EF GROW

Four good reasons to invest in VIG:

1 Broad portfolio with growth potential

- Insurance solutions in the property/casualty, life and health business across approx. 30 countries
- Over 30 years of M&A experience in the CEE region
- Organic and inorganic grown initiatives to further expand VIG's leading market position

2 Financial stability

- "A+" rating with stable outlook from Standard & Poor's
- Solvency ratio of 280% in 2022
- Continuous dividend distribution every year since 1994

3 Proven management principles ensure customer proximity

- Local entrepreneurship for taking quick, flexible action on the market
- Multi-channel distribution to exploit all sales opportunities
- Multi-brand policy for ensuring broad appeal in relation to target groups
- Conservative investment and reinsurance policies create trust

4 Sustainability as an integral part of our business model with own strategy since 2017

- Innovative products and services that offer social and environmental added value for as many parts of the population as possible
- Consideration of environmental and social criteria for investments and underwriting
- Diversity strategy promotes inclusion and equal opportunity

MORE GROWTH AND **MORE** SOLIDARITY

**Dear Shareholders,
Ladies and Gentlemen!**

Looking back on 2022, I look back on a year in which we have all been concerned by the war in Europe. We all saw the news of the past year and are aware that media generally focuses on events that are decidedly less positive. In addition there was the catastrophic earthquake that hit south-east Türkiye and various regions of Syria. It is for this very reason that, in my message to you, I want to look in particular at what has gone well, including at what we are able to influence what affirms our trajectory so far and what gives us confidence in what is to come.

Embodying solidarity

We live a strong sense of solidarity within our Group. The employees in our companies have shown exceptional proof of their solidarity with their Ukrainian colleagues and their families. I would like to express my profound respect for all of our employees – especially those in Ukraine, who continue to be there for our customers. Not forgetting those in all other companies who are involved in numerous aid initiatives. For instance, we have set up the VIG Family Fund, which will contribute to rebuilding Ukraine in the medium and long term. We also responded immediately to

the devastating earthquake that struck Türkiye and Syria in early 2023, providing emergency aid in the form of financial support.

Great potential in the CEE region, Resilience through diversity

VIG is the largest insurance group in Central and Eastern Europe, and we want to expand our leading position. We believe in the long-term potential that our home region has to offer and in the continued strong economic growth in the CEE region, which is above that of Western Europe. We have the economic strength and necessary stability for overcoming challenges. Whereas our Polish companies were impacted to a greater extent by the subdued economy during the reporting period, the Austrian and Czech markets performed very well indeed. The Romanian market has also shown itself to be more attractive, as a result of the withdrawal of a competitor from the market. In all of our markets, we want to support our stakeholders as a reliable partner and to keep growing. To do this, we place great importance on diversity within the Group as this is what makes us innovative and flexible and ensures that we can be close to our customers.

Key figures 2022

Result before taxes: EUR
562.4 million (+10.0%)

Group premiums EUR
12.6 billion (+14.1%)

Combined ratio: **94.9%**

Successful acquisitions from Aegon

In 2022, we were able to achieve our goal of expanding our market leadership in Central and Eastern Europe thanks to our acquisition of the companies in Hungary and Türkiye that were previously owned by the Dutch Aegon Group. This acquisition makes us the market leader in Hungary, where the Group not only grew by 1,000 employees, 1.5 million customers and EUR 311 million in premium volume, but also benefits from new opportunities in Asset Management and the Pension Funds ➤

Setting the course: ready for the future

As Chairwoman of VIG's Managing Board, Elisabeth Stadler's work always focused on the long term. Having joined in 2016, the measures implemented during her time as head of the company have made VIG more digital and more sustainable and will continue to have a positive impact on the company's development into the future. She has decided not to renew her contract in June 2023.

2016

- Start of the strategic work programme Agenda 2020. Over the course of five years, operational performance is improved and new business opportunities are seized.

2017

- VIG Xelerate is held for the first time. This internal innovation competition drives digital transformation and promotes the transfer of knowledge across the Group.
- VIG publishes its sustainability strategy and a sustainability report for the first time.

2018

- Cooperation agreement with Erste Group is extended to 2033.

2019

- VIG exceeds a premium volume of EUR 10 billion for the first time.
- The VIG Climate Change Strategy is published and contains strict investment and underwriting policies for the coal sector.

2020

- Thanks to early digital transformation efforts VIG deals well with the COVID-19 pandemic. The working model for employees is made permanently more flexible, with working from home introduced to the benefit of all.

2021

- Start of the new strategy programme VIG 25. Sustainability targets are embedded at a strategic level for the first time.
- VIG is the first insurance company in Europe to issue a sustainability bond. The net proceeds totalling around EUR 500 million are invested in social and environmental projects.

2022

- VIG on course for expansion: The companies in Hungary and Türkiye that were previously part of Aegon are acquired successfully. VIG becomes the market leader in Hungary.

Solidarity with Ukraine

Immediately after the Russian attack on Ukraine, VIG's companies started working on aid initiatives for their Ukrainian colleagues and their families. Several employees volunteered their time, gathered aid supplies and offered accommodation to refugees. The VIG Managing Board set up the VIG Family Fund with a starting donation of EUR 5 million. Further information is available in the Sustainability Report starting on page 56.

Support for those affected by earthquake

Following the catastrophic earthquake, the Managing Board of VIG Holding decided to donate EUR 1 million in emergency aid to the Red Cross. In addition to this amount, a further EUR 500,000 was provided to each of the aid funds set up by the two local VIG companies, with the aim of supporting the affected employees and their families.

>

business. The expansion also contributes to our goal as set out in our strategic programme VIG 25: more value creation by further expanding our business model beyond the insurance sector.

A good handle on inflation

As part of our strategic programme VIG 25, we are continuing to work on increasing the efficiency of our processes. This is a key part of cushioning the impact of the increased claims handling costs. In addition, negotiations with our partners – such as car repair stations – help to alleviate cost pressure. Moreover, we are currently still recording fewer claims in the motor sector than before the COVID-19 pandemic. Premium payments in our largest markets will be automatically adjusted to developments, such as to the consumer price index. In other markets, we predominantly have single-year agreements, which offers another opportunity for premium adjustments. On the whole,

VIG has a good handle on the challenge posed by high inflation, as demonstrated by the combined ratio, which was 94.9% at the end of the year.

A positive personal summary

I have held the position of Chairwoman of VIG since 2016 and it has been a great pleasure to do so. However, I will not be extending my employment contract when it expires in June 2023. I would like to thank all of my colleagues at VIG for the successes we have achieved during my tenure. We have achieved many great things together in the last seven years, and we have been able to continually improve our important key figures. In 2022, premium volume rose to EUR 12.6 billion and our pre-tax result climbed to EUR 562.4 million. In light of this positive business performance, we also want to offer our shareholders an attractive dividend and will recommend to the Annual General Meeting an increase of 4.0% to EUR 1.30.

**“Great levels of solidarity
are clear to see
within our Group.”**

In its first five years, the strategic work programme Agenda 2020 laid the foundations for continued success in the future, both in terms of digitalisation and the focus on sustainability. We have also implemented numerous initiatives, from closed file review, anti-fraud management and the expansion of the Assistance area through to new product ideas. The strategic programme VIG 25 focuses on more efficiency, greater proximity to our customers and more value

New financial reporting

New balance sheet and income statement, plus new key figures: The IFRS 9 and IFRS 17 standards will change VIG's reporting practices from 2023. A teach-in with CFO Liane Hirner and further information can be found at www.vig.com/IFRS-17-9

creation. In addition, we were drawing up a Group-wide sustainability programme in conjunction with VIG 25 that sets out objectives and measures in the reporting period. This sustainability programme is created in collaboration with various experts from VIG Holding and all Group company CEOs and in consideration of special local requirements. We aim to finalise this in 2023.

Confidently into the future

There is a lot in store for 2023 – both expected and unexpected. The new financial reporting standards IFRS 9 and IFRS 17 entered into force on 1 January 2023 and will change the way that we present our results in the future. However, the new financial reporting defined by IFRS 9/17 will not have any impact on VIG's strategy or business model.

VIG is well prepared for the future and has a very experienced Managing Board. I am delighted that my colleague on

the Managing Board, Hartwig Löger, with his profound knowledge of the insurance sector and of the CEE region, will assume the position of Chairman in mid-2023. Together with the Managing Board and our roughly 29,000 employees, he will ensure that VIG will continue to distinguish itself through success and reliability and keep its promise: Protecting what matters.

Elisabeth Stadler

AT A GLANCE

Together, the VIG companies form the **leading insurance group** in Central and Eastern Europe. VIG Holding is headquartered in Vienna and manages and supports over **50 insurance companies and pension funds**. The roots of the Group reach back to the year 1824.

The insurance companies are established in their respective regional markets and their roughly **29,000 employees** provide the best possible protection against the risks of day-to-day life for roughly **28 million customers**.

The VIG strategy is aimed at achieving **sustainable profitable growth**. It relies on **diversity** as a success factor. The wealth of different languages, cultures and entrepreneurial approaches ensures the greatest possible proximity to customers and promotes innovation and creativity.

Diversity creates added value

VIG's reports are colourful because VIG is colourful. The rounded, colourful sections of the Annual Report and the Sustainability Report represent the markets in which we operate. VIG places value on decentralised structures, local entrepreneurship and high levels of autonomy on the part of the insurance companies. Diversity is a core value of the Group – and is a key success factor, even in turbulent times.

VIG country portfolio

VIG Insurance Group divides its region into two areas. First, the region of **Central and Eastern Europe**, which consists of 20 countries, including Austria, whose long-term growth opportunities will be exploited. Second, ten **special markets** where objectives specific to each market will be pursued. Four of these countries (Germany, Georgia, Liechtenstein and Türkiye) are in the “Special Markets” reportable segment.

in the video at
www.annual-report.vig/2022

STRATEGIC PRINCIPLES

The mission statement, strategic objectives and clear management principles determine the long-term direction of VIG.

Strategic objectives

- ▶ Expanding the leading market position in the CEE region
- ▶ Creating sustainable value
- ▶ Sustainability objectives with respect to society, customers and employees

On the basis of this long-term strategic orientation VIG formulates medium-term objectives. For example, the Group aims to be at least one of the top three insurance groups in each CEE market by 2025 (with the exception of Slovenia). It intends to increase premium volume by taking advantage of long-term opportunities in health insurance and risk provisions in the CEE region, among other things. One of the ways in which sustainable value is created is through efficiency in the operating business, such as by making more targeted use of synergies between companies. The medium-term ESG objectives are diverse. The VIG Group wants to increase the consideration of social and environmental factors in investments, support local communities, make offices largely climate-neutral by 2030, promote employee training and education, establish programmes to promote awareness of future precaution and risk protection (risk resilience) in three quarters of the CEE markets and develop more products offering social and environmental added value.

Mission statement

Our vision

We want to be the first choice for our customers. Our stakeholders see us as a stable and reliable partner. This enables us to consolidate our position as the leading insurance group in Central and Eastern Europe.

Our mission

We stand for stability and competence in the field of risk protection. We use our experience, know-how and diversity to move closer to our customers. We see it as our responsibility to protect the values that matter to our customers.

Our values

Diversity
Proximity to our customers
Responsibility

Our promise

We enable customers to live a safer and better life:
Protecting what matters.

Management principles

Local entrepreneurship

VIG's decentralised organisational structure gives local management and employees the flexibility needed in the business operations. In the end, they know best about the needs of the local population and the specifics of their markets. This allows products and sales to be adjusted optimally to local circumstances. VIG Holding is responsible for steering the Group.

Multi-brand policy

VIG relies on regionally established brands, as this allows it to address different target groups directly and personally with its over 50 insurance companies and pension funds in 30 markets. This also strengthens its regional identity and creates greater customer and employee loyalty to the company. In addition to the local brand names, "Vienna Insurance Group" conveys the internationality and strength of the Group.

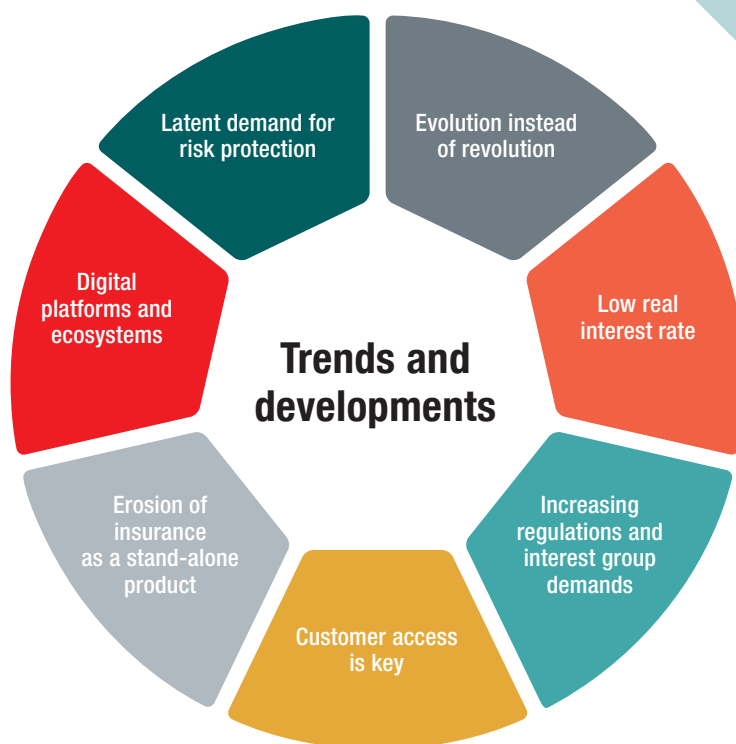

Multi-channel distribution

In order to best satisfy the particular preferences of its customers for receiving advice, VIG insurance companies use their own field staff, brokers and agents, multi-level marketing, direct and digital sales. Bancassurance is also very important. The cooperation agreement with Erste Group, which is also firmly established in the CEE region, has existed since 2008.

Conservative investment and reinsurance policies

The consolidated VIG companies are responsible for EUR 34,399.3 million in investments (including cash and cash equivalents and excluding investments for unit-linked and index-linked life insurance). Security and sustainability are at the focus of the investment strategy, which is why investments are predominantly made in bonds. Diligence also guides the reinsurance policy. To obtain the optimal risk balance, risks are bundled at the Group level and partially placed on the international reinsurance market.

VIG 25 ▶
Strategic programme
until 2025

MORE SUCCESS: THE VIG 25 STRATEGIC PROGRAMME

The VIG 25 strategic programme sets down its goals for 2025. More efficiency, more customer proximity and more value added prepare the ground for more sustainable success.

The VIG 25 strategic programme was developed for the period from 2021 to 2025. Current trends and developments and their effects on the insurance industry have led to clear requirements for the Group: further strengthening sustainability as an integral part and foundation of the business model, promoting greater efficiency and productivity supported by digitalisation, developing new ways to approach and retain customers and promoting a general understanding of risk provisions. The business model is therefore being optimised, enhanced and expanded through targeted activities in three strategic focus areas. These will

consolidate VIG's sustainable success and help achieve its strategic objectives (see page 10). VIG launched a continuing programme during the reporting period to achieve the requirement of further strengthening sustainability as an integral part of the business model. In collaboration with various experts from

VIG Holding and all Group company CEOs and in consideration of special local requirements, we are drawing up a Group-wide sustainability programme in conjunction with VIG 25 that sets out objectives and measures. We aim to finalise this sustainability programme in 2023.

More information on the trends that were analysed as a basis for the VIG 25 strategic programme is available in the online version of the Group Annual Report at www.annual-report.vig/2022

Requirements

- ▶ **Further strengthening sustainability as an integral part and foundation of the business model**
- ▶ **Further increasing the efficiency and productivity of the operating business thereby continuing and intensifying the associated digital transformation**
- ▶ **Developing new ways to approach and retain customers in order to respond to changing consumer expectations and behaviours**
- ▶ **Promoting consumer understanding of the importance of risk provisions**

Strategic focus areas in three horizons

- ▶ **More efficiency**
Optimise the business model by increasing productivity and efficiency
 - Process simplification and automation
 - Exchange and implement best practice examples
 - Further optimise underwriting and pricing
- ▶ **More customer proximity**
Enhance the business model with new ways to approach customers and by enriching the product range with services that provide additional value for customers
 - Increase brand visibility and the attractiveness of products
 - Increased use of a hybrid distribution approach that combines personal and digital contact
- ▶ **More value added**
Expand the business model and value chain beyond the insurance business
 - Focus on asset management and the pension fund business
 - Establish ecosystems
 - Promote awareness of precaution and risk protection

HIGHLIGHTS 2022

VIG shares on the Budapest Stock Exchange

VIG shares have been listed on the Vienna Stock Exchange since 1994 and on the Prague Stock Exchange since 2008. And, since November 2022, the shares are also traded on the Budapest Stock Exchange. By taking this step, VIG aims to gain new investors in Central and Eastern Europe in particular.

Successful acquisition of Aegon companies

In March 2022, VIG Holding acquired the Hungarian business of Dutch company Aegon after approval by the local Hungarian authorities; the 45% participation of the Hungarian state holding Corvinus in VIG's Hungarian business was also closed successfully. The acquisition meant that VIG was able to achieve its goal of being in the top three in the Hungarian market by 2025 as early as 2022 and assume its position as market leader in Hungary. The closing in Türkiye was also completed in April 2022. For the acquisition of the remaining Eastern European business of Aegon with companies in Poland and Romania, only the approval from Romania is pending for a closing.

Member of the VIG Managing Board Gábor Lehel rings in the first day of trading VIG shares on the Budapest Stock Exchange.

Rating: A+ with stable outlook

The international rating agency Standard & Poor's (S&P) reconfirmed its "A+" rating with a stable outlook for Vienna Insurance Group. This means that VIG remains one of the companies with the best rating in the Austrian Traded Index (ATX) of the Vienna Stock Exchange. The rating agency maintains its rating of VIG's business profile as strong and the financial risk profile as very strong. As the market leader in Austria and multiple CEE markets, Vienna Insurance Group continues to benefit from the upswing in insurance markets and from its geographic and business diversification. S&P once more highlighted VIG's excellent capital resources. The long-standing cooperation with Erste Group in the field of bancassurance is also positively highlighted.

Successful bond placement

At the beginning of June 2022, Vienna Insurance Group AG Wiener Versicherung Gruppe successfully placed Subordinated Fixed to Floating Rate Tier 2 Notes with scheduled maturity in 2042 in an aggregate principal amount of EUR 500 million with institutional investors in Austria and abroad. At the same time, VIG made an offer to repurchase the subordinated notes issued in 2013 (ISIN: AT0000A12GN0) and repurchased Notes with a total nominal value of EUR 215.6 million.

More highlights from financial year 2022 can be found in VIG's online report at www.annual-report.vig/2022

New management

In mid-2023, Elisabeth Stadler will be followed by her current deputy, Hartwig Löger, as Chair of the Managing Board.

In mid-2023, VIG Chairwoman Elisabeth Stadler and Managing Board member Peter Thirring will reach retirement age and will therefore not be extending their current terms. From 1 July, the Managing Board of Vienna Insurance Group will be made up of Hartwig Löger (General Manager), Peter Höfinger (Deputy General Manager), Liane Hirner (CFRO), Gerhard Lahner (COO), Gábor Lehel

Name: Peter Höfinger
Year of birth: 1971
Position from July 2023:
 Deputy General Manager and Deputy Chairman of the Managing Board
On the VIG Managing Board since:
 January 2009
Industry expertise: 25 years

“For us, diversity is a success factor, a fundamental value and something we live by.”

(CIO) and Harald Riener. The leadership team has a wealth of experience and has been working together to lead VIG for a number of years.

Both our new General Manager, Mr Löger, and his Deputy General Manager, Mr Höfinger, have decades of experience in the insurance sector and deep knowledge of the Central and Eastern European markets. Mr Löger has previously spent five years as head of sales at Donau Versicherung and was CEO of Uniqa Österreich AG. He was the Minister of Finance for Austria from December 2017 to June 2019. Subsequently, he worked in an advisory capacity for Wiener Städtische Versicherungsverein, which is VIG's principal shareholder. He has been a member of the VIG Managing Board since January 2021. In this position, he has led the development of the new strategic programme VIG 25, which sets the Group's main strategic focus areas for the years to come.

Mr Höfinger held positions on managing boards, including the role of chairman, of insurance companies in the Czech Republic, Poland and Hungary before joining the managing board of Donau Versicherung. He has been on the VIG Managing Board since 2009.

Together with all employees of the VIG companies, the new Managing Board will ensure that VIG continues to develop in a sustainable manner.

Name: Hartwig Löger
Year of birth: 1965
Position from July 2023:
 General Manager and Chairman of the Managing Board
On the VIG Managing Board since:
 January 2021
Industry expertise: 38 years

“As the largest insurance group in the CEE region, VIG will continue to represent stability and sustainability into the future.”

More information about Hartwig Löger and Peter Höfinger can be found in the videos in the online report at www.annual-report.vig/2022

Corporate governance report

Transparency and stakeholder trust are important to us. Observance of and compliance with the provisions of the Austrian Code of Corporate Governance therefore play an important role.

The Austrian Code of Corporate Governance was introduced in 2002 and is regularly updated according to legislation and current trends. It is the standard for proper corporate governance and control in Austria. Provisions of the Code contribute to strengthening the trust in the Austrian capital market. The reports that companies are required to publish on compliance with these provisions require a high level of transparency.

VIG Holding is committed to application and compliance with the January 2023 version of the Austrian Code of Corporate Governance. § 243c UGB and § 267b UGB (Consolidated Corporate Governance Report) were also applied when preparing this consolidated corporate governance report.

The Austrian Code of Corporate Governance is available to the public both on the VIG Insurance Group website at <https://vig.com/corporate-governance-vig> and the website of the Austrian Working Group for Corporate Governance at www.corporate-governance.at.

VIG Holding sees corporate governance as a continuously changing process that responds to new conditions and current trends for the benefit of the Group and its stakeholders. The goal of all corporate governance measures is to ensure responsible corporate management aimed at long-term growth while simultaneously maintaining effective corporate control.

The Managing Board, Supervisory Board and employees consider observance of and compliance with the rules of the Austrian Code of Corporate Governance to be highly important for the practical implementation of corporate governance. All information concerning the composition and work procedures of the Managing Board and the Supervisory Board is presented below.

The rules of the Austrian Code of Corporate Governance are divided into the following three categories:

- Rules based on mandatory legal requirements ("Legal Requirements")

- Rules that must be observed. Non-compliance with these rules must be declared and explained in order to comply with the Code ("Comply or Explain")
- Non-compliance with rules which are merely recommendations do not need to be disclosed or explained ("Recommendations")

VIG Holding complies with the rules of the Austrian Code of Corporate Governance. According to C-Rule 52a of the Austrian Code of Corporate Governance, the number of members on the Supervisory Board (without employee representatives) shall be ten at most. In 2022, the Supervisory Board of VIG Holding consisted of twelve members elected by the Annual General Meeting. The number of members in the Supervisory Board is due to the fact that the company operates over 50 insurance companies and pension funds in 30 countries. This makes it possible to include additional expertise with respect to the internationality and further growth of the VIG Group, including in response to increasing regulatory requirements.

The Group's scope of consolidation also includes capital market-oriented subsidiaries that are required by the legal systems applicable to them to prepare and publish a corporate governance report. These include: Ray Sigorta (Türkiye) and Makedonija Osiguruvanje (North Macedonia). The Corporate Governance reports are available on the company websites:

- <https://www.kap.org.tr/en/BildirimPdf/1117968> and <https://www.kap.org.tr/en/Bildirim/1117970>;
- <https://www.insumak.mk/about-us/reports/?lang=en> (as an integral part of the annual report).

Reference is made to the information in this regard.

The shareholder structure of VIG Holding can be viewed at the following link: www.vig.com/shareholder-structure.

MEMBERS OF THE MANAGING BOARD AND THEIR RESPONSIBILITIES

The VIG Holding Managing Board had the following eight members as of 31 December 2022: Elisabeth Stadler (General Manager (CEO), Chairwoman of the Managing Board), Hartwig Löger (Deputy General Manager, Deputy Chairman of the Managing Board), Liane Hirner (CFRO), Peter Höfinger, Gerhard Lahner (COO), Gábor Lehel (CIO), Harald Riener and Peter Thirring (CTO).

Changes during and after the end of the financial year

The VIG Holding Managing Board will have the following members from 1 July 2023: Mr Löger, Chairman of the Managing Board (General Manager), Mr Höfner, Deputy Chairman of the Managing Board (Deputy General Manager), Ms Hirner, Mr Lahner, Mr Lehel and Mr Riener. All Managing Board terms will expire on 30 June 2027. Ms Stadler and Mr Thirring will, at their own request, not extend their terms on the Managing Board when they expire on 30 June 2023.

Further information on the members of the Managing Board, including their employment history, is presented below:

Elisabeth Stadler
General Manager (CEO),
Chairwoman of the Managing Board

Year of birth: 1961

Date first appointed:

1 January 2016

End of current term of office:

30 June 2023

Elisabeth Stadler studied actuarial mathematics at the Vienna Technical University and began her career in the Austrian insurance industry as a Managing Board Member and Chairwoman. In May 2014, she was awarded the professional title of professor by Federal Minister Gabriele Heinisch-Hosek for her merits for the insurance industry. She held the position of General Manager at Donau Versicherung from September 2014 to March 2016, and has been CEO of VIG Holding since 2016.

Areas of responsibility: Management of the VIG Group, Strategy, Bancassurance and International Partnerships, Communications & Marketing, European Affairs and ESG, General Secretariat and Legal, Human Resources, Internal Audit, Sponsoring, Subsidiaries and M&A, Central Functions

Country responsibilities: Germany

Supervisory board positions or comparable positions in other Austrian and foreign companies outside the Group: OMV Aktiengesellschaft, voestalpine AG, Institute of Science and Technology Austria, Austrian Red Cross

Hartwig Löger Deputy General
Manager, Deputy Chairman of the
Managing Board

Year of birth: 1965

Date first appointed:

1 January 2021

End of current term of office:

30 June 2027

Hartwig Löger began his career in the insurance industry in the brokerage business in 1985. After completing his studies in insurance management at the Vienna University of Economics and Business, he joined Allianz as sales manager in Styria in 1989. From 1997 to 2002, he was head of sales at Donau Versicherung. This was followed by a number of senior management positions in the UNIQA Group, most recently as CEO of UNIQA Österreich AG until the end of November 2017. Hartwig Löger was the Minister of Finance for Austria from December 2017 to June 2019. He worked for VIG Insurance Group under an advisory agreement with Wiener Städtische Versicherungsverein, the principal shareholder of VIG Holding, from July 2019 to December 2020.

Areas of responsibility: Planning and Controlling, Strategy and Development

Country responsibilities: Austria, Slovakia, Czech Republic, Hungary

Liane Hirner, CFRO

Year of birth: 1968

Date first appointed:

1 February 2018

End of current term of office:

30 June 2027

Liane Hirner studied business administration in Graz. Before joining VIG Insurance Group, she worked at PwC Austria's audit department where she started in 1993, and when she left, Liane Hirner was partner in the insurance area. In addition to her work as an auditor, Liane Hirner has also been involved in many professional associations, such as the IFRS Working Group of the Austrian Insurance Association and the Insurance Working Party of Accountancy Europe in Brussels. Liane Hirner was appointed to the VIG Holding Managing Board on 1 February 2018. She assumed the position of Chief Financial Officer on 1 July 2018. In 2019, EIOPA appointed Liane Hirner as a new member of the Insurance & Reinsurance Stakeholder Group (IRSG).

Areas of responsibility: Asset Risk Management, Digitalisation, Finance and Risk, Enterprise Risk Management, Finance Department, Investor Relations

Country responsibilities: Liechtenstein

Supervisory board positions or comparable positions in other Austrian and foreign companies outside the Group: Autoneum Holding AG – Winterthur, Switzerland

Peter Höfinger

Year of birth: 1971

Date first appointed:

1 January 2009

End of current term of office:

30 June 2027

Peter Höfinger studied law at the University of Vienna and University of Louvain-la-Neuve (Belgium). Peter Höfinger has been a member of the VIG Holding Managing Board since 1 January 2009. Prior to that, he was a director of the Managing Board at Donau Versicherung, responsible for sales and marketing. He joined this company in 2003. Previously, he held positions as managing board chairman and managing board member outside the Group in Hungary, the Czech Republic and Poland.

Areas of responsibility: Corporate Business, Reinsurance

Country responsibilities: Albania, Bosnia-Herzegovina, Bulgaria, Kosovo, Croatia, Moldova, Montenegro, North Macedonia, Romania, Serbia

Gerhard Lahner, CCO

Year of birth: 1977

Date first appointed:

1 January 2020

End of current term of office:

30 June 2027

Gerhard Lahner studied business administration at the Vienna University of Economics and Business and has held a variety of positions for VIG Insurance Group since 2002. He was a member of the Managing Boards of Austrian insurance companies Donau Versicherung and Wiener Städtische and Czech companies Kooperativa and ČPP. Gerhard Lahner was also a substitute member of the VIG Holding Managing Board from 1 January 2019 to 31 December 2019.

Areas of responsibility: Asset Management (incl. Real Estate), Holding IT, Process & Project Management, Treasury incl. Asset Liability Management, VIG Corporate IT

Country responsibilities: Georgia

Supervisory board positions or comparable positions in other Austrian and foreign companies outside the Group: Wien 3420 Aspern Development AG, Wiener Börse AG, Aktienforum

Gábor Lehel, CIO

Year of birth: 1977

Date first appointed:

1 January 2020

End of current term of office:

30 June 2027

Gábor Lehel studied business administration with a major in finance in Tatabánya and Budapest (Hungary). He joined VIG Insurance Group in 2003, where he worked in Controlling and as head of the General Secretariat at VIG Holding before being appointed to the Managing Board of the Hungarian insurance company UNION Biztosító in 2008. He was General Manager of UNION Biztosító from mid-2011 to 31 December 2019. From 1 January 2016 to 31 December 2019, he was also a substitute member of the VIG Holding Managing Board.

Areas of responsibility: Innovation

Country responsibilities: Belarus

Harald Riener

Year of birth: 1969
Date first appointed: 1 January 2020
End of current term of office:
30 June 2027

Harald Riener studied social and economic sciences at the Vienna University of Economics and Business and joined the insurance group in 1998, where he worked in the marketing area for Donau Versicherung and Wiener Städtische until 2001. After working for a media publishing company, he returned to the Group in 2006 as Marketing Manager of VIG Holding. He became a member of the Managing Board in Croatia in 2010, and was appointed CEO in 2012. From 2014 to 2019, Harald Riener was a member of the Managing Board of Donau Versicherung where he was responsible for distribution and marketing.

Areas of responsibility: Assistance, Customer Experience, Tool Box Sales

Country responsibilities: Estonia, Latvia, Lithuania, Poland, Ukraine

Supervisory board positions or comparable positions in other Austrian and foreign companies outside the Group: VIG/C-QUADRAT

Peter Thirring, CTO

Year of birth: 1957
Date first appointed: 1 July 2018
End of current term of office:
30 June 2023

Peter Thirring studied law at the University of Vienna. He has used his more than 30 years of insurance experience in the Generali insurance group. He was General Manager of Donau Versicherung from March 2016 to the end of June 2018. Peter Thirring was appointed to the VIG Holding Managing Board on 1 July 2018.

Areas of responsibility: Actuarial Department, Active Reinsurance, Anti-Money Laundering, Compliance, Insurance Life/Non-Life Retail

Country responsibilities: Türkiye

The curriculum vitae of the members of the Managing Board are available on the website at www.vig.com/management.

MEMBERS OF THE SUPERVISORY BOARD

The Supervisory Board had the following twelve members as of 31 December 2022:

Günter Geyer
Chairman

Year of birth: 1943
Date first appointed: 2014
End of current term of office: 2024

Günter Geyer joined Wiener Städtische in 1974 and was appointed to the Managing Board in 1988. In 2001, he became General Manager and Chairman of the Managing Board of Wiener Städtische. The Group's entry into the CEE market, with the establishment of the Kooperativa insurance companies in Bratislava and Prague and expansion into other CEE countries to become a major international insurance group, began under his leadership. Günter Geyer

received many national and international awards for his involvement in these countries. For example, he received an honorary doctorate degree from the University of Economics in Bratislava for his contribution to the development of the insurance industry in the Republic of Slovakia. Günter Geyer resigned from his position as Chairman of the VIG Holding Managing Board on 31 May 2012. He has held the position of Chairman of the Supervisory Board of Wiener Städtische since 2009 and Chairman of the Supervisory Board of VIG Holding since 2014. He was also the Chairman of the Managing Board of Wiener Städtische Wechselseitiger Versicherungsverein until the end of 2020. He has been Chairman of the Supervisory Board of Wiener Städtische Wechselseitiger Versicherungsverein since January 2021.

Rudolf Ertl

1st Deputy Chairman

Year of birth: 1946

Date first appointed: 2014

End of current term of office: 2024

Rudolf Ertl is Doctor of Laws and has been with the Group since 1972. He was a Member of the Managing Board of Wiener Städtische until the end of 2008 and a Member of the Managing Board of Donau Versicherung until June 2009. He was a Member of the Managing Board of Wiener Städtische Wechselseitiger Versicherungsverein until the end of 2020 and has been a Member of the Supervisory Board of Wiener Städtische Wechselseitiger Versicherungsverein since January 2021. The insurance expertise and Group experience he has gained over many years, and his knowledge of the CEE region, make Rudolf Ertl a major asset to the Company as 1st Deputy Chairman of the Supervisory Board.

Robert Lasshofer

2nd Deputy Chairman

Year of birth: 1957

Date first appointed: 2021

End of current term of office: 2024

Robert Lasshofer has decades of top experience in the insurance industry and has been the General Manager and Chairman of the Managing Board of Wiener Städtische Wechselseitiger Versicherungsverein since 2021. He was General Manager and Chairman of the Managing Board of Wiener Städtische until the end of 2020. He has a degree in economics and was president of the Austrian Insurance Association (VO) until the end of 2022.

Martina Dobringer

Year of birth: 1947

Date first appointed: 2011

End of current term of office: 2024

Martina Dobringer held various management positions in the Coface group starting in 1989 and brings her extensive knowledge of the international insurance industry with her. As Chairwoman of the Managing Board of Coface Central Europe Holding AG, she laid the cornerstone for Coface's successful expansion into this region. From 2001 to 2011, she was General Manager and Chairwoman of the Managing Board of Coface Austria Holding AG. In 2011, she was awarded the Grand Decoration of Honour in Silver for Services to the Republic of Austria, and in 2006 she became the first Austrian businesswoman to receive the highest French honour ("Chevalier dans l'ordre de la Légion").

Zsuzsanna Eifert

Year of birth: 1978

Date first appointed: 2021

End of current term of office: 2024

Zsuzsanna Eifert graduated in finance and accounting in Budapest and has many years of experience in the telecommunications sector in Central and Eastern Europe. She is currently Head of Internal Control System for various segments at Deutsche Telekom AG, such as Germany, the USA and T-Systems. At the Hungarian subsidiary Magyar Telekom Group, she headed up a range of assurance functions since 2011, such as Internal Revision, Compliance, and Risk Management. At T-Mobile Austria, she was the head of Internal Audit, Risk Management and Internal Controls. She previously held these positions at T-Mobile CZ and Slovak Telekom, which also belong to Deutsche Telekom AG. From 2008 to 2011, Zsuzsanna Eifert was CFO of the telecommunications company Invitel International Group.

Gerhard Fabisch

Year of birth: 1960

Date first appointed: 2017

End of current term of office: 2024

Gerhard Fabisch studied business administration and economics. He joined the Steiermärkische Bank und Sparkassen AG in 1985 and was made a member of the Managing Board in 2001 and Chairman of the Managing Board in 2004. Steiermärkische Bank und Sparkassen AG has a number of affiliated companies abroad, including in Croatia, Serbia and Bosnia-Herzegovina.

András Kozma

Year of birth: 1968

Date first appointed: 2022

End of current term of office: 2024

Following his business administration studies in Budapest and Vienna, András Kozma worked in various roles in the financial services sector, including Head of Financing at Hypovereinsbank Hungary (now Unicredit Bank), Member of the Managing Board at Euler Hermes Hitelbiztosító Hungary (now Allianz Trade) and Chairman of the Managing Board at Commerzbank Hungary. András Kozma has been a Member of the Managing Board of the German-Hungarian Chamber of Industry and Commerce since 2008 and is also a Member of the Supervisory Board of the Credit Management Association in Hungary. Since 2015, he has owned various private companies in the financial consultancy sector.

Peter Mihók

Year of birth: 1948

Date first appointed: 2019

End of current term of office: 2024

Since 1992, Peter Mihók has been Chairman of the Slovakian Chamber of Trade and Industry, Honorary Chair of the World Chambers Federation of the International Chamber of Commerce in Paris and Member of the Managing Board of Eurochambres in Brussels, among other things. He studied at the University of Economics in Bratislava and received a Ph.D. degree in the area of East-West economic relations and an honorary doctorate from the University of Economics in Bratislava. In addition to numerous other awards, he received the Grand Decoration of Honour in Gold for Services Rendered to the Republic of Austria in 2013 from Heinz Fischer, the President of Austria at that time.

Heinz Öhler

Year of birth: 1945

Date first appointed: 2002

End of current term of office: 2024

Heinz Öhler joined the Tiroler Gebietskrankenkasse in 1970, where he initially held a position as head of the Finance Department and later held an executive position until 2011. In this position he managed country-wide projects and represented regional health insurance funds in a variety of ministerial committees, among other things. In March 2007, he was awarded the Grand Decoration of Honour in Gold for Services to the Republic of Austria for his work related to Austrian social security. He has held many positions in the

sports world, including being appointed as a Member of the Tyrolean State Sports Council in November 2016. Heinz Öhler was elected Chairman of the Supervisory Board of Alpenländische Gemeinnützige WohnbauGmbH, Innsbruck, in June 2021.

Gabriele Semmelrock-Werzer

Year of birth: 1958

Date first appointed: 2017

End of current term of office: 2024

After holding positions at the Austrian branches of Chase Manhattan Bank AG and Crédit Lyonnais AG, Gabriele Semmelrock-Werzer worked for Erste Group Bank AG in a variety of areas starting in 1995. She headed the Group Investor Relations department from 1999 to 2010, and in addition to international communications also actively assisted the expansion of the Erste Group into the CEE region and spent time in Prague and Bucharest. Since 2011, she has been Chairwoman of the Managing Board of Kärntner Sparkasse AG, which also holds a 70% interest in Sparkasse d.d. in Slovenia.

Katarína Slezáková

Year of birth: 1976

Date first appointed: 2020

End of current term of office: 2024

Katarína Slezáková graduated from the Faculty of Business Management at the University of Economics in Bratislava and has many years of experience in marketing and communications for technology and industrial companies (e.g. Siemens IT Solutions and Services Slovakia, Siemens s.r.o. Slovakia, Siemens AG Österreich, Medirex a.s.). Katarína Slezáková is currently the Head of Marketing for CzechToll and SkyToll, two companies in the Czech Republic and Slovakia that are leaders in the area of intelligent transport information systems.

Gertrude Tumpel-Gugerell

Year of birth: 1952

Date first appointed: 2012

End of current term of office: 2024

Gertrude Tumpel-Gugerell was Vice Governor of the National Bank of Austria (OeNB) from 1998 to 2003 and member of the Board of Directors from 1997 to 2003. She also has many years of international experience, at the European level in particular. She was the Austrian Vice Governor to the International Monetary Fund and a member of the Eco-

nomic and Financial Committee – the most important economic policy advisory committee of the European Union. Gertrude Tumpel-Gugerell was responsible for the Economics and Financial Markets divisions at the National Bank of Austria. From 2003 to 2011, she was a member of the Executive Board of the European Central Bank.

The curriculum vitae of the members of the Supervisory Board are available on the website at www.vig.com/supervisory-board.

Changes during the reporting year

Georg Riedl stepped down from his position on the Supervisory Board with effect from the end of the Annual General Meeting. András Kozma was elected as a new member of the Supervisory Board at the Annual General Meeting on 20 May 2022.

SUPERVISORY BOARD INDEPENDENCE

In accordance with Rule 53 of the Austrian Code of Corporate Governance, the Supervisory Board of VIG Holding has established the following criteria defining independence:

- The Supervisory Board Member has not been a Member of the Managing Board or a senior manager of the Company or subsidiary of the Company in the last five years.
- The Supervisory Board Member does not have a business relationship with the Company or a subsidiary of the Company that is of such significant scope for the Supervisory Board Member that it affects their activities on the Supervisory Board to the detriment of the Company. This also applies to business relationships with companies in which the Supervisory Board Member has a considerable economic interest. The approval of individual transactions by the Supervisory Board in accordance with § 95 (5) (12) of the Austrian Stock Corporation Act (AktG) or § 15 (2) (I) of the Articles of Association does not automatically lead to a classification of non-independence. For the purpose of clarification, it is expressly noted that purchase or existence of insurance policies with the Company has no adverse effect on independence.
- The Supervisory Board Member has not been an auditor of the Company's financial statements, or held an ownership interest in or been an employee of the auditing company executing such audits in the last three years.

- The Supervisory Board Member is not a member of the Managing Board of another company that has a member of the Company's Managing Board on its Supervisory Board.
- The Supervisory Board Member is not a close family member (direct descendant, spouse, partner, parent, uncle, aunt, brother, sister, niece, nephew) of a Member of the Managing Board or individuals holding one of the positions described above.

The Supervisory Board as a whole is considered to be independent if at least 50% of the members elected by the Annual General Meeting satisfy the criteria above for the independence of a Supervisory Board Member.

Each Member of the Supervisory Board has declared whether they can be considered independent based on the criteria specified by the Supervisory Board. Peter Mihók and Robert Lassofer have each stated that they are not independent based on the independence criteria specified by the Supervisory Board. All other Supervisory Board Members were independent based on the criteria indicated.

No Supervisory Board Member holds more than 10% of the Company's shares.

The following Supervisory Board Members exercised supervisory mandates or comparable positions in other Austrian or foreign listed companies as of 31 December 2022:

Robert Lassofer

AT & S Austria Technologie & Systemtechnik Aktiengesellschaft

Gertrude Tumpel-Gugerell

AT & S Austria Technologie & Systemtechnik Aktiengesellschaft
Commerzbank AG
OMV Aktiengesellschaft

PROCEDURES FOLLOWED BY THE MANAGING BOARD AND BY THE SUPERVISORY BOARD AND ITS COMMITTEES

Managing Board

The Managing Board manages the business of the Company under the leadership of its Chairperson and within the constraints of the law, articles of association, procedural rules of the Managing Board and procedural rules of the Supervisory Board.

The Managing Board meets when needed (generally every two weeks) to discuss current business developments, and makes the necessary decisions and resolutions during the course of these meetings. The Managing Board Members continuously exchange information with each other and the heads of various departments. The country responsibilities of the Managing Board Members are exercised in particular through Supervisory Board activities in the Group companies.

Supervisory Board

The Supervisory Board performs all activities defined under the law, articles of association and the procedural rules of the Supervisory Board. In order to ensure effectiveness and efficiency of its activities and procedures, the Supervisory Board examines its procedures regularly, but at least once a year in the form of a self-evaluation. The Supervisory Board's evaluation of its activities in 2022 found that its organisational structure and procedures were satisfactory in terms of efficiency and in compliance with the law. It found no need for change or desire for change in the practices followed to date.

