Key Investor Information Document: This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Barings Global Agriculture Fund (the "Fund")
a sub-fund of Barings Investment Umbrella Fund (the "Umbrella Fund")
Class I GBP Acc - ISIN No. GB00B3B9VD63 (the "Share Class")

Barings Investment Umbrella Fund is an Open Ended Investment Company. Baring Fund Managers Limited is the Authorised Corporate Director of the Fund.

OBJECTIVE AND INVESTMENT POLICY

Objective: To provide capital growth by investing in the agricultural sector.

Investment Policy: To invest at least 70% of the Fund directly or indirectly in shares of companies globally which main business is related to agriculture, such as fertiliser, agricultural machinery, animal feed, seed and crop protection manufacturers, agricultural producers including farms, plantations and aquaculture, crop processors, grain and edible oil handlers and distributors, timber, pulp and paper, food ingredient companies, food manufacturers and food retailers. The Fund's exposure to indirect investments may be gained through other Funds (including those managed by Barings or associated companies), transferable securities and derivatives. The Fund is actively managed and the investment manager has discretion in the choices of investments in order to achieve the Fund's objective and is not constrained by a benchmark. The Fund will invest at least 50% of the Fund's total assets in equities of companies that exhibit positive or improving environmental, social and governance (ESG) characteristics. Further detail of the Investment Manager's, Public Equity: ESG Integration & Active Engagement Policy for equity Funds including the Fund is available on the Manager's website at www.barings.com. The Fund aims to select attractively priced companies with long term growth prospects typically following a strategy known as Growth at a Reasonable Price (GARP). The Fund's strategy focuses on companies with well-established business franchises, strong management and improving balance sheets.

The remainder of the Fund may invest in shares outside of the agricultural sector, bonds (such as those issued by governments, sovereigns, supranationals and companies globally) and cash.

The Fund may use derivative instruments for both investment and hedging purposes. The return on a derivative is linked to movements in an underlying instrument referenced by the derivative such as currency or interest rates. The base currency of the Fund is GBP.

Distribution Policy: N/A - Income will be rolled up into the value of your investment.

Dealing Frequency: Daily. Investors can buy and sell their Shares on demand on each Business Day (as defined in the Prospectus).

Benchmark: DAXglobal® Agribusiness (Total Net Return) Index. The Fund is actively managed and is not designed to track the benchmark therefore the Fund's performance may deviate materially from the benchmark. The investment manager has complete discretion in making investments and is not constrained by the benchmark. The Fund may invest significantly in instruments which are not included in the benchmark. The benchmark is used only for risk management and performance comparison purposes. The investment manager may consider, for example, issuer exposures, sector weights, country weights and tracking error in each case relative to the benchmark but does not use the benchmark as an investment limitation.

For full details on the Objective, Investment Policy and the Distribution Policy please refer to the Prospectus.

RISK AND REWARD PROFILE

Lower risk ←→ **Higher risk**

Typically lower rewards — **Typically higher rewards**

1	2	3	4	5	**6**	7

The risk number is based on the rate at which the value of the simulated data of the Fund has moved up and down in the past, and is an indicator of absolute risk.
- Historical and simulated data may not be a reliable indicator for the future
- The Fund's ranking is not guaranteed and may change over time
- The lowest risk category does not mean the investment is risk free
- The Fund is categorised as a 6 for the purposes of this table due to the nature of its investments
- The value of investments and the income may go down as well as up and investors may not get back the amount they invest

The following risks may not be captured by the risk and reward indicator:
- During exceptional market conditions there may be insufficient buyers and sellers to allow the Fund to buy and sell investments readily which could affect the Fund's ability to meet investors' redemption requests
- Losses may occur if an organisation through which we buy an asset (such as a bank) fails to meet its obligations.
- Custody of assets involves a risk of loss if a custodian becomes insolvent or breaches duties of care
- Derivative instruments can make a profit or a loss and there is no guarantee that a financial derivative contract will achieve its intended outcome. The use of derivatives can increase the amount by which the Fund's value rises and falls and could expose the Fund to losses that are significantly greater than the cost of the derivative as a relatively small movement may have a larger impact on derivatives than the underlying assets.
- Changes in exchange rates between the currency of the Fund and the currencies in which the assets of the Fund are valued can have the effect of increasing or decreasing the value of the Fund and any income generated.
- Investments in equities may be subject to significant fluctuations in value
- There are greater risks investing in emerging markets than in developed markets due to economic, political or structural challenges and the Fund may be required to establish special custody arrangements in certain markets before investing.
- The Fund can hold smaller company shares which can be more difficult to buy and sell as they may trade infrequently, in small volumes and their share prices may fluctuate more than those of larger companies.
- A more complete description of the risk factors is set out in the Prospectus under "Risk Considerations" and in the Supplement for the Fund.

CHARGES FOR THIS FUND

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest
