# IFSL Church House UK Smaller Companies Class B Shares

A Sub-fund of the IFSL CH Special Mandates Fund (ISIN Accumulation GB00BLY2BF03)

This Fund is managed by Investment Fund Services Limited (IFSL)

## Objectives and Investment Policy

The aim of the Sub-fund is to provide capital growth over the long term (at least five years).

The Sub-fund is actively managed and the Manager does not track, and is not constrained by, any benchmark index.

At least 80% of the Sub-fund's assets are invested in shares of UK smaller companies. UK companies are those incorporated or domiciled in the UK and smaller companies are defined by the Manager as those with a market capitalisation of less than £2bn at the time of purchase. The Sub-fund may invest in any industry or sector.

Up to 20% of the Sub-fund may be invested in other assets: the shares of companies with a market capitalisation of £2bn or more, the shares of overseas companies (developed markets only), fixed interest securities, money market instruments and cash.

No more than 10% of the Sub-fund's total assets may be invested in collective investments schemes.

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors', as a way of dividing funds into broad groups with similar characteristics.

The Fund's investment policy is most closely aligned with funds in the IA UK Smaller Companies sector. The Fund is not managed to a benchmark, however you may want to assess the Fund's performance compared to the performance of this sector.

Income is not distributed but is rolled up (accumulated) into the value of your investment.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

## Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio are used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 6 because its investments have experienced high volatility in the past. The Fund's volatility is affected by various risks, including:

The Fund will be exposed to financial markets and market conditions can change rapidly. Prices can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

The Fund will be exposed to the shares of smaller companies which are typically riskier than larger, more established companies. Difficulty in trading may arise, resulting in a negative impact on your investment. Shares in smaller companies

may be harder to sell at a desired price and/or in a timely manner, especially in difficult market conditions.

The Fund may be exposed to bonds, the prices of which will be impacted by factors including; changes in interest rates, inflation expectations and perceived credit quality.

The Fund will invest mainly in the UK therefore investments will be vulnerable to sentiment in that market which may strongly affect the value of the Fund.

In certain market conditions, the Fund may not be able to sell one or more of its assets for the full value, or at all. This could affect the performance of the Fund and could cause the Fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

A company that we deal with may renege on its obligations, costing the Fund money.

Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the Fund, or inconvenience to investors.

Investors are encouraged to read the 'risk factors' section of the Fund's prospectus to find a more extensive list of the risks that apply to this Fund.