The Supervisory Board and its committees, Chairpersons and Deputy Chairpersons continuously monitor and regularly examine Company management as well as the activities of the Managing Board in terms of managing and monitoring the Group. Detailed presentations and discussions during meetings of the Supervisory Board and its committees are used for this purpose, as are thorough and, in some cases, in-depth discussions with the members of the Managing Board who provide detailed explanations and supporting documentation relating to the management and financial position of the Company and the Group. Strategy, business development (overall and in individual regions), risk management, the internal control system, internal audit activities, the compliance function, actuarial function and reinsurance – at the VIG Holding level as well as at Group level – are also discussed during these meetings.

The Supervisory Board and the Audit Committee also directly engage with the financial statements auditor and the consolidated financial statements auditor in order to familiarise themselves with the accounting process and audit progress, and to inquire whether the audit has produced any important findings. Provision was made for exchanges

between the Members of the Audit Committee and the (consolidated) financial statements auditor in such meetings without the presence of the Managing Board, but no Member of the Audit Committee took advantage of this opportunity during the reporting year. During the meetings about annual and consolidated financial statements, the audit reports are discussed with the audit managers both in the Audit Committee and in the entire Supervisory Board. The Audit Committee examined the Solvency and Financial Condition Report (SFCR) at both the solo and Group levels and reported its findings to the Supervisory Board. No facts or circumstances were found that would have provided grounds for objection.

The internal audit department provides quarterly reports to the Audit Committee. If necessary, the head of internal audit provides detailed explanations of individual issues and audit focal points. The head of internal audit also submits the annual audit plan to the Audit Committee for approval. The Managing Board explains the organisation and effectiveness of the internal control system, internal audit and the risk management system to the Audit Committee at least once a year, and provides the Audit Committee with a written report on this subject so that it can confirm the efficiency of the systems. The Audit Committee also examines the report and assessment of the functioning of the risk management system prepared by the (consolidated) financial statements auditor and reports its findings to the Supervisory Board.

The Audit Committee also dealt with the VIG Holding and VIG Group ORSA reports and the IT security report in 2022 and reported on them to the Supervisory Board. The Audit Committee and Supervisory Board as a whole also received the 2022 sustainability report (consolidated non-financial report) from the Managing Board, and reviewed and carefully examined it.

At least once a year, the Managing Board presents the Supervisory Board with the measures to be taken by the VIG companies in order to prevent corruption, and the Supervisory Board discusses those.

When preparing the proposal for the Annual General Meeting regarding the election of a new Supervisory Board Member, the Supervisory Board takes into account the professional and personal requirements provided for by law and the

Austrian Code of Corporate Governance that a Supervisory Board Member must satisfy and observe.

The Audit Committee and Supervisory Board also strictly ensure that all of the requirements and conditions provided for under the law and Austrian Code of Corporate Governance are fully satisfied when preparing the proposal regarding the election of the (consolidated) financial statements auditor for the Annual General Meeting. As a public-interest entity, the special additional rules for external and internal rotation applicable to insurance companies and the special tendering process are observed. In addition, after the audit of the consolidated financial statements has been completed, the Supervisory Board is provided with a list showing the total audit expenses of all Group companies. This list provides a separate breakdown of expenses relating to the consolidated financial statements auditor and the members of the network to which the consolidated financial statements auditor pertains. The same goes for other financial statements auditors who work for the Group.

The Supervisory Board established five committees to increase its efficiency and to address complex matters: Committee for Urgent Matters (Working Committee), Audit Committee (Accounts Committee), Committee for Managing Board Matters (Personnel Committee), Strategy Committee and Nomination Committee.

The Supervisory Board also dealt with IT security issues in financial year 2022.

The Managing Board and Supervisory Board prepared a remuneration report for financial year 2022.

In 2022, the Managing Board of VIG Holding informed the members of the Supervisory Board of material sustainability and IT security matters. For example, in the reporting year, sustainability was treated as a key element of the company's VIG 25 strategy and of the expansion of environmentally friendly investments.

SUPERVISORY BOARD COMMITTEES

COMMITTEE FOR URGENT MATTERS (WORKING COMMITTEE)

The Committee for Urgent Matters (Working Committee) decides on matters that require approval of the Supervisory

Board, but cannot be deferred to the next ordinary Supervisory Board meeting because of particular urgency.

Günter Geyer (Chairman)

Substitute: Gertrude Tumpel-Gugerell

Rudolf Ertl

Substitute: Martina Dobringer

Robert Lasshofer

Substitute: Gerhard Fabisch

AUDIT COMMITTEE (ACCOUNTS COMMITTEE)

The Audit Committee (Accounts Committee) is responsible for the duties assigned to it by law and is, in particular, responsible for the duties assigned in § 92 (4a)(4) of the Austrian Stock Corporation Act (AktG), § 123 (9) of the Austrian Insurance Supervision Act (VAG) and Regulation (EU) No. 537/2014, namely:

1. to monitor the accounting process and provide recommendations or suggestions to ensure its reliability;
2. to monitor the effectiveness of the Company's internal control system and the internal audit function and risk management system;
3. to monitor the audit of the financial statements and consolidated financial statements taking into account findings and conclusions in reports published by the supervisory authority for financial statement auditors in accordance with § 4 (2)(12) of the Austrian Auditor Supervision Act (APAG);
4. to check and monitor the independence of the financial statement auditor (consolidated financial statement auditor), in particular with respect to the additional services provided for the audited company; Art. 5 of Regulation (EU) No. 537/2014 and § 271a (6) UGB apply;
5. to report the results of the financial statement audit to the Supervisory Board and explain how the financial statement audit has contributed to the reliability of the financial reports and the role of the Audit Committee in this;
6. to audit the annual financial statements and prepare their approval, examine the proposal for appropriation of profits, the management report, the solvency and financial condition report and corporate governance report, and present a report on the results of the audit to the Supervisory Board;
7. to audit the consolidated financial statements and Group management report, the solvency and financial condition

report at Group level and the corporate governance report at consolidated level, and report the results of the audit to the Supervisory Board;

8. to perform the procedure to elect the financial statement auditor (consolidated financial statement auditor) taking into account the appropriateness of the fees in accordance with Art. 4 of Regulation (EU) No. 537/2014 and the rotation periods in Art. 17 of Regulation (EU) No. 537/2014, and recommend appointment of a financial statements auditor (consolidated financial statements auditor) to the Supervisory Board in accordance with Art. 16 of Regulation (EU) No. 537/2014.

Furthermore, in a meeting (another meeting, in addition to the meeting required by law), the Audit Committee (Accounts Committee) specifies how the two-way communication between the (consolidated) financial statements auditor and the Audit Committee (Accounts Committee) has to take place, while making provision for exchanges to take place between the Audit Committee (Accounts Committee) and the (consolidated) financial statements auditor without the presence of the Managing Board.

Members of the Audit Committee are experienced financial experts with knowledge and practical experience in finance, accounting and reporting that satisfy the requirements of the Company.

Chairwoman:

Gertrude Tumpel-Gugerell

Deputy Chairwoman:

Martina Dobringer

Other members:

Zsuzsanna Eifert

Rudolf Ertl

Günter Geyer

András Kozma

Robert Lasshofer

Peter Mihók

Katarína Slezáková

If a member is unable to attend, Gabriele Semmelrock-Werzer will attend the meeting, and if she is also unable to attend, Heinz Öhler will attend. If Gertrude Tumpel-Gugerell is unable to attend, the meeting will be chaired by Martina Dobringer.

COMMITTEE FOR MANAGING BOARD MATTERS (PERSONNEL COMMITTEE)

The Committee for Managing Board Matters (Personnel Committee) deals with personnel matters of the Managing Board. The Committee for Managing Board Matters therefore decides on employment contract terms with Members of the Managing Board and their remuneration and examines remuneration policies at regular intervals.

Günter Geyer (Chairman)

Rudolf Ertl

Robert Lasshofer

STRATEGY COMMITTEE

The Strategy Committee cooperates with the Managing Board and, when appropriate, with experts that it consults in order to prepare fundamental decisions that will subsequently be decided upon by the entire Supervisory Board.

Günter Geyer (Chairman)

Substitute: Gertrude Tumpel-Gugerell

Zsuzsanna Eifert

Substitute: Gabriele Semmelrock-Werzer

Rudolf Ertl

Substitute: Martina Dobringer

Robert Lasshofer

Substitute: Gerhard Fabisch

Peter Mihók

Substitute: Katarína Slezáková

András Kozma

Substitute: Heinz Öhler

NOMINATION COMMITTEE

The Nomination Committee submits proposals to the Supervisory Board for filling positions that become available on the Managing Board and handles issues of successor planning.

Günter Geyer (Chairman)

Martina Dobringer

Rudolf Ertl

Robert Lasshofer

Substitute in the event that a member is unable to attend:
Gertrude Tumpel-Gugerell

Supervisory Board Members Gerhard Fabisch and Gabriele Semmelrock-Werzer are members of the managing boards of companies with which distribution agreements were concluded under normal market and industry terms and conditions. The Company did not enter into any other agreements with Supervisory Board Members in 2022 that would have required the approval of the Supervisory Board.

NUMBER OF MEETINGS OF THE SUPERVISORY BOARD AND ITS COMMITTEES IN THE FINANCIAL YEAR 2022

One regular general meeting and four Supervisory Board meetings distributed across the financial year were held in 2022. Four meetings of the Audit Committee (Accounts Committee) were also held. The Annual General Meeting was held as a virtual Annual General Meeting on the basis of § 1 (2) COVID-19-GesG and the COVID-19-GesV. The financial statement and consolidated financial statement auditor,

KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft (KPMG), attended three Audit Committee meetings and three Supervisory Board meetings in 2022, including the Supervisory Board meeting that addressed the audit of the 2021 annual financial statements and the 2021 consolidated financial statements as well as formal approval of the 2021 annual financial statements, and also attended the Annual General Meeting. Two meetings of the Committee for Managing Board Matters (Personnel Committee) were held in 2022. The Committee for Urgent Matters (Working Committee) met twice in 2022 and passed one resolution by circulation. The Nomination Committee met twice. The Strategy Committee did not meet in 2022. Strategic matters were handled by the Supervisory Board as a whole.

No Member of the Supervisory Board attended less than half of the Supervisory Board meetings.

The following table shows the attendance of ordinary members at meetings, taking into account attendance by their substitutes:

MEETING ATTENDANCE BY MEMBERS OF THE SUPERVISORY BOARD IN FINANCIAL YEAR 2022

| Name | Supervisory Board | Audit Committee ² | Working Committee ² | Strategy Committee ² | Personnel Committee ² | Nomination Committee ² |

¹ Elected to the Supervisory Board in the Annual General Meeting of 20 May 2022

² New composition of committees or new deputy arrangements in the event of impediment from 7 June 2022 onwards

³ One meeting took place prior to the Annual General Meeting and before the meeting of the Supervisory Board, during which the new composition of the members of the committee was agreed upon. Georg Riedl participated in this meeting as his substitute.

⁴ Retired from the Supervisory Board at the end of the Annual General Meeting of 20 May 2022.

DIVERSITY CONCEPT

With over 50 insurance companies and pension funds and around 29,000 employees in Austria and Central and Eastern Europe, VIG Insurance Group combines many countries, languages and cultural backgrounds. Diversity is a core value in the VIG mission statement and a key priority in its HR strategy.

VIG Insurance Group follows a bottom-up approach with respect to diversity management for the Company's boards. By applying diversity management to all employees, the VIG Insurance Group expects to generate corresponding diversity in the candidate pool for internal successor planning in the long term.

For VIG Insurance Group, diversity reflects both the similarities and the differences it encounters in the Group, its markets and its partners as well as customers. Diversity management is based on genuine appreciation and open acceptance of diversity, and makes conscious use of this diversity. VIG companies include this understanding of diversity in the VIG Code of Business Ethics: *"We do not tolerate any kind of discrimination. We are committed to promoting equal opportunities with regard to the employment and promotion of staff, regardless of their faith, religion, gender, beliefs, ethnicity, nationality, sexual orientation, age, skin colour, disability or civil status."*

Group and VIG Holding level

The diversity concept focuses on the criteria of gender, generations and internationality at the VIG Holding level, and refined and developed measures for the following criteria:

- **Gender:** ensure equal gender treatment in all areas (career and development options, benefits and income, etc.)
- **Generations:** use mixed-age teams and take into account the various phases of life to develop full potential. Generation-appropriate offers and support in the various phases of life, learn from one another, life balance, fair recruitment
- **Internationality:** Group-wide exchange of know-how (local expertise), collaborative learning, use of the internal Group job market and ensuring an appropriate mix of people from different countries within VIG Holding

The criteria of gender, generations and internationality are also taken into account when new Supervisory Board Members are proposed for election at General Meetings. VIG Insurance Group has relied on the concept of local entrepreneurship for decades, thereby also promoting a very internationally diverse "community" of Group Managing Board Members and CEOs.

The topic of diversity is a key element in Group-wide management development training programmes, in terms of content as well as the participants and lecturers.

Level of the VIG insurance companies

In accordance with the principle of local entrepreneurship, the VIG insurance companies choose their own diversity priorities and are independently responsible for their implementation.

Diversity Advisor

As Diversity Advisor, Angela Fleischlig-Tangl advises both VIG Holding and local VIG companies on matters related to diversity management.

MEASURES TO PROMOTE WOMEN IN MANAGING BOARD, SUPERVISORY BOARD AND MANAGEMENT POSITIONS

Appreciation of diversity and, therefore, removing barriers in women's careers is one of the key elements of the HR strategy at VIG Insurance Group. Gender is one of the three priorities of the diversity concept at both the Group and VIG Holding level.

Nomination procedures for Group-wide training programmes for management, high potentials and experts are also required to have as balanced a gender representation as possible, with the local human resources department bearing ultimate responsibility.

Women Supervisory Board members

Women hold 23.1% of the positions in the Supervisory Boards of the fully consolidated VIG insurance companies in the Group (as of 31 December 2022) and 41.7% of the positions in VIG Holding.

Women Managing Board members

Women hold 25.2% of the positions on the Managing Boards of the fully consolidated VIG insurance companies and 23.1%

of the Chairpersons are women. Elisabeth Stadler is the Chairwoman of the VIG Group.

Women in management positions

Including distribution, women hold 44.6% of the management positions at the level directly below the managing board of fully consolidated VIG insurance companies across Europe (not including distribution: 49.5%).

GENERATIONS AND INTERNATIONALITY

The average age of all Managing Board Members of the fully consolidated insurance companies is 50.9 years (as of 31 December 2022), and the average age of Supervisory Board Members is 57.6 years. 21 different nationalities (based

on: citizenship) are represented in the managing boards of the fully consolidated VIG insurance companies, and 18 different nationalities in the supervisory boards. Further information is available in the Employees section of the Sustainability Report.

EXTERNAL EVALUATION REPORT

C-Rule 62 of the Austrian Code of Corporate Governance provides for voluntary external evaluation of compliance with the C-Rules of the Code at least every three years. VIG Holding performs these evaluations every three years. The last evaluation was performed for the consolidated corporate governance report for financial year 2020 and concluded with a positive report. The next evaluation is scheduled for financial year 2023.

Supervisory Board report

The Supervisory Board and its committees, Chair and Deputy Chairs periodically and repeatedly monitored in detail the management of the Company and the activities of the Managing Board in connection with its management and monitoring of the Group. This purpose was served by detailed presentations and discussions during meetings of the Supervisory Board and its committees as well as by detailed discussions on individual topics with Managing Board members who provided comprehensive explanations and evidence relating to management, the financial position of the Company and that of the Group. Among other things, the strategy, business development (overall and in individual regions), risk management, the internal control system, internal audit, compliance function and actuarial function activities and reinsurance, both at the VIG Holding and Group level, and other important topics for the Company and VIG Insurance Group were discussed during these meetings.

VIG Holding is committed to social responsibility and the importance of having employees drive forward performance, innovation and expertise. In accordance with the Solvency II requirements, starting in 2016 non-financial aspects must be part of the performance expectations for variable remuneration of Managing Board Members. Goal fulfilment for Managing Board Members also depended on both financial and non-financial criteria in the 2022 reporting year. Detailed information on the principles underlying the remuneration system is available in the remuneration policy and 2022 remuneration report.

The Supervisory Board has formed five committees from its Members. Information on the responsibilities and composition of these committees is available on the Company's website and in the 2022 consolidated corporate governance report.

One Annual General Meeting and four Supervisory Board meetings distributed across the financial year were held in 2022. Four meetings of the Audit Committee (Accounts Committee) were also held. The Annual General Meeting was held as a virtual Annual General Meeting on the basis of § 1 (2) COVID-19-GesG and the COVID-19-GesV. The fi-

nancial statement and consolidated financial statement auditor, KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft, FN 269873y (KPMG), attended three Audit Committee meetings and three Supervisory Board meetings in 2022, including the Supervisory Board meeting that addressed the audit of the 2021 annual financial statements and the 2021 consolidated financial statements as well as formal approval of the 2021 annual financial statements, and also attended the Annual General Meeting. KPMG also informed the Audit Committee about the planning and procedure used to audit the financial statements and consolidated financial statements. Two meetings of the Committee for Managing Board Matters (Personnel Committee) were held in 2022. The Committee for Urgent Matters (Working Committee) met twice and passed one resolution by circulation. The Nomination Committee met twice. The Strategy Committee did not meet in 2022. Strategic matters were handled by the Supervisory Board as a whole.

No agenda items were discussed in Supervisory Board meetings in 2022 without the participation of members of the Managing Board.

No Member of the Supervisory Board attended less than half of the Supervisory Board meetings. Detailed information on meeting attendance by Supervisory Board members in financial year 2022 is available in the 2022 Corporate Governance Report.

In order to ensure the effectiveness and efficiency of its activities and procedures, the Supervisory Board performed a self-evaluation of its procedures. The Supervisory Board's evaluation of its activities found that its organisational structure and procedures were satisfactory in terms of efficiency and in compliance with the law. It found no need for change or desire for change in the practices followed to date.

Acting upon the proposal and motion of the Supervisory Board, the general meeting of 21 May 2021 selected KPMG to be the financial statements auditor and consolidated financial statements auditor for the financial year 2022, and KPMG consequently performed these duties in the financial year 2022.

The Audit Committee mainly dealt with the following topics in 2022:

During one meeting of the Audit Committee, the members of the committee consulted with the (consolidated) financial statements auditor on specification of two-way communications and audit planning.

By inspecting relevant documents, meeting with the Managing Board and discussions with the (consolidated) financial statements auditor, the Audit Committee was able to monitor the accounting process and the procedure used for auditing the financial statements and consolidated financial statements, and found no facts or circumstances providing grounds for objection. The Audit Committee also reviewed the possibilities of providing recommendations or suggestions to ensure the reliability of the accounting process and, based on the comprehensive information and documents obtained by the Audit Committee during its review, found that the processes that had been established were adequate.

The Audit Committee also reviewed and monitored the independence of the auditor of the financial statements and consolidated financial statements, and after reviewing suitable documents and supporting records submitted to the Committee, particularly with respect to the appropriateness of the fee and the additional services provided to the Company, was satisfied with the auditor's independent status. The Audit Committee also dealt with permitted non-audit services. While reviewing and monitoring the independence of the financial statements auditor and consolidated financial statements auditor, the Audit Committee did not find any circumstances that would raise doubts about its independence and impartiality.

The Audit Committee also dealt with the VIG Holding and VIG Group ORSA reports and the IT security report in 2022 and reported on them to the Supervisory Board. The Audit Committee monitored the effectiveness of the internal control system, internal audit and the risk management system by obtaining descriptions of the processes and organisation of these systems from the Managing Board, the (consolidated) financial statements auditor and the individuals directly responsible for these areas and deemed them, including the IT security measures, to be effective.

The Audit Committee reported on these monitoring activities to the Supervisory Board and stated that no deficiencies had been identified. The Supervisory Board was also given the opportunity during Supervisory Board meetings to verify the functional adequacy of the existing control and

auditing systems. In addition, the audit plan and the quarterly reports prepared by the internal audit department were debated by the Audit Committee and the Supervisory Board and discussed with the head of the internal audit department and the Group internal audit department.

The Audit Committee examined the Solvency and Financial Condition Reports (SFCRs) at both the solo and Group levels and reported its findings to the Supervisory Board. No facts or circumstances were found that would have provided grounds for objection.

In accordance with the Audit Regulation (Regulation (EU) No 537/2014), the Audit Committee conducted a selection procedure to appoint the auditor of the (consolidated) financial statements for the financial year 2023. This resulted in a justified recommendation with a preference for KPMG being submitted to the Supervisory Board. It was determined that there were no grounds for exclusion of KPMG or circumstances that would give rise to concerns about impartiality, and that sufficient protective measures had been taken to ensure an independent and impartial audit. The Supervisory Board followed the recommendation of the Audit Committee. The General Meeting selected KPMG as auditor of the financial statements and consolidated financial statements for 2023.

The Audit Committee also received the 2022 annual financial statements, management report, 2022 consolidated corporate governance report and 2022 sustainability report (consolidated non-financial report) from the Managing Board, and reviewed and carefully examined them. The Managing Board's proposed appropriation of profits was also reviewed with respect to capital adequacy and its effects on the solvency and financial position of the Company during the course of this examination.

The Audit Committee also examined the 2022 consolidated financial statements and Group management report. In addition, the auditor's reports prepared by (consolidated) financial statements auditor KPMG for the 2022 annual financial statements and management report and the 2022 consolidated financial statements and Group management report were reviewed by the Audit Committee and examined. As a result of this examination, a unanimous resolution was adopted to recommend to the Supervisory Board that the annual financial statements be accepted. The Supervisory Board found no grounds for objection.

The (consolidated) financial statements auditor provided the Audit Committee with an additional report in accordance with Art. 11 of the Audit Regulation (EU) that explained the results of the financial statements audit and consolidated financial statements audit. This additional report prepared by the financial statements auditor was also provided to the Supervisory Board.

The Supervisory Board dealt with the following topics in particular:

The audit results and all resolutions adopted by the Audit Committee were reported to the Supervisory Board in its next meeting.

The Supervisory Board also dealt with IT security issues in financial year 2022.

The Managing Board and Supervisory Board prepared a remuneration report for financial year 2022.

In its meeting on 13 September 2022, the Supervisory Board reappointed Ms Hirner to the Managing Board. At its meeting on 29 November 2022, the Supervisory Board, on the recommendation of the Nomination Committee, appointed Mr Löger to the position of Chairman of the Managing Board (General Manager) and Mr Höfinger to the position of Deputy Chairman of the Managing Board (Deputy General Manager) with effect from 1 July 2023. Furthermore, in its meeting on 29 November 2022, the Supervisory Board reappointed Mr Lahner, Mr Lehel and Mr Riener to the Managing Board with effect from 1 July 2023. All Managing Board terms will expire on 30 June 2027. Ms Stadler and Mr Thirring will, at their own request, not extend their terms on the Managing Board when they expire on 30 June 2023.

The 2022 annual financial statements together with the management report and 2022 consolidated corporate governance report, the 2022 consolidated financial statements together with the Group management report, and the Managing Board's proposed appropriation of profits were taken up and examined in detail by the Supervisory Board. The proposed appropriation of profits was checked, in particular, to ensure that it was reasonable when capital requirements were taken into account. The proposal complies with applicable legal requirements and proactively

considers the macroeconomic and financial situation and its impact on the company's solvency and financial position. The proposal is in line with the continuously pursued prudent and sustainable capital planning to ensure a solid solvency and liquidity position in the long term.

In 2022, the Managing Board of VIG Holding informed the members of the Supervisory Board of material sustainability and IT security matters. For example, in the reporting year, sustainability was treated as a key element of the company's VIG 25 strategy and of the expansion of environmentally friendly investments.

The Supervisory Board also received the 2022 sustainability report (consolidated non-financial report) examined by KPMG from the Managing Board, and reviewed and carefully examined it. As a result of this examination, it found that the 2022 sustainability report (consolidated non-financial report) had been prepared properly and was appropriate. The Supervisory Board found no grounds for objection.

In addition, the auditor's reports prepared by (consolidated) financial statements auditor KPMG for the 2022 annual financial statements and management report and the 2022 consolidated financial statements and Group management report were reviewed by the Supervisory Board and examined. KPMG's audit of the 2022 annual financial statements and management report and the 2022 consolidated financial statements and Group management report did not lead to any reservations. KPMG determined that the annual financial statements comply with statutory requirements and give a true and fair view of the net assets and financial position of the Company as of 31 December 2022, and of the results of operations of the Company for the financial year 2022 in accordance with Austrian generally accepted accounting principles. The management report is consistent with the annual financial statements. The disclosures pursuant to § 243a UGB (Austrian Commercial Code) are appropriate. KPMG further determined that the consolidated financial statements also comply with statutory requirements and give a true and fair view of the net assets and financial position of the Group as of 31 December 2022, and of the results of operations and cash flows of the Group for the financial year 2022 in accordance with the IFRS as adopted by the EU and § 138 of the Austrian Insurance Supervision Act (VAG) in combination with § 245a of the Austrian Commercial Code (UGB). The Group management

report is consistent with the consolidated financial statements. KPMG also reviewed the 2022 sustainability report (consolidated non-financial report) and determined in accordance with § 269 (3) UGB that the 2022 consolidated corporate governance report had been prepared.

The final results of the review by the Supervisory Board also provided no grounds for objection. The Supervisory Board stated that it had nothing to add to the auditor's reports for the financial statements and consolidated financial statements.

After thorough examination, the Supervisory Board therefore adopted a unanimous resolution to approve the 2022 annual financial statements prepared by the Managing Board,

not to raise any objections to the management report, the 2022 consolidated financial statements and Group management report, the 2022 consolidated corporate governance report and the 2022 sustainability report (consolidated non-financial report) and to agree with the Managing Board-proposed appropriation of profits.

The 2022 annual financial statements have therefore been approved in accordance with § 96 (4) of the Austrian Stock Corporation Act (AktG).

The Supervisory Board proposes to the General Meeting that it approves the Managing Board's proposed appropriation of profits and formally approves the actions of the Managing Board and Supervisory Board.

Vienna, April 2023

The Supervisory Board:

Günter Geyer (Chairman)

Group management report 2022

Business development and economic position

ECONOMIC ENVIRONMENT

Even though economic growth in the eurozone was consistently good in the first two quarters of 2022 – in the 2nd quarter of 2022, growth of 0.8% was reported compared with the previous year – the 3rd quarter was the first time that weakness began to show, characterised by growth of just 0.3% compared with the previous quarter.

As participant in the market, the business activities of VIG are influenced by the development of macroeconomic factors, including the rate of unemployment, GDP and inflation. The consequences of the Russian attack on Ukraine, massive energy price increases and the ongoing impacts on supply chains are the drivers behind increased inflation, which was expected to have reached its peak towards the end of 2022. As a result, in December 2022 prices in the eurozone rose by just 9.2% year on year, which is significantly lower than the 10.1% rate of increase from the previous month. Additionally, 2022 saw a significant rise in inflation in almost all markets in which the VIG Insurance Group operates.

In Austria, the recovery in the tourism sector and positive trends from public administration and the building sector contributed to GDP growth, especially in the first three quarters of 2022 (Q1: +9.2%; Q2: +6.1%; Q3: +1.7%). Despite a positive contribution from private consumption, weak exports and slightly lower investments led to a weakening of the growth dynamic. Influenced by the electricity price cap in place since December 2022 and generally lower strain on energy prices, inflation fell in Austria from its 2022 peak of 11.6% in October to 10.5%.

In Central and Eastern Europe (CEE), low export demand and weak sentiment indicators suggest a contraction of industrial production, which is at a level not seen since the recession of 2012. In such an environment, it is no big surprise that there already was a technical recession in the 2nd half of 2022 in Hungary and in the Czech Republic and that there was negative performance in Poland in the 4th quarter of 2022.

Private consumption – at times driven by huge price rate increases – also contributed to a generally weak performance. But in the CEE region, too, inflation rates ought to have reached their peak, or should soon be about to. It is expected that Hungary, which only recently removed fuel price regulation, is yet to see price rises reach their peak; this is anticipated later in the course of 2023. In total, the analysts at Erste Group calculate an average inflation rate of 13.9% for the CEE region for 2022, which is a considerable increase compared to 2021 (4.5%).

In spite of the somewhat weaker environment in all of the economic areas mentioned above, employment rates remain at solid levels. Erste Group expects unemployment to reach 4.8% in Austria in 2022 (2021: 6.2%). In the CEE region, the unemployment rates is expected to fall from 5.4% in 2021 to 4.8% in 2022.

LEGAL ENVIRONMENT

SUSTAINABLE FINANCE

The comprehensive European Union legislation referred to as the “European Green Deal” or “Sustainable Finance” continued in 2022. The legislative process for the Corporate Sustainability Reporting Directive (CSRD) was pursued to a significant extent alongside the ongoing work carried out by the European Financial Reporting Advisory Group (EFRAG) on the new mandatory European Sustainability Reporting Standards (ESRS) that will take effect from reporting year 2024, the final draft of which was submitted to the European Commission in November 2022. Of particular note is the scope of the mandatory standard ESRS E1, which stipulates disclosures relating to a transition plan, among other requirements. This transition plan is primarily intended as a roadmap for the asset and liability side of the balance sheet and the office environment in achieving the goals of the Paris Climate Agreement. In February 2022, the European Union published its Corporate Sustainability Due Diligence Directive (CSDDD), which provides in particular for due diligence obligations for the protection of people and the environment, both on the customer and the supplier side. It is

currently expected that the CSDDD will become applicable during the course of 2025.

In terms of implementation, from August 2022, the sustainability preferences of life insurance customers were to be taken into account and sustainability risks in risk management and investments were to be illustrated. The life insurance companies within the VIG Group have also prepared for the use of product templates for life insurance products from 2023, in line with the Sustainable Finance Disclosure Regulation (SFDR). The Sustainability Report 2021, published in 2022, contained for the first time the taxonomy-eligible investment and underwriting KPIs in accordance with Article 8 of the EU Taxonomy Regulation. Starting in 2023, it will be mandatory to report on the taxonomy-compliant investment and underwriting KPIs.

DIGITAL RESILIENCE

Regulating the digital security of the financial sector was also a focus of attention at the European level during the reporting period. The Digital Operational Resilience Act (DORA) was published in the Official Journal of the European Union on 27 December 2022. DORA will be applicable to European financial market participants from 17 January 2025 and will oblige them, among other things, to take all necessary security measures to mitigate cyber-attacks and other IT risks.

INTERNATIONAL SANCTIONS

The international sanctions environment changed dramatically in 2022 in terms of its dynamic, its complexity and its scope. In response to Russia's aggression against Ukraine, multiple countries and organisations – above all the European Union, the United States of America and the United Kingdom – imposed far-reaching sanctions on Russia or expanded existing sanctions. The restrictions range from (investment) restrictions on certain economic sectors to embargos on goods and complete trade embargoes for certain regions to the considerable expansion of the number of people and companies placed on sanctions lists, with whom business relations are therefore prohibited. Due to

human rights abuses by the Iranian regime, the European Union in particular imposed new sanctions on Iran, while the United States of America imposed further sanctions on the country.

As the conflicts continue, additional restrictive measures have already been taken against both Russia and Iran in 2023, and further stricter measures can be expected in the course of the year.

WHISTLEBLOWER PROTECTION

The EU Directive (EU) 2019/1937 on the protection of persons who report breaches of Union law (Whistleblowing Directive) sets out minimum standards for protecting whistleblowers from retaliation and the establishment of confidential reporting channels by companies and public bodies. The Whistleblowing Directive had to be transposed into national law by EU Member States by 17 December 2021. As the majority of Member States had failed to meet this deadline for local transposition, the European Commission initiated infringement proceedings against the States concerned at the beginning of 2022. While a large number of draft bills were published at national level during the reporting period, most Member States still have not yet transposed the Whistleblowing Directive into national law. In February 2023, the Austrian Parliament passed the Whistleblower Protection Act (Hinweisgeber:innenschutzgesetz – HSchG).

GROUP BUSINESS DEVELOPMENT AND FINANCIAL PERFORMANCE INDICATORS

GENERAL INFORMATION

The over 50 VIG insurance companies and pension funds operate in the following reporting segments: Austria, Czech Republic, Poland, Extended CEE, Special Markets and Group Functions. These six segments are explained in the segment reporting section of the Group management report, starting on page 39. The segment Extended CEE includes the countries of Albania including Kosovo, Baltic states,

Bosnia-Herzegovina, Bulgaria, Croatia, Hungary, Moldova, North Macedonia, Romania, Serbia, Slovakia and Ukraine. The segment Special Markets consists of the four countries Germany, Georgia, Liechtenstein and Türkiye. The Montenegro and Belarus markets were not included in the scope of consolidation in 2022 due to immateriality. More information on the scope of consolidation and consolidation methods is provided on page 89 of the notes to the consolidated financial statements. The notes to the consolidated financial statements provide detailed information on changes in the scope of consolidation starting on page 90.

VIG Insurance Group operates with more than one company and brand in most of its markets. The market presence of each company in a country is aimed at different target groups. Their product portfolios differ accordingly. Use of this multi-brand strategy does not mean, however, that potential synergies remain unexploited. Structural efficiency and the cost-effective use of resources are examined regularly. Back offices that perform administrative tasks for more than one company are already being used successfully in many countries. Mergers of insurance companies are considered if the additional synergies that can be achieved outweigh the benefits of a diversified market presence. To ensure uniform management, specific country responsibilities also exist at Managing Board level. As part of the VIG 25 strategic programme, the country responsibilities of the members of the VIG Holding Managing Board were reassigned and, in addition to the CEO (Chief Executive Officer) and CFRO (Chief Financial and Risk Officer), a CTO (Chief Technical Officer), a COO (Chief Operations Officer) and a CIO (Chief Innovation Officer) were also established at the Managing Board level.

To improve readability, company names have been shortened throughout the entire report. A list of full company names is provided starting on page 191. In order to avoid duplicate information, reference will be made below to appropriate information in the notes. Changes in significant balance sheet and income statement items are presented in both the segment reporting and the notes to the financial statements. Additional disclosures in the management report below are intended to explain these data in more detail.

FINANCIAL PERFORMANCE INDICATORS

The key financial performance indicators that form the basis for assessing the business development are presented below.

Premium volume

A detailed disclosure of premium development is included in Note 15. Premiums written – gross in the notes to the consolidated financial statements.

VIG Insurance Group wrote EUR 12,559.2 million in premiums in 2022, an increase of 14.1% compared to the same period in the previous year (2021: EUR 11,002.6 million). This amount includes the Aegon companies in Hungary and Türkiye that were acquired and consolidated for the first time in 2022 and, with around EUR 444.5 million, account for 3.7% of the total premium volume. It retained EUR 11,177.0 million of the gross premiums written (2021: EUR 9,878.6 million). EUR 1,382.3 million was ceded to reinsurance companies in 2022 (2021: EUR 1,124.0 million).

| Result after taxes and non-controlling interests | 465.9 | 375.7 | 24.0% | 90.2 |
| Earnings per share (in EUR) | 3.58 | 2.94 | 22.0% | 0.6 |

*The value consists of impairments of intangible assets

In 2022, double-digit growth rates were generated in the motor lines of business (motor third party liability +20.1%, motor own damage +16.1%), in other property and casualty insurance (+16.0%), in health insurance (+12.4%) and in regular premium life insurance (+11.1%). Premium growth was especially strong in the segments Czech Republic (+13.8%), Extended CEE (+24.5%), Special Markets (+59.2%) and Group Functions (+16.9%). In the segment Extended CEE, the Baltic states (+20.2%), Romania (+30.6%) and Hungary (+92.6% including Aegon) recorded particularly dynamic premium growth. Overall, the Group generated 65.7% of its premiums outside Austria in 2022.

Net earned premiums rose by 12.4% from EUR 9,705.6 million in 2021 to EUR 10,910.9 million in 2022. Net reinsurance cessions were EUR 1,283.5 million in 2022 (2021: EUR 1,117.3 million).

Expenses for claims and insurance benefits – retention

A detailed disclosure of expenses for claims and insurance benefits is included in Note 19. Expenses for claims and insurance benefits – retention in the notes to the consolidated financial statements.

Expenses for claims and insurance benefits less reinsurers' share were EUR 7,912.0 million in 2022, representing a year-on-year increase of 10.9% (2021: EUR 7,136.6 million). The increase results from the significantly higher volume of business.

Acquisition and administrative expenses

A detailed disclosure of acquisition and administrative expenses is included in Note 20. Acquisition and administrative expenses in the notes to the consolidated financial statements.

The 15.5% increase in acquisition and administrative expenses for all fully consolidated VIIG companies to EUR 2,930.5 million was due to the significantly higher business volume and primarily concerns commission expenses (2021: EUR 2,536.8 million).

Financial result

A detailed disclosure of the financial result (excluding shares in at equity consolidated companies) is included in Note 16. Financial result excl. result from shares in at equity consoli-

dated companies in the notes to the consolidated financial statements.

The financial result (incl. the result from shares in at equity consolidated companies) was EUR 797.2 million in 2022 (2021: EUR 631.9 million). The increase of 26.2% compared with the previous year is due primarily to the first-time consolidation of the Aegon companies in Hungary and Türkiye acquired in 2022 as well as higher interest rates. Both effects overcompensated the impairments in connection with exposure to Russian government bonds and corporate bonds in the amount of EUR 84.1 million.

Result before taxes

The Group result before taxes was EUR 562.4 million in 2022 (2021: EUR 511.3 million). The significant 10.0% increase in profits is primarily the result of the good operating performance and the improved financial result. In addition, the Group result before taxes includes impairments of goodwill and of other intangible assets that amount to EUR 67.6 million.

Adjusted for Impairments of intangible assets, the operating result of EUR 630.0 million for 2022 was 23.0% above that of the previous year (2021: EUR 512.0 million).

Investments

A brief presentation of the investments is included in the notes to the consolidated financial statements starting on page 100.

BREAKDOWN OF INVESTMENTS 2022

Values for 2021 in parentheses

Total investments, including cash and cash equivalents, were EUR 34,399.3 million as of 31 December 2022 (31 December 2021: EUR 37,266.1 million). The decrease compared to the previous year is primarily due to price drops, particularly for fixed-income securities, caused by the interest rate increase.

The investments include property, shares in at equity consolidated companies and all financial assets, using the look-through approach for consolidated special funds, as well as other fund investments allocated to the asset classes. Financial instruments for unit- and index-linked life insurance are not included. In 2022, these decreased by 16.0% from EUR 8,525.3 million in 2021 to EUR 7,164.1 million, mainly due to the difficult situation on the capital markets.

Shareholders' equity

Shareholders' equity decreased by 20.8% to EUR 4,434.2 million in 2022 (2021: EUR 5,597.9 million). This development is primarily due to the decrease in unrealised profits and losses from financial assets available for sale – triggered by negative stock market prices as a result of the rising interest rates, particularly with regard to fixed-interest securities. The shareholders' equity attributable to shareholders decreased accordingly from EUR 5,478.2 million in 2021 to EUR 4,223.8 million in 2022.

Underwriting provisions

A detailed disclosure of underwriting provisions is included in Note 10. Underwriting provisions in the notes to the consolidated financial statements.

Underwriting provisions were EUR 31,987.9 million as of the reporting date 31 December 2022 (2021: EUR 32,546.2 million). This is a decrease of 1.7% over the previous year. Here, the decrease in the provision for premium refunds, which was primarily due to negative price developments for the financial assets, could not be offset by the first-time consolidation of the Aegon companies.

Cash flow

The cash flow from operating activities mainly increased as a result of the significantly higher business operating result, which rose from EUR 522.1 million in 2021 to EUR 625.0 million in 2022. The cash flow from investing activities developed

from EUR -415.5 million in 2021 to EUR -1,001.4 million as a result of the acquisition of the Aegon companies in Hungary and Türkiye. Financing activities produced a cash flow of EUR -24.1 million in 2022 (2021: EUR 597.7 million). The high positive cash flow from the previous year was mainly due to the issue of the VIG Holding hybrid bond and sustainability bond. The Group had cash and cash equivalents of EUR 2,059.0 million at the end of 2022 (2021: EUR 2,456.3 million). The amount of interest and dividends received was EUR 840.9 million in 2022 (2021: EUR 719.7 million).

Significantly increased earnings per share

Earnings per share is a key figure equal to the result for the period (less non-controlling interests) divided by the average number of shares outstanding. The number of shares remained unchanged compared to the previous year.

Earnings per share were EUR 3.58 in 2022 (2021: EUR 2.94). This therefore represented an increase of 22.0% compared to the previous year.

Operating Return on Equity (Operating RoE) significantly improved

Operating return on equity (operating RoE) measures the profitability of the Group by expressing the business operating result as a ratio of the capital employed. This ratio is calculated by dividing the business operating result by the average shareholders' equity. Shareholders' equity adjusted for a provision for unrealised gains and losses is used for this purpose.

The Group earned an operating return on equity of 11.9% in 2022 (2021: 10.9%).

| Operating Return on Equity | 31.12.2022 | 31.12.2021 | 31.12.2020 |
|---------------------------------------------------|----------------|----------------|----------------|
| in EUR millions | | | |
| Shareholders' equity | 4,434.2 | 5,597.9 | 5,285.8 |
| Unrealised gains and losses recognised in equity* | 1,167.9 | -568.1 | -906.6 |
| Adjusted shareholders' equity | 5,602.1 | 5,029.8 | 4,379.2 |
| Average adjusted shareholders' equity | 5,316.0 | 4,704.5 | |
| Business operating result | 630.0 | 512.0 | |
| Operating RoE in % | 11.9 | 10.9 | |

* adjusted by Non-controlling interests

Combined ratio significantly below 100%

The combined ratio is calculated as the sum of underwriting income and expenses, net payments for claims and insurance benefits, including the net change in underwriting provisions, and acquisition and administrative expenses, divided by net earned premiums in the property and casualty balance sheet unit. The Group's combined ratio for 2022 was 94.9%, which is slightly up on the previous year (2021: 94.2%).

| Combined ratio | 2022 | 2021 |
|-------------------------------------------------------------------------------------------|-----------------|-----------------|
| in EUR millions | | |
| Net earned premiums – retention | 6,534.3 | 5,653.0 |
| Expenses for claims and insurance benefits – retention | -4,022.0 | -3,475.4 |
| Acquisition and administrative expenses, including other underwriting income and expenses | -2,180.4 | -1,847.0 |
| Total expenses | -6,202.4 | -5,322.4 |
| Combined ratio in % | 94.9 | 94.2 |

BRANCH OFFICES

VIG Insurance Group has branch offices in Germany, France, Italy, Kosovo, Slovenia, the Baltic states Estonia, Latvia and Lithuania, and the Northern European countries of Sweden, Norway and Denmark. Information on branch offices and any significant changes compared to the previous year are discussed in more detail for the respective reportable segments in the section below, if applicable. A list of the addresses of the insurance companies and branch offices is also provided on page 200.

BUSINESS DEVELOPMENT AND FINANCIAL PERFORMANCE INDICATORS BY REPORTABLE SEGMENT

The reportable segments Austria, Czech Republic, Poland, Extended CEE, Special Markets and Group Functions are discussed below. The discussion focuses on presenting business development in these reportable segments and the market position held by the VIG Group in the respective countries. A detailed presentation of the consolidated income statement by reportable segments and premiums written by reportable segments and lines of business is provided on page 97 in the notes to the consolidated financial statements and in Note 15. Premiums written – gross on page 153.

