Report of the Board of Directors of the Company to the shareholders

For the year ended 31 December 2022

The following pages contain the audited financial report for the year ended 31 December 2022 for the 34 funds that comprise Capital International Fund (CIF).

Volatility characterised financial markets in 2022. Stocks and bonds rarely decline in tandem, but 2022 was one of only a few exceptions over the last 45 years. The two dominant themes impacting investment sentiment were rising inflation and slowing global growth. As inflation increased to the highest levels seen in decades in developed markets, major central banks gradually removed stimulus measures and raised interest rates in their attempts to control it. The ongoing Russia-Ukraine conflict triggered higher energy costs and added to an overall volatile macroeconomic backdrop.

Global stocks saw a broad sell-off across most sectors. However, several key markets rebounded towards the latter parts of the year on the back of possible signs of US inflation peaking, which ignited hopes of less aggressive monetary policy from the US Federal Reserve.

In key markets, US equities were weaker as high inflation and interest rate hikes increased the potential for a recession. The S&P 500 Index declined 18% overall, while the Nasdaq Composite fell by 33% as growth stocks lagged the broader market.

In Europe, rising interest rates, high inflation and Russia's invasion of Ukraine all weighed on the eurozone economy. Politics also impacted markets amid leadership changes in Italy and the United Kingdom. Despite a strong fourth-quarter rally in European stocks, the MSCI Europe Index finished the full year down -15%.

Japanese equities declined as the economy struggled with a weaker yen. The MSCI Japan Index fell 17%. However, stocks rebounded in the fourth quarter, marking the first quarterly advance in more than a year.

Capital Group has a long history of helping investors navigate volatile markets, and 2022 was more volatile than most. Our diverse range of funds are based on sound bottom-up, fundamental analysis. Importantly, our investment professionals are focused on long-term results. This disciplined, long-term approach is designed to help our clients navigate periods of uncertainty and volatility.

Over the period, our growth-oriented strategies lagged their reference indices, however long-term results remain solid. Balanced funds tended to outpace their respective composite indices, as did equity strategies focused on income generation. Results for fixed income strategies were mixed relative to their reference indices. A full breakdown of results can be found on pages 19 to 38.

(Returns in US dollars unless otherwise stated)

Significant activities during the reporting year:

- On 10 June 2022, Capital International Fund – Capital Group Global Equity Fund (LUX) changed base currency from Euro to US dollar.
- On 29 November 2022, Capital International Fund – Capital Group Multi-Sector Income Fund (LUX) was launched.

Assets and cash flow

During the year, CIF's combined total net assets decreased to €24.4 billion, down from €29.3 billion. This decrease was driven by market movements. There were net subscriptions of €350 million over the period. Changes in the total net assets for each fund are shown in the Historical Data table on pages 39 to 56.

The table on pages 19 to 38 gives an overview of the funds' results in their accounting currency. Results in other currencies can be found on our website, thecapitalgroup.com/international.

Thank you for your investment and we look forward to reporting to you again in our next annual report.

The Board of Directors of the Company

Capital International Fund

Luxembourg, 18 April 2023

Summary information

As at 31 December 2022

	Capital Group New Perspective Fund (LUX) (CGNPLU)	Capital Group Global Equity Fund (LUX) (CGGELU)⁴	Capital Group World Growth and Income (LUX) (CGWGILU)

	Capital Group Investment Company of America (LUX) (CGICALU)	Capital Group Capital Income Builder (LUX) (CGCIBLU)	Capital Group Global Allocation Fund (LUX) (CGGALU)
Fund objective	Long-term growth of capital and income by investing primarily in common stocks, most of which have a history of paying dividends. In the selection of these companies, potential for capital growth and future dividends are given more weight than current yield.	To provide a level of current income that exceeds the average yield on U.S. stocks generally and to provide a growing stream of income over the years, expressed in USD.	Balanced accomplishment of three objectives: long-term growth of capital, conservation of principal and current income by investing worldwide primarily in listed equities and bonds of companies and governments and other fixed-income securities.

	Capital Group EUR Moderate Global Growth Portfolio (LUX) (CGEMGGLU)	Capital Group EUR Balanced Growth and Income Portfolio (LUX) (CGEBGILU)	Capital Group EUR Conservative Income and Growth Portfolio (LUX) (CGECIGLU)			
Fund objective	Long-term growth of capital primarily in EUR through exposure to equity securities, with a moderate allocation to fixed-income to provide diversification from equity securities by investing up to 100% of its assets in other funds of the company.	Long-term growth of capital and current income in EUR, with a secondary objective of capital preservation. It aims to achieve this primarily through a balanced exposure to growth and income-oriented equity securities, and fixed-income securities by investing up to 100% of its assets in other funds of the company.	The fund seeks to achieve current income and conservation of principal in EUR, with a secondary objective of long-term growth of capital, primarily through exposure to fixed-income securities and dividend paying equities by investing up to 100% of its assets in other funds of the company.

¹ Shown for indicative purposes only.

² The total expense ratio is made up of the management fee, fund administration fee, depositary and custody fees and other costs such as professional services, foreign registration costs, printing and mailing costs and the Luxembourg "taxe d'abonnement". The total expense ratio is annualised for share classes that have been in operation for less than 12 months. The total expense ratio does not include other investment related expenses, notably (but not limited to) taxes paid on investments and brokerage expenses. The total expense ratio is calculated in accordance with the applicable SFAMA guidelines.

³ This share class was launched during the year.

⁴ As of 10 June 2022, the accounting currency changed from EUR to USD.

⁵ Capital Group Emerging Markets Growth Fund was launched on 31 May 1990 and merged into Capital International Fund - Capital Group Emerging Markets Growth Fund (LUX) on 28 June 2019.

⁶ Capital International Portfolios - Capital Group Emerging Markets Total Opportunities (LUX) was launched on 1 February 2008 and merged into Capital International Fund - Capital Group Emerging Markets Total Opportunities (LUX) on 31 May 2019.

⁷ Capital Group Multi-Sector Income Fund (LUX) was launched on 29 November 2022.

⁸ Capital International Portfolios - Capital Group Emerging Markets Debt Fund (LUX) was launched on 24 July 2007 and merged into Capital International Fund - Capital Group Emerging Markets Debt Fund (LUX) on 31 May 2019.

⁹ Capital International Portfolios - Capital Group Emerging Markets Local Currency Debt Fund (LUX) was launched on 10 August 2010 and merged into Capital International Fund - Capital Group Emerging Markets Local Currency Debt Fund (LUX) on 31 May 2019.

Why do different share classes have different returns?

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the investment returns for that share class. For example:

- Class A4, A7, A9, A11, A13, A15 & C shares and their equivalent classes, where available, are only available to institutional investors who qualify for the reduced Luxembourg tax of 0.01% (rather than 0.05%).
- Class B, BL, N, P, Z and ZL shares and their equivalent classes, where available, are primarily designed for distribution to individual investors. The management fee for class B, N shares and their equivalent classes, where available, is higher than for the other share classes to allow for compensation to distributors and other intermediaries for day-to-day services to investors or similar services in relation to investments made with their assistance.
- Class Y Shares and its equivalent classes are available only to Capital Group Investors, subject to conditions established from time to time by Capital Group, including the entering into of a separate agreement with respect to management fee and/or other fund expenses, which are not deducted from these Shares' Net Asset Value
- The management fee for class C shares and its equivalent classes, where available, is charged to shareholders outside the fund by specific separate agreement. Actual returns to shareholders of class C and its equivalent classes, where available, will be lower than those published.
- In addition, the returns of hedged equivalent classes and dividend distributing hedged equivalent classes are impacted by the passive currency-hedging overlay programme (see note 7 to the financial statements).
- For those funds without a specified reference index, a suitable illustrative index is displayed for context.

¹ Returns are with net dividends reinvested for unhedged share classes. Lifetime returns that relate to a period of less than a year are not annualised.

² Launch date is the date as of which shares are first issued by a fund, and hence the date on which the fund or share class was first priced. Prior results back to the launch of the fund relate to the older share classes, adjusted where necessary to reflect the management fee of the recipient share class.

³ Investment results are shown in the currency referred to in the relevant class's designation. Lifetime returns are from launch date to 31 December 2022.

⁴ Shown for indicative purposes only.

⁵ As of 10 June 2022, the accounting currency changed from EUR to USD.

⁶ Capital Group Multi-Sector Income Fund (LUX) was launched on 29 November 2022.

⁷ Lifetime returns that relate to a period of less than a year are not annualised.

⁸ Capital Group Emerging Markets Growth Fund was launched on 31 May 1990 and merged into Capital International Fund - Capital Group Emerging Markets Growth Fund (LUX) on 28 June 2019.

⁹ Capital International Portfolios - Capital Group Emerging Markets Total Opportunities (LUX) was launched on 01 February 2008 and merged into Capital International Fund - Capital Group Emerging Markets Total Opportunities (LUX) on 31 May 2019.

¹⁰ Capital International Portfolios - Capital Group Emerging Markets Debt Fund (LUX) was launched on 24 July 2007 and merged into Capital International Fund - Capital Group Emerging Markets Debt Fund (LUX) on 31 May 2019.

¹¹ Capital International Portfolios - Capital Group Emerging Markets Local Currency Debt Fund (LUX) was launched on 10 August 2010 and merged into Capital International Fund - Capital Group Emerging Markets Local Currency Debt Fund (LUX) on 31 May 2019.

Investment securities at cost	US\$12,163,114,503	US\$715,694,922

The accompanying notes form an integral part of these financial statements.

¹ Bank overdraft could be the result of fund accounting cash settlements that do not appear to be duly covered by an available cash balance. The fund is typically sufficiently covered with cash held in the JPMorgan Liquidity Funds and overdraft balances are the consequence of a delay of the accounting records to reflect a net positive cash and cash related holdings as at any given value date.

Investment securities at cost	US\$986,545,236	US\$1,293,113,147

The accompanying notes form an integral part of these financial statements.

¹ Bank overdraft could be the result of fund accounting cash settlements that do not appear to be duly covered by an available cash balance. The fund is typically sufficiently covered with cash held in the JPMorgan Liquidity Funds and overdraft balances are the consequence of a delay of the accounting records to reflect a net positive cash and cash related holdings as at any given value date.

Notes to the financial statements

As at 31 December 2022

1) Capital International Fund (CIF)

a. Legal structure

CIF is an investment company (the “Company”) organised as a Société d’Investissement à Capital Variable (SICAV) in the Grand Duchy of Luxembourg and is established as an Undertaking for Collective Investment in Transferable Securities (UCITS) under Part 1 of the amended law of 17 December 2010. CIF has been converted from a self-managed SICAV into a SICAV managed by a management company, namely Capital International Management Company, Sàrl (the “Management Company”), on 1 February 2013. CIF commenced operations on 30 December 1969.

b. Funds

CIF has adopted a multiple-compartment (or “umbrella”) structure. CIF currently comprises the following funds (the “funds”): Capital Group New Perspective Fund (LUX), Capital Group Global Equity Fund (LUX), Capital Group World Growth and Income (LUX), Capital Group World Dividend Growers (LUX), Capital Group New Economy Fund (LUX), Capital Group New World Fund (LUX), Capital Group Emerging Markets Growth Fund (LUX), Capital Group Asian Horizon Fund (LUX), Capital Group Japan Equity Fund (LUX), Capital Group European Opportunities (LUX), Capital Group European Growth and Income Fund (LUX), Capital Group AMCAP Fund (LUX), Capital Group Investment Company of America (LUX), Capital Group Capital Income Builder (LUX), Capital Group Global Allocation Fund (LUX), Capital Group Global Screened Allocation Fund (LUX), Capital Group American Balanced Fund (LUX), Capital Group Emerging Markets Total Opportunities (LUX), Capital Group Global Bond Fund (LUX), Capital Group Global Intermediate Bond Fund (LUX), Capital Group Global Total Return Bond Fund (LUX), Capital Group Euro Bond Fund (LUX), Capital Group Global Corporate Bond Fund (LUX), Capital Group Euro Corporate Bond Fund (LUX), Capital Group US Corporate Bond Fund (LUX), Capital Group Global High Income Opportunities (LUX), Capital Group Multi-Sector Income Fund (LUX) (launched on 29 November 2022), Capital Group US High Yield Fund (LUX), Capital Group Emerging Markets Debt Fund (LUX), Capital Group Emerging Markets Local Currency Debt Fund (LUX), Capital Group EUR Moderate Global Growth Portfolio (LUX), Capital Group EUR Balanced Growth and Income Portfolio (LUX), Capital Group EUR Conservative Income and Growth Portfolio (LUX), Capital Group EUR Conservative Income Portfolio (LUX).

c. Share classes and currencies

Shares of each fund may be divided into class A4, A7, A9, A11, A13, A15, B, BL, C, N, P, S, Y, Z and ZL shares. In addition, some classes of some funds may be further broken down into equivalent classes.

The funds publish net asset values (NAVs) and offer dealing and reporting in various payment currencies, except hedged equivalent and dividend-distributing hedged equivalent classes for which the funds publish NAVs and offer dealing in the currency referred to in the relevant class’s designation only. A detailed list of all active share classes as at 31 December 2022 is disclosed on pages 19 to 38. Furthermore, the list of all active share classes, available payment currencies and other details can be found online on the Management Company’s webpage at capitalgroup.com/international.

The reporting currency in which the consolidated financial statements accounts are prepared is Euro. This currency may be different from the reporting currency of each CIF sub-funds which are expressed in Euro, US dollars or Yen.

As of 10 June 2022, the accounting currency of Capital Group Global Equity Fund (LUX) changed from EUR to USD.

The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statement of net assets, the statement of operations and changes in net assets of each fund converted into the Company’s reporting currency using an exchange rate as at 31 December 2022.

d. Dividend Policy

Class A4, Class A7, Class A9, Class A11, Class A13, Class A15, Class B, Class BL, Class C, Class Y, Class N, Class P, Class S, Class Z and Class ZL and corresponding Hedged Equivalent Classes

It is not at present intended that dividends be distributed to Shareholders of Class A4, Class A7, Class A9, Class A11, Class A13, Class A15, Class B, Class BL, Class C, Class Y, Class N, Class P, Class S, Class Z, Class ZL and corresponding Hedged Equivalent Classes in any Fund.

Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes

- **Principle and amount:** The Board of Directors of the Company intends to recommend that dividends be distributed to Shareholders of all Dividend distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes.

Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with a “d”.

The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes and expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, net investment income.

Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with a “gd”. The dividend will generally represent a substantial part of the gross investment income (i.e., investment income net of withholding taxes but gross of expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, gross investment income. The payment of dividends out of gross investment income implies that all or part of the fees and expenses are charged to capital (i.e. accumulated capital gains or initial investment).

Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with an “ad”. This share class is available only to Capital Group investors, subject to conditions established from time to time by Capital Group. The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes and expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, net income.

Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with a “fd”. The dividend will generally be fixed and may exceed the gross investment income (i.e. investment income net of withholding taxes but gross of expenses) of such Classes. The payment of a fixed dividend implies that any payment in excess of the net investment income may include capital gains, as well as partially be paid out of capital.

Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with a “fyd”. The dividend will be calculated based on a fixed percentage of the Net Asset Value per Share, resulting in a variable dividend, which may exceed the gross investment income (i.e. investment income net of withholding taxes but gross of expenses) of such Classes. The payment of a dividend calculated in this manner implies that any payment in excess of the net investment income may include capital gains and/or payments out of capital which may result in the reduction of invested capital over time. The fixed percentage applied to the Net Asset Value per Share is intended to achieve a predictable annual dividend yield. The fixed annual dividend yield may be changed at the discretion of the Management Company taking into consideration exceptional circumstances.

■ **Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes with an “m” designation:** It is intended that these Classes will distribute dividends monthly.

These are marked by a “m”, i.e. “dm”, “gdm”, “adm”, “fdm” or “fydm” depending on the applicable dividend methodology (see “Dividend Policy” above for details) or “dmh”, “gdmh”, “admh” or “fdmh” for Dividend-distributing Hedged Equivalent Classes.

- **Payment:** Shareholders can elect in writing to have their dividends either reinvested in Shares or paid to them. In the absence of instruction from a Shareholder, the Administrative Manager will automatically reinvest any dividends in Shares promptly upon payment of the dividend. If the Shareholder elects to have dividends paid, the relevant amount will be paid at no charge by bank transfer in the relevant Payment Currency to the bank account designated for this purpose (with all necessary details as specified in the Account Opening Form) by the Shareholder. Upon dividends paid to a Shareholder having been returned to the Company for the second consecutive year, the Administrative Manager will reinvest in Shares the amounts so returned, as well as the amount of any subsequent dividend paid to the same Shareholder until otherwise instructed.

e. Accounting year

The accounting year of CIF begins on 1 January and terminates on 31 December in each year.

2) Significant accounting policies

a. General

These financial statements are prepared in accordance with Luxembourg laws, regulations and practices relating to investment funds. The last audited Net Asset Value, and the last day on which prices were calculated for all funds, was 30 December 2022, with the exception of Capital Group Japan Equity Fund (LUX) which was on the 29 December 2022. Please note that Fund Non-trading dates calendar for the year ongoing is available on CG website at capitalgroup.com/international.

b. Valuation of investments

- i. Except as otherwise provided in (v) below, securities which are listed on an official stock exchange or traded on any other regulated market are valued at the last traded or otherwise available price at the time the NAV is calculated on the principal market on which they are traded, as published by such market or furnished by a pricing service approved by the Board of Directors of the Company; and other securities are valued at prices furnished by, or yield equivalents obtained from, one or more dealers or such pricing service.
- ii. Securities issued by UCITS or UCIs will be valued at their last available NAV on the relevant valuation date; they may be valued in accordance with item (i) above where such securities are listed.
- iii. Money market instruments will be valued at nominal value plus any accrued interest or using an amortised cost method, provided that this method of valuation ensures that such assets will be valued at their fair value as determined in good faith pursuant to the procedure established by the Board of Directors of the Company.
- iv. Swaps will be valued at the net present value of their cash flows.
- v. The liquidating value of OTC derivatives shall be determined based on information provided by pricing services approved by the Board of Directors of the Company.
- vi. If a price representative of a security's fair value is not readily available from the pricing sources described under (i) through (iv) above, or if the accuracy of a portfolio's valuation, as established pursuant to (i) above, is materially affected by events that occur prior to the NAV being calculated, the relevant security or securities will be valued at the fair value, as determined by or under the direction of the Board of Directors of the Company. Use of such fair valuation procedures is intended to result in more representative NAVs and to eliminate or substantially reduce potential arbitrage opportunities at the expense of shareholders that might otherwise be available to short-term investors. In addition, the closing prices of equity securities that trade in markets outside US time zones may be adjusted to reflect significant events that occur after the close of local trading but before the Net Asset Value of each Share Class of the Fund is determined.

c. Foreign currencies

- i. Assets and liabilities in currencies other than euros have been translated into euros at the prevailing exchange rates as at 31 December 2022. Transactions during the year in currencies other than euros have been translated at rates prevailing at the time of the transaction. The variation of the net unrealised exchange gains or losses on open forward currency exchange contracts and on other assets and liabilities between 31 December 2021 and 31 December 2022 is disclosed in “net change in unrealised appreciation/(depreciation) on foreign currency transactions”. The net realised gains or losses on exchange, including on open forward currency exchange contracts expired during the year, are disclosed in “net realised gain/(loss) on foreign currency transactions”.

The principal exchange rate applied as at 31 December 2022 is 1 EUR = 140.485859061 YEN and 1 EUR = 1.070450008 USD.

- ii. If a current quote representative of a foreign currency value is not readily available, or if the accuracy of a portfolio's valuation, as established pursuant to (i) above, is significantly affected by events that occur prior to the NAV being calculated, the relevant foreign currency or currencies will be valued at the fair value, as determined by or under the direction of the Board of Directors of the Company. Use of such fair valuation procedures is intended to result in more representative NAVs and to eliminate or substantially reduce potential arbitrage opportunities at the expense of shareholders that might otherwise be available to short-term investors.

d. Income

Dividends are taken into income on the date upon which the relevant securities are first listed as ex-dividend. Interest income is accrued on a daily basis.

The securities lending income is accounted for on a cash basis on the 16th day of each month following the month that the revenue was generated, net of lending fees paid to the lending agent.

Premiums and discounts on convertible bonds, sinkable bonds, sinkable-callable bonds, index-linked assets, inflation linked assets, dirty priced bonds and unitised bonds are amortised using an effective interest rate (EIR) methodology. Premiums and discounts on all other fixed income securities are amortised on a straight-line basis.

e. Securities lending

Some Funds may use securities financing transactions as defined under Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 by entering into securities lending transactions to provide an additional source of potential investment return to Shareholders, which will help achieve the Fund's investment objective. Where a Fund enters into securities financing transactions, only equity securities will be subject to securities lending transactions.

Portfolio securities of the relevant Fund will be lent to counterparties such as brokers, dealers or other institutions approved by Capital Group. Counterparties to securities lending transactions are subject to prudential supervision rules that the CSSF deems equivalent to those required under EU Law.

All revenues from securities lending transactions shall be payable to the relevant Fund following the deduction of compensation to the securities lending agent for its services. The expenses which may be deducted from the revenue delivered to the relevant Fund should generally not exceed 5% of the gross revenue arising from securities lending transactions. The difference, i.e. 95%, will be paid to the relevant Fund.

See “Appendix 2: Securities Financing Transactions” for further information on securities lending transactions.

The value of loaned securities, related collateral outstanding, identity of the counterparties, security lending income and associated operational costs and fees for the year ended 31 December 2022 are as follows:

f. Realised gain or loss on sale of investments

The realised gain or loss on sale of equities is determined on the average cost basis and the methodology of calculating gains or losses on disposal of fixed income securities is first-in-first-out (FIFO).

g. Unfunded capital commitments

Unfunded capital commitments represent agreements which obligate the Capital Group Emerging Markets Growth Fund (LUX) to meet capital call in the future. Payment would be made when a capital call is requested. Capital calls can only be made if and when certain requirements have been fulfilled; thus, the timing and the amount of such capital calls cannot readily be determined. Unfunded capital commitments are recorded when capital calls are requested. As of 31 December 2022, unfunded capital commitments were US\$4,442,188.

h. Mortgage related securities - To Be Announced securities contracts (TBAs)

TBA contracts are forward contracts on agency mortgage pass-through securities issued by agencies such as Fannie Mae, Freddie Mac and Ginnie Mae. The particular securities (i.e., specified mortgage pools) to be delivered or received are not identified at the trade date, but are “to be announced” on the notification date which is two days before the settlement date. However, securities to be delivered must meet specified criteria, including face value, coupon rate and maturity, and be within industry-accepted “good delivery” standards. TBAs settle once each month based on a calendar published by the Securities Industry and Financial Markets Association.

TBA positions are disclosed in the schedule of investments. The purchase of this type of security has not been settled and as a consequence, the amount corresponding to the payable due when the transaction is settled, is disclosed under “Payable for To Be Announced contracts” in the statement of net assets.

Negative positions in the schedule of investments reflect the fund's sale commitments of TBAs. The amount corresponding to the receivable due when the transaction is settled, is disclosed under “Receivable for To Be Announced contracts” in the statement of net assets.

The realised gain/(loss) on TBAs and changes in unrealised appreciation/(depreciation) are disclosed in the statement of operations and changes in net assets respectively under the headings “Net realised gain/(loss) on sale of investments” and “Net change in unrealised appreciation/(depreciation) on investments”.

i. Swing pricing adjustment

A fund may suffer dilution of the net asset value as a result of large subscriptions, redemptions or switches. Such dilution would arise from shareholders buying or selling shares at a net asset value which would not accurately reflect the dealing and other costs incurred when securities are traded to accommodate cash inflows or outflows. In order to counter such dilution impact, the Company adopts a swing pricing mechanism as part of its valuation policy. If on any valuation date, the net aggregate amount of subscriptions or redemptions in shares of a fund exceeds a pre-determined threshold expressed as a percentage of the net asset value of that fund, the net asset value may be adjusted upwards or downwards to reflect the costs attributable to the underlying trade in securities undertaken by the Investment Advisers to accommodate inflows or outflows as the case may be.

Any swing pricing adjustment to such net asset value will be applied systematically and consistently based on predefined factors. The price adjustment may vary from fund to fund and will normally not exceed 3% of the original net asset value. The Company may decide to suspend the application of any swing pricing adjustment to the net asset value of any particular fund or increase this price adjustment limit in exceptional circumstances to protect the interests of shareholders. Such price adjustment is available on the Management Company's webpage at capitalgroup.com/international concomitantly with the publication of the relevant net asset value. The Company, relying on the Management

Company and its Conducting Officers' ongoing review, will reassess on a periodic basis the price adjustment factors to reflect an approximation of current dealing and other costs.

As at year end, a swing pricing adjustment has been applied to Capital Group Capital Income Builder Fund (LUX). The official Net Asset Values per share of this funds, following the application of the swing pricing factor, are shown in the following table.

All other financial information stated in this report is shown before any adjustment for swing pricing.

3) Fees and expenses

a. Management fee

CIF pays the management fee at the annual rates specified below. This fee is used to compensate the Management Company which can in turn use it to compensate the Investment Advisers for their investment advisory services and the distributors and other intermediaries, as applicable, for services to investors or similar services in relation to investments made with their assistance.

¹ Share classes not available.² Investments in shares of class C and equivalent classes may only be made by investors having entered into a separate agreement with respect to management fee.³ Investments in shares of class Y and equivalent classes may only be made by investors having entered into a separate agreement with respect to management fee.⁴ Capital Group Multi-Sector Income Fund (LUX) was launched on 29 November 2022

b. Depositary fee, custody fee and fund administration fee

The Company has appointed J.P. Morgan SE (J.P. Morgan Bank Luxembourg S.A. until 22 January 2022), as Depositary, Custodian and Administrative Manager.

The depositary, custody and fund administration effective fees may vary with the total assets of the funds and, for the custody fee, with the country breakdown in the portfolio. CIF paid fund administration, depositary and custody fees at the approximate effective annual rates specified below. Rates are calculated based on the average net assets during the year:

	Depositary and custody fees	Fund administration fee
Capital Group New Perspective Fund (LUX)	0.01%	0.01%
Capital Group Global Equity Fund (LUX)	0.02%	0.06%

c. Related party transactions

Professional services in the statement of operations and changes in net assets include an amount of €2,970,037 charged by the Management Company for administrative services rendered during the year ended 31 December 2022.

¹ Capital Group Multi-Sector Income Fund (LUX) was launched on 29 November 2022

d. Reimbursement of expenses

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the returns to shareholders. The CIF prospectus, available on the Management Company's webpage at capitalgroup.com/international, explains further the differences between share classes.

The Management Company established a reimbursement threshold so that each fund's total expense ratio (excluding management fee) did not exceed the annual rates specified below:

5) Taxation

a. Taxe d'abonnement

In Luxembourg, CIF is subject only to a tax ("taxe d'abonnement") at the annual rate of 0.05% of the total net assets of each share class in each fund. However, as provided by the relevant Luxembourg laws in respect of share classes wholly held by institutional investors, a reduced rate of 0.01% per annum was applied in respect of class A4, A7, A9, A11, A13, A15, C and equivalent share classes, where available, for the year ended 31 December. It should be noted that there can be no guarantee that the benefit of such reduced rate will not be denied or that, once obtained, it will continue to be available in the future. Such tax is accrued daily, payable quarterly and calculated on the total NAV of each share class at the end of the relevant quarter.

b. Foreign taxes

Capital gains and income on securities may be subject to respectively capital gain taxes and withholding taxes. CIF is not expected to recover such taxes in full, but may have the possibility to reclaim a portion of the withholding taxes in accordance with the tax relief provided for in the double tax treaties in place between Luxembourg and some foreign countries.

It is CIF's policy to accrue for withholding taxes and any other significant liability for foreign capital gain taxes.

