## Type of Company:

VT Sinfonia OEIC (the Company) is an open-ended investment company with variable capital incorporated under the OEIC Regulations. The Company is a UCITS Scheme as defined in COLL and is also an umbrella company for the purposes of the OEIC Regulations. The Company is incorporated in England and Wales with registered number IC000624. The Company was authorised by an order made by the FCA with effect from 09 May 2008 with the Product Reference Number (PRN) 478014.

The Company is structured as an umbrella company, in that different Sub-funds may be established from time to time by the ACD with the approval of the FCA and the agreement of the Depositary. On the introduction of any new Sub-fund, a revised prospectus will be prepared setting out the relevant details of each Sub-fund.

The Company currently has five Sub-funds:

- VT Sinfonia Income Portfolio (PRN: 646095);
- VT Sinfonia Income and Growth Portfolio (PRN: 646096);
- VT Sinfonia Cautious Managed Portfolio (PRN: 646097);
- VT Sinfonia Balanced Managed Portfolio (PRN: 646099); and
- VT Sinfonia Adventurous Growth Portfolio (PRN: 646100).

Shareholders are not liable for the debts of the Company.

#### STATEMENT OF THE AUTHORISED CORPORATE DIRECTOR'S (ACD's) RESPONSIBILITIES

The rules of the Financial Conduct Authority's Collective Investment Schemes Sourcebook require the Authorised Corporate Director to prepare financial statements for each accounting period which give a true and fair view of the financial position of the Company at the end of the financial period and its net revenue and net capital gains for the period. In preparing these financial statements the Authorised Corporate Director is required to:

- > comply with the Prospectus, the Statement of Recommended Practice for Authorised Funds issued by the Investment Association in May 2014, the Instrument of Incorporation, generally accepted accounting principles and applicable accounting standards, subject to any material departures which are required to be disclosed and explained in the financial statements.
- > select suitable accounting policies and then apply them consistently.
- > make judgements and estimates that are reasonable and prudent.
- > prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in operation for the foreseeable future.

The Authorised Corporate Director is required to keep proper accounting records and to manage the Company in accordance with the COLL regulations, the Instrument of Incorporation, and the Prospectus. The Authorised Corporate Director is responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### **DIRECTOR'S STATEMENT**

In accordance with the requirements of the Financial Conduct Authority's Collective Investment Scheme's Sourcebook, we hereby certify the interim report.

David E. Smith CA

Valu-Trac Investment Management Limited Authorised Corporate Director

Date 29 May 2023

#### SUB-FUND OVERVIEW

Name of Sub-fund VT Sinfonia Income Portfolio

Size of Sub-fund (£'000) £5,214

policy

Investment objective and The Sub-fund aims to provide returns over the long term (5 years) by a combination of both income generation as well as some capital growth.

> The Sub-fund's investment objective will be achieved by investing in a diversified portfolio of equities, fixed interest securities, warrants and money market instruments primarily (at least 70%) through investment in a portfolio of collective investment schemes (which may include those managed and/or advised by the ACD or Investment Manager). The Sub-fund will typically be invested in a global portfolio of assets with a focus on UK assets.

> Normally, the Sub-fund will be fully invested except for an amount to enable redemption of shares, efficient management of the Sub-Fund in relation to its strategic objectives, and other purposes which may be reasonably regarded as ancillary to the investment objectives of the Sub-fund. However, there may be short periods (e.g. in times of market stress) where it is considered appropriate for the scheme property not to be fully invested (and so for higher levels of liquidity to be maintained).

> One measure of risk is the proportion invested in the riskiest assets, such as equities. For this Subfund, over the long-term (5 years), it is expected that the proportion of the Sub-fund exposed to equities will be approximately 25%. In the shorter term, this weighting may be adjusted tactically as economic and market conditions dictate while not deviating by more than ±12.5%.

> The asset classes in which the Sub-fund may also invest includes transferable securities, money market instruments, cash and near cash and deposits as such asset classes.

Derivatives

The Sub-fund is permitted to invest in derivative instruments and forward transactions for investment purposes, however, it is the Investment Manager's intention that the Sub-Fund shall utilise derivative instruments and forward transactions for hedging purposes using efficient portfolio management techniques (and if this intention is to change the ACD shall provide advance notice to Shareholders).

**Benchmark** 

The Sub-fund is not managed to or constrained by a benchmark, and nor does the ACD use a benchmark in order to assess performance.

However, the performance of the Sub-fund can be compared to that of the ARC Cautious Index.

The performance of the Sub-fund can be compared against that of the index. This index has been selected as it is considered that this index most closely reflects the investments which the Sub-fund will make (and its risk/return objectives) at the current time. For the avoidance of doubt, the Investment Manager is not bound or influenced by the index when making its decisions and can make investments that are not included in the index.

**Authorised Corporate** Director (ACD)

Valu-Trac Investment Management Limited

**Ex-distribution dates** 

30 September (final), 31 December, 31 March and 30 June (interims)

**Distribution dates** 

By 30 November (final), by last day of February, 31 May, 31 August (interims)

Individual Savings Account The Sub-fund is a qualifying investment for inclusion in an ISA.