AUSTRIA

AUSTRIAN INSURANCE MARKET

The top 5 insurance groups in the country generated around 71% of the premium volume in Austria in the 1st to 3rd quarters of 2022. The two largest insurance groups generated around 44%.

MARKET GROWTH IN THE 1ST TO 3RD QUARTERS OF 2022 COMPARED TO THE PREVIOUS YEAR

9M 2022 figures

Source: Austrian Insurance Association

After 2021, which was characterised by the impacts of the COVID-19 pandemic, the Austrian insurance sector had a positive start to the new year. In total, EUR 15.0 billion was generated in the 1st to the 3rd quarters of 2022. Compared with the same period in the previous year, this corresponds to an increase of around 5.0%, which is due to the positive performance of all insurance segments.

In the 1st to 3rd quarters of 2022, the property and casualty insurance recorded an increase of 6.9% compared with the same period in the previous year. The motor insurance recorded an increase of 4.7%. Of this, motor own damage insurance rose by 6.1%, primarily due to higher prices. On the other hand, motor third party liability insurance benefited from the rising number of newly insured vehicles and rose by 3.3% year-on-year. Premiums for non-motor lines of business rose 8.0%, with travel insurance recording a sharp increase of 97.5%.

In life insurance, a premium increase of 1.3% was generated in the 1st to 3rd quarters of 2022. While income from regular premium life insurance came to -0.1%, remaining stable or falling slightly year-on-year, single premium life insurance increased by 10.2%. With a year-on-year increase of 19.5%, unit- and index-linked life insurance in particular recorded increased levels of interest. Nursing care insurance also saw double-digit growth, with a 10.4% increase compared with the same period in the previous year. Premiums in health insurance recorded an equally positive year-on-year increase of 4.5%.

According to calculations based on data from the International Monetary Fund (IMF) and Austrian Insurance Association (VVO), the average per capita expenditure for insurance in Austria was EUR 2,072.4 in 2021. Of this, EUR 1,465 was spent in the non-life insurance area and EUR 607 in the life insurance area.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Per cent of total premium volume

Source: Austrian Insurance Association; as of 9M 2022

VIG COMPANIES IN AUSTRIA

VIG Insurance Group is represented by the two insurance companies Wiener Städtische and Donau Versicherung in Austria. s Versicherung, which was merged with Wiener Städtische in 2018, continues to exist as a brand for banc-assurance customers. Wiener Städtische also operates via branches in Italy and Slovenia. VIG Holding operates out of Austria as a reinsurer of the Group and an insurer in the

cross-border corporate business. Since 2019, it has also been active in the traditional industrial insurance business through branch offices in the Northern European countries of Sweden, Norway and Denmark. VIG Holding is assigned to the segment Group Functions.

With a market share of 23.1% in the 1st to 3rd quarters of 2022, the VIG insurance companies represent Austria's largest insurance group. Together they hold first place in the market in property and casualty and in life insurance, and second place in health insurance.

FINANCIAL PERFORMANCE INDICATORS IN THE AUSTRIA REPORTABLE SEGMENT

Premium development

The Austrian VIG insurance companies generated a total of EUR 4,138.4 million in premiums written in 2022, representing a year-on-year increase of 2.2% (2021: EUR 4,048.4 million). The increase was primarily due to good development in other property and casualty and the motor lines of business. Net earned premiums were EUR 3,314.8 million in 2022 (2021: EUR 3,242.5 million). This corresponds to a plus of 2.2%.

PREMIUMS BY LINE OF BUSINESS

Values for 2021 in parentheses

Result before taxes

The segment Austria generated a result before taxes of EUR 249.4 million in 2022 (2021: EUR 234.7 million). This

corresponds to an increase of 6.3%, which is due to an improvement in the combined ratio and a better technical result in the life line of business.

Combined ratio

The combined ratio could be further improved to 92.4% in 2022 primarily due to an improved cost ratio (2021: 92.8%).

CZECH REPUBLIC

CZECH INSURANCE MARKET

In the 1st to 3rd quarters of 2022 the insurance market in the Czech Republic was dominated by the top 5 insurance groups, which together generate around 85% of total premium volume.

MARKET GROWTH IN THE 1ST TO 3RD QUARTERS OF 2022 COMPARED TO THE PREVIOUS YEAR

9M 2022 figures

Legend: Total (Red), Non-life (Grey), Life (Orange)

Source: Czech Insurance Association

Based on the calculation method of the Czech Insurance Association ČAP, the Czech insurance market recorded a premium volume of CZK 119.2 billion in the 1st to 3rd quarters of 2022, representing a year-on-year increase of 7.5%. With the exception of single premium life insurance, all major lines of business recorded positive developments. In particular, the non-motor lines of business in non-life insurance contributed to this (+13.6%). The double-digit increase is partly due to the lower reference values from the same period in the previous year, which in turn is due to the impacts of the COVID-19 pandemic.

In the motor line of business, motor own damage generated a remarkable increase of 9.1% year-on-year. Motor third party liability insurance also developed positively, with growth of 3.8%. Both lines of business were positively influenced by rising prices. In part, they also benefited from the growing number of newly insured vehicles (+1.3% in motor third party liability; +4% in motor own damage). In the non-motor insurance line of business, the 1st to 3rd quarters of 2022 saw a double-digit increase of 13.6%, which was primarily influenced by rising prices and intense acquisition in the area of industrial insurance.

In life insurance, premium volume rose by 3.2%. This increase was mainly due to good performance in regular premium life insurance, which recorded 3.7% growth in the 1st to 3rd quarters of 2022. However, a significant fall of 18.5% was recorded in single premium life insurance.

According to calculations based on data from the International Monetary Fund (IMF) and Czech Insurance Association, the average per capita expenditure for insurance in the Czech Republic was EUR 635 in 2021. EUR 418 of this amount was for non-life insurance and EUR 217 for life insurance.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Per cent of total premium volume

Source: Czech Insurance Association; as of 9M 2022

VIG COMPANIES IN THE CZECH REPUBLIC

VIG Insurance Group is represented by two companies, Kooperativa and ČPP, in the Czech Republic. With a market share of 32.1% it is the largest insurance group in the Czech Republic in the 1st to 3rd quarters of 2022. It holds first place in the market for both life and non-life insurance.

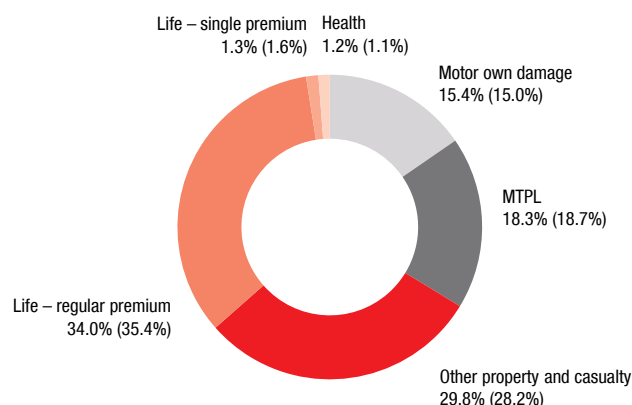

The Group reinsurance company VIG Re, which has its headquarters in Prague, is assigned to the segment Group Functions.

FINANCIAL PERFORMANCE INDICATORS IN THE CZECH REPUBLIC REPORTABLE SEGMENT

Premium development

The VIG insurance companies in the segment Czech Republic wrote EUR 2,122.1 million in premiums in 2022, representing a large increase of 13.8% (2021: EUR 1,864.9 million). This was primarily due to good performance in the motor lines of business as well as in the other property and casualty and regular premium life insurance lines of business. Net earned premiums were EUR 1,575.1 million in 2022 (2021: EUR 1,399.8 million). This represented an increase of 12.5% compared to the previous year.

PREMIUMS BY LINE OF BUSINESS

Values for 2021 in parentheses

Result before taxes

The result before taxes in the segment Czech Republic rose by 8.0% to EUR 201.9 million in 2022 (2021: EUR 186.9 million). This increase was primarily due to a better technical result from risk insurance.

Combined ratio

The combined ratio continued to be at a very good level of 91.5% in 2022 (2021: 90.1%). The slight increase comes from the motor lines of business, which saw the claims ratio normalise to pre-COVID levels.

POLAND

POLISH INSURANCE MARKET

The five largest insurance groups in the country generated around 77% of the total premium volume in the first three quarters of 2022. The three largest insurance groups contributed around 60%.

MARKET GROWTH IN THE 1ST TO 3RD QUARTERS OF 2022 COMPARED TO THE PREVIOUS YEAR

9M 2022 figures

Source: Financial Market Authority Poland

The Polish insurance market generated PLN 52.7 billion in the 1st to 3rd quarters of 2022, representing an increase of 3.6% compared with the same period from the previous year. The increase is predominantly due to the good performance of non-life insurance, which grew 7.3% year-on-year. Life insurance, on the other hand, recorded a decrease of 4.2% in the 1st to 3rd quarters of 2022.

Premium volume in the motor lines of business saw gains in the first nine months of 2022, primarily due to the good performance in motor own damage insurance, which recorded growth of 13.7% compared with the same period from the previous year. Recording +1.0%, motor third party liability insurance remained stable year-on-year. This is due to a slight decrease in the average premium, which in turn is due to the ongoing pressure from competition on the market. The non-motor lines of business grew 8.9%, which is due in particular to the good performance in property and casualty insurance. The health insurance products in non-life insurance generated a moderate year-on-year increase of 1.3%.

Life insurance fell by 4.2% in the 1st to 3rd quarters of 2022. This was due to negative performance in single premium life insurance, which recorded a decrease of 36.3% in the 1st to 3rd quarters of 2022. Despite recording a year-on-year increase of 3.7%, regular premium life insurance was unable to offset this decrease.

According to calculations based on data from the International Monetary Fund (IMF) and Polish financial market authority, the average per capita expenditure for insurance in Poland was EUR 401 in 2021. Out of this, EUR 273 was spent on non-life insurance and EUR 128 on life insurance.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Per cent of total premium volume

Source: Financial Market Authority Poland; as of 9M 2022

VIG COMPANIES IN POLAND

VIG Insurance Group is represented by Compensa Life and Non-Life, InterRisk, Vienna Life and Wiener TU in the Polish market. InterRisk also invested in the mutual insurance association TUW “TUW” in 2019. In November 2020, VIG Insurance Group signed a share purchase agreement with the Dutch company Aegon N.V. to acquire its companies in Hungary, Poland, Romania and Türkiye. In Hungary and Türkiye, closing was successfully completed in 2022. For the acquisition of the remaining Eastern European business of Aegon with companies in Poland and Romania, only the approval from Romania is pending for a closing.

VIG Insurance Group held fourth place in the overall market with a market share of 8.9% in the first nine months of 2022. In the non-life sector it is positioned as fourth in the ranking of top insurers, and in the life sector it is positioned as fifth.

FINANCIAL PERFORMANCE INDICATORS IN THE POLAND REPORTABLE SEGMENT

PREMIUMS BY LINE OF BUSINESS

Premium development

The segment Poland recorded total premiums written of EUR 1,352.9 million in 2022, representing an increase of 5.7% compared to the previous year (2021: EUR 1,279.8 million). This increase was mainly due to growth in the other property and casualty and health insurance lines of business. Net

earned premiums were EUR 1,018.4 million in 2022, 3.6% higher than in the previous year (2021: EUR 983.0 million).

Result before taxes

The result before taxes was EUR 51.7 million in 2022 (2021: EUR 69.9 million). This corresponds to a decrease of 25.9%, which is primarily due to the increase in the combined ratio and the decrease in the financial result.

The business operating result in the segment Poland was EUR 51.9 million in 2022 (2021: EUR 70.5 million).

Combined ratio

In 2022, the combined ratio was 96.1% due to both increased commissions in direct business and lower commissions from internal Group reinsurance (2021: 93.2%).

EXTENDED CEE

The reportable segment Extended CEE includes the countries of Albania including Kosovo, the Baltic states, Bosnia-Herzegovina, Bulgaria, Croatia, Hungary, Moldova, North Macedonia, Romania, Serbia, Slovakia and Ukraine. These countries generated 29.8% of Group premiums in 2022.

Albania including Kosovo

VIG Insurance Group operates in the Albanian insurance market with Sigma InterAlbanian and Intersig. With a market share of 20.0% it ranked second in the first nine months of 2022. Sigma InterAlbanian is also represented by a branch in Kosovo, where it held sixth place in the market with a market share of 9.1% in the 1st to 3rd quarters of 2022.

Baltic states

VIG insurance companies are represented in all three Baltic states. Compensa Life has its headquarters in Estonia and is also represented by branches in Latvia and Lithuania. BTA Baltic operates in Latvia and has branches in Estonia and Lithuania. The company Compensa Non-Life also operates in Lithuania. It maintains branches in Latvia and Estonia.

Their market share of 26.4% made the VIG insurance companies the market leader in the Baltic states in the 1st to 3rd quarters of 2022. They also hold first place in the non-life sector and second place for life insurance.

Bosnia-Herzegovina

VIG Insurance Group is represented by Wiener Osiguranje, which has its headquarters in Banja Luka in the Serbian Republika Srpska in Bosnia-Herzegovina, and by Vienna Osiguranje, which is headquartered in Sarajevo. The market share was 8.8% based on data for the 1st to 3rd quarters of 2022, which puts the VIG insurance companies in fourth place in the market.

Bulgaria

VIG is represented in the Bulgarian insurance market by the insurance companies Bulstrad Life and Bulstrad Non-Life. Together they had a market share of 14.0% in the 1st to 3rd quarters of 2022. That makes the VIG insurance companies the leading insurance group in Bulgaria. In the non-life sector they are in third place in the market; in the life sector they are in second place. The PAC Doverie pension fund also belongs to VIG Insurance Group.

Croatia

The VIG insurance company Wiener Osiguranje operates in Croatia. Its market share of 11.6% in the 1st to 3rd quarters of 2022 put it in third place in the Croatian insurance market.

Moldova

The VIG insurance company Donaris operates in Moldova. It had a market share of 12.7% in the first nine months of 2022, putting it in fifth place in the market. It also holds fourth place in the non-life sector.

North Macedonia

The VIG insurance companies Makedonija Osiguruvanje, Winner Non-Life and Winner Life together held a market share of 18.3% in the 1st to 3rd quarters of 2022. That makes the VIG companies the leading insurance group in North Macedonia.

Romania

Three VIG insurance companies, the non-life insurer Omniasig, composite insurer Asirom and life insurer BCR Life, operate in the Romanian insurance market. Their market share of 23.4% makes the VIG insurance companies the market leader in Romania. In the 1st to 3rd quarters of 2022, they also held first place in non-life insurance and second place in life insurance.

In November 2020, VIG Insurance Group signed a share purchase agreement with the Dutch company Aegon N.V. to acquire its companies in Hungary, Poland, Romania and Türkiye. In Hungary and Türkiye, closing was successfully completed in 2022. For the acquisition of the remaining Eastern European business of Aegon with companies in Poland and Romania, only the approval from Romania is pending for a closing.

Serbia

VIG operates in Serbia through Wiener Städtische Osiguranje. It held fourth place in the market with a market share of 11.3% in the 1st to 3rd quarters of 2022. It is in fourth place in the non-life sector and second place in the life sector.

Slovakia

Two VIG insurance companies, Kooperativa and Komunálna, are represented in the Slovakian insurance market. Their market share of 28.0% put them in first place in Slovakia in the 1st to 3rd quarters of 2022. They hold second place for non-life insurance and first place for life insurance.

The Slovakian pension company 365.life, which was acquired by Kooperativa at the end of 2022, is assigned to the segment Group Functions.

Ukraine

The VIG non-life insurance companies Kniazha and USG and life insurance company Kniazha Life are operating in Ukraine. The VIG insurance companies held second place in the overall market with a market share of 11.5% in the 1st to 3rd quarters of 2022. They are in second place in the non-life sector.

Hungary

VIG operates in Hungary through UNION Biztosító and the Aegon insurance company acquired in 2022, which in future will be represented on the market under the brand Alfa Biztosító. According to data published by the Hungarian association MABISZ, VIG – including Aegon – holds first place in the market. Data from the Hungarian National Bank shows that the market share in the 1st to 3rd quarters of 2022 was 19.1%. In life and non-life insurance, VIG holds second place in the market.

FINANCIAL PERFORMANCE INDICATORS IN THE EXTENDED CEE REPORTABLE SEGMENT

Premium development

The VIG insurance companies in the segment Extended CEE wrote EUR 3,593.2 million in premiums in 2022, representing a year-on-year increase of 24.5% (2021: EUR 2,886.7 million). One of the reasons for this growth is the first-time consolidation of the Aegon insurance company acquired in Hungary in 2022. The motor lines of business in Romania and Hungary and the other property and casualty insurance line of business in the Baltic states, Romania and Hungary performed well. Net earned premiums were EUR 2,742.7 million in 2022 (2021: EUR 2,200.7 million), an increase of 24.6% compared to the previous year.

PREMIUMS BY LINE OF BUSINESS

Result before taxes

A result before taxes of EUR 112.7 million was recorded in the segment Extended CEE in 2022 (2021: EUR 188.6 million). This is a decrease of 40.2% compared with the previous year. In the result before taxes, impairments of goodwill of EUR 26.2 million for the CGU groups Albania including Kosovo and North Macedonia were recognised. Impairments of other intangible assets totalling EUR 37.6 million were also included. These primarily include insurance portfolios and customer bases of the Hungarian Aegon company acquired in 2022 due to an additional insurance tax introduced after the transaction was closed.

An increase in the combined ratio was also recorded in Hungary, Ukraine and Croatia.

Adjusted for impairments of goodwill and other intangible assets, the business operating result in the segment Extended CEE in 2022 amounted to EUR 176.5 million (2021: EUR 188.6 million).

Combined ratio

In 2022, an increase in the cost ratio in Hungary, primarily due to the introduction of the additional insurance tax, and the limited product portfolio due to the war in Ukraine led to a combined ratio of 95.3% in the segment Extended CEE (2021: 92.3%).

SPECIAL MARKETS

The segment Special Markets includes the countries of Germany, Georgia, Liechtenstein and Türkiye.

Germany

The VIG insurance companies InterRisk Non-Life and InterRisk Life operate in Germany. The InterRisk companies distribute exclusively through around 10,000 independent sales partners. InterRisk Non-Life specialises in accident and liability insurance and selected property insurance products. InterRisk Life focuses on retirement provision and occupational disability solutions, as well as protection for surviving dependants. The VIG companies continue to be successful in the German market as profitable niche providers.

The Group internal reinsurance company VIG Re has also been represented by a branch in Germany since 2017. It is assigned to the segment Group Functions.

Georgia

VIG Insurance Group is represented by two companies in Georgia, GPIH and IRAO. With a market share of 25.0%, the companies became the leading insurance group in Georgia in the 1st to 3rd quarters of 2022.

Liechtenstein

The VIG insurance company Vienna-Life operates in Liechtenstein. Vienna-Life almost exclusively offers unit-linked and index-linked life insurance and held fourteenth place in the market in Liechtenstein in 2021.

Türkiye

VIG operates in Türkiye through the non-life insurer Ray Sigorta and the life insurance company Viennalife (formerly Aegon), which was acquired in 2022. A market share of 3.9% puts the VIG insurance companies in eighth place in the Turkish insurance market.

FINANCIAL PERFORMANCE INDICATORS IN THE SPECIAL MARKETS REPORTABLE SEGMENT

Premium development

The VIG insurance companies in the segment Special Markets wrote EUR 846.2 million in premiums in 2022 (2021: EUR 531.7 million), representing an increase of 59.2% compared with the previous year. This positive premium development is primarily due to the initial consolidation of the Turkish company Viennalife (formerly Aegon). The regular premium life insurance and other property and casualty insurance lines of business performed particularly well. Net earned premiums were EUR 501.3 million in 2022 (2021: EUR 325.9 million), an increase of 53.8% compared with the previous year.

PREMIUMS BY LINE OF BUSINESS

Values for 2021 in parentheses

Result before taxes

The result before taxes in the Special Markets segment rose 30.5% in 2022 to EUR 49.4 million (2021: EUR 37.9 million). This increase is primarily due to the first-time consolidation of Viennalife (formerly Aegon) in Türkiye.

Adjusted for impairments of other intangible assets of EUR 3.6 million, the business operating result in the Special Markets segment in 2022 amounted to EUR 53.0 million (2021: EUR 37.9 million).

Combined ratio

The combined ratio improved to 93.0% in 2022 primarily as a result of a lower cost ratio in Germany and a lower claims ratio in Türkiye (2021: 94.4%).

GROUP FUNCTIONS

The Group Functions reportable segment includes VIG Holding (including the branches in Northern Europe), VIG Re (including the branches in Germany and France), Wiener Re, the VIG Fund, corporate IT service providers, Asset Management, Pension Funds and intermediate holding companies. VIG Holding primarily focuses on managerial tasks for the Group. It also operates as the reinsurer for the Group and in the international corporate business.

The reinsurance company VIG Re was formed in Prague in 2008 and is a successful reinsurance provider for both VIG insurance companies and external partners. It has established itself as an important company in the CEE region and follows a conservative underwriting and investment strategy. Standard & Poor's reaffirmed VIG Re's A+ rating with stable outlook at the end of 2022.

FINANCIAL PERFORMANCE INDICATORS IN THE GROUP FUNCTIONS REPORTABLE SEGMENT

Premium development

Premiums written in the segment Group Functions rose 16.9% in 2022 to EUR 2,297.8 million (2021: EUR 1,965.0 million). In addition to an increase in premiums from the entry into new business areas in active reinsurance generated by the insurance company VIG Re, an increase in corporate and large customer business and internal Group reinsurance was also recorded as a result of the increased business volume in VIG Holding.

Result before taxes

A loss of EUR 101.2 million was recorded in the segment Group Functions in 2022 (2021: loss of EUR 210.8 million).

Various provisions, including for strategic and regulatory projects and digitalisation initiatives, had a negative effect on the previous year.

BUSINESS DEVELOPMENT BY BALANCE SHEET UNIT

Further information on business development by balance sheet units is provided in the additional disclosures in accordance with the Austrian Insurance Supervision Act (VAG) in the notes to the consolidated financial statements starting on page 180.

Other mandatory disclosures

RESEARCH AND DEVELOPMENT

Although VIG companies do not perform any research activities as defined in § 243 (3) (2) UGB, they contribute their expertise to the development of insurance-specific software models. VIG Holding and – for projects – the VIG companies also cooperate with Digital Impact Labs Leipzig, Plug and Play and VENPACE, a start-up initiative (investment and corporate building) that is located in Germany and jointly funded with other insurance companies, in order to identify technological developments in the market more quickly and internalise them if necessary. Viesure was also established for this purpose as an internal “innovation hub” focusing mainly on Austria. Since December 2022, investment has also been made in the APEX Deep Tech Fund, which focuses on tech start-ups, and supports VIG in identifying and researching innovations at an early stage in order to use these in the business model to the benefit of its customers. An example of such innovation is the use of sensors and satellite technology as an early warning system for potential forest fires. The VIG Group also indirectly promotes research activities through its participations in ISTCube to increase basic research in Austria and APEIRON and invIOS to support research into biotech and the fight against cancer and respiratory illnesses.

HOLDINGS, PURCHASE AND SALE OF OWN SHARES

Information on § 243 (3)(3) UGB is available in Note 8. Consolidated shareholders' equity starting on page 140 of the notes to the consolidated financial statements.

INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM IN THE ACCOUNTING PROCESS

Preparation of the consolidated financial statements includes all activities required for presentation and disclosure of the net assets, financial position and results of operations of the Group in accordance with the provisions of the law and the IFRS. The consolidated financial statements consist of the balance sheet, income statement, statement of comprehensive income, shareholders equity statement, cash flow statement, segment report and the notes to the consolidated financial statements, which disclose significant accounting policies and explanatory notes. The financial statement process includes the aggregation of all data from accounting and upstream processes for the annual financial statements.

The internal control system is implemented in the Group accounting process in accordance with the five elementary components of the COSO (Committee of Sponsoring Organisations of the Treadway Commission) framework model for internal control.

Control environment

The organisational structure consists of the local accounting departments of the individual companies and the Group accounting department at the VIG Holding headquarters in Vienna. The accounting departments of the VIG companies prepare both local GAAP and IFRS financial statements, which are then provided to the Group accounting department.

The IFRS financial statements are prepared in accordance with uniform Group accounting policies. The Group fully applies the rules of IFRS 4 with respect to the valuation of insurance policies. According to these rules, the values recognised under applicable national law are carried over to the IFRS consolidated financial statements.

Standardised software is used to prepare the consolidated financial statements. VIG companies mainly use this software to report their data, most of which is imported into the system as an upload or directly entered on site. The Group accounting department consolidates the data and prepares the consolidated financial statements.

Risk assessment

The annual financial statement process has been documented in order to identify risks in the accounting process and eliminate them as far as possible. The documentation covers the entire process all the way from data capture by the employees of VIG companies and automatic and manual controls and analyses during the consolidation process, to publication of the final annual report.

Control measures

IFRS accounting policies that apply across the Group were set down in a Group accounting manual (IFRS application) that is mandatory for all companies included in the consolidated financial statements. The goal is to ensure uniform implementation of the IFRS across the Group. This manual is reviewed every year and updated or amended when necessary, and is sent to the responsible people in the local reporting departments together with additional information on Group-wide reporting requirements each time before the financial statements are prepared. In addition, we notify the entire Group of material developments to and amended requirements in the Group financial reporting process. The subsidiaries are responsible in the control system for compliance with the Group-wide accounting policies and for proper and timely performance of their accounting-related processes.

The Finance department of VIG Holding performs both automatic (using validations) and manual checks (performance analyses and plausibility checks) of the reviewed financial statement data. Additional checks in the form of control calculations and reconciliation of intragroup transactions – in particular reinsurance and financing balances – are performed to identify and, if necessary, correct or eliminate any differences.

In addition, an earnings reconciliation statement is prepared, the accuracy of individual parts of the consolidated financial statements is checked, and a plausibility check is performed for the consolidated financial statements as a whole to ensure that the presentation is complete and correct.

The accounting employees also work closely with the Planning and Controlling department (e.g. variance analyses), primarily with respect to performance analyses, when the

financial statements are prepared. The data are also regularly provided to the Managing Board for review and checking.

In order to ensure that the annual report is completed correctly and on time by the publication deadline, strict deadlines are set for the quarterly and annual financial statements and the VIG companies are informed of these deadlines at the end of the 3rd quarter at the latest for the coming financial year. In this way, the department preparing the consolidated financial statements ensures in advance that the VIG companies align their processes with the deadlines and can therefore send their data on time.

Information and communication

The intensive collaboration with other areas of the Company, in particular Controlling, generates a lively exchange of information and communications.

In addition to the annual report at the end of each financial year, a half-year report was published in accordance with IAS 34 and statutory provisions.

The Investor Relations department is responsible for reporting to VIG Holding shareholders. This takes place both in personal meetings and via the Company website. Shareholders and other interested parties are provided with access to annual and interim reports, and to regularly updated information on key figures, share prices, the financial calendar, ad hoc news and other relevant topics.

Monitoring

The Finance department is responsible for preparing the Group annual report. Quarterly reports are provided to the Managing Board and Supervisory Board to ensure regular monitoring of the internal control system. Risks are continuously monitored by internal cross-departmental Group controls (e.g. Finance department – Planning and Controlling).

The Internal Audit department also performs quality assurance. It performs independent, objective audit procedures to examine the structure and effectiveness of internal control systems and the value and optimisation potential of operational processes. The Internal Audit department helps the organisation achieve its objectives by systematically

evaluating the effectiveness of risk management, the control system and the governance process, including all relevant key functions within the Company, and providing appropriate recommendations for improvement.

Group-wide guidelines exist in order to standardise the handling of significant risks throughout the Group, and also provide a tool for risk monitoring. Local management is responsible for implementing these guidelines in the individual VIG companies.

The auditor takes the internal control system into account during the annual audit of the financial statement to the extent that it is relevant to the preparation of the consolidated financial statements. The auditor also assesses the effectiveness of the risk management system in accordance with Rule 83 of the Austrian Code of Corporate Governance.

CAPITAL, SHARE, VOTING AND CONTROL RIGHTS AND ASSOCIATED AGREEMENTS

The Company has share capital of EUR 132,887,468.20. It is divided into 128,000,000 no-par value ordinary bearer shares with voting rights, with each share representing an equal portion of the share capital. The number of shares issued remains unchanged since the previous financial year. Further information on the anticipatory resolutions and authorisations of the Managing Board in general meetings in accordance with § 267 (3a) in conjunction with § 243a (1) UGB is provided in Note 8. Consolidated shareholders' equity starting on page 140 of the notes to the consolidated financial statements.

CONSOLIDATED NON-FINANCIAL REPORT

VIG Holding is publishing a separate consolidated non-financial report for financial year 2022 in accordance with § 267a of the Austrian Commercial Code (Unternehmensgesetzbuch – UGB). It is available in printed form and online at www.vig.com/sustainability-reports on the website of the VIG Insurance Group.

CORPORATE GOVERNANCE

VIG Holding is committed to application and compliance with the January 2023 version of the Austrian Code of Corporate Governance and publishes a consolidated corporate governance report on the website at www.vig.com under "Investor Relations".

OUTSOURCING DISCLOSURES

The outsourcing disclosures required under § 156 (1)(1) in conjunction with § 109 VAG are discussed in more detail below.

VIG Holding

For VIG Holding, it was decided to outsource IT services to Group-internal and external IT service providers. Outsourcing agreements that had been approved by the supervisory authority existed in 2022 with IBM Austria (Internationale Büromaschinen Gesellschaft m.b.H.) and the internal Group IT system provider twinformatics GmbH, both headquartered in Austria. The outsourcing agreement with IBM was terminated as a result of the assumption of all related services by twinformatics with effect from 28 February 2023. twinformatics GmbH has also assumed full responsibility for all IT services (with the exception of those listed in the following paragraph) for the Austrian VIG insurance companies and concludes any sub-outsourcing required for this purpose while observing statutory and regulatory requirements and after consulting with the VIG insurance companies.

From 1 March 2023, IT services in the VIG Group will also be provided by VIG IT-Digital Solutions GmbH ("VIG IT-DS"). VIG IT-DS was founded by VIG Holding in order to further reinforce the alignment of IT services to be provided Group-wide and to have these services provided by a company that focuses on these services. Meanwhile, an outsourcing agreement approved by the Austrian Financial Market Authority (FMA) was concluded with VIG IT-DS. This agreement sets out the ultimate responsibility of VIG IT-DS (with twinformatics as a key sub-service provider) for all VIG

solutions (SAP NewGL, IFRS 9/17, ReadSoft and some smaller supporting applications). In addition to these outsourcing agreements, VIG Holding has not outsourced any critical or important functions or business activities.

VIG Group

Throughout the insurance companies of VIG Group, outsourcing took place in the following areas in particular:

- IT (in particular the operation and maintenance of operating modules, computing centre operation, application development services, data storage)
- Claims handling

The four governance functions were individually outsourced by the operating insurance companies of the VIG Insurance Group, in particular the internal audit and actuarial functions and related activities, and in few cases the risk management and compliance functions.

While governance functions in VIG Insurance Group were predominantly outsourced to other Group companies, critical or important activities in the IT and claims handling areas were outsourced both inside and outside the Group.

The notification of local supervisory authorities about the outsourcing of critical or important functions or activities or the approval of such outsourcing by these authorities was done by the companies concerned in accordance with applicable national legal requirements.

Expected development and risks of the Group

SIGNIFICANT RISKS AND UNCERTAINTIES

The risk management system is firmly anchored in the management culture of the Company and is based on a clearly defined, conservative risk policy, extensive risk expertise, a developed set of risk management tools and risk-based Managing Board decisions. The detailed risk report for VIG Insurance Group, including impacts of climate change and the associated climate risks, is provided in the notes to the consolidated financial statements starting on page 102.

For information on the financial instruments used for investments, please see the notes to the consolidated financial statements (Principles of significant accounting policies) and the risk report (starting on page 102).

EXPECTED DEVELOPMENT – OUTLOOK FOR 2023

ECONOMIC OUTLOOK

Although pricing is losing momentum, inflation rates should remain at a high level in 2023. State subsidies and increasing wages may have some potential of second-round effects. In particular, inflation will likely continue to be defined by events on the supply side. The Russian attack on Ukraine contributed enormously to rising energy prices. The accompanying acceleration of an energy transition towards renewable energies, which was already planned, should hold energy prices at a high level into the future. Accordingly, the central banks' policies will continue to be correspondingly restrictive or will become more restrictive, and will provide a stable basis for the expectation of increased returns.

China is expected to remain a relevant and decisive factor. The U-turn in its COVID-19 policy should continue to pose a risk to supply chains for as long as infection rates remain high. As a result, there is no big difference compared with the previous zero-COVID strategy – at least not in the short term. That said, the recovery of China's domestic demand in particular represents a key criterion for global development.

In this environment, a considerable improvement in consumer sentiment and therefore a recovery of private demand can only be expected with rather high levels of uncertainty. In all, 2023 should be the culmination of all adverse impacts. The most likely scenario is that there will be weak growth at the start of 2023, with an indication that recovery will take place towards the end of the year.

In this context, the analysts at Erste Group expect almost complete stagnation of the economy in the eurozone in the 1st quarter of 2023. With pricing losing momentum, consumption should become more important in the 2nd half

of the year. Falling employment may cause a certain risk to take effect here. As the environment continues to brighten, investments should increase. With energy and gas prices representing a considerable cause of uncertainty, Erste Group expects growth of 0.6% in 2023, accompanied by an average inflation of 5.6%.

A similar situation is expected in Austria, with the economy expected to grow by 0.6% in 2023 and inflation to continue to ease, with an average of 6.0% for 2023 to be reflected in the budget. Pressure on the employment market as a result of the pandemic seems, for the most part, to have been absorbed by short-term work. After high levels of unemployment in previous years, an unemployment rate of 4.6% is expected for 2023.

The situation is considerably different in the CEE region in that the central banks of the countries in this region adjusted their monetary policies to the situation at a much earlier stage – and in a decidedly spirited manner – and should therefore already have reached the peak of their cycles of interest rate increases. Even though inflation rates in the CEE region have increased further, and have even reached 22% in Hungary, a turning point is still expected. The average level of inflation for the region is expected to be at 12.1% for 2023. External factors such as energy prices and supply chains are also decisive factors in the CEE region and should therefore also lead to an easing of inflation rates in the 2nd half of 2023. Depending on the commitment of local governments, considerable financial contributions from the EU could well support economic development in the region. For example, Romania and Croatia are currently the leading countries making use of the economic programmes put in place. Private consumption in the CEE region will remain subdued due to real wage decreases, which has an influence on the region's moderate growth outlook of 0.9% for real GDP. In terms of the unemployment rate, it is currently assumed that it will rise from 4.8% to 5.1% in 2023.

OUTLOOK FOR VIG INSURANCE GROUP

As market leader in Central and Eastern Europe, VIG Insurance Group with its roughly 29,000 employees is in an ex-

cellent position to take advantage of the opportunities available in this region and the long-term growth options they offer. It is therefore implementing its VIG 25 strategic programme, which was developed together with the CEOs of the VIG insurance companies based on trends and developments in the insurance business and comprises the financial years through to 2025. In addition to creating sustainable value and achieving sustainability objectives, one of the key objectives of the programme is to expand the leading market position in Central and Eastern Europe, with the aim of achieving at least a top three position in each CEE market, with the exception of Slovenia. A major step in this direction is the successful acquisition of the companies in Hungary and Türkiye that were formerly part of the Dutch Aegon Group. This took VIG to number one in the Hungarian market. For the acquisition of the remaining Eastern European business of Aegon with companies in Poland and Romania, only the approval from Romania is pending for a closing. It is expected to be formally concluded in 2023.

A range of 150 to 200% is specified for the VIG Group solvency ratio without taking into account transitional measures for underwriting provisions used by some individual Group companies. The new financial reporting, as set out by IFRS 9/17, which took effect on 1st January 2023 will lead to the relevant financial KPIs being adjusted. The new accounting standard will not have any impact on the strategy or business model of VIG. Further information on the impact of IFRS 9/17 on the consolidated balance sheet and the consolidated shareholders' equity can be found in the notes to the consolidated financial statements starting on page 65.

In line with the current dividend policy, which provides for a distribution in the range of 30 to 50% of Group net profits, the Managing Board recommends to the relevant bodies that the dividend be increased from EUR 1.25 to EUR 1.30 per share for the financial year 2022. This corresponds to an increase of 4.0% compared to the previous year and a dividend payout ratio of 35.7%. The dividend per share is based on the company's success and takes into account the current volatile environment.

The development of the financial year 2023 is difficult to assess due to a number of uncertainty factors, especially associated with the ongoing war in Ukraine and its far-reaching consequences. The weaker macroeconomic environment and higher levels of volatility expected on the financial markets are currently restricting the ability to predict business trends. In this context, and in view of the transition

to a new financial reporting from 2023, any firm outlook for 2023 pursuant to IFRS 9/17 can only be provided during the course of the year. Given that VIG has been able to manage the current challenges in its insurance business operations very well so far, following 2022 the Group continues to aim to achieve positive operating performance in 2023, subject to the factors mentioned above.

CONSOLIDATED BALANCE SHEET

| Assets | Notes | 31.12.2022 | 31.12.2021 |
|-----------------------------------------------------------------|-------------|-------------------|-------------------|
| in EUR '000 | | | |
| Intangible assets | 1, A | 2,084,745 | 1,744,169 |
| Right-of-Use Assets | | 178,663 | 173,348 |
| Investments | 2, B | 32,340,353 | 34,809,790 |
| Property | | 3,128,977 | 2,850,588 |
| Owner-occupied property | | 483,345 | 472,303 |
| Investment property | | 2,645,632 | 2,378,285 |
| Shares in at equity consolidated companies | | 287,960 | 276,913 |
| Financial assets | | 28,923,416 | 31,682,289 |
| Financial investments for unit- and index-linked life insurance | 3, C | 7,164,129 | 8,525,331 |
| Reinsurers' share in underwriting provisions | 4, D | 1,962,627 | 1,564,605 |
| Receivables | 5, E | 2,341,675 | 2,067,188 |
| Tax receivables and advance payments out of income tax | F | 173,781 | 135,053 |
| Deferred tax assets | 6, F | 569,889 | 311,447 |
| Other assets | 7, G | 399,180 | 390,893 |
| Cash and cash equivalents | | 2,058,970 | 2,456,333 |
| Total | | 49,274,012 | 52,178,157 |

| Liabilities and shareholders' equity | Notes | 31.12.2022 | 31.12.2021 |
|-------------------------------------------------------------------|----------|-------------------|-------------------|
| in EUR '000 | | | |
| Shareholders' equity | 8 | 4,434,184 | 5,597,948 |
| Share capital and reserves | | 4,223,838 | 5,478,217 |
| Non-controlling interests | | 210,346 | 119,731 |
| Subordinated liabilities | 9, K | 1,746,366 | 1,461,286 |
| Underwriting provisions | 10, H | 31,987,870 | 32,546,227 |
| Underwriting provisions for unit- and index-linked life insurance | 11, I | 6,902,710 | 8,188,793 |
| Non-underwriting provisions | 12, J | 697,705 | 890,189 |
| Liabilities excl. Subordinated liabilities | 13, K | 3,188,375 | 2,900,280 |
| Tax liabilities out of income tax | F | 111,519 | 243,382 |
| Deferred tax liabilities | 6, F | 77,418 | 218,884 |
| Other liabilities | | 127,865 | 131,168 |
| Total | | 49,274,012 | 52,178,157 |

The numbers and letters shown for individual items in the consolidated balance sheet, consolidated income statement, consolidated statement of comprehensive income and consolidated shareholders' equity refer, among other things, to detailed disclosures for those items in the notes to the consolidated financial statements. The numbers refer to the detailed disclosures in the notes to the consolidated balance sheet starting on page 126. The letters refer to the explanatory text in the Accounting policies section starting on page 75.

CONSOLIDATED INCOME STATEMENT

| Consolidated income statement | Notes | 2022 | 2021 |
|-------------------------------------------------------------------------------|-------|------------|------------|
| in EUR '000 | | | |
| Net earned premiums – retention | L | 10,910,888 | 9,705,633 |
| Premiums written – retention | | 11,176,967 | 9,878,594 |
| Premiums written – gross | 15 | 12,559,242 | 11,002,566 |
| Premiums written – reinsurers' share | | -1,382,275 | -1,123,972 |
| Change in unearned premiums – retention | | -266,079 | -172,961 |
| Change in unearned premiums – gross | | -364,867 | -179,621 |
| Change in unearned premiums – reinsurers' share | | 98,788 | 6,660 |
| Financial result excl. result from shares in at equity consolidated companies | 16 | 778,947 | 607,018 |
| Income from investments | | 1,359,461 | 1,159,520 |
| Expenses for investments and interest expenses | | -580,514 | -552,502 |
| Result from shares in at equity consolidated companies | 17 | 18,287 | 24,872 |
| Other income | 18 | 185,859 | 165,789 |
| Expenses for claims and insurance benefits – retention | 19 | -7,912,036 | -7,136,561 |
| Acquisition and administrative expenses | 20 | -2,930,465 | -2,536,828 |
| Other expenses | 18 | -421,480 | -317,902 |
| Business operating result | | 630,000 | 512,021 |
| Impairments of goodwill | | -26,361 | 0 |
| Impairments of intangible assets excluding goodwill | | -41,217 | -688 |
| Result before taxes | | 562,422 | 511,333 |
| Taxes | 21 | -98,131 | -123,339 |
| Result for the period | | 464,291 | 387,994 |
| thereof attributable to shareholders | | 465,941 | 375,730 |
| thereof Non-controlling interests | | -1,650 | 12,264 |
| Earnings per share* (in EUR) | 22 | 3.58 | 2.94 |

*The calculation of these figures considers the interest expenses for hybrid capital. The undiluted earnings per share equals the diluted earnings per share.

CONSOLIDATED STATEMENT OF COMPREHENSIVE INCOME

| Cash outflows from lease liabilities | -34,244 | -28,535 |
| Cash flow from financing activities | -24,050 | 597,719 |
| Change in cash and cash equivalents | -400,424 | 704,317 |
| Cash and cash equivalents at beginning of period ² | 2,456,333 | 1,745,147 |
| Change in cash and cash equivalents | -400,424 | 704,317 |
| Changes in scope of consolidation | 4,765 | 7,957 |
| Effects of foreign currency exchange differences on cash and cash equivalents | -1,704 | -1,088 |
| Cash and cash equivalents at end of period² | 2,058,970 | 2,456,333 |

¹ The non-cash income and expenses are primarily exchange rate changes.

² The amount of cash and cash equivalents at the beginning and the end of period correlates with position cash and cash equivalents on the asset side and consists of cash on hand and overnight deposits.

Notes to the consolidated financial statements

GENERAL INFORMATION AND PRINCIPLES OF SIGNIFICANT ACCOUNTING POLICIES

GENERAL INFORMATION

VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe is a public limited company and one of the leading insurance groups in Central and Eastern Europe with its registered office located at Schottenring 30, 1010 Vienna, Austria. Wiener Städtische Versicherungsverein, which also has its registered office in Vienna, is the majority shareholder of VIG Holding. It is also the ultimate parent company and therefore includes VIG Holding and its subsidiaries in its consolidated financial statements. The insurance companies and pension funds of VIG Insurance Group offer insurance services in the life, health and property and casualty areas to roughly 28 million customers in 30 countries.