The below Sub-Funds had a provision for Indian Capital Gains Tax net of any refunds as at the period end, the amounts are included within the "Provision for foreign tax" on the Statement of Assets and Liabilities:

Sub-Fund	Sub-Fund currency	Provision at 31 December 2022 (in fund currency)
Capital Group New World Fund (LUX)	USD	611,953
Capital Group Emerging Markets Growth Fund (LUX)	USD	1,036,843
Capital Group Asian Horizon Fund (LUX)	USD	142,425
Capital Group Emerging Markets Total Opportunities (LUX)	USD	732,657

Under certain circumstances, CIF may file claims with the tax authorities of some foreign countries, when the tax treatment it has been subject to could be considered as contestable or discriminatory. The nature of these claims is complex and subject to each jurisdiction's local procedural rules and case law. In such cases, in view of the uncertainty of success, and in accordance with the accounting principle of prudence applied in Luxembourg, CIF does not accrue for the potential tax refund. When a claim is successful, any significant withholding tax or capital gain tax reimbursement is recognised as "other income" or "net realised gain on sale of investments" respectively upon notification of the final judgment.

For the year ended 31 December 2022, the total amounts earned by the funds as a result of these claims were as follows:

Sub-Fund	Sub-Fund Currency	Amount
Capital Group Global Equity Fund (LUX)	USD	345,909
Capital Group World Growth and Income (LUX)	USD	11,647
Capital Group Emerging Markets Growth Fund (LUX)	USD	978,289
Capital Group European Growth and Income Fund (LUX)	EUR	263,500
Capital Group Capital Income Builder (LUX)	USD	11,572

Please refer to the Company's prospectus for further information on taxation.

6) Forward currency exchange contracts

In order to achieve the most appropriate currency distribution, the funds enter into forward currency exchange contracts aiming to reduce the risk of the depreciation in the value of specific currencies. The funds do not intend to systematically hedge currency exposures back to any currency, except in the case of hedged equivalent classes, as described in note 7 to the financial statements.

Forward currency exchange contracts are valued on the basis of forward currency exchange rates prevailing on the relevant reporting date and the resulting net change in unrealised gain or loss is included in the statement of operations and changes in net assets.

7) Hedged equivalent classes¹

The hedged equivalent classes seek to limit the exposure of their shareholders to currencies other than the currency referred to in the relevant class's designation, through a systematic passive currency-hedging overlay performed by J.P. Morgan Chase Bank, N.A. on a significant part of the assets of the relevant fund attributable to these classes. In the case of a net asset flow to or from such a class or fluctuation in the net asset value of the class, the passive currency-hedging overlay may not, or not immediately, be adjusted, unless the flow or fluctuation is significant. Passive currency-hedging overlay will not completely eliminate the exposure to currency movements, and proxy hedging may, for instance, be used when the underlying currency is not liquid or is closely linked to another currency. Shareholders of hedged equivalent classes should note that returns of hedged equivalent classes may be significantly different over time than those of unhedged classes and that passive currency-hedging overlay may limit their ability to benefit from the currency diversification undertaken within the portfolio (including partially offsetting the currency hedging undertaken at the level of the fund's portfolio).

The cost of passive currency-hedging overlay and gains/losses from hedging transactions are borne by the relevant hedged equivalent class(es).

These classes are marked by a "h" and a reference to the currency being hedged into.

The actual passive currency-hedging overlay methodology varies from fund to fund, as described hereafter.

Capital Group New Perspective Fund (LUX)

CGNPLU hedged share classes aim at hedging with a reasonable margin of tolerance the main currency exposures of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group Global Equity Fund (LUX)

CGGELU hedged share classes aim at hedging with a reasonable margin of tolerance the main currency exposures of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group New Economy Fund (LUX)

CGNELU hedged share classes will aim at hedging with a reasonable margin of tolerance, the main currency exposure of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

¹ In this note, "hedged equivalent classes" include "dividend-distributing hedged equivalent classes" as well.

Capital Group New World Fund (LUX)

The Class will aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets, from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

Capital Group Japan Equity Fund (LUX)

CGJPELU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

Capital Group European Opportunities (LUX)

CGEOLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

Capital Group European Growth and Income Fund (LUX)

CGEGILU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

Capital Group AMCAP Fund (LUX)

CGAMCAPLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

Capital Group Investment Company of America (LUX)

CGICALU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

Capital Group Capital Income Builder (LUX)

CGCIBLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant Class's designation.

Capital Group Global Allocation Fund (LUX)

CGGALU hedged share classes aim at hedging (with a reasonable margin of tolerance) the main currency exposure of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group Global Screened Allocation Fund (LUX)

CGGSALU hedged share classes aim at hedging (with a reasonable margin of tolerance) the main currency exposure of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group American Balanced Fund (LUX)

CGAMBALLU hedged share classes aim at hedging (with a reasonable margin of tolerance) the main currency exposure of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be 100%.

Capital Group Emerging Markets Total Opportunities (LUX)

CGETOPLU SGD and JPY hedged share classes aim at hedging 100% and other hedged share classes aim at hedging 50% (with a reasonable margin of tolerance) of their total net assets, from US dollar (regardless of the current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

Capital Group Global Bond Fund (LUX)

CGGBLU hedged share classes aim at hedging (with a reasonable margin of tolerance) the main currency exposures of the Fund's investment universe (represented by a relevant representative index) back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group Global Intermediate Bond Fund (LUX)

CGGIBLU will aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

Capital Group Global Total Return Bond Fund (LUX)

CGGTRLU aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

Capital Group Euro Bond Fund (LUX)

CGEBLU hedged share classes aim at hedging (with a reasonable margin of tolerance) the main currency exposure of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group Global Corporate Bond Fund (LUX)

CGGCBLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant Class's designation.

Capital Group Euro Corporate Bond Fund (LUX)

CGECBLU hedged share classes aim at hedging (with a reasonable margin of tolerance) the main currency exposures of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group US Corporate Bond Fund (LUX)

CGUSCBLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

Capital Group Global High Income Opportunities (LUX)

CGGHIOLU hedged share classes aim at hedging (with a reasonable margin of tolerance) their total net assets from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group Multi-Sector Income Fund (LUX)

CGMSILU hedged share classes aim at hedging, with a reasonable margin of tolerance, its total net assets from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant Class's designation. It is expected that the resulting effective hedge ratio (i.e. the percentage exposure in the currency of the hedged share class) will typically be in the range of 80% to 100%.

Capital Group US High Yield Fund (LUX)

CGUSHYLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets, from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

Capital Group Emerging Markets Debt Fund (LUX)

CGEMDLU hedged share classes aim at hedging 50% (with a reasonable margin of tolerance) of its total net assets, from USD (regardless of the current exposure of the portfolio to USD), into the currency referred to in the relevant class's designation.

Capital Group Emerging Markets Local Currency Debt Fund (LUX)

CGEMLCDLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets, from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

8) Credit Default Swaps contracts

In order to obtain exposure to a diversified portfolio of credits or to hedge against existing credit risks, the funds may use Credit default swaps ("CDS") or credit default swap indices contracts ("CDXs"). CDS allows the transfer of default risk. This allows investors to effectively buy insurance on a Bond they hold (hedging the investment) in the expectation that the credit will decline in quality. Conversely, where the investment view is that the payments due to decline in credit quality will be less than the coupon payments, protection will be sold by means of entering into a credit default swap. A CDX is based on a portfolio of credit default swaps with similar characteristics, such as credit default swaps on high-yield bonds. In a typical CDS and/or CDX transaction, one party - the protection buyer - is obligated to pay the other party - the protection seller - a stream of periodic payments over the term of the contract. If a credit event, such as a default or restructuring, occurs with respect to any of the underlying reference obligations, the protection seller must pay the protection buyer the loss on those credits. The fund may enter into a CDS and/or CDX transaction as either protection buyer or protection seller.

The unrealised gain/(loss) is disclosed in the statement of net assets under "Unrealised gain/(loss) on swap contracts". Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under "Net realised gain/(loss) on swap contracts" and "Net change in unrealised appreciation/(depreciation) on swap contracts".

9) Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis which is usually not exchanged.

Interest rate swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised gain/(loss) is disclosed in the statement of net assets under “Unrealised gain/(loss) on swap contracts.” Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under “Net realised gain/(loss) on swap contracts” and “Net change in unrealised appreciation/(depreciation) on swap contracts”.

10) Futures contracts

Futures contracts provide for the delayed delivery of the underlying instrument at a fixed price or for a cash amount based on the change in the value of the underlying instruments at a specific date in the future.

Upon entering into futures contract, the sub-fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by the sub-fund periodically and are based on changes in the market value of open futures contracts.

The unrealised gain/(loss) on future contracts is disclosed in the statement of net assets under “Unrealised gain/(loss) on financial futures contracts”. Changes in the market value of open future contracts are recorded as unrealised gain/(loss) in the statement of operations and changes in net assets under “Net change in unrealised appreciation/(depreciation) on financial futures contracts”. Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations and changes in net assets under “Net realised gain/(loss) on financial futures contracts”.

11) Collateral

As at 31 December 2022, the collateral received or paid which is composed of cash and non-cash collateral granted to or received from brokers and counterparties for the purpose of transactions in derivatives is as follows:

Sub-Fund	Sub-fund Currency	Counterparty/ Broker	Type of Collateral	Amount received	Amount paid

12) Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect

Some funds may invest via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively "Stock Connects"). The Shanghai-Hong Kong Stock Connect is a securities trading and clearing linked program developed by Hong Kong Exchanges and Clearing Limited ("HKEx"), Shanghai Stock Exchange ("SSE") and China Securities Depository and Clearing Corporation Limited ("ChinaClear") and the Shenzhen-Hong Kong Stock Connect is a securities trading and clearing linked program developed by HKEx, Shenzhen Stock Exchange ("SZSE") and ChinaClear, both aiming to achieve mutual stock market access between the People's Republic of China ("PRC") and Hong Kong. Hong Kong Securities Clearing Company Limited (HKSCC), a wholly-owned subsidiary of HKEx, and ChinaClear will be responsible for the clearing, settlement and the provision of depository, nominee and other related services of the trades executed by their respective market participants and/or investors.

The Shanghai-Hong Kong Stock Connect comprises a Northbound Shanghai Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shanghai Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by the Hong Kong Stock Exchange ("SEHK"), may be able to trade eligible China A Shares listed on the SSE by routing orders to SSE. Under the Southbound Hong Kong Trading Link under Shanghai-Hong Kong Stock Connect, investors in the PRC will be able to trade certain stocks listed on the SEHK.

The Shenzhen-Hong Kong Stock Connect comprises a Northbound Shenzhen Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shenzhen Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by SEHK, may be able to trade eligible China A Shares listed on the SZSE by routing orders to SZSE. Under the Southbound Hong Kong Trading Link under Shenzhen-Hong Kong Stock Connect investors in the PRC will be able to trade certain stocks listed on the SEHK.

The trading is subject to rules and regulations issued from time to time. Trading under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are both subject to a daily quota ("Daily Quota"). Northbound Shanghai Trading Link and Southbound Hong Kong Trading Link under the Shanghai-Hong Kong Stock Connect as well as Northbound Shenzhen Trading Link and Southbound Hong Kong Trading Link under the Shenzhen-Hong Kong Stock

Connect will be subject to a separate set of Daily Quota. The Daily Quota limits the maximum net buy value of cross boundary trades under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect each day.

13) China Interbank Bond Market

Some funds may invest on the China Interbank Bond Market. Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the China Interbank Bond Market may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

To the extent that a fund transacts in the China Interbank Bond Market, the fund may also be exposed to risks associated with settlement procedures and default of counterparties. The counterparty which has entered into a transaction with the fund may default in its obligation to settle the transaction by delivery of the relevant security or by payment for value. Since the relevant filings and account opening for investment in the China Interbank Bond Market have to be carried out via an onshore settlement agent, the relevant fund is subject to the risks of default or errors on the part of the onshore settlement agent.

The China Interbank Bond Market is also subject to regulatory risks. The relevant rules and regulations on investment in the China Interbank Bond Market are subject to change which may have potential retrospective effect. In the event that the relevant Chinese authorities suspend account opening or trading on the China Interbank Bond Market, the funds' ability to invest in the China Interbank Bond Market will be limited and, after exhausting other trading alternatives, the relevant fund may suffer substantial losses as a result.

Reforms or changes in macro-economic policies, such as the monetary and tax policies might affect interest rates. Consequently, the price and the yield of the bonds held in a portfolio would/could also be affected.

14) Bond Connect

Some funds may invest via the Bond Connect. Bond Connect is the historic opening up of China's Interbank Bond Market (CIBM) to global investors through the China-Hong Kong mutual access program. The program allows foreign and Mainland China investors the ability to trade in each other's bond market through a connection between the Mainland and Hong Kong based financial infrastructure institutions.

Bond Connect aims to enhance the efficiency and flexibility of investing in the China Interbank Bond Market. This is accomplished by easing the access requirements to enter the market, the use of the Hong Kong trading infrastructure to connect to China Foreign Exchange Trading System (CFETS), removal of the investment quota and Bond Settlement Agent, all which are required to invest in the CIBM directly.

Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the CIBM may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

15) Transaction costs

For the year ended 31 December 2022, the amounts are as follows:

Capital Group New Perspective Fund (LUX)	US\$5,794,994
Capital Group Global Equity Fund (LUX)	US\$330,200
Capital Group World Growth and Income (LUX)	US\$190,189
Capital Group World Dividend Growers (LUX)	US\$226,774
Capital Group New Economy Fund (LUX)	US\$214,432

17) Calculation method of the risk exposure

The methodology used by all sub-funds, except for the Capital Group Global Total Return Bond Fund (LUX) and Capital Group Multi-Sector Income Fund (LUX), in order to calculate the global exposure resulting from the use of financial derivative instruments is the commitment approach in accordance with the CSSF Circular 11/512. The commitment approach calculation converts the financial derivative position into the market value of an equivalent position in the underlying asset of that derivative. When using the commitment approach, the sub-fund may benefit from the effects of netting and hedging arrangements to reduce its global exposure.

