

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

The Authorised Corporate Director of the Fund is Evelyn Partners Fund Solutions Limited, part of the Evelyn Partners group.

The Fund aims to provide capital growth over 10 year periods investing at least 80% in a concentrated portfolio of global equities.

The Fund may also make other investments, including:

- There are no geographical or sector restrictions on the Fund.

The concentrated portfolio of global equities will be made up of equities that may provide, in the Investment Manager's opinion, strategic value. These will be opportunities which have business franchises that are currently trading at a significant discount to the Investment Manager's appraisal of their fair value.

As part of its investment process, the Investment Manager integrates environmental, social and governance ("ESG") factors into its routine analysis.

The Fund may use derivatives for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

**Net Income Shares:** Any income the Fund generates will be paid out to you.

**Net Accumulation Shares:** Any income the Fund generates will be reinvested.

You can buy and sell shares on any working day in London.

For full investment objectives and policy details please refer to the Prospectus.

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

**Typically higher rewards,  
higher risk**

- The Fund is in a higher category because the price of its investments have risen or fallen frequently and more dramatically than some other types of investment. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where the Fund invests in warrants, these may be hard to buy and sell and their prices may move up and down suddenly. This could significantly impact investment performance.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund.
- The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- The price of gold or other resources may be subject to sudden, unexpected and substantial fluctuations. This may lead to significant declines in the values of any companies developing these resources in which the Fund invests and significantly impact investment performance.
- The Fund may hold a limited number of investments. If one of these investments falls in value this can have a greater impact on the Fund's value than if it held a larger number of investments.
- The Fund may invest in securities not denominated in sterling, the value of your investments may be affected by changes in currency exchange rates.
- For full details please refer to Risk Factors in the Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year	
Ongoing charges	1.02%

Charges taken from the Fund under specific conditions	
Performance fee	NONE

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- A dilution adjustment may be applied to adjust the price of shares, as it may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price.
- For further information about charges, please refer to relevant sections in the Fund's Prospectus.
- The ongoing charges figure is as at 30/09/2023.
- The Fund's annual report for each financial year will include detail on the exact charges made.

## Past performance

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 25/06/2008.
- Share/unit class launch date: 29/04/2013.
- Performance is calculated in GBP.
- The Fund was originally a Non-UCITS Retail Scheme and was moved into the UK UCITS on 01/10/2013.
- All charges and fees, except any entry, exit or switching charges, have been included within the performance calculation.
- On 18/07/2022 the Fund's name changed from S&W Kennox Strategic Value Fund to SVS Kennox Strategic Value Fund.