PRINCIPLES OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements were prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the European Union, and the applicable provisions of § 245a (1) of the Austrian Commercial Code (Unternehmensgesetzbuch – UGB) and Chapter 7 of the Austrian Insurance Supervision Act (Versicherungsaufsichtsgesetz – VAG).

The significant accounting policies used in the preparation of the consolidated financial statements are presented in the Accounting policies section starting on page 75. Unless otherwise stated under “Changes in accounting policies”, the policies described were applied consistently during the reporting periods presented in these financial statements. Preparing consolidated financial statements in accordance with the IFRS requires the Managing Board to make estimates and assumptions in connection with the accounting policies. Areas with greater scope of discretion, highly complex areas, or areas involving assumptions and estimates that are of critical importance to the consolidated financial statements are listed on page 72.

Amounts were commercially rounded to improve readability and, where not indicated otherwise, are shown in thousands of euro (EUR '000). Calculations, however, are done using exact amounts, which may lead to rounding differences.

Going concern

The present consolidated financial statements were prepared on a going concern basis in accordance with IAS 1.25 and IAS 1.26. The Managing Board made this assessment primarily based on the solid capital resources, positive result before taxes and risk-averse investment.

CHANGES IN ACCOUNTING POLICIES

Unless otherwise indicated, the standards that are applicable for the first time, if relevant, have no or no material effect on the financial statements.

Standards applicable that are used for the first time in the Group Annual Report

| | |
|----------------------|------------------------------------------------------------------------|
| Amendments to IFRS 3 | Amendments to References to the Conceptual Framework in IFRS Standards |
| IAS 37 | Onerous contracts: costs of contract performance |
| all IFRS | Annual Improvements to IFRS Standards 2018–2020 |
| IAS 16 | Income before qualified use |

| New standards and changes to current reporting standards | | Applicable as of ¹ |
|----------------------------------------------------------|---------------------------------------------------------------------------------------|---------------------------------------------------------------|
| Those already adopted by the EU | | |
| IFRS 9 | Financial Assets | 1.1.2018 ² |
| Amendments to IFRS 9 | Prepayment features with negative compensation | 1.1.2019 ² |
| IFRS 17 | Insurance Contracts | 1.1.2023 |
| Amendments to IAS 1 and IFRS Practice Statement 2 | Disclosure of Accounting Policies | 1.1.2023 ³ |
| Amendments to IAS 8 | Definition of Accounting Estimates | 1.1.2023 |
| Amendments to IAS 12 | Deferred Tax related to Assets and Liabilities arising from a Single Transaction | 1.1.2023 |
| Amendments to IFRS 17 | Initial Application of IFRS 9 and IFRS 17 – Comparative Information | 1.1.2023 |
| Those which are not or not yet adopted by the EU | | |
| IFRS 14 | Regulatory Deferral Accounts | EU decided this standard shall not be transferred into EU law |
| Amendments to IFRS 10 and IAS 28 | Sale or contribution of assets between an investor and its associate or joint venture | First-time application deferred for an indefinite period |
| Amendments to IAS 1 | Classification of liabilities as current or non-current | 1.1.2024 |
| Amendments to IFRS 16 | Lease liabilities for sale and leaseback | 1.1.2024 |

¹ Unless otherwise specified, the VIIG Insurance Group is not planning early adoption of the provisions listed in the table.

² First-time application for insurance companies can be delayed to 1 January 2023.

³ Please see Estimates and discretionary decisions section on the topic of materiality.

Unless indicated otherwise, either no material effects from the standards listed in the table are expected, or the amendments are not relevant.

IFRS 9 Financial Instruments: general information

The International Accounting Standards Board (IASB) issued the final version of IFRS 9 Financial Instruments (IFRS 9) back in 2014. The standard supersedes the previously applicable IAS 39 "Financial Instruments: recognition and measurement" (IAS 39), with effect from 1 January 2018. However, companies that apply IFRS 4 Insurance Contracts, can opt to defer the IFRS 9 effective date (the deferral approach). Accordingly, companies whose activities are predominantly in the insurance business are permitted to postpone their initial application of IFRS 9 until IFRS 17 Insurance contracts (IFRS 17) comes into effect. IFRS 17 was adopted into EU law in November 2021, with effective date as of 1 January 2023 as the date of initial application. In order to prevent potential inconsistencies in measurements between the asset and liabilities side (accounting mismatches), both standards will be applied for the first time on 1 January 2023, if the deferral approach is used.

A company is predominantly engaged in the insurance business if

- the percentage of the book value of the underwriting liabilities and provisions compared with total liabilities including underwriting provisions exceeds 90%, or
- this percentage is between 80% and 90% and no other significant activities other than the insurance business are pursued.

In December 2021, the IASB published further amendments to IFRS 17 "Initial application of IFRS 17 and IFRS 9 – Comparative information" concerning comparative information. This adjustment was due to the fact that, unlike in the initial application of IFRS 17, retrospective application is not mandatory when IFRS 9 is first applied. As a result, there might not be any comparative data for the financial instruments. To counteract this, the classification overlay can be used. However, only if there is no restatement of a financial instrument with regard to the comparative information due to IFRS 9 in 2022 when IFRS 17 and IFRS 9 are initially applied together at the same time. Using the classification overlay minimises accounting mismatches that arise as a result of differences in the transition requirements of IFRS 17 and IFRS 9.

A company that uses the classification overlay for financial instruments must publish the comparative data as if the classification and measurement requirements of IFRS 9 applied to that financial instrument. The impairment requirements are not mandatory applicable if the classification overlay is used. Any difference between the previous carrying amount of a financial instrument and the amount resulting from the application of the classification overlay must be recognised in equity.

IFRS 9 initial application rules have to be applied as of 1 January 2023 if classification overlay is used for comparative period.

IFRS 9 primarily concerns the classification and measurement of financial instruments. These will be classified in two groups in the future, at amortised cost (AC) and at fair value.

Classification and measurement of financial assets depends on the business model and contractual cash flows (Solely Payments of Principal and Interest criterion (SPPI criterion)). Furthermore, incurred losses (Incurred Loss Model) are no longer the only losses to be taken into account, but rather expected losses (Expected Credit Loss Model (ECL Model)) in the form of a risk provision. Simplifications exist for trade receivables and lease receivables. New requirements were also provided for hedge accounting. Their objective is to orient hedge accounting more to the economic risk management of the entity in the future.

In principle, equity instruments and derivatives are measured at fair value through profit and loss (FVtPL). However, upon initial recognition of equity instruments, there is an irrevocable option to subsequently measure them through other comprehensive income (OCI) (FVtOCI option), which also means that they can no longer be recycled through profit or loss. Consequently, only dividends are to be recognised in the income statement. The FVtOCI option applies for instruments that are not held for trading. Exercising this option in accordance with IFRS 9 makes it possible to remove or further minimise the risk of accounting mismatches.

The requirements of IAS 39 for the classification and measurement of financial liabilities have not been amended in IFRS 9, which is why financial liabilities – with the exclusion of derivatives respectively liabilities held for trading – continue to be measured at AC. Derivatives respectively liabilities held for trading are to be recognised at FVtPL.

IFRS 17 Insurance Contracts: general information

IFRS 17 was published in the Official Journal of the European Union (EU) on 23 November 2021. As a result, IFRS 17 will supersede the previous standard, IFRS 4, in the EU effective as of 1 January 2023. IFRS 4, which is still currently in place, is to be applied until IFRS 17 enters into effect. IFRS 4 allows local accounting practices to be used for insurance contracts in the IFRS consolidated balance sheet. The IASB imposes uniform accounting policies for insurance contracts for the first time in IFRS 17.

IFRS 17 provides three measurement models for measuring insurance contracts:

- In principle, measurement is performed using the general measurement model (GMM) based on a prospective method. The model is based on the concept of contract fulfilment and uses current assumptions. When GMM is used for measurement, future cash inflows and outflows are discounted and supplemented by a risk adjustment (RA). First-time measurement of insurance contracts results in either a contractual service margin (CSM) that is distributed over the term of the contract, or a loss component that is recognised immediately in the income statement. There are a number of exceptions and special provisions for the GMM that concern groups of investment contracts with discretionary profit participation and reinsurance cessions as well as the two measurement models below.

- A simpler measurement model – the premium allocation approach (PAA) – may be used for short-term contracts and low volatility long-term insurance contracts. The approach is similar to the unearned premium model currently used for accounting in the property and casualty line of business. They are different, however, in that the loss reserve (provision for outstanding claims/liability for incurred claims (LIC)) must also be accounted for using an expected present value and a risk adjustment.
- There is a mandatory measurement model for profit-participating contracts and contracts of unit- and index-linked life insurance – the variable fee approach (VFA). Measurement is, as a rule, performed according to the GMM, but the contractual service margin (CSM) is variable in the VFA due to the discretionary profit participation.

Measurement units are determined using the following steps:

- Portfolio: insurance contracts that are subject to similar risks and managed together are combined into portfolios
- Group: every portfolio is divided into the following groups:
 - onerous contracts;
 - contracts that have no significant possibility of becoming onerous; and
 - other contracts.
- Annual cohorts: groups are divided according to underwriting year (annual cohorts). However, the IFRS 17 adopted by the EU provides an exception for the formation of annual cohorts for intergenerational, mutualised and cash-flow matched insurance contracts.

The most significant changes from IFRS 4 to IFRS 17 in terms of the accounting of insurance contracts are:

- the use of current assumptions for measuring underwriting provisions,
- the introduction of the contractual service margin (CSM) for the unrealised future profits of a group of insurance contracts that is distributed over the term of the contract,
- the introduction of a risk adjustment (RA) to take account of the uncertainty in the cash flows from insurance contracts,
- the elimination of savings components (investment component) as revenue, and
- the introduction of the OCI option to enable the offsetting of accounting mismatches, which can occur, for example, in the case of life insurance contracts with direct profit participation.

Initial application of IFRS 9 and IFRS 17 within the Group

IFRS 4 DEFERRAL APPROACH

In accordance with the deferral approach requirements, the Group performed the calculations on the basis of 31 December 2015 and satisfies the criteria for deferral according to IFRS 4 with a result of more than 90%. IFRS 9 will therefore be applied at the same time as IFRS 17. For associated companies and joint ventures that have applied IFRS 9 since 1 January 2018, VIG Insurance Group has chosen in accordance with IFRS 4 to include them in the consolidated financial statements without adjustment. IFRS 4 does not require regular evaluation of the predominant business activity unless there is a change in the entity's business activities. A new evaluation was also not necessary in the current financial year.

Any information that must be published in line with the deferral approach (IFRS 4.39B-.39J) has been presented in the following tables. Financial instruments that satisfy the SPPI criteria (SPPI-pass), but are held for trading or managed based on fair value, are reported under "Other". This is primarily the case for bonds.

| Fair value | 31.12.2022 | | 31.12.2021 | | Fair value changes | |
|-------------------------------------------------------------------------|-------------------|------------------|-------------------|------------------|--------------------|-----------------|

IMPACT ON CONSOLIDATED BALANCE SHEET AND CONSOLIDATED SHAREHOLDERS' EQUITY

VIG Insurance Group will apply IFRS 9 and IFRS 17 for the first time from 1 January 2023, with IFRS 17 applied retrospectively and the Group having decided to apply the classification overlay within the meaning of IFRS 9.

The initial application will result in significant changes and therefore have a material influence on the consolidated financial statements. The derivation of the adjusted opening balance was performed and resulted in a reduction in shareholders' equity at the current implementation status. This is currently broken down as follows:

| | |
|-------------------------------------------|-----------------|
| Estimated impacts on shareholders' equity | 1.1.2022 |
| in EUR '000 | |
| Adjustments due to IFRS 17 implementation | -2,039,982 |
| Adjustments due to IFRS 9 implementation | 1,674,537 |
| Subtotal | -365,445 |
| Effects from deferred taxes | 154,873 |
| Total | -210,572 |

The effects on the opening balance are also presented below. These are still preliminary, so changes may occur until they are finalised. Reasons for this include that:

- financial reporting processes and internal controls are still being adapted and continually improved;
- the new systems are still being tested and optimised despite the fact that IAS 39/IFRS 4 and IFRS 9/17 were running in parallel in 2022;
- internal implementation work in certain sub-areas – particularly alignment work for internal reinsurance – is not yet complete;
- when classifying financial instruments in accordance with IFRS 9, individual adjustments can still be made in order to enable an asset-liability match in the shareholders' equity and the income statement that is as efficient as possible.

| Effects on the assets | Balance Sheet as of 31.12.2021 | IFRS 17 adjustment | IFRS 9 adjustment | Adjustments/ reclassifications | Balance sheet as of 1.1.2022 |
|-----------------------------------------------------------------|--------------------------------------|-----------------------|----------------------|-----------------------------------|------------------------------------|
| in EUR '000 | | | | | |
| Cash and cash equivalents | 2,456,333 | | | 271,074 | 2,727,407 |
| Financial assets | 40,207,620 | -1,557,445 | 1,679,252 | 67,592 | 40,397,019 |
| Financial assets according to IAS 39 | 31,682,289 | -1,557,445 | -30,032,823 | -92,021 | 0 |
| Financial assets according to IFRS 9 | | 8,346,278 | 31,712,075 | 338,666 | 40,397,019 |
| Financial investments for unit- and index-linked life insurance | 8,525,331 | -8,346,278 | | -179,053 | 0 |
| Receivables | 2,067,188 | -1,378,020 | -3,194 | -336,042 | 349,932 |
| Underwriting | 1,377,531 | -1,377,531 | | | 0 |
| Non-underwriting | 689,657 | -489 | | -336,042 | 353,126 |

| Current tax liabilities | 243,382 | | | | 243,382 |
| Financial liabilities | 2,623,053 | 747 | 643 | | 2,624,443 |
| Other liabilities | 131,168 | -70,852 | | | 60,316 |
| Insurance contracts | 40,735,020 | 219,867 | | 0 | 40,954,887 |
| Underwriting provisions IFRS 4 | 32,546,227 | -32,546,227 | | | 0 |
| Underwriting provisions for unit- and index-linked life insurance IFRS 4 | 8,188,793 | -8,188,793 | | | 0 |
| Insurance contracts liabilities issued IFRS 17 | | 40,905,302 | | | 40,905,302 |
| Reinsurance contracts liabilities held IFRS 17 | | 49,585 | | | 49,585 |
| Provisions | 890,189 | -32,307 | | | 857,882 |
| Deferred tax liabilities | 218,884 | | | 118,847 | 337,731 |
| Consolidated shareholders' equity | 5,597,948 | -2,039,982 | 1,674,537 | 154,873 | 5,387,376 |
| Total assets | 52,178,157 | -2,924,922 | 1,675,180 | 276,795 | 51,205,210 |

The contractual service margin (CSM) of approximately EUR 5.1 billion is included in Insurance contracts liabilities issued.

IFRS 9 APPLICATION DETAILS

VIG uses a central subledger for the measurement of financial instruments. This allows the processes associated with the recognition and measurement of financial instruments to be optimised and streamlined. More than 95% of financial instruments relevant to IFRS 9 are currently managed in this system. In the future, this makes it significantly easier to consistently apply IFRS 9, including calculation of ECL. The classification of financial assets based on the SPPI criteria has already been implemented.

The IFRS 9 guidelines were finalised and rolled out in VIG Insurance Group as part of the IFRS 9/17 programme. These guidelines include the methods used for uniform implementation of IFRS 9.

In the future, illiquid portfolios for which the “hold strategy” is used will be classified as measured at AC. This applies in particular to loans. Financial assets that both satisfy the SPPI criterion (SPPI-pass) and are subject to the “hold to collect and sell” business model are categorised as measured at FVtOCI. Financial assets that are not compliant with SPPI (SPPI-fail) or do not meet any of the above-mentioned business models are recognised as measured at FVtPL.

As part of the initial application of IFRS 9, the representation of financial instruments of the unit-linked and index-linked life insurance was harmonised with the presentation of underwriting positions on the liabilities side of the balance sheet. Against this background, these financial instruments are no longer listed separately, but are included in the financial instruments within the definition of IFRS 9, measured at FVtPL or at AC. Among other things, this influences the recognition of cash and cash equivalents of financial instruments for unit- and index-linked life insurance.

As a rule, financial assets within the meaning of IFRS 9 are to be distinguished between debt instruments and equity instruments. The following table shows the classification of debt instruments and equity instruments according to both IAS 39 and IFRS 9 as of the transition date 1 January 2022.

| Debt instruments | | | | |
|--------------------------------------------------|------------------------|--------------------------|-------------------|-------------------|
| IAS 39 | IFRS 9 | | | |
| | SPPI-pass ¹ | | | SPPI-fail |
| | Business model | | | |
| | Hold to collect | Hold to collect and sell | Neither | |
| Loans and other investments | measured at AC | measured at FVtOCI | measured at FVtPL | measured at FVtPL |
| Held to maturity (incl. reclassified) | measured at AC | measured at FVtOCI | measured at FVtPL | measured at FVtPL |
| Available for sale | measured at AC | measured at FVtOCI | measured at FVtPL | measured at FVtPL |
| Recognised at fair value through profit and loss | measured at AC | measured at FVtOCI | measured at FVtPL | measured at FVtPL |

¹ Expected credit loss (ECL) must be calculated for SPPI-pass debt instruments.

| Equity instruments | | | |
|--------------------------------------------------|-------------------|--------------------|--|
| IAS 39 | IFRS 9 | | |
| | Held for trading | FVtOCI option | |
| Available for sale | measured at FVtPL | measured at FVtOCI | |
| Recognised at fair value through profit and loss | measured at FVtPL | measured at FVtOCI | |

The two following diagrams show the distribution of the classification of financial assets (as a percentage) according to both IFRS 9 and IAS 39 as of 1 January 2022:

IFRS 9

IAS 39

Included in the category measured at AC according to IFRS 9 are cash and cash equivalents, debt instruments subject to SPPI-pass as well as the “hold to collect” business model, and receivables to which the ECL model applies. According to the current implementation status of IFRS 9, the share of any financial instruments measured at AC is reduced.

More than half of the total financial assets are classified as measured at FVtOCI under IFRS 9. This includes debt instruments that are assigned to both SPPI-pass and to the “hold to collect and sell” business model.

Financial assets that are classified as measured at FVtPL according to IFRS 9 account for the second-largest share. This category is predominantly made up of financial instruments for unit- and index-linked life insurance and investment funds.

Thus, around 85% of financial assets are measured at fair value under IFRS 9. This means that the share of the financial assets measured at fair value increases after the initial application of IFRS 9.

CHANGE FROM CLEAN VALUE TO DIRTY VALUE ACCOUNTING

As part of the initial application of IFRS 9, financial instruments will subsequently be accounted at the dirty value. This means that – in contrast to IAS 39 accounting – the accrued interest is no longer recognised as a separate item in the balance sheet but is listed as part of the book value.

IFRS 17 APPLICATION DETAILS

As of the transition date 1 January 2022, the Group has:

- defined, recognised and measured every group of insurance contracts and all acquisition costs recognised as assets as if IFRS 17 had always been applicable, unless the fair value approach was applied as of the transition date;
- derecognised all balances that are not to be recognised under IFRS 17; and
- recorded any resulting net differences under consolidated shareholders' equity.

Under IFRS 17, there is a choice in relation to measurements during the year for interim reporting. In the case of changes to estimates, IFRS 17 requires contractual service margin (CSM) effects to be immediately recognised in the income statement. Under IAS 34, however, the frequency of reporting must not influence the amount stated for the result for the year. So that the result for the year is not influenced, measurements made during the year must be carried out on a cumulative basis from the start of the financial year to the relevant reporting date during the year (year-to-date accounting). Consequently, the year-to-date accounting does not take into account the changes to estimates recorded during the year in previous periods. In contrast, these changes in estimates recorded during the year in prior periods would have to be included in the calculation for period-to-period accounting. VIG has opted for year-to-date accounting in accordance with IFRS 17.B137.

Additionally, the Group exercises the optional exemption from grouping by annual cohorts that is applicable in the EU. This exemption primarily concerns long-term life insurance contracts and health insurance contracts that are eligible for profit participation. However, due to cost-benefit considerations and materiality aspects, insurance companies from non-EU member states that apply IFRS 17 at a local level are not obliged to apply this optional EU exemption for the consolidated financial statements.

Primary insurance and facultative reinsurance were grouped in the IFRS 17 portfolio as follows:

- Life insurance and health insurance:
 - With profit participation
 - Unit-linked and index-linked
 - Others
 - Issued and held Treaty reinsurance
 - Facultative issued reinsurance
 - Facultative held reinsurance
 - Long-term health insurance (SLT)
- Property and casualty insurance:
 - Medical expense insurance
 - Income protection insurance
 - Workers' compensation insurance
 - Motor vehicle liability insurance
 - Other motor insurance
 - Marine, aviation and transport insurance
 - Fire and other damage to property insurance
 - General liability insurance
 - Credit and suretyship insurance
 - Legal expenses insurance

- Assistance
- Miscellaneous financial losses
- Issued and held Treaty reinsurance
- Facultative issued reinsurance
- Facultative held reinsurance

In primary insurance, the PAA is applied in the non-life line of business for short-term contracts and also serves as the preferred measurement model. This is also the case for multi-year insurance contracts in non-life insurance, insofar as the measurement models do not lead to any material differences. In the case of multi-year insurance contracts in primary insurance, the GMM is applied, and in the presence of a substantial profit participation, the VFA is applied in life insurance and health insurance.

Under IFRS 17, the determination of the risk adjustment is required for non-financial risks (Risk adjustment). The standard does not set out any specific requirements in this context. VIG has therefore decided to follow the cost of capital approach methodology of Solvency II when determining the risk adjustment under IFRS 17. This corresponds to the opportunity costs for allocated capital.

The health insurance business in Austria comprises insurance contracts with direct profit participation in accordance with IFRS 17.B101. The IFRS 17.B101 a) to c) criteria on mandatory application of the VFA are met primarily by the premium adjustment mechanism that ensures life-long coverage of the insured risks. **Fully retrospective approach**

The Group has adopted the full retrospective approach where applicable. This was thus applied to the non-life business as well as the assumed and ceded reinsurance, which are measured according to the PAA. In order to apply the fully retrospective approach as far as possible, all available and reliable information was taken from existing systems. Nevertheless, it was precisely the limited availability of data that was the decisive reason that the fair value approach was applied for the long-term business as of the transition date. For the most part, long-term business comprises life insurance, health insurance (SLT) and any property and casualty insurance contracts that fall under the GMM.

Fair value approach

The difference between the fair value of the groups of insurance contracts and the fulfilment cash flow as of the transition date results in the contractual service margin (CSM) or the loss component of the mathematical reserve (liability for remaining coverage (LRC)). When determining the fair value, the principles of IFRS 13 were applied where this was permitted. In addition, the Group made extensive use of the rule that groups of insurance contracts can also be aggregated over the annual cohorts in the fair value approach as of the transition date.

All available and reliable information was gathered in order to

- identify the groups of insurance contracts,
- determine whether policies with direct profit participation existed,
- identify policies that contain discretionary cash flows that are not subject to direct profit participation, and
- determine whether investment contracts exist that satisfy the criteria for investment contracts with direct profit participation in accordance with IFRS 17.

When carrying out measurements according to the fair value approach, VIG determined the interest rates used for discounts for the groups of insurance contracts as of the transition date. The determined interest rates correspond to the weighted average interest rates that are applied for the underlying contracts as of the date of initial application.

The discount rate used for the periodic compounding of the contractual service margin (CSM) is determined using the bottom-up approach.

Furthermore, VIG has decided, from the transition date, to break down the insurance finance result into amounts that are included in the income statement and amounts that are included in the statement of comprehensive income.

In order to determine the liabilities for insurance contracts as of the transition date, the costs of capital approach was used for the risk adjustment (RA) to calculate the fair value.

FOREIGN CURRENCY TRANSLATION

Foreign currency transactions

The separate financial statements of each subsidiary are prepared in the currency that generally prevails for the ordinary business activities of the company (functional currency). Within VIG Insurance Group, the functional currency is generally the local currency. Transactions not concluded in the functional currency are recognised using the mean rate of exchange on the date of the transaction. Monetary assets and liabilities in foreign currency existing on the balance sheet date are translated to euro using the mean rate of exchange on the balance sheet date. Any resulting foreign currency gains and losses are recognised through profit or loss.

Translation of separate financial statements in foreign currencies

Assets, liabilities, income and expenses are presented in euro, the reporting currency of VIG Holding.

All assets and liabilities reported in the separate financial statements are translated to euro using the mean rate of exchange on the balance sheet date. Items in the income statement are translated using the average month-end mean rate of exchange. In the statement of cash flows, the mean rate of exchange on the balance sheet date is used for changes in balance sheet items and the mean rate of exchange at the end of the period is used for changes in income statement items.

Currency translation differences, including those that result from accounting using the equity method, are recognised directly in equity.

| Currency | | End-of-period exchange rate | | Average exchange rate | |

New Turkish lira (TRY)

A value of three-year cumulative inflation above 100% is considered one of the indicators for the application of IAS 29 Financial Reporting in Hyperinflationary Economies; this is the case in Türkiye. In the present consolidated financial statements, VIG Insurance Group fully consolidates two Turkish insurance companies that compile their financial statements in the functional currency TRY. These companies do not have any material long-term non-monetary assets that would have a material accounting impact by virtue of IAS 29, which is why IAS 29 is not applied in the present consolidated financial statements.

ESTIMATES AND DISCRETIONARY DECISIONS

Preparation of the consolidated financial statements requires that the Managing Board make discretionary assessments and specify assumptions regarding future developments (estimates). These estimates and discretionary decisions could have a material effect on the recognition and value of assets and liabilities, the disclosure of other obligations and the reporting of income and expenses.

The book values of the items on the balance sheet date are shown in the consolidated balance sheet on page 56 or the corresponding disclosures in the notes. Sensitivity analyses for assets and liabilities are presented in the risk report starting on page 118.

Estimates and discretionary decisions

| | |
|--------------------------------------------------------------------------------|------------------------------------------|
| Underwriting provisions | Details on page 84 |
| Financial instruments recognised at fair value (Level 3) | Details on page 73 and starting page 161 |
| Impairment of goodwill | Details on page 73 |
| Valuation allowances for receivables and other (accumulated) impairment losses | Details on page 73 and page 81 |
| Value of deferred tax assets | Details on page 73 |
| Method of consolidation | Details on page 74 and 88ff |
| Materiality | Details on page 74 |

Financial instruments recognised at fair value (Level 3)

Suitable valuation methods are used to calculate the fair value of financial instruments that are not traded in active markets. The assumptions used are based on market data available on the balance sheet date. To determine the fair value of many financial assets that are not traded in active markets, VIIG Insurance Group uses present value methods based on appropriate interest rate models. Note 24. Financial instruments and fair value measurement hierarchy starting on page 161 provides further information on the valuation process. Information on the impairment of financial assets is provided on page 80.

Impairment of goodwill

Goodwill is tested for impairment at least once a year in accordance with the method explained on page 75 in the Impairment of non-financial assets section. Estimates in this area primarily concern the projected earnings of the CGUs that the calculations are based on, and specific parameters, in particular the growth rates and discount rates.

| Sensitivities Additional impairment needed | Cash flows | Growth rate | Discount rate | Cash flows and discount rate |
|-----------------------------------------------|------------|-------------|---------------|---------------------------------|
| | -10% | -1%p | +1%p | -10% and +1%p |
| in EUR millions | | | | |
| Baltic States | | | | 33.1 |
| Hungary | | | | 5.2 |

Valuation allowances for receivables

The collectability of receivables is based on experience. Information on the recognition of potential impairment losses is provided on page 81.

Value of deferred tax assets

Income taxes must be estimated for each tax jurisdiction in which VIIG operates. The current income tax expected for each taxable entity must be calculated and the temporary differences due to differences between the tax and IFRS treatment of certain balance sheet items must be assessed. If temporary differences exist, as a rule they lead to the recognition of deferred tax assets and liabilities in the financial statements based on the tax rate for each country. The amount of the expected current and deferred tax liability or asset reflects the best estimate taking into account tax uncertainties and, consequently, under application of IFRIC 23.

The Managing Board must make assessments and, taking into account tax uncertainties, judgements when calculating current and latent taxes. Deferred tax assets are only recognised to the extent that it is probable they can be utilised. The utilisation of deferred tax assets depends on the likelihood of achieving sufficient taxable income of a particular tax type for a particular tax jurisdiction, while taking into account any statutory restrictions concerning maximum loss carryforward periods.

The following factors are considered when assessing the probability of being able to utilise deferred tax assets in the future:

- past results of operations,
- operating plans,
- loss carryforward periods,
- tax planning strategies and
- existing deferred tax liabilities.

Information on the existing group agreement for Austrian companies and some foreign companies is provided on page 83.

If actual events diverge from the estimates or the estimates must be adjusted in future periods, this could have an adverse effect on net assets, financial position and results of operations. If the assessment of the recoverability of deferred tax assets changes, the book value must be reduced or increased and the change recognised in the income statement or charged or credited to equity, depending on the treatment used when the deferred tax asset was originally recognised. Further information can be found under Taxes in the Accounting policies section starting on page 81 and in Note 6. Deferred taxes on page 138.

Method of consolidation

Discretionary decisions by the Managing Board primarily concern determining the scope of consolidation for consolidated companies.

Companies that were of material importance at the time of first consolidation generally continue to be included in the scope of consolidation. Circumstances could arise, however, that lead to the Managing Board using its discretion to perform a reassessment of the entire scope of consolidation. This could result in non-material companies that were consolidated in the past being removed from the scope of consolidation again. Companies that, due to their business activities, have revenues that are primarily generated and charged within the Group and do not generate any significant profits or losses, are not included in the scope of consolidation unless they have cross-border operations.

Thresholds calculated based on previous quarterly financial statements and the latest annual financial statements are used to determine the current scope of consolidation.

Materiality

Under IAS 1.31, only material information is to be presented in the financial statements. This applies even if a standard specifies certain requirements or minimum requirements. The IASB's aim with regard to this paragraph, in conjunction with a Practice Statement published thereon, was to create the foundation for clear, understandable financial reporting based on the most important information.

A scope of discretion exists when deciding whether information concerns material or immaterial disclosures. The Managing Board of the VIG Holding introduced the use of a threshold for determining the materiality of notes disclosures and associated accounting policies in this Annual Report. If the threshold is not exceeded, information is only published in the Annual Report if the information is judged to be material for the financial statement reader during the approval process based on qualitative criteria.

ACCOUNTING POLICIES

INTANGIBLE ASSETS (A)

Goodwill

Goodwill is accounted for in the functional currency of each entity. Goodwill is measured at cost less accumulated impairment losses. In the case of shares in at equity consolidated companies, goodwill is included in the adjusted book value of the participation.

Other intangible assets

Purchased intangible assets are recognised on the balance sheet at cost less accumulated amortisation and impairment losses. No noteworthy intangible assets were created by the companies in the scope of consolidation. With the exception of trademarks, all intangible assets have a finite useful life. The intangible assets are therefore amortised over their period of use.

| Average useful life in years | from | to |
|------------------------------|------|----|
| Software | 3 | 13 |

Software is amortised using the straight-line method. Software components are also examined on an event-driven basis to see whether they can still be used. If there is a high probability that certain IT systems or programme sections can no longer be used or no longer be fully used, a write-down must be made. If a change in useful life is determined during full use, the amortisation period is changed to the new useful life.

In previous years trademarks with unlimited useful lives were identified as part of the purchase price allocation during acquisition of the companies Asirom, BTA Baltic and Seesam. The unlimited useful life results from the fact that there is no foreseeable end to their economic life. The fair value of the trademarks was determined during first-time consolidation using the relief-from-royalty method. A "tax amortisation benefit" was taken into account in the relief-from-royalty method. The Asirom trademark had a book value of EUR 9,661,000 (EUR 13,648,000), the BTA Baltic trademark had a book value of EUR 37,000,000 (EUR 37,000,000) and the Seesam trademark had a book value of EUR 7,700,000 (EUR 7,700,000) on 31 December 2022.

Impairment

The subsidiaries are combined into cash-generating units (CGU groups) at the geographical country level for testing goodwill. The CGU groups used for impairment testing correspond to the operating segments. The trademarks were also individually tested for impairment using the relief-from-royalty method. Intangible assets with an indefinite useful life (goodwill and trademarks carried on the balance sheet) are tested when a triggering event occurs, including during the year, and at a minimum at the end of the financial year.

As a rule, the value in use calculated using the discounted cash flow method is used as the recoverable amount for the CGU group. In cases where the value in use is less than book value, fair value less selling costs is also calculated. Fair value less cost of disposal is calculated using trailing stock exchange multipliers for the property and casualty and health lines of business in all countries and for the life business outside Austria. For the life business in Austria the Market Consistent Embedded Value is used.

To calculate value in use, the cash flows available to shareholders of five planning years and the following perpetual annuity are discounted. Due to the changeover to IFRS 17 from 1 January 2023, the projections will also be adapted to the IFRS 17 structure. Since these projections are not finalised until the consolidated financial statements for 2022 are compiled, an IFRS 4 projection for one plan year was put together for the purpose of the impairment test. The subsidiaries thus prepare a detailed plan in local currency for one year that is submitted in supervisory board meetings and centrally checked for plausibility as part of the planning and control process. Extrapolation of the detailed plans for a further four years and the perpetual annuity is performed using key parameter projections (combined ratios, premium growth, financial income) based on their past values and expected future market changes. The predicted cash flows for the perpetual annuity are assumed to continue forever. Currencies are translated to euro using the exchange rate on the 31 December reporting date for the financial year.

All of the underwriting business assets are assigned to the CGU groups. In addition to goodwill and trademarks, these also include all insurance portfolios and customer bases, investments, receivables and other assets. Underwriting provisions and current liabilities are deducted from the book values. Assets are allocated to the CGU groups in the form of corporate assets insofar as they are accounted in VIG Holding but used by the operating companies. The cash flows of the CGU groups are accordingly adjusted for amortisation of the allocated corporate assets.

To calculate the discount rates, the capital asset pricing model (CAPM) is used to calculate a cost of equity capital. This is done by adding country-specific inflation differentials, risk premiums and sector-specific market risk to the risk-free interest rate (equal to the yield on German government bonds on the reporting date calculated using the Svensson method). The base rate before inflation differentials was 2.36% (0.12%). The market risk of 7.14% (7.38%) was multiplied by a beta factor of 0.87 (1.19) that was calculated based on a specified peer group. In contrast to the previous year, the beta factor was determined as of the reporting date.

The long-term growth rates are calculated during the financial year based on the compound annual growth rate (CAGR) assuming that insurance penetration in the countries concerned starting in 2013 will converge in 50–70 years consistent with the current situation in Germany. An inflation adjustment equal to half of the inflation included in the cost of equity was added to the CAGR.

| Impairment and recoverable amounts for CGU groups | 2022 | | 2021 | |
|---------------------------------------------------|------------|--------------------|------------|--------------------|
| | Impairment | Recoverable amount | Impairment | Recoverable amount |
| <i>in EUR millions</i> | | | | |
| Albania incl. Kosovo | 13.6 | 22.1 | | |
| North Macedonia | 12.6 | 27.1 | | |

Additionally, in the financial year, impairments of acquired insurance portfolios of EUR 19,510,000 and of other intangible assets of EUR 21,707,000 were recognised in the income statement. These values are due to the newly consolidated Aegon companies resulting from the additional insurance tax determined after closing in Hungary, and the Asirom brand.

Impairments of intangible assets and reversals of impairments of intangible assets are included as separate items in the income statement between the Group operating result and the result before taxes.

| Key calculation parameters | Discount rates | | Country risks | | Long-term growth rate | |
|----------------------------|----------------|------------|---------------|-----------|-----------------------|-------------|
| | 2022 | 2021 | 2022 | 2021 | 2022 | 2021 |
| in % | | | | | | |
| Austria | 9.25 | 9.27 | 0.69 | 0.39 | 1.50 | 1.50 |
| Czech Republic | 9.11 | 9.83 | 1.03 | 0.60 | 3.60–5.46 | 4.20–5.73 |
| Poland | 11.22 | 10.67 | 1.46 | 0.84 | 5.79–7.29 | 5.41–6.86 |
| Albania incl. Kosovo | 16.02 | 14.02 | 7.77 | 4.45 | 6.41 | 6.76 |
| Baltic States | 10.15 | 9.79 | 1.58 | 0.91 | 5.20–6.69 | 4.94–6.39 |
| Bosnia-Herzegovina | 19.65 | 16.62 | 11.22 | 6.43 | 5.55–7.47 | 6.00–8.12 |
| Bulgaria | 10.52 | 10.65 | 2.76 | 1.58 | 5.64–6.18 | 5.97–6.83 |
| Croatia | 12.00 | 11.70 | 3.29 | 2.47 | 5.12–7.54 | 5.25–7.18 |
| Moldova | 22.50 | 18.70 | 11.22 | 6.43 | 8.78 | 9.01 |
| North Macedonia | 14.28 | 12.41 | 6.21 | 3.56 | 5.75 | 5.87 |
| Romania | 13.22 | 12.08 | 3.79 | 2.18 | 5.60–7.91 | 5.84–7.97 |
| Serbia | 14.75 | 12.72 | 5.19 | 2.97 | 5.78–7.57 | 5.68–7.47 |
| Slovakia | 10.02 | 9.72 | 1.46 | 0.84 | 5.77–6.03 | 5.32–5.53 |
| Ukraine | 40.82 | 18.91 | 17.26 | 6.43 | 15.03–18.36 | 8.58–12.34 |
| Hungary | 13.34 | 12.23 | 3.29 | 1.88 | 6.55–6.59 | 6.25–6.59 |
| Germany | 8.56 | 8.88 | 0.00 | 0.00 | 1.50 | 1.50 |
| Georgia | 14.00 | 13.21 | 5.19 | 2.97 | 6.12 | 6.67 |
| Liechtenstein | 8.56 | 8.88 | 0.00 | 0.00 | 1.50 | 1.50 |
| Türkiye | 37.79 | 25.51 | 11.22 | 5.44 | 14.55–17.00 | 10.68–13.28 |
| Group Functions | 9.25–14.75 | 9.27–12.72 | 0.69–5.19 | 0.39–2.97 | 1.50–7.57 | 1.50–7.47 |

The average increase in the discount rates is primarily due to higher country risk premiums.

INVESTMENTS (B)

General information

In accordance with the relevant IFRS requirements, some assets and liabilities are carried at fair value in the consolidated financial statements. This concerns a significant portion of investments. VIG Insurance Group assigns all financial instruments to one of the levels of the IFRS 13 measurement hierarchy. As a result of the decentralised organisational structure of VIG Insurance Group, the individual subsidiaries are responsible for this fair value categorisation. This takes account, in particular, of local knowledge of the quality of the individual fair values and any input parameters needed for model valuation.

Fair values are determined using the following hierarchy specified in IFRS 13:

- The determination of fair value for financial instruments is generally based on price quotations in active markets for identical assets or liabilities (Level 1).
- If a financial instrument is not listed and no market price quotations are available in active markets, fair value is determined using price quotations for similar assets or price quotations in inactive markets (Level 2). Standard valuation models with inputs that are observable in the market are used for Level 2 measurements. These models are primarily used for illiquid bonds (present value method) and structured securities.
- The fair value of certain financial instruments, in particular bonds from countries without active capital markets, and property, is determined using valuation models with input factors that are generally unobservable in the market. These models use, for example, transactions in inactive markets, expert reports and the structure of cash flows (Level 3).

The table below lists the methods used and most important input factors for Levels 2 and 3. The calculated fair values can be used for recurring and non-recurring measurements.

| Pricing method | Used for | Fair Value | Input parameters |
|-----------------------------------------|--------------------------------------------------------------------------------------------------------------------|-------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Level 2 | | | Observable |
| Present value method | Bonds; borrower's note loans; loans; securitised liabilities and subordinated liabilities | Theoretical price | Issuer, sector and rating-dependent yield curves |
| Libor market model present value method | Bonds and borrower's note loans with other embedded derivatives | Theoretical price | Money market and swap curves; implied volatility surface; cap & floor volatilities; issuer, sector and rating-dependent yield curves |
| Present value method | Currency futures contracts | Theoretical price | Exchange rates; money market curves for the currencies concerned |
| Present value method | Interest rate/currency swaps | Theoretical price | Exchange rates; money market and swap curves for the currencies concerned |
| Option pricing models | Stock options | Theoretical price | Share prices on the valuation date; implied volatilities; yield curve |
| Level 3 | | | (Un-)observable |
| Option pricing models | Stock options | Theoretical price | Share prices on the valuation date; volatilities; yield curve |
| Market value method | Real estate | Appraisal value | Real estate-specific income and expense parameters; capitalisation rate; data on comparable transactions |
| Discounted cash flow-model | Real estate | Appraisal value | Real estate-specific income and expense parameters; discount rate; indexes |
| Multiples approach | Shares | Theoretical price | Company-specific earnings figures; typical industry multipliers |
| Discounted cash flow-model | Shares | Theoretical price | Company-specific earnings figures; discount rate |
| Share of capital | Shares | Book value | Company-specific equity according to separate financial statements |
| Amortised cost | Fixed income instruments (illiquid bonds, policy loans, loans) with no observable input data for comparable assets | Book value | Cost-price; redemption price; effective yield |

For further information, please see Note 24. Financial instruments and fair value measurement hierarchy starting on page 161.

The following table presents the relationships between balance-sheet items and classes of financial instruments according to IFRS 7, including measurement methods:

| Balance sheet items, IAS 39 categories and classes of financial instruments according to IFRS 7 | Measurement method |
|-------------------------------------------------------------------------------------------------|--------------------|
| Financial assets | |
| Loans and other investments | At amortised costs |
| Financial assets held to maturity | At amortised costs |
| Financial assets available for sale | At fair value |
| Financial assets recognised at fair value through profit and loss* | At fair value |
| Financial investments for unit- and index-linked life insurance | At fair value |
| Financial liabilities | |
| Subordinated liabilities (other liabilities) | At amortised costs |
| Liabilities to financial institutions (other liabilities) | At amortised costs |
| Financing liabilities (other liabilities) | At amortised costs |
| Derivative liabilities (other liabilities) | At fair value |

*Including held for trading

Property

Both owner-occupied and investment properties are reported under property. Property that is both self-used and investment property is divided. For small amounts that do not exceed the 20% limit, the entire property is reported in the larger category (80:20 rule).

Property is measured at cost minus accumulated depreciation and impairment losses. Cost comprises all costs incurred in putting the asset into its present location in its present condition. Costs incurred in later periods are only capitalised if they lead to a significant increase in future opportunities for use of the building (e.g. through building expansion or new building construction). Owner-occupied and investment buildings are both depreciated using the straight-line method over the expected useful life. The following average useful lives are used in the calculation:

| Average useful life in years | from | to |
|------------------------------|------|----|
| Buildings | 20 | 50 |

IMPAIRMENT OF PROPERTY

Property appraisals are performed at regular intervals for owner-occupied property and investment property, regardless of their book values, by internally and externally as well as judicially certified building construction and property appraisers. Fair value is calculated using the capitalised earnings method or market comparisons. Unless leased, the asset value method is generally only used for undeveloped land. The discounted cash flow method is used in exceptional cases.

