

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Robeco Global Credits IBH GBP (LU1521667029)

This fund is a subfund of Robeco Capital Growth Funds, SICAV.

Management Company: Robeco Institutional Asset Management B.V.

Objectives and investment policy

Robeco Global Credits is an actively managed fund that invests primarily in a diversified portfolio of global investment grade corporate bonds. The selection of these bonds is based on fundamental analysis. The fund's objective is to provide long-term capital growth. This fund has the flexibility to invest in other fixed income asset classes such as high yield, emerging credits and asset-backed securities. The fund can take limited active duration (interest-rate sensitivity) positions.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, and engagement.

All currency risks are hedged.

Benchmark: Bloomberg Global Aggregate Corporates Index

The majority of bonds selected will be components of the

benchmark, but bonds outside the benchmark may be selected too. The fund can deviate substantially from the weightings of the benchmark. The fund aims to outperform the benchmark over the long run, while still controlling relative risk through the application of limits (on currencies) to the extent of the deviation from the benchmark. This will consequently limit the deviation of the performance relative to the benchmark. The benchmark is a broad market-weighted index that is not consistent with the ESG characteristics promoted by the fund.

This share class of the fund will distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment. Corporate bonds are more risky and volatile investments compared to government bonds. The fund may use derivatives to attain its investment objectives. These instruments may present a leverage effect, which will increase the sensitivity of the fund to market fluctuations.

- The following data are deemed material for this fund, and are not (adequately) reflected by the indicator:
- A derivative counterparty may fail to fulfill its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
 - The fund invests or may invest in Chinese debt securities through Bond Connect. Investing in Chinese debt securities through Bond Connect carries increased risk, most notably liquidity, regulatory, custody and broker risks.
 - The fund invests or may invest in (contingent) convertible bonds. Upon materialization of a pre-defined trigger, these instruments can convert into equity or face full or partial write down.
 - For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.
 - The product invests or may invest in Chinese debt securities through Bond Connect. Investing in Chinese debt securities through Bond Connect carries increased risk, most notably liquidity, regulatory, custody and broker risks.
