from returns as broader equity markets did well.

Despite geopolitical tensions and several rounds of interest rate hikes, moderating inflationary pressures in developed markets buoyed investor sentiment. Against this backdrop, we bought holdings in Brazilian and South African government bonds, Fidelity Funds - Global Inflation-linked Bond Fund, Neuberger Berman Short Duration High Yield Bond Fund and MSCI Brazil. Meanwhile, short equity positions in Euro STOXX 50 and eMini S&P 500 were sold. We also sold the holding in Fidelity Sustainable UK Aggregate Bond Fund.

Outlook

The consensus is now for a soft landing as investors are optimistic on economic data releases. We maintain an overall cautious stance but are taking some risk tactically as economies remain resilient and seasonality is positive for equities. Inflation is still above target and major central banks are unlikely to cut interest rates anytime soon.

Eugene Philalithis, Becky Qin & George Efstathopoulos

Risk and Reward Indicator

	SRRI
Lovewell Blake FP Income Shares	4
W Accumulation Shares	4
W Income Shares	4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.
- The risk level for W Income Shares has decreased to level 4 (2022: level 5).

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	(999)	(7,897)
Gains/(losses) on derivative contracts+	(855)	480
Gains/(losses) on forward currency contracts+	527	(5,626)
Other currency gains/(losses)	(143)	(85)
Transaction charges	(11)	(10)
ACD fee rebate/waiver to capital	169	194
Management fee rebate to capital	6	16
	<u>(1,306)</u>	<u>(12,928)</u>
Net capital gains/(losses)		
+ These comprise:		
Realised gains/(losses)++	(716)	(8,550)
Unrealised gains/(losses)	(611)	(4,493)
	<u>(1,327)</u>	<u>(13,043)</u>

Total
++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).

5 Revenue

	31/10/23 £'000	31/10/22 £'000

^ Includes £68,281,000 in respect of the fund's liability to redeem all shares (2022: £74,381,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.57% rise or fall in the fund's market value (2022: 0.36%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 1.87% fall or rise in the fund's market value (2022: 1.65%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Equity derivatives

The fund invests into contracts for difference to gain exposure to the equity markets. A 10% change in the price of the contracts for difference would result in a 0.83% (2022: 0.53%) change in the fund's market value.

The fund invests into futures to gain exposure to the equity markets. A 10% change in the price of the futures would result in a 1.47% (2022: 0.62%) change in the fund's market value.

*During the year dealing spread costs may be applicable to purchases and sales (the difference between bid and offer prices of all investments expressed as a percentage of the offer price value), which are not separately identifiable and do not form part of the analysis above. Dealing spread costs suffered by the fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment. At the Balance Sheet date the average portfolio dealing spread was 0.00% (2022: 0.00%).

16 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 11.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £40,000 (2022: £43,000) are included within accrued expenses in Note 11.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5 and amounts receivable at the year end are included within the ACD fee rebate/waiver recoverable in Note 11.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £855,000 (2022: £1,008,000) is included in Note 5 and amounts receivable at the year end of £48,000 (2022: £50,000) are included within accrued revenue in Note 9.

During the year, the aggregate value of purchases and sales in Fidelity funds were £4,161,000 and £14,165,000 respectively (2022: £9,023,000 and £6,002,000).

Fund Manager's Review

Investment Objective and Policy

The fund aims to achieve an income yield of 4-6% per annum over a typical market cycle (5-7 years). Any income you may receive will vary depending on the share class of the fund into which you are invested and is not guaranteed.

The fund invests at least 70% into funds (including funds managed by Fidelity) which provide global exposure to a mixture of asset classes. The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes. The fund is actively managed without reference to a benchmark.

Asset allocation exposure of the fund will be actively managed subject to it remaining within the following parameters: 20-100% income assets (such as bonds and cash) and 0-65% growth assets (such as equities, infrastructure securities and property securities). The fund's asset allocation can be adjusted within the ranges in order to preserve capital or to take advantage of market opportunities.

Performance and Portfolio Activity

The fund generated income in line with its objective and posted positive returns. The allocation to hybrid bonds, as well as loans and structured credit, added value. Emerging market local currency debt performed well as the US dollar remained weak over most of the period. Elsewhere, equities enhanced gains, specifically the UK, global and financials equities. Conversely, the allocation to social and renewable energy infrastructure was negatively impacted by volatility in the government bond market and UK mid-cap equity market. Equity hedges also detracted from returns as broader equity markets did well.

Despite geopolitical tensions and several rounds of interest rate hikes, moderating inflationary pressures in developed markets buoyed investor sentiment. Against this backdrop, we bought holdings in Brazilian and South African government bonds, Fidelity Renaissance Fund and Neuberger Berman Short Duration High Yield Bond Fund. Meanwhile, short equity positions in Euro STOXX 50 and eMini S&P 500 were sold. We also sold the holding in Fidelity Sustainable UK Aggregate Bond Fund.

Outlook

The consensus is now for a soft landing as investors are optimistic on economic data releases. We maintain an overall cautious stance but are taking some risk tactically as economies remain resilient and seasonality is positive for equities. Inflation is still above target and major central banks are unlikely to cut interest rates anytime soon.

Risk and Reward Indicator

	SRRI
A Accumulation Shares	4
I Accumulation Shares	4
I Income Shares	4
Lovewell Blake FP Income Shares	4
W Accumulation Shares	4
W Income Shares	4

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.
- The risk level for I Income Shares and W Income Shares has decreased to level 4 (2022: level 5).

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	(29,899)	(153,361)
Gains/(losses) on derivative contracts+	(12,133)	8,891
Gains/(losses) on forward currency contracts+	6,274	(91,276)
Other currency gains/(losses)	(1,466)	(137)
Transaction charges	(114)	(83)
ACD fee rebate/waiver to capital	2,969	3,880
Management fee rebate to capital	30	109
	<u>(34,339)</u>	<u>(231,977)</u>
Net capital gains/(losses)		
+ These comprise:		
Realised gains/(losses)++	(64,688)	(155,846)
Unrealised gains/(losses)	28,930	(79,900)
	<u>(35,758)</u>	<u>(235,746)</u>
Total		
++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).		

5 Revenue

	31/10/23 £'000	31/10/22 £'000
UK dividend distributions	4,686	8,332
Unfranked UK dividend distributions	1,831	2,359
Overseas dividend distributions	516	822
Interest on securities	4,663	172
Interest distributions	29,500	30,687
Derivative revenue	2,871	1,684
Management fee rebate to income	-	47
ACD fee rebate/waiver to income	2,822	3,265
UK dividends	1,199	1,988
Overseas dividends	3,877	5,450
Bank interest	231	224
Other income	3	10
	<u>52,199</u>	<u>55,040</u>
Total revenue		

6 Expenses

	31/10/23 £'000	31/10/22 £'000
Payable to the ACD, associates of the ACD, and agents of either of them:		
Investment management fees	4,368	5,667
Registrar fees	428	603
Service charges	428	555
Foreign exchange administration fees	15	10
	<u>5,239</u>	<u>6,835</u>
Payable to the Depositary, associates of the Depositary, and agents of either of them:		
Depositary fees	53	76
Custody fees	8	7
	<u>61</u>	<u>83</u>

Notes to the Financial Statements

Other expenses:		
Audit fee	13	11
Other operating expenses	63	13
	<u>76</u>	<u>24</u>
Total expenses	<u>5,376</u>	<u>6,942</u>
7 Taxation		
	31/10/23	31/10/22

Notes to the Financial Statements

12 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures	Monetary exposures	Monetary exposures	Total exposure
	Investments^	Cash balances	Debtors/(Creditors)	
31/10/23	£'000	£'000	£'000	£'000

[^] Includes £749,695,000 in respect of the fund's liability to redeem all shares (2022: £899,630,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.30% rise or fall in the fund's market value (2022: 0.22%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 3.19% fall or rise in the fund's market value (2022: 3.66%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Equity derivatives

The fund invests into contracts for difference and/or Equity Linked Notes to gain exposure to the equity markets. A 10% change in the price of the contracts for difference would result in a 0.50% (2022: 0.49%) change in the fund's market value.

The fund invests into futures to gain exposure to the equity markets. A 10% change in the price of the futures would result in a 0.15% (2022: 1.07%) change in the fund's market value.

*During the year dealing spread costs may be applicable to purchases and sales (the difference between bid and offer prices of all investments expressed as a percentage of the offer price value), which are not separately identifiable and do not form part of the analysis above. Dealing spread costs suffered by the fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment. At the Balance Sheet date the average portfolio dealing spread was 0.00% (2022: 0.00%).

*Where fair value market adjustments have been applied on the fund midday prices, the adjustment is reflected as observable market data.

**It is the responsibility of the Fair Value Committee (FVC) to ensure pricing sources and methodologies used to value securities are appropriate as delegated by the ACD. Investments classified as using inputs that are not based on observable market data comprise fair value adjusted securities and single sourced bonds. In seeking to value such securities where no liquid market exists, the FVC will gather valuation related information from multiple internal and external sources. These sources include historic trading and pricing information (including grey market trades) and the views of internal security analysts. Internal security analysts have access to a range of material including, company specific news and earnings, cash flow forecasts, valuations of the underlying portfolio company and competitor company valuations within related industries and sectors to determine a valuation recommendation for each unlisted security. The FVC has the ability to apply discounts to security valuations. Management determines the discount based on its judgement, after considering market liquidity conditions and company specific factors such as the development stage of the portfolio company. Generally for fair valued securities and single source bonds where there is no price source from an active market, the FVC has applied judgement in determining the fair value. This fair value is established by using measures such as; suspended securities where the last traded price is used or the price of a recent transaction made by management or a third party which will also factor in a discount where negative news has been observed. Generally unlisted securities are valued at cost, a trade executed by another Fidelity Fund, grey market trades or at a nil value where companies have gone into liquidation, administration or are deemed worthless. Single sourced broker prices use data received from a single pricing vendor and stale prices use the most recent broker quote available. The valuation approaches used by FIL are fully transparent and aim to be consistent with industry standards and best practice principles, including guidance from the IPEV (International Private Equity and Venture Capital) Valuation Guidelines, International Organization of Securities Commissions (IOSCO) valuation principles and the required accounting standards. For further detail on the basis of valuation of investments please refer to note 1h) of the accounting policies section.

16 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 11.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £330,000 (2022: £401,000) are included within accrued expenses in Note 11.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5 and amounts receivable at the year end are included within the ACD fee rebate/waiver recoverable in Note 11.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £13,591,000 (2022: £17,885,000) is included in Note 5 and amounts receivable at the year end of £637,000 (2022: £536,000) are included within accrued revenue in Note 9.

During the year, the aggregate value of purchases and sales in Fidelity funds were £109,429,000 and £250,029,000 respectively (2022: £169,901,000 and £229,393,000).

Amounts receivable at the year end in respect of investments sold of £114,000 (2022: £550,000) are included within sales awaiting settlement in Note 9.