If the fair value is below the book value (cost minus accumulated depreciation and write-downs), the asset is impaired. In this case, the book value is written down to fair value through profit or loss. The method used to test for impairment is also used to test for a reversal of impairment. On each balance sheet date, a test is performed for indications that a reversal of impairment has taken place. The book value after the reversal may not exceed the book value that would have existed, taking into account depreciation, if no impairment had been recognised.

Both impairments and reversals of impairments are reported in the financial result in the income statement and are shown starting on page 154. The fair values and level hierarchy according to IFRS 13 are shown in Note 24. Financial instruments and fair value measurement hierarchy starting on page 161.

Financial assets

Financial assets are divided into the following categories in accordance with the requirements of IAS 39:

- Loans and other investments, other receivables,
- Financial assets held to maturity,
- Financial assets available for sale,
- Financial assets recognised at fair value through profit and loss and
- Financial assets held for trading.

On initial recognition, the corresponding financial assets are measured at cost, which equals fair value at the time of acquisition. For subsequent measurement of financial assets, two measurement methods are used.

AMORTISED COST

Loans and other investments, other receivables and financial assets held to maturity are subsequently measured at amortised cost. The amortised cost is determined using the effective interest rate of the asset in question. A write-down is recognised in profit or loss in the case of permanent impairment.

The current income recorded in the income statement is essentially interest income.

RECOGNISED AT FAIR VALUE

Non-derivative financial assets that are designated as available for sale and are not classified as loans and other investments, other receivables, held-to-maturity financial assets or financial assets at fair value through profit or loss are also subsequently measured at fair value. Fluctuations in value are to be recognised in other comprehensive income and are reported in equity in other reserves. This does not include impairments that are recognised in profit and loss.

Upon disposal, the cumulative gains and losses recognised in other reserves in previous periods are transferred to the result for the period (recycling).

Spot transactions are accounted for at the settlement date.

AMENDMENTS TO IAS 39 AND IFRS 7 RECLASSIFICATION OF FINANCIAL ASSETS

The IASB published amendments to IAS 39 and IFRS 7 in October 2008. The adjusted version of IAS 39 permits reclassification of non-derivative financial assets (except for financial instruments that were measured using the fair value option upon initial recognition) in the “held-for-trading” and “available-for-sale” categories.

The amendments to IAS 39 and IFRS 7 went into effect retroactively to 1 July 2008 and were applied prospectively from the time of reclassification. Reclassifications performed in VIG Insurance Group before 1 November 2008 used fair values as of 1 July 2008.

IMPAIRMENT OF FINANCIAL ASSETS

On each balance sheet date, the book values of financial assets not measured at fair value through profit or loss are tested for evidence of impairment. Such evidence could be, for example, the debtor experiencing significant financial difficulties, a high probability of insolvency proceedings, the loss of an active market for the financial asset, a significant change in the technological, economic, legal or market environment of the issuer, or a permanent decrease in the fair value of the financial asset below amortised cost. The Managing Board has considerable discretion when quantifying the influence of information that could affect the creditworthiness, rating and/or earning power of a debtor.

Any impairment losses due to fair value lying below the book value are recognised in profit or loss. If any changes to the fair value of available-for-sale financial assets were previously recognised directly in equity, these changes must be eliminated from equity and recognised in profit or loss on the income statement. As a rule, impairment of equity instruments is to be recognised if the average fair value during the last six months was consistently less than 80% of the historical cost of acquisition and/or if the fair value as at the reporting date is less than 50% of the historical cost of acquisition.

FINANCIAL INSTRUMENTS FOR UNIT-LINKED AND INDEX-LINKED LIFE INSURANCE (C)

Financial instruments for unit-linked and index-linked life insurance provide cover for unit-linked and index-linked life insurance underwriting provisions. The survival and surrender payments for these policies are linked to the performance of the underlying financial instruments. The income from these is also credited in full to the policyholders. As a result, policyholders bear the risk associated with the performance of the financial instruments. They are held in separate cover funds, and managed separately from the other financial assets of VIG Insurance Group.

Since the changes in value are occasionally equal to the changes in value of the underwriting provisions, these financial instruments are valued in accordance with the requirements of IAS 39.9b. Financial instruments for unit- and index-linked life insurance are therefore measured at fair value, and changes in value are recognised in the income statement.

REINSURERS' SHARE IN UNDERWRITING PROVISIONS (D)

The reinsurers' share in underwriting provisions is measured in accordance with contractual provisions. The credit quality of the respective counterparty is taken into account when the reinsurers' share is measured. Information on the selection of reinsurers is provided in the Financial instruments and risk management section on page 121.

RECEIVABLES (E)

The receivables shown in the balance sheet relate to the following in particular:

- Receivables from direct insurance business
 - from policyholders
 - from insurance intermediaries
 - from insurance companies
- Receivables from reinsurance business
- Other receivables

As a rule, receivables are reported at cost less impairment losses for losses already incurred but not yet known (e.g. death that is not yet known). Impairment is necessary if there is material evidence of financial difficulties, such as default or delay in payment and the items therefore cannot be considered collectable or not fully collectable. In the case of receivables from policyholders, expected impairment losses from non-collectable premium receivables are shown on the liabilities side of the balance sheet under "Other underwriting provisions" (provisions for cancellations) or deducted from the premium receivable using a valuation allowance. The amounts included are shown in Note 5. Receivables on page 136.

TAXES (F)

Income tax expenses comprise actual and deferred taxes. The income tax associated with transactions recognised directly in equity is also recognised directly in equity. The actual taxes for the individual VIG Insurance Group companies are calculated using the company's taxable income and the tax rate applicable in the country in question.

Deferred taxes are calculated using the balance sheet liability method for all temporary differences between the asset and liability values recognised in the IFRS consolidated financial statements and the individual company tax bases for these assets and liabilities. Under IAS 12.47, deferred taxes are measured using the tax rates applicable at the time of realisation. In addition, any probable tax benefits realisable from existing loss carryforwards are included in the calculation. Exceptions to this deferral calculation are differences from non-tax-deductible goodwill and any deferred tax differences linked to participations. Deferred tax assets are not recognised if it is not probable that the tax benefits they contain can be realised.

Where required, deferred taxes are calculated based on the following tax rates:

| Tax rates | 31.12.2022 | 31.12.2021 |
|----------------------|------------|------------|
| in % | | |
| Albania | 15.0 | 15.0 |
| Bosnia-Herzegovina | 10.0 | 10.0 |
| Bulgaria | 10.0 | 10.0 |
| Germany ¹ | 30.0 | 30.0 |
| Estonia ² | 0.0 | 0.0 |
| Georgia ³ | 15.0 | 15.0 |
| Kosovo | 10.0 | 10.0 |
| Croatia | 18.0 | 18.0 |
| Latvia ⁴ | 0.0 | 0.0 |
| Liechtenstein | 12.5 | 12.5 |
| Lithuania | 15.0 | 15.0 |
| Moldova | 12.0 | 12.0 |
| North Macedonia | 10.0 | 10.0 |
| Austria ⁵ | 25.0 | 25.0 |
| Poland | 19.0 | 19.0 |
| Romania | 16.0 | 16.0 |
| Serbia | 15.0 | 15.0 |
| Slovakia | 21.0 | 21.0 |
| Czech Republic | 19.0 | 19.0 |
| Türkiye | 25.0 | 25.0 |
| Ukraine | 18.0 | 18.0 |
| Hungary | 11.3 | 11.3 |

¹ The tax rate shown here is a flat tax rate. The tax rate is between 15,825% and 31,715%, depending on the registered office and activities of the company.

² The retained profits of locally domiciled companies are not subject to corporate income tax. Profit distributions by the companies are subject to a tax rate of 14% to 20%.

³ As a rule, the retained profits of locally domiciled companies will not be subject to corporate income tax starting 1 January 2023. The planned implementation date was postponed from 1 January 2019 to 1 January 2023.

⁴ The retained profits of locally domiciled companies are not subject to corporate income tax. Profit distributions by the companies are subject to a tax rate of 20%.

⁵ Due to a new law that was passed, the corporate income tax rate will be reduced in stages from 25% to 24% in 2023, and then to 23% in 2024.

Group taxation

With Wiener Städtische Versicherungsverein as the parent company there is a corporate group of companies within the meaning of § 9 of the Austrian Corporate Income Tax Act (KStG). The taxable earnings of group members are attributed to the head of the tax group. The head of the tax group has entered into agreements with each group member governing the allocation of positive and negative tax amounts for the purpose of allocating corporate income tax charges according to origin. If a group member earns positive income, 25% is allocated to the head of the tax group. In case of negative income, the group member receives lump-sum compensation equal to 22.5% of the tax loss. Since the tax allocation is 25% in the case of positive income, the group member should provide 10% of the tax benefit from group taxation resulting from inclusion of that group member in the group. Cash settlement of tax benefits is performed for a period of three years.

Change in the Austrian tax rate

As a result of the 2022 tax reform, the corporate income tax rate will be reduced in stages from 25% to 24% in 2023 and then to 23% in 2024. The reduction in the corporate income tax rate in Austria resulted in deferred tax income of EUR 2.0 million for the reporting period.

Additional tax on insurance premiums in Hungary

An additional insurance tax was introduced for insurance companies operating in Hungary (Government Decree on Extra-Profit Taxes in June 2022). This additional insurance tax is a progressive tax based on gross insurance premiums for the life and non-life insurance lines of business for the period 1 July 2022 to 31 December 2023.

This decree has resulted in a significant increase in the tax burden for Hungarian VIG insurance companies. Based on current values for Union Biztosító and AEGON Hungary, an additional EUR 25.9 million is to be paid for the period 1 July 2022 to 31 December 2022. According to the plan values available, VIG can expect further burdens amounting to approximately EUR 40 million in the financial year 2023.

Global minimum tax

EU member states have, in principle, agreed on the Europe-wide implementation of the Global Anti-Base Erosion (GloBE) rules (Pillar Two) in the international tax reform set out by the OECD. This agreement stipulates that the profits of companies with an annual revenue of at least EUR 750 million will, in future, be subject to a tax rate of at least 15%. The guideline must be incorporated into the member states' national legislation by the end of 2023 at the latest. It is not currently possible to reliably estimate the impact(s) of the global minimum tax on the Group.

In order to represent Pillar Two of the tax reform in the IFRS financial statements, a draft of the changes to IAS 12 Income Taxes has been available since January 2023, although the endorsement process for this has not yet begun. With regard to future financial statements, the draft provides for a separate presentation of deferred taxes that are related to the new tax in the balance sheet and of the corresponding tax expenses in the income statement from 1 January 2023. VIG has commenced the necessary preparatory work for the presentation.

OTHER ASSETS (G)

Other assets are measured at cost less cumulative depreciation and impairment losses. Cost comprises all costs incurred in putting the asset into its present location in its present condition. Depreciation is performed using the straight-line method over the expected useful life of the asset.

UNDERWRITING PROVISIONS (H)

Classification of insurance policies

Contracts under which an insurance company assumes a significant insurance risk from another party (the policyholder), by agreeing to provide compensation to the policyholder if a specified uncertain future event (the insured event) negatively affects the policyholder are treated as insurance policies for the purposes of IFRS. Financial risk is the risk of a possible future change in specific interest rates, securities prices, price indices, interest rate indices, credit ratings, credit indices, or some other variable. It must be noted that in the case of a non-financial variable, the variable is not specific to one counterparty. In many cases, particularly in the life insurance area, insurance policies as defined in IFRS also transfer financial risk.

Policies under which only an insignificant insurance risk is transferred from the policyholder to the insurance company are treated as financial instruments ("financial insurance policies") for IFRS reporting purposes. Such policies exist only to a minor extent in the personal insurance area.

Both insurance contracts and financial insurance policies can have contract terms that qualify as discretionary participation in net income ("profit participation", "profit-dependent premium refund"). Contractual rights are considered discretionary participation in net income if in addition to guaranteed benefits the policyholder also receives additional payments that are likely to constitute a significant portion of the total contractual payments and are contractually based on:

- the profit from a certain portfolio of policies or a certain type of policy, or
- the realised and/or unrealised investment income from a certain portfolio of assets held by the insurance company, or
- the profit or loss of the company, investment fund, or business unit (e.g. balance sheet unit) holding the contract.

Policies with discretionary net income participation exist in all VIG Insurance Group countries, primarily in the life insurance area, and to a secondary extent in the property and casualty and health insurance areas as well, and are treated as insurance policies in accordance with IFRS 4. The net income participation in life insurance usually exists in the form of participation in the net income or net interest income in question, calculated according to national accounting requirements. Net income or profit participation amounts that have already been allocated or committed to policyholders are reported in the mathematical reserve. Amounts reported in the local annual financial statements which have been committed or allocated to policyholders in the future by means of net income participation are reported in the balance sheet in the provision for performance-based premium refunds.

In addition, the profit-related portion resulting from IFRS measurement differences as compared to local measurement requirements (deferred profit participation) is also reported in the provision for profit-related premium refunds. This primarily concerns Austrian and German policies that are eligible for profit participation, as the profit participation in these countries is governed by regulations. Deferred profit participation is not recognised in balance sheets in other countries, since policyholder participation is at the sole discretion of the company concerned. The rate used for calculating deferred profit participation is 80% of the difference between the value recognised in the local financial statements and the value recognised in the IFRS financial statements.

As permitted by IFRS 4, the option to present unrealised gains and losses with the same effects on balance sheet measurements of underwriting provisions, capitalised acquisition costs and purchased insurance portfolios as realised gains

and losses has been applied (shadow accounting). The first step is to allocate unrealised gains on available-for-sale financial instruments to a deferred mathematical reserve to serve as security for contractually agreed insurance payments. The policyholder's share of the surplus from the remaining unrealised gains is then allocated to a provision for deferred profit participation. Any remaining asset balance is reported as deferred policyholder profit participation resulting from measurement differences. This deferred item is only recognised if it is highly probable, at company level, that the item can be satisfied by future profits in which the policyholders participate. Particularly in Austria, the provision for deferred profit participation assets was limited to the amount of the undisclosed profit shares in the profit participation pursuant to VAG.

RECOGNITION AND ACCOUNTING METHODS FOR INSURANCE POLICIES

Based on the election provided in IFRS 4, the values recognised in the consolidated financial statements prepared in accordance with applicable national law are carried over to the IFRS consolidated financial statements. The national provisions are only carried over, however, if they satisfy the minimum requirements of IFRS 4. Equalisation and catastrophe provisions are therefore not recognised. In principle, accounting policies were not changed to differ from national accounting requirements, except when parameters used to calculate underwriting provisions did not lead to adequate funding for future provisions. In such cases, VIG Insurance Group uses its own parameters, which are consistent with these principles. In individual cases, the provisions formed locally by an insurance company for outstanding claims are adjusted in the consolidated financial statements based on the corresponding analysis. Detailed information on the valuation of underwriting items is available in the remarks for each item.

ADEQUACY TEST FOR LIABILITIES ARISING FROM INSURANCE POLICIES

Liabilities from insurance policies are tested at each balance sheet date for adequacy of the provisions recognised in the financial statements.

If the value calculated based on up-to-date estimates of current valuation parameters, taking into account all future cash flows associated with the insurance policies, is higher than the provisions formed for liabilities from insurance policies, an increase in the provisions is recognised in profit or loss to eliminate the shortfall.

Provision for unearned premiums

Under the current version of IFRS 4, figures in annual financial statements prepared in accordance with national requirements may be used for the presentation of figures relating to insurance policies in the consolidated financial statements. In Austria, a cost discount of 15% (15%) is used when calculating unearned premiums in property and casualty insurance (10% for motor third party liability insurance (10%)), corresponding to EUR 38,995,000 (EUR 33,694,000). Acquisition expenses in excess of this figure are not capitalised in Austria. For foreign companies in property and casualty insurance, a portion of the acquisition expenses is generally recognised in the same proportion as the ratio of net earned premiums to written premiums. To ensure uniform presentation, these capitalised acquisition costs are also shown in the consolidated financial statements as a reduction in the provision for unearned premiums: EUR 458,361,000 (EUR 397,795,000).

Mathematical reserve

Life insurance mathematical reserves are calculated using the prospective method as the actuarial present value of obligations (including declared and allocated profit shares and an administrative cost reserve) minus the present value of all future premiums received. The calculation is based on such factors as expected mortality, costs and the discount rate.

The mathematical reserve and related premium rate are essentially calculated using the same basis, which is applied uniformly for the entire rate and during the entire term of the policy. The appropriateness of the calculation basis is reviewed each year in accordance with IFRS 4 and applicable national accounting requirements. Please refer to the Adequacy test for liabilities arising from insurance policies section on page 85. For information on the use of shadow accounting, also see page 85. Basically, the official mortality tables of each country are used for the life insurance balance sheet unit. If current mortality expectations differ to the benefit of policyholders from the calculation used for the rate, leading to a corresponding insufficiency in the mathematical reserves, the reserves are increased appropriately in connection with the adequacy test of insurance liabilities.

In the life insurance balance sheet unit, acquisition costs are taken into account through zillmerisation or another actuarial method as a reduction of mathematical reserves. The resulting negative mathematical reserves are either set to zero in accordance with national requirements or reported in the mathematical reserve item in the consolidated financial statements. The following average discount rates are used to calculate mathematical reserves:

As of 31 December 2022: 1.83%

As of 31 December 2021: 1.80%

In Austria, the average discount rate for life insurance was 1.55% during the reporting period (1.59%).

In addition, the share of unrealised gains and losses from available-for-sale financial instruments serving as security for contractual obligations is shown in the mathematical reserve as part of the shadow accounting performed according to IFRS 4.

In the health insurance balance sheet unit, mathematical reserves are also calculated according to the prospective method as the difference between the actuarial present value of future policy payments minus the present value of future premiums. The loss frequencies used to calculate the mathematical reserve derive primarily from analyses conducted on the Group's own insurance portfolio. As a rule, the mortality tables used correspond to published mortality tables. The following discount rates are used for the great majority of transactions when calculating mathematical reserves:

As of 31 December 2022: 2.09%

As of 31 December 2021: 2.35%

Provision for outstanding claims

National insurance law and national regulations (in Austria, the Austrian Insurance Supervision Act (VAG)) require VIG Insurance Group companies to form provisions for outstanding claims. The provisions are calculated for payment obligations arising from claims, which have occurred up to the balance sheet date but whose basis or size has not yet been established, as well as all related claims settlement expenses expected to be incurred after the balance sheet date, and, as a rule, are formed at the individual policy level. These policy-level provisions are marked up by a flat-rate allowance for unexpected additional losses. Except for the provisions for pension obligations, no discounting is performed. Insurance losses that have occurred up to the balance sheet date but were not known at the time that the balance sheet was prepared ("IBNR"), and losses that have occurred but have not been reported in the correct amount ("IBNER"), are included in the provision (incurred but not reported claims provisions and provisions for as yet unidentified large losses). Separate provisions for claims settlement expenses are formed for internally incurred expenses attributable to claims settlement

under the allocation according to origin principle. Collectable recourse claims are deducted from the provision. Where necessary, actuarial estimation methods are used to calculate the provisions. The methods are applied consistently, with both the methods and calculation parameters tested continuously for adequacy and adjusted if necessary. The provisions are affected by economic factors (e.g. inflation rate) and by legal and regulatory developments, which may be subject to change over time.

Provision for profit-unrelated premium refunds

The provisions for profit-unrelated premium refunds relate, in particular, to property and casualty and health insurance, and pertain to premium refunds in certain insurance classes that are contractually guaranteed to policyholders in the event that there are no claims or a low level of claims. These provisions are formed at the individual policy level. Since the provisions are predominantly short-term provisions, no discounting has been performed.

Provision for profit-related premium refunds

Profit shares that were dedicated to policyholders in local business plans, but have not been allocated or committed to individual policyholders as of the balance sheet date, are shown in the provision for profit-related premium refunds ("discretionary net income participation"). In addition, both the portion realised through profit and loss and the portion realised directly in equity that results from measurement differences between IFRS and local measurement requirements ("deferred profit participation") are reported in this item. Please see the Classification of insurance policies section starting on page 84.

Other underwriting provisions

The other underwriting provisions item primarily includes provisions for cancellations. Cancellation provisions are formed for the cancellation of premiums that have been written but not yet paid by the policyholder, and therefore represent a liabilities-side allowance for receivables from policyholders. These provisions are formed based on the application of certain percentage rates to overdue premium receivables.

UNDERWRITING PROVISIONS FOR UNIT- AND INDEX-LINKED LIFE INSURANCE (I)

Underwriting provisions for unit- and index-linked life insurance represent obligations to policyholders that are linked to the performance and income of the corresponding financial instruments. The measurement of these provisions corresponds to the measurement of the financial instruments for unit- and index-linked life insurance, and is based on the fair value of the investment fund or index serving as a reference.

NON-UNDERWRITING PROVISIONS (J)

Pension obligations are based on individual contractual obligations and collective agreements. The obligations are defined benefit obligations. The plans are based on average salary and/or the number of years of service with the company.

These obligations are accounted for in accordance with IAS 19. The present value of the defined benefit obligation (DBO) is calculated. Calculation of the DBO is performed using the projected unit credit method. In this method future payments calculated based on realistic assumptions are accrued linearly over the period in which the beneficiary acquires these entitlements. The necessary provision amount is calculated for the relevant balance sheet date using actuarial reports that have been provided for the current financial year and the prior financial year.

The calculations are based on the following assumptions:

| Pension assumptions | 31.12.2022 | 31.12.2021 |
|-----------------------------------------------------|--------------|--------------|
| Interest rate | 3.60% | 1.00% |
| Employee turnover rate (age-dependent) | 0%–4% | 0%–4% |
| Retirement age, women (transitional arrangement) | 62+ | 62+ |
| Retirement age, men (transitional arrangement) | 62+ | 62+ |
| Life expectancy (for employees, in accordance with) | (AVÖ 2018-P) | (AVÖ 2018-P) |

| Pension and salary increases | Regulatory pension and special contracts | | Association recommendation | |
|------------------------------|------------------------------------------|------------|----------------------------|------------|
| | 31.12.2022 | 31.12.2021 | 31.12.2022 | 31.12.2021 |
| 2022 | | 2.25% | | 1.50% |
| 2023 | 8.50% | 2.25% | 0.00% | 1.50% |
| 2024 | 6.50% | 2.25% | 0.00% | 1.50% |
| 2025 | 3.50% | 2.25% | 0.00% | 1.50% |
| 2026 | 2.50% | 2.25% | 1.20% | 1.50% |
| 2027 | 2.00% | 2.25% | 1.20% | 1.50% |

The weighted average length of the DBO for pensions was 12.11 years in financial year 2022 (15.54 years). A portion of the direct pension obligations are administered as an occupational group insurance plan following conclusion of an insurance contract in accordance with § 93–98 VAG.

SUBORDINATED LIABILITIES AND LIABILITIES EXCL. SUBORDINATED LIABILITIES (K)

As a rule, all liabilities are measured at amortised cost. This also applies to liabilities arising from financial insurance policies. The fair value of financial liabilities is shown in Note 24. Financial instruments and fair value measurement hierarchy starting on page 161.

NET EARNED PREMIUMS (L)

As a rule, unearned premiums (provision for unearned premiums) are determined on a pro rata basis over time. No deferral of unit- and index-linked life insurance premiums is performed, since the full amount of the premiums written in the reporting period is included in the calculation of the underwriting provisions for unit- and index-linked life insurance.

SCOPE AND METHODS OF CONSOLIDATION

| Number of companies | Domestic | Foreign | Total |
|-----------------------------------|------------|------------|------------|
| Number | | | |
| Consolidated companies | 84 | 93 | 177 |
| Fully consolidated companies | 70 | 90 | 160 |
| At equity consolidated companies | 14 | 3 | 17 |
| Non-consolidated companies | 58 | 82 | 140 |
| Total | 142 | 175 | 317 |

The materiality or immateriality of subsidiaries, associated companies and joint arrangements for the consolidated financial statements is checked using a variety of thresholds defined at the VIG Holding level. Qualitative assessment criteria are also used. The absolute profit before taxes or total assets, for example, could be checked for this purpose. If a company does not satisfy any size criteria, a second step is performed to check whether the companies that are not included are material when taken as a whole. If this is not the case, these companies are not included in the scope of consolidation. Companies that have no material effect on the net assets, financial position and results of operations when considered individually or in aggregate have essentially been measured at fair value.

Fully controlled investment funds ("special funds") were fully consolidated in accordance with the requirements of IFRS 10. These consolidated institutional funds are not separate corporate entities and therefore not structured entities as defined in IFRS 12. They are investment funds that have not been designed for public capital markets. Due to a lack of control, mutual funds are not consolidated, even if a majority of voting rights are held. The ability of subsidiaries to transfer funds (in the form of dividends) to parent companies can be restricted by corporate law and regulations.

BUSINESS COMBINATIONS (IFRS 3)

Business combinations are recognised using the purchase method. Goodwill is recognised as the value of the consideration transferred and all non-controlling interests in the acquired company less the identifiable assets acquired and liabilities assumed. In any business combination, present non-controlling interests that entitle holders to a proportionate share of the entity's net assets in the event of a liquidation can be measured either at fair value or as part of the identifiable net assets. Unless another IFRS provides a different measurement method, all other components of non-controlling interests are measured at the corresponding share of the identifiable net assets. If the consideration is less than the net assets of the acquired subsidiary measured at fair value, the difference is checked again and recognised directly in the income statement. As a rule, the fair values calculated in accordance with IFRS 13 of all assets (incl. goodwill and other intangible assets) and liabilities are allocated to the country to which the purchased company is assigned.

Deferred tax assets acquired during a business combination and arising under IAS 12.66 et seqq. on the acquisition date are tested for impairment in accordance with IAS 12.37.

The Group considers the reported goodwill to reflect the value of the ability to make use of the insurance-specific expertise of the employees of the acquired companies. When a market is entered, it represents the ability to offer insurance products in a country and take advantage of the opportunities that exist there. In countries where the Group is already represented by one or more companies, the goodwill also represents the possibility of making use of potential synergies.

When real estate holding companies are acquired, they are checked to see whether they include business operations. If they do not, the purchase method is not used. In such cases, the acquisition costs, including transaction costs, are distributed among the acquired assets and assumed liabilities based on fair value. No deferred taxes are recognised in such cases (initial recognition exemption). Goodwill cannot arise in this context.

All company acquisitions were performed with cash and cash equivalents. A list of fully and at equity consolidated companies is provided from page 168 in Note 28. Affiliated companies and participations.

CHANGES IN THE SCOPE OF CONSOLIDATION

| Deconsolidations | Reason for deconsolidation | Date | Reportable segment |
|-------------------------------------------------------------|----------------------------|-----------|--------------------|

| VIVECA Betelligungen GmbH, Vienna | 2020 | 100.00 | 1.1.2022 | full consolidation |

*Insofar as significant goodwill occurred, this is recognised in Note 1.1. Goodwill.

It should be noted that the purchase price allocation of the newly acquired companies is still preliminary, unless the one-year limit has been exceeded.

The companies acquired in the financial year led to an outflow of cash and cash equivalents totalling EUR 407,433,000.

Purchase of Aegon companies

On 29 November 2020, VIG Insurance Group reached agreement with Aegon N.V. to acquire its insurance business in Hungary, Poland, Romania and Türkiye. The agreed acquisition price of EUR 830.0 million was not fully settled in the financial year as the transaction could not yet be executed in its entirety. Further information on the status of the purchase of the Aegon companies is below.

Aegon companies in Hungary and Türkiye

In March 2022, VIG Holding acquired the Hungarian business of Dutch company Aegon after approval by the local Hungarian authorities; and the 45% participation of the Hungarian state holding Corvinus in the Hungarian business was also closed successfully. In April 2022, official approval was granted and, as a result, the Turkish Aegon company was also closed successfully (Viennalife (Türkiye)).

From the initial consolidation of Aegon Hungary, intangible fixed assets totalling EUR 321,975,000 were disclosed as part of the purchase price allocation (of which goodwill totalling EUR 188,573,000). The 45% participation of the Hungarian state holding Corvinus in Aegon in Hungary led to an increase in non-controlling interests in the consolidated shareholders' equity of EUR 117,722,000. The goodwill disclosed is primarily based on future synergies between the Hungarian companies. In Türkiye, intangible fixed assets totalling EUR 48,471,000 were disclosed (of which goodwill totalling EUR 0).

Aegon companies in Poland and Romania

The acquisition of the Aegon insurance business in Poland and Romania was agreed subject to the approvals required under supervisory and competition law. Due to the lack of closing for the transaction and, therefore, lack of control over the companies, they had not yet been added to the scope of consolidation as of the balance sheet date.

| Change in significant minority interests | Change | Change of interest | Change in non-controlling interests |
|-----------------------------------------------------------------------------------------|------------|--------------------|-------------------------------------|
| | Date | in % | in EUR '000 |
| KÁLVIN TOWER Ingatlanfejlesztési és Beruházási Korlátolt Felelősségű Társaság, Budapest | 23.3.2022 | -44.39 | 1,015 |
| Pension Assurance Company Doverie AD, Sofia | 29.12.2022 | -9.25 | 19,160 |
| Union Biztosító | 23.3.2022 | -44.39 | 18,056 |

The International Finance Corporation (IFC), a member of the World Bank Group, held a 9.99% stake in Pension Assurance Company Doverie AD (Doverie) at the end of December 2022 (calculated 9.25% of the shares held by VIG). In connection with this transaction, the IFC was granted a put option for the sale of the Doverie share in the Group, beginning 23 December 2028.

Effect of changes in the scope of consolidation

| Balance sheet | Additions | thereof Aegon Hungary | thereof Viennalife (Türkiye) | Disposals |
|----------------------------------------------------------------------------|-----------|-----------------------|------------------------------|-----------|
| in EUR '000 | | | | |
| Intangible assets | 425,296 | 318,931 | 49,882 | 0 |
| Right-of-Use Assets | 363 | 0 | 0 | 9 |
| Investments | 975,742 | 438,273 | 388,716 | 0 |
| Financial instruments for unit- and index-linked life insurance | 191,137 | 191,137 | 0 | 0 |
| Reinsurers' share in underwriting provisions | 3,752 | 3,752 | 0 | 0 |
| Receivables (incl. tax receivables and advance payments out of income tax) | 61,732 | 23,923 | 23,621 | 720 |
| Other assets (incl. deferred tax assets) | 55,526 | 14,347 | 28,957 | 41 |
| Cash and cash equivalents | 69,411 | 21,123 | 16,501 | 1,805 |
| Underwriting provisions | 736,740 | 329,844 | 406,896 | 0 |
| Underwriting provisions for unit- and index-linked life insurance | 191,137 | 191,137 | 0 | 0 |
| Non-underwriting provisions | 10,992 | 6,976 | 2,160 | 611 |
| Liabilities (incl. tax liabilities out of income tax) | 94,213 | 28,961 | 24,901 | 1,350 |
| Other liabilities (incl. deferred tax liabilities) | 45,623 | 27,932 | 13,718 | 0 |

The figures shown in the table above reflect the actual dates of first consolidation and deconsolidation, as indicated in the section Changes in the scope of consolidation on page 90.

| Contribution to result before taxes in reporting period | Additions | thereof Aegon Hungary | thereof Viennalife (Türkiye) | Disposals |
|-------------------------------------------------------------------------------|----------------|-----------------------|------------------------------|------------|
| in EUR '000 | | | | |
| Net earned premiums – retention | 431,293 | 301,436 | 129,858 | 0 |
| Financial result excl. result from shares in at equity consolidated companies | 138,405 | 25,701 | 123,695 | 247 |
| Other income | 5,456 | 4,553 | 901 | 0 |
| Expenses for claims and insurance benefits – retention | -352,908 | -160,575 | -192,333 | 4 |
| Acquisition and administrative expenses | -134,154 | -89,377 | -45,712 | 8 |
| Other expenses | -114,759 | -104,187 | -10,095 | -38 |
| Result before taxes* | -26,667 | -22,449 | 6,314 | 221 |

*The result before taxes includes impairments of insurance portfolios and the customer bases of AEGON Hungary (EUR 33,639,000) and Vienna Life Türkiye (EUR 3,578,000).

Inclusion of the first-time consolidated companies retrospectively to 1 January 2022 would not cause any material changes in balance sheet items. Inclusion of the first-time consolidated companies retrospectively to 1 January 2022 would increase the Group result before taxes and non-controlling interests by 2.38% (not including any consolidation effects).

The number of employees increased by 2,670 due to the changes in the scope of consolidation.

SEGMENT REPORTING

OPERATING SEGMENTS

The operating segments were determined in accordance with IFRS 8 Operating segments based on internal reporting to the principal decision-maker. The individual countries, in which VIG Insurance Group operates, were identified as operating segments. The VIG Holding Managing Board, as principal decision-maker, regularly evaluates earning power based on these segments and decides on the allocation of resources to them. The focus on countries is also reflected in the country responsibilities of the members of the VIG Holding Managing Board.

The countries Estonia, Latvia and Lithuania are combined in the Baltic States operating segment, and Albania and Kosovo are combined in the Albania incl. Kosovo operating segment when reporting to the Managing Board.

REPORTABLE SEGMENTS

Change of reportable segments

Every 5 years, the Managing Board prepares and approves the detailed medium-term strategic orientation of VIG Insurance Group. The Group's strategic orientation until 2025 was established in financial year 2021. When the composition of the Managing Board was changed in financial year 2020, the reportable segments that were previously published were evaluated and modified accordingly when the 2025 strategy was established.

Determination

The reportable segments were determined using the aggregation criteria in IFRS 8.12 and IFRS 8.14 and the quantitative thresholds defined in IFRS 8.13.

This led to the following segments being specified as reportable segments:

- Austria (incl. the Wiener Städtische branches in Slovenia and Italy),
- Czech Republic,
- Poland,
- Extended CEE,
- Special Markets and
- Group Functions (incl. the VIG Holding branches in Sweden, Norway and Denmark and VIG Re branches in Germany and France).

EXTENDED CEE

The Extended CEE reportable segment includes the operating segments of Albania incl. Kosovo (a branch of an Albanian company is located in Kosovo), the Baltic states, Bosnia-Herzegovina, Bulgaria, Croatia, Hungary, Moldova, North Macedonia, Romania, Serbia, Slovakia and Ukraine. The segment was aggregated in accordance with the aggregation criteria in IFRS 8.14 and was not reported in an "all other segments" in accordance with IFRS 8.16 in spite of falling below the thresholds.

SPECIAL MARKETS

The Special Markets reportable segment corresponds to the "all other segments" category in IFRS 8.16 and includes Germany, Georgia, Liechtenstein and Türkiye.

GROUP FUNCTIONS

VIG Insurance Group is an international insurance group operating in Central and Eastern Europe. The Managing Board accordingly manages the insurance business separate from the coordination functions in the individual countries. As a result, only the companies related to the insurance business are included in the individual operating segments. That means that companies that

- do not distribute or assist in the distribution of insurance products,
- perform loss assessments or claims handling, or
- operate as service companies for the Group,

are included in the Group Functions reportable segment, not in the country where they have their registered office.

Specifically, this means the Group Functions segment includes VIG Holding, VIG Re, Wiener Re, VIG Fund, corporate IT service providers, asset management companies, pension funds and intermediate holding companies, among others.

BASIS OF THE REVENUES OF THE REPORTABLE SEGMENTS

The scope of business operations includes private and corporate customer insurance business. The range of products includes, among other things, motor third party liability and own damage, accident, third party liability, fire and natural hazards, and travel insurance.

A large number of life and health insurance products are offered for individuals and groups. These include, for example, supplementary health insurance, nursing care insurance, endowment insurance, term life insurance and investment-oriented products. In accordance with the cornerstones of VIG Insurance Group, products are sold through all distribution channels in all markets. This means that insurance products are distributed, among others, by sales employees, banks, brokers and agents.

VIG Holding primarily focuses on managerial tasks for VIG Insurance Group. It also operates as a reinsurer within VIG Insurance Group and in the international corporate business. The Group's own reinsurance company, VIG Re, is a successful provider of reinsurance products for both insurance companies of VIG Insurance Group and for external partners.

Information on major customers

VIG Insurance Group does not depend to a great extent on one single customer, as defined in IFRS 8.34. The 10 largest customer groups are responsible for 2.2% of the premiums written by the Group. Corporate customers that are under common control according to the information available to VIG Insurance Group are combined into customer groups.

GENERAL DISCLOSURES

Like transactions with third parties, transfer prices between reportable segments are determined using market prices. Intragroup transactions between segments are eliminated in the consolidation column. The only exceptions are dividends and intercompany profits, which are eliminated in each reportable segment.

PERFORMANCE MEASUREMENT FOR REPORTABLE SEGMENTS

A variety of performance indicators are used to determine the financial performance of the reportable segments. The IFRS Group operating result is used as an indicator in all cases. In the interests of comparability, the income statement by reportable segments is appropriately reconciled with the consolidated income statement and only the main items are presented. The same applies to the balance statement by segments and consolidated balance sheet.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

FINANCIAL INSTRUMENTS (INCL. PROPERTY AND OTHER INVESTMENTS)

The Group invests in fixed-income securities (bonds, loans/credits), shares, property, participations and other investments, taking into account the overall risk position and the investment strategy provided for this purpose.

The investment strategy is laid down in the investment guidelines for each of the insurance companies. Compliance is continuously monitored by the Asset Management and Asset Risk Management departments and by the Internal Audit department on a sample basis. Investment guidelines are laid down centrally and must be followed by all VIG Insurance Group companies. When determining exposure volumes and limits as part of establishing the strategic orientation of investments, the risk inherent in the specified categories and market risks are of fundamental importance.

The investment strategy principles may be summarised as follows:

- VIG Insurance Group practices a conservative investment policy designed for the long term.
- VIG Insurance Group focuses on its asset mix as a way to ensure that cash flows match its long-term liability profile and to create sustainable increases in value through the use of correlation and diversification effects of the individual asset classes.
- Investment management depends on the asset class in question or on the objective within asset classes and is performed internally or by an outside manager.
- The currency profile of the investments should match as closely as possible the obligations to policyholders and other liabilities (currency matching).
- Risk management for securities is aimed at providing a transparent view of the risk exposure arising from price, interest-rate and currency fluctuations as they affect profitability and the value of investments, and at limiting these risks. A limit system is used to limit the risks.
- Market developments are monitored continuously and the structure of the portfolio is actively managed, if necessary.

The investment portfolio (with the look-through approach applied to consolidated institutional funds) includes holdings of around 69.28% (70.25%) in bonds and around 6.16% (5.79%) in loans. The share in equities is around 3.53% (5.11%), in property around 9.56% (8.02%), in participations around 1.58% (1.49%) and in other around 9.89% (9.34%), in all cases based on the book value of the total investment portfolio.

| Total | 32,340,353 | 34,809,790 |

¹ includes shares in non-consolidated subsidiaries and other participations of EUR 254,714,000 (EUR 279,516,000)

² including held for trading

Property

The portfolio had a book value of EUR 3,129.0 million as of 31 December 2022 (fair value: EUR 5,125.1 million) and a book value of EUR 2,850.6 million as of 31 December 2021 (fair value: EUR 4,682.1 million).

The portfolio of directly held assets and assets held in the form of participations is used primarily to create highly inflation-resistant long-term positions for the insurance business, and to create hidden reserves. The property portfolio represents 9.56% (8.02%) of the total investment portfolio.

The following table shows the investments as of 31 December 2022 and 31 December 2021, broken down by type of use for the Austria and Group Functions reportable segments and the totals for all other segments.

| Use of property in % of the property portfolio | 31.12.2022 | 31.12.2021 |
|------------------------------------------------|--------------|--------------|
| Austria | 66.27 | 65.40 |
| Owner-occupied | 5.39 | 6.29 |
| Investment property | 60.88 | 59.11 |
| Group Functions | 18.23 | 19.57 |
| Owner-occupied | 1.11 | 1.22 |
| Investment property | 17.12 | 18.35 |
| Other segments | 15.50 | 15.03 |
| Owner-occupied | 8.92 | 9.06 |
| Investment property | 6.58 | 5.97 |

Shares in at equity consolidated companies

Shares in at equity consolidated companies had a book value of EUR 288.0 million as of 31 December 2022 and a book value of EUR 276.9 million as of 31 December 2021. Shares in at equity consolidated companies therefore represented 0.89% (0.80%) of the book value of the total investment portfolio as of 31 December 2022.

Loans and other investments

Loans and other investments had a book value of EUR 3,368.2 million as of 31 December 2022 and a book value of EUR 3,028.3 million as of 31 December 2021. Investments in loans are less important in the CEE region. A portfolio analysis and maturity structure of loans are presented in Note 2.3. Loans and other investments starting on page 130.

Bonds

Bonds represented 69.28% (70.25%) of total investments as of 31 December 2022. VIG Insurance Group manages its bond portfolio using estimates of changes in interest rates, spreads and credit quality, taking into account limits related to individual issuers, credit quality, maturities, countries, currencies and issue volume. In the investment model, the bonds serve primarily to ensure stable earnings over the long term. Derivative products are only used to reduce risks or make efficient portfolio management easier. Relevant investment guidelines expressly govern the use of derivatives for bond portfolios managed by third parties such as investment funds.

Shares

As of 31 December 2022, share investments (including those contained in the funds) represented 3.53% (5.11%) of the book value of the total investment portfolio. In accordance with the investment guidelines for Austria, management is carried out using a top-down approach, subject to the constraint that diversification be used to minimise the market risk of the shares. The overall proportion of shares is very small for companies of VIG Insurance Group in the CEE region.

RISK MANAGEMENT

VIG Insurance Group's core competence is dealing professionally with risk. The insurance business consists of consciously assuming diverse risks and managing them profitably. One of the primary responsibilities of risk management is to ensure that the obligations assumed under insurance policies can be satisfied at all times.

In general, all insurance companies are responsible for managing their own risks. The corporate Risk Management department of VIG Holding provides guidelines in all major areas for these companies. The requirements set in the investments and reinsurance areas are particularly strict.

The primary requirement for effective risk management is a risk management system that is consistent throughout the Group and a risk policy and risk strategy set by management. The objective of such risk management is not complete avoidance of risk but rather a conscious acceptance of desired risks and the implementation of measures to monitor and possibly even reduce existing risks based on economic factors. The risk-return ratio is therefore a key measure that must be optimised in order to guarantee adequate security for the policyholder and the insurer itself while giving due consideration to the need to create value.

Risk management responsibilities in VIG Holding are bundled together in independent organisational units, and through a well-established risk and control culture, each individual employee contributes to successful management of risk. Transparent, verifiable decisions and processes within a company are very important aspects of its risk culture.

Risk strategy

The strategic orientation of the Company is based on a business strategy, capital strategy and a comprehensive risk strategy. The risk strategy specifies appropriate risk management measures for significant risks and is based on the following principles that are applicable Group-wide:

ACCEPTED RISKS

- A sustainable portion of all risks that have a direct connection to the insurance business that is conducted are accepted (underwriting risks, market risks).

RISKS THAT ARE NOT ACCEPTED

- Risks from the insurance business are not accepted if they cannot be adequately measured. This includes, for example, liability insurance for genetic engineering.
- With respect to investments, risks are not accepted if insufficient know-how is available to measure the risks, e.g. weather derivatives or forward transactions for foodstuffs, or if they could generate potentially unlimited losses.

