

### US Dollar High Yield Bond Fund

A sub-fund of BlackRock Global Funds

Class D4 GBP Hedged

ISIN: LU0681219902

Management Company: BlackRock (Luxembourg) S.A.

## Objectives and Investment Policy

- ▶ The Fund aims to maximise the return on your investment through a combination of capital growth and income on the Fund's assets and invest in a manner consistent with the principles of environmental, social and governance (ESG) investing.
- ▶ The Fund invests at least 70% of its total assets in fixed income securities denominated in US dollars. These include bonds and money market instruments (i.e. debt securities with short term maturities).
- ▶ At least 70% of the Fund's total assets will include investments with a relatively low credit rating or which are unrated. The remainder may include investments which are investment grade (i.e. meet a specified level of credit worthiness) at the time of purchase.
- ▶ The fixed income securities may be issued by: the United States (US) government and its government agencies, non-US governments and government agencies, and companies and supranationals (e.g. the International Bank for Reconstruction and Development) domiciled inside or outside of the US.
- ▶ The Fund's total assets will be invested in accordance with its ESG Policy as disclosed in the prospectus. For further details, please refer to the prospectus and the BlackRock website at <https://www.blackrock.com/corporate/literature/publication/blackrock-baseline-screens-in-europe-middleeast-and-africa.pdf>
- ▶ The investment adviser (IA) may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for investment purposes in order to achieve the investment objective of the Fund, and/or to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income. The Fund may, via FDIs, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).
- ▶ The Fund is actively managed, and the IA has discretion to select the Fund's investments. In doing so, the IA will refer to the Bloomberg US Corporate High Yield 2% Constrained Index (the "Index") when constructing the Fund's portfolio, and also for performance comparison and risk management purposes as further described in the prospectus. The IA is not bound by the components or weighting of the Index when selecting investments and may also use its discretion to invest in securities not included in the Index. However, the currency requirements of the investment objective and policy limit the extent to which the portfolio holdings will deviate from the Index.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your shares will be distributing (i.e. dividend income will be paid annually on the shares).
- ▶ The Fund's base currency is US Dollar. Shares for this class are bought and sold in Sterling. The performance of your shares may be affected by this currency difference.
- ▶ Your shares will be "hedged" with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the base currency of the Fund. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares.
- ▶ You can buy and sell your shares daily. The minimum initial investment for this share class is US\$100,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at [www.blackrock.com](http://www.blackrock.com)

## Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated five due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Non-investment grade fixed income securities are more sensitive to changes in interest rates and present greater 'Credit Risk' than higher rated fixed income securities.
- ▶ Particular risks not adequately captured by the risk indicator include:
  - Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
  - The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Investors should therefore make a personal ethical assessment of the Fund's ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund's investments compared to a fund without such screening.

## Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

\*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 December 2023. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

\*\* To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

| One-off charges taken before or after you invest |       |
|--------------------------------------------------|-------|
| Entry Charge                                     | 5.00% |
| Exit Charge                                      | None* |

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

| Charges taken from the Fund over each year           |         |
|------------------------------------------------------|---------|
| Ongoing Charges                                      | 0.74%** |
| Charges taken from the Fund under certain conditions |         |
| Performance Fee                                      | None    |

## Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in GBP for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 1993. The share class was launched in 2011.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†¹Bloomberg US Corporate High Yield 2%

Constrained Index (USD)

It is not intended that the performance of the Fund will track the index.

Historic performance to 31 December 2023

During this period performance was achieved under circumstances that no longer apply.