For the Capital Group Global Total Return Bond Fund (LUX), the absolute Value at Risk ("VaR") approach is used for the purposes of calculating global exposure. The VaR approach seeks to estimate and constrain the potential loss that the sub-fund could experience on a 1-month (20 business days) horizon, 99% confidence interval. A third-party risk system is used

to calculate analytical VaR utilising 5 years of weekly historical data with a 2-month half-life to carry out the calculation on a daily basis.

The table below details the sub-fund's highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the absolute VaR regulatory limit of 20%. In addition, the leverage figure is calculated using the gross sum of the notional of the derivatives used by the sub-fund as is required by UCITS regulations and as such does not take into account any netting of the derivatives and hedging arrangements that the sub-fund has in place at any time.

Sub-Fund	Global Exposure Approach	Regulatory VaR limit utilisation (percentage of total VaR limit used)			Gross Sum of Notionals	Observation period
		Lowest	Highest	Average		
Capital Group Global Total Return Bond Fund (LUX)	Absolute VaR	7.42%	53.54%	17.81%	133.64%	3 January 2022 to 30 December 2022

For the Capital Group Multi-Sector Income Fund (LUX), the relative Value at Risk ("VaR") approach is used for the purpose of calculating global exposure. The VaR approach seeks to compare the VaR of the UCITS to the VaR of the reference portfolio using 45% Bloomberg U.S. High Yield Index 2% Issuer Cap, 30% Bloomberg U.S. Corporate Index, 15% J.P. Morgan EMBI Global Diversified Index, 8% Bloomberg CMBS Ex AAA Index, 2% Bloomberg ABS Ex AAA indexes as the appropriate reference portfolio. The VaR of the UCITS compared to the VaR of the reference portfolio is limited to the regulatory limit of 200%.

The table below details the sub-fund's highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the relative VaR regulatory limit of 200%. In addition, the leverage figure is calculated using the gross sum of the notional of the derivatives used by the sub-fund as is required by UCITS regulations and as such does not take into account any netting of the derivatives and hedging arrangements that the sub-fund has in place at any time.

Sub-Fund	Global Exposure Approach	Regulatory VaR limit utilisation (percentage of total VaR limit used)			Gross Sum of Notionals	Observation period
		Lowest	Highest	Average		
Capital Group Multi-Sector Income Fund (LUX)	Relative VaR	47.53%	50.86%	49.47%	44.09%	29 November 2022 to 30 December 2022

18) Significant events during the year

a. Provider name change

With effect from 22 January 2022, J.P. Morgan Bank Luxembourg S.A. merged into J.P. Morgan AG which at the same time changed its legal form from a German Stock Corporation (Aktiengesellschaft) to a European Company (SocietasEuropaea), being J.P. Morgan SE.

b. The war in Ukraine

The invasion of Ukraine by Russia on 24 February 2022 has resulted in significant economic sanctions on Russia and Belarus. It is uncertain how long the conflict, economic sanctions and the resulting impacts on regional and global financial markets and economic conditions will continue. Securities markets have been volatile, and large uncertainty persists, both as to the contours of current sanctions as well as the likely next government actions.

As of December 31, observable market datapoints have become unreliable or unavailable for some equity securities. Given the lack of observable market datapoints and market illiquidity, varying approaches to valuation across the industry are likely, particularly with respect to Russian equity securities where substantially no trading is taking place. Given the continued uncertainty surrounding resumption of trading of the impacted securities and uncertainty around repatriating funds if a sale could occur, CAPITAL INTERNATIONAL MANAGEMENT COMPANY SÀRL has fair valued equities at a de minimis (near zero) valuation, as per established valuation policies. This has not changed subsequent to the period reported. For bonds and foreign exchange rates, CAPITAL INTERNATIONAL MANAGEMENT COMPANY SÀRL continues to utilize independent third-party vendor prices that are deemed representative. However, there may be instances where vendor prices are determined not to be representative, in which case those instruments are fair valued in accordance with established valuation policies. Prices on both local currency, U.S. dollar and euro denominated bonds have been at the back of microeconomic factors such as demand and supply due to some liquidity in the market and certain divestment avenues opening up, causing increases in bond prices from March/April through December 31 for Russia and Belarus. Despite this, the bonds continue to be marked at steep discounts from pre-war levels. The situation remains fluid and can change rapidly. CAPITAL INTERNATIONAL MANAGEMENT COMPANY SÀRL is monitoring closely and will continue to adjust our valuations as deemed necessary.

Capital Group has developed systems and controls that are reasonably designed to ensure that our investment management process complies with relevant sanctions - including divestment requirements where applicable - from various sanctions regulatory bodies, such as the U.S. Treasury's Office of Foreign Assets Control (OFAC), the UK OFSI, the EU, Canada, UN Security Council and other bodies.

19) Additional information for investors in Hong Kong

a. Sub-Funds authorised in Hong Kong

As at 31 December 2022, the following Sub-Funds of CIF are authorised by the Securities and Futures Commission in Hong Kong:

Capital Group New Perspective Fund (LUX)
Capital Group Global Equity Fund (LUX)
Capital Group World Growth and Income (LUX)
Capital Group World Dividend Growers (LUX)
Capital Group New Economy Fund (LUX)
Capital Group New World Fund (LUX)
Capital Group Asian Horizon Fund (LUX)
Capital Group Japan Equity Fund (LUX)
Capital Group European Opportunities (LUX)
Capital Group European Growth and Income Fund (LUX)
Capital Group AMCAP Fund (LUX)
Capital Group Investment Company of America (LUX)
Capital Group Capital Income Builder (LUX)
Capital Group Global Allocation Fund (LUX)
Capital Group American Balanced Fund (LUX)
Capital Group Emerging Markets Total Opportunities (LUX)
Capital Group Global Bond Fund (LUX)
Capital Group Global Intermediate Bond Fund (LUX)
Capital Group Euro Bond Fund (LUX)
Capital Group Global Corporate Bond Fund (LUX)
Capital Group Euro Corporate Bond Fund (LUX)

a. Sub-Funds authorised in Hong Kong (continued)

Capital Group US Corporate Bond Fund (LUX)
 Capital Group Global High Income Opportunities (LUX)
 Capital Group US High Yield Fund (LUX)
 Capital Group Emerging Markets Debt Fund (LUX)
 Capital Group Emerging Markets Local Currency Debt Fund (LUX)

b. Revised Notes for compliance with the revised SFC Code

The revised Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission (SFC Code) came into effect on 1 January 2019 with a 12-month transition period for compliance for funds previously authorised by the SFC (including the Sub-Funds authorised in Hong Kong).

During the year ended 31 December 2022, disclosures on transactions with Connected Persons (as defined under the SFC Code) of each Sub-Fund authorised in Hong Kong were further amended for compliance with the applicable requirements under the revised SFC Code. For the avoidance of doubt, as a result of the amendments of disclosures for compliance with the revised SFC Code, there will not be (i) any change of the investment objective and policies of the Sub-Funds authorised in Hong Kong; (ii) any material changes to the Sub-Funds authorised in Hong Kong; (iii) any material change or increase in the overall risk profile of the Sub-Funds authorised in Hong Kong; and (iv) any material adverse impact on the rights or interests of the Hong Kong Shareholders.

c. Transactions with Connected Persons for the Sub-Funds authorised in Hong Kong

Connected Persons of the Management Company, the Investment Advisers and the Directors of the Company, the Custodian and the Depositary are those defined in the SFC Code. All transactions entered into during the period between the Authorised Sub-Funds and the Management Company, the Investment Advisers and the Directors of the Company, the Custodian and the Depositary and their respective Connected Persons including JP Morgan as securities lending agent were carried out at arm's length in the ordinary course of business and on normal commercial terms.

To the best of the knowledge of the Management Company, the Investment Advisers, the Directors of the Company, the Custodian and the Depositary, the Sub-Funds did not have any other transactions with connected persons except for those disclosed below.

The following is a summary of the seed money transactions in USD currency (transfers and switches are excluded).

These Sub-Funds are not authorised for sale in Hong Kong and are not available to the public in Hong Kong as at 31 December 2022.

For information on the cash management, cash deposits and borrowing, please refer to the 'Combined statement of net assets' section of this Annual Report for each Sub-Fund.

For information on foreign exchange and passive currency overlay, please refer to the 'Schedule of investments' section of this Annual Report.

In addition to being the Depositary and Custodian, JP Morgan serves as the sole securities lending agent. For more details on securities lending and relevant fees received by JP Morgan as securities lending agent, please refer to 'Note 2) Significant accounting policies - e. Securities lending' of the Notes to the financial statements.

The Sub-Funds utilise brokerage services for their purchases and sales of investments. Details of transactions executed through a broker who is a connected person of the Management Company, the Investment Advisers, the Directors of the Company, the Custodian and the Depositary during the year ended 31 December 2022 were as follows.

Sub-Fund	Currency	The total aggregate value of the transactions for the year	Percentage of such transactions in the value to the total transactions for the year	Commission paid for the year	Average rate of commission
Capital Group New Perspective Fund (LUX)	USD	690,688,753	6.87%	229,935	0.03%
Capital Group Global Equity Fund (LUX)	EUR	21,832,524	6.41%	6,334	0.03%
Capital Group World Growth and Income (LUX)	USD	22,267,074	8.31%	9,836	0.04%

Capital Group US High Yield Fund (LUX)	USD	4,511	—	4	—

Brokerage fees are charged separately for fixed income instruments, therefore the fixed income CIF Sub-Funds and values for fixed income transactions are excluded from this table (for more details, please refer to 'Note 15) Transaction Costs' of the Notes to the financial statements).

The Management Company is entitled to receive management fees from the Sub-Funds as set out in 'Note 3) Fees and expenses' of the Notes to the financial statements.

d. Soft Commissions

No soft commission arrangements were entered into by the Management Company or the Investment Advisers with brokers for the year ended 31 December 2022.

General information

Annual General Meeting

The Annual General Meeting of the shareholders of Capital International Fund (CIF) is held at the registered office of CIF in Luxembourg on the last Tuesday of April in each year at 11:00 am or, if such day is not a Luxembourg business day, on the next business day. Notices of all general meetings are sent to shareholders at their addresses in the register of shareholders by post at least eight days prior to the meeting.

Information available to investors

The Prospectus, Key Investor Information Document (KIID), Articles of Incorporation, audited Annual Report, unaudited Semi-annual Report and a Statement of changes in the investment portfolio for each fund for the year ended 31 December 2022 are made available free of charge at the registered office of CIF or at the authorised representatives of CIF in various jurisdictions in accordance with Luxembourg law and with the laws of all relevant jurisdictions – see Authorised Agents and Country Paying Agents on pages 589 and 590. In addition, for investors in the Federal Republic of Germany, the above documents may be obtained free of charge in paper form from the German paying and information agent.

The net asset value per share can be obtained from the registered office of CIF. In addition, information about the funds is available on the Management Company's webpage at capitalgroup.com/international.

Presentation of results information

■ Pre-merger funds

Some of the funds are a consequence of the merger of pre-existing SICAVs into Capital International Fund. For these funds, lifetime results relate to the pre-existing SICAVs.

The Investment Adviser disclosure

The Investment Adviser and Affiliates (the “Affiliates”) will place trades with brokers who provide certain brokerage and/or investment research services to the Affiliates, but only when in the Affiliates judgement the broker is capable of providing best execution for that transaction. For the year ended 31 December 2022, there were no transactions through connected brokers and hence no commissions were paid to connected brokers since none of the Affiliates operate any brokerage activity. These services permit the Affiliates to supplement their own research and analysis, which contributes to the efficient management of investment portfolios by Affiliates for the benefit of investors. Although Affiliates may enter into arrangements with brokers with the expectation that these services will be provided, Affiliates do not incur any obligation with any broker to pay for research by generating trading commissions. Affiliates also pay cash for certain third-party research they receive. In addition, Affiliates' employees are governed by a global Code of Ethics, which includes rigorous personal investing and gifts and entertainment policies. Affiliates may also provide the Company with other services to support its business development, including, but not limited to, product development, fund registration and any other similar support as may be required, for which they receive a reasonable compensation.

Audit report

To the Shareholders of
CAPITAL INTERNATIONAL FUND

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of CAPITAL INTERNATIONAL FUND (the "Fund") and of each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets as at 31 December 2022;
- the schedule of investments as at 31 December 2022;
- the combined statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réditeur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Additional information for investors in the Federal Republic of Germany

J.P. Morgan SE (until 22 January 2022: J.P. Morgan Bank A.G.) (Germany), TaunusTurm, Taunustor 1, D-60310 Frankfurt am Main, has undertaken the function of Paying and Information Agent for the Company in the Federal Republic of Germany (the "German Paying and Information Agent").

Applications for the redemptions and conversion of shares may be sent to the German Paying and Information Agent.

All payments to investors, including redemption proceeds and potential distributions, may, upon request, be paid through the German Paying and Information Agent.

The prospectus, the key investor information documents (KIID), the Articles of Incorporation of the Company and the annual and semi-annual reports may be obtained, free of charge, in hardcopy form at the office of the German Paying and Information Agent during normal opening hours. The statement of changes in the composition of the investment portfolio is also available free of charge in hardcopy form, upon request at the office of the German Paying and Information Agent. The German translation of the Annual Report is also available on the Management Company's webpage at capitalgroup.com/international.

Issue, redemption, and conversion prices of shares, and any other information to the shareholders, are also available from the German Paying and Information Agent.

The issue, redemption and conversion prices will be published on the website www.fundinfo.com.

The Preliminary Lump Sum tax figures for the current year may be found on the German Tax Center of the Management Company's webpage at capitalgroup.com/international.

Any other information to the shareholders will be sent to the shareholders by mail.

Appendix 1: Remuneration related information

The Management Company (“Capital International Management Company Sàrl”) has implemented a Remuneration Policy that is designed not to encourage taking excessive risks.

The details of the up-to-date Management Company remuneration policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, are available on the website https://www.capitalgroup.com/eu/remuneration_policy.

