# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Fidelity Index Pacific ex Japan Fund

a sub-fund of Fidelity Investment Funds

Fidelity Index Pacific ex Japan Fund P-Inc
(ISIN:GB00BP8RYR23)

This fund is managed by FIL Investment Services (UK) Limited

### Objectives and Investment Policy

The fund aims to track the performance (before fees and expenses are applied) of the MSCI Pacific ex Japan (Net Total Return) Index, thereby seeking to increase the value of your investment over 5 years or more.

The fund uses an index tracking (passive) investment approach whereby it aims to replicate the composition of the index. However, for practical reasons and/or to reduce the dealing costs of the fund, it may not invest in every company share in the index or at its weighting within the index.

As well as investing directly in company shares, the fund will achieve exposure indirectly using derivatives, such as exchange traded index futures, for example at the time of cash inflows to remain fully invested or to reduce transaction costs.

Derivatives are investments whose value is linked to another investment, or to the performance of a stock exchange or to some other variable factor, such as interest rates and used to reduce risk or transaction costs and/or to generate extra income or further increase the value of your investment.

To manage the cash position, the fund may invest in other investment types such as liquidity funds (including those managed by Fidelity).

Income from the fund is either paid out to you or it is used to buy you more shares in the fund.

Shares can usually be bought and sold each business day of the fund.

Note: The funds described herein are indexed to an MSCI index. The MSCI Pacific ex Japan Index captures large and mid cap representation of 4 out of 5 Developed Markets countries in the Pacific region (excluding Japan). The funds or securities referred to herein are not sponsored, endorsed, or promoted by MSCI, and MSCI bears no liability with respect to any such funds or securities or any index on which the funds or securities are based. The Prospectus contains a more detailed description of the limited relationship MSCI has with Fidelity and any related funds.The sub-fund is tracking MSCI Pacific ex Japan (N)Non-distributing units: any income generated by the sub-fund is reinvested

### Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This Fund is categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high. Fidelity International's partial swing pricing policy can cause differences in the fund's performance versus the index.

A fund's performance tracking may be affected if the times at which a fund and its benchmark index are priced are different. The fund is priced at midday UK time, and the index is priced when the relevant stock markets close. This can cause apparent differences in the fund's performance versus that of the index than if the fund and the index were priced at the same time.

Additional risks: liquidity

### Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|---|---|
| Entry charge | N/A |
| Exit charge | N/A |
| The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor. | |
| **Charges taken from the fund over a year** | |
| Ongoing charges | 0.13% |
| **Charges taken from the fund under certain specific conditions** | |
| Performance fee | N/A |

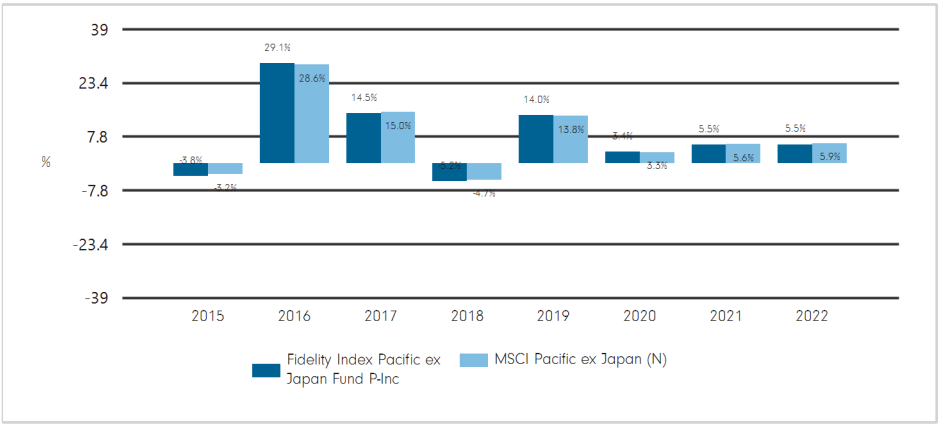

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.`

The ongoing charges figure shown here for this new class is an estimate of the charges. This figure may vary from year to year. It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

## Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund was launched on 6 February 2014. This class was launched on 4 August 2014.

Past performance has been calculated in GBP.

If applicable, events in the fund's life which may have affected the performance history are highlighted as an '*'; in the chart, which may include changes to the fund's objective and details of such events can be found on our website or by requesting it from your appointed representative or your usual Fidelity contact. If applicable, the Objectives and Investment Policy section shall refer to a benchmark and information on previous benchmarks may be found in the annual report and accounts.