RISKS ACCEPTED WITH RESTRICTIONS

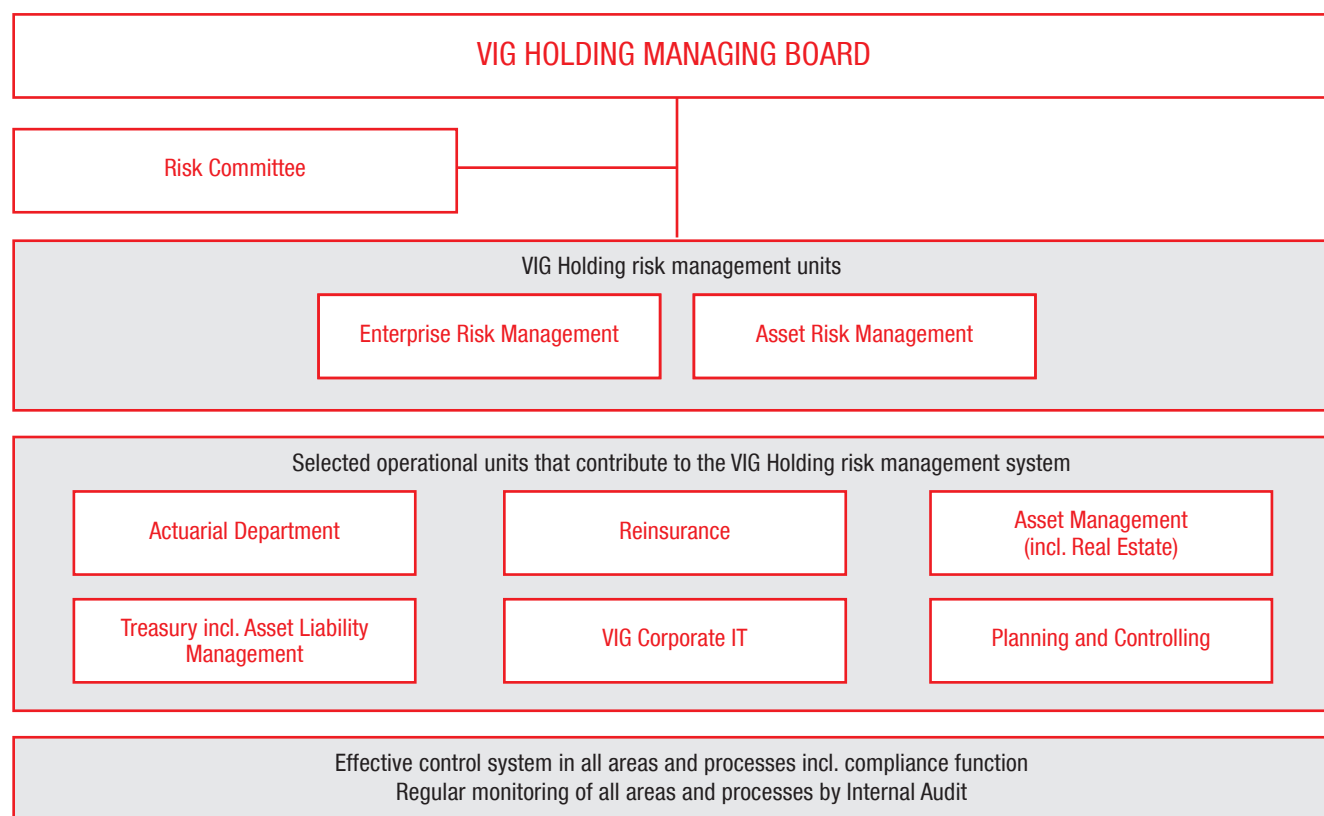

- Operational risks must be avoided as far as possible, but have to be accepted to a certain extent as they cannot be fully excluded, or the costs for avoiding them exceed the expected losses.
- A conservative approach is used for investments.

RISK-MINIMISING MEASURES

- Establish functional risk governance by maintaining and promoting a high level of risk awareness.
- Reinsurance is a key instrument for hedging against large losses (tail risks), particularly in the property and casualty area.
- Limit market risk taking into account underwriting obligations.
- Observe and act in accordance with the prudent businessman rule in connection with investments.

Organisation of the risk management system

The risk management system is well integrated into VIG Holding's organisational structure. The following chart shows the units that play an important role in the risk management system.

MANAGING BOARD

The Managing Board as a whole is responsible for the risk management system, in particular for the following areas:

- Set up and promote the risk management system
- Define and communicate the risk strategy, including risk tolerances and risk appetite
- Approve corporate risk management guidelines
- Take the risk situation into account in strategic decisions

Both the Enterprise Risk Management and Asset Risk Management units report directly to Managing Board member Liane Hirner. They are assisted by the Digitalisation, Finance and Risk department, which also reports to Managing Board member Liane Hirner and is where the Solvency II reporting system is organised.

RISK COMMITTEE

The VIG Holding Managing Board established the Risk Committee to ensure regular discussions of current matters relating to risk management across functional areas within the organisation and an exchange of information on the risk situation between the members of the committee and the Managing Board. The Risk Committee meetings take place at least quarterly and are chaired by the Managing Board member responsible for this area. The Risk Committee reports to the Managing Board after its meetings.

ENTERPRISE RISK MANAGEMENT

The department reports to Managing Board member Liane Hirner. The management of the department performs the risk management function required under Solvency II at the Group and solo level.

The main responsibilities of the department include determining the Group's overall risk profile and calculating solvency. The department provides a Group-wide risk aggregation solution for this purpose with extensive reporting and partial modelling approaches for calculating solvency capital. Calculation of the solvency capital requirement during the year, analysis of risk-bearing capacity using proprietary analysis tools and reviewing the internal control system are other important activities performed by the department.

The department also assists the Managing Board with updating the corporate risk strategy, improvements to the risk organisation and further corporate risk management topics.

ASSET RISK MANAGEMENT

The department reports to Managing Board member Liane Hirner. The primary responsibility of the department is to analyse, assess and monitor risks associated with investments, in particular with respect to the VIG Insurance Group's solvency result and financial result. For this purpose, the department specifies Group-wide requirements for risk assessment and implements a central system for investment management and risk monitoring. The department is also responsible for maintaining an internal rating approach.

ASSET MANAGEMENT (INCL. REAL ESTATE)

The department reports to Managing Board member Gerhard Lahner. One of the main responsibilities of the department is to define a strategic orientation for the investments of each insurance company and for VIG Insurance Group as a whole, and to specify an investment strategy and investment process aimed at ensuring that current income is as high as possible, but also as secure as possible, while simultaneously taking advantage of opportunities to increase the value of investments. Guidelines and limits are used to manage investments. Regular reports are also provided for investments, limits and income.

ACTUARIAL DEPARTMENT

The department reports to Managing Board member Peter Thirring. The management of the department performs the Actuarial function required by Solvency II. The department is therefore responsible, in particular, for the duties related to the Actuarial function. The Actuarial department also calculates the embedded value for the life and health insurance businesses and prepares profitability analyses and company valuations. The department also assists actuarial collaboration and functional networking.

REINSURANCE

The department reports to Managing Board member Peter Höfinger. The department coordinates and assists all companies in VIG Insurance Group and their reinsurance departments with reinsurance matters in the non-life business (property and casualty, third party liability and accident insurance) by preparing and applying guidelines. The department also administers Group-wide reinsurance programmes in the non-life lines of business. The primary objective is to create a safety net to provide continuous protection for all of the companies in VIG Insurance Group against the negative effects of catastrophes, individual large losses and negative changes in entire insurance portfolios.

PLANNING AND CONTROLLING

The department is an important part of the integrated risk management approach and reports to Managing Board member Hartwig Löger. The department coordinates business planning over a 3-year horizon. The standardised reports include key figure and variance analyses for planning, forecasts and ongoing performance of VIG Holding and other insurance companies. Regular monthly premium reports, quarterly reports for each company (aggregated at the country and VIG Insurance Group level) and cost reports are prepared.

VIG CORPORATE IT

The Corporate IT department reports to Managing Board member Gerhard Lahner. The department is responsible for IT management at the VIG Insurance Group level (IT strategy, IT governance, IT security, IT Group projects, etc.), for assisting companies in VIG Insurance Group with large IT projects, and for developing Group-wide guidelines and common standards.

TREASURY INCL. ASSET LIABILITY MANAGEMENT

The department reports to Managing Board member Gerhard Lahner. The observation, measurement and optimisation of future cash flows on the asset and liabilities sides are the main responsibilities of the Asset Liability Management department. It is also responsible for the exchange of knowledge and improvements in the Group in this area.

INTERNAL AUDIT

The department reports to the Managing Board. Managing Board Chairwoman Elisabeth Stadler is the contact person in the Managing Board. The Internal Audit department systematically monitors operating and business processes, the internal control system of all operational business areas, including compliance with legal requirements, and the functionality and adequacy of risk management. The department operates continuously and reports directly to the Managing Board. The management of the department performs the Internal Audit function required by Solvency II.

Risk management processes

Many risk management processes have been established in the individual areas of the risk management system to cover the entire risk management cycle from risk identification to risk assessment, risk control and risk monitoring. These processes are governed by a number of internal guidelines. This ensures that VIG Insurance Group's risk exposure is appropriately recorded and taken into account when business decisions are made.

RISK IDENTIFICATION

The risk management process begins with the identification of risks. This is performed using a standardised process that is supplemented by ad hoc analyses. A comprehensive reporting process ensures that newly identified risks and the effects of extraordinary events are appropriately included in the risk profile.

RISK ASSESSMENT

A number of assessment methods are used to assess identified risks. Assessment is primarily based on internal models and the standard formula and is performed annually and during the year. If the standard formula is used for assessment,

an appropriateness check is also performed. The total risk is determined by aggregating the assessed risks, taking into account diversification effects between the risks. The results of the own risk and solvency assessment, the embedded value for the life and health insurance businesses, findings from the S&P capital model and value-at-risk calculations for the investments area are also taken into account in the risk assessment.

RISK CONTROL

The risk strategy, planning, reinsurance programme and risk-bearing capacity are the most important elements of risk control. The Managing Board reviews the risk strategy each year and makes any modifications needed. The Enterprise Risk Management department assists the Managing Board with this.

The Planning and Controlling department is responsible for performance of an annual planning process and subsequently for monitoring day-to-day business development of the insurance companies of VIG Insurance Group. Regular reports are used for this purpose, including variance analyses and forecast accounts for the financial year. The planning horizon is three years. The planning data is used in Own Risk & Solvency Assessment (ORSA) and forms a starting basis for calculating future expected solvency.

The Reinsurance department coordinates the Group-wide reinsurance programme and manages the annual renewal process for natural catastrophe coverage. The Enterprise Risk Management department assists the Reinsurance department in validating the external natural catastrophe models used and evaluating the effectiveness of reinsurance coverage using the internal non-life model.

RISK MONITORING

The solvency corridor defined at the Group level and the Group-wide limit system for risk-bearing capacity form the basis for continuous monitoring of the solvency situation of the Group and subsidiaries.

Compliance with the securities guidelines and key figures is also continuously checked and monitored. Monitoring is performed by means of periodic fair value measurements, value-at-risk calculations and detailed sensitivity analyses and stress tests and determining the solvency capital requirement during the year.

Liquidity risk is managed and monitored by matching the investment portfolio to insurance obligations. Operational and strategic risks which might be caused by deficiencies or errors in business processes, controls and projects, or changes in the business environment, are also continuously monitored by the internal control system.

Periodic risk monitoring is documented, for example, in the quarterly reports provided to the Managing Board following the meetings of the Risk Committee and forms the starting point for any further analyses or corrective control measures.

Risk categories

Because of its activities, VIG Insurance Group is exposed to a large number of financial and non-financial risks. The overall risk of VIG Insurance Group can be divided into the following risk categories:

MARKET RISK

Market risk is the risk of losses due to changes in market prices. Changes in value occur, for example, due to changes in yield curves, share prices, exchange rates and the value of land and buildings and participations.

CREDIT RISK

Credit risk quantifies the potential loss due to a deterioration of the situation of a counterparty against which claims exist.

UNDERWRITING RISKS

VIG Insurance Group's core business consists of the transfer of risk from policyholders to the insurance company. Underwriting risks in the areas of life insurance, health insurance and non-life insurance are primarily the result of changes in insurance-specific parameters, such as loss frequency, loss amount or mortality, as well as lapse rates and lapse costs.

OPERATIONAL RISKS

Operational risks may result from deficiencies or errors in business processes, controls or projects caused by technology, staff, organisation or external factors.

REPUTATION RISK

Reputation risk is the risk of negative changes in business due to damage to a company's reputation.

LIQUIDITY RISK

This category includes the risk of VIG Insurance Group not having sufficient assets that can be liquidated at short notice to satisfy its payment obligations.

STRATEGIC RISKS

Strategic risks can arise due to changes in the economic environment, case law, or the regulatory environment.

Managing significant risks

In addition to the risks in property and casualty insurance and real estate investments that are modelled using the partial internal model, the following risks must be noted due to their great importance for VIG Insurance Group:

- the interest rate risk portion of market risk, which primarily results from sales of long-term guarantee products,
- the asset credit quality and default risk inherent in investments, which can be assigned to credit risk and indirectly to market risk,
- the share price risk portion of market risk, which results from direct or indirect holdings (e.g. in investment funds) of equities and non-consolidated participations,
- the currency risk portion of market risk, which results in particular from the high degree of involvement in the CEE region, and
- life insurance lapse risk, which can occur due to an increase in cancellation rates.

MARKET RISK

VIG Insurance Group is exposed to market risk, that is, the risk of suffering losses as a result of changes to market parameters. Interest rates, issuer spreads and share prices are the most relevant parameters for market risk. Ignoring investments held for the account of and at the risk of policyholders, investments in insurance business consist largely of fixed-income securities. The majority of these securities are denominated in euro and Czech koruna. Consequently, interest rate fluctuations and exchange rate changes in these currencies primarily have an effect on the value of these financial assets.

The management of investments is aimed at providing coverage for insured risks that is appropriate for the insurance business and the maturities of liabilities.

Depending on the purpose of the application, VIG Holding performs value-at-risk calculations for different sub-portfolios for VIG Insurance Group. Confidence levels vary between 95.0% and 99.5%, and the holding period varies from 20 to 250 days. Due to the nature of the portfolio, interest rate and spread components make the largest contributions to value-at-risk. As

a plausibility check of the calculations, the value-at-risk for the most important sub-portfolios is determined using both the parametric method described above and the historical calculation method.

The following table shows the value-at-risk (at a 99% confidence level) for financial assets that are measured as available for sale or recognised at fair value through profit or loss (incl. held for trading).

| Value-at-Risk | 31.12.2022 | 31.12.2021 |
|-----------------------|------------|------------|
| in EUR millions | | |
| 10-day holding period | 875.0 | 389.9 |
| 20-day holding period | 1,237.5 | 551.5 |
| 60-day holding period | 2,143.3 | 955.2 |

The increase in value-at-risk reflects the current interest rate trend.

Market risk is divided into interest rate, spread, share price, currency, real estate and concentration risk. Interest rates, spreads and share prices are the most relevant parameters for market risk.

Interest rate risk

The main drivers of interest rate risk is the sizeable portfolio of policies with guaranteed minimum interest rates, which includes pension and endowment insurance, and the resulting investments. For existing life insurance policies, VIG Insurance Group guarantees a minimum interest rate averaging around 1.83% p.a. (1.80% p.a.). If interest rates fall below the guaranteed average minimum rate for a longer duration of time, VIG Insurance Group could find itself forced in the future to use its capital to subsidise reserves for these products and consequently increase them through profit or loss as a result of the adequacy test.

The embedded value in life and health insurance consists of the adjusted net assets at market value (ANAV) and the value of the insurance portfolio (VIF). VIF is the present value of future profits (SPVFP), reduced by a risk margin. The SPVFP was EUR 4,149,904,000 as of 31 December 2022. A 100 basis point drop in the yield curve would mean the SPVFP decreased to EUR 3,709,152,000, which means the IFRS reserves are also adequate in this scenario. Also see the embedded value sensitivity analysis on page 118.

Spread risk

Spread risk arises from all assets and liabilities whose values depend on changes in the size of credit spreads over the riskless yield curve. Duration and the creditworthiness of the debtor are the main factors determining the amount of spread risk. Diversification and a uniform limit system for investments in fixed-interest instruments are used to limit this risk at the portfolio level.

Share price risk

Among other things, share investments include participations in a number of Austrian companies and equity positions in other companies whose shares trade primarily on the Vienna Stock Exchange or stock exchanges in the Eurozone or CEE region. A deterioration of the current economic situation could result in the share portfolio losing value.

Shares serve to increase earnings over the long term, provide diversification and compensate for long-term erosion in value due to inflation. VIG Insurance Group assesses share price risk by considering diversification within the overall portfolio and correlation with other securities exposed to price risk. Risk diversification within the share portfolio is mainly achieved by geographic diversification primarily in the home markets of the Group and in the Eurozone. Share investments are predominantly made by the Austrian companies.

Currency risk

To diversify its portfolio, the investment area also makes use of international capital markets and, to a very small extent, foreign currencies. The high degree of involvement in the CEE region results in currency risks at the VIG Insurance Group level in spite of matching local currency investments made at the local level.

Concentration risk

Internal guidelines and the limit system are used to keep concentrations within the desired safety margin. Consultation across business lines provides for a comprehensive view of all significant risks.

CAPITAL MARKET SCENARIO ANALYSIS

This analysis is carried out for all insurance companies in VIG Insurance Group in order to check the risk-bearing capacity of the investments.

The sensitivity shocks for the individual asset classes show the ranges of market value reductions for the most important risk factors (credit risk, interest rate risk, liquidity risk) and the resulting effects on the net fair value of assets minus liabilities. The scenarios combine these individual shocks to illustrate different capital market possibilities.

Scenarios 1 and 2 strongly reduce the fair value of shares, bonds and property at the same time. They show two different combinations of market value reductions over the main asset classes.

Scenario 3 shows a credit shock affecting stock and bond markets, scenario 4 is based on a shock to equity securities (including property), and scenario 5 shows an interest rate shock that has a large effect on the value of bonds and property. All of the scenario calculations were performed using a ceteris paribus approach.

The following table shows the stress parameters and the effects on IFRS capital of each scenario on the respective dates (not including deferred taxes, deferred profit participation or deferred mathematical reserve).

| Reduction in market value | Scenario 0 | Scenario 1 | Scenario 2 | Scenario 3 | Scenario 4 | Scenario 5 |
|-----------------------------------------------------------|------------|------------|------------|------------|------------|------------|
| of shares | 0% | -20% | -10% | -20% | -20% | 0% |
| of bonds | 0% | -5% | -3% | -5% | 0% | -5% |
| of real estate | 0% | -5% | -10% | 0% | -10% | -10% |
| Market value of assets less liabilities (in EUR millions) | 6,052.1 | 4,079.2 | 4,540.3 | 4,343.4 | 5,107.3 | 4,231.7 |

In every scenario, the fair value of the assets is significantly higher than the value of the liabilities after stress.

CREDIT RISK FROM INVESTMENTS

When managing risks related to credit quality, a distinction must be made between liquid and tradable risks (e.g. exchange-listed bonds) and bilateral risks, such as, for example, time deposits, OTC derivatives, loans, private placements and securities accounts/depositories. The risk is monitored by means of ratings and limited by diversification limits at the portfolio level.

Consideration is only given to those issuers or contracting parties whose credit quality or reliability can be assessed by VIG Insurance Group, whether on the basis of analyses performed by the Group, credit assessments/ratings from recognised sources, provision of security (e.g. mortgages) or, to a certain extent, the possibility of recourse to reliable mechanisms for safeguarding investments.

Under the investment guidelines, bond investments (which represent the largest share of investments) are made almost entirely in the investment grade range. The goal is to achieve the greatest possible diversification among individual issuers, to avoid accumulation risks, to ensure good average creditworthiness, to control foreign currency effects and to make the majority of investments in mid to long-term maturities in order to reflect the maturity profile of the liabilities as efficiently as possible.

The book values of the investments as of 31 December 2022 are shown on page 100. Information on the securities and their ratings is provided in Note 2.4 Other financial assets starting on page 132 of the notes to the consolidated financial statements.

Use of ratings

The “second best rating” method specified under Solvency II is used as a rating method. The latest (issue or issuer) rating from each of the three major rating agencies is used to determine the second best rating.

If the latest rating is an issuer rating, and this rating cannot be directly used due to a difference in quality of the security (e.g. senior unsecured debt rating and a lower tier 2 bond), the rating is adjusted downwards appropriately. The adjustment is one notch down for lower tier 2 bonds and two notches down for upper tier 2 or tier 1 bonds.

This results in up to three valid ratings for each bond. These ratings are then ranked according to increasing probability of default and the rating with the second-lowest probability of default taken as the “second best rating”. If the ratings in first and second place have the same probability of default, these two ratings are the “second best rating”. In cases where a rating has only been assigned by one rating agency, due to a lack of other information, this rating is used as the “second best rating”.

CREDIT RISK FROM REINSURANCE

VIG Insurance Group cedes a portion of assumed risks to reinsurance companies. This transfer of risk to reinsurers does not, however, relieve VIG Insurance Group of its obligations to policyholders. VIG Insurance Group is exposed to the risk of reinsurer insolvency. VIG Holding therefore designs its reinsurance programme carefully and monitors reinsurer rating changes for VIG Insurance Group.

UNDERWRITING RISKS

Underwriting risks are divided into life insurance, non-life insurance and health insurance (incl. accident insurance) and are managed by the Actuarial department. It subjects all insurance solutions to in-depth actuarial analysis covering all lines of insurance business (life, health as well as property and casualty).

The Actuarial function in the Actuarial department coordinates the Group-wide determination of underwriting provisions to prepare the economic balance sheet in accordance with Solvency II.

Life underwriting risk and health underwriting risk similar to life

Life underwriting risk includes lapse risk, cost risk, disability risk, morbidity risk, longevity risk, mortality risk, disaster risk and audit risk. The main risks in this area are lapse risk and cost risk, as well as biometric risks, such as life expectancy, occupational disability, illness and the need for nursing care.

To account for these underwriting risks, VIG Insurance Group has formed provisions for future insurance payments. VIG Insurance Group calculates its underwriting provisions using recognised actuarial methods and assumptions. These assumptions include estimates of the long-term interest rate trend, returns on investments, the allocation of investments between equities, interest-bearing instruments and other categories, net income participations, mortality and morbidity rates, lapse rates and future costs. The companies of VIG Insurance Group monitor actual experience relating to these assumptions and adjust their long-term assumptions where changes of a long-term nature occur.

To minimise lapse risk, VIG Insurance Group uses an effective complaint management department, qualified advisors and customer loyalty programmes to increase customer satisfaction and avoid cancellations. Policyholder cancellation behaviour is continuously monitored so that targeted measures can be taken if unfavourable changes occur.

The companies of VIG Insurance Group use regular analyses, targeted product design and detailed underwriting guidelines to address these risks. A variety of reinsurance contracts also exist that help to reduce the general level of risk. A broadly diversified product portfolio in all life and composite companies and a well-mixed customer base in the CEE region minimise risk concentrations.

Non-life underwriting risk and health underwriting risk similar to non-life

Risk in the non-life sector is divided into premium risk, reserve risk, lapse risk and catastrophe risk. Property and casualty underwriting risks are primarily managed using actuarial models for setting rates and monitoring the progress of claims, as well as requirements for the assumption of insurance risks.

Health underwriting risk is primarily concentrated in the Austrian companies. In the CEE markets, motor third party liability has a high volume compared to the other lines of business. This risk concentration was consciously accepted in order to enter these markets. The strong market position and above-average growth prospects in the CEE region will help growth in the other lines of business, thereby reducing the concentration in motor third party liability.

The environmental catastrophes that have been becoming increasingly common in recent years, such as floods, (hail) storms, mudslides and landslides may have been brought about by general climate change. The number of claims caused in this way may continue to rise in the future.

VIG Insurance Group forms provisions for claims and claims settlement expenses and regularly monitors them in order to effectively cover the risk associated with the insurance business. This risk is also significantly reduced by ceding reinsurance.

LIQUIDITY RISK

Efficient asset liability management can be used to prevent liquidity shortages. Investments and obligations are analysed regularly to identify liquidity needs. These analyses, together with clear investment requirements (limit systems) and a conservative investment policy, help to appropriately manage liquidity risk. The Treasury department, incl. Asset Liability Management, is responsible for the ongoing monitoring of cash flows and regular reporting on liquidity changes.

To ensure that every company continues to have adequate liquidity in the future, VIG Holding guidelines specify liquidity management standards that must be observed Group-wide by every company. Among other things, these standards require a regular examination of current and future cash inflows and outflows.

Underwriting liquidity analysis

A comparison of the expected payments from the insurance business for one year and freely disposable investments shows that underwriting does not create any liquidity risk.

The expected payments were derived from the maturities of the mathematical reserve and the provision for outstanding claims. Cash and cash equivalents and financial assets with no maturity or maturities of up to one year were defined as freely disposable investments.

OTHER RISKS

Business activities result in other risks that are assessed and managed as part of risk management. These include, in particular, operational risks, as well as reputation risks and strategic risks.

In addition, a comprehensive internal control system (ICS) ensures that adequate risk control infrastructure has been set up for operational risks and is regularly checked for appropriateness and effectiveness. The ICS itself is comprised of all measures and control activities used to minimise risks – particularly for the areas of accounting and compliance, but also for other operational risks. It extends from specially established processes, organisational units such as accounting and controlling, all the way to guidelines, regulations and individual controls within processes, such as automated audits or use of the “four-eyes” principle.

Aspects of the legal tax framework affecting earnings

Changes to tax law may negatively affect the attractiveness of certain products that currently enjoy tax advantages. For example, the introduction of laws to reduce the tax advantages of the VIG Insurance Group's retirement benefit products or other life insurance products could considerably diminish their attractiveness.

Regulatory environment

VIG Insurance Group is subject to domestic and foreign (insurance) supervisory regulations. These regulations govern such matters as:

- Capital requirements of insurance companies and insurance groups
- Admissibility of investments as security for underwriting provisions
- Licences of the different insurance companies of VIG Insurance Group
- Marketing activities and the sale of insurance policies and
- Cancellation rights of policyholders.

Changes to the statutory framework may make restructuring necessary, thus resulting in increased costs.

Developments in Central and Eastern Europe

The expansion and development of business operations in the countries of Central and Eastern Europe is a core component of VIG Holding's strategy. It has a very strong presence in these countries through its subsidiaries. The prescribed risk guidelines ensure consistent risk management in all CEE countries in VIG Insurance Group.

Concentration risk

Concentration risk is due to the strategic partnership with Erste Group and VIG Insurance Group consciously accepts this risk. Exposure is regularly assessed and monitored by the risk management processes that have been established.

Risks due to mergers and acquisitions

In the past, VIG Holding acquired directly and indirectly a number of companies in Central and Eastern Europe or acquired participations in these companies. Mergers of subsidiaries are considered if the synergies that can be achieved outweigh the benefits of multiple market presences.

Acquisitions and mergers often bring challenges in terms of corporate management, organisation, processes and financing, such as:

- the need to integrate the infrastructure of the acquired or merged company, including management information systems, and risk management and controlling systems,
- handling unsettled matters of a legal or regulatory nature and associated legal and compliance risks resulting from the merger or acquisition,
- integration of marketing, customer support and product ranges,
- integration of different corporate and management cultures, and
- the alignment of business and reporting processes and consideration of Group requirements.

Sustainability risks

Events or changes in conditions in the environmental or social areas could potentially have a negative effect on the VIG Group's net assets, financial position and results of operations, as well as its reputation. These include, among others,

- climate change,
- potentially stricter requirements for sustainability in the area of environmental protection,
- political measures to promote sustainable investment, and
- stricter requirements for a sustainable social environment (labour law standards, occupational safety and working conditions, compensation, etc.).

VIG Insurance Group implicitly includes sustainability risks in its regular risk management processes (e.g. ORSA).

An explicit assessment of sustainability risks is carried out regularly in VIG Insurance Group based on the Austrian Financial Market Authority Guide for Managing Sustainability Risks. By doing so, key steps are taken towards the integration of sustainability risks in existing risk management processes. Attention was also paid to the management of sustainability risks in internal (risk management) guidelines.

A Group-wide list of explicitly sustainability-related risks was prepared in order to ensure a structured approach to the identification and assessment of sustainability risks in VIG Insurance Group. This list of risks is being reviewed for completeness and supplemented as necessary by the VIG insurance companies as part of a standardised, Group-wide risk management process. The list thus also forms the basis for consideration in existing risk management processes that deal with assessing, analysing and managing risks faced by the Group.

The analysis of sustainability risk carried out in the reporting period showed that VIG Insurance Group sustainability risks are currently mainly low to medium-level risks. These risks are nevertheless expected to become more relevant in the future, due in part to the increasing importance of this topic.

Climate risks

Climate change and associated risks are one of the current sustainability issues. Although insurance companies have always been concerned with potential losses due to natural risks, global warming is underscoring the urgency of this problem. The main new risks are, in particular, a potential increase in the frequency and size of losses and the possibility of stricter requirements and political measures related to climate change (e.g. expanded reporting, investment restrictions).

To meet these challenges, a VIG Insurance Group climate change strategy was approved in 2019 and slightly modified again in financial year 2021. In addition to general principles for dealing with climate change, the climate change strategy also provides guidelines for investments and insurance operating business. For example, VIG Insurance Group is completely eliminating investments in the coal sector and has significantly limited insurance coverage for new coal mining and coal-fired power plant projects. The complete climate change strategy is available on the website at www.vig.com/climate-change-strategy

VIG Insurance Group greatly increased its underwriting know-how in previous years. Special scenario analyses have been performed since 2019 to estimate how climate change will affect the frequency and size of losses and, therefore, the insurance business in different sectors. The medium and long-term effects of climate change are also examined in the “Own Risk and Solvency Assessment” (ORSA). The main focus is on potential extreme weather events, such as flooding, earthquakes, storms and severe weather with hail. Current scientific studies are used to analyse the possible effects of global warming of 1.5°C, 2.0°C and 3.0°C above pre-industrial levels. Natural disasters and their effects are modelled with the help of external experts. The risk models used are constantly improved based on new data and findings, such as newly built flood protection measures.

The scenario analyses show that, above all, flooding poses a significant climate change-related risk for the activities of VIG Insurance Group. In addition to increased losses due to flooding, damage caused by severe hail and summer storms as a result of climate change are also to be expected. While severe damage from hail concerns the motor own damage line of business in particular, damage from flooding will occur primarily in the other property and casualty line of business.

| Natural risk | Relevant for climate change | Part of the VIG analysis | Background |
|--------------------------|-----------------------------|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Flooding | ✓ | ✓ | Science is expecting this risk to increase. The flood disaster "Bernd" that led to unexpectedly large losses in Germany in 2021 was a harbinger of climate change. |
| Earthquakes | ✗ | ✗ | There are no relevant scientific findings that predict an increase in earthquake risk due to climate change. |
| Winter storms | 🌪️ | ✓ | Scientific results concerning European winter storms are highly varied, especially with respect to the territorial effects (risk is expected to increase in some countries and decrease in others). |
| Hail and summer storms | ✓ | ✓ | As with flooding, science also expects this natural risk to increase. The events in 2021 (hail storm Volker in Austria and tornado in the Czech Republic) show that weather events are also becoming more extreme. |
| Snow loading | ✓ | ✗ | Global warming is expected to decrease snowfall and therefore reduce losses due to snow loading. In order to take a conservative approach, VIG did not include this in its analysis. |
| Drought and forest fires | ✓ | ✗ | Drought and forest fires play a secondary role due to VIG's geographical focus on the CEE region. Thought has, however, already been given to a possible modelling of this risk. |

VIG Insurance Group is using its increased underwriting knowledge to purchase reinsurance for the risks it assumes.

The increased probability of extreme weather events will also have an impact on the support offered to corporate and large customers. The support process begins with a careful analysis of the risk situation and protective measures that have already been implemented. Here, not only is the natural disaster model considered, but also the circumstances at a local level. The experts at RiskConsult use this analysis to develop individually tailored recommendations for further improving the risk situation and preventing losses. The policy terms are based on this risk situation and in some cases insurance can only be purchased once proposed measures have been implemented. Due to global warming, preventing losses due to natural disasters is playing an increasingly important role in the underwriting process. As part of this process, more than 2,000 locations of operation are evaluated every year, which makes a significant contribution to making the economy more resilient against natural disasters.

All known climate risks were included in the valuation of the assets and liabilities in these consolidated financial statements. For more information, please refer to the storm and severe weather losses that occurred during the financial year and were included in the balance sheet and income statement.

Macroeconomic risks

As a participant in the market, the business activities of VIG are influenced by the development of macroeconomic factors, such as the rate of unemployment, GDP and inflation.

2022 saw a significant rise in inflation in almost all markets in which the VIG Insurance Group operates. Global economic growth was also subdued by the ongoing COVID-19 pandemic and the Russia–Ukraine conflict. Inflation trends in individual countries are being closely monitored by VIG and potential impacts are analysed using scenario analyses, enabling appropriate responses to a changing environment to be taken.

Risks related to the Russia–Ukraine conflict

The war between the Russian Federation and Ukraine began on 24 February 2022 when Russian forces invaded Ukraine. The further development of the conflict and potential further escalations resulting from this – i.e. sanctions and counter-measures – could further exacerbate the implications on the financial markets and the economy in general. A number of risks may materialise for the VIG Insurance Group as a result; these are being addressed and handled as part of our sustainable risk management.

Dangers associated with the welfare of employees and the operating business activities (e.g. office infrastructure, energy, communication, IT security) pose material, direct risks for VIG's Ukrainian insurance companies.

In addition, at the VIG Insurance Group level, the volatility on the capital market fuelled by the conflict and the possibility of further sanctions and their consequences for the economy in particular represent significant risks and may have an impact on operating performance and business activities.

Business operations in Ukraine

VIG Insurance Group is represented in the Ukrainian market by three insurance companies that held around EUR 140 million in assets as of 31 December 2022. In the event of a complete loss of the Ukrainian operations, the VIG result before taxes would be decreased by the net asset value after adjusting for currency effects, which amounts to approximately EUR 56 million as of the balance sheet date of 31 December 2022. The Ukraine CGU does not hold any intangible assets that are subject to an impairment test in accordance with IAS 36.

The VIG insurance companies in Ukraine are mainly active in the western regions of the country, so business operations have thus far only been directly impacted to a limited extent. The sanctions against Russia also show no noticeable impacts on the operations of the Ukrainian companies. An increase in the number of green card insurance policies that were taken out has been observed. The reason for this increase in the movement of refugees to neighbouring European countries.

As of the editorial deadline, the Ukrainian insurance companies have been able to maintain limited operations in spite of the current conditions. Due to the current difficult situation in Ukraine, VIG is regularly examining whether the Ukrainian companies continue to satisfy the requirements as a going concern.

Russian bonds

VIG Insurance Group holds EUR 165.6 million in Russian government and corporate bonds for which there is currently no active market. Due to the cessation of trading in these financial instruments in line with agreed sanctions, impairments were recognised in connection with the exposure of VIG to Russian government and corporate bonds totalling EUR 84.1 million.

Ukraine hryvnia (UAH)

On 24 February 2022, the National Bank of Ukraine (NBU) published Resolution No. 18, which is intended to ensure the continued operation of a stable banking system under applicable martial law. As part of this resolution the exchange rate was pegged to the U.S. dollar.

In view of the change in the fundamental characteristics of the Ukrainian economy during the war and the strengthening of the U.S. dollar against other currencies, the NBU devalued the country's currency by 25% against the U.S. dollar on 21 July 2022.

Risks related to the COVID-19 pandemic

In January 2023, the World Health Organization (WHO) announced that it is anticipating that COVID-19 will stop being classified as a pandemic in 2023. Should – contrary to these expectations – the COVID-19 pandemic worsen once more, the potential impacts this could have on capital markets and the insurance business cannot be estimated, but they could have a negative effect on the net assets, financial position and results of operations of VIG Insurance Group. This includes, in particular, risks related to possible fluctuations on bond and capital markets that were also observed in the early phase of the COVID-19 pandemic.

In the area of reserves for incurred but not reported (IBNR) claims, additional reserves were included due to an increase in expected late claim notifications and uncertainty about future developments. Of these reserves, EUR 30.1 million were reversed in financial year 2022 due to the stabilisation of the situation. The adequacy of the underwriting provisions is checked in detail as part of the liability adequacy test during preparation of the consolidated financial statements. The comparison of the best estimate (after reinsurance) calculated based on the Solvency II principles with the IFRS provisions (after reinsurance) showed a significant surplus. As before, the IFRS provisions can therefore be considered adequate. Detailed information is available on page 108 in the risk report.

EMBEDDED VALUE SENSITIVITY ANALYSES FOR THE LIFE AND HEALTH INSURANCE BUSINESSES

The following tables show the sensitivities for changes in the assumptions used to calculate the embedded value for the life and health insurance businesses and value of new business as of 31 December 2022:

| Embedded value for the life and health insurance business | Austria/ Germany | Change | CEE | Change | Total | Change |
|-----------------------------------------------------------------------|---------------------|--------|-------------|--------|-------------|--------|
| | in EUR '000 | in % | in EUR '000 | in % | in EUR '000 | in % |
| Base value | 2,860,401 | | 1,918,065 | | 4,778,465 | |
| Increase in yield curve 0.5% | 253,968 | 8.9 | 856 | 0.0 | 254,825 | 5.3 |
| Decrease in yield curve 0.5% | -405,847 | -14.2 | -12,526 | -0.7 | -418,372 | -8.8 |
| Decrease in share and real estate values 25% as of the reporting date | -117,129 | -4.1 | -19,701 | -1.0 | -136,830 | -2.9 |
| Decrease in administrative expenses 10% | 82,817 | 2.9 | 50,214 | 2.6 | 133,031 | 2.8 |
| Decrease in lapse rates 10% | 20,910 | 0.7 | 28,497 | 1.5 | 49,407 | 1.0 |
| Decrease in mortality 5% for endowment and risk insurance | 11,971 | 0.4 | 37,681 | 2.0 | 49,652 | 1.0 |
| Decrease in mortality 5% for annuities | -12,048 | -0.4 | -770 | 0.0 | -12,818 | -0.3 |
| No volatility adjustment | -142,421 | -5.0 | -11,490 | -0.6 | -153,911 | -3.2 |

| Value of new business | Austria/ Germany | Change | CEE | Change | Total | Change |
|-----------------------------------------------------------|---------------------|--------|-------------|--------|-------------|--------|
| | in EUR '000 | in % | in EUR '000 | in % | in EUR '000 | in % |
| Base value | 33,702 | | 56,860 | | 90,562 | |
| Increase in yield curve 0.5% | -988 | -2.9 | 3,128 | 5.5 | 2,140 | 2.4 |
| Decrease in yield curve 0.5% | -3,321 | -9.9 | -2,971 | -5.2 | -6,293 | -6.9 |
| Decrease in administrative expenses 10% | 1,915 | 5.7 | 6,912 | 12.2 | 8,827 | 9.7 |
| Decrease in lapse rates 10% | 1,915 | 5.7 | 1,334 | 2.3 | 3,248 | 3.6 |
| Decrease in mortality 5% for endowment and risk insurance | 1,396 | 4.1 | 9,529 | 16.8 | 10,925 | 12.1 |
| Decrease in mortality 5% for annuities | -555 | -1.6 | 2 | 0.0 | -553 | -0.6 |
| No volatility adjustment | 446 | 1.3 | -1,287 | -2.3 | -841 | -0.9 |

The sensitivities are based on the same management rules and policyholder behaviour as the base case. Each sensitivity is calculated separately. If two events occur simultaneously, the effect is not necessarily equal to the sum of the individual sensitivities.

Provisions in the property and casualty line of business

GENERAL INFORMATION

If claims are asserted by or against policyholders, all amounts that a company in the property and casualty line of business pays or expects to have to pay to the claimant are referred to as losses, and the costs of investigating, adjusting and processing these claims are referred to as claims settlement expenses. The companies in VIG Insurance Group have formed provisions by lines of business, extent of cover and year to pay for losses and claims settlement expenses due to claims under property and casualty insurance policies.

Losses and claims settlement expenses can be divided into two categories: reserves for known but still outstanding claims (RMNS), and reserves for claims that have been incurred but have not yet been reported, or the correct amount has not been reported (IBNR, IBNER). Provisions for outstanding claims are based on estimates of future payments, including claims settlement expenses, for these claims. These estimates are made on a case-by-case basis in accordance with facts and circumstances ascertainable at the time the provision is formed.

The estimates reflect the well-founded judgement of the companies of VIG Insurance Group adjusters based on general practices for forming insurance provisions and a knowledge of the nature and value of each type of claim. These provisions are adjusted regularly during normal processing and represent the expected eventual costs necessary to finally settle all pending reported claims, taking into account inflation, interest rates and other social and economic factors that could affect the amount of provisions that are required.

Historical developments in distribution patterns and claims payments, the level of reported and still outstanding claims and the nature of the extent of cover are also taken into account. In addition, court decisions and economic conditions can also affect the estimate of provisions and the eventual size of claims.

IBNR and IBNER provisions are formed to offset the expected costs of losses that have been incurred but not yet reported or have not yet been reported sufficiently to the individual insurance companies. These provisions, just like the provisions for reported claims, are formed to pay the expected costs, including claims settlement expenses, necessary to finally settle these claims. Because, by definition, the extent of these losses is still unknown when the provisions are formed, VIG Insurance Group calculates its IBNR and IBNER provisions based on historical claims experience, adjusted for current

developments in claims-related factors. These provisions are based on estimates made using actuarial and statistical forecasts of the expected costs to finally settle these claims. The analyses are based on the facts and circumstances known at the time and on expectations regarding changes in legal and/or economic factors that determine the level of loss, such as case law, the inflation rate and labour costs. These provisions are regularly reviewed and revised once additional information is known and claims are actually reported. The time needed to learn of these claims and settle them is an important factor that must be taken into account when forming provisions.

Claims which are easy to settle, such as property damage under motor insurance, are reported within a few days or weeks and are normally settled within a year.

More complicated claims, such as personal injury under motor or general liability insurance, typically require longer settlement times (on average four to six years, in some cases considerably longer). Difficult claims, where settlement regularly depends on the results of often protracted litigation, also lead to substantially longer settlement times, especially in the liability, casualty, building and professional liability lines of business.

The final costs of the claims and claims settlement expenses depend on a number of variable circumstances. Between the time a claim is reported and final settlement, changing circumstances may require that the provisions that were formed be revised upwards or downwards. For example, changes in the law, the outcome of litigation and changes in medical costs, costs for materials for car and house repair and hourly wage rates, loss frequency and loss amount can have a substantial effect on the costs of claims. These factors may result in actual developments differing from expectations – sometimes substantially. Loss reserve estimates are regularly reviewed and updated, using the most recent information available to the Managing Board.

Any changes to provision estimates are reflected in the operating result. The conservative policy toward provisions of VIG Insurance Group is shown, for example, by the fact that liquidation of loss reserves has generally led to a profit. Based on VIG Insurance Group's internal procedures and the information currently available to it, management believes that the VIG Insurance Group's provisions in the property and casualty insurance area are adequate. Forming loss reserves is an uncertain process and therefore no guarantee can be given that in the end losses will not differ from initial estimates.