A paper copy of the remuneration policy will be made available free of charge upon request.

As per UCITS V Directive as regards depositary functions, remuneration policies and sanctions, it is confirmed that:

- the remuneration policy is consistent with and promotes sound and effective risk management and does not encourage risk taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the UCITS that the management company manages;
- the remuneration policy is in line with the business strategy, objectives, values and interests of the Management Company and the UCITS that it manages and of the Shareholders in such UCITS, and includes measures to avoid conflicts of interest;
- the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the Shareholders of the UCITS managed by the management company in order to ensure that the assessment process is based on the longer-term performance of the UCITS and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
- fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component.

The Management Company paid a total of EUR 3.8m to 28 beneficiaries during the period ending 31 December 2022. This figure is comprised of fixed remuneration of 2.9m and variable remuneration of 1m *. The total amount paid to senior management was 1.4m and to other members having a material impact on the risk profile of the fund was 0.8m.

The Management Company has contractual delegation arrangements in place with Capital International Sàrl (CISA) and Capital Research and Management Company (CRMC) regarding the accomplishment of portfolio management activities. CISA and CRMC comply with their applicable remuneration regime and apply the same principles as the Management Company.

As remuneration for above mentioned delegations, the Management Company paid EUR 0.6m to CISA and CRMC which was included in the compensation and benefits of 1 beneficiary having a material impact on the risk profile of the fund during the year ending 31 December 2022. This figure is comprised of fixed remuneration of EUR 0.3m and variable remuneration of EUR 0.1m*.

Fixed remuneration consists of salaries paid, pension contributions and other benefits such as health insurance. Variable remuneration consists of annual bonuses paid in the period in accordance with remuneration policy. For staff that perform roles for other group companies, only the proportion of remuneration that is attributable to the Management Company or the UCITS funds it manages is included in these amounts.

*Figures may not add up to the total due to overhead costs.

Appendix 2: Securities Financing Transactions Regulation (SFTR) disclosure

The Sub-Funds may enter into securities lending transactions subject to the same rules regarding collateral as derivatives where relevant in accordance with the ESMA Guidelines 2014/937.

For each securities lending transaction and subject to a commitment that the equivalent securities will be returned on a future date or when requested to do so, the counterparty must provide cash in USD, EUR or JPY currency or cash equivalents, such as US Treasury securities as Collateral in an amount at least equivalent, at all times during the lifetime of the transactions, to the full current value of the securities lent. US Treasury securities generally have a maturity between one day and one year.

SECURITIES LENDING

Global Data

Amount of securities on loan and amount of assets engaged in securities lending transactions

The following table represents the total value of assets engaged in securities lending as at the year end date. The total value of securities on loan as a proportion of the Funds' total lendable assets as at the year end date is also detailed below. Total lendable assets represents the aggregate value of asset types forming part of the Funds' securities lending programme.

Sub-Fund	Fund Currency	Market Value of Securities on Loan (in Sub-Fund Currency) *	% of Total Lendable Assets	% Total Net Asset Value *
Capital Group New Perspective Fund (LUX)	USD	154,196,401	1.27	1.19
Capital Group World Growth and Income (LUX)	USD	4,468,399	1.73	1.65
Capital Group New Economy Fund (LUX)	USD	1,212,506	0.32	0.29
Capital Group New World Fund (LUX)	USD	291,689	0.07	0.07
Capital Group Emerging Markets Growth Fund (LUX)	USD	1,372,148	0.42	0.40
Capital Group Asian Horizon Fund (LUX)	USD	97,131	0.26	0.24
Capital Group Japan Equity Fund (LUX)	JPY	36,592,343	0.38	0.36
Capital Group European Growth and Income Fund (LUX)	EUR	525,358	0.36	0.34
Capital Group AMCAP Fund (LUX)	USD	281,134	0.26	0.24
Capital Group Investment Company of America (LUX)	USD	2,928,105	0.86	0.81
Capital Group Capital Income Builder (LUX)	USD	5,572,603	1.29	1.14
Capital Group Global Allocation Fund (LUX)	USD	9,996,472	0.70	0.63
Capital Group American Balanced Fund (LUX)	USD	1,902,640	1.26	0.99
Capital Group Emerging Markets Total Opportunities (LUX)	USD	135,960	0.03	0.02

* Total lendable assets excludes cash and cash equivalents. It also excludes other monetary amounts such as net debtors and creditors which are not deemed "lendable assets".

Concentration Data

Ten largest collateral issuers

The following table lists the ten largest issuers by value of non-cash collateral received by the Sub-Funds across securities lending transactions as at the year end date:

Sub-Fund	Fund Currency	Issuer	Non-Cash Collateral (in Fund Currency)
Capital Group New Perspective Fund (LUX)	USD	US Treasury	169,213,642
Capital Group World Growth and Income (LUX)	USD	US Treasury	4,878,986
Capital Group New Economy Fund (LUX)	USD	US Treasury	1,347,577
Capital Group New World Fund (LUX)	USD	US Treasury	326,618
Capital Group Emerging Markets Growth Fund (LUX)	USD	US Treasury	1,495,659
Capital Group Asian Horizon Fund (LUX)	USD	US Treasury	105,874
Capital Group Japan Equity Fund (LUX)	JPY	US Treasury	39,886,102
Capital Group European Growth and Income Fund (LUX)	EUR	US Treasury	604,647
Capital Group AMCAP Fund (LUX)	USD	US Treasury	323,564
Capital Group Investment Company of America (LUX)	USD	US Treasury	3,191,670
Capital Group Capital Income Builder (LUX)	USD	US Treasury	6,074,205
Capital Group Global Allocation Fund (LUX)	USD	US Treasury	10,896,276
Capital Group American Balanced Fund (LUX)	USD	US Treasury	2,085,396
Capital Group Emerging Markets Total Opportunities (LUX)	USD	US Treasury	148,199

Top ten counterparties

J.P. Morgan S.E. is the only counterparty in respect of securities lending transactions as at the year end date:

Aggregate Transaction Data

Type and quality of non-cash collateral

Collaterals received by each Sub-Fund in respect of securities lending as at the year end date are in the form of government debt securities having investment grade credit rating.

Capital Group Emerging Markets Total Opportunities (LUX)	USD	148,199	148,199

Maturity tenor of securities lending transactions

All securities on loan can be recalled at any point and therefore have a maturity tenor of one day.

Country in which counterparties are established

J.P. Morgan S.E. was incorporated in Luxembourg.

Settlement and clearing

The Company's securities lending transactions, including related collateral, are settled and cleared on a tri-party basis.

Reuse of collateral

Non-cash collateral received by a Fund may not be sold, re-invested or pledged. As the collateral in receipt for securities lending is entirely in the form of securities, there is no reuse of securities lending collateral.

Safekeeping of collateral

Collateral received

J.P. Morgan S.E., as securities lending agent of the Company, is responsible for the safekeeping of the collateral received in respect of securities lending transactions as at the reporting date. The Custodian J.P. Morgan S.E. is ultimately liable for any loss of instruments held in custody or by a third party to whom custody had been delegated (the sub-custody).

Collateral granted

No collateral is granted by the Company as part of their securities lending activities.

Return and cost

The total income earned from securities lending transactions is split between the relevant Sub-Funds and the securities lending agent. Income earned during the year by the Sub-Funds from securities lending transactions is disclosed in the statement of operations and changes in net assets and changes in net assets on pages 468 to 477.

Appendix 3: Sustainable Finance Disclosure Regulation (SFDR) disclosure

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Capital Group New Economy Fund (LUX)
Legal entity identifier: 5493005TAI2AYOJ2IZ71

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

● ● Yes

- It made **sustainable investments with an environmental objective:** ___%
 - in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective:** ___%

● ● ✗ No

- It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
 - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted, among other characteristics, environmental and social characteristics, provided that the companies in which investments were made follow good governance practices.

The binding environmental and/or social characteristics promoted by the Fund were as follows:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Carbon constraint. The Fund aimed to manage a carbon footprint (Weighted Average Carbon Intensity) for its investments in corporate issuers that was at least 30% lower than MSCI ACWI index. The selected index was representative of the investment universe of the Fund. While this Fund was actively managed and without any reference or constraints to a reference index concerning the composition of the portfolio of the Fund (within the limits of the relevant specific investment objective and policy), the Fund was using this index to monitor the investment's carbon emission. The Investment Adviser relied on third party data to carry out ongoing monitoring of WACI at the Fund level, and might reduce or eliminate exposures to certain companies as necessary.

The WACI was the metric used to report the Fund's carbon emissions. It helped show the carbon footprint of the portfolio compared to the index, as well as understand the attribution of emissions results, and was based on Scope 1 and 2 emissions:

- Scope 1: direct emissions from the investee company's facilities;
- Scope 2: indirect emissions linked to the investee company's energy consumption.

Exclusion policy. The Investment Adviser identified certain issuers or groups of issuers that it should exclude from the portfolio to promote the environmental or social characteristics supported by the Fund. The Investment Adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate issuers, with respect to certain sectors such as tobacco, fossil fuel (thermal coal, oil & gas upstream producers) and weapons, as well as companies violating the United Nations Global Compact principles.

To support this screening, the Investment Adviser relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that were inconsistent with the values and norms-based screens. In this way, third party provider data was used to support the application of ESG and norms-based screening by the Investment Adviser. In the event that exclusions could not be verified through the third party provider(s), the Investment Adviser aimed to identify business involvement activities through its own assessment.

These elements were subject to ongoing compliance monitoring throughout the period.

Good governance practices were evaluated as part of the Investment Adviser's ESG integration process. Such practices were assessed through a monitoring process. Where relevant, fundamental analysis of a range of governance metrics that cover areas such as auditing practices, board composition and executive compensation, among others, was also conducted. The Investment Adviser also engaged in regular dialogue with companies on corporate governance issues and exercised its proxy voting rights for the entities in which the Fund invests. Capital Group expects companies to recognize the need for constructive relationships with those stakeholders that are most important to the company's specific business – whether it is the workforce, customers, regulators and policymakers, or others in the communities and the environment in which the company operates. Companies that understand how stakeholders relationships affect their reputation can be better equipped to create long-term value. Transparency and accountability are key. Capital Group expects companies to disclose data and insights on

areas of stakeholder focus, including aspirational goals, quantitative targets and strategy setting. Capital Group also expects the board to set the tone at the top and provide effective independent oversight.

Capital Group's ESG Policy Statement provides additional detail on Capital Group's ESG philosophy, integration, governance, support and processes, including proxy voting procedures and principles, as well as views on specific ESG issues, including ethical conduct, disclosures and corporate governance. Information on Capital Group's corporate governance principles can be found in its Proxy Voting Procedures and Principles as well as in the ESG Policy Statement.

● ***How did the sustainability indicators perform?***

When the Fund converted to Article 8 status on 30th June 2022, it adopted both an exclusion policy and a carbon constraint. Since the conversion, on average the Weighted Average Carbon Intensity (WACI) of the Fund has been 58% below the index (based on monthly data), compared to the minimum target of 30% below. The reference index is the MSCI AC World.

During the time since conversion to Article 8 status, and the implementation of an exclusion policy, there have been no breaches of that exclusion policy.

● ***...and compared to previous periods?***

Not applicable.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This Fund considered the following principal adverse impacts (PAIs) on sustainability factors:

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- Principal Adverse Impact 1 on greenhouse gas emissions.
- Principal Adverse Impact 4 on exposure to companies active in the fossil fuel sector.
- Principal Adverse Impact 10 on United Nations Global Compact violators.
- Principal Adverse Impact 14 on controversial weapons.

The above-listed principal adverse impacts on sustainability factors were considered as follows:

- In considering Principal Adverse Impact 1 on greenhouse gas emissions, the Investment Adviser monitored the Scope 1 and 2 GHG Emissions of the Fund, in addition to managing the fund to a WACI target as outlined above. Data on issuer scope 3 emissions is increasingly being made available, supported by enhanced disclosures at the issuer level and improved modelling capabilities at ESG data providers. We are closely monitoring developments; however, due to the nascence of these methodologies, we do not include sovereigns or issuer scope 3 emissions in our GHG calculations. As at 31st December 2022, the data relating to PAI 1 was as below:

Scope 1 GHG emissions (tCO2)	3,361
Scope 2 GHG emissions (tCO2)	2,683
Scope 3 GHG emissions (tCO2)	-
Total GHG emissions (tCO2)	6,044

- In considering the Principal Adverse Impact 4 on exposure to companies active in the fossil fuel sector, Principal Adverse Impact 10 on United Nations Global Compact violators and Principal Adverse Impact 14 on controversial weapons, the Investment Adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate issuers. To support this screening, it relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that were inconsistent with the ESG and norms-based screens.
- Capital Group reviews issuers involved in significant ESG controversies, with a focus on those that may conflict with existing global standards, including guidelines from the United Nations Global Compact and the Organisation for Economic Co-operation and Development (OECD). It is also determined if an issuer has violated these standards and appropriate action to remediate the concerns are taken.
- Capital Group leverages the UN Global Compact and OECD as an overarching framework for corporate and credit issuers and draws on assetclass specific human rights flags in other fixed income asset classes, including sovereigns and structured products. Additionally, Capital Group recognizes that while such issues are critical for all businesses, risks of violation are higher in some industries and geographies. Industry-specific considerations are therefore incorporated into Capital Group's

proprietary sector-specific investment frameworks, allowing analysts to focus additional diligence and engagement where there is greater risk.

