The Jupiter Global Fund - Jupiter Global Ecology Bond

(the 'Fund'), a sub-fund of The Jupiter Global Fund (the 'Company')

D GBP Acc HSC (ISIN - LU2411714699)

The management company is Jupiter Asset Management International S.A. ("the Management Company").

Objectives and investment policy

The Fund's objective is to generate income with the prospect of capital appreciation by investing primarily in fixed income securities issued by companies based anywhere in the world that focus on making a positive impact towards environmental and sustainable objectives.

The Fund invests primarily (at least 70% of its Net Asset Value) in fixed income securities (debt instruments, most commonly bonds, issued by companies or governments) globally (including emerging markets). All of the Fund's investments are issued by companies considered by the Investment Manager to be addressing global environmental and sustainability challenges by being substantially focused on activities generating or enabling a positive impact across any of the following sustainable solution themes: Clean energy; Green mobility; Green buildings and industry; Sustainable agriculture and land ecosystems; Sustainable oceans and freshwater systems; and Circular economy.

Investments will be substantially orientated towards the sustainable solutions themes (typically by assessing indicators such as the level of revenue, profit or capital expenditure related to economic activity that is contributing to the themes) which in turn focuses the investment universe on a sub-set of corporate fixed income securities. The Investment Manager will screen companies using proprietary and third-party research to exclude investment into activities and operations contradicting the principles of the United Nations Global Compact.

The Investment Manager also formally excludes investments in companies that generate more than 5% of revenues from: oil sands or shale extraction; alcohol production; adult entertainment; conventional weapons (small arms and/or military contracting for weapons purposes); gambling; tobacco production; nuclear energy generation.

Fund may also hold up to 30% in units of collective investment schemes, transferable securities, money market instruments, cash or near cash, and deposits.

The Fund has a sustainable investment objective within the scope of article 9 of SFDR.

Benchmark Information

ICE BofA Global Corporate Index (EUR Hedged)

The Fund is actively managed and uses the benchmark for performance comparison purposes only. This means the Investment Manager is taking investment decisions with the intention of achieving the Fund's investment objective without reference to a benchmark. The Investment Manager is not in any way constrained by a benchmark in its portfolio positioning.

The benchmark is not designated in respect of the sustainability investment objective of the Fund.

Any income arising in relation to this share class will be accumulated (i.e. automatically reinvested and reflected in the price of the shares).

Investors are able to buy and sell shares during any business day. If you tell us to buy or sell shares before 1pm (Luxembourg time) on any business day we will make the transaction on the same day. If you tell us to buy or sell shares after 1pm (Luxembourg time) we will make the transaction on the following business day.

This hedged share class (HSC) will use currency hedging techniques to reduce the effect of fluctuations in currency exchange rates on performance if compared to the main currency of the Fund, both positive and negative.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,

- Investments are selected or excluded on both financial and non-financial criteria, adopting an environmental solutions thematic approach to sustainable investment. The Fund's performance may differ from the broader market or other funds that do not utilize sustainable investment criteria when selecting investments. The Fund's investments are required to meet this criteria and the fund may sell a security for reasons related solely to its sustainable investment criteria.
- The lowest category does not mean 'no risk'.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls).
- Market and exchange rate movements can cause the value of an investment to fall as well as rise, and you may get back less than originally invested, even if the share class is hedged against the main currency of the Fund.
- Bonds are very sensitive to interest rate changes and it is possible that issuers of bonds will not pay interest or return the capital promised. Bonds may also be downgraded by rating agencies. These events can reduce the value of bonds and have a negative impact on performance.
- The Fund has the ability to use derivatives for efficient portfolio management purposes. Investments in financial derivative instruments used for efficient portfolio management can introduce leverage risks and negatively impact performance.
- All the Fund's charges are taken from capital. Should there not be sufficient capital growth in the Fund this may cause capital erosion.
- The Fund is dependent upon ESG information and data from third parties (which may include providers for research, reports, screenings, ratings and/or analysis such as index providers and consultants) and that information or data may be incomplete, inaccurate or inconsistent.

Charges

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

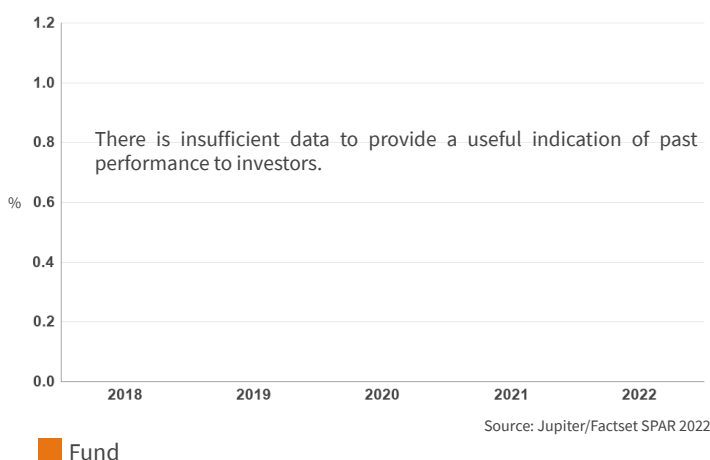

Ongoing charges	0.53%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The entry and exit charges shown are maximum figures.
- The ongoing charges figure is based on the annual charges as detailed in the prospectus. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- For detailed information about charges, please refer to the Company's prospectus, section "General Information".
