

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The Jupiter Global Fund - Jupiter Dynamic Bond ESG (the 'Fund'), a sub-fund of The Jupiter Global Fund (the 'Company')

Class L EUR Q Inc Dist (ISIN - LU2411723096)

The management company is Jupiter Asset Management International S.A. ("the Management Company").

Objectives and investment policy

The Fund's objective is to achieve a high income with the prospect of capital growth over the long term by investing in a portfolio of investments in global debt securities in respect of which consideration is given to certain environmental, social and governance ("ESG") characteristics.

The Fund will invest at least 70% of its value directly in debt securities or indirectly through derivative instruments. Debt securities may be issued or guaranteed by governments or corporate entities located anywhere in the world including emerging markets. Debt securities may be investment grade or sub-investment grade or unrated, may have any maturity including long term, short term or may have no set maturity, may have fixed, variable, or floating rates of interest and may be denominated in any currency. The Fund may also invest up to 30% in other transferable securities including equity and equity related securities and liquid assets.

The Fund may invest up to:

- 30% in contingent convertible bonds (bonds which can, upon the occurrence of a predetermined event, be converted into shares of the issuer).
- 10% in distressed bonds (bonds of companies or governments which are experiencing financial or operational distress, default or may be in bankruptcy) at time of purchase.
- 10% in catastrophe bonds.
- 20% in securitisations such as asset-backed or mortgage-backed securities (bonds whose payments are funded by the cash flow of a pool of assets e.g. repayments on a car or home loan).
- 20% in China interbank bond market via China Bond Connect.
- 20% in unrated bonds.

- 30% in perpetual bond (bonds with no maturity date) excluding contingent convertible bonds.

The Fund may use derivatives with the aim of generating returns (i.e. for investment purposes) and/or reducing the overall costs and/or risks of the Fund. A derivative derives its value from an underlying asset (e.g. shares, bonds, currencies, interest rates and market indices) allowing the Fund Manager to track its price changes without owning it.

The Investment Manager's investment process includes consideration of the following two environmental and social characteristics; support of the transition to a low carbon economy and upholding responsibilities to people and planet.

At least 90% of the Fund's investments (excluding cash, deposits and money market instruments and instruments for hedging purposes) are expected to meet these characteristics or demonstrate sound prospects for improvement in these areas as determined by the Investment Manager. Further information on ESG characteristics including exclusions can be found in the prospectus.

Benchmark Information

The Fund is actively managed. The Fund is not managed by reference to a benchmark and does not use a benchmark for performance comparison purposes. This means the Investment Manager is taking investment decisions with the intention of achieving the Fund's investment objective without reference to a benchmark. The Investment Manager is not in any way constrained by a benchmark in its portfolio positioning.

Any income arising in relation to this share class will be distributed on a quarterly basis by default.

Investors are able to buy and sell shares during any business day. If you tell us to buy or sell shares before 1pm (Luxembourg time) on any business day we will make the transaction on the same day. If you tell us to buy or sell shares after 1pm (Luxembourg time) we will make the transaction on the following business day.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk

Typically higher rewards, higher risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The lowest category does not mean 'no risk'.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls).
- **Interest Rate Risk** - The Fund can invest in assets whose value is sensitive to changes in interest rates (for example bonds) meaning that the value of these investments may fluctuate significantly with movement in interest rates e.g. the value of a bond tends to decrease when interest rates rise.
- **Credit Risk** - The issuer of a bond or a similar investment within the Fund may not pay income or repay capital to the Fund when due.
- **Derivative risk** - the Fund may use derivatives to generate returns and/or to reduce costs and the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment.
- **Share Class Hedging Risk** - The share class hedging process can cause the value of investments to fall due to market movements, rebalancing considerations and, in extreme circumstances, default by the counterparty providing the hedging contract.
- **Contingent convertible bonds** - The Fund may invest in contingent convertible bonds. These instruments may experience material losses based on certain trigger events. Specifically these triggers may result in a partial or total loss of value, or the investments may be converted into equity, both of which are likely to entail significant losses.
- **Sub investment grade bonds** - The fund may invest a significant portion of its assets in securities which are those rated below investment grade by a credit rating agency. They are considered to have a greater risk of loss of capital or failing to meet their income payment obligations than higher rated investment grade bonds.
- **Pricing risk** - Price movements in financial assets mean the value of assets can fall as well as rise, with this risk typically amplified in more volatile market conditions.
- **Counterparty Default Risk** - The risk of losses due to the default of a counterparty e.g. on a derivatives contract or a custodian that is safeguarding the Fund's assets.
- **ESG and Sustainability** - Investments are selected or excluded on both financial and non-financial criteria. The Fund's performance may differ from the broader market or other Funds that do not utilise ESG/Sustainability criteria when selecting investments.
- **Bond Connect Risk** - The rules of the Bond Connect scheme may not always permit the Fund to sell its assets, and may cause the Fund to suffer losses on an investment.
- **Charges from capital** - Some or all of the Fund's charges are taken from capital. Should there not be sufficient capital growth in the Fund this may cause capital erosion.
- For a more detailed explanation of risk factors, please refer to the "Risk Factors" section of the Prospectus.

Charges

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. In some cases, you might pay less and you can find out the actual entry and exit charges from your financial adviser or distributor.

Charges taken from the Fund over a year

Ongoing charges	1.45%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The ongoing charges figure is based on the annual charges as detailed in the prospectus. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- For detailed information about charges, please refer to the Company's prospectus, section "General Information".

Past performance

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 25/01/2022
- Share/unit class launch date: 25/01/2022
- This chart shows the past performance of the Fund over the last ten full calendar years. If the Fund was launched less than ten years ago, performance is shown since launch. This performance illustration is calculated after the effect of ongoing charges but does not take into account commissions and costs incurred on the issue and redemption of shares. Performance is shown in the base currency of the share class shown.
- Performance is calculated in EUR.

Practical information

- The depository of the Company is Citibank Europe plc, Luxembourg Branch.
- You can find further information about the Company, all available sub-funds within the Company and share classes at www.jupiteram.com. Investors may obtain the Prospectus, the articles of incorporation and the latest annual (30 September) and half-yearly (31 March) report and accounts by contacting the transfer agent, Citibank Europe plc, Luxembourg Branch via Telephone: +352 451414328, Fax: + 352 45 14 14 860, or Email: citiluxta.jupiter@citi.com.
- These documents are available free of charge and are only available in English and French.
- The prices of shares can be found at www.jupiteram.com and are available at the registered office of the Company. The Company may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus. This Key Investor Information document describes a share class of a sub-fund within the Company. The Prospectus and periodic reports and accounts are prepared for the Company as a whole. The assets and liabilities of each sub-fund within the Company are segregated by law.
- Investors have the right to convert their Shares in one Class of a sub-fund into Shares in another Class of the same sub-fund or into Shares in another sub-fund, provided they meet the minimum investment requirements set out in the Prospectus. An explanation of how to exercise these rights can be found in the Prospectus.
- The taxation regime applicable to the Company may have an impact on the investor's personal tax position because the Company is subject to Luxembourg rules and regulations.
- Jupiter operates a group-wide remuneration policy, overseen by an independent Remuneration Committee. Details of this policy, including an overview of remuneration elements and associated governance processes, are set out on our website <https://www.jupiteram.com/remuneration-policy/>. A paper copy of these Remuneration Disclosures is available free of charge, upon request, to the administrator.