Capital International Fund / Capital Group Fund ESG Exclusion Policy can be found in the link below:

https://docs.publifund.com/218_EXCLP/LU0110450813/en_GB

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:
2022

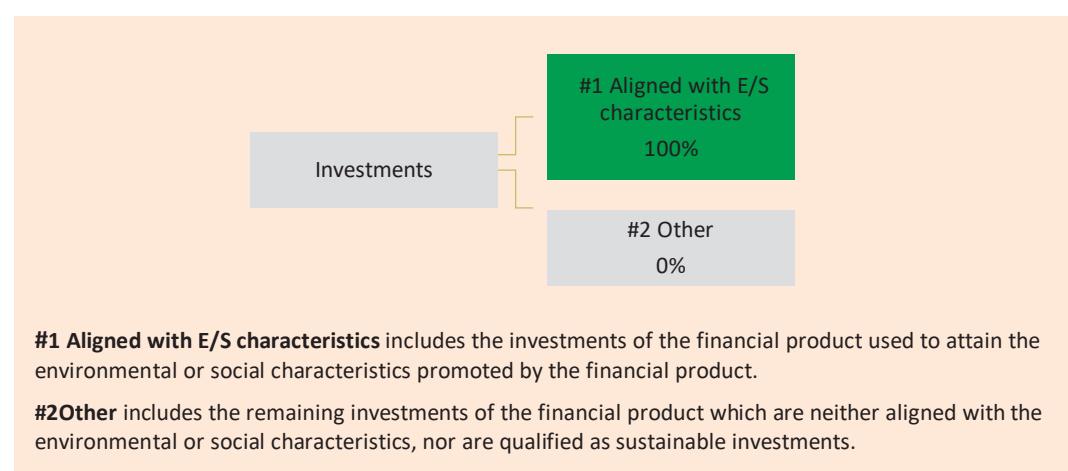

Largest investments	Sector	% Assets	Country
BROADCOM	<i>Information Technology</i>	4.14	<i>United States</i>
MICROSOFT	<i>Information Technology</i>	3.98	<i>United States</i>

What was the proportion of sustainability-related investments?

Not applicable.

What was the asset allocation?

100% of the Fund's investments in transferable securities at the time of purchase were used to attain the environmental or social characteristics promoted by the Fund (being subject to the Investment Adviser's binding exclusion policy and carbon target).

Cash and/or cash equivalents were excluded from the asset allocation above and were not used to attain the environmental or social characteristics promoted by the Fund.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to any percentage of taxonomy alignment, and taxonomy alignment is not part of the investment objective.

- Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

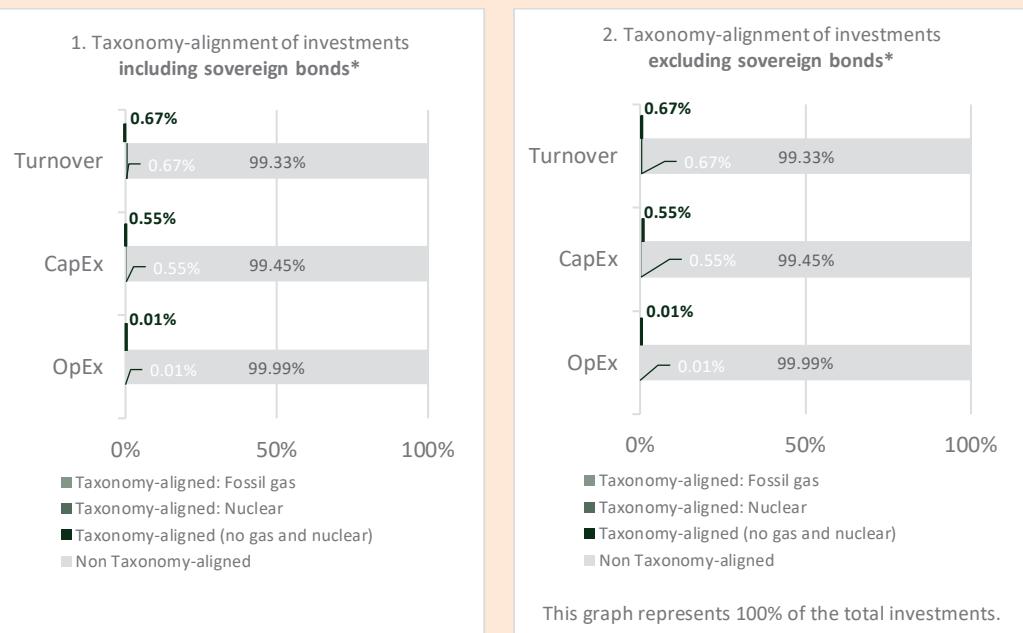

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Total Portfolio

Revenue:

Enabling: 0.59%
Transition: 0.00%

CapEx:

Enabling: 0.38%
Transition: 0.00%

OpEx:

Enabling: 0.01%
Transition: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash and/or cash equivalents, as well as derivatives, were excluded from the asset allocation above and were not used to attain the environmental or social characteristics promoted by the Fund – hence cash & derivatives do not form a part of either the 100% or 0%.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The environmental and/or social characteristics of the Fund are based on the exclusion policy and carbon target that is applied. The Investment Adviser identified certain issuers or groups of issuers that it would exclude from the portfolio to promote the environmental or social characteristics supported by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group’s independent guideline monitoring function.

The Investment Adviser also monitored the WACI of the Fund, compared to its index, on an ongoing basis to ensure the Fund met its target of being 30% below the index.

How did this financial product perform compared to the reference benchmark?

There was no specific index designated as a reference benchmark to determine whether this Fund was aligned with the environmental and/or social characteristics that it promoted.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Capital Group Global Screened Allocation Fund (LUX)
Legal entity identifier: 549300PTPJVFKGS5F15

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

● ● Yes

● ● ✗ No

It made **sustainable investments with an environmental objective:** ___%

✗ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 48.08% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

✗ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

✗ with a social objective
 It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted, among other characteristics, environmental and social characteristics, provided that the companies in which investments were made follow good governance practices.

The binding environmental and/or social characteristics promoted by the Fund were as follows:

Exclusion policy. In accordance with the Transition Acceleration Policy (TAP), the Fund did not invest in companies with significant exposure to sectors deemed to be controversial or sensitive, including but not limited to, weapons, tobacco, gambling, energy, electricity production, mining, palm oil and agricultural commodities. Through this negative screening, the Fund seeks to promote various Environmental and social characteristics that are aligned to the philosophy of the TAP.

The TAP, established by Belfius Group, the entities of which are the sole distributors of the Fund, sought to encourage and support businesses in their shift towards more sustainable activities and thereby promoted positive environmental and social effects on people, society and the economy.

The TAP is based on the 10 Principles of the UN Global Compact and includes restrictions on certain sectors and businesses such as tobacco, gambling, weapons, energy, electricity production, mining, palm oil and agricultural commodities. Through the TAP, Belfius also intended to reduce negative effects of its investments by discontinuing or limiting its support of activities Belfius views as non-sustainable. The TAP will be developed further over time, according to regulatory developments, technological breakthroughs, sectoral reorientation, evolving stakeholder expectations, etc. Based on yearly review, new sectors may be added, or rules may be tighten.

These elements were subject to ongoing compliance monitoring throughout the period.

Good governance practices were evaluated as part of the Investment Adviser's ESG integration process. Such practices were assessed through a monitoring process. Where relevant, fundamental analysis of a range of governance metrics that cover areas such as auditing practices, board composition and executive compensation, among others, was also conducted. The Investment Adviser also engaged in regular dialogue with companies on corporate governance issues and exercised its proxy voting rights for the entities in which the Fund invests. Capital Group expects companies to recognize the need for constructive relationships with those stakeholders that are most important to the company's specific business – whether it is the workforce, customers, regulators and policymakers, or others in the communities and the environment in which the company operates. Companies that understand how stakeholders relationships affect their reputation can be better equipped to create long-term value. Transparency and accountability are key. Capital Group expects companies to disclose data and insights on areas of stakeholder focus, including aspirational goals, quantitative targets and strategy setting. Capital Group also expects the board to set the tone at the top and provide effective independent oversight.

Capital Group's ESG Policy Statement provides additional detail on Capital Group's ESG philosophy, integration, governance, support and processes, including proxy voting procedures and principles, as well as views on specific ESG issues, including ethical conduct, disclosures and corporate governance. Information on Capital Group's corporate governance principles can be found in its Proxy Voting Procedures and Principles as well as in the ESG Policy Statement.

● ***How did the sustainability indicators perform?***

Since launch, the Fund has adhered to an exclusion list on the basis of the TAP policy referred to above. This is the primary sustainability indicator and there have been no breaches of the exclusion policy during the reference period.

● ***...and compared to previous periods?***

Not applicable.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Through the minimum proportion of sustainable investments, the Investment Adviser maintained its commitment to invest at least 1% of the Fund's net assets in companies that, in the Investment Adviser's opinion, were addressing social and/or environmental challenges through their current or future products and/or services.

Such companies were assessed based on an alignment of business activities with any one or a combination of themes focused on tackling global social and environmental problems, as outlined by the United Nations Sustainable Development Goals.

Therefore, those investments were made in companies addressing needs such as but not limited to: (i) energy transition; (ii) health & well-being; (iii) sustainable cities & communities; (iv) responsible consumption; (v) clean water & sanitation; (vi) education & information access, and (vii) financial inclusion.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The sustainable investments that the Fund partially made were subject to the Investment Adviser's eligibility process for sustainable investments. Sustainable investments are those whose business activities are positively aligned with any one or a combination of themes focused on tackling global social and environmental challenges, as outlined by the UN SDGs and additional themes as identified by the Investment Adviser. The Investment Adviser's approach to not causing significant harm to any environmental or social sustainable investment objective, including the Principal Adverse Impacts, includes the following:

- Focussing on business alignment to activities that are positively aligned with themes focused on tackling global social and environmental challenges.
- Analysis of corporate issuers exposure to, and management of, potential material ESG risks is a part of our process for determining what is a Sustainable Investment. Many of the risks that we have identified in our fundamental research are also identified as PAIs. We conduct case by case research that will

focus on the most material PAIs and where available, analysing the data that issuers disclose. The data evaluated will vary depending on materiality and disclosure but Scopes 1-3 of GHG emissions and intensity, energy sources and efficiency, hazardous waste emissions, and board diversity are assessed where possible and material. Currently disclosure on some PAIs is very low, including unadjusted gender pay gaps, emissions to water, and activities affecting biodiversity. In cases where we view these as a material risk we use a best efforts approach to assess data that can be used as a proxy, such as water withdrawal rates, controversy reviews and overall commitments to diversity, equity and inclusion in the workforce. Our assessment will include an overall qualitative assessment of how ESG risks are being managed.

- Negative screens on companies that fail UNGC Global Compact Principles. These are companies that systematically or seriously violate one or more of the UN Global Compact principles, as identified by a 3rd party. The areas to determine whether an issuer complies with the UNGC Global Compact Principles include human rights, labour, the environment and anticorruption.
- In addition to the assessment of sustainable investments, the Fund excludes companies active in controversial or unconventional weapons (cluster munitions, anti-personnel mines, chemical and biological weapons, depleted uranium and nuclear weapons). The Fund also excludes issuers that derive revenues above certain thresholds from activities related to tobacco, conventional weapons, thermal coal, oil and gas extraction. A detailed list of all companies that are excluded is available at <https://www.belfius.be/about-us/dam/corporate/corporate-social-responsibility/documents/policies-and-charters/en/TAP-Policy-EN.pdf>.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

This Fund considered the following principal adverse impacts (PAIs) on sustainability factors:

- Principal Adverse Impact 4 on exposure to companies active in the fossil fuel sector.
- Principal Adverse Impact 10 on United Nations Global Compact violators.
- Principal Adverse Impact 14 on controversial weapons.

The above-listed principal adverse impacts on sustainability factors were considered as follows:

- PAI 4 on exposure to companies active in the fossil fuel sector. The TAP states that conventional oil and gas products are key to the transition to a low carbon economy. They must, however, reduce energy related emissions in line with international climate targets in order to have a place in a socially responsible portfolio and – at least partially – make a shift towards renewable energy production. Companies active in the conventional oil & gas extraction sector are excluded if the revenue they generate from natural gas or renewable energy sources is less than 40%. In addition, companies deriving 10% or more of their revenues from thermal coal extraction or unconventional oil & gas extraction (shale gas, tar sands, arctic drilling) were excluded from the portfolio, as were any companies with expansion plans relating to these industries.
- Capital Group reviews issuers involved in significant ESG controversies, with a focus on those that may conflict with existing global standards, including guidelines from the United Nations Global Compact and the Organisation for Economic Co-operation and Development (OECD). It is also determined if an issuer has violated these standards and appropriate action to remediate the concerns are taken.
- Capital Group leverages the UN Global Compact and OECD as an overarching framework for corporate and credit issuers and draws on asset class specific human rights flags in other fixed income asset classes, including sovereigns and structured products. Additionally, Capital Group recognizes that while such issues are critical for all businesses, risks of violation are higher in some industries and geographies. Industry-specific considerations are therefore incorporated into Capital Group's proprietary sector-specific investment frameworks, allowing analysts to focus additional diligence and engagement where there is greater risk.
- The TAP criteria specifically addresses the issue of support for companies that systematically or seriously violate one or more of the UN Global Compact principles. The TAP states that Corporate Sustainability starts with a company's value system and a principles-based approach to doing business. This means operating in ways that, as a minimum, meet fundamental responsibilities in the areas of human rights, labour, the environment and anticorruption. The exclusion of companies that do not respect these principles, and therefore violate the UN Global Compact (PAI 10), are excluded from the portfolio.

- The Fund did not invest in companies with significant exposure to sectors deemed to be controversial or sensitive, including but not limited to, weapons, tobacco and gambling, in accordance with the TAP established by Belfius Group, the entities of which are the sole Distributors of the financial product. The exclusion of companies active in controversial or unconventional weapons aligns with Principal Adverse Impact 14 on Controversial Weapons.
- More generally, the TAP sought to encourage and support businesses in their shift towards more sustainable activities and thereby promote positive environmental and social effects on people, society and the economy. The TAP is based on the 10 Principles of the UN Global Compact and includes restrictions on certain sectors and businesses.
- Through the TAP, Belfius also intended to reduce negative effects of its investments by discontinuing or limiting its support of activities Belfius views as non-sustainable. The TAP will be developed further over time, according to regulatory developments, technological breakthroughs, sectoral reorientation, evolving stakeholder expectations, etc. Based on a yearly review, new sectors may be added, or rules may be tighten.

