

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Insight Fund - I Income

ISIN: GB00BN92ZY64, Base Currency: GBP

A fund of Morgan Stanley Funds (UK)

The fund is managed by Morgan Stanley Investment Management (ACD) Limited, part of the Morgan Stanley group.

OBJECTIVES AND INVESTMENT POLICY

Objective

- The Fund aims to grow your investment over 3 to 5 years.

Main Investments

- At least 70% of the Fund's investments will be in company shares.

Investment Policy

- To invest in a portfolio of equity securities of established and emerging companies. The portfolio may at times be concentrated, and will generally hold less than 50 holdings.
- The investment team seeks to invest in companies with a sustainable competitive advantage.
- The Fund may invest in derivatives, financial instruments which take their value indirectly from other assets, for investment or efficient portfolio management purposes. They rely on other companies to fulfil contractual obligations and carry more risk. Refer to the prospectus ('Financial Derivative Instruments' section) for more details.
- The Fund may also invest in debt securities convertible into common shares, China A-Shares via Stock Connect, depositary receipts, preference shares, warrants on securities, cash and cash equivalents and other equity linked securities. The Fund may invest up to 10% of its net assets in China A-Shares via Stock Connect.

Other Information

- "Insight" in the Fund name represents the fact that the Fund invests according to the Investment Advisor's insight into and assessment of the investment universe.
- The Fund actively integrates sustainability into the investment process by using environmental, social and governance ("ESG") factors which can contribute to investment decision-making but does not treat ESG factors as a screen to determining whether an investment can be made or can remain in the Fund's portfolio.
- The Fund's performance is compared against the MSCI All Country World Index (the "Index").
- Income may be paid in cash or additional shares.
- The Fund may invest up to 30% of its assets in other investments that do not meet the above criteria.

Buying and selling shares

- Investors may buy or sell shares on any London working day, or any other day if decided by the Authorised Corporate Director.

RISK AND REWARD PROFILE

The risk and reward category shown is based on historic data.

- Historic figures are only a guide and may not be a reliable indicator of what may happen in the future.
- As such this category may change in the future.
- The higher the category, the greater the potential reward, but also the greater the risk of losing the investment. Category 1 does not indicate a risk free investment.
- The fund is in this category because it invests in company shares and the fund's simulated and/or realised return has experienced very high rises and falls historically.
- The fund may be impacted by movements in the exchange rates between the fund's currency and the currencies of the fund's investments.

This rating does not take into account other risk factors which should be considered before investing, these include:

- Investment in China A-Shares via Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programs may also entail additional risks, such as risks linked to the ownership of shares.
- The fund relies on other parties to fulfill certain services, investments or transactions. If these parties become insolvent, it may expose the fund to financial loss.
- Sustainability factors can pose risks to investments, for example: impact asset values and increased operational costs.
- There may be an insufficient number of buyers or sellers which may affect the funds ability to buy or sell securities.
- There are increased risks of investing in emerging markets as political, legal and operational systems may be less developed than in developed markets.

CHARGES

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	0.90%
------------------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	Not applicable
------------------------	----------------

The entry and exit charges shown are maximum figures. In some cases you might pay less, you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 31st December, 2023. This figure may vary from year to year. It excludes almost all costs of dealing in the fund's underlying investments.

The fund may charge a fee on purchases, sales or switches if it feels other shareholders will suffer as a result of the cost of the transaction. This fee will be retained by the fund for the benefit of all shareholders.

For more information about charges, please see the Charges and Expenses section of the prospectus.

PAST PERFORMANCE

- Past performance is only a guide and does not guarantee future performance.
- Past performance has been calculated after the deduction of ongoing charges, as described above, but not the deduction of entry or exit charges.
- This share class was launched in 2021. The fund was launched in 2013
- Past performance has been calculated in GBP
- The fund's performance is compared against the MSCI All Country World (Net) Index. This index has been chosen for performance comparison purposes because it is a broad global equity index that represents large and medium sized company performance across developed countries. The fund is actively managed and does not base its investment process upon, and is not otherwise constrained by, the Index, so will not hold every company in this index and may also hold companies that do not form part of it.