CHANGES IN CLAIMS PAYMENTS AND GROSS LOSS RESERVE

The following tables show claims payments for individual years of occurrence and VIG Insurance Group's direct loss reserves at the end of each year indicated. The provisions reflect the amount of expected losses, based on claims that occurred in the current and all previous loss years and had not yet been paid as of the balance sheet date, including IBNR and IBNER. Interpreting the information contained in this table requires caution, because each amount contains the effects of all changes from the previous periods. The circumstances and trends that affected liability in the past may not recur in the future and therefore no conclusions can be drawn from the information given in this table as to future results.

Claim payments for each year of occurrence on the applicable balance sheet date (gross)

| Year of occurrence | Calendar year | | | | | | | | | |
|--------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|

Reinsurance

VIG Insurance Group limits its potential liability arising from the insurance business by passing on, to the extent necessary, a portion of the assumed risks to the international reinsurance market. Some of the risks of insurance companies are reinsured within VIG Insurance Group and these risks are in turn ceded to external reinsurers at the Group level.

REINSURANCE GUIDELINES

The reinsurance guidelines are jointly determined each year by the corporate Reinsurance department and the member of the Managing Board responsible for reinsurance during the development of the reinsurance strategy for the next financial year. They require each insurance company to provide, in consultation with the corporate Reinsurance department, reinsurance coverage that is appropriate for its local company. These guidelines govern the following points.

Reinsurance is a prerequisite for the acceptance of insurance coverage

Underwriting departments may only make a binding commitment to insure a risk above a certain limit if sufficient reinsurance coverage has already been assured.

Retention

It is Group-wide policy that no more than EUR 70.0 million for the first natural disaster event and EUR 50.0 million for each additional event can be placed at risk on a PML (probable maximum loss) basis. The maximum Group-wide retention per individual loss is less than EUR 25.0 million.

Selection of reinsurers – diversification

VIG Holding and its subsidiaries divide their reinsurance coverage among many different international reinsurance companies that VIG Holding feels have appropriate credit quality, so as to minimise the risk arising from one reinsurer's inability to pay (credit risk). The monetary limit per reinsurer is set individually for each subsidiary.

Selection of reinsurers – ratings

For lines of business where claims settlement takes a long time, in particular for motor third party liability, general liability and aviation, VIG Insurance Group uses reinsurers with outstanding ratings (at least a Standard & Poor's rating of A, preferably a rating of AA or higher), which in all likelihood will also continue to exist over the long term. For lines of business with claims that are settled quickly (for example, natural catastrophes, fire, technology, transportation, storm, burglary, household, water pipes, motor own damage), where the number of reinsurers is greater, the preferred rating is Standard & Poor's A or higher. Only in a few cases – and for limited periods of time – are reinsurers with lower ratings accepted.

Reinsurers' share of underwriting provisions – ratings

The following table shows the reinsurers' share in underwriting provisions in property and casualty insurance for different ratings and balance sheet dates:

| | 31.12.2022 | 31.12.2021 |
|--------------|------------|------------|
| in % | | |
| AAA | 20.44 | 9.14 |
| AA | 27.42 | 35.57 |
| A | 47.76 | 50.70 |
| BBB | 1.89 | 2.76 |
| BB and lower | 0.67 | 0.85 |
| No rating | 1.82 | 0.98 |

As a result of the good credit quality of VIG Insurance Group's reinsurers, no valuation allowances were needed for reinsurers' shares as of the 31 December 2022 and 31 December 2021 balance sheet dates.

Design of reinsurance programmes

If it can be justified economically, any subsidiary can purchase reinsurance coverage individually from external reinsurers. If individual reinsurance policies can only be purchased by a subsidiary at uneconomical terms, VIG Insurance Group strives, as far as possible, to jointly place reinsurance contracts covering risks from natural catastrophes, property lines of business, casualty, transport, aviation and motor liability. If necessary, intra-Group assumptions of reinsurance are also passed on as

retrocession in the reinsurance market for safety reasons. The guidelines for Wiener Städtische reinsurance coverage are presented below. Retentions for all other insurance companies are below those of Wiener Städtische.

REINSURANCE COVERAGE USING THE EXAMPLE OF WIENER STÄDTISCHE

Natural catastrophes

Wiener Städtische provides insurance for damage caused by natural catastrophes such as storms, hail, flooding or earthquakes. Wiener Städtische uses reinsurance coverage to limit its retention for natural disasters to EUR 18.0 million for the first loss event and EUR 9.5 million for each additional event.

Private customer business

The private customer business consists of essentially stable insurance portfolios having calculable results that are characterised above all by a stable claims frequency. Thus, such recurrent claims are only reinsured in exposed lines of business, for example storm insurance, with a targeted use of proportional reinsurance to reduce the effects on the retention. The effects on the retention of the small number of expected major losses are covered by non-proportional reinsurance. Wiener Städtische's maximum net loss is between EUR 1.0 million and EUR 2.0 million, depending on the line of business.

Management and control

LIQUIDITY MANAGEMENT

VIG Insurance Group manages its liquidity using guidelines approved by the Managing Board of VIG Holding. As a rule, VIG Holding and each subsidiary are responsible for their own liquidity planning. As the parent company, VIG Holding is responsible for allocating capital for VIG Insurance Group as a whole. This allows capital to be efficiently distributed within VIG Insurance Group. It also allows VIG Holding to ensure that the target levels of liquidity and capital resources are available both at the VIG Insurance Group level and in the individual operating units.

Most of the liquidity for day-to-day operations comes from premiums received from primary insurance, regular income from investments and proceeds from the sale of investments. These inflows are offset by payments for property and casualty insurance claims, and benefit payments for life and health insurance. The remaining net liquidity is used to cover acquisition and operating costs.

The maturity pattern of the insurance business provides a natural liquidity buffer. Unlike the premiums received, VIG Insurance Group guarantees insurance coverage for a certain period of time, and no cash outflow occurs during this period until an insured event occurs. The liquidity buffer is invested during this period and generates investment income. A portion is held in the form of liquid investments to ensure that it can be quickly converted into cash to pay claims. In addition, the bond portfolio, in particular, is structured so that the proceeds from maturing bonds are received on the dates it is anticipated they will be needed. External influence factors, such as capital market developments and the interest rate level, affect the liquidity situation by improving or restricting the ability to sell the investment portfolio at market value.

The time, frequency and size of insured claims are also important for the liquidity situation of property and casualty insurance. The number of policy extensions also plays a role.

The liquidity needs for life insurance are generally affected by the difference between actual mortality experience and the assumptions used to calculate underwriting provisions. Market returns or minimum interest rates and the behaviour of life insurance customers, such as the number of policies surrendered or terminated, also have an effect on liquidity needs.

CAPITAL MANAGEMENT

In the interests of our shareholders and insurance customers, our goal is to ensure that VIG Holding has adequate capital resources at all times and that all operating insurance companies fulfil their respective minimum regulatory capital requirements. Due to its successful business strategy, VIG Holding has traditionally had very good capital resources. Maintaining this good capital base in the future is also important to us, both to allow us to take advantage of profitable growth opportunities and to cushion the effects of large loss events.

Standard & Poor's rating

VIG Holding also places great importance on maintaining a strong credit rating with Standard & Poor's (S&P) and therefore regularly undergoes rating by S&P. S&P has its own capital model for assessing the relationship between the risk capital required by a company and the capital resources available to it. In December 2022, S&P affirmed the A+ rating with a "stable" outlook. Capital resources exceed the requirements for the AAA level.

The subordinated bonds issued in 2013 (EUR 500 million, tier 2, first call date 9 October 2023), 2015 (EUR 400 million, tier 2, first call date 2 March 2026), 2017 (EUR 200 million, tier 2, first call date 13 April 2027) and 2022 (EUR 500 million, tier 2, first call date 15 June 2032) have been rated A- by S&P. The senior sustainability bond that was issued in 2021 (EUR 500 million, bullet bond, 15-year term) was assigned an A rating by S&P. It does not satisfy S&P's criteria for inclusion as capital.

Active capital management

VIG Holding uses the criteria above to monitor its capital positions and takes appropriate measures to further improve its capital structure and strengthen its capital and solvency situation over the long term. A solvency ratio of 150% to 200% at the Solvency II Group level has been specified by VIG Holding, whereby this VIG Group solvency ratio range is determined without taking into account transitionals for underwriting provisions used by some individual Group companies.

Capital management focuses on subordinated long-term liabilities with equity-like characteristics. The Treasury department, incl. Asset Liability Management, continuously monitors capital market developments, with particular attention to developments concerning bonds with equity-like characteristics from the European insurance sector. New capital instruments developing in the capital market for insurance companies are examined for applicability to VIG Holding.

Capital resources

As of 31 December 2022, share capital of EUR 132,887,468.20 was registered in the commercial register, divided into 128,000,000 no-par value bearer ordinary shares with voting rights. VIG Holding held no own shares on 31 December 2022 (2021: none). In addition, VIG Holding can, according to the authorisation by the shareholders, increase its shareholders' equity by issuing common or preferred shares. The individual authorisations are listed in Note 8. Consolidated shareholders' equity starting on page 140.

VIG Insurance Group had an auditor-reviewed solvency ratio defined based on Solvency II of 279.9% as of 31 December 2022 (31 December 2021: 249.5%).

Long-term debt financing

VIG Insurance Group had subordinated bonds with a wide range of maturities outstanding as of 31 December 2022. Detailed information on the VIG Insurance Group bond programme is provided in Note 9. Subordinated liabilities starting on page 144. As shown by the maturities, VIG Insurance Group's focus is on subordinated liabilities that are eligible capital. General capital market conditions and other circumstances that affect the financial services sector as a whole or VIG Insurance Group in particular could have an adverse effect on the cost and availability of debt financing. The goal, therefore, is to actively manage the capital structure to keep refinancing risks as low as possible.

NOTES TO THE CONSOLIDATED BALANCE SHEET – ASSETS

1. INTANGIBLE ASSETS

| Composition | 31.12.2022 | 31.12.2021 |
|--------------------------------|------------------|------------------|
| in EUR '000 | | |
| Goodwill | 1,438,721 | 1,260,226 |
| Purchased insurance portfolios | 59,576 | 14,607 |
| Other intangible assets | 586,448 | 469,336 |
| Purchased software | 446,797 | 388,413 |
| Other | 139,651 | 80,923 |
| Total | 2,084,745 | 1,744,169 |

Impairments of intangible assets and reversals of impairments of intangible assets are included as separate items in the income statement between the Group operating result and the result before taxes.

1.1. Goodwill

| Development | 2022 | 2021 |
|---------------------------------------------------------|------------------|------------------|
| in EUR '000 | | |
| Acquisition costs | 1,886,335 | 1,865,619 |
| Cumulative impairment as of 31.12. of the previous year | -626,109 | -628,303 |
| Book value as of 31.12. of the previous year | 1,260,226 | 1,237,316 |
| Exchange rate differences | -4,026 | 22,910 |
| Book value as of 1.1. | 1,256,200 | 1,260,226 |
| Additions | 208,882 | 0 |
| Impairments | -26,361 | 0 |
| Book value as of 31.12. | 1,438,721 | 1,260,226 |
| Cumulative impairment as of 31.12. | 651,991 | 626,109 |
| Acquisition costs | 2,090,712 | 1,886,335 |

Additions in the financial year mainly result from the purchases of Aegon Hungary (EUR 188,573,000) and the Slovakian pension company 365.life (EUR 19,970,000).

The impairments in the financial year predominantly affected the Albania incl. Kosovo (EUR 13,624,000) and North Macedonia (EUR 12,553,000) CGU groups.

| Goodwill of CGU units (book values) | 31.12.2022 | 31.12.2021 |
|-------------------------------------|------------------|------------------|
| in EUR '000 | | |
| Austria | 301,716 | 301,716 |
| Czech Republic | 468,097 | 454,041 |
| Poland | 140,560 | 142,970 |
| Albania incl. Kosovo | 0 | 13,416 |
| Baltic States | 75,481 | 75,481 |
| Bulgaria | 124,354 | 124,354 |
| North Macedonia | 0 | 12,551 |
| Slovakia | 111,257 | 111,257 |
| Hungary | 186,759 | 13,915 |
| Group Functions | 30,497 | 10,525 |
| Total | 1,438,721 | 1,260,226 |

Please see the Impairment section on page 75 for information on the assumptions used for impairment testing.

1.2. Other intangible assets

| Development purchased software | 2022 | 2021 |
|--------------------------------------------------------|----------------|------------------|
| in EUR '000 | | |
| Acquisition costs | 1,440,574 | 1,318,689 |
| Cumulative valuation as of 31.12. of the previous year | -1,052,161 | -917,226 |
| Book value as of 31.12. of the previous year | 388,413 | 401,463 |
| Exchange rate differences | -151 | 1,375 |
| Book value as of 1.1. | 388,262 | 402,838 |
| Reclassifications | -5,174 | -7,517 |
| Additions | 124,435 | 131,283 |
| Disposals | -5,953 | -287 |
| Changes in scope of consolidation | 24,423 | -126 |
| Scheduled depreciation | -79,196 | -137,090 |
| Impairments | 0 | -688 |
| Book value as of 31.12. | 446,797 | 388,413 |
| Cumulative valuation as of 31.12. | 493,069 | 1,052,161 |
| Acquisition costs | 939,866 | 1,440,574 |

2. INVESTMENTS

| Composition | 31.12.2022 | 31.12.2021 |
|--------------------------------------------|-------------------|-------------------|
| in EUR '000 | | |
| Property | 3,128,977 | 2,850,588 |
| Owner-occupied property | 483,345 | 472,303 |
| Investment property | 2,645,632 | 2,378,285 |
| Shares in at equity consolidated companies | 287,960 | 276,913 |
| Financial assets | 28,923,416 | 31,682,289 |
| Loans and other investments | 3,368,204 | 3,028,291 |
| Other financial assets | 25,555,212 | 28,653,998 |
| Total | 32,340,353 | 34,809,790 |

2.1. Property

Owner-occupied property

| Development | 2022 | 2021 |
|--------------------------------------------------------|----------------|----------------|
| in EUR '000 | | |
| Acquisition costs | 773,344 | 758,780 |
| Cumulative valuation as of 31.12. of the previous year | -301,041 | -281,311 |
| Book value as of 31.12. of the previous year | 472,303 | 477,469 |
| Exchange rate differences | 3,573 | 5,822 |
| Book value as of 1.1. | 475,876 | 483,291 |
| Reclassifications | -22,065 | 1,246 |
| Additions | 12,478 | 9,886 |
| Disposals | -1,586 | -4,043 |
| Changes in scope of consolidation | 36,243 | -283 |
| Appreciation | 0 | 52 |
| Scheduled depreciation | -17,560 | -16,829 |
| Impairments | -41 | -1,017 |
| Book value as of 31.12. | 483,345 | 472,303 |
| Cumulative valuation as of 31.12. | 298,407 | 301,041 |
| Acquisition costs | 781,752 | 773,344 |

Changes in the scope of consolidation are mainly due to the first-time inclusion of Aegon Hungary (EUR +23,228,000) and Brockmannsgasse 32 Immobilienbesitz GmbH (EUR +12,904,000).

Investment property

| Development | 2022 | 2021 |
|--------------------------------------------------------|------------------|------------------|
| in EUR '000 | | |
| Acquisition costs | 3,260,627 | 2,857,619 |
| Cumulative valuation as of 31.12. of the previous year | -882,342 | -827,675 |
| Book value as of 31.12. of the previous year | 2,378,285 | 2,029,944 |
| Exchange rate differences | -801 | 1,395 |
| Book value as of 1.1. | 2,377,484 | 2,031,339 |
| Reclassifications | 22,646 | -2,051 |
| Additions | 238,861 | 286,183 |
| Disposals | -2,984 | -6,409 |
| Changes in scope of consolidation | 82,365 | 121,457 |
| Appreciation | 275 | 3,333 |
| Scheduled depreciation | -60,779 | -54,896 |
| Impairments | -12,236 | -671 |
| Book value as of 31.12. | 2,645,632 | 2,378,285 |
| Cumulative valuation as of 31.12. | 971,313 | 882,342 |
| Acquisition costs | 3,616,945 | 3,260,627 |
| Rental income | 171,164 | 140,360 |
| From investment property | 171,164 | 140,360 |
| Operating expenses for rented investment property | 57,054 | 38,478 |
| Operating expenses for vacant investment property | 4,562 | 7,970 |

The changes in the scope of consolidation are mainly due to first-time inclusion of Atzlergasse 13-15 GmbH & Co KG (EUR +11,902,000), Merlot Sp.z.o.o. (EUR +45,398,000), Nordbahnhof Projekt EPW8 GmbH & Co KG (EUR +11,560,000) and Nordbahnhof Projekt Taborstraße 123 GmbH & Co KG (EUR +12,830,000).

Use of property

| Detail property | 31.12.2022 | 31.12.2021 |
|--------------------------------|------------------|------------------|
| in EUR '000 | | |
| Owner-occupied property | 483,345 | 472,303 |
| self-used | 461,882 | 450,663 |
| rented (operating lease) | 21,463 | 21,640 |
| Investment property | 2,645,632 | 2,378,285 |
| self-used | 8,038 | 3,940 |
| rented (operating lease) | 2,637,594 | 2,374,345 |

2.2. Shares in at equity consolidated companies

| Development | 2022 | 2021 |
|------------------------------------------------------------------------------|----------------|----------------|
| in EUR '000 | | |
| Book value as of 31.12. of the previous year | 276,913 | 291,561 |
| Exchange rate differences | -2 | -1 |

| Share of net assets | 37,672 | 42,542 | 19,495 | 327,542 | 78,950 |
| Cumulative impairments | 0 | 0 | -4,540 | 0 | 0 |
| Adjustment item due to protective provisions of the Austrian Non-Profit Housing Act (Wohnungsgemeinnützigkeitsgesetz – WGG) | 0 | 0 | 0 | -279,109 | 0 |
| Book value of shares in at equity consolidated companies | 37,672 | 42,542 | 14,955 | 48,433 | 78,950 |

Materiality is generally determined based on the amount of the at equity book value.

Beteiligungs- und Immobilien GmbH and Beteiligungs- und Wohnungsanlagen GmbH were included in the consolidated financial statements with a different balance sheet date (30 September).

2.3. Loans and other investments

| Composition of loans and other investments | 31.12.2022 | 31.12.2021 |
|--------------------------------------------------|------------------|------------------|
| in EUR '000 | | |
| Loans | 1,306,237 | 1,273,633 |
| Reclassified loans | 91,834 | 106,677 |
| Bonds classified as loans | 721,357 | 775,754 |
| Total loans | 2,119,428 | 2,156,064 |
| Other investments | 1,248,776 | 872,227 |
| thereof bank deposits | 1,157,148 | 783,730 |
| thereof deposits on assumed reinsurance business | 91,611 | 88,480 |
| Total | 3,368,204 | 3,028,291 |

| Composition of total loans | 31.12.2022 | 31.12.2021 |
|------------------------------------------------|------------------|------------------|
| in EUR '000 | | |
| Loans | 1,306,237 | 1,273,633 |
| Loans to non-consolidated affiliated companies | 53,449 | 75,424 |
| Loans to participations | 51,517 | 38,699 |
| Mortgage loan | 346,035 | 375,043 |
| Policy loans and prepayments | 26,447 | 17,027 |
| Other loans | 828,789 | 767,440 |
| to public authorities | 245,045 | 220,158 |
| to financial institutions | 139,437 | 148,581 |
| to other commercial borrowers | 302,752 | 396,332 |
| to others | 141,555 | 2,369 |
| Reclassified loans | 91,834 | 106,677 |
| Bonds classified as loans | 721,357 | 775,754 |
| to public authorities | 108,750 | 109,894 |
| to financial institutions | 575,440 | 628,937 |
| to other commercial borrowers | 32,667 | 32,423 |
| Other | 4,500 | 4,500 |
| Total | 2,119,428 | 2,156,064 |

Public sector borrowers include national, state and local authorities. The loans included under other loans are generally loans that are not secured by insurance policies.

Collateral was provided for around 52.78% of the total loans reported.

| Development of total loans | 2022 | 2021 |
|--------------------------------------------------------|------------------|------------------|
| in EUR '000 | | |
| Acquisition costs | 2,165,624 | 2,574,406 |

6. DEFERRED TAXES

The deferred tax assets (DTA) and liabilities reported relate to temporary differences in the balance sheet items listed in the table below. (The differences were measured using the applicable tax rates.) It should be noted that deferred taxes, as far as permissible, are offset at the taxpayer level, and, accordingly, the different balances are shown either as assets or liabilities on the balance sheet.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that the deferred tax assets can be used. Deferred tax assets are examined each balance sheet date and reduced to the extent that it is no longer probable that the associated tax benefits can be realised.

¹ including financial investments for unit- and index-linked life insurance

² including cash and cash equivalents

³ including reinsurers' share in underwriting provisions as well as underwriting provisions for unit- and index-linked life insurance

⁴ including subordinated liabilities

Deferred tax assets from seven-year amortisation of participations to going concern value were recognised in the amount of EUR 15,041,000 (EUR 17,570,000). Deferred tax liabilities and deferred tax assets of consolidated taxable entities in the tax group collected by the same tax authority were netted, resulting in a deferred tax asset of EUR 112,470,000 (deferred tax liabilities: EUR 136,875,000). In accordance with IAS 12.39, deferred tax liabilities were not reported for temporary differences from shares in subsidiaries and associated companies since they would not be reversed in the foreseeable future.

The difference between the book value for tax purposes and the IFRS shareholders' equity is EUR 1,425,483,000 (EUR 2,018,859,000). Deferred taxes for undistributed subsidiary profits of EUR 15,666,000 (EUR 16,767,000) were not reported because a decision to distribute the profits had not yet been made.

EUR 26,138,000 (EUR 25,017,000) in deferred taxes on loss carry-forwards were not recognised.

NOTES TO THE CONSOLIDATED BALANCE SHEET – LIABILITIES AND SHAREHOLDERS' EQUITY

8. CONSOLIDATED SHAREHOLDERS' EQUITY

The items **share capital** and **other capital reserves** include contributions to share capital made by VIG Holding shareholders. Other capital reserves report the share of contributions paid that is in excess of the share capital. The reserves are reduced by external costs directly related to corporate actions affecting equity after taking tax effects into account.

Retained earnings are the earnings that subsidiaries have earned since joining VIG Insurance Group. These are reduced by the dividends distributed by the VIG Holding. Amounts resulting from changes in the scope of consolidation are also recognised here. If changes are made to accounting policies, the adjustments for earlier periods that are not included in the financial statements are recognised in the opening balance sheet value of retained earnings for the earliest period presented.

Other reserves consist of unrealised gains and losses from the measurement of available for sale financial instruments and actuarial gains and losses that are recognised in comprehensive income in accordance with IAS 19. Unrealised gains and losses from the at equity measurement of associated companies and translation differences resulting from currency translation for foreign subsidiaries are also reported in other reserves.

Non-controlling interests are also shown as part of shareholders' equity. These consist of shares held by third parties in the equity of consolidated subsidiaries that are not directly or indirectly entirely owned by VIG Holding.

Detailed information on capital management is provided on page 124.

8.1. Share capital and voting rights

The Company has share capital of EUR 132,887,468.20. It is divided into 128,000,000 no-par value ordinary bearer shares with voting rights, with each share representing an equal portion of the share capital. The number of shares issued remains unchanged.

The Managing Board is not aware of any restrictions on voting rights or the transfer of shares. Employees who hold shares exercise their voting rights without a proxy during General Meetings.

The Managing Board must have at least three and no more than eight members. The Supervisory Board has at least three and at most twelve members (shareholder representatives). Wiener Städtische Versicherungsverein, which directly and indirectly holds around 72.47% (72.47%) of the share capital, has the right to appoint up to one third of the members of the Supervisory Board if, and as long as, it holds 50% or less of the Company's voting shares. General Meeting resolutions are adopted by a simple majority, unless a different majority is required by law or the articles of association.

No shares have special rights of control. See the section indicated above for information on the rights of the shareholder Wiener Städtische Versicherungsverein.

As of the balance sheet date, the Company was not party to any material agreements that would come into effect, change or terminate if control of the Company were to change due to a takeover bid, in particular, no agreements that would affect participations held in insurance companies. Existing agreements that would come into effect if control of the Company were to change due to a takeover bid relate to participations held in other (non-insurance) companies.

No compensation agreements exist between the Company and its Managing Board members, Supervisory Board members or employees covering the case of a public takeover bid.

ANTICIPATORY RESOLUTIONS

The Managing Board is authorised under § 169 Austrian Stock Corporation Act (AktG) to increase the share capital of the Company by a nominal amount of up to EUR 66,443,734.10 by issuing 64,000,000 no-par value bearer or registered shares or a combination of the two in one or more tranches on or before 20 May 2026 against cash or in-kind contributions. The terms of the shares, the exclusion of shareholder pre-emption rights, and other terms and conditions of the share issue are decided by the Managing Board, subject to Supervisory Board approval. Preferred shares without voting rights may also be issued, with rights equivalent to those of existing preferred shares. The issue prices of common and preferred shares may differ.

The General Meeting of 21 May 2021 authorised the Managing Board to issue, subject to Supervisory Board approval, one or more tranches of convertible bonds in accordance with § 174 AktG with a total nominal value of up to EUR 2,000,000,000.00 on or before 20 May 2026, with conversion or subscription rights for up to 30,000,000 bearer ordinary shares of the Company representing a share of up to EUR 31,145,500.36 of the share capital, including authorisation to exclude shareholder pre-emption rights.

The share capital has consequently been raised in accordance with § 159 (2) no. 1 AktG by a contingent capital increase of up to EUR 31,145,500.36 through the issue of up to 30,000,000 bearer ordinary shares. The contingent capital increase will only be implemented to the extent that holders of convertible bonds issued on the basis of the General Meeting resolution of 21 May 2021 exercise the subscription or exchange rights they were granted. The Managing Board has not adopted any resolutions to date concerning the issuance of convertible bonds based on the authorisation granted on 21 May 2021.

The General Meeting of 21 May 2021 further authorised the Managing Board to issue, subject to Supervisory Board approval in accordance with § 174 (2) AktG, income bonds with a total nominal value of up to EUR 2,000,000,000.00 in one or more tranches on or before 20 May 2026, including authorisation to exclude shareholder pre-emption rights. The Managing Board has not adopted any resolutions to date regarding the issuance of income bonds based on this authorisation.

The General Meeting of 21 May 2021 authorised the Managing Board to acquire bearer ordinary shares in accordance with § 65 (1) no. 8, (1a) and (1b) AktG to the maximum extent permissible by law during a period of 30 months following the date the General Meeting resolution was adopted. The amount paid upon repurchase of the Company's own shares may not be more than a maximum of 50% below, or more than a maximum of 10% above, the average unweighted closing price on the Vienna Stock Exchange on the ten stock exchange trading days preceding the repurchase. The Managing Board may choose to make the purchase on the stock exchange, through a public offer or in any other legally permissible and expedient manner. If the repurchase is performed via a public offer, the end of the calculation period is determined based on the date on which the intention to make a public offer is announced (§ 5 (2) and (3) of the Austrian Takeover Act (Übernahmegesetz)).

The General Meeting of 21 May 2021 authorised the Managing Board for a period of five years from the date of the resolution to use own shares, while excluding shareholder pre-emption rights,

- for servicing convertible bonds issued based on the resolution adopted by the General Meeting of 21 May 2021; and
- for sales in a manner permitted by law other than via the stock market or by means of a public offer. The written report on the reasons for exclusion of shareholder pre-emption rights was submitted to the General Meeting.

The Managing Board has not made use of these authorisations to date. The Group held none of its own shares on the balance sheet date.

8.2. Capital reserves – hybrid capital

| Issue date | Outstanding volume in EUR '000 | Maturity in years | Interest in % | Fair value in EUR '000 |
|------------|-----------------------------------|----------------------|------------------------------------------------------|---------------------------|
| 10.6.2021 | 300,000 | unlimited | First 10 years: 3.2125% p.a.; thereafter variable | 193,830 |

On 15 March 2021, VIG Holding placed a hybrid capital bond with its principal shareholder, Wiener Städtische Versicherungsverein, during a private placement. The hybrid capital satisfies the equity capital criteria of IAS 32.16C and .16D, since the issuer can freely decide about the interest payment and the bond does not have a fixed term. It also satisfies the Solvency II requirements for restricted tier 1 instruments and qualifies as capital based on the requirements of the S&P rating agency.

8.3. Other reserves

|-----------------------------------------|-----------|-------------|
| in EUR | | |
| Ordinary shares | 1.25 | 160,000,000 |

8.5. Proposed appropriation of profits

VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe (VIG Holding) ended financial year 2022 with a net retained profit of EUR 370,431,503.00. The following appropriation of profits will be proposed in the Annual General Meeting:

The 128 million shares shall receive a dividend of EUR 1.30 per share. The payment date for this dividend will be 1 June 2023, the record date 31 May 2023, and the ex-dividend date 30 May 2023.

A total of EUR 166,400,000.00 will therefore be distributed. The net retained profit of EUR 204,031,503.00 remaining for financial year 2022 after distribution of the dividend is to be carried forward.

9. SUBORDINATED LIABILITIES

Subordinated liabilities of the Group

| Total | | 1,746,366 | | | 1,650,128 |

¹ The right to ordinary and extraordinary cancellation by the holder is excluded. Regular cancellation by the issuer is first allowed effective 9 October 2023.

² The right to ordinary and extraordinary cancellation by the holder is excluded. Regular cancellation by the issuer is first allowed effective 2 March 2026.

³ The right to ordinary and extraordinary cancellation by the holder is excluded. Regular cancellation by the issuer is first allowed after 10 years.

⁴ The right to ordinary and extraordinary cancellation by the holder is excluded. Regular cancellation by the issuer is first allowed after 10 years.

⁵ Due to the call, the supplementary capital will be repaid in full in 2025.

⁶ Due to the call, the supplementary capital will be repaid in full in 2025.

⁷ This can only be cancelled subject to not less than 5 years' notice, unless Austrian insurance regulators agree to repayment being made early. Due to cancellations, EUR 8,250,000 will be repaid starting with 2025.

⁸ This can only be cancelled subject to not less than 5 years' notice, unless Austrian insurance regulators agree to repayment being made early. Due to cancellations, EUR 16,100,000 will be repaid starting with 2024.

⁹ This can only be cancelled subject to not less than 5 years' notice, unless Austrian insurance regulators agree to repayment being made early. Due to cancellations, EUR 19,110,000 will be repaid between 2023 and 2024.

¹⁰ This can only be cancelled subject to not less than 5 years' notice, unless Austrian insurance regulators agree to repayment being made early. Due to cancellations, EUR 34,700,000 will be repaid starting with 2024.

¹¹ The right to ordinary and extraordinary cancellation by the holder is excluded. No provision has been made for regular cancellation by the issuer.

¹² Due to the call, the supplementary capital will be repaid in full in 2024.

VIG Holding subordinated liabilities

Interest on supplementary capital bonds is only paid out to the extent that the interest is covered by the company's national annual profit. The interest is, however, always included as an expense.

On 9 October 2013 the Company issued a subordinated bond with a total nominal value of EUR 500,000,000.00 and a term of 30 years. VIG Holding can call the bond in full for the first time on 9 October 2023 and on each following coupon date. The subordinated bond bears interest at a fixed rate of 5.50% p.a. during the first ten years of its term and variable interest after that. The subordinate bond satisfies the tier 2 requirements of Solvency II. The bonds are traded on the Vienna Stock Exchange. On 15 June 2022, an early partial repurchase of the subordinated bonds issued on 9 October 2013 was performed. Approximately 43% (EUR 215.6 million) got repurchased. EUR 284.4 million in bonds still outstanding continue to be reported under subordinated liabilities.

The Company issued a subordinated bond with a total nominal value of EUR 400,000,000.00 and a term of 31 years on 2 March 2015. VIG Holding can call the bond in full for the first time on 2 March 2026 and on each following coupon date. The subordinated bond bears interest at a fixed rate of 3.75% p.a. during the first eleven years of its term and variable interest after that. The subordinate bond satisfies the tier 2 requirements of Solvency II. The bond is listed on the Luxembourg Stock Exchange.

A EUR 200,000,000.00 subordinated bond was privately placed. The subordinated bond has a term of 30 years and VIG Holding can call it for the first time after 10 years. It satisfies the tier 2 requirements of Solvency II and qualifies as capital based on the requirements of the S&P rating agency. The subordinated bond bears interest at a fixed rate of 3.75 % p.a. during the first ten years of its term and variable interest after that. Inclusion for trading in the Third Market of the Vienna Stock Exchange took place on 13 April 2017.

A tier 2 subordinated bond with a total nominal value of EUR 500,000,000.00 was placed on 15 June 2022. The subordinated bond has a term of 20 years and VIG Holding can call it for the first time after 10 years. The bond bears initial interest at a fixed rate of 4.875% p.a. and will pay variable interest from 15 June 2032 (including), unless called and repurchased before this date. The bonds are traded on the Vienna Stock Exchange.

10. UNDERWRITING PROVISIONS

| Composition | 31.12.2022 | 31.12.2021 |
|-------------------------------------------------------------------------------|-------------------|-------------------|
| in EUR '000 | | |
| Provision for unearned premiums | 2,232,406 | 1,863,198 |
| Mathematical reserve | 21,484,398 | 21,937,030 |
| Guaranteed policy benefits | 20,947,713 | 20,616,136 |
| Allocated and committed profit shares | 536,685 | 647,359 |
| Deferred mathematical reserve | 0 | 673,535 |
| Provision for outstanding claims | 7,984,212 | 7,082,488 |
| Provision for premium refunds | 224,450 | 1,599,710 |
| Profit-related premium refunds | 414,143 | 305,586 |
| Profit-unrelated premium-refunds | 89,824 | 87,560 |
| Deferred profit participation recognised through profit and loss ¹ | 396,541 | 438,495 |
| Deferred profit participation recognised directly in equity ^{1 or 2} | -676,058 | 768,069 |
| Other underwriting provisions | 62,404 | 63,801 |
| Total | 31,987,870 | 32,546,227 |

¹ The deferred profit participation is solely due to the profit-related premium refunds.

² Due to the missing coverage in the undisclosed profit commissions in the profit participation pursuant to the Austrian Insurance Supervision Act (Versicherungsaufsichtsgesetz – VAG), EUR 302,492,000 were not recognised.

Additional information for the Austrian companies

The plan assets consist of the following:

| Structure of financial investments in the mathematical reserve for occupational group insurance | 31.12.2022 | 31.12.2021 |
|-------------------------------------------------------------------------------------------------|---------------|---------------|
| in % | | |
| Wiener Städtische and VIG Holding | 100.00 | 100.00 |
| Fixed-interest securities | 95.46 | 92.93 |
| Loans | 1.40 | 1.47 |
| Bank deposits | 1.37 | 3.74 |
| Shares, supplementary capital, profit participation rights, participation capital | 1.77 | 1.86 |
| Donau Versicherung | 100.00 | 100.00 |
| Fixed-interest securities | 97.04 | 99.92 |
| Bank deposits | 2.96 | 0.08 |

The asset allocation of the actuarial reserve for occupational group insurance is structured according to the maturity of the liabilities. Pension contributions are expected to be EUR 22,110,000 in financial year 2023 (ACTUAL in 2022: EUR 10,344,000 incl. transfers).

14. CONTINGENT LIABILITIES AND RECEIVABLES

Litigation relating to coverage

In their capacity as insurance companies, the Group companies are involved in a number of court proceedings as defendants or have been threatened with litigation. In addition, there are proceedings, in which the Group companies are not involved as parties, but may be affected by the outcome of such lawsuits due to agreements with other insurers concerning participation in claims. In the opinion of the Group, adequate provisions proportionate to the amount in dispute have been established for all claims in accordance with the law.

| Off-balance sheet claims | 31.12.2022 | 31.12.2021 |
|--------------------------|------------|------------|
| in EUR '000 | | |
| Contingent receivables | 9,082 | 314 |

The increase in contingent receivables is due to a bank guarantee granted.

| Off-balance sheet commitments | 31.12.2022 | 31.12.2021 |
|-------------------------------------|------------|------------|
| in EUR '000 | | |
| Liabilities and assumed liabilities | 0 | 750 |

*Including held for trading

Interest expenses and other expenses result from items on the liabilities side of the balance sheet or from business operations and therefore cannot be directly allocated to an investment class.

17. RESULT FROM SHARES IN AT EQUITY CONSOLIDATED COMPANIES

| Composition | 2022 | 2021 |
|----------------|---------------|---------------|
| in EUR '000 | | |
| Income | 18,287 | 24,872 |
| Current result | 18,287 | 24,872 |

18. OTHER INCOME AND EXPENSES

| Composition | 2022 | 2021 |
|-----------------------|----------------|----------------|
| in EUR '000 | | |
| Other income | 185,859 | 165,789 |
| Underwriting | 94,328 | 100,649 |
| Non-underwriting | 91,531 | 65,140 |
| Other expenses | 421,480 | 317,902 |
| Underwriting | 325,108 | 219,804 |
| Non-underwriting | 96,372 | 98,098 |

| Details of other expenses | 2022 | 2021 |
|--------------------------------------------------------------------------|----------------|----------------|
| in EUR '000 | | |
| Other expenses | 421,480 | 317,902 |
| thereof creation of allowances for receivables and receivable write-offs | 61,586 | 39,858 |
| thereof write-downs of insurance portfolio and customer base | 30,210 | 8,677 |
| thereof brokering expenses | 2,205 | 2,037 |
| thereof underwriting taxes | 120,289 | 48,754 |
| thereof exchange rate losses | 47,277 | 43,997 |
| thereof expenses related to leases | 27,688 | 28,584 |
| thereof other contributions and fees | 19,023 | 14,191 |
| thereof expenses for government-imposed contributions | 27,216 | 27,038 |
| thereof creation of other provisions | 18,256 | 30,575 |

The increase in underwriting taxes is predominantly due to the additional insurance tax in Hungary. Details are listed on page 83.

19. EXPENSES FOR CLAIMS AND INSURANCE BENEFITS – RETENTION

All payments to policyholders arising from loss events, claims settlement expenses directly related to loss events, and internal costs attributable to claims settlement under the allocation according to origin principle, are shown as expenses for claims and insurance benefits. Expenses for loss prevention are also reported in this item. Expenses for claims and insurance benefits are reduced by the income gained from using existing contractual and statutory avenues of recourse (this applies in particular to property and casualty insurance). Changes in the underwriting provisions are also reported in expenses for claims and insurance benefits.

| Composition | 2022 | 2021 |
|-----------------------------------------------------------------------|-------------------|------------------|
| in EUR '000 | | |
| Expenses for claims and insurance benefits – gross | 8,951,798 | 8,081,691 |
| Payments for claims and insurance benefits | 8,701,691 | 7,754,860 |
| Changes in the provision for outstanding claims | 847,376 | 712,195 |
| Change in mathematical reserve | -824,453 | -537,988 |
| Change in other underwriting provisions | -1,560 | 3,012 |
| Expenses for profit-related and profit-unrelated premium refunds | 228,744 | 149,612 |
| Expenses for claims and insurance benefits – reinsurers' share | -1,039,762 | -945,130 |
| Payments for claims and insurance benefits | -661,135 | -545,920 |
| Changes in the provision for outstanding claims | -351,738 | -373,713 |
| Change in mathematical reserve | -14 | -520 |
| Change in other underwriting provisions | 681 | 1,763 |
| Expenses for profit-unrelated premium refunds | -27,556 | -26,740 |
| Expenses for claims and insurance benefits – retention | 7,912,036 | 7,136,561 |
| Payments for claims and insurance benefits | 8,040,556 | 7,208,940 |
| Changes in the provision for outstanding claims | 495,638 | 338,482 |
| Change in mathematical reserve | -824,467 | -538,508 |
| Change in other underwriting provisions | -879 | 4,775 |
| Expenses for profit-related and profit-unrelated premium refunds | 201,188 | 122,872 |

20. ACQUISITION AND ADMINISTRATIVE EXPENSES

The acquisition and administrative expenses item is broken down into acquisition expenses, administrative expenses less reinsurance commissions and profit commissions for reinsurance cessions. It therefore includes VIG Insurance Group personnel and materials expenses allocated according to the origin principle.

| Composition | 2022 | 2021 |
|--------------------------------|------------------|------------------|
| in EUR '000 | | |
| Acquisition expenses | 2,560,636 | 2,211,125 |
| Commission expenses* | 1,861,517 | 1,573,075 |
| Pro rata personnel expenses | 417,303 | 377,940 |
| Pro rata material expenses | 281,816 | 260,110 |
| Administrative expenses | 578,992 | 510,949 |
| Pro rata personnel expenses | 272,535 | 237,997 |
| Pro rata material expenses | 306,457 | 272,952 |
| Reinsurance commissions | -209,163 | -185,246 |
| Total | 2,930,465 | 2,536,828 |

*Includes commissions of EUR 1,802,169,000 (EUR 1,481,503,000) for direct insurance business

21. TAXES

| Composition | 2022 | 2021 |
|-------------------------------------------------------------------------------|----------------|-----------------|
| in EUR '000 | | |
| Actual taxes | 88,538 | 270,566 |
| from the current period | 78,616 | 263,908 |
| from previous periods | 9,922 | 6,658 |
| Deferred taxes | 9,593 | -147,227 |
| Change of deferred taxes in the current year | 10,621 | -131,532 |
| Deferred taxes due to temporary differences relating to other periods | 206 | -12,467 |
| Deferred taxes due to loss carry forwards relating to other periods | -1,234 | -3,228 |
| Total | 98,131 | 123,339 |
| Reconciliation | 2022 | 2021 |
| in EUR '000 | | |
| Expected tax rate in % | 25.0% | 25.0% |
| Result before taxes | 562,422 | 511,333 |
| Expected tax expenses | 140,606 | 127,833 |
| Adjusted for tax effects due to: | | |
| Different local tax rate | -28,412 | -41,668 |
| Change of tax rates | -2,788 | 476 |
| Non-deductible expenses | 95,793 | 110,625 |
| Income not subject to tax | -97,196 | -93,774 |
| Taxes from previous years | 8,894 | -9,037 |
| Non-recognition/reduction of deferred tax assets due to temporary differences | 5,675 | 1,936 |
| Non-recognition/reduction of deferred tax assets due to loss carry forwards | 5,160 | 3,355 |
| Effects due to group taxation/profit transfers | 458 | 3,859 |
| Tax effects due to deferred profit participation | -44,208 | 9,421 |
| Others | 14,149 | 10,313 |
| Effective tax expenses | 98,131 | 123,339 |
| Effective tax rate in % | 17.4% | 24.1% |

The income tax rate of the parent company is used as the group tax rate.

The non-deductible expenses consist primarily of depreciation and the income not subject to tax is mainly the result of appreciation, dividends and interest received.

22. EARNINGS PER SHARE

| Earnings per share | | 2022 | 2021 |
|-------------------------------------------------------------|-----------------|----------------|----------------|
| Result for the period | EUR '000 | 464,291 | 387,994 |
| Non-controlling interests in net result for the period | EUR '000 | 1,650 | -12,264 |
| Result for the period less non-controlling interests | EUR '000 | 465,941 | 375,730 |
| Interest expenses for hybrid capital | EUR '000 | 7,469 | 0 |
| Attributable result | EUR '000 | 458,472 | 375,730 |
| Number of shares at closing date | units | 128,000,000 | 128,000,000 |
| Earnings per share* | EUR | 3.58 | 2.94 |

*The calculation of these figures considers the interest expenses for hybrid capital. The undiluted earnings per share equals the diluted earnings per share.