(ISA)

## **SUB-FUND OVERVIEW (Continued)**

Share classes Class A Income Shares;

Class A Accumulation Shares; Class B Income Shares; Class B Accumulation Shares; Class C Income Shares^; Class C Accumulation Shares^; Class D Income Shares; and Class D Accumulation Shares.

^Share classes are currently not active.

#### **Minimum investment**

Lump sum subscription: All share classes - £1,000

Top-up: All share classes - £1,000

Holding: All share classes - £1,000

Redemption: All share classes - £1,000

Switching: N/A (provided minimum holding is maintained)

Initial charges: Class A Shares - 0.00%

Class B, Class C & Class D Shares - 5.50%

Redemption and switching Nil

charges:

The ACD may waive the minimum levels (and waive or discount the initial charge) at its discretion.

# Annual management

charges Class A Shares - 0.65%

Class B Shares - 1.50% Class C Shares - 2.00% Class D Shares - 1.75%

The above percentages being a percentage of the Net Asset Value of the Sub-fund attributable to the relevant class (plus VAT if applicable).

#### **INVESTMENT MANAGER'S REVIEW**

#### Investment review

Over the six months to 31st March 2023, the fund generated a return of 2.9% (Class A Accumulation). The average return for the ARC Cautious peer group (ARC Private Client Indices) was 3.4%, meaning the fund underperformed by -0.5% over the period.

The fund changes have been driven by the manager's investment outlook. The outlook and reasoning behind the latest changes were guided by our thoughts at the time, described below:

Inflation pressures slowly started to recede, but labour markets remained tight as economic growth cooled over the period and major central banks kept raising interest rates (slower pace than earlier in the cycle) as part of their tightening policy programmes. Lagged effects of past tightening are expected to be another key determinant in the upcoming months. The recent rally in markets eased financial conditions, whilst interest rates are still noticeable at high levels. Currently, the market predicts a soft landing. However, it should be noted that taming inflation has often come at the expense of economic growth. China's reopening is expected to support the global economy, especially the export sensitive regions. Asia is the first in line, followed by Europe; higher commodity prices would have a global impact though, felt, yet again, in inflation. This is less of a problem for regions that have managed to get out of Covid without a rapid rise in prices, most notably China itself and Asia. However, it could disturb expectations of rapid fall in inflation. Overall, equities have repriced in the last few quarters. At the same time, risk premia are still subdued leading once again to extended equity valuations. Coupled with downside risks to earnings, as lagged effects of past policy tightening feed through, the investment committee decided to keep an underweight position across equities over the period. In fixed income, we decided to introduce a small overweight allocation to bonds towards the end of the 6 month period.

#### Fund positioning and changes

In terms of manager changes, we haven't added or removed any funds.

In terms of asset allocation, within the equity allocation, we maintained an underweight to North American equities as valuations remained higher compared to the rest of the global peers and we expected past tightening to likely weigh on earnings. We also continued to hold an overweight position to Emerging Markets. Within the fixed income allocation, we decided to add to our UK inflation linked bond position in October, which we then reduced in November. In February we increased our allocation to fixed income by adding to our US Treasuries position, and specifically the iShares \$ Treasury Bond 20+y ETF.

Tatton Investment Management Limited Investment Manager to the Fund 08 May 2023

- 1. The operating charges per share figure is calculated by applying the operating charges percentage to the average net asset valuation per share throughout the period.
- 2. The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Sub-fund together with the ongoing charges included within the underlying Open Ended Investment Companies held within the Sub-fund's holdings.

#### **Risk Profile**

Based on past data, the Sub-fund is ranked a '4' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Information Document (30 September 2022 ranked '4'). The Sub-fund is ranked '4' because monthly historical performance data indicates that average rises and falls in market prices would have occurred historically.

## **Accounting policies**

The accounting policies applied are consistent with those of the financial statements for the year ended 30 September 2022 and are described in those financial statements.

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments and in accordance with the Statement of Recommended Practice for Financial Statements of Authorised Funds issued by the Investment Association in May 2014 and to the amendments to the SORP issued by the IA in June 2017. The functional currency of the Sub-fund is Sterling.

#### SUB-FUND OVERVIEW

Name of Sub-fund VT Sinfonia Income and Growth Portfolio

Size of Sub-fund (£'000) £19,392

policy

Investment objective and The Sub-fund aims to provide returns over the long term (5 years) by a combination of both capital growth and income generation.

> The Sub-fund's investment objective will be achieved by investing in a diversified portfolio of equities as well as fixed interest securities, warrants and money market instruments primarily (at least 70%) through investment in a portfolio of collective investment schemes (which may include those managed and/or advised by the ACD or Investment Manager). The Sub-fund will typically be invested in a global portfolio of assets with a focus on UK assets.

> Normally, the Sub-fund will be fully invested except for an amount to enable redemption of shares, efficient management of the Sub-fund in relation to its strategic objectives, and other purposes which may be reasonably regarded as ancillary to the investment objectives of the Subfund. However, there may be short periods (e.g. in times of market stress) where it is considered appropriate for the scheme property not to be fully invested (and so for higher levels of liquidity to be maintained).

> One measure of risk is the proportion invested in the riskiest assets, such as equities. For this Sub-fund, over the long-term (5 years), it is expected that the proportion of the Sub-Fund exposed to equities will be approximately 60%. In the shorter term, this weighting may be adjusted tactically as economic and market conditions dictate while not deviating by more than

> The asset classes in which the Sub-fund may also invest includes transferable securities, money market instruments, cash and near cash and deposits.