18 Shareholders' funds

The fund has six share classes; A Accumulation Shares, I Income Shares, W Income Shares, W Accumulation Shares, Lovewell Blake FP Income Shares and I Accumulation Shares. The annual management charge on each share class is as follows:

A Accumulation Shares : 1.25%

I Income Shares : 0.50%

W Income Shares : 0.50%

W Accumulation Shares : 0.50%

Lovewell Blake FP Income Shares : 0.55%

I Accumulation Shares : 0.50%

The distributions per share class are given in the Distribution Statement. All classes have the same rights on winding up.

19 Post balance sheet event

The net asset value in pence per share at the Balance Sheet date and the latest practicable date prior to the publication of this report have been recorded below.

	NAV as at 31/10/23	NAV as at 08/02/24	Increase/(decrease)%

Fund Manager's Review

Investment Objective and Policy

This fund targets an average annual return of 6.5% after the deduction of ongoing fund charges, over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the W share class. There is no guarantee that the target will be achieved by the fund.

The fund provides global exposure to a diversified range of assets (including bonds, equities, alternatives and commodities) by investing at least 70% into funds (including those operated by Fidelity) which may be index tracking funds or actively managed funds. The fund has a large exposure to higher risk investments (such as global equities, global emerging market equities, global smaller companies and global property securities) meaning that there is a risk of short-term price fluctuations and an investor may not get back the full amount invested. The fund is actively managed without reference to a benchmark.

The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the fund will be actively managed subject to it remaining within the following parameters in all market conditions: 60-100% equity, 0-40% debt instruments (which may include investment grade bonds, sub-investment grade bonds and emerging market debt), 0-30% commodities, 0-20% cash and 0-30% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

Performance and Portfolio Activity

The fund delivered positive returns over the period. Within growth assets, most regional equities contributed to performance, led by holdings in the UK and Pacific ex-Japan. Positions in a macro absolute return strategy and the exposure to both physical gold and gold producers supported returns. These gains were partially offset by the allocation to US and UK government bonds. During the period, we bought a new position in Finisterre Unconstrained Emerging Markets Fixed Income Fund as we have a positive view on the region compared to developed markets. We maintained our preference for defensive areas and bought stocks in the US utilities sector. We sold holdings in Liontrust GF Tortoise Fund (previously known as Majedie Tortoise Fund) and the MSCI China index.

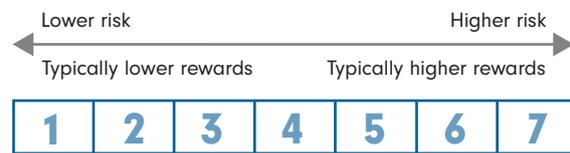

Outlook

Terminal rates are approaching their long-term target in developed markets as progress is being made on bringing down inflation. This means bond volatility should decline, which is supportive for carry trades. However, resilient growth data is likely to put a floor under bond yields in the short term.

Chris Forgan & Caroline Shaw

Risk and Reward Indicator

	SRRI
A Accumulation Shares	5
Lovewell Blake FP Accumulation Shares	5
W Accumulation Shares	5

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Compensation payments	-	8
Gains/(losses) on non-derivative securities+	8,450	(22,555)

b) Factors affecting tax charge/(credit) for the year		
Net revenue/(expense) before taxation	<u>5,017</u>	<u>3,885</u>
Net revenue/(expense) multiplied by the standard rate of corporation tax of 20% (2022: 20%). Effects of:	1,003	777
ACD fee waiver to capital	17	13
Increase/(decrease) in unutilised management expenses	312	462
Overseas tax expensed	(10)	(7)
Overseas taxation	615	530
Revenue not included for tax purposes	<u>(1,322)</u>	<u>(1,245)</u>
Current tax charge/(credit)	<u>615</u>	<u>530</u>

Open ended investment companies are exempt from UK tax on capital gains.

The fund has unrelieved excess management expenses resulting in a potential deferred tax asset of £2,564,000 (2022: £2,252,000). It is unlikely that the fund will generate sufficient taxable profits in the future to utilise these and therefore no deferred tax asset has been recognised.

8 Finance costs

	31/10/23 £'000	31/10/22 £'000
Distributions		
The distributions take account of revenue received on the issue of shares and revenue deducted on cancellation of shares.

12 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures		Monetary exposures	Monetary exposures	Total exposure
	Investments [^]	Cash balances	Debtors/(Creditors)		
31/10/23	£'000	£'000	£'000	£'000	£'000
Euro	29,056	-	-	-	29,056
UK Pound	124,917	4,612	(2,531)	-	126,998
Japanese Yen	14,149	-	-	-	14,149
US Dollar	110,756	(1)	-	-	110,755
Total	278,878	4,611	(2,531)	-	280,958
31/10/22	£'000	£'000	£'000	£'000	£'000
Euro	33,228	-	-	-	33,228
UK Pound	105,814	6,393	253	-	112,460
Japanese Yen	12,850	-	-	-	12,850
US Dollar	120,725	-	6	-	120,731
Total	272,617	6,393	259	-	279,269

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.74% rise or fall in the fund's market value (2022: 0.74%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 1.28% fall or rise in the fund's market value (2022: 1.14%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Bond futures

The fund invests into futures to gain exposure to the bond markets. A 1% change in interest rates would lead to a change representing 0.59% (2022: 0.66%) of the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: 10% change in the price of the contracts for difference would result in a 0.50% change in the fund's market value).

*During the year dealing spread costs may be applicable to purchases and sales (the difference between bid and offer prices of all investments expressed as a percentage of the offer price value), which are not separately identifiable and do not form part of the analysis above. Dealing spread costs suffered by the fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment. At the Balance Sheet date the average portfolio dealing spread was 0.00% (2022: 0.00%).

16 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 11.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £241,000 (2022: £246,000) are included within accrued expenses in Note 11.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5 and amounts receivable at the year end are included within the ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £232,000 (2022: £112,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £5,835,000 and £289,000 respectively (2022: £5,575,000 and £3,092,000).

18 Shareholders' funds

The fund has three share classes; A Accumulation Shares, W Accumulation Shares and Lovewell Blake FP Accumulation Shares. The annual management charge on each share class is as follows:

A Accumulation Shares : 1.25%

W Accumulation Shares : 0.50%

Lovewell Blake FP Accumulation Shares : 0.45%

The distributions per share class are given in the Distribution Statement. All classes have the same rights on winding up.

19 Post balance sheet event

The net asset value in pence per share at the Balance Sheet date and the latest practicable date prior to the publication of this report have been recorded below.

Fund Manager's Review

Investment Objective and Policy

This fund targets an average annual return of 4% after the deduction of ongoing fund charges, over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the W share class. There is no guarantee that the target will be achieved by the fund.

The fund provides global exposure to a diversified range of assets (including bonds, equities, alternatives and commodities) by investing at least 70% into funds (including those operated by Fidelity) which may be index tracking funds or actively managed funds. The fund has a large exposure to lower risk investments (such as debt instruments including global government bonds, global corporate bonds and cash) with the aim of mitigating the risk of capital losses, however, an investor may not get back the full amount invested. The fund is actively managed without reference to a benchmark.

The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the fund will be actively managed subject to it remaining within the following parameters in all market conditions: 0-35% equity, 15-100% debt instruments (which may include investment grade bonds, sub-investment grade bonds and emerging market debt), 0-20% commodities 0-30% cash and 0-30% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

Performance and Portfolio Activity

The fund delivered positive returns over the period. Within growth assets, equity holdings in the UK and emerging markets proved rewarding. Positions in sub-investment grade bonds and both physical gold and gold producers supported returns. These gains were partially offset by the allocation to US and UK government bonds. During the period, we bought iShares Core Global Agg UCITS ETF amid cost considerations. Elsewhere, we bought a new position in Finisterre Unconstrained Emerging Markets Fixed Income Fund as we have a positive view on the region compared to developed markets. We sold holdings in Liontrust GF Tortoise Fund (previously known as Majedie Tortoise Fund) and the MSCI China index.

Outlook

Terminal rates are approaching their long-term target in developed markets as progress is being made on bringing down inflation. This means bond volatility should decline, which is supportive for carry trades. However, resilient growth data is likely to put a floor under bond yields in the short term.

Chris Forgan & Caroline Shaw
Fund Managers

Risk and Reward Indicator

	SRRI
A Accumulation Shares	4
Lovewell Blake FP Accumulation Shares	4
W Accumulation Shares	4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

12 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures	Monetary exposures	Monetary exposures	Total exposure
	Investments [^]	Cash balances	Debtors/(Creditors)	
31/10/23	£'000	£'000	£'000	£'000
Euro	1,776	-	-	1,776
UK Pound	67,249	1,523	(875)	67,897
Japanese Yen	890	-	-	890
US Dollar	9,795	-	-	9,795
Total	79,710	1,523	(875)	80,358
31/10/22	£'000	£'000	£'000	£'000
Euro	2,106	-	-	2,106
UK Pound	66,278	1,982	(266)	67,994
Japanese Yen	1,543	-	-	1,543
US Dollar	10,093	-	-	10,093
Total	80,020	1,982	(266)	81,736

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile of financial assets and financial liabilities

The interest rate risk profile of the fund's financial assets was:

Currency	Floating rate financial assets	Fixed rate financial assets	Financial assets on which no	Total assets
			interest is paid	
31/10/23	£'000	£'000	£'000	£'000
Euro	-	-	1,776	1,776
UK Pound	56,060	-	13,009	69,069
Japanese Yen	-	-	914	914
US Dollar	3	-	10,065	10,068
Total	56,063	-	25,764	81,827
31/10/22	£'000	£'000	£'000	£'000
Euro	-	-	2,157	2,157
UK Pound	54,755	-	13,910	68,665
Japanese Yen	-	-	1,732	1,732
US Dollar	3	-	10,751	10,754
Total	54,758	-	28,550	83,308

Notes to the Financial Statements

The interest rate risk profile of the fund's financial liabilities was:

Currency	Floating rate financial liabilities	Fixed rate financial liabilities	Financial liabilities on which no interest is paid [^]	Total liabilities [^]
31/10/23	£'000	£'000	£'000	£'000
UK Pound	-	-	81,530	81,530
Japanese Yen	-	-	24	24
US Dollar	-	-	273	273
Total	-	-	81,827	81,827
31/10/22	£'000	£'000	£'000	£'000
Euro	-	-	51	51
UK Pound	-	-	82,407	82,407
Japanese Yen	-	-	189	189
US Dollar	-	-	661	661
Total	-	-	83,308	83,308

[^] Includes £80,358,000 in respect of the fund's liability to redeem all shares (2022: £81,736,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.43% rise or fall in the fund's market value (2022: 0.38%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 4.35% fall or rise in the fund's market value (2022: 4.74%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Bond futures

The fund invests into futures to gain exposure to the bond markets. A 1% change in interest rates would lead to a change representing 0.88% (2022: 1.01%) of the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: 10% change in the price of the futures would lead to a change representing in a 0.54% change in the fund's market value).

13 Portfolio transaction costs

*During the year dealing spread costs may be applicable to purchases and sales (the difference between bid and offer prices of all investments expressed as a percentage of the offer price value), which are not separately identifiable and do not form part of the analysis above. Dealing spread costs suffered by the fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment. At the Balance Sheet date the average portfolio dealing spread was 0.00% (2022: 0.00%).

