### Vanguard Global Capital Stewards Equity Fund (the "Fund")

A sub-fund of Vanguard® Investments Funds ICVC

### GBP Acc

ISIN: GB00BMV9B621

Authorised Corporate Director: Vanguard Investments UK, Limited ("VIUK")

## Objectives and investment policy

- The Fund seeks to provide an increase in the value of investments over the long-term (more than 5 years), through a combination of capital growth and income. The Fund aims to achieve this whilst selecting investments which meet certain sustainability criteria.
- The Fund is actively managed and seeks to achieve its investment objective by investing at least 90% of the Fund's assets in shares issued by large companies worldwide which demonstrate good governance and act as good "stewards" of their capital. Such investments will be selected following a financial assessment, a governance assessment and in accordance with the sustainability approach.
- The Fund can invest in all countries, sectors and industries and will typically hold shares of 35 to 45 companies
- The Fund will seek to invest in companies whose management teams and boards display strong corporate governance (i.e., companies that balance the interests of all customers, employees, communities and suppliers) in the pursuit of profits and consider environmental, social and governance risks and opportunities in their corporate strategy.
- The Fund will only invest in companies that have at least one of the following: (i) a net zero science-based target; (ii) a non-science-based target which is a public active emissions reduction target; or (iii) a combined scope 1+2 intensity (tons CO2/\$M revenue) that is at least 25% below their industry average based on publicly disclosed emissions. Scope 3 emissions are not included.
- The Manager considers that investments in companies with significant exposure to certain activities would not be suitable for the Fund due to the impact that such companies have on society and/or the environment. The exclusions policy can be found at <https://fund-docs.vanguard.com/Vanguard-Capital-Stewards-Equity-Fund-Exclusions-Policy.pdf>. The Fund will avoid investing in shares issued by companies involved in and/or deriving revenue (above a threshold specified by the Manager and set out in the exclusions policy) from thermal coal extraction or thermal coal-based power generation, production and generation of oil sands, production of tobacco related products, nuclear weapons and controversial weapons.
- The Fund attempts to remain fully invested and hold small amounts of cash except in extraordinary market, political or similar conditions where the Fund may temporarily depart from this investment policy to avoid losses.
- The currency of the share class is GBP.
- The FTSE All-World Index (the "Index") serves as a reference benchmark for both performance comparison and weighted average carbon intensity comparison. Whilst the Fund may hold investments that are components of the Index, the Index is not considered during portfolio construction and the Manager will not manage the extent to which the Fund's investments differ from the Index.
- The Fund invests in securities which are denominated in currencies other than the share class currency. Movements in currency exchange rates can affect the return of investments.
- The Fund may use derivatives in order to reduce risk or cost and/or generate extra income or growth (known as "efficient portfolio management"). A derivative is a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index.
- The currency of the share class is GBP.
- The Fund is appropriate for long-term investment. You should have an investment horizon of at least 5 years.
- Income from the Fund will be reinvested and reflected in the price of shares in the Fund.
- Portfolio transaction costs will have an impact on performance.
- Shares in the Fund can be bought or sold on a daily basis (save on certain bank holidays or public holidays and subject to certain restrictions described in Appendix 1 of the Prospectus). A list of the days on which shares in the Fund cannot be bought or sold is available on: <https://fund-docs.vanguard.com/Vanguard-Investments-Funds-ICVC.pdf>

## Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean "risk free".
- The Fund is rated 5 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
  - Movements in currency exchange rates can adversely affect the return of your investment. Currency hedging is not guaranteed to completely eliminate currency risk.
  - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfers of assets and failed/delayed delivery of securities or payments to the Fund.

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.

**The risk and reward indicator does not take account of the following risks of investing in the Fund:**

- Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Sustainability risk. The Fund may not make possible investments if they do not meet the Fund's Sustainability Approach. This may affect the Fund's exposure to certain issuers and cause the Fund to forego certain investment opportunities.
- Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily. This could cause the Fund to incur higher costs when buying or selling investments or could mean that the Fund is not able to buy or sell investments when it would like to do so.
- Use of derivatives. The use of derivatives could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund's net asset value.

For further information on risks please see the "Risk Factors" section of the Prospectus on our website at <https://global.vanguard.com>

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