**Derivatives** 

The Sub-fund is permitted to invest in derivative instruments and forward transactions for investment purposes, however, it is the Investment Manager's intention that the Sub-fund shall utilise derivative instruments and forward transactions for hedging purposes using efficient portfolio management techniques (and if this intention is to change the ACD shall provide advance notice to shareholders).

**Benchmark** 

The Sub-fund is not managed to or constrained by a benchmark, and nor does the ACD use a benchmark in order to assess performance.

However, the performance of the Sub-fund can be compared to that of the ARC Balanced Index.

The performance of the Sub-fund can be compared against that of the index. This index has been selected as it is considered that this index most closely reflects the investments which the Subfund will make (and its risk/return objectives) at the current time. For the avoidance of doubt, the Investment Manager is not bound or influenced by the index when making its decisions and can make investments that are not included in the index.

**Authorised Corporate** Director (ACD)

Valu-Trac Investment Management Limited

**Ex-distribution dates** 

30 September (final), 31 March (interim)

**Distribution dates** 

By 30 November (final), 31 May (interim)

Individual Savings Account The Sub-fund is a qualifying investment for inclusion in an ISA.

Share classes Class A Income Shares;

Class A Accumulation Shares; Class B Income Shares; Class B Accumulation Shares; Class C Income Shares^; Class C Accumulation Shares^; Class D Income Shares; and Class D Accumulation Shares.

^Share classes are currently not active.

#### **Minimum investment**

Lump sum subscription: All share classes - £1,000

Top-up: All share classes - £1,000

Holding: All share classes - £1,000

Redemption: All share classes - £1,000

Switching: N/A (provided minimum holding is maintained)

Initial charges: Class A Shares - 0.00%

Class B, Class C & Class D Shares - 5.50%

Redemption and switching Nil

charges:

The ACD may waive the minimum levels (and waive or discount the initial charge) at its discretion.

# Annual management

charges Class A Shares - 0.65%

Class B Shares - 1.50% Class C Shares - 2.00% Class D Shares - 1.75%

The above percentages being a percentage of the Net Asset Value of the Sub-fund attributable to the relevant Class (plus VAT if applicable).

#### **INVESTMENT MANAGER'S REVIEW**

#### Investment review

Over the six months to 31st March 2023, the fund generated a return of 3.2% (Class A Accumulation). The average return for the ARC Balanced Asset peer group (ARC Private Client Indices) was -4.0%, meaning the fund The fund changes have been driven by the manager's investment outlook. The outlook and reasoning behind the latest changes were guided by our thoughts at the time, described below:

The fund changes have been driven by the manager's investment outlook. The outlook and reasoning behind the latest changes were guided by our thoughts at the time, described below:

Inflation pressures slowly started to recede, but labour markets remained tight as economic growth cooled over the period and major central banks kept raising interest rates (slower pace than earlier in the cycle) as part of their tightening policy programmes. Lagged effects of past tightening are expected to be another key determinant in the upcoming months. The recent rally in markets eased financial conditions, whilst interest rates are still noticeable at high levels. Currently, the market predicts a soft landing. However, it should be noted that taming inflation has often come at the expense of economic growth. China's reopening is expected to support the global economy, especially the export sensitive regions. Asia is the first in line, followed by Europe; higher commodity prices would have a global impact though, felt, yet again, in inflation. This is less of a problem for regions that have managed to get out of Covid without a rapid rise in prices, most notably China itself and Asia. However, it could disturb expectations of rapid fall in inflation. Overall, equities have repriced in the last few quarters. At the same time, risk premia are still subdued leading once again to extended equity valuations. Coupled with downside risks to earnings, as lagged effects of past policy tightening feed through, the investment committee decided to keep an underweight position across equities over the period. In fixed income, we decided to introduce a small overweight allocation to bonds towards the end of the 6 month period.

#### Fund positioning and changes

In terms of manager changes, the active Vanguard Global Credit fund was added to complement Cheyne in the Investment Grade Bond sector. This fund is similar in credit and duration terms to the benchmark and has a strong track record of outperformance.

In terms of asset allocation, within the equity allocation, we maintained an underweight to North American equities as valuations remained higher compared to the rest of the global peers and we expected past tightening to likely weigh on earnings. We also continued to hold an overweight position to Emerging Markets. Within the fixed income allocation, we decided to add to our UK inflation linked bond position in October, which we then reduced in November. In February we increased our allocation to fixed income by adding to our US Treasuries position, and specifically the iShares \$ Treasury Bond 20+y ETF.

Tatton Investment Management Limited Investment Manager to the Fund 08 May 2023

## **PERFORMANCE RECORD (Continued)**

- 1. The operating charges per share figure is calculated by applying the operating charges percentage to the average net asset valuation per share throughout the period.
- 2. The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Sub-fund together with the ongoing charges included within the underlying Open Ended Investment Companies held within the Sub-fund's holdings.

#### **Risk Profile**

Based on past data, the Sub-fund is ranked a '4' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Information Document (30 September 2022 ranked '4'). The Sub-fund is ranked '4' because weekly historical performance data indicates that average rises and falls in market prices would have occurred historically.