16 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 11.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £49,000 (2022: £52,000) are included within accrued expenses in Note 11.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £84,000 (2022: £39,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £407,000 and £422,000 respectively (2022: £2,156,000 and £944,000).

18 Shareholders' funds

The fund has three share classes; A Accumulation Shares, W Accumulation Shares and Lovewell Blake FP Accumulation Shares. The annual management charge on each share class is as follows:

A Accumulation Shares : 1.25%

W Accumulation Shares : 0.50%

Lovewell Blake FP Accumulation Shares : 0.45%

The distributions per share class are given in the Distribution Statement. All classes have the same rights on winding up.

19 Post balance sheet event

The net asset value in pence per share at the Balance Sheet date and the latest practicable date prior to the publication of this report have been recorded below.

Fund Manager's Review

Investment Objective and Policy

This fund targets an average annual return of 5.5% after the deduction of ongoing fund charges, over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the W share class. There is no guarantee that the target will be achieved by the fund.

The fund provides global exposure to a diversified range of assets (including bonds, equities, alternatives and commodities) by investing at least 70% into funds (including those operated by Fidelity) which may be index tracking funds or actively managed funds. The fund has exposure to higher risk investments (such as global equities, global emerging market equities, global smaller companies and global property securities) meaning that there is a risk of short-term price fluctuations and an investor may not get back the full amount invested. The fund is actively managed without reference to a benchmark.

The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the fund will be actively managed subject to it remaining within the following parameters in all market conditions: 40-85% equity, 0-60% debt instruments (which may include investment grade bonds, sub-investment grade bonds and emerging market debt), 0-30% commodities, 0-20% cash and 0-30% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

Performance and Portfolio Activity

The fund delivered positive returns over the period. Within growth assets, most regional equities contributed to performance, led by holdings in the UK and Pacific ex-Japan. Positions in sub-investment grade bonds and both physical gold and gold producers supported returns. These gains were partially offset by the allocation to US and UK government bonds. During the period, we bought a new position in iShares Core Global Aggregate Bond UCITS ETF amid cost considerations. We continue to favour defensive areas and bought a holding in iShares Edge S&P 500 Minimum Volatility UCITS ETF. We sold positions in Liontrust GF Tortoise Fund (previously known as Majedie Tortoise Fund) and Xtrackers S&P 500 Swap UCITS ETF.

Outlook

Terminal rates are approaching their long-term target in developed markets as progress is being made on bringing down inflation. This means bond volatility should decline, which is supportive for carry trades. However, resilient growth data is likely to put a floor under bond yields in the short term.

Chris Forgan & Caroline Shaw
Fund Managers

Risk and Reward Indicator

	SRRI
A Accumulation Shares	5
Lovewell Blake FP Accumulation Shares	5
W Accumulation Shares	5

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Compensation payments	-	15
Gains/(losses) on non-derivative securities+	12,927	(49,019)
Gains/(losses) on derivative contracts+	(7,977)	(1,101)
Gains/(losses) on forward currency contracts+	(2,390)	(37)
Other currency gains/(losses)	(154)	398
Transaction charges	(3)	(8)
ACD fee rebate/waiver to capital	176	122
Management fee rebate to capital	2	1
	<u>2,581</u>	<u>(49,629)</u>
Net capital gains/(losses)		
+ These comprise:		
Realised gains/(losses)++	(223)	7,492
Unrealised gains/(losses)	2,783	(57,649)
	<u>2,560</u>	<u>(50,157)</u>
Total		
++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).		

5 Revenue

	31/10/23 £'000	31/10/22 £'000
UK dividend distributions	457	215
Overseas dividend distributions	12,906	11,942
Interest distributions	5,358	4,450
Derivative revenue	6	425
Management fee rebate to income	13	5
ACD fee rebate/waiver to income	1,113	871
Bank interest	1,791	330
Other income	177	-
	<u>21,821</u>	<u>18,238</u>
Total revenue		

6 Expenses

	31/10/23 £'000	31/10/22 £'000
Payable to the ACD, associates of the ACD, and agents of either of them:		
Investment management fees	4,473	4,412
Registrar fees	576	551
Service charges	288	275
Foreign exchange administration fees	1	4
	<u>5,338</u>	<u>5,242</u>
Payable to the Depositary, associates of the Depositary, and agents of either of them:		
Depositary fees	49	50
Custody fees	2	2
	<u>51</u>	<u>52</u>
Other expenses:		
Audit fee	11	9
Other operating expenses	2,891	2,929
	<u>2,902</u>	<u>2,938</u>
Total expenses	<u>8,291</u>	<u>8,232</u>

Notes to the Financial Statements

7 Taxation

	31/10/23 £'000	31/10/22 £'000
a) Analysis of charge/(credit) for the year		
Overseas taxation	1,020	834
Total current taxation	<u>1,020</u>	<u>834</u>
b) Factors affecting tax charge/(credit) for the year		
Net revenue/(expense) before taxation	<u>12,768</u>	<u>9,660</u>
Net revenue/(expense) multiplied by the standard rate of corporation tax of 20% (2022: 20%). Effects of:	2,554	1,932
ACD fee waiver to capital	35	24
Increase/(decrease) in unutilised management expenses	100	487
Overseas tax expensed	(16)	(12)
Overseas taxation	1,020	834
Revenue not included for tax purposes	<u>(2,673)</u>	<u>(2,431)</u>
Current tax charge/(credit)	<u>1,020</u>	<u>834</u>

Open ended investment companies are exempt from UK tax on capital gains.

The fund has unrelieved excess management expenses resulting in a potential deferred tax asset of £4,009,000 (2022: £3,909,000). It is unlikely that the fund will generate sufficient taxable profits in the future to utilise these and therefore no deferred tax asset has been recognised.

8 Finance costs

	31/10/23 £'000	31/10/22 £'000
Distributions		
The distributions take account of revenue received on the issue of shares and revenue deducted on cancellation of shares.		
A Accumulation Shares		
Final	2,615	1,906
W Accumulation Shares		
Final	8,440	6,337

11 Other creditors

	31/10/23	31/10/22
	£'000	£'000
Amounts payable for cancellation of shares	368	24
Accrued expenses	478	480
Amounts payable on closure of derivative contract	-	1
Purchases awaiting settlement	5,981	-
Total other creditors	6,827	505

12 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures		Monetary exposures		Total exposure
	Investments [^]		Cash balances	Debtors/(Creditors)	
31/10/23	£'000		£'000	£'000	£'000
Euro	53,211		-	-	53,211
UK Pound	337,587		11,522	(5,079)	344,030
Japanese Yen	23,021		-	-	23,021
US Dollar	177,444		-	-	177,444
Total	591,263		11,522	(5,079)	597,706
31/10/22	£'000		£'000	£'000	£'000
Euro	58,808		-	-	58,808
UK Pound	294,391		10,063	753	305,207
Japanese Yen	20,177		-	-	20,177
US Dollar	180,316		-	8	180,324
Total	553,692		10,063	761	564,516

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.63% rise or fall in the fund's market value (2022: 0.62%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 1.48% fall or rise in the fund's market value (2022: 1.68%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Bond futures

The fund invests into futures to gain exposure to the bond markets. A 1% change in interest rates would lead to a change representing 0.61% (2022: 0.72%) of the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: 10% change in the price of the futures would lead to a change representing in a 0.56% change in the fund's market value).

*During the year dealing spread costs may be applicable to purchases and sales (the difference between bid and offer prices of all investments expressed as a percentage of the offer price value), which are not separately identifiable and do not form part of the analysis above. Dealing spread costs suffered by the fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment. At the Balance Sheet date the average portfolio dealing spread was 0.00% (2022: 0.00%).

16 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 11.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £449,000 (2022: £427,000) are included within accrued expenses in Note 11.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £457,000 (2022: £215,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £10,020,000 and £580,000 respectively (2022: £11,586,000 and £6,000,000).

18 Shareholders' funds

The fund has three share classes; A Accumulation Shares, W Accumulation Shares and Lovewell Blake FP Accumulation Shares. The annual management charge on each share class is as follows:

A Accumulation Shares : 1.25%

W Accumulation Shares : 0.50%

Lovewell Blake FP Accumulation Shares : 0.45%

The distributions per share class are given in the Distribution Statement. All classes have the same rights on winding up.

19 Post balance sheet event

The net asset value in pence per share at the Balance Sheet date and the latest practicable date prior to the publication of this report have been recorded below.

	NAV as at 31/10/23	NAV as at 08/02/24	Increase/(decrease)%

Fund Manager's Review

Investment Objective and Policy

This fund targets an average annual return of 5% after the deduction of ongoing fund charges, over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the W share class. There is no guarantee that the target will be achieved by the fund.

The fund provides global exposure to a diversified range of assets (including bonds, equities, alternatives and commodities) by investing at least 70% into funds (including those operated by Fidelity) which may be index tracking funds or actively managed funds. The fund has exposure to both higher risk investments (such as global equities, global emerging market equities, global smaller companies and global property securities) and lower risk investments (such as debt instruments including global government bonds, global corporate bonds and cash) meaning that there is a moderate risk of capital losses and an investor may not get back the full amount invested. The fund is actively managed without reference to a benchmark.

The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the fund will be actively managed within the following parameters: 20-60% equity, 5-80% debt instruments (which may include investment grade bonds, sub-investment grade bonds and emerging market debt), 0-20% commodities, 0-30% cash and 0-30% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

Performance and Portfolio Activity

The fund delivered positive returns over the period. Within growth assets, most regional equities contributed to performance, led by holdings in the UK and emerging markets. Positions in sub-investment grade bonds and both physical gold and gold producers supported returns. These gains were partially offset by the allocation to US and UK government bonds. During the period, we bought a new position in iShares Core Global Aggregate Bond UCITS ETF amid cost considerations. We also purchased a new holding in Finisterre Unconstrained Emerging Markets Fixed Income Fund as we have a positive view on the region compared to developed markets. We sold positions in Liontrust GF Tortoise Fund (previously known as Majedie Tortoise Fund) and the MSCI China index.

Outlook

Terminal rates are approaching their long-term target in developed markets as progress is being made on bringing down inflation. This means bond volatility should decline, which is supportive for carry trades. However, resilient growth data is likely to put a floor under bond yields in the short term.

Chris Forgan & Caroline Shaw
Fund Managers

Risk and Reward Indicator

	SRRI
A Accumulation Shares	4
I Accumulation Shares	4
Lovewell Blake FP Accumulation Shares	4
W Accumulation Shares	4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Comparative Performance Table

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Compensation payments	-	20
Gains/(losses) on non-derivative securities+	7,863	(67,272)
Gains/(losses) on derivative contracts+	(8,603)	(8,479)
Gains/(losses) on forward currency contracts+	(2,657)	(2,060)
Other currency gains/(losses)	(3)	172
Transaction charges	(3)	(5)
ACD fee rebate/waiver to capital	226	181
Management fee rebate to capital	3	2
	<u>(3,174)</u>	<u>(77,441)</u>
Net capital gains/(losses)		
+ These comprise:		
Realised gains/(losses)++	(7,112)	5,704
Unrealised gains/(losses)	3,715	(83,515)
	<u>(3,397)</u>	<u>(77,811)</u>
Total		
++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).		

