# Global Select Equity Fund

a sub-fund of T. Rowe Price Funds OEIC

Class C Acc 9 (ISIN: GB00BLFG7G47)

Authorised Corporate Director: T. Rowe Price UK Limited

## Objectives and Investment Policy

**Objective** To increase the value of its shares, through growth in the value of its investments over the long term (a minimum of 5 years).

**Portfolio securities** The fund is actively managed and invests at least 80% of total assets in a high conviction portfolio of shares and related securities issued by companies anywhere in the world, including emerging markets (up to 10% of the total assets of the fund). The fund may also invest up to 20% of its assets in debt and money market securities. The fund may use derivatives for hedging and efficient portfolio management. The use of derivatives is expected to be limited.

**Investment process** The investment manager's approach is to:

- Use fundamental research and a proprietary global research platform to identify attractive investment opportunities and create a high conviction portfolio of typically 30 to 45 holdings.
- Focus on
  - 1) quality companies with good management teams which can compound value over time;
  - 2) cyclical companies with solid business models trading at depressed valuations; and
  - 3) disruptive growth stocks.
- Use scenario analysis to assess valuation and buy when the stock price offers a favorable risk/return trade off.
- Assess environmental, social and governance ("ESG") factors to identify those considered most likely to have a material impact on the performance of the holdings or potential holdings in the fund's portfolio. These ESG factors, which are incorporated into the investment process alongside financials, valuation, macro-economics and other factors, are components of the investment decision. Consequently, ESG factors are not the sole driver of an investment decision but are instead one of several important inputs considered during investment analysis.

**Designed for** Investors who typically plan to invest for five years or more.

**Fund reference currency** GBP

**Benchmark** MSCI World Index Net

**Benchmark Use** Investors may use the benchmark to compare the fund's performance. The benchmark has been selected because it is similar to the investment universe used by the investment manager and therefore acts as an appropriate comparator. The investment manager is not constrained by any country, sector and/or individual security weightings relative to the benchmark and has complete freedom to invest in securities that do not form part of the benchmark.

## Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The value of an investment in the fund can go up and down. When you sell your shares, they may be worth less than what you paid for them. If your currency as an investor is different from the subscription currency of the fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

The risk/reward rating above is based on medium-term volatility (actual or estimated variations in the fund's share price over five years) but is not a reliable indicator of future risk reward profile.

The lowest category does not mean a risk-free investment.

The fund is in the category shown because it invests in a segment of the market where volatility is moderately high.

The fund's risk level reflects the following:

### MAIN RISKS TYPICALLY ASSOCIATED WITH ORDINARY MARKET CONDITIONS

The fund's main risks are at least partially reflected in the risk/reward number. The most important of these risks are:

**Investment Fund** involves certain risks an investor would not face if investing in markets directly.

### MAIN RISKS TYPICALLY ASSOCIATED WITH UNUSUAL MARKET CONDITIONS

Unusual market conditions or large unpredictable events can amplify the fund's main risks. They can also trigger other risks, such as:

**Operational risk** may cause losses as a result of incidents caused by people, systems, and/or processes.

A more detailed description of the risks that apply to the fund is set out in the section "Risk Descriptions" in the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.64%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The **entry** and **exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your distributor or financial adviser.

The **ongoing charges** figure is based on expenses as at 31st December 2023. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units/shares in another collective investment undertaking.

For more information about charges, please see the fund's prospectus, which is available at [troweprice.com](https://www.troweprice.com).

Past Performance

The past performance indicated is not a reliable indicator of future performance.

The past performance calculation includes all ongoing charges, but excludes any entry charge applied.

The fund and class started to issue shares in 2022.

Past performance has been calculated in GBP.

When a share class is hedged to a different currency, a hedged version of the benchmark (where available) will be used by the Authorised Corporate Director for the performance comparison.