# STATEMENT OF CHANGES IN NET ASSETS ATTRIBUTABLE TO SHAREHOLDERS

## For the six month period ended 31 March

	2023 £'000	2022 £'000
Opening net assets attributable to shareholders	20,101	26,758
Amounts receivable on creation of shares	276	577
Amounts payable on cancellation of shares	(1,555)	(3,638)
Accumulation dividends retained	194	178
Changes in net assets attributable to shareholders from investment activities (see above)	376	(192)
Closing net assets attributable to shareholders	19,392	23,683

The Investment Association SORP requires that comparatives are shown for the above report. As comparatives are shown for the comparable interim period the net asset value at the end of the period will not agree to the net asset value at the start of the period. The Sub-funds net asset value as at 30 September 2022 was (£'000) £20,101.

## **Accounting policies**

The accounting policies applied are consistent with those of the financial statements for the year ended 30 September 2022 and are described in those financial statements.

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments and in accordance with the Statement of Recommended Practice for Financial Statements of Authorised Funds issued by the Investment Association in May 2014 and to the amendments to the SORP issued by the IA in June 2017. The functional currency of the Sub-fund is Sterling.

#### SUB-FUND OVERVIEW

Name of Sub-fund

VT Sinfonia Cautious Managed Portfolio

Size of Sub-fund (£'000)

£21,800

# Investment objective and policy

The Sub-fund aims to provide returns over the long term (5 years) by a combination of both capital growth and income generation.

The Sub-fund's investment objective will be achieved by investing in a diversified portfolio of equities as well as fixed interest securities, warrants and money market instruments primarily (at least 70%) through investment in a portfolio of collective investment schemes (which may include those managed and/or advised by the ACD or Investment Manager). The Sub-fund will typically be invested in a global portfolio of assets and may also focus on UK assets.

Normally, the Sub-fund will be fully invested except for an amount to enable redemption of shares, efficient management of the Sub-fund in relation to its strategic objectives, and other purposes which may be reasonably regarded as ancillary to the investment objectives of the Sub-fund. However, there may be short periods (e.g. in times of market stress) where it is considered appropriate for the scheme property not to be fully invested (and so for higher levels of liquidity to be maintained).

One measure of risk is the proportion invested in the riskiest assets, such as equities. The Subfund will be actively managed and the investments will be selected to achieve a mix of higher and lower risk assets. The Sub-fund follows a cautious strategy with a slight preference towards lower risk assets (such as bonds and cash (and collective investment schemes investing in/providing investment exposure to such assets)) over higher risk assets (such as equities (and collective investment schemes investing in/providing investment exposure to such assets)). For this Subfund, over the long-term (5 years), it is expected that the proportion of the Sub-Fund exposed to equities will be approximately 45%. In the shorter term, this weighting may be adjusted tactically as economic and market conditions dictate while not deviating by more than ±12.5%.

The asset classes in which the Sub-fund may also invest includes transferable securities, money market instruments, cash and near cash and deposits.

#### Derivatives

The Sub-fund is permitted to invest in derivative instruments and forward transactions for investment purposes, however, it is the Investment Manager's intention that the Sub-Fund shall utilise derivative instruments and forward transactions for hedging purposes using efficient portfolio management techniques (and if this intention is to change the ACD shall provide advance notice to Shareholders).

## **Benchmark**

The Sub-fund is not managed to or constrained by a benchmark, and nor does the ACD use a benchmark in order to assess performance.

However, the performance of the Sub-fund can be compared to that of the ARC Balanced Index (the "Index").

The performance of the Sub-fund can be compared against that of the Index. This Index has been selected as it is considered that this Index most closely reflects the investments which the Sub-fund will make (and its risk/return objectives) at the current time. For the avoidance of doubt, the Investment Manager is not bound or influenced by the Index when making its decisions and can make investments that are not included in the Index.

# Authorised Corporate Director (ACD)

Valu-Trac Investment Management Limited

## **SUB-FUND OVERVIEW (Continued)**

**Ex-distribution dates** 30 September (final), 31 March (interim)

**Distribution dates** By 30 November (final), 31 May (interim)

Individual Savings Account (ISA) The Sub-fund is a qualifying investment for inclusion in an ISA.

Share classes Class A Accumulation Shares;

Class A Income Shares^; Class B Accumulation Shares; Class B Income Shares; Class C Accumulation Shares^; Class C Income Shares^; Class D Income Shares; and Class D Accumulation Shares.

#### Minimum investment

Lump sum subscription: All share classes - £1,000

Top-up: All share classes - £1,000

Holding: All share classes - £1,000

Redemption: All share classes - £1,000

Switching: N/A (provided minimum holding is maintained)

Initial charges: Class A Shares - 0.00%

Class B, Class C & Class D Shares - 5.50%

Redemption and switching charges:

Nil

The ACD may waive the minimum levels (and waive or discount the initial charge) at its discretion.

**Annual management** 

charges Class A Shares - 0.65%

Class B Shares - 1.50% Class C Shares - 2.00% Class D Shares - 1.75%

The above percentages being a percentage of the Net Asset Value of the Sub-fund attributable to the relevant Class (plus VAT if applicable).

<sup>^</sup>Share classes are currently not active.