5 Revenue

	31/10/23 £'000	31/10/22 £'000
UK dividend distributions	668	317
Overseas dividend distributions	10,738	11,161
Interest distributions	10,295	9,085
Derivative revenue	6	428
Management fee rebate to income	12	6
ACD fee rebate/waiver to income	1,465	1,450
Bank interest	3,310	641
Other income	144	-
	<u>26,638</u>	<u>23,088</u>
Total revenue		

6 Expenses

	31/10/23 £'000	31/10/22 £'000
Payable to the ACD, associates of the ACD, and agents of either of them:		
Investment management fees	4,122	4,210
Registrar fees	637	655
Service charges	319	327
Foreign exchange administration fees	1	4
	<u>5,079</u>	<u>5,196</u>
Payable to the Depositary, associates of the Depositary, and agents of either of them:		
Depositary fees	54	59
Custody fees	2	3
	<u>56</u>	<u>62</u>
Other expenses:		
Audit fee	11	9
Other operating expenses	2,986	3,397
	<u>2,997</u>	<u>3,406</u>
Total expenses	<u>8,132</u>	<u>8,664</u>

Notes to the Financial Statements

7 Taxation

	31/10/23 £'000	31/10/22 £'000
a) Analysis of charge/(credit) for the year		
UK corporation tax	158	-
Overseas taxation	812	770
Double taxation relief	(62)	-
Prior year adjustment	(4)	-
	<u>904</u>	<u>770</u>
b) Factors affecting tax charge/(credit) for the year		
Net revenue/(expense) before taxation	<u>17,284</u>	<u>14,204</u>
Net revenue/(expense) multiplied by the standard rate of corporation tax of 20% (2022: 20%). Effects of:	3,457	2,841
Double taxation relief	(62)	-
Increase/(decrease) in unutilised management expenses	(1,063)	(569)
Management fee rebate	46	36
Overseas tax expensed	-	(13)
Overseas taxation	812	770
Prior year adjustment	(4)	-
Revenue not included for tax purposes	(2,282)	(2,295)
	<u>904</u>	<u>770</u>

Open ended investment companies are exempt from UK tax on capital gains.

The fund has unrelieved excess management expenses resulting in a potential deferred tax asset of nil (2022: £1,063,000). It is unlikely that the fund will generate sufficient taxable profits in the future to utilise these and therefore no deferred tax asset has been recognised.

8 Finance costs

	31/10/23 £'000	31/10/22 £'000
Distributions		
The distributions take account of revenue received on the issue of shares and revenue deducted on cancellation of shares.		
A Accumulation Shares		
Final	945	956
I Accumulation Shares		
Final	1,541	1,222
W Accumulation Shares		
Final	13,219	10,829

11 Other creditors

	31/10/23	31/10/22
	£'000	£'000
Amounts payable for cancellation of shares	800	65
Accrued expenses	447	474
Amounts payable on closure of derivative contract	-	1
UK corporation tax payable	96	4
Purchases awaiting settlement	6,917	-
Total other creditors	8,260	544

12 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures	Monetary exposures	Monetary exposures	Total exposure
	Investments [^]	Cash balances	Debtors/(Creditors)	
31/10/23	£'000	£'000	£'000	£'000
Euro	40,264	-	-	40,264
UK Pound	486,702	14,756	(5,975)	495,483
Japanese Yen	16,028	-	-	16,028
US Dollar	139,611	(1)	-	139,610
Total	682,605	14,755	(5,975)	691,385
31/10/22	£'000	£'000	£'000	£'000
Euro	45,282	-	-	45,282
UK Pound	470,895	18,954	1,644	491,493
Japanese Yen	13,674	-	-	13,674
US Dollar	136,818	-	8	136,826
Total	666,669	18,954	1,652	687,275

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile of financial assets and financial liabilities

The interest rate risk profile of the fund's financial assets was:

Currency	Floating rate financial assets	Fixed rate financial assets	Financial assets on which no interest is paid	Total assets
31/10/23	£'000	£'000	£'000	£'000
Euro	-	-	40,264	40,264
UK Pound	278,560	-	225,614	504,174
Japanese Yen	-	-	16,286	16,286
US Dollar	16	-	142,226	142,242
Total	278,576	-	424,390	702,966

Notes to the Financial Statements

31/10/22	£'000	£'000	£'000	£'000
Euro	-	-	45,724	45,724
UK Pound	130,377	-	362,206	492,583
Japanese Yen	-	-	15,568	15,568
US Dollar	18	-	142,676	142,694
Total	130,395	-	566,174	696,569

The interest rate risk profile of the fund's financial liabilities was:

Currency	Floating rate financial liabilities	Fixed rate financial liabilities	Financial liabilities on which no interest is paid [^]	Total liabilities [^]
31/10/23	£'000	£'000	£'000	£'000
UK Pound	-	-	700,076	700,076
Japanese Yen	-	-	258	258
US Dollar	-	-	2,632	2,632
Total	-	-	702,966	702,966

31/10/22	£'000	£'000	£'000	£'000
Euro	-	-	442	442
UK Pound	-	-	688,365	688,365
Japanese Yen	-	-	1,894	1,894
US Dollar	-	-	5,868	5,868
Total	-	-	696,569	696,569

[^] Includes £691,385,000 in respect of the fund's liability to redeem all shares (2022: £687,275,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.53% rise or fall in the fund's market value (2022: 0.46%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 2.93% fall or rise in the fund's market value (2022: 3.14%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Bond futures

The fund invests into futures to gain exposure to the bond markets. A 1% change in interest rates would lead to a change representing 0.89% (2022: 1.00%) of the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: same).

*During the year dealing spread costs may be applicable to purchases and sales (the difference between bid and offer prices of all investments expressed as a percentage of the offer price value), which are not separately identifiable and do not form part of the analysis above. Dealing spread costs suffered by the fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment. At the Balance Sheet date the average portfolio dealing spread was 0.00% (2022: 0.00%).

16 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 11.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £415,000 (2022: £414,000) are included within accrued expenses in Note 11.

Notes to the Financial Statements

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £668,000 (2022: £317,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £7,027,000 and £804,000 respectively (2022: £13,594,000 and £7,693,000).

18 Shareholders' funds

The fund has four share classes; A Accumulation Shares, I Accumulation Shares, W Accumulation Shares and Lovewell Blake FP Accumulation Shares. The annual management charge on each share class is as follows:

A Accumulation Shares : 1.25%

I Accumulation Shares : 0.50%

W Accumulation Shares : 0.50%

Lovewell Blake FP Accumulation Shares : 0.45%

The distributions per share class are given in the Distribution Statement. All classes have the same rights on winding up.

Lovewell Blake FP Accumulation Shares - final distribution No. 6 in pence per share

Group 1 - Shares purchased on or before 31 October 2022.

Group 2 - Shares purchased from 1 November 2022 to 31 October 2023.

	Net revenue	Equalisation (Note 2)	Amount accumulated 31/12/23	Amount accumulated 31/12/22
Group 1	3.1421	-	3.1421	2.5140
Group 2	2.3853	0.7568	3.1421	2.5140

Fund Manager's Review

Investment Objective and Policy

This fund targets an average annual return of 7% after the deduction of ongoing fund charges, over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the W share class. There is no guarantee that the target will be achieved by the fund.

The fund provides global exposure to a diversified range of assets (including bonds, equities, alternatives and commodities) by investing at least 70% into funds (including those operated by Fidelity) which may be index tracking funds or actively managed funds. The fund has a large exposure to equities meaning that it is likely to experience short-term price fluctuations in line with these markets and an investor may not get back the full amount invested. The fund is actively managed without reference to a benchmark.

The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the fund will be actively managed subject to it remaining within the following parameters in all market conditions: 80-100% equity, 0-20% debt instruments (which may include investment grade bonds, sub-investment grade bonds and emerging market debt), 0-20% commodities, 0-10% cash and 0-20% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

Performance and Portfolio Activity

The fund delivered positive returns over the period. Within growth assets, most regional equities contributed to performance, led by holdings in Europe and US. However, the allocation to Japanese equities held back gains. Within hedging assets, the exposure to both physical gold and gold producers supported returns. During the period, we maintained our preference for defensive areas and bought stocks in the US utilities sector. We also introduced a position in iShares Edge S&P 500 Minimum Volatility UCITS ETF. We sold holdings in Liontrust GF Tortoise Fund (previously known as Majedie Tortoise Fund) and Xtrackers S&P 500 Swap UCITS ETF.

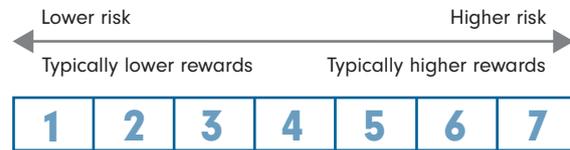

Outlook

Equity positioning is less extended, and valuations have fallen recently compared to relatively tight credit spreads. Thus, we prefer to add risk where appropriate via equities. We have been positioning the fund for asymmetry and downside protection.

Chris Forgan & Caroline Shaw

Risk and Reward Indicator

	SRRI
A Accumulation Shares	5
Lovewell Blake FP Accumulation Shares	5
W Accumulation Shares	5

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	52,969	(77,725)
Gains/(losses) on derivative contracts+	(20,113)	8,872
Gains/(losses) on forward currency contracts+	(3,722)	4,452
Other currency gains/(losses)	(246)	1,994
Transaction charges	(11)	(25)
ACD fee rebate/waiver to capital	347	270
Management fee rebate to capital	5	-
	<u>29,229</u>	<u>(62,162)</u>
Net capital gains/(losses)		
+ These comprise:		
Realised gains/(losses)++	31,965	53,758
Unrealised gains/(losses)	(2,831)	(118,159)
	<u>29,134</u>	<u>(64,401)</u>

Total
++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).

5 Revenue

	31/10/23 £'000	31/10/22 £'000
UK dividend distributions	942	462
Overseas dividend distributions	32,725	31,221
Interest distributions	447	(56)
Derivative revenue	3,913	1,308
Management fee rebate to income	45	-
ACD fee rebate/waiver to income	1,481	1,459
Bank interest	773	52
Other income	119	-
	<u>40,445</u>	<u>34,446</u>

6 Expenses

	31/10/23 £'000	31/10/22 £'000
Payable to the ACD, associates of the ACD, and agents of either of them:		
Investment management fees	7,528	8,000
Registrar fees	1,383	1,451
Service charges	692	726
Foreign exchange administration fees	1	4
	<u>9,604</u>	<u>10,181</u>
Payable to the Depositary, associates of the Depositary, and agents of either of them:		
Depositary fees	62	81
Custody fees	5	6
	<u>67</u>	<u>87</u>
Other expenses:		
Audit fee	11	9
Other operating expenses	7,441	7,910
	<u>7,452</u>	<u>7,919</u>
Total expenses	<u>17,123</u>	<u>18,187</u>

Notes to the Financial Statements

7 Taxation

	31/10/23 £'000	31/10/22 £'000
a) Analysis of charge/(credit) for the year		
Overseas taxation	3,928	3,224
Total current taxation	<u>3,928</u>	<u>3,224</u>
b) Factors affecting tax charge/(credit) for the year		
Net revenue/(expense) before taxation	<u>17,450</u>	<u>14,215</u>
Net revenue/(expense) multiplied by the standard rate of corporation tax of 20% (2022: 20%). Effects of:	3,490	2,843
Increase/(decrease) in unutilised management expenses	3,274	3,478
Management fee rebate	70	54
Overseas tax expensed	(101)	(39)
Overseas taxation	3,928	3,224
Revenue not included for tax purposes	<u>(6,733)</u>	<u>(6,336)</u>
Current tax charge/(credit)	<u>3,928</u>	<u>3,224</u>

Open ended investment companies are exempt from UK tax on capital gains.