The TAP policy can be found in the link below:

<https://www.belfius.be/about-us/dam/corporate/corporate-social-responsibility/documents/policies-and-charters/en/TAP-Policy-EN.pdf>

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:
2022

Largest investments	Sector	% Assets	Country

What was the proportion of sustainability-related investments?

The total proportion of 'Sustainable Investments' was 48.08%.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

100% of the Fund's investments in transferable securities at the time of purchase were used to attain the environmental or social characteristics promoted by the Fund (being subject to the Investment Adviser's binding exclusion policy and carbon target).

Cash and/or cash equivalents, as well as derivatives, were excluded from the asset allocation above and were not used to attain the environmental or social characteristics promoted by the Fund.

As at 31st December 2022, the total proportion of the Fund invested in sustainable investments with an environmental objective in economic activities that did not qualify as environmentally sustainable under the EU Taxonomy and/or with a social objective, was 48.08%.

Cash and/or cash equivalents, as well as derivatives, were excluded from the asset allocation above and were not used to attain the environmental or social characteristics promoted by the Fund.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to any percentage of taxonomy alignment, and taxonomy alignment is not part of the investment objective.

- Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

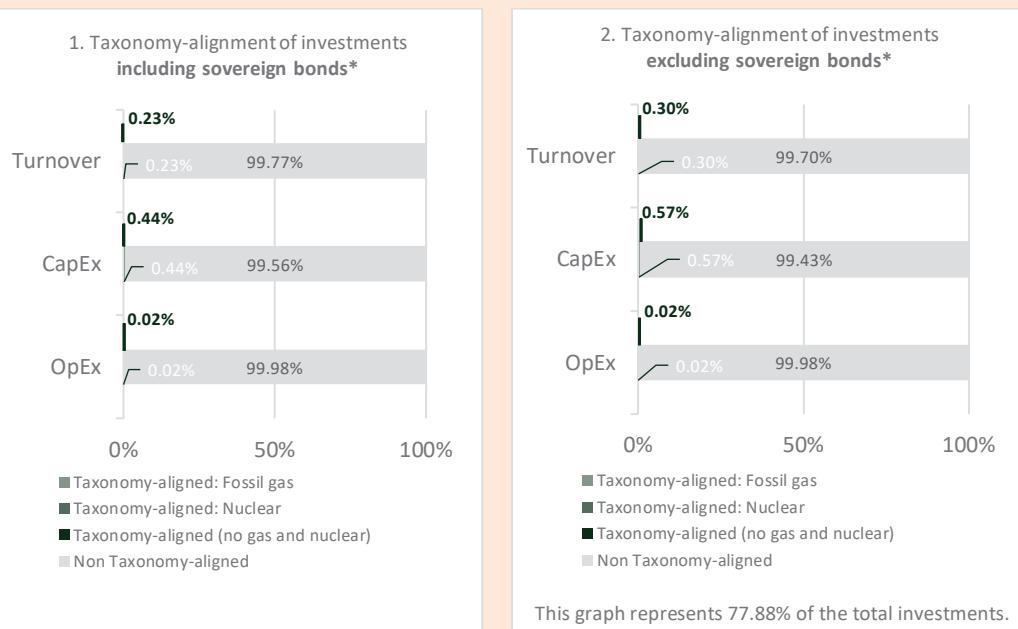

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Total Portfolio

Revenue:

Enabling: 0.18%
Transition: 0.00%

CapEx:

Enabling: 0.02%
Transition: 0.00%

OpEx:

Enabling: 0.02%
Transition: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The total share of sustainable investment with an environmental objective not aligned to the EU Taxonomy was 5.84%.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 42.24%.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash and/or cash equivalents, as well as derivatives, were excluded from the asset allocation above and were not used to attain the environmental or social characteristics promoted by the Fund – hence cash & derivatives do not form a part of either the 100% or 0%.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The environmental and/or social characteristics of the Fund are based on the exclusion list for the Fund, which is derived from the TAP policy. The Investment Adviser identified certain issuers or groups of issuers that it would exclude from the portfolio to promote the environmental or social characteristics supported by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group's independent guideline monitoring function.

How did this financial product perform compared to the reference benchmark?

There was no specific index designated as a reference benchmark to determine whether this Fund was aligned with the environmental and/or social characteristics that it promoted.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Capital Group Global High Income Opportunities (LUX)
Legal entity identifier: 5493003T9JGEHH5RHV09

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

● ● Yes

- It made sustainable investments with an environmental objective: ___%
 - in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

- It made sustainable investments with a social objective: ___%

● ● ✗ No

- It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
 - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective

- It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted, among other characteristics, environmental and social characteristics, provided that the companies in which investments were made follow good governance practices.

The binding environmental and/or social characteristics promoted by the Fund were the following:

Carbon constraint. The Fund aimed to manage a carbon footprint (weighted average intensity) for its investments in corporate issuers that was at least 30% lower than 50% Bloomberg US Corp HY 2% Issuer Capped Total Return, 20% JPM EMBI Global Total Return, 20% JPM GBI-EM Global Diversified Total Return, 10% JPM CEMBI Broad Diversified Total Return indexes. The selected indexes were representative of the investment universe of the Fund. This did not apply to sovereign issuers. While this Fund was actively managed and without any reference or constraints to a reference index concerning the composition of the portfolio of the Fund (within the limits of the relevant specific investment objective and policy), the Fund was using these indexes to monitor the investment's carbon emission. The Investment Adviser relied on third party data to carry out ongoing monitoring of WACI at the Fund level and might reduce or eliminate exposures to certain companies as necessary.

The WACI was the metric used to report the Fund's carbon emissions. It helped show the carbon footprint of the portfolio compared to the index, as well as understand the attribution of emissions results, and was based on Scope 1 and 2 emissions:

- Scope 1: direct emissions from the investee company's facilities;
- Scope 2: indirect emissions linked to the investee company's energy consumption.

Exclusion policy. The Investment Adviser identified certain issuers or groups of issuers that it should exclude from the portfolio to promote the environmental or social characteristics supported by the Fund. The Investment Adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate and sovereign issuers with respect to certain sectors such as tobacco, fossil fuel (thermal coal, oil & gas upstream producers) and weapons, as well as companies violating the United Nations Global Compact principles.

To support this screening, for sovereign issuers, the Investment Adviser relied on the use of proprietary research. The Investment Adviser leveraged data from third party institutions to calculate ESG scores across the entire sovereign universe. This assessment highlighted indicators related to vulnerability to climate change, dimensions of human development, and various measures of governance. Data for each issuer was analysed to compute composite sovereign ESG performance scores. Sovereign issuers that were considered to be poor performing outliers were excluded from the Fund's investment universe.

For corporate issuers, the Investment Adviser relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that were inconsistent with the values and norms-based screens. In this way, third party provider data was used to support the application of ESG and norms-based screening by the Investment Adviser. In the event that exclusions could not be verified through the third party provider(s), the Investment Adviser aimed to identify business involvement activities through its own assessment.

These elements were subject to ongoing compliance monitoring throughout the period.

Good governance practices were evaluated as part of the Investment Adviser's ESG integration process. Such practices were assessed through a monitoring process. Where relevant, fundamental analysis of a range of governance metrics that cover areas such as auditing practices, board composition and executive compensation, among others, was also conducted. The Investment Adviser also engaged in regular dialogue with companies on corporate governance issues and exercised its proxy voting rights for the entities in which the Fund invests. Capital Group expects companies to recognize the need for constructive relationships with those stakeholders that are most important to the company's specific business – whether it is the workforce, customers, regulators and policymakers, or others in the communities and the environment in which the company operates. Companies that understand how stakeholders relationships affect their reputation can be better equipped to create long-term value. Transparency and accountability are key. Capital Group expects companies to disclose data and insights on areas of stakeholder focus, including aspirational goals, quantitative targets and strategy setting. Capital Group also expects the board to set the tone at the top and provide effective independent oversight.

Capital Group's ESG Policy Statement provides additional detail on Capital Group's ESG philosophy, integration, governance, support and processes, including proxy voting procedures and principles, as well as views on specific ESG issues, including ethical conduct, disclosures and corporate governance. Information on Capital Group's corporate governance principles can be found in its Proxy Voting Procedures and Principles as well as in the ESG Policy Statement.

● ***How did the sustainability indicators perform?***

When the Fund converted to Article 8 status on 30th June 2022, it adopted both an exclusion policy and a carbon constraint. Since the conversion, on average the Weighted Average Carbon Intensity (WACI) of the Fund has been 41.9% below the index (based on monthly data), compared to the minimum target of 30% below. The reference index is 50% Bloomberg US Corporate High Yield 2% Issuer Capped Total Return, 20% JPMorgan EMBI Global Total Return, 20% JPM GBI-EM Global Diversified Total Return and 10% JPM CEMBI Broad Diversified Total Return.

During the time since conversion to Article 8 status, and the implementation of an exclusion policy, there have been no breaches of that exclusion policy.

● ***...and compared to previous periods?***

Not applicable.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This Fund considered the following principal adverse impacts (PAIs) on sustainability factors:

- Principal Adverse Impact 1 on greenhouse gas emissions.
- Principal Adverse Impact 4 on exposure to companies active in the fossil fuel sector.
- Principal Adverse Impact 10 on United Nations Global Compact violators.
- Principal Adverse Impact 14 on controversial weapons.

The above-listed principal adverse impacts on sustainability factors were considered as follows:

- In considering Principal Adverse Impact 1 on greenhouse gas emissions, the Investment Adviser monitored the Scope 1 and 2 GHG Emissions of the Fund, in addition to managing the fund to a WACI target as outlined above. Data on issuer scope 3 emissions is increasingly being made available, supported by enhanced disclosures at the issuer level and improved modelling capabilities at ESG data providers. We are closely monitoring developments; however, due to the nascence of these methodologies, we do not include sovereigns or issuer scope 3 emissions in our GHG calculations. As at 31st December 2022, the data relating to PAI 1 was as below:

Scope 1 GHG emissions (tCO2)	42,228
Scope 2 GHG emissions (tCO2)	8,683
Scope 3 GHG emissions (tCO2)	-
Total GHG emissions (tCO2)	50,911

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- In considering the Principal Adverse Impact 4 on exposure to companies active in the fossil fuel sector, Principal Adverse Impact 10 on United Nations Global Compact violators and Principal Adverse Impact 14 on controversial weapons, the Investment Adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate issuers. To support this screening, it relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that were inconsistent with the ESG and norms-based screens.
- Capital Group reviews issuers involved in significant ESG controversies, with a focus on those that may conflict with existing global standards, including guidelines from the United Nations Global Compact and the Organisation for Economic Co-operation and Development (OECD). It is also determined if an issuer has violated these standards and appropriate action to remediate the concerns are taken.
- Capital Group leverages the UN Global Compact and OECD as an overarching framework for corporate and credit issuers and draws on assetclass specific human rights flags in other fixed income asset classes, including sovereigns and structured products. Additionally, Capital Group recognizes that while such issues are critical for all businesses, risks of violation are higher in some industries and geographies. Industry-specific considerations are therefore incorporated into Capital Group's proprietary sector-specific investment frameworks, allowing analysts to focus additional diligence and engagement where there is greater risk.

Capital International Fund / Capital Group Fund ESG Exclusion Policy can be found in the link below:

https://docs.publifund.com/218_EXCLP/LU0110450813/en_GB

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:
2022

Largest investments	Sector	% Assets	Country

REPUBLIC OF COLOMBIA BOND FIXED 5.75% 03/NOV/2027	Government & Agency	0.72	Colombia

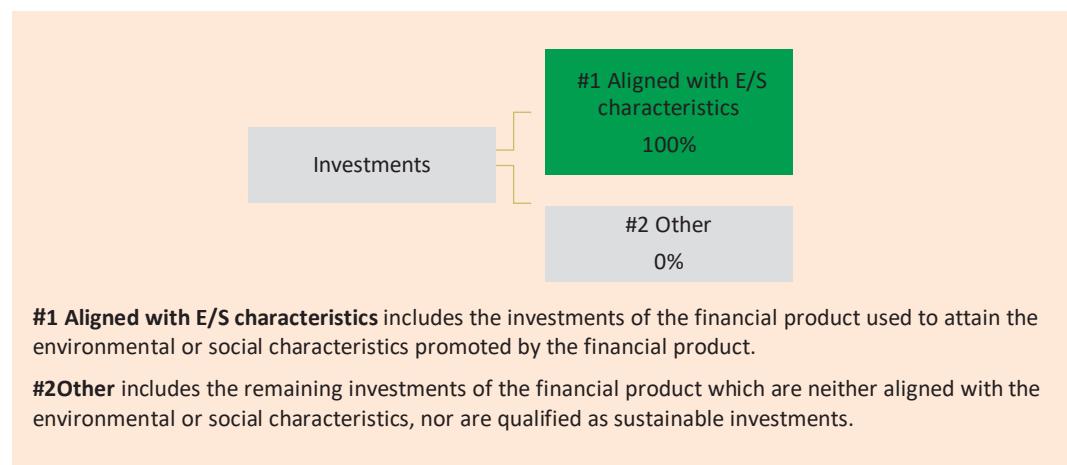

What was the proportion of sustainability-related investments?

Not applicable.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

100% of the Fund's investments in transferable securities at the time of purchase were used to attain the environmental or social characteristics promoted by the Fund (being subject to the Investment Adviser's binding exclusion policy and carbon target).

Cash and/or cash equivalents, as well as derivatives, were excluded from the asset allocation above and were not used to attain the environmental or social characteristics promoted by the Fund.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to any percentage of taxonomy alignment, and taxonomy alignment is not part of the investment objective.

- Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

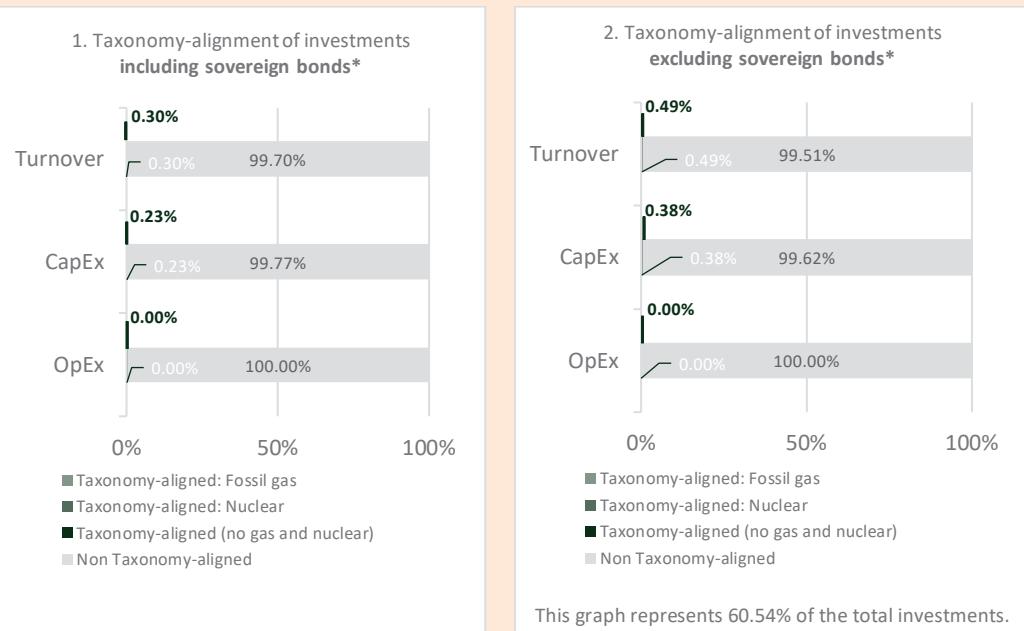

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. Transition: 0.00%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash and/or cash equivalents, as well as derivatives, were excluded from the asset allocation above and were not used to attain the environmental or social characteristics promoted by the Fund” – hence cash & derivatives do not form a part of either the 100% or 0%.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The environmental and/or social characteristics of the Fund are based on the exclusion policy and carbon target that is applied. The Investment Adviser identified certain issuers or groups of issuers that it would exclude from the portfolio to promote the environmental or social characteristics supported by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group’s independent guideline monitoring function.

The Investment Adviser also monitored the WACI of the Fund, compared to its index, on an ongoing basis to ensure the Fund met its target of being 30% below the index.

How did this financial product perform compared to the reference benchmark?

There was no specific index designated as a reference benchmark to determine whether this Fund was aligned with the environmental and/or social characteristics that it promoted.

 **How does the reference benchmark differ from a broad market index?**

Not applicable.

 **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

 **How did this financial product perform compared with the reference benchmark?**

Not applicable.

 **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Capital Group Multi-Sector Income Fund (LUX)
Legal entity identifier: 549300I8XY2G5K7ODX81

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

● ● Yes

- It made sustainable investments with an environmental objective: ___%
 - in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made sustainable investments with a social objective: ___%

● ● ✗ No

- It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
 - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted, among other characteristics, environmental and social characteristics, provided that the companies in which investments were made follow good governance practices.

The binding environmental and/or social characteristics promoted by the Fund were the following:

Carbon constraint. The Fund aimed to manage a carbon footprint (weighted average intensity) for its investments in corporate issuers that was at least 30% lower than 45% Bloomberg U.S. High Yield Index 2% Issuer Cap, 30% Bloomberg U.S. Corporate Index, 15% J.P. Morgan EMBI Global Diversified Index, 8% Bloomberg CMBS Ex AAA Index, 2% Bloomberg ABS Ex AAA indexes. The selected indexes were representative of the investment universe of the Fund. While this Fund was actively managed and without any reference or constraints to a reference index, the Fund was using these indexes to monitor the investment's carbon emission. The Investment Adviser relied on third party data to carry out ongoing monitoring of WACI at the Fund level and might reduce or eliminate exposures to certain companies as necessary.

The WACI was the metric used to report the Fund's carbon emissions. It helped show the carbon footprint of the portfolio compared to the index, as well as understand the attribution of emissions results, and was based on Scope 1 and 2 emissions:

- Scope 1: direct emissions from the investee company's facilities;
- Scope 2: indirect emissions linked to the investee company's energy consumption.

Exclusion policy. The Investment Adviser identified certain issuers or groups of issuers that it should exclude from the portfolio to promote the environmental or social characteristics supported by the Fund. The Investment Adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate and sovereign issuers, with respect to certain sectors such as tobacco, fossil fuel (thermal coal, oil & gas upstream producers) and weapons, as well as companies violating the United Nations Global Compact principles.

To support this screening, for sovereign issuers, the Investment Adviser relied on the use of proprietary research. The Investment Adviser leveraged data from third party institutions to calculate ESG scores across the entire sovereign universe. This assessment highlighted indicators related to vulnerability to climate change, dimensions of human development, and various measures of governance. Data for each issuer was analysed to compute composite sovereign ESG performance scores. Sovereign issuers that were considered to be poor performing outliers were excluded from the Fund's investment universe.

For corporate issuers, the Investment Adviser relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that were inconsistent with the values and norms-based screens. In this way, third party provider data was used to support the application of ESG and norms-based screening by the Investment Adviser. In the event that exclusions could not be verified through the third party provider(s), the Investment Adviser aimed to identify business involvement activities through its own assessment.

These elements were subject to ongoing compliance monitoring throughout the period.

Good governance practices were evaluated as part of the Investment Adviser's ESG integration process. Such practices were assessed through a monitoring process. Where relevant, fundamental analysis of a range of governance metrics that cover areas such as auditing practices, board composition and executive compensation, among

others, was also conducted. The Investment Adviser also engaged in regular dialogue with companies on corporate governance issues and exercised its proxy voting rights for the entities in which the Fund invests. Capital Group expects companies to recognize the need for constructive relationships with those stakeholders that are most important to the company's specific business – whether it is the workforce, customers, regulators and policymakers, or others in the communities and the environment in which the company operates. Companies that understand how stakeholders relationships affect their reputation can be better equipped to create long-term value. Transparency and accountability are key. Capital Group expects companies to disclose data and insights on areas of stakeholder focus, including aspirational goals, quantitative targets and strategy setting. Capital Group also expects the board to set the tone at the top and provide effective independent oversight.

Capital Group's ESG Policy Statement provides additional detail on Capital Group's ESG philosophy, integration, governance, support and processes, including proxy voting procedures and principles, as well as views on specific ESG issues, including ethical conduct, disclosures and corporate governance. Information on Capital Group's corporate governance principles can be found in its Proxy Voting Procedures and Principles as well as in the ESG Policy Statement.

● ***How did the sustainability indicators perform?***

When the Fund launched and adopted Article 8 status on 29th November 2022, it adopted both an exclusion policy and a carbon constraint. Since the conversion, on average the Weighted Average Carbon Intensity (WACI) of the Fund has been 45.4% below the index (based on monthly data), compared to the minimum target of 30% below. The reference index is 45% Bloomberg U.S. High Yield Index 2% Issuer Cap / 30% Bloomberg U.S. Corporate Index / 15% J.P. Morgan EMBI Global Diversified Index / 8% Bloomberg CMBS Ex AAA Index / 2% Bloomberg ABS Ex AAA index.

During the time since launch, and the implementation of an exclusion policy, there have been no breaches of that exclusion policy.

● ***...and compared to previous periods?***

Not applicable.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This Fund considered the following principal adverse impacts (PAIs) on sustainability factors:

- Principal Adverse Impact 1 on greenhouse gas emissions.
- Principal Adverse Impact 4 on exposure to companies active in the fossil fuel sector.
- Principal Adverse Impact 10 on United Nations Global Compact violators.
- Principal Adverse Impact 14 on controversial weapons.

The above-listed principal adverse impacts on sustainability factors were considered as follows:

- In considering Principal Adverse Impact 1 on greenhouse gas emissions, the Investment Adviser monitored the Scope 1 and 2 GHG Emissions of the Fund, in addition to managing the fund to a WACI target as outlined above. Data on issuer scope 3 emissions is increasingly being made available, supported by enhanced disclosures at the issuer level and improved modelling capabilities at ESG data providers. We are closely monitoring developments; however, due to the nascence of these methodologies, we do not include sovereigns or issuer scope 3 emissions in our GHG calculations. As at 31st December 2022, the data relating to PAI 1 was as below:

Scope 1 GHG emissions (tCO2)	977
Scope 2 GHG emissions (tCO2)	259
Scope 3 GHG emissions (tCO2)	-
Total GHG emissions (tCO2)	1,236

- In considering the Principal Adverse Impact 4 on exposure to companies active in the fossil fuel sector, Principal Adverse Impact 10 on United Nations Global Compact violators and Principal Adverse Impact 14 on controversial weapons, the Investment Adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate issuers. To support this screening, it relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that were inconsistent with the ESG and norms-based screens.

- Capital Group reviews issuers involved in significant ESG controversies, with a focus on those that may conflict with existing global standards, including guidelines from the United Nations Global Compact and the Organisation for Economic Co-operation and Development (OECD). It is also determined if an issuer has violated these standards and appropriate action to remediate the concerns are taken.
- Capital Group leverages the UN Global Compact and OECD as an overarching framework for corporate and credit issuers and draws on assetclass specific human rights flags in other fixed income asset classes, including sovereigns and structured products. Additionally, Capital Group recognizes that while such issues are critical for all businesses, risks of violation are higher in some industries and geographies. Industry-specific considerations are therefore incorporated into Capital Group's proprietary sector-specific investment frameworks, allowing analysts to focus additional diligence and engagement where there is greater risk.

MORGAN STANLEY CALLABLE MEDIUM TERM NOTE VARIABLE	Financials	0.74	United States

What was the proportion of sustainability-related investments?

Not applicable.

● *What was the asset allocation?*

100% of the Fund's investments in transferable securities at the time of purchase were used to attain the environmental or social characteristics promoted by the Fund (being subject to the Investment Adviser's binding exclusion policy and carbon target).

Cash and/or cash equivalents, as well as derivatives, were excluded from the asset allocation above and were not used to attain the environmental or social characteristics promoted by the Fund.

● *In which economic sectors were the investments made?*

Sector Breakdown			% Assets
Cash & Equivalent			11.62
Corporates	Financial Institutions	Banking	8.31
		Brokerage/Asset Managers/Exchanges	2.25
		Finance Companies	1.07
		Financial Other	0.90
		Insurance	4.67
		REITs	0.86
	Industrial	Basic Industry	4.08
		Capital Goods	4.09
		Communications	8.88
		Consumer Cyclical	9.03
		Consumer Non-Cyclical	10.16
		Energy	4.29
		Industrial Other	0.26
		Technology	7.46
		Transportation	1.93

Securitized Total			5.55
Treasuries	Treasuries	Treasuries	1.09
Total			100.00

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to any percentage of taxonomy alignment, and taxonomy alignment is not part of the investment objective.

- Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

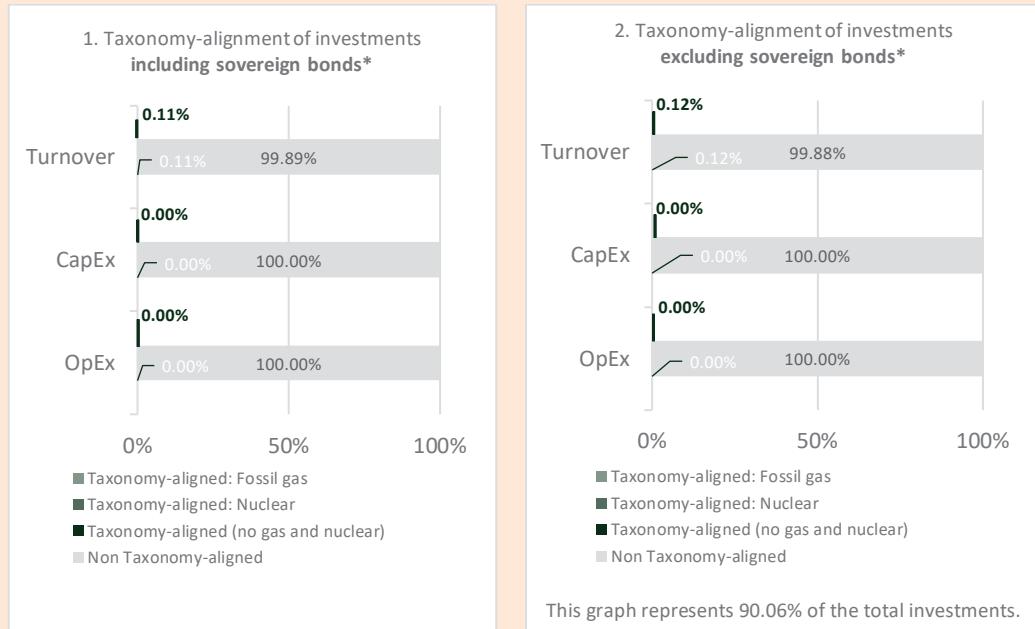

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Total Portfolio

Revenue:

Enabling: 0.02%
Transition: 0.00%

CapEx:

Enabling: 0.00%
Transition: 0.00%

OpEx:

Enabling: 0.00%
Transition: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash and/or cash equivalents, as well as derivatives, were excluded from the asset allocation above and were not used to attain the environmental or social characteristics promoted by the Fund” – hence cash & derivatives do not form a part of either the 100% or 0%.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The environmental and/or social characteristics of the Fund are based on the exclusion policy and carbon target that is applied. The Investment Adviser identified certain issuers or groups of issuers that it would exclude from the portfolio to promote the environmental or social characteristics supported by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group’s independent guideline monitoring function. The Investment Adviser also monitored the WACI of the Fund, compared to its index, on an ongoing basis to ensure the Fund met its target of being 30% below the index.

How did this financial product perform compared to the reference benchmark?

There was no specific index designated as a reference benchmark to determine whether this Fund was aligned with the environmental and/or social characteristics that it promoted.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