#### **INVESTMENT MANAGER'S REVIEW**

#### Investment review

Over the six months to 31st March 2023, the fund generated a return of 2.9% (Class A Accumulation). The average return for the ARC Balanced Asset peer group (ARC Private Client Indices) was 4.0%, meaning the fund underperformed by -1.1% over the period.

The fund changes have been driven by the manager's investment outlook. The outlook and reasoning behind the latest changes were guided by our thoughts at the time, described below:

Inflation pressures slowly started to recede, but labour markets remained tight as economic growth cooled over the period and major central banks kept raising interest rates (slower pace than earlier in the cycle) as part of their tightening policy programmes. Lagged effects of past tightening are expected to be another key determinant in the upcoming months. The recent rally in markets eased financial conditions, whilst interest rates are still noticeable at high levels. Currently, the market predicts a soft landing. However, it should be noted that taming inflation has often come at the expense of economic growth. China's reopening is expected to support the global economy, especially the export sensitive regions. Asia is the first in line, followed by Europe; higher commodity prices would have a global impact though, felt, yet again, in inflation. This is less of a problem for regions that have managed to get out of Covid without a rapid rise in prices, most notably China itself and Asia. However, it could disturb expectations of rapid fall in inflation. Overall, equities have repriced in the last few quarters. At the same time, risk premia are still subdued leading once again to extended equity valuations. Coupled with downside risks to earnings, as lagged effects of past policy tightening feed through, the investment committee decided to keep an underweight position across equities over the period. In fixed income, we decided to introduce a small overweight allocation to bonds towards the end of the 6 month period.

#### Fund positioning and changes

In terms of manager changes, the active Vanguard Global Credit fund was added to complement Cheyne in the Investment Grade Bond sector. This fund is similar in credit and duration terms to the benchmark and has a strong track record of outperformance. We also added the HSBC Global Aggregate Bond Index Fund.

In terms of asset allocation, within the equity allocation, we maintained an underweight to North American equities as valuations remained higher compared to the rest of the global peers and we expected past tightening to likely weigh on earnings. We also continued to hold an overweight position to Emerging Markets. Within the fixed income allocation, we decided to add to our UK inflation linked bond position in October, which we then reduced in November. In February we increased our allocation to fixed income by adding to our US Treasuries position, and specifically the iShares \$ Treasury Bond 20+y ETF.

Tatton Investment Management Limited Investment Manager to the Fund 08 May 2023

# **PERFORMANCE RECORD (Continued)**

- 1. The operating charges per share figure is calculated by applying the operating charges percentage to the average net asset valuation per share throughout the period.
- 2. The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Sub-fund together with the ongoing charges included within the underlying Open Ended Investment Companies held within the Sub-fund's holdings.

#### **Risk Profile**

Based on past data, the Sub-fund is ranked a '4' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Information Document (30 September 2022 ranked '4'). The Sub-fund is ranked '4' because monthly historical performance data indicates that average rises and falls in market prices would have occurred historically. The higher the rank, the greater the potential reward but the greater the risk of losing money.

#### **Accounting policies**

The accounting policies applied are consistent with those of the financial statements for the year ended 30 September 2022 and are described in those financial statements.

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments and in accordance with the Statement of Recommended Practice for Financial Statements of Authorised Funds issued by the Investment Association in May 2014 and to the amendments to the SORP issued by the IA in June 2017. The functional currency of the Sub-fund is Sterling.

#### SUB-FUND OVERVIEW

Name of Sub-fund

VT Sinfonia Balanced Managed Portfolio

Size of Sub-fund (£'000)

£21,634

# Investment objective and policy

The Sub-fund aims to provide returns over the medium to long term (3-5 years) by a combination of both capital growth and income generation.

The Sub-fund's investment objective will be achieved by investing in a diversified portfolio of fixed interest securities and equities, as well as warrants, and money market instruments, primarily (at least 70%) through investment in a portfolio of collective investment schemes (which may include those managed and/or advised by the ACD or Investment Manager). The Sub-Sub-fund will typically be invested in a global portfolio of assets but may focus on UK and European assets.

Normally, the Sub-fund will be fully invested except for an amount to enable redemption of shares, efficient management of the Sub-fund in relation to its strategic objectives, and other purposes which may be reasonably regarded as ancillary to the investment objectives of the Sub-fund. However, there may be short periods (e.g. in times of market stress) where it is considered appropriate for the scheme property not to be fully invested (and so for higher levels of liquidity to be maintained).

One measure of risk is the proportion invested in the riskiest assets, such as equities. The Subfund will be actively managed and the investments will be selected with a balanced strategy in mind and so will seek to achieve a balance between higher risk assets (such as equities (and collective investment schemes investing in/providing investment exposure to such assets)) and defensive assets (such as bonds and cash (and collective investment schemes investing in/providing investment exposure to such assets)). For this Sub-fund, over the long-term (5 years), it is expected that the proportion of the Sub-fund exposed to equities will be approximately 75%. In the shorter term, this weighting may be adjusted tactically as economic and market conditions dictate while not deviating by more than  $\pm 12.5\%$ .

The asset classes in which the Sub-Sub-fund may also invest includes transferable securities, units in collective investment schemes, money market instruments, cash and near cash and deposits.

#### **Derivatives**

The Sub-fund is permitted to invest in derivative instruments and forward transactions for investment purposes, however, it is the Investment Manager's intention that the Sub-Sub-fund shall utilise derivative instruments and forward transactions for hedging purposes using efficient portfolio management techniques (and if this intention is to change the ACD shall provide advance notice to shareholders).

