

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Sustainable Value

a sub-fund of Schroder International Selection Fund SICAV

Class A Accumulation EUR Hedged (LU2665173949)

This fund is managed by Schroder Investment Management (Europe) S.A., which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide capital growth in excess of the MSCI World (Net TR) Index after fees have been deducted over a three to five year period by investing in equities of companies worldwide which meet the investment manager's sustainability criteria.

Investment policy

The fund is actively managed and invests at least two thirds of its assets in equities of companies worldwide.

The fund may invest directly in China B-Shares and China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext. The fund may also invest up to one third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to restrictions provided in the prospectus).

The fund maintains a higher overall sustainability score than MSCI World (Net TR) index, based on the Investment Manager's rating system.

The fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the fund's webpage

<https://www.schroders.com/en/lu/private-investor/gfc>

The fund invests in companies that have good governance practices, as determined by the investment manager's rating criteria.

The fund may invest in companies that the investment manager believes will improve their sustainability practices within a reasonable timeframe, typically up to three years. The investment manager may also engage with companies held by the fund to challenge identified areas of weakness on sustainability issues. More details on the investment manager's approach to sustainability and its engagement with companies are available on the webpage

<https://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures>

The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently.

Benchmark

The fund's performance should be assessed against its target benchmark, being to exceed the MSCI World (Net TR) Index and compared against the MSCI World Value (Net TR) index. The fund's investment universe is expected to overlap to a limited extent with the components of the target and comparator benchmarks. The comparator benchmark is only included for performance comparison purposes and does not determine how the investment manager invests the fund's assets. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target or comparator benchmarks. The investment manager will invest in companies or sectors not included in the target or comparator benchmarks in order to take advantage of specific investment opportunities. The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. The performance of this share class is compared against the performance of the equivalent unhedged currency share class.

Dealing frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution policy

This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Risk and reward profile

The risk and reward indicator

The risk category was calculated using simulated historical performance data and may not be a reliable indicator of the fund's future risk profile

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

The category also reflects that this share class is in a different currency than the fund currency.

Risk factors

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

China risk: If the fund invests in the China Interbank Bond Market via the Bond Connect or in China "A" shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect or in shares listed on the STAR Board or the ChiNext, this may involve clearing and settlement, regulatory, operational and counterparty risks. If the fund invests in onshore renminbi-denominated securities, currency control decisions made by the Chinese government could affect the value of the fund's investments and could cause the fund to defer or suspend redemptions of its shares.

Counterparty risk: The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

Market risk: The value of investments can go up and down and an investor

may not get back the amount initially invested.

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Sustainability risk: The fund has environmental and/or social characteristics. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the investment manager. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Currency risk: If the fund's investments are denominated in currencies different to the fund's base currency, the fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates. If the investor holds a share class in a different currency to the base currency of the fund, investors may be exposed to losses as a result of movements in currency rates.

Currency risk /hedged share class: The hedging of the share class may not be fully effective and residual currency exposure may remain. The cost associated with hedging may impact performance and potential gains may be more limited than for unhedged share classes.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Emerging markets & frontier risk: Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty, operational and liquidity risk than developed markets.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Charges

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	2.00%
Charges taken from the fund under certain specific conditions	
Performance fee	
None	

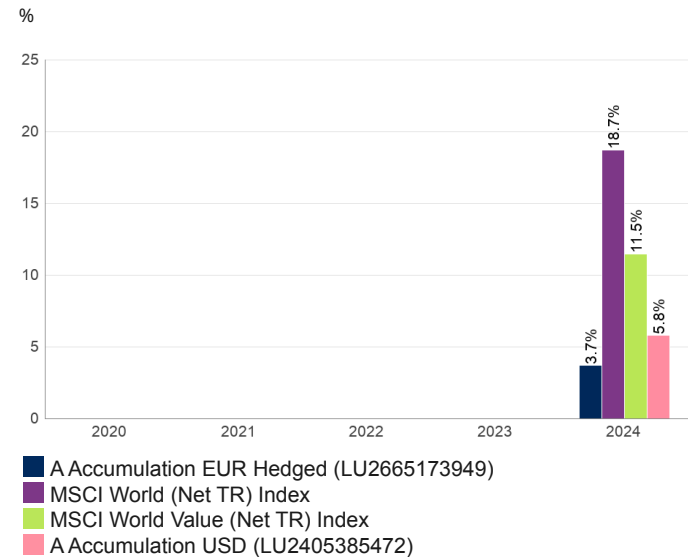

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2024 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in Euro after the ongoing charges and the portfolio transaction costs have been paid. Entry charges are excluded from calculations of past performance. The Benchmark performance is shown in the base currency of the fund.

The fund was launched on 02/12/2021.

The shareclass was launched on 18/10/2023.

Performance figures are only available since the launch of the respective share class.

Practical information

Depository: J.P. Morgan SE.

Further information: You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly report and the latest price of shares from the fund's management company at 5, rue Höhenhof, L-1736 Senningerberg, Luxembourg, and from www.schroders.lu/kiids. They are available free of charge in English, Flemish, French, German, Italian and Spanish.
