

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Robeco QI European Conservative Equities C GBP (LU1321401629)

This fund is a subfund of Robeco Capital Growth Funds, SICAV

Management Company: Robeco Institutional Asset Management B.V.

## Objectives and investment policy

Robeco QI European Conservative Equities is an actively managed fund that invests in low-volatility stocks in European countries. The selection of these stocks is based on a quantitative model. The fund aims to achieve returns equal to, or greater than, those on the Benchmark with lower expected downside risk, whilst still controlling relative risk through the applications of limits (on countries and sectors) to the extent of deviation from the Benchmark. The fund will take exposure of at least two-thirds of its total assets to equities of companies incorporated or exercising a preponderant part of their economic activities in Europe. The fund will focus on investing in equities that show lower volatility than average European equity. Conservative stands for the focus on equity with low volatility.

The fund aims for a better sustainability profile compared to the Benchmark by promoting certain E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation and integrating ESG and sustainability risks in the investment process and applies Robeco’s Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, and engagement.

Currency risk will not be hedged. Exchange-rate fluctuations will therefore directly affect the fund's share price.

Benchmark: MSCI Europe Index (Net Return, GBP)

The majority of stocks selected will be components of the Benchmark, but stocks outside the Benchmark may be selected too. The fund can deviate substantially from the weightings of the Benchmark. The fund aims to achieve returns equal to, or greater than, those on the Benchmark with lower expected downside risk, whilst still controlling relative risk through the applications of limits (on countries and sectors) to the extent of deviation from the Benchmark. This will consequently limit the deviation of the performance relative to the Benchmark. The Benchmark is a broad market weighted index that is not consistent with the ESG characteristics promoted by the fund.

This share class of the fund will distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

## Risk and reward profile

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment. Regionally focussed funds may be susceptible to higher volatility due to adverse occurrences affecting that region or country. This fund has a lower volatility compared to other equity funds with similar investment strategy as it specifically invests in low-volatile shares. The fund may use financial derivatives.

- The following data are deemed material for this fund, and are not (adequately) reflected by the indicator:
- A derivative counterparty may fail to fulfill its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
  - The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
  - The fund is managed using quantitative models. Materialisation of the model risk may be detrimental to fund performance.
  - For more details about portfolio risks, see Section 4. “Risk Considerations” of the prospectus.

## Charges

### One-off charges taken before or after you invest

Entry charge*	0.00%
Switch charge	1.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested.

### Charges taken from the fund over a year

Ongoing charges	0.61%
-----------------	-------

### Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The charges are used to pay the costs of running the fund, including the costs of marketing and distributing. The charges reduce the potential growth of the investment.

The entry and exit charges shown are the maximum figures. Contact your financial advisor or distributor to find out the actual entry or exit charge.

\*Dependent on the distribution channel, it is possible that additional costs are charged by the distributor.

Ongoing charges are based on the expenses for the last calendar year ended 31-12-2022. This figure may vary from year to year and does not include performance fees or transaction costs, except in the case of exit/entry charges paid by the UCITS when buying or selling units in another collective investment undertaking. For funds launched or for fee changes that are implemented during the current calendar year, the ongoing charge is estimated.

For more information on fees, charges and performance fee calculation methods we refer to section Fees and Expenses within the prospectus, available on the website: [www.robeco.com](http://www.robeco.com)

## Past performance

### Changes

Performance prior to the launch date is based on the performance of a comparable share class with higher cost base.

Currency: GBP

1st quotation date: 19-11-2015

Past performance is of limited value as a guide to future performance. The ongoing charges are included in the calculation of past performance; excluded are the entry and exit charge.

## Practical information

- The depositary of the SICAV is J.P. Morgan SE.
- This key investor information document describes a subfund of the SICAV, the prospectus and periodic reports are prepared for the entire SICAV.
- The English prospectus, and the (semi) annual report and the details of the remuneration policy of the management company can be obtained free of charge on [www.robeco.com/riam](http://www.robeco.com/riam). The website also publishes the latest prices and other information.
- The assets and liabilities of each subfund are segregated by law. Shares of one subfund may be exchanged with another subfund of the SICAV as further described in the prospectus. The SICAV may offer other share classes of the subfund. Information on these share classes is available in the prospectus under Appendix I.
- The tax legislation of the SICAV's home Member State may have an impact on the personal tax position of the investor.
- Robeco Institutional Asset Management B.V. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus of the SICAV.