The fund has unrelieved excess management expenses resulting in a potential deferred tax asset of £16,090,000 (2022: £12,816,000). It is unlikely that the fund will generate sufficient taxable profits in the future to utilise these and therefore no deferred tax asset has been recognised.

8 Finance costs

	31/10/23 £'000	31/10/22 £'000
Distributions		
The distributions take account of revenue received on the issue of shares and revenue deducted on cancellation of shares.

Total other creditors	<u>968</u>	<u>1,341</u>

12 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures Investments [^] £'000	Monetary exposures Cash balances £'000	Monetary exposures Debtors/(Creditors) £'000	Total exposure £'000
31/10/23				
Euro	212,390	-	-	212,390
UK Pound	177,721	20,357	3,384	201,462
Japanese Yen	75,064	-	-	75,064
US Dollar	828,858	-	-	828,858
Total	1,294,033	20,357	3,384	1,317,774
31/10/22				
Euro	229,988	-	-	229,988
UK Pound	142,554	11,918	136	154,608
Japanese Yen	77,905	-	-	77,905
US Dollar	913,185	(1)	39	913,223
Total	1,363,632	11,917	175	1,375,724

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.95% rise or fall in the fund's market value (2022: 0.97%).

Notes to the Financial Statements

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: same).

*During the year dealing spread costs may be applicable to purchases and sales (the difference between bid and offer prices of all investments expressed as a percentage of the offer price value), which are not separately identifiable and do not form part of the analysis above. Dealing spread costs suffered by the fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment. At the Balance Sheet date the average portfolio dealing spread was 0.00% (2022: 0.00%).

16 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 11.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £781,000 (2022: £812,000) are included within accrued expenses in Note 11.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

Income received from Fidelity funds of £942,000 (2022: £462,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £24,544,000 and £1,228,000 respectively (2022: £20,126,000 and £14,837,000).

18 Shareholders' funds

The fund has three share classes; A Accumulation Shares, W Accumulation Shares and Lovewell Blake FP Accumulation Shares. The annual management charge on each share class is as follows:

A Accumulation Shares : 1.25%

W Accumulation Shares : 0.50%

Lovewell Blake FP Accumulation Shares : 0.45%

The distributions per share class are given in the Distribution Statement. All classes have the same rights on winding up.

19 Post balance sheet event

The net asset value in pence per share at the Balance Sheet date and the latest practicable date prior to the publication of this report have been recorded below.

	NAV as at 31/10/23	NAV as at 08/02/24	Increase/(decrease)%

Fund Manager's Review

Investment Objective and Policy

The aim of the fund is to increase the value of your investment over a period of 5 years or more from global exposure to a diversified range of assets.

The fund invests at least 80% into a portfolio of funds from the Fidelity Select 50 list of funds (which may include funds managed by Fidelity).

The fund has exposure to a balance of both higher risk assets (including non-investment grade debt instruments, equities, alternatives and commodities) and lower risk assets (such as investment grade debt instruments and cash). The Portfolio Manager will tactically alter the balance between these risk assets in accordance with the opportunities for producing returns over a typical market cycle of 5-7 years while balancing this with the aim of maintaining a moderate risk profile.

Asset allocation exposure of the fund will be actively managed subject to it remaining within the following parameters: 30-70% equity, 20-60% debt instruments (which may include investment grade and non-investment grade debt instruments (such as high yield and emerging market debt)), 0-20% commodities, 0-20% cash, and 0-20% alternatives (such as infrastructure securities and Real Estate Investment Trusts). The fund is actively managed without reference to a benchmark.

The fund can also invest directly into other collective investment schemes, transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Performance and Portfolio Activity

The fund generated positive returns as both equities and bonds advanced. The allocation to equities in the European and Pacific region contributed to performance. The exposure to fixed income instruments also added value; however, gains were partially offset by holdings in cash and alternatives. Within fixed income, positions in Fidelity Sustainable MoneyBuilder Income Fund and M&G Corporate Bond fund were trimmed, and holdings in Vanguard Global Short-Term Bond Index Fund and AXA Sterling Credit Short Duration Bond Fund were purchased. In equities, we reduced the position in JP Morgan's US Equity Income Fund.

Outlook

Higher than targeted inflation levels in developed markets could result in interest rates remaining higher for longer. Consequently, tighter monetary policies and worsening credit conditions are expected to negatively impact growth in the medium term.

Ayesha Akbar & Chris Forgan
Fund Managers
31 October 2023

Risk and Reward Indicator

SRRI

PI Accumulation Shares

4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000

Notes to the Financial Statements

11 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures	Monetary exposures	Monetary exposures	Total exposure
	Investments [^]	Cash balances	Debtors/(Creditors)	
31/10/23	£'000	£'000	£'000	£'000
Euro	7,612	-	-	7,612
UK Pound	124,464	365	(216)	124,613
Total	132,076	365	(216)	132,225
31/10/22	£'000	£'000	£'000	£'000
Euro	4,888	-	-	4,888
UK Pound	129,442	212	(76)	129,578
US Dollar	2,948	-	-	2,948
Total	137,278	212	(76)	137,414

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile of financial assets and financial liabilities

The interest rate risk profile of the fund's financial assets was:

Currency	Floating rate financial assets	Fixed rate financial assets	Financial assets on which no	Total assets
			interest is paid	
31/10/23	£'000	£'000	£'000	£'000
Euro	-	-	7,672	7,672
UK Pound	54,905	-	70,183	125,088
Total	54,905	-	77,855	132,760
31/10/22	£'000	£'000	£'000	£'000
Euro	-	-	4,888	4,888
UK Pound	46,832	-	82,979	129,811
US Dollar	2,948	-	-	2,948
Total	49,780	-	87,867	137,647

The interest rate risk profile of the fund's financial liabilities was:

Currency	Floating rate financial liabilities	Fixed rate financial liabilities	Financial liabilities on which	Total liabilities [^]
			no interest is paid [^]	
31/10/23	£'000	£'000	£'000	£'000
Euro	-	-	60	60
UK Pound	-	-	132,700	132,700
Total	-	-	132,760	132,760
31/10/22	£'000	£'000	£'000	£'000
UK Pound	-	-	137,647	137,647
Total	-	-	137,647	137,647

[^] Includes £132,225,000 in respect of the fund's liability to redeem all shares (2022: £137,414,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.60% rise or fall in the fund's market value (2022: 0.49%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 1.48% fall or rise in the fund's market value (2022: 2.26%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Notes to the Financial Statements

Equity derivatives

At the year end the fund holds no equity derivatives that could impact it significantly (2022: same).

15 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 10.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £57,000 (2022: £58,000) are included within accrued expenses in Note 10.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to capital are included in Note 4.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5 and amounts receivable at the year end are included within the ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £323,000 (2022: £755,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £4,036,000 and £31,208,000 respectively (2022: £19,471,000 and £3,968,000).

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the period end of £74,000 (2022: £76,000) are included within accrued expenses in Note 10.

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a typical market cycle of 5-7 years.

The fund provides global exposure to a diversified range of assets (including bonds, equities, alternatives and commodities) by investing at least 70% into funds (including those operated by Fidelity). The fund has at least 70% exposure to lower risk investments (such as debt instruments including global government bonds, global corporate bonds and cash) with the aim of mitigating the risk of capital losses, however, an investor may not get back the full amount invested.

The fund is actively managed without reference to a benchmark.

The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes (but not on any significant basis)

Performance and Portfolio Activity

The fund generated negative returns over the period, largely due to the position in alternatives, particularly holdings in International Public Partnership and Greencoat Renewables Plc. The allocation to emerging market debt and global government bonds also weighed on returns. On a positive note, holdings in global investment grade bonds and global high yield credit added value. During the period, we raised the exposure to emerging market debt by purchasing a position in Principal Global Investors - Finisterre Unconstrained Emerging Markets Fixed Income Fund. We also increased the holding in HSBC Global Government Bond UCITS ETF, and reduced the position in iShares Global Government Bond UCITS ETF.

Outlook

Higher than targeted inflation levels in developed markets could result in interest rates remaining higher for longer. Consequently, tighter monetary policies and worsening credit conditions are expected to negatively impact growth in the medium term.

Risk and Reward Indicator

SRRI

Howard Wright Accumulation Shares

3

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	(1,328)	65
Other currency gains/(losses)	1	-
Net capital gains/(losses)	<u>(1,327)</u>	<u>65</u>
+ These comprise:		
Realised gains/(losses)++	21	(41)
Unrealised gains/(losses)	<u>(1,349)</u>	<u>106</u>
Total	<u>(1,328)</u>	<u>65</u>

++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).

5 Revenue

	31/10/23 £'000	31/10/22 £'000
ACD fee rebate/waiver to income	120	3
Bank interest	9	-
Taxable interest	1	-
Interest distributions	801	-
Overseas dividend distributions	<u>230</u>	<u>-</u>
Total revenue	<u>1,161</u>	<u>3</u>

6 Expenses

	31/10/23 £'000	31/10/22 £'000
Payable to the ACD, associates of the ACD, and agents of either of them:		
Investment management fees	<u>208</u>	<u>9</u>
Other expenses:		
Other operating expenses	<u>15</u>	<u>-</u>
Total expenses*	<u>223</u>	<u>9</u>

*The ACD is responsible for payment of all charges and expenses of the fund out of its investment management fees including audit fees amounting to £10,000 (including VAT) (2022: £9,000).

7 Taxation

	31/10/23 £'000	31/10/22 £'000
a) Analysis of charge/(credit) for the year		
Overseas taxation	<u>1</u>	<u>-</u>
Total current taxation	<u>1</u>	<u>-</u>
b) Factors affecting tax charge/(credit) for the year		
Net revenue/(expense) before taxation	<u>938</u>	<u>(6)</u>
Net revenue/(expense) multiplied by the standard rate of corporation tax of 20% (2022: 20%).	188	(1)

Notes to the Financial Statements

Effects of:

Increase/(decrease) in unutilised management expenses	(1)	1
Interest distributions	(140)	-
Overseas taxation	1	-
Revenue not included for tax purposes	(47)	-
	<u>1</u>	<u>-</u>
Current tax charge/(credit)	<u>1</u>	<u>-</u>

The fund has unrelieved excess management expenses resulting in a potential deferred tax asset of nil (2022: £1,000). It is unlikely that the fund will generate sufficient taxable profits in the future to utilise these and therefore no deferred tax asset has been recognised.

The fund is an interest distributing fund under Corporation Tax Act 2009 and as interest distributions are deductible when calculating the liability, the corporation tax charge will usually be reduced to nil, except where there are expenses which are not deductible.

8 Finance costs

	31/10/23 £'000	31/10/22 £'000
Distributions		
The distribution takes account of revenue received on the issue of shares and revenue deducted on cancellation of shares.		
Howard Wright Accumulation Shares		
Final	954	-
Add: Revenue deducted on cancellation of shares	22	-
Deduct: Revenue received on issue of shares	(39)	-

Accrued expenses	18	9
Total other creditors	<u>285</u>	<u>316</u>

11 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Investments [^]	Cash balances	Debtors/(Creditors)	Total exposure
	Non-monetary exposures	Monetary exposures	Monetary exposures	
31/10/23	£'000	£'000	£'000	£'000
UK Pound	41,534	278	151	41,963
Total	41,534	278	151	41,963

Notes to the Financial Statements

31/10/22	£'000	£'000	£'000	£'000
UK Pound	37,549	67	137	37,753
Total	37,549	67	137	37,753

^ includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile of financial assets and financial liabilities

The interest rate risk profile of the fund's financial assets was:

Currency	Floating rate financial assets	Fixed rate financial assets	Financial assets on which no interest is paid	Total assets
31/10/23	£'000	£'000	£'000	£'000
UK Pound	34,332	-	7,916	42,248
Total	34,332	-	7,916	42,248
31/10/22	£'000	£'000	£'000	£'000
UK Pound	30,626	-	7,443	38,069
Total	30,626	-	7,443	38,069

The interest rate risk profile of the fund's financial liabilities was:

Currency	Floating rate financial liabilities	Fixed rate financial liabilities	Financial liabilities on which no interest is paid^	Total liabilities^
31/10/23	£'000	£'000	£'000	£'000
UK Pound	-	-	42,248	42,248
Total	-	-	42,248	42,248
31/10/22	£'000	£'000	£'000	£'000
UK Pound	-	-	38,069	38,069
Total	-	-	38,069	38,069

^ Includes £41,963,000 in respect of the fund's liability to redeem all shares (2022: £37,753,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.78% rise or fall in the fund's market value (2022: 0.77%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 4.89% fall or rise in the fund's market value (2022: 5.13%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

12 Portfolio transaction costs

Howard Wright Accumulation Shares	38,064,640	7,324,280	(2,838,302)	42,550,618

15 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 10.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £18,000 (2022: £9,000) are included within accrued expenses in Note 10.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5 and amounts receivable at the year end are included within the ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

During the year, the aggregate value of purchases and sales in Fidelity funds were £101,000 and £284,000 respectively (2022: £996,000 and nil).

16 Shareholders' funds

The fund has one share class; Howard Wright Accumulation Shares. The annual management charge is as follows:

Howard Wright Accumulation Shares : 0.50%

The distributions per share class are given in the Distribution Statement.

17 Post balance sheet event

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a typical market cycle of 5-7 years.

The fund provides global exposure to a diversified range of assets (including bonds, equities, alternatives and commodities) by investing at least 70% into funds (including those operated by Fidelity). The fund has at least 70% exposure to higher risk investments (such as global equities, global emerging market equities and global smaller companies) meaning that it is likely to experience short-term price fluctuations and an investor may not get back the full amount invested.

The fund is actively managed without reference to a benchmark.

The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes (but not on any significant basis)

Performance and Portfolio Activity

The fund generated positive returns over the period, largely due to equity holdings in emerging markets and the Pacific region. Positions in the US and European segments also added value, while the allocation to global small-cap equities negatively impacted performance. During the period, we trimmed the exposure to equities in the US and Pacific region by reducing the allocation to Fidelity Index Pacific ex Japan Fund and Fidelity Sustainable Research Enhanced US equity ETF. Meanwhile, we bought positions in Fidelity ASEAN and Fidelity Global Future Leaders strategies.

Outlook

Higher than targeted inflation levels in developed markets could result in interest rates remaining higher for longer. Consequently, tighter monetary policies and worsening credit conditions are expected to negatively impact growth in the medium term.

Risk and Reward Indicator

SRRI

Howard Wright Accumulation Shares

5

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.
- The risk level for this fund has increased to level 5 (2022: level 4).

Net assets attributable to shareholders			95,431		82,653

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	375	(360)
Gains/(losses) on derivative contracts+	283	290
Other currency gains/(losses)	198	-
	<u>856</u>	<u>(70)</u>
Net capital gains/(losses)		
+ These comprise:		
Realised gains/(losses)++	1,183	(133)
Unrealised gains/(losses)	(525)	63
	<u>658</u>	<u>(70)</u>
Total		
++ Where realised gains/(losses) include gains/losses arising in previous periods, a corresponding loss/gain is included in unrealised gains/(losses).		

5 Revenue

	31/10/23 £'000	31/10/22 £'000
ACD fee rebate/waiver to income	312	14
Bank interest	135	-
Unfranked UK dividend distributions	5	-
Interest on securities	410	-
Overseas dividend distributions	866	-
UK dividend distributions	226	-
Derivative revenue	161	-
	<u>2,115</u>	<u>14</u>
Total revenue		

6 Expenses

	31/10/23 £'000	31/10/22 £'000
Payable to the ACD, associates of the ACD, and agents of either of them:		
Investment management fees	522	21
	<u>522</u>	<u>21</u>
Total expenses*		

*The ACD is responsible for payment of all charges and expenses of the fund out of its investment management fees including audit fees amounting to £10,000 (including VAT) (2022: £9,000).

7 Taxation

	31/10/23 £'000	31/10/22 £'000
a) Analysis of charge/(credit) for the year		
UK corporation tax	98	-
Overseas taxation	1	-
Double taxation relief	(1)	-
	<u>98</u>	<u>-</u>
Total current taxation		
b) Factors affecting tax charge/(credit) for the year		
Net revenue/(expense) before taxation	<u>1,593</u>	<u>(11)</u>
Net revenue/(expense) multiplied by the standard rate of corporation tax of 20% (2022: 20%).	319	(2)

Notes to the Financial Statements

Effects of:

Double taxation relief	(1)	-
Increase/(decrease) in unutilised management expenses	(2)	2
Overseas taxation	1	-
Revenue not included for tax purposes	(219)	-
	<u>98</u>	<u>-</u>

Current tax charge/(credit)

Open ended investment companies are exempt from UK tax on capital gains.

The fund has unrelieved excess management expenses resulting in a potential deferred tax asset of nil (2022: £2,000). It is unlikely that the fund will generate sufficient taxable profits in the future to utilise these and therefore no deferred tax asset has been recognised.

8 Finance costs

	31/10/23 £'000	31/10/22 £'000
Distributions		
The distribution takes account of revenue received on the issue of shares and revenue deducted on cancellation of shares.

Total other creditors	<u>641</u>	<u>1,036</u>

12 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Notes to the Financial Statements

Currency	Non-monetary exposures	Monetary exposures	Monetary exposures	Total exposure
	Investments^	Cash balances	Debtors/(Creditors)	
31/10/23	£'000	£'000	£'000	£'000
Euro	7,972	-	-	7,972

Total	73,209	9,996	(552)	82,653

^ includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile

The only interest bearing financial instruments in the fund are its bank balances and/or amounts held at futures clearing houses and brokers.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.65% rise or fall in the fund's market value (2022: 0.63%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 0.02% fall or rise in the fund's market value (2022: 0.00%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Equity derivatives

The fund invests into futures to gain exposure to the equity markets. A 10% change in the price of the futures would result in a 1.87% (2022: 0.00%) change in the fund's market value.

13 Portfolio transaction costs

16 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 11.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £45,000 (2022: £21,000) are included within accrued expenses in Note 11.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £231,000 (2022: nil) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £5,429,000 and £3,752,000 respectively (2022: £11,474,000 and nil).

Amounts receivable at the year end in respect of investments sold of £95,000 (2022: nil) are included within sales awaiting settlement in Note 9.

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a typical market cycle of 5-7 years.

The fund will obtain at least 70% exposure to investments with sustainable characteristics. All of the fund's holdings will adhere to Fidelity's Sustainable Family exclusion policy.

The fund provides global exposure to a diversified range of assets by investing at least 70% into funds managed by Fidelity which invest in a mixture of asset classes (including equities and bonds). The fund can also invest directly into other collective investment schemes.

The fund will actively allocate to, and within, different asset classes and geographies based on their potential to generate growth or reduce risk or volatility within the overall portfolio. Asset allocation exposure of the fund will be actively managed within the following parameters: 40-60% equity, 30-50% debt instruments (which may include high yield and emerging market debt), 0-20% cash and 0-15% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

Investments with sustainable characteristics are those which the Investment Manager believes consider effective governance and management of environmental and social issues and deliver longterm sustainable outcomes through positive societal impact. Such investments are identified through Fidelity's Sustainable Investing process, which evaluates and monitors for robust sustainable credentials, and is built on three related elements; integrated ESG analysis, engagement, and collaboration.

Sustainable characteristics based on environmental, social, and governance considerations are analysed by Fidelity and principally assessed based on criteria such as but not limited to, climate change mitigation and adaptation, water and waste management and biodiversity, product safety, supply chain, health and safety and human rights. The sustainability assessment is applied to the issuer of an investment, but the significance of the above factors may vary between issuers in different sectors according to their economic activity. For instance, for this fund where the asset allocation has exposure to issuers across a wide range of economic sectors and asset classes, a wide range of sustainable characteristics will be relevant. These may include corporate governance malpractices, shareholder rights, climate threats, brand and reputational issues, supply chain management, and work practices.

The fund can also invest in transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes (but not on any significant basis).

The fund is actively managed without reference to a benchmark.

Performance and Portfolio Activity

The fund delivered positive absolute returns over a period in which both equity and fixed income markets rose. Equity holdings in North America and Europe ex-UK were the leading contributors to performance, while positions in the UK weighed on returns. Within fixed income, global high yield bonds and UK fixed income instruments added value. Elsewhere, alternative holdings had a negative impact on performance. During the period, we added exposure to UK equities by purchasing a new position in UBS ETF (IE) MSCI UK IMI Socially Responsible UCITS ETF. We also bought a new holding in Fidelity Funds - Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF. Meanwhile, we sold the position in Fidelity Global High Yield Fund and reduced the exposure to Fidelity Sustainable Research Enhanced US Equity UCITS ETF.

Statement relating to the extent to which environmental or social characteristics are met.

The Fidelity Sustainable Multi Asset Balanced Fund (the "Fund") has met the environmental and/or social characteristics promoted in accordance with its investment policy for the period under review.

The Fund maintained at least 70% exposure to investments with sustainable characteristics in accordance with Fidelity's Sustainable Investing Framework.