#### **Benchmark**

The Sub-fund is not managed to or constrained by a benchmark, and nor does the ACD use a benchmark in order to assess performance.

However, the performance of the Sub-fund can be compared to that of the ARC Steady Growth Index.

The performance of the Sub-fund can be compared against that of the index. This index has been selected as it is considered that this index most closely reflects the investments which the Sub-fund will make (and its risk/return objectives) at the current time. For the avoidance of doubt, the Investment Manager is not bound or influenced by the index when making its decisions and can make investments that are not included in the index.

**Distribution dates** By 30 November (final), 31 May (interim)

Individual Savings Account The Sub-fund is a qualifying investment for inclusion in an ISA.

(ISA)

Minimum investment

Lump sum subscription: All share classes - £1,000

Top-up: All share classes - £1,000

Holding: All share classes - £1,000

Redemption: All share classes - £1,000

Switching: N/A (provided minimum holding is maintained)

Initial charges: Class A Shares - 0.00%

Class B, Class C & Class D Shares - 5.50%

Redemption and switching Nil

charges:

The ACD may waive the minimum levels (and waive or discount the initial charge) at its discretion.

**Annual management** 

charges Class A Shares - 0.65%

Class B Shares - 1.50% Class C Shares - 2.00% Class D Shares - 1.75%

The above percentages being a percentage of the Net Asset Value of the Sub-fund attributable to the relevant Class (plus VAT if applicable).

#### **INVESTMENT MANAGER'S REVIEW**

#### Investment review

Over the six months to 31st March 2023, the fund generated a return of 2.9% (Class A Accumulation). The average return for the ARC Steady Growth PCI peer group (ARC Private Client Indices) was 4.6%, meaning the fund underperformed by -1.7% over the period.

The fund changes have been driven by the manager's investment outlook. The outlook and reasoning behind the latest changes were guided by our thoughts at the time, described below:

Inflation pressures slowly started to recede, but labour markets remained tight as economic growth cooled over the period and major central banks kept raising interest rates (slower pace than earlier in the cycle) as part of their tightening policy programmes. Lagged effects of past tightening are expected to be another key determinant in the upcoming months. The recent rally in markets eased financial conditions, whilst interest rates are still noticeable at high levels. Currently, the market predicts a soft landing. However, it should be noted that taming inflation has often come at the expense of economic growth. China's reopening is expected to support the global economy, especially the export sensitive regions. Asia is the first in line, followed by Europe; higher commodity prices would have a global impact though, felt, yet again, in inflation. This is less of a problem for regions that have managed to get out of Covid without a rapid rise in prices, most notably China itself and Asia. However, it could disturb expectations of rapid fall in inflation. Overall, equities have repriced in the last few quarters. At the same time, risk premia are still subdued leading once again to extended equity valuations. Coupled with downside risks to earnings, as lagged effects of past policy tightening feed through, the investment committee decided to keep an underweight position across equities over the period. In fixed income, we decided to introduce a small overweight allocation to bonds towards the end of the 6 month period.

#### Fund positioning and changes

In terms of manager changes, the active Vanguard Global Credit fund was added to complement Cheyne in the Investment Grade Bond sector. This fund is similar in credit and duration terms to the benchmark and has a strong track record of outperformance. We also added the BNY Mellon Efficient Global High Yield Beta Fund.

In terms of asset allocation, within the equity allocation, we maintained an underweight to North American equities as valuations remained higher compared to the rest of the global peers and we expected past tightening to likely weigh on earnings. We also continued to hold an overweight position to Emerging Markets. Within the fixed income allocation, we decided to add to our UK inflation linked bond position in October, which we then reduced in November. In February we increased our allocation to fixed income by adding to our US Treasuries position, and specifically the iShares \$ Treasury Bond 20+y ETF.

Tatton Investment Management Limited Investment Manager to the Fund 08 May 2023

# **PERFORMANCE RECORD (Continued)**

- 1. The operating charges per share figure is calculated by applying the operating charges percentage to the average net asset valuation per share throughout the period.
- 2. The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Sub-fund together with the ongoing charges included within the underlying Open Ended Investment Companies held within the Sub-fund's holdings.

#### **Risk Profile**

Based on past data, the Sub-fund is ranked a '5' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Information Document (30 September 2022 ranked '5'). The Sub-fund is ranked '5' because weekly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically. The higher the rank, the greater the potential reward but the greater the risk of losing money.

#### As at 31 March 2023

#### **Accounting policies**

The accounting policies applied are consistent with those of the financial statements for the year ended 30 September 2022 and are described in those financial statements.

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments and in accordance with the Statement of Recommended Practice for Financial Statements of Authorised Funds issued by the Investment Association in May 2014 and to the amendments to the SORP issued by the IA in June 2017. The functional currency of the Subfund is Sterling.

#### SUB-FUND OVERVIEW

Name of Sub-fund

VT Sinfonia Adventurous Growth Portfolio

Size of Sub-fund (£'000)

£12,763

# Investment objective and policy

The Sub-fund aims to provide returns over the long term (5 years) by a combination of both capital growth and income generation.

The Sub-fund's investment objective will be achieved primarily (at least 70%) by investing in a diversified portfolio of fixed interest securities and equities, as well as warrants, and money market instruments, through investment in a portfolio of collective investment schemes (which may include those managed and/or advised by the ACD or Investment Manager). The Sub-fund will typically be invested in a global portfolio of assets but may also focus on UK assets.

Normally, the Sub-fund will be fully invested except for an amount to enable redemption of shares, efficient management of the Sub-fund in relation to its strategic objectives, and other purposes which may be reasonably regarded as ancillary to the investment objectives of the Sub-fund. However, there may be short periods (e.g. in times of market stress) where it is considered appropriate for the scheme property not to be fully invested (and so for higher levels of liquidity to be maintained).

One measure of risk is the proportion invested in the riskiest assets, such as equities. The Subfund will be actively managed and the investments will be selected to achieve a mix of higher and lower risk assets. The Sub-fund has a more adventurous strategy with there being a focus on exposure to higher risk assets (such as equities (and collective investment schemes investing in/providing investment exposure to such assets)) over lower risk assets (such as bonds and cash (and collective investment schemes investing in/providing investment exposure to such assets)). For this Sub-fund, over the long-term (5 years), it is expected that the proportion of the Sub-fund exposed to equities will be approximately 90%. In the shorter term, this weighting may be adjusted tactically as economic and market conditions dictate while not deviating by more than ±12.5%.

The asset classes in which the Sub-Fund may also invest includes transferable securities, money market instruments, cash and near cash and deposits.

#### **Derivatives**

The Sub-fund is permitted to invest in derivative instruments and forward transactions for investment purposes, however, it is the Investment Manager's intention that the Sub-Fund shall utilise derivative instruments and forward transactions for hedging purposes using efficient portfolio management techniques (and if this intention is to change the ACD shall provide advance notice to Shareholders).

#### Benchmark

The Sub-fund is not managed to or constrained by a benchmark, and nor does the ACD use a benchmark in order to assess performance.

However, the performance of the Sub-fund can be compared to that of the ARC Steady Growth Index.

The performance of the Sub-fund can be compared against that of the index. This index has been selected as it is considered that this index most closely reflects the investments which the Sub-fund will make (and its risk/return objectives) at the current time. For the avoidance of doubt, the Investment Manager is not bound or influenced by the index when making its decisions and can make investments that are not included in the index.

#### Minimum investment

Lump sum subscription: All share classes - £1,000

Top-up: All share classes - £1,000

Holding: All share classes - £1,000

Redemption: All share classes - £1,000

Switching: N/A (provided minimum holding is maintained)

Initial charges: Class A Shares - 0.00%

Class B, Class C & Class D Shares - 5.50%

Redemption and switching charges:

Nil

The ACD may waive the minimum levels (and waive or discount the initial charge) at its discretion.

**Annual management** 

charges Class A Shares - 0.65%

Class B Shares - 1.50% Class C Shares - 2.00% Class D Shares - 1.75%

The above percentages being a percentage of the Net Asset Value of the Sub-fund attributable to the relevant Class (plus VAT if applicable).

<sup>^</sup>Share classes are currently not active.

#### **INVESTMENT MANAGER'S REVIEW**

#### Investment review

Over the six months to 31st March 2023, the fund generated a return of 3% (Class A Accumulation). The average return for the ARC Steady Growth PCI peer group (ARC Private Client Indices) was 4.6%, meaning the fund underperformed by -1.6% over the period.

The fund changes have been driven by the manager's investment outlook. The outlook and reasoning behind the latest changes were guided by our thoughts at the time, described below:

Inflation pressures slowly started to recede, but labour markets remained tight as economic growth cooled over the period and major central banks kept raising interest rates (slower pace than earlier in the cycle) as part of their tightening policy programmes. Lagged effects of past tightening are expected to be another key determinant in the upcoming months. The recent rally in markets eased financial conditions, whilst interest rates are still noticeable at high levels. Currently, the market predicts a soft landing. However, it should be noted that taming inflation has often come at the expense of economic growth. China's reopening is expected to support the global economy, especially the export sensitive regions. Asia is the first in line, followed by Europe; higher commodity prices would have a global impact though, felt, yet again, in inflation. This is less of a problem for regions that have managed to get out of Covid without a rapid rise in prices, most notably China itself and Asia. However, it could disturb expectations of rapid fall in inflation. Overall, equities have repriced in the last few quarters. At the same time, risk premia are still subdued leading once again to extended equity valuations. Coupled with downside risks to earnings, as lagged effects of past policy tightening feed through, the investment committee decided to keep an underweight position across equities over the period. In fixed income, we decided to introduce a small overweight allocation to bonds towards the end of the 6 month period.

#### Fund positioning and changes

In terms of manager changes, the active Vanguard Global Credit fund was added in the Investment Grade Bond sector. This fund is similar in credit and duration terms to the benchmark and has a strong track record of outperformance. The Cheyne Global Credit fund was removed. We also added the BNY Mellon Efficient Global High Yield Beta Fund.

In terms of asset allocation, within the equity allocation, we maintained an underweight to North American equities as valuations remained higher compared to the rest of the global peers and we expected past tightening to likely weigh on earnings. We also continued to hold an overweight position to Emerging Markets. Within the fixed income allocation, we decided to add to our UK inflation linked bond position in October, which we then reduced in November. In February we increased our allocation to fixed income by adding to our US Treasuries position, and specifically the iShares \$ Treasury Bond 20+y ETF.

