

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

COHEN & STEERS

### Preferred Income Fund

**Class W Inc (GBP Hedged) Shares (ISIN: LU2337601707) and Class W Acc (GBP Hedged) Shares (ISIN: LU2337601889)**

This is a sub-fund of the Cohen & Steers SICAV. Cohen & Steers Ireland Limited is the management company of the Fund.

#### Objectives and Investment Policy

The Fund's objective is to produce both income and capital growth by investing at least 80% of its assets in a portfolio of preferred and debt securities issued by companies worldwide, including traditional preferred securities; hybrid preferred securities that have investment and economic characteristics of both preferred stock and debt securities; floating rate preferred securities; corporate debt securities; convertible securities; contingent preferred securities ("CoCos"); and securities of other open-end, closed-end or exchange-traded funds that invest primarily in preferred and debt securities as described herein. The Fund invests primarily in companies located in developed countries. The Fund may also invest up to 15% of its net assets in shares of companies located in frontier countries and emerging market countries. The Fund may invest in debt securities of any maturity or credit rating, including investment grade securities, below investment grade securities and unrated securities. The Fund may not invest more than 10% of its assets in a single UCITS or other UCI. The Fund may invest in financial instruments whose value is based on the value or characteristics of one or more underlying assets (derivatives) for hedging purposes.

The Fund is actively managed. The investment manager currently uses a blended benchmark consisting of 55% ICE BofA US Capital Securities Index, 20% Bloomberg Developed Market USD Contingent Capital Index, 15% ICE BofA Hybrid Preferred Securities 8% Constrained Index, 10% ICE BofA Global Hybrid Corporate Index USD Hedged for its internal analysis

and for comparison with the investment performance, holdings, and other characteristics of the Fund in materials provided to shareholders and potential investors, but the composition of the portfolio holdings of the Fund is not constrained by the composition of its benchmark as a result. Active management of the Fund may result in the minority or majority of the portfolio being components of the benchmark while also including securities that are not components of this benchmark. Because the Fund's investment objective and policy focus on the same sector as this benchmark, the investment performance, holdings, and other characteristics of the Fund may resemble those of the benchmark. Such characteristics are the result of the exercise of full discretion over the Fund based on current market conditions.

Investment in the Fund is suitable for a long-term investor who is able to tolerate market and interest rate volatility and potential loss of capital.

Income arising from the Fund will be distributed to shareholders of Class W Inc (GBP hedged) Shares monthly, while all such income will be reinvested in Class W Acc (GBP hedged) Shares. Class W Inc (GBP hedged) and W Acc (GBP hedged) Shares are each offered in GBP.

You may buy or sell shares of the Fund on demand on any Luxembourg business day.

Class W Inc and W Acc Shares may only be purchased by institutional investors.

#### Risk and Reward Profile

Calculated using annualized volatility on monthly performance returns of Share Class W Inc GBP (Hedged) (LU2337601707)

The Fund is in risk category 4 because the volatility of past returns of the Fund's investment strategy has been moderate. All investments, including an investment in the Fund, involve risks that cannot be predicted.

The categorization above is based on historical information, may not be a reliable indication of the future performance of the Fund, and may shift over time. The lowest category does not mean risk free. Because investments are concentrated

in preferred and debt securities of any maturity and varying credit ratings, the Fund will be sensitive to changes in market interest rates and any below investment grade investments could be more susceptible to price volatility due to adverse economic conditions than investment grade investments. The Fund's investments in preferred securities, including contingent capital securities (or CoCos) may be less liquid than an issuer's equity securities and are subject to risks of deferral and omission or distributions, subordination to other securities in the issuer's capital structure, prepayment and extension, and special redemption rights and regulatory risk. The Fund invests globally, including in frontier countries and emerging markets, and is thus subject to changing currency exchange rates and costs and economic and political conditions in various countries; these risks are often heightened in frontier countries and emerging markets. Any investment in derivatives would expose the Fund to additional risks, including risk of loss in the event of counterparty default.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Charges taken from the Fund over a year	
Ongoing charges	0.65%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures.

The ongoing charges figure is based on expenses for the year ending December 2023. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking

\*Maximum potential expenses are shown. The Fund's investment manager has undertaken to reimburse the Fund for ongoing charges that exceed this amount annually.

**For more information about charges, please see the section entitled "Charges and Expenses" in the Cohen & Steers SICAV's prospectus, which is available at [www.cohenandsteers.com](http://www.cohenandsteers.com)**

## Past Performance

Past performance is not a guarantee of future performance. An investor cannot invest directly in an index and index performance does not reflect the deduction of any fees, expenses, or taxes. Index comparisons have limitations as volatility and other characteristics may differ from a particular investment.

Total returns, provided by the Fund's investment manager, reflect the percentage change in net asset value of Class W Inc (GBP Hedged) Shares and Class W Acc (GBP Hedged) Shares of the Fund for each complete year of investment. Performance since 31 December 2023 may differ, perhaps significantly, from performance shown. Total returns have been calculated in U.S. dollars and include change in net asset value, fees and charges (excluding sales charges) and reinvestment of distributions. Fund performance changes over time and the value of shares may fall as well as rise, so that your shares, when redeemed, may be worth more or less than their original cost to you. Performance for other share classes of the Fund is available upon request.

## Practical Information

- State Street Bank International GmbH, Luxembourg Branch is Cohen & Steers SICAV's custodian bank.
- Further information about Cohen & Steers SICAV, including the prospectus, the latest annual and semi-annual reports as well as the key investor information documents of the Cohen & Steers SICAV and other practical information such as where to find the latest prices of shares, may be obtained in several languages, free of charge at: Cohen & Steers SICAV, c/o State Street Bank International GmbH, Luxembourg Branch, 49, Avenue J.F.