During the period, in respect of its direct investments, the Fund adhered to:

1. a firm-wide exclusions list, which includes cluster munitions and anti-personnel landmines, and,

2. a principle-based screening policy, which includes:

- norms-based screening of issuers that the investment manager believes have failed to conduct their business in accordance with international norms, including as set out in the UNGC; and,

- negative screening of certain sectors, companies or practices based on specific ESG criteria where revenue thresholds may be applied.

The investment manager has the discretion to implement additional sustainable requirements and exclusions in regard to the applicable investment process from time to time. During the period, no additional exclusions were added.

Outlook

We maintain a neutral view on US equities. The US Federal Reserve is near the end of its interest rate hiking cycle, which is historically supportive of equities unless the economy enters into a recession. We remain cautious on credit given the late-cycle backdrop and higher funding costs in a higher-for-longer interest rate environment.

Caroline Shaw & Ayesha Akbar

Risk and Reward Indicator

SRRI

W Accumulation Shares

4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.
- Emerging markets may be more volatile and it could be harder to sell or trade securities. There may be less supervision, regulation and less well-defined procedures than in more developed countries. Emerging markets can be sensitive to political instability, which can result in greater volatility and uncertainty, subjecting the fund to the risk of losses.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000

11 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures Investments [^] £'000	Monetary exposures Cash balances £'000	Monetary exposures Debtors/(Creditors) £'000	Total exposure £'000
31/10/23				
Euro	88	-	1	89
UK Pound	7,288	62	21	7,371
Total	7,376	62	22	7,460
31/10/22				
Euro	76	-	-	76
UK Pound	4,128	(2)	7	4,133
US Dollar	33	-	-	33
Total	4,237	(2)	7	4,242

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile of financial assets and financial liabilities

The interest rate risk profile of the fund's financial assets was:

Currency	Floating rate financial assets £'000	Fixed rate financial assets £'000	Financial assets on which no interest is paid £'000	Total assets £'000
31/10/23				
Euro	-	-	89	89
UK Pound	3,045	-	4,423	7,468
Total	3,045	-	4,512	7,557

Notes to the Financial Statements

31/10/22	£'000	£'000	£'000	£'000
Euro	-	-	76	76
UK Pound	1,742	-	2,404	4,146
US Dollar	-	-	33	33
Total	1,742	-	2,513	4,255

The interest rate risk profile of the fund's financial liabilities was:

Currency	Floating rate financial liabilities	Fixed rate financial liabilities	Financial liabilities on which no interest is paid [^]	Total liabilities [^]
31/10/23	£'000	£'000	£'000	£'000
UK Pound	-	-	7,557	7,557
Total	-	-	7,557	7,557

31/10/22	£'000	£'000	£'000	£'000
UK Pound	2	-	4,253	4,255
Total	2	-	4,253	4,255

[^] Includes £7,460,000 in respect of the fund's liability to redeem all shares (2022: £4,242,000).

Interest rate risk profile

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.64% rise or fall in the fund's market value (2022: 0.60%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 2.29% fall or rise in the fund's market value (2022: 2.16%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

*During the year dealing spread costs may be applicable to purchases and sales (the difference between bid and offer prices of all investments expressed as a percentage of the offer price value), which are not separately identifiable and do not form part of the analysis above. Dealing spread costs suffered by the fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment. At the Balance Sheet date the average portfolio dealing spread was 0.00% (2022: 0.00%).

15 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 10.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £3,000 (2022: £2,000) are included within accrued expenses in Note 10.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5.

Amounts recoverable at the year end in respect of ACD fee rebate/waiver are included within ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £42,000 (2022: £31,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £1,054,000 and £1,204,000 respectively (2022: £841,000 and £791,000).

16 Shareholders' funds

The fund has one share class; W Accumulation Shares. The annual management charge is as follows:

W Accumulation Shares : 0.50%

The distributions per share class are given in the Distribution Statement.

17 Post balance sheet event

The net asset value in pence per share at the Balance Sheet date and the latest practicable date prior to the publication of this report have been recorded below.

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a typical market cycle of 5-7 years.

The fund will obtain at least 70% exposure to investments with sustainable characteristics. All of the fund's holdings will adhere to Fidelity's Sustainable Family exclusion policy.

The fund provides global exposure to a diversified range of assets by investing at least 70% into funds managed by Fidelity which invest in a mixture of asset classes (including equities and bonds).

The fund can also invest directly into other collective investment schemes.

The fund will actively allocate to, and within, different asset classes and geographies based on their potential to generate growth or reduce risk or volatility within the overall portfolio. Asset allocation exposure of the fund will be actively managed within the following parameters: 15-35% equity, 45-65% debt instruments (which may include high yield and emerging market debt), 0-30% cash and 0-15% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

Investments with sustainable characteristics are those which the Investment Manager believes consider effective governance and management of environmental and social issues and deliver longterm sustainable outcomes through positive societal impact. Such investments are identified through Fidelity's Sustainable Investing process, which evaluates and monitors for robust sustainable credentials, and is built on three related elements; integrated ESG analysis, engagement, and collaboration.

Sustainable characteristics based on environmental, social, and governance considerations are analysed by Fidelity and principally assessed based on criteria such as but not limited to, climate change mitigation and adaptation, water and waste management and biodiversity, product safety supply chain, health and safety and human rights. The sustainability assessment is applied to the issuer of an investment, but the significance of the above factors may vary between issuers in different sectors according to their economic activity. For instance, for this fund where the asset allocation has greater exposure to cash and/or cash-like instruments issued by banks and governments, sustainable characteristics related to governance considerations may be more significant. These may include corporate governance malpractices and shareholder rights.

The fund can also invest in transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes (but not on any significant basis).

The fund is actively managed without reference to a benchmark.

Performance and Portfolio Activity

The fund delivered negative returns over a period in which both equity and fixed income markets rose. Holdings in global high yield bonds and sustainable climate bonds added value. However, these gains were partially offset by the position in UK index-linked bonds. Elsewhere, the allocation to North American equities supported performance, while equities in the UK weighed on returns. Meanwhile, the exposure to alternatives proved to be the leading detractor from performance. During the period, we added exposure to UK equities by purchasing a new position in UBS ETF (IE) MSCI UK IMI Socially Responsible UCITS ETF. We also bought a new holding in Fidelity Funds - Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF. Meanwhile, we sold the position in Fidelity Global High Yield Fund, and reduced the exposure to Fidelity Sustainable Research Enhanced US Equity UCITS ETF.

Statement relating to the extent to which environmental or social characteristics are met.

The Fidelity Sustainable Multi Asset Conservative Fund (the "Fund") has met the environmental and/or social characteristics promoted in accordance with its investment policy for period under review.

The Fund maintained at least 70% exposure to investments with sustainable characteristics in accordance with Fidelity's Sustainable Investing Framework.

During the period, in respect of its direct investments, the Fund adhered to:

1. a firm-wide exclusions list, which includes cluster munitions and anti-personnel landmines, and,
2. a principle-based screening policy, which includes
 - norms-based screening of issuers that the investment manager believes have failed to conduct their business in accordance with international norms, including as set out in the UNGC; and,
 - negative screening of certain sectors, companies or practices based on specific ESG criteria where revenue thresholds may be applied.

The investment manager has the discretion to implement additional sustainable requirements and exclusions in regard to the applicable investment process from time to time. During the period, no additional exclusions were added.

Outlook

We remain cautious on credit given the late-cycle backdrop and higher funding costs in a higher-for-longer interest rate environment. Within equities, we maintain a neutral view on US equities. The US Federal Reserve is near the end of its interest rate hiking cycle, which is historically supportive of equities unless the economy enters into a recession.

Risk and Reward Indicator

SRRI

W Accumulation Shares

4

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.
- Emerging markets may be more volatile and it could be harder to sell or trade securities. There may be less supervision, regulation and less well-defined procedures than in more developed countries. Emerging markets can be sensitive to political instability, which can result in greater volatility and uncertainty, subjecting the fund to the risk of losses.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000
Gains/(losses) on non-derivative securities+	(129)	(624)

UK Pound	3,598	40	12	3,650
US Dollar	28	-	1	29
Total	3,692	40	13	3,745

^ includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Notes to the Financial Statements

Interest rate risk profile of financial assets and financial liabilities

The interest rate risk profile of the fund's financial assets was:

Currency	Floating rate financial assets	Fixed rate financial assets	Financial assets on which no interest is paid	Total assets
31/10/23	£'000	£'000	£'000	£'000
Euro	-	-	50	50
UK Pound	2,393	-	2,102	4,495
Total	2,393	-	2,152	4,545
31/10/22	£'000	£'000	£'000	£'000
Euro	-	-	66	66
UK Pound	1,903	-	1,748	3,651
US Dollar	-	-	29	29
Total	1,903	-	1,843	3,746

The interest rate risk profile of the fund's financial liabilities was:

Currency	Floating rate financial liabilities	Fixed rate financial liabilities	Financial liabilities on which no interest is paid [^]	Total liabilities [^]
31/10/23	£'000	£'000	£'000	£'000
UK Pound	-	-	4,545	4,545
Total	-	-	4,545	4,545
31/10/22	£'000	£'000	£'000	£'000
UK Pound	-	-	3,746	3,746
Total	-	-	3,746	3,746

[^] Includes £4,526,000 in respect of the fund's liability to redeem all shares (2022: £3,745,000).

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.48% rise or fall in the fund's market value (2022: 0.37%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 3.46% fall or rise in the fund's market value (2022: 3.88%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

15 Related parties

The ACD, FIL Investment Services (UK) Limited, is regarded as a related party under FRS 102 because it provides key management personnel services to the authorised fund.

The ACD acts as principal on all transactions of shares in the fund. The aggregate monies received through issues and paid through cancellations are disclosed in the Statement of Change in Net Assets Attributable to Shareholders, and the amounts due to, and from, the ACD in respect of share transactions at the year end are disclosed in Notes 9 and 10.

Amounts paid to the ACD in respect of services provided are disclosed in Note 6. Amounts due at the year end of £2,000 (2022: £1,000) are included within accrued expenses in Note 10.

Amounts rebated from the ACD in respect of the ACD fee rebate/waiver to income are included in Note 5 and amounts receivable at the year end are included within the ACD fee rebate/waiver recoverable in Note 9.

The fund invests in other Fidelity funds, all transactions in respect of which are transacted with FIL Investment Services (UK) Limited.

Income received from Fidelity funds of £36,000 (2022: £29,000) is included in Note 5.

During the year, the aggregate value of purchases and sales in Fidelity funds were £622,000 and £1,584,000 respectively (2022: £885,000 and £719,000).

16 Shareholders' funds

The fund has one share class; W Accumulation Shares. The annual management charge is as follows:

W Accumulation Shares : 0.50%

The distributions per share class are given in the Distribution Statement.

Fund Manager's Review

Investment Objective and Policy

The fund aims to increase the value of your investment over a typical market cycle of 5-7 years.

The fund will obtain at least 70% exposure to investments with sustainable characteristics. All of the fund's holdings will adhere to Fidelity's Sustainable Family exclusion policy.

The fund provides global exposure to a diversified range of assets by investing at least 70% into funds managed by Fidelity which invest in a mixture of asset classes (including equities and bonds).