Tatton Investment Management Limited Investment Manager to the Fund 08 May 2023

Lowest share price	180.92	181.51	160.60

<sup>1.</sup> The operating charges per share figure is calculated by applying the operating charges percentage to the average net asset valuation per share throughout the period.

#### **Risk Profile**

Based on past data, the Sub-fund is ranked a '5' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Information Document (30 September 2022 ranked '5'). The Sub-fund is ranked '5' because weekly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically.

<sup>2.</sup> The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Sub-fund together with the ongoing charges included within the underlying Open Ended Investment Companies held within the Sub-fund's holdings.

# **PORTFOLIO SUMMARY**

# STATEMENT OF CHANGES IN NET ASSETS ATTRIBUTABLE TO SHAREHOLDERS

For the six month period ended 31 March

	2023 £'000	2022 £'000
Opening net assets attributable to shareholders	13,172	16,513
Amounts receivable on creation of shares	3,082	2,766
Amounts payable on cancellation of shares	(3,926)	(3,887)
Accumulation dividends retained	40	61
Dilution levies	1	-
Changes in net assets attributable to shareholders from investment activities (see above)	394	408
Closing net assets attributable to shareholders	12,763	15,861

The Investment Association SORP requires that comparatives are shown for the above report. As comparatives are shown for the comparable interim period the net asset value at the end of the period will not agree to the net asset value at the start of the period. The Sub-funds net asset value as at 30 September 2022 was (£'000) £13,172.

#### **Accounting policies**

The accounting policies applied are consistent with those of the financial statements for the year ended 30 September 2022 and are described in those financial statements.

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments and in accordance with the Statement of Recommended Practice for Financial Statements of Authorised Funds issued by the Investment Association in May 2014 and to the amendments to the SORP issued by the IA in June 2017. The functional currency of the Subfund is Sterling.

# **DISTRIBUTION TABLES**

# Interim Distribution in pence per share

Group 1: Shares purchased prior to 01 October 2022

Group 2 : Shares purchased on or after 01 October 2022 and on or before 31 March 2023

Class A Accumulation	Net revenue 31.05.2023	Equalisation	Distribution 31.05.2023	Distribution 31.05.2022
Group 1	0.8475p	-	0.8475p	1.0220p

Group 1	-	-	-	-
Group 2	-	-	-	-

#### INFORMATION FOR INVESTORS

#### **Taxation**

The Company will pay corporation tax on its profits in VT Sinfonia Cautious Managed Portfolio with no corporation tax payable in the other four Sub-funds for the period ended 31 March 2023. Capital gains within the Company will not be taxed.

#### Individual shareholders

Tax-free annual dividend allowance currently standing at £1,000 (2023/2024). UK resident shareholders are now subject to new higher rates of tax on dividend income in excess of the annual allowance. The actual rate depends on the individual's tax rate hand

#### Capital gains tax:

Individual shareholders resident in the UK for tax purposes may be liable to capital gains tax on realisation of their shares as with other chargeable assets. However, the first £6,000 (2023/2024) of gains each year are presently tax free for individuals. Gains in excess of that amount are charged at the rate of tax applicable to the individual tax payer.

#### Corporate shareholders

Companies resident for tax purposes in the UK which hold shares should note that OEIC distributions are streamed into both franked and unfranked income. The unfranked income element will be treated as an annual payment which has been subject to income tax at a rate of 20% and will be liable to tax accordingly. On realisation of their shares, UK resident companies may be liable to pay corporation tax on any capital gains.

The above information on taxation is only a general summary, and shareholders should consult their own tax advisors in relation to their own circumstances. Shareholders should also note that the position as outlined may change to reflect future changes in tax legislation.

#### Issue and redemption of shares

Valu-Trac Investment Management Limited is the ACD and Registrar. Valu-Trac Investment Management Limited will receive requests for the purchase or sale of shares at any time during 8.30am to 5.30pm. Instructions may be given by email to the below email address or by sending an application form to the Registrar. Application forms are available from the Registrar. (E-mail:sinfonia@valu-trac.com).

The price of shares will be determined by reference to a valuation of the Company's net assets at 12 noon on each dealing day.

The ACD has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for shares in whole or part, and in this event the ACD will return any money sent, or the balance of such monies, at the risk of the applicant. In addition the ACD may reject any application previously accepted in circumstances where the applicant has paid by cheque and that cheque subsequently fails to be cleared.

Any subscription monies remaining after a whole number of shares has been issued will not be returned to the applicant. Instead, smaller denomination shares will be issued in such circumstances.

A contract note giving details of the shares purchased and the price used will be issued by the Registrar by the end of the business day following the valuation point by reference to which the purchase price is determined.

Ownership of shares will be evidenced by an entry on the Company's Register of Shareholders. Certificates will not be issued. Statements in respect of periodic distributions of revenue will show the number of shares held by the recipient in respect of which the distribution is made. Individual statements of a shareholder's shares will also be issued at any time on request by the registered holder.

Where shares are redeemed, payment will be made not later than the close of business on the fourth business day following the next valuation point after receipt by the ACD of a request for redemption.

The most recent issue and redemption prices are available from the ACD.