The fund can also invest directly into other collective investment schemes. The fund will actively allocate to, and within, different asset classes and geographies based on their potential to generate growth or reduce risk or volatility within the overall portfolio. Asset allocation exposure of the fund will be actively managed within the following parameters: 60-80% equity, 15- 35% debt instruments (which may include high yield and emerging market debt), 0-15% cash and 0- 15% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

Investments with sustainable characteristics are those which the Investment Manager believes consider effective governance and management of environmental and social issues and deliver longterm sustainable outcomes through positive societal impact. Such investments are identified through Fidelity's Sustainable Investing process, which evaluates and monitors for robust sustainable credentials, and is built on three related elements; integrated ESG analysis, engagement, and collaboration.

Sustainable characteristics based on environmental, social, and governance considerations are analysed by Fidelity and principally assessed based on criteria such as but not limited to, climate change mitigation and adaptation, water and waste management and biodiversity, product safety, supply chain, health and safety and human rights. The sustainability assessment is applied to the issuer of an investment, but the significance of the above factors may vary between issuers in different sectors according to their economic activity. For instance, for this fund where the asset allocation has exposure across a wide range of economic sectors and greater exposure to equity instruments issued by companies, a wide range of sustainable characteristics will be relevant. These may include brand and reputational issues, supply chain management, climate threats, work practices, as well as corporate governance malpractices and shareholder rights.

The fund can also invest in transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes (but not on any significant basis).

The fund is actively managed without reference to a benchmark.

Performance and Portfolio Activity

The fund delivered positive absolute returns over a period in which both equity and fixed income markets advanced. Equity holdings in North America and Europe ex-UK were the leading contributors to performance, while positions in UK equities weighed on returns. Within fixed income, global high yield bonds and UK fixed income instruments added value. Elsewhere, alternative holdings had a negative impact on performance. During the period, we added exposure to UK equities by purchasing a new position in UBS ETF (IE) MSCI UK IMI Socially Responsible UCITS ETF. We also bought a new holding in Fidelity Funds - Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF. Meanwhile, we sold the position in Fidelity Global High Yield Fund, and reduced the exposure to Fidelity Sustainable Research Enhanced US Equity UCITS ETF.

Statement relating to the extent to which environmental or social characteristics are met. The Fidelity Sustainable Multi Asset Growth Fund (the "Fund") has met the environmental and/or social characteristics promoted in accordance with its investment policy for the period under review.

The Fund maintained at least 70% exposure to investments with sustainable characteristics in accordance with Fidelity's Sustainable Investing Framework.

During the period, in respect of its direct investments, the Fund adhered to:

1. a firm-wide exclusions list, which includes cluster munitions and anti-personnel landmines, and,
2. a principle-based screening policy, which includes
 - norms-based screening of issuers that the investment manager believes have failed to conduct their business in accordance with international norms, including as set out in the UNGC; and,
 - negative screening of certain sectors, companies or practices based on specific ESG criteria where revenue thresholds may be applied.

The investment manager has the discretion to implement additional sustainable requirements and exclusions in regard to the applicable investment process from time to time. During the period, no additional exclusions were added.

Outlook

We maintain a neutral view on US equities. The US Federal Reserve is near the end of its interest rate hiking cycle, which is historically supportive of equities unless the economy enters into a recession. We remain cautious on credit given the late-cycle backdrop and higher funding costs in a higher-for-longer interest rate environment.

Risk and Reward Indicator

SRRI

W Accumulation Shares

5

The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.
- Emerging markets may be more volatile and it could be harder to sell or trade securities. There may be less supervision, regulation and less well-defined procedures than in more developed countries. Emerging markets can be sensitive to political instability, which can result in greater volatility and uncertainty, subjecting the fund to the risk of losses.

Notes to the Financial Statements

1 Accounting policies

The fund's financial statements have been prepared in accordance with the Company Accounting Policies and Risk Management sections.

2 Equalisation

Equalisation applies only to shares purchased during the distribution year (Group 2 shares). It is the average amount of revenue included in the purchase price of all Group 2 shares and is credited to the holders of these shares as a return of capital. Being capital it is not liable to income tax but must be deducted from the cost of shares for Capital Gains Tax purposes.

3 Contingent liabilities

At the year end there are no contingent liabilities or commitments (2022: nil).

4 Net capital gains/(losses)

	31/10/23 £'000	31/10/22 £'000

11 Financial instruments exposure

Currency exposure

A portion of the financial assets of the fund are denominated in currencies other than UK Pound, which is the fund's base currency, with the effect that the Balance Sheet and total return can be affected by currency movements.

The currency exposure of the fund was:

Currency	Non-monetary exposures Investments [^]	Monetary exposures Cash balances	Monetary exposures Debtors/(Creditors)	Total exposure
	£'000	£'000	£'000	£'000
31/10/23				
Euro	79	-	1	80
UK Pound	5,619	33	20	5,672
US Dollar	639	-	-	639
Total	<u>6,337</u>	<u>33</u>	<u>21</u>	<u>6,391</u>
31/10/22				
Euro	90	-	-	90
UK Pound	3,907	5	19	3,931
US Dollar	615	-	1	616
Total	<u>4,612</u>	<u>5</u>	<u>20</u>	<u>4,637</u>

[^] includes cash equivalents where appropriate.

The currency disclosure provided is based on the trading currency of the investments and foreign currency contracts. For further information on risk disclosures refer to the Risk management policies section.

Interest rate risk profile

The fund invests in equity, fixed interest funds, cash/money market funds and has bank balances and/or amounts held at futures clearing houses and brokers. At the year end, there is no significant interest rate risk on the fund.

Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the Balance Sheet, and their fair value.

Notes to the Financial Statements

Market value sensitivity analysis

Currency risk

A rise or fall of 1% in non UK Pound currencies is likely to result in a 0.70% rise or fall in the fund's market value (2022: 0.69%).

Interest rate risk

A rise or fall of 1% in global interest rates is likely to result in a 1.30% fall or rise in the fund's market value (2022: 1.22%).

Other price risk

Fluctuations in securities and underlying funds prices will directly be reflected in the fund's market value.

Fidelity Investment Funds IV Annual Report and Financial Statements for the year ended 31 October 2023

Securities Financing Transaction Regulation

The Securities Financing Transaction Regulation (SFTR) requires further transparency to address perceived risks in the use of securities financing transactions.

A fund may use Total Return Swaps or other financial derivative instruments with similar characteristics to meet the investment objective of a fund and in accordance with the provisions on the use of financial derivative instruments. The following type of assets can be subject to Total Return Swaps (TRS) or other financial derivative instruments with similar characteristics: equity stocks, equity indices, commodity indices and credit indices.

Counterparties to such transactions must be subject to prudential supervision rules considered by the FCA as equivalent to those prescribed by EU law and specialised in these types of transactions. The counterparties to such transactions will generally be financial institutions based in an OECD member state and have an investment grade credit rating. At present only Contracts For Difference (CFDs) are used in relation to the funds.

Global Data

Fund Name	Broker	Global Exposure £'000	Percentage of NAV
Fidelity Multi Asset Balanced Income Fund	Goldman Sachs	6	
	HSBC Global Markets	(1)	
	JP Morgan	(129)	
	Total	(124)	-0.13%
Fidelity Multi Asset Income & Growth Fund	Goldman Sachs	6	
	HSBC Global Markets	(2)	
	JP Morgan	(137)	
	Total	(133)	-0.20%
Fidelity Multi Asset Income Fund	Goldman Sachs	49	
	HSBC Global Markets	(7)	
	JP Morgan	(999)	
	Total	(957)	-0.13%

All TRSs have open maturity tenors based the contractual settlement date of each position and are all settled bi-laterally with the respective counterparty.

Funds not listed make no use of securities financing transactions.

Fidelity Investment Funds IV Annual Report and Financial Statements for the year ended 31 October 2023

Collateral

Further Information

- All Fidelity employees are subject to a Code of Ethics which, among other things, sets out procedures for personal account dealings in securities. These procedures, which are rigorously monitored, are designed to ensure that there is no conflict between personal account dealing by Fidelity staff and the interests of Fidelity's customers. The two basics of the Code of Ethics require that deals have to be pre-authorised before an individual may undertake them, and they must afterwards be reported to the Compliance Department. Individuals are required to use specified brokers which enables this process to be checked on a continual basis. In addition, there are specific provisions to ensure that any investment idea is first acted upon by the funds Fidelity manages, and that fund managers may not deal within a defined period either side of a fund (for which they are responsible) dealing in that stock.
- The Report and Financial Statements of the Company, the Instrument of Incorporation and the Value Assessment Report may be inspected free of charge between 9.00 a.m. and 5.00 p.m. on every business day at the offices of the Authorised Corporate Director (ACD) at Beech Gate, Millfield Lane, Lower Kingswood, Tadworth, Surrey KT20 6RP, United Kingdom.
- Shareholders may obtain copies of the above documents free of charge from the same address or alternatively from our website www.fidelity.co.uk. It is possible to receive information about the full holdings of the funds in which you invest. This is available on request, and may, at our discretion, be subject to you entering into an agreement with us to keep the information confidential. If you wish to receive full holdings information in accordance with the policy, please put your request in writing to: Data Policy Fund Holdings, Beech Gate, Millfield Lane, Lower Kingswood, Tadworth, Surrey KT20 6RP, United Kingdom quoting your name, address and account number or client reference number.
- The Task Force on Climate-related Financial Disclosures (TCFD) - Product reports can be obtained from our website <https://www.fidelity.co.uk/tcfd-products-reports/>.

FIL Limited and its respective subsidiaries form the global investment management organisation that is commonly referred to as Fidelity International. Fidelity International only gives information on products and services and, with the exception of retirement advice, does not provide investment advice based on individual circumstances.

Any service, security, investment, fund or product outlined may not be available to or suitable for you and may not be available in your jurisdiction. It is your responsibility to ensure that any service, security, investment, fund or product outlined is available in your jurisdiction before any approach is made regarding that service, security, investment, fund or product. This document may not be reproduced or circulated without prior permission and must not be passed to private investors.

Past performance is not a reliable indicator of future results. The value of investments may go down as well as up and an investor may not get back the original amount invested. Unless otherwise stated all products are provided by Fidelity International, and all views expressed are those of Fidelity International.

In certain countries, and for certain types of investments, transaction costs are higher, and liquidity is lower than elsewhere. There may also be limited opportunities to find alternative ways of managing cash flows especially where the focus of investment is on small and medium sized firms. For funds specialising in such countries and investment types, transactions, particularly those large in size, are likely to have a greater impact on the costs of running a fund than similar transactions in larger funds. Prospective investors should bear this in mind in selecting funds.

Issued by FIL Investment Services (UK) Limited (FCA registered number 121939) a firm authorised and regulated by the Financial Conduct Authority.

FIL Investment Services (UK) Limited is a member of the Fidelity International group of companies and is registered in England and Wales under the company number 2016555. The registered office of the company is Beech Gate, Millfield Lane, Lower Kingswood, Tadworth, Surrey KT20 6RP, United Kingdom.