NOTES TO THE CONSOLIDATED CASH FLOW STATEMENT

Information on the nature and extent of risks arising from financial instruments is provided in the Financial instruments and risk management section on page 99.

| Property (fair values) | 31.12.2022 | 31.12.2021 |
|-------------------------------------|------------------|------------------|
| in EUR '000 | | |
| Owner-occupied property | 859,874 | 815,469 |
| evaluated by an independent expert | 394,979 | 348,034 |
| evaluated by an internal expert | 464,895 | 467,435 |
| Investment property | 4,265,182 | 3,866,630 |
| evaluated by an independent expert* | 1,017,714 | 916,684 |
| evaluated by an internal expert | 3,247,468 | 2,949,946 |

*This corresponds to 23.86% (23.71%) of the fair value of investment property.

Measurement process

The measurement process aims to determine the fair value of financial assets using price quotations that are publicly available in active markets or valuations based on recognised economic models using observable inputs. If public price quotations and observable market data are not available for an investment, the investment is generally measured using valuation reports prepared by appraisers (e.g. expert reports). The organisational units responsible for appraisal of investments are independent of the units that assume the risk exposure of the investments, thereby ensuring separation of functions and responsibilities.

As a rule, the aim is to use the same price within VIG Insurance Group to value a particular security on each valuation date. In practice, however, situations occur when the cost of process compliance would be inappropriate. For example, the local provisions in some countries in which VIG Insurance Group operates require the insurance companies there to use prices on the local stock exchange to value certain investments. In this case, if the same security is held by other companies in VIG Insurance Group, these companies might use another price source for valuation.

Institutional funds are another example where uniform valuation can only be achieved at an inordinately high cost. The Austrian companies hold varying amounts of institutional funds that are required under the IFRS to be included in the consolidated financial statements. However, the valuation logic of an institutional fund requires the fund value (NAV) on a particular date to be calculated using the (in general, closing) prices on the previous day. In this case, a security that is both held in an institutional fund and directly held will be valued using different prices.

The following items are measured at fair value:

- Financial assets available for sale,
- Financial assets recognised at fair value through profit and loss (incl. held for trading),
- Derivative financial instruments (assets/liabilities), and
- Financial instruments for unit- and index-linked life insurance.

Balance sheet items that are not reported at fair value are subject to a non-recurring measurement at fair value. These items are measured at fair value when events occur that indicate that the book value might no longer be recoverable (impairment).

The following items are not reported at fair value:

- Financial assets held to maturity,
- Shares in at equity consolidated companies,
- Property (owner-occupied and investment property),
- Loans, and
- Receivables.

REAL ESTATE VALUATION

The capitalised earnings method and discounted cash flow method are the main valuation methods used in VIG Insurance Group to calculate the fair value of properties.

Each time valuation is performed, the methods are verified which allow the fair value of a property to be calculated. VIG Insurance Group mainly uses the capitalised earnings method. In rare cases, a discounted cash flow method is also used, provided it can be used to determine the highest and best use value for the property type.

Capitalised earnings method

In this method, the value of a property is determined by using an appropriate interest rate to capitalise expected or received future gross profits over the expected useful life. The net operating income is calculated by deducting actual operating, maintenance and administrative expenses (management expenses). An allowance for lost rental income and any liquidation proceeds and costs are also taken into account. The rate used to calculate capitalised earnings is based on the achievable return on investment. Net operating income minus the return on the land is capitalised at this rate over the remaining useful life to calculate the capitalised earnings value of the structural facility. This is added to the land value to calculate the total capitalised earnings value of the property.

Discounted cash flow method

The discounted cash flow method is a valuation method that discounts cash flows during the forecast phase (phase I) back to the valuation date. Discounting is performed using a rate for a comparable risky investment with property- and market-specific premiums. The gross profit for the year plus vacancy rental (at current market rent) minus non-allocable management costs equals the net operating income for the year. The method allows precise analysis of the individual years of the initial forecast phase so that investments and vacancies can be assigned to individual years and accounted for in advance. In phase II, the proceeds from a fictitious disposal at the end of the forecast phase (max. 10 years) are calculated by capitalising future cash flows. The rate used for this calculation is the rate for a comparably risky investment plus market- and property-specific premiums, less the expected increase in value.

OTHER DISCLOSURES ABOUT THE VALUATION PROCESS

The use of different pricing models and assumptions can lead to differing results for fair value. Changes in the estimates and assumptions used to determine the fair value of assets in cases where no market price quotations are available may necessitate a write-up or write-down of the book value of the assets in question and the recognition of the corresponding income or expense in the income statement.

Certain investments whose fair value is normally not repeatedly measured are measured once at fair value when events or changes in circumstances indicate that the book value might no longer be recoverable. If financial assets are measured at

fair value when impairment is recognised or fair value minus selling costs is used as a measurement basis in accordance with IFRS 5, a disclosure to this effect is included in Note 16. Financial result excl. result from shares in at equity consolidated companies starting on page 154 or Note 18. Other income and expenses on page 157.

Measurement hierarchy – Financial instruments recognised at fair value

| Measurement hierarchy | 31.12.2022 | | | 31.12.2021 | | |
|-----------------------------------------------------------------|------------|-----------|---------|------------|-----------|---------|
| Financial instruments recognised at fair value | Level 1 | Level 2 | Level 3 | Level 1 | Level 2 | Level 3 |
| in EUR '000 | | | | | | |
| Financial assets | | | | | | |
| Financial assets available for sale | 18,847,253 | 3,264,597 | 803,822 | 21,260,626 | 3,829,911 | 758,532 |
| Bonds | 16,932,167 | 3,212,277 | 268,747 | 18,334,752 | 3,721,353 | 249,107 |
| Shares and other participations | 292,941 | 7,779 | 312,416 | 425,500 | 4,427 | 341,006 |
| Investment funds | 1,622,145 | 44,541 | 222,659 | 2,500,374 | 104,131 | 168,419 |
| Financial investments for unit- and index-linked life insurance | 7,164,129 | | | 8,525,331 | | |

The unrealised effect on the result (net profit or loss) from level 3 financial instruments that are still in the portfolio and whose fair value is recognised in profit or loss was EUR -345,000 during the reporting year (EUR -578,000).

Reclassification of financial instruments

The companies in VIG Insurance Group regularly review the validity of the last fair value classification performed on each valuation date. For example, a reclassification is performed, if needed inputs are no longer directly observable in the market.

Reclassifications between Level 1 and 2 primarily occur if liquidity, trading frequency or trading activity of the particular financial instrument once again, or no longer allows one to conclude that an active market exists. For example, the market maker for a security frequently changes, with corresponding changes on the liquidity. A similar example is when shares are included in (or removed from) an index that acts as a benchmark for many funds. In this case, the classification can also change. As a result of the decentralised structure of VIG Insurance Group, the classifications are generally reviewed by the local companies at the end of the period. Any reclassifications are presented as if they had taken place at the end of the period.

| Reclassification financial instruments | 2022 | | | | |
|----------------------------------------|-----------------------------|--------------------|--------------------|--------------------|--------------------|
| | Between Level 1 and Level 2 | Level 3 to Level 1 | Level 1 to Level 3 | Level 3 to Level 2 | Level 2 to Level 3 |
| Number | | | | | |
| Financial assets available for sale | 33 | 1 | 31 | 1 | 11 |

The reclassifications between Level 1 and Level 2 are due to changes in liquidity, trading frequency and trading activity. The reclassification from Level 3 to Level 1 is based on improvements in trading activity. The reclassifications from Level 1 to Level 3 are primarily based on a worsening of the credit quality or liquidity or on a change in liquidity as part of the sanctions against Russia. The reclassifications from Level 2 to Level 3 are primarily related to a worsening of credit quality or liquidity.

Reclassification financial instruments

2021

| | Between Level 1 and Level 2 | Level 3 to Level 1 | Level 1 to Level 3 | Level 3 to Level 2 | Level 2 to Level 3 |
|-------------------------------------|--------------------------------|--------------------|--------------------|--------------------|--------------------|
| Number | | | | | |
| Financial assets available for sale | 65 | 3 | 1 | 4 | 20 |

Unobservable input factors

| Asset class | Measurement methods | Unob-servable input factors | Range | 2022 | | 2021 | |
|-------------------------------------|----------------------------------------------|-------------------------------------|-------------|-------|-------|-------|-------|
| | | | | from | to | from | to |
| Property | Capitalised earnings value | Capitalisation rate | in % | 0.30 | 7.47 | 1.00 | 7.50 |
| | | Rental income | in EUR '000 | 7 | 3,999 | 3 | 3,765 |
| | | Land price | in EUR '000 | 0 | 12 | 0 | 11 |
| | Discounted Cash flow | Capitalisation rate | in % | 3.56 | 8.26 | 3.56 | 8.03 |
| | | Rental income | in EUR '000 | 102 | 5,699 | 96.56 | 6,913 |
| | Building rights – capitalised earnings value | Capitalisation rate | in % | 2.5 | 4 | 2.5 | 4 |
| | | Rental income | in EUR '000 | 83 | 4,378 | 76.75 | 4,377 |
| | | Land prices | in EUR '000 | 0.3 | 0.73 | 0.25 | 0.73 |
| | | Construction interest actually paid | in % | 0.9 | 5.7 | 0.2 | 5.7 |
| Financial assets available for sale | Present value method | Spreads | in % | -0.52 | 11.00 | -0.13 | 4.13 |

Sensitivities

With respect to the value of the share measured using a Level 3 method (multiples approach), VIG Insurance Group assumes that alternative inputs and alternative methods do not lead to significant changes in value.

The spread assumption is the critical factor for the changes in value of Level 3 measured bonds in the “Financial instruments available for sale” category and as a result, the sensitivity to this factor is of particular interest.

The most important bonds measured using a Level 3 method in the “Financial instruments available for sale” category are held by the Austrian and Polish Group companies and show the following sensitivities:

| Financial assets available for sale – bonds | Fair Value |
|-------------------------------------------------|------------|
| in EUR '000 | |
| Fair value at 31.12.2022 | 268,747 |
| Spread +50bp | -3,234 |
| Effect on the statement of comprehensive income | -3,234 |

The following sensitivities result for a part of the portfolio from calculations using the Solvency II partial internal model:

| Property | Fair Value |
|---------------------------|------------|
| in EUR '000 | |
| Fair value at 31.12.2022 | 4,450,470 |
| Rental income -5% | 4,282,453 |
| Rental income +5% | 4,626,321 |
| Capitalisation rate -50bp | 4,758,678 |
| Capitalisation rate +50bp | 4,197,701 |
| Land prices -5% | 4,420,314 |
| Land prices +5% | 4,487,852 |

Since property is measured at cost, negative sensitivities would only affect profit or loss if property value fell below book value. Other comprehensive income is therefore unaffected.

Financial instruments reconciliation

| Development | 2022 | | | 2021 | | |

For information on the effects of changes in value recognised in profit or loss, please refer to Note 16. Financial result excl. result from shares in at equity consolidated companies on page 154.

25. NUMBER OF EMPLOYEES AND PERSONNEL EXPENSES

| Number of employees | 2022 | 2021 |
|-----------------------|--------|--------|
| Number | | |
| Sales representatives | 14,797 | 13,142 |
| Office staff | 14,035 | 12,542 |
| Total | 28,832 | 25,684 |

The employee figures shown are average values based on full-time equivalents.

| Personnel expenses | 2022 | 2021 |
|-----------------------------------------------------------------------|----------------|----------------|
| in EUR '000 | | |
| Wages and salaries | 695,669 | 624,170 |
| Expenses for severance benefits and payments to company pension plans | 7,218 | 8,624 |
| Expenses for retirement provisions | 17,538 | 18,970 |
| Mandatory social security contributions and expenses | 190,522 | 171,955 |
| Other social security expenses | 27,893 | 22,619 |
| Total | 938,840 | 846,338 |
| thereof sales representatives | 411,189 | 378,722 |
| thereof office staff | 527,651 | 467,616 |

26. AUDITING FEES AND AUDITING SERVICES

KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft (KPMG Austria GmbH) was the auditor of these consolidated financial statements. The following expenses were recognised during the financial year for services provided by KPMG Austria GmbH and the Austrian member firms (KPMG Austria-wide):

| Composition | 2022 | | | 2021 |
|----------------------------------------------|-------------------|--------------------|--------------|--------------|
| | KPMG Austria wide | KPMG Austria GmbH* | Total | Total |
| in EUR '000 | | | | |
| Audit of consolidated financial statements | 0 | 745 | 745 | 265 |
| Audit of parent company financial statements | 0 | 62 | 62 | 59 |
| Other audit services | 273 | 718 | 991 | 423 |
| Tax advisory fees | 3 | 0 | 3 | 9 |
| Fees for audit-related services | 40 | 136 | 176 | 608 |
| Total | 316 | 1,661 | 1,977 | 1,364 |

*Reference is made to the decision of the supervisory authority for financial statement auditors dated 14 April 2022 and to the amending decision dated 20 April 2022, which sets out the release of KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft as auditor of VIG from its requirements pursuant to Art. 4 (2) (1) Regulation EU No. 537/2014. The decision was issued in connection with the review of an annual financial statement as of 31 March 2022, which became necessary as a result of a bond issuance, and the associated payments.

27. MEMBERS OF MANAGEMENT IN KEY POSITIONS

Supervisory Board

| | |
|---------------------------------|----------------------------------|
| Chairman | Günter Geyer |
| 1 st Deputy Chairman | Rudolf Ertl |
| 2 nd Deputy Chairman | Robert Lasshofer |
| Members | Martina Dobringer |
| | Zsuzsanna Eifert |
| | Gerhard Fabisch |
| | Peter Mihók |
| | András Kozma (since 20 May 2022) |
| | Heinz Öhler |
| | Georg Riedl (until 20 May 2022) |
| | Gabriele Semmelrock-Werzer |
| | Katarina Slezáková |
| | Gertrude Tumpel-Gugerell |

Managing Board

| | |
|-----------------|-------------------|
| Chairwoman | Elisabeth Stadler |
| Deputy Chairman | Hartwig Löger |
| Members | Liane Hirner |
| | Peter Höfinger |
| | Gerhard Lahner |
| | Gábor Lehel |
| | Harald Riener |
| | Peter Thirring |

Changes during and after the end of the financial year

The VIG Holding Managing Board will have the following members from 1 July 2023: Mr Löger, Chairman of the Managing Board (General Manager), Mr Höfinger, Deputy Chairman of the Managing Board (Deputy General Manager), Ms Hirner, Mr Lahner, Mr Lehel and Mr Riener. All Managing Board terms will expire on 30 June 2027. Ms Stadler and Mr Thirring will, at their own request, not extend their terms on the Managing Board when they expire on 30 June 2023.

¹ The share in equity equals the share in voting rights before non-controlling interests.

Please see the Scope and methods of consolidation section starting on page 89 for information on changes in the scope of consolidation.

The information required under § 265(2) no. 4 of the Austrian Corporation Code (UGB) is provided in the overview of participations in the separate financial statements.

29. RELATED PARTIES

Related parties

Related parties are the affiliated companies, joint ventures and associated companies listed in Note 28. Affiliated companies and participations starting on page 168. In addition, the members of the Managing Board and Supervisory Board of VIG Holding also qualify as related parties. Wiener Städtische Versicherungsverein directly and indirectly holds around 72.47% (around 72.47%), and therefore a majority of the voting rights of VIG Holding. Based on this controlling interest, it and the members of its managing board and supervisory board are therefore also related parties.

Members of the Managing Board and Supervisory Board did not receive any advances or loans and had no loans outstanding during the reporting periods. There were also no guarantees outstanding for members of the Managing Board or Supervisory Board during the reporting periods.

Transactions with related companies

Transactions with non-consolidated affiliated and associated companies mainly relate to financing and charges for services.

Transactions between the fully consolidated companies included in the consolidated financial statements are eliminated during consolidation and are therefore not included in the notes.

Transactions with Wiener Städtische Versicherungsverein

Wiener Städtische Versicherungsverein is the majority shareholder of VIG Holding. It has the legal form of a mutual insurance association that has spun off its insurance operations under the Austrian Insurance Supervision Act (VAG) and consequently has no insurance business operations. Due to the outsourcing to Wiener Städtische Versicherung AG that took place at that time, its only responsibilities are those as a majority shareholder of VIG Holding, so that intercompany charges within VIG Insurance Group are of minor importance. They are based on service agreements between VIG Insurance Group and Wiener Städtische Versicherungsverein for intercompany charges for internal audit services, finance and accounting, provision of personnel and office leases based on the arm's length principle.

| Total | 18,804 | 18,801 |

Remuneration for Managing Board members

Managing Board remuneration takes into account the importance of the Group and the responsibility that goes with it, the economic situation of the Company, and the appropriateness of the remuneration in the market environment.

The variable portion of the remuneration emphasises the need for sustainability and achieving it fully depends critically on an analysis of the sustainable performance of the Company that extends beyond a single reporting year.

The performance-related remuneration is limited. The maximum performance-related remuneration that the Managing Board can receive by achieving the traditional targets in financial year 2022 is around 30% to around 40% of total remuneration. Special bonus remuneration can also be earned for appropriate target achievement, and remuneration for overachievement in certain target areas. In total, the members of the Managing Board can earn variable remuneration equal to a maximum of around 45% to 50% of their total remuneration in this way.

Large parts of performance-related remuneration are only paid after a delay. The delay for financial year 2022 extends to 2026. The deferred portions are awarded based on the sustainable performance of the Group.

The Managing Board is not entitled to performance-related remuneration if performance fails to meet certain thresholds. Even if the targets are fully met in a given financial year, because of the focus on sustainability, the full variable remuneration is only awarded if the Group also achieves sustainable performance in the three following years.

Managing Board remuneration does not include stock options or similar instruments.

Members of the Company's Managing Board who are active as of 31 December 2019 are entitled to funded defined benefit pensions – based, among other things, on the length of service in VIG Insurance Group – equal to a maximum of 40% of the measurement base if they remain in the Managing Board until age 65. The measurement base is equal to their standard fixed remuneration. This pension amount can be increased in individual cases if work continues past the maximum pension age, since a pension is not drawn during this period.

Starting as of 1 January 2020, newly appointed members of the Managing Board can be granted entitlements to defined benefit pensions (alternatively entitlements to defined contribution pensions). As a rule, entitlements require at least one reappointment, and are granted in stages, so that the maximum entitlement of 40% of fixed remuneration cannot be reached until age 65 after at least 10 years of service as a member of the Managing Board. If a member of the Managing Board has previously served in other positions in the Group for at least 5 years, an entitlement can already be granted at the beginning of the term of office.

Pensions are normally received (regardless of the initial appointment date) only if a Managing Board member's position is not extended and the member is not at fault for the lack of extension, or the Managing Board member retires due to illness or age.

The provisions of the Austrian Employee and Employment Provisions Act (Mitarbeiter- und Selbstständigen-Vorsorgegesetz) ("new severance") apply to the contracts of the Managing Board members.

Only the contracts for Managing Board members who have been active in the Group for a long time provide for a severance payment structured in accordance with the provisions of the Austrian Employee Act (Angestelltengesetz), in the version prior to 2003, in combination with applicable industry-specific provisions. This allows these Managing Board members to receive a severance payment equal to two to twelve months' remuneration, depending on the period of service, with a supplement of 50% if the member retires or leaves after a long-term illness. A Managing Board member who leaves by their own choice, without agreement with the Company, before retirement is possible, or leaves due to their own fault, is not entitled to severance payment.

Managing Board members are provided a company car for both business and personal use. The members of the Managing Board received EUR 7,948,000 (EUR 7,243,000) from the Company during the reporting period for their services. The members of the Managing Board received EUR 978,000 (EUR 774,000) from subsidiaries during the reporting period.

Former members of the Managing Board received EUR 1,075,000 (EUR 1,330,000).

The Managing Board had eight members in the current financial year.

30. LEASES

The interest expenses for leases recognised in the reporting period are shown in Note 16. Financial result excl. result from shares in at equity consolidated companies starting on page 154.

30.1. Lessees

The significant cash outflows for leases from lessees amount to a total of EUR 52,214,000 (EUR 39,989,000).

30.2. Lessors – operating leases

Operational leases for which VIG Insurance Group is the lessor exist primarily in connection with real estate leasing.

| Maturity analysis of undiscounted lease payments | 31.12.2022 | 31.12.2021 |

| Total | 157,411 | 137,587 |

31. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

Earthquake in south-eastern Türkiye and parts of Syria

An earthquake of magnitude 7.8 on the Richter scale occurred in the early morning hours of 6 February 2023, accompanied by numerous aftershocks of up to 7.5 on the Richter scale in subsequent hours. Overall, the earthquakes affected a region with a radius of around 400 kilometres, including the cities of Gaziantep, Adana, Antakya, Kahramanmaraş, Malatya, Kilis, Osmaniye, Diyarbakır, Adıyaman and Şanlıurfa in Türkiye, and Aleppo, Idlib, Homs and Hama in Syria. Several thousand buildings collapsed, causing thousands of injuries and tens of thousands of deaths. Small tsunami waves were observed on the east coast of Cyprus as a result of the earthquakes, but did not cause any damage, and a tsunami warning was issued in Italy.

VIG offers insurance coverage in this region, primarily through its insurance company RaySigorta in Türkiye, which mainly focuses on the less affected western part of Türkiye. The insurance penetration for the affected area in Türkiye is lower than in the western part of the country and residential buildings are covered by the state TCIP pool. According to preliminary estimates, the Group is expecting a gross loss of approximately EUR 100.0 million (before reinsurance). Currently, net loss cannot be estimated, but VIG has concluded reinsurance programmes for natural disasters.

ADDITIONAL DISCLOSURES IN ACCORDANCE WITH THE AUSTRIAN INSURANCE SUPERVISION ACT (VAG)

CHANGE TO THE PEPP IMPLEMENTATION ACT

On 10 June 2022, changes to the PEPP Implementation Act were published in the Austrian Federal Law Gazette. This also includes changes to the Austrian Insurance Supervision Act 2016 (VAG). Insurance companies that publish consolidated financial statements in accordance with the IFRS are, as of the effective date, no longer required to include the disclosures in accordance with § 138 (8) VAG in the IFRS consolidated financial statements. Entry into force is set as 1 January 2023, meaning that the initial application is expected for financial years beginning after 31 December 2022.

PROFIT PARTICIPATION IN AUSTRIA

Life insurance

Under the FMA regulation of 6 October 2015 on profit participation in the life insurance sector (LV-GBV), the expenses for profit-related premium refunds and policyholder profit participation plus any direct credits must be at least 85% of the measurement basis.

| Measurement basis within the meaning of § 4 (1) LV-GBV | 2022 | 2021 |
|-------------------------------------------------------------|---------------|---------------|
| in EUR '000 | | |
| Net earned premiums – retention | 742,151 | 750,055 |
| Income and expenses from investments and interest expenses | 271,580 | 295,145 |
| Expenses for claims and insurance benefits – retention | -844,469 | -900,283 |
| Acquisition and administrative expenses | -123,845 | -121,544 |
| Other underwriting and non-underwriting income and expenses | 3,554 | 2,347 |
| Taxes on income | 2,204 | -1,367 |
| Total | 51,175 | 24,353 |

Health insurance

According to § 1 of the FMA regulation on profit participation in the health insurance sector (KV-GBV) of 15 October 2015, the regulation is applicable to policies whose actuarial bases were submitted after 30 June 2007 and whose terms provide for profit participation. The expenses for profit-related premium refunds plus any direct credits have to be at least 85% of the measurement basis for the health insurance policies concerned.

| Measurement basis within the meaning of § 3 (1) KV-GBV | 2022 | 2021 |
|-------------------------------------------------------------|------------|------------|
| in EUR '000 | | |
| Net earned premiums – retention | 8,255 | 8,536 |
| Income and expenses from investments and interest expenses | 834 | 1,037 |
| Expenses for claims and insurance benefits – retention | -7,453 | -7,440 |
| Acquisition and administrative expenses | -1,153 | -1,211 |
| Other underwriting and non-underwriting income and expenses | 14 | 5 |
| Taxes on income | -125 | -196 |
| Total | 372 | 731 |

KEY FIGURES PER BALANCE SHEET UNIT

DECLARATION BY THE MANAGING BOARD

We declare to the best of our knowledge that the consolidated financial statements prepared in accordance with applicable accounting standards give a true and fair view of the Group's net assets, financial position and results of operations, that the Group management report presents the business development, result and position of the Group so as to give a true and fair view of its net assets, financial position and results of operations, and that the Group management report provides a description of the principal risks and uncertainties to which the Group is exposed.

The declaration for the annual financial statements of VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe is issued in the Annual Report of this company.

The consolidated financial statements for financial year 2022 were approved for publication by a resolution of the Managing Board on 20 March 2023.

AUDITOR'S REPORT

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

Audit Opinion

We have audited the consolidated financial statements of

**VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe,
Vienna, Austria,**

and its subsidiaries ("the Group"), which comprise the Consolidated Balance Sheet as of 31 December 2022, the Consolidated Income Statement, the Consolidated Statement of Comprehensive Income, the Consolidated Shareholders' Equity, the Consolidated Cash Flow Statement for the year then ended, and the Notes to the Consolidated Financial Statements.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of 31 December 2022, and its consolidated financial performance and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU, the additional requirements pursuant to Section 245a UGB (Austrian Commercial Code) as well as other legal or regulatory requirements.

Basis for our Opinion

We conducted our audit in accordance with the EU Regulation 537/2014 ("AP Regulation") and Austrian Standards on Auditing. These standards require the audit to be conducted in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the "Auditor's Responsibilities" section of our report. We are independent of the audited Group in accordance with Austrian company law and professional regulations, and we have fulfilled our other responsibilities under those relevant ethical requirements. We believe that the audit evidence we have obtained up to the date of the auditor's report is sufficient and appropriate to provide a basis for our audit opinion on this date.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, however, we do not provide a separate opinion thereon.

We have identified the following key audit matters:

- Recoverability of goodwill
- Liability Adequacy Test – "LAT"
- Purchase price allocation – Aegon transaction

RECOVERABILITY OF GOODWILL

Refer to notes 1.1. Goodwill on page 126, Impairment of goodwill on page 73 and Intangible Assets (A) on pages 75ff.

Risk for the Consolidated Financial Statements

The recoverability of goodwill recognized in the Consolidated Financial Statements of the Vienna Insurance Group amounting to EUR 1.438,7 million, is monitored separately at country level. At least once a year and in case of a triggering

event on an ad hoc basis Vienna Insurance Group performs a recoverability test (the so-called impairment test) of the recorded goodwill amounts.

The impairment test of goodwill is complex and based on a number of estimates and discretionary factors. Those factors include in particular the expected future cash flows of the individual countries, which are primarily based on past experience as well as on the management's assessment of the expected market environment and the future business development. Other factors are the assumed long-term growth rate as well as the underlying region-specific costs of capital.

Our Response

We have carried out the following main audit procedures in connection with the recoverability of goodwill:

- We have assessed the appropriateness of key assumptions, of discretionary decisions and of the valuation method applied for the impairment testing.
- We have reconciled the expected future cash flows used in the calculation with the strategic business planning approved by the management. We used analytical procedures to verify the plausibility of the detailed planning for future years.
- Furthermore, we have dealt with the key planning assumptions and reconciled the assumptions regarding the market development with general and sector-specific market expectations.
- We have analysed the consistency of planning data using information from prior periods.
- Given that minor changes in the applied cost of capital rate significantly impact the recoverable amount of the cash generating units, we have, together with our valuation specialists, assessed the determination of the applied cost of capital rate and comprehended the derivation of the underlying parameters.
- By means of our own sensitivity analysis we have determined whether the tested book values are still sufficiently covered by the recoverable amounts in case of possible changes in the assumptions within a realistic range.
- Additionally, we have assessed whether the disclosures in the notes with respect to the recoverability of goodwill are appropriate.

LIABILITY ADEQUACY TEST – “LAT”

Refer to notes Technical provisions on pages 84ff and Sensitivity analyses of embedded values for life and health on pages 118ff.

Risk for the Consolidated Financial Statements

With life and health insurance, Vienna Insurance Group holds a significant number of long-term contracts for which premiums have been calculated using a high discount rate. As these interest rates are also used to measure the liabilities from insurance contracts, there is – due to the persistently low interest rates in the market – a risk that the insurance liabilities are not adequately measured.

At each balance sheet date Vienna Insurance Group uses current estimates of future cash flows from insurance contracts to determine whether the insurance liabilities are adequately accounted for in the balance sheet.

To ensure this, future cash flows from existing policies are calculated on a best estimate basis using actuarial methods. For life and health insurance the cash flow model used for this purpose is also used to calculate the Market Consistent Embedded Value (“MCEV”). The MCEV is determined according to the “Market Consistent Embedded Value Principles” published by the CFO Forum in June 2008 and last amended in April 2016.

The performance of the liability adequacy test is complex, and its underlying assumptions are based on a large number of estimates and discretionary factors.

Our Response

We involved our actuarial specialist as part of the audit team and carried out the following main audit procedures in connection with the liability adequacy test:

- We have examined the appropriateness of key assumptions and discretionary decisions as well as the calculation models and methods applied.
- In order to assess the appropriateness of the assumptions and methods used, we gained an understanding of the methodology in discussions with the actuaries of Vienna Insurance Group and analysed the assumptions used as well as the resulting cash flows.
- In particular, we assessed whether the applied methodology was consistent with the “Market Consistent Embedded Value Principles” published by the CFO Forum in June 2008 and last amended in April 2016.
- In addition, we assessed the appropriateness of the implementation of the methodology within the models, analysed the consistency of assumptions used on the basis of information from prior periods, and examined the completeness of the modeled portfolio.
- Furthermore, we critically dealt with the sensitivity analysis prepared by the company.

PURCHASE PRICE ALLOCATION – AEGON TRANSACTION

Refer to notes Change in consolidation scope on pages 90 to 92 and 1.1. Goodwill on page 126.

Risk for the Consolidated Financial Statements

On 29 November 2020, Vienna Insurance Group signed a purchase agreement to acquire companies of the Dutch Aegon N.V. in Hungary, Poland, Romania and Türkiye. The acquisition in Hungary and Türkiye was completed in March and April 2022, respectively. In Poland and Romania the closing has not been completed yet. As part of the purchase price allocation for the transactions already completed, intangible assets of EUR 322.0 million in Hungary and EUR 48.8 million in Türkiye have been identified. The recognition and measurement of the identified acquired assets and assumed liabilities as part of the purchase price allocation are based to a large extent on estimates and judgments.

For the consolidated financial statement, there is a risk that the significant assets acquired, and liabilities assumed may not be fully identified or may be incorrectly measured. In addition, there is a risk that the disclosures in the notes related to the acquisition are not complete and accurate.

Our Response

- We have obtained an understanding of the acquisition transaction by interviewing the management and other employees of the Vienna Insurance Group and by reviewing the relevant contracts. We have reconciled the total purchase price with the underlying contractual agreements.
- Furthermore, we have assessed whether the identification of the acquired assets and assumed liabilities fulfil the requirements of IFRS 3. We have also assessed whether the employed valuation techniques are in accordance with the relevant valuation principles.

- We have examined the appropriateness of key assumptions used in the calculation of the fair values of the acquired assets and assumed liabilities. We involved our valuation specialists in assessing the discount rates used.
- We have performed selected calculations from a risk-oriented perspective to assess the arithmetical accuracy of the identified assets and liabilities.
- In addition, we made sure that the acquisition of the companies was correctly reflected in the consolidated financial statements of the Vienna Insurance Group. In doing so, we also assessed whether the disclosure notes relating to the acquisition are complete and accurate.

Other Information

Management is responsible for other information. Other information is all information provided in the annual report, other than the consolidated financial statements, the group management report and the auditor's report.

Our opinion on the consolidated financial statements does not cover other information and we do not provide any kind of assurance thereon.

In conjunction with our audit, it is our responsibility to read this other information and to assess whether, based on knowledge gained during our audit, it contains any material inconsistencies with the consolidated financial statements or any apparent material misstatement of fact. If we conclude that there is a material misstatement of fact in other information, we must report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Audit Committee for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU, the additional requirements pursuant to Section 245a UGB (Austrian Commercial Code) as well as other legal or regulatory requirements and for such internal controls as management determines are necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The audit committee is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement – whether due to fraud or error – and to issue an auditor's report that includes our audit opinion. Reasonable assurance represents a high level of assurance but provides no guarantee that an audit conducted in accordance with the AP Regulation and Austrian Standards on Auditing (and therefore ISAs), will always detect a material misstatement, if any. Misstatements may result from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these consolidated financial statements.

As part of an audit in accordance with the AP Regulation and Austrian Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit.

Moreover:

- We identify and assess the risks of material misstatement in the consolidated financial statements, whether due to fraud or error, we design and perform audit procedures responsive to those risks and obtain sufficient and appropriate audit evidence to serve as a basis for our audit opinion. The risk of not detecting material misstatements resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or override of internal control.
- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- We conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the respective note in the consolidated financial statements. If such disclosures are not appropriate, we will modify our audit opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- We evaluate the overall presentation, structure, and content of the consolidated financial statements, including the notes, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We obtain sufficient appropriate audit evidence regarding the financial information of the entities and business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.
- We communicate with the audit committee regarding, amongst other matters, the planned scope and timing of our audit as well as significant findings, including any significant deficiencies in internal control that we identify during our audit.
- We communicate to the audit committee that we have complied with the relevant professional requirements in respect of our independence, that we will report any relationships and other events that could reasonably affect our independence and, where appropriate, the related safeguards.
- From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit i.e., key audit matters. We describe these key audit matters in our auditor's report unless laws or other legal regulations preclude public disclosure about the matter or when in very rare cases, we determine that a matter should not be included in our audit report because the negative consequences of doing so would reasonably be expected to outweigh the public benefits of such communication.

REPORT ON OTHER LEGAL REQUIREMENTS

Group Management Report

In accordance with Austrian company law, the group management report is to be audited as to whether it is consistent with the consolidated financial statements and prepared in accordance with legal requirements.

Management is responsible for the preparation of the group management report in accordance with Austrian company law and other legal or regulatory requirements.

We have conducted our audit in accordance with generally accepted standards on the audit of group management reports as applied in Austria.

Opinion

In our opinion, the group management report is consistent with the consolidated financial statements and has been prepared in accordance with legal requirements. The disclosures pursuant to Section 243a UGB (Austrian Commercial Code) are appropriate.

Statement

Based on our knowledge gained in the course of the audit of the consolidated financial statements and our understanding of the Group and its environment, we did not note any material misstatements in the group management report.

Additional Information in accordance with Article 10 AP Regulation

We were elected as auditors at the Annual General Meeting on 21 Mai 2021 and were appointed by the supervisory board on 2 June 2021 to audit the financial statements of the Vienna Insurance Group for the financial year ending on 31 December 2022.

On 20 May 2022 we were elected as auditors for the financial year ending on 31 December 2023 and were appointed by the supervisory board on 13 June 2022 to audit the financial statements.

We have been auditors of the Vienna Insurance Group, without interruption, since the consolidated financial statements of 31 December 2013.

We declare that our opinion expressed in the "Report on the Consolidated Financial Statements" section of our report is consistent with our additional report to the Audit Committee, in accordance with Article 11 AP Regulation.

We declare that we have not provided any prohibited non-audit services (Article 5 Paragraph 1 AP Regulation) and that we have ensured our independence throughout the course of the audit, from the audited Group.

Engagement Partner

The engagement partner is Mr Thomas Smrekar.

¹ Country names in parentheses are added if there is more than one company with the same abbreviated name and it is not clear from the context which one is intended. The context is assumed to be clear, for example, if the name is used in a description of activities taking place within a country.

² Used when referring to the listed individual company.

Acquisition and administrative expenses

The acquisition and administrative expenses item is broken down into acquisition expenses, administrative expenses less reinsurance commissions and profit commissions for reinsurance cessions. Expenses for claims investigation, loss prevention and claims processing (claims handling expenses) and for making insurance payments (settlement costs) are shown in the expenses for claims and insurance benefits item.

Affiliated companies

The parent company and its subsidiaries are considered to be affiliated companies if the parent company is able to exert control over the business policies of the subsidiary. Examples of this are where the parent company can affect variable returns from the subsidiary, a controlling agreement exists or it is possible to appoint the majority of the Members of the Managing Board or other executive bodies of the subsidiary.

Asset and liability management (ALM)

ALM refers to taking both assets and liabilities into account when implementing strategic decisions in order to achieve optimal company results. ALM is therefore needed for determining and managing the risk capital required, matching assets and liabilities (duration, cash flow and income matching) as well as optimising investments and reinsurance.

Austrian Commercial Code (UGB)

The Austrian Commercial Code (UGB) includes commercial law provisions applicable to companies. These include company law, accounting provisions, special civil law provisions and provisions on company-related transactions.

Austrian Insurance Supervision Act (VAG)

The Austrian Insurance Supervision Act (Versicherungsaufsichtsgesetz – VAG) includes provisions governing the organisation and supervision of insurance companies.

Baltic states

The Baltic states consist of the countries Estonia, Latvia and Lithuania.

Business operating result

The business operating result is included as a subtotal in the income statement in order to show the operating financial performance of the Group. The business operating result is a before-tax amount that excludes the impairment of intangible assets and reversal of impairment of intangible assets items and, until financial year 2019, the result from fully consolidated non-profit societies.

Cash flow statement

The cash flow statement presents the changes in cash and cash equivalents during a financial year, broken down into the three areas of ordinary activities, investing activities, and financing activities. The aim is to provide information on the financial strength of the company.

Ceded reinsurance premiums

Share of the premiums that is paid to a reinsurer so that it will cover certain risks.

Central and Eastern Europe (CEE) or CEE markets

The VIG 25 strategic programme distinguishes between CEE markets and special markets in the country portfolio. The 20 CEE markets include: Albania, Austria, Croatia, Bosnia-Herzegovina, Bulgaria, the Czech Republic, Estonia, Hungary, Kosovo, Latvia, Lithuania, Moldova, Montenegro, North Macedonia, Poland, Romania, Serbia, Slovakia, Slovenia and Ukraine. Note that differences may exist between this definition and the definition of CEE used by other companies, financial institutions (e.g. IMF, OECD, WIFO, IHS), etc.

There are branch offices in some countries that are managed by companies assigned to other reportable segments.

Claims incurred but not reported

Losses that are reported in the current financial year but occurred in the previous year. A reserve is formed for these losses each year as at the balance sheet date (= Incurred But Not Reported (IBNR) reserve).

Combined ratio (net)

The combined ratio is calculated as the sum of underwriting income and expenses, net payments for claims and insurance benefits, including the net change in underwriting provisions, and acquisition and administrative expenses, divided by net earned premiums in the property and casualty balance sheet unit.

Consolidation

The financial statements of the parent company and those of the subsidiaries are combined when the consolidated financial statements are prepared. During this process, intragroup equity interests, interim results, receivables and payables and income and expenses are eliminated.

Deposits on assumed and ceded reinsurance business

Deposits on assumed reinsurance business are underwriting claims of the reinsurance company against the direct insurer. When business is ceded, the direct insurer retains a portion of the reinsurer's share of premiums and claims as security. This security portion is shown as a deposit on assumed reinsurance business in the reinsurer's balance sheet. The direct insurer recognises a deposit on ceded reinsurance business in the identical amount.

Derivative financial instruments (derivatives)

Derivatives are financial instruments whose value depends on the price of an underlying asset. Derivatives can be classified systematically according to the nature of the underlying assets (interest rates, share prices, currency rates or commodity prices). Options, futures, forwards and swaps are examples of derivative financial instruments.

Direct business

Insurance business where a direct legal relationship exists between the insurance company and policyholder.

Earnings per share (undiluted/diluted)

The ratio of consolidated profit for the year divided by the average number of shares issued. The diluted earnings per share include convertible securities that have been exercised, or are still available for exercise, in the calculation of the number of shares and profit for the year. The convertible securities consist of convertible bonds and stock options.

Embedded value

The embedded value represents the economic value of the insurance business and is comprised of future profits from the insurance portfolio. Profits from future new business are not included. It therefore corresponds to the distributable profits after taxes and takes into account the risks contained in the business.

Environmental Social Governance (ESG)

ESG stands for the Environment, Social and (responsible) Governance sustainability criteria. The term describes the degree to which a company takes these factors into account, as well as an investment approach that can be used to select potential investments.

Equity method

This method is used to account for shares in associated companies. As a rule, the value recognised corresponds to the Group's proportional share of the equity in these companies or groups of companies. For current valuation, the value recognised is adjusted using a proportional share of changes to equity. The shares in the result for the year are allocated to the Group result and disbursed profit distributions are deducted.

Expenses for claims and insurance benefits

The expenses for claims and insurance benefits item is comprised of the payments for insurance claims, expenses for claims investigation, claims settlement (claims settlement expenses), and claims prevention, and the change in the associated provisions.

Fair value

The value of a financial instrument that is observable in the market or can be calculated using a theoretical pricing model that takes into account factors on which the price depends.

Financial assets available for sale

Available-for-sale financial assets include securities that were not acquired with the intention of being held to maturity, or for short-term trading purposes. They are recognised at fair value as of the balance sheet date. Fluctuations in market value are recognised directly in equity.

Financial assets held to maturity

These financial assets comprise debt securities that are intended to be held to maturity. They are measured initially at acquisition cost and are subsequently measured at amortised cost. In the case of permanent impairment, a write-down is recognised in profit or loss.

Financial result

The financial result consists of income and expenses from investments, interest expenses and other expenses. This includes, for example, income from financial instruments, loans, property and participations, as well as bank interest and expenses incurred in the financial area, such as depreciation of property, write-downs of financial instruments to listed market prices, bank fees or interest expenses for financing.

General Data Protection Regulation (GDPR)

Regulation (EU) 2016/679 on the protection of natural persons with regard to the processing of personal data entered into force on 25 May 2018 and was therefore immediately applicable in the European Union. The GDPR standardises the provisions applicable to the processing of personal data by private-sector companies and public bodies in the entire EU. The main objectives of the GDPR are data security and strengthening the fundamental rights and freedoms of natural persons. The GDPR was implemented in Austria by the Austrian Data Protection Amendment Act of 2018 (Datenschutz-Anpassungsgesetz 2018), which extensively amended the Austrian Data Protection Act of 2000 (Datenschutzgesetz 2000).

Gross domestic product (GDP)

GDP is a measure of the economic output of a country. All goods and services produced or provided within a country (by citizens or foreigners) during a specified period, are evaluated at current prices (market prices) or constant prices (prices in a certain base year). By using a constant price level in the calculations, price increases can be eliminated so that the figures presented over time are independent of inflation. GDP at constant prices is also known as real GDP.

Gross/Net

In insurance terminology, "gross/net" means before or after reinsurance has been deducted ("net" is also used to mean "for own account" or "retention"). In connection with income from participations, the term "net" is used when related expenses have already been deducted from income (e.g. write-offs or losses from disposals). Therefore, (net) income from participations equals the profit or loss from these interests.

Income from investments and interest income

Income from investments and interest income is comprised of income from participations (of which affiliated companies), income from property, income from other investments, write-ups, gains from disposals, and other income and interest income.

Indirect business

Insurance business where the company acts as a reinsurer.

Insurance density

Annual per capita insurance premiums, used as an indicator for the state of development of a country's insurance sector.

Insurance Distribution Directive (IDD)

Directive 2016/97/EU, also referred to as the Insurance Distribution Directive, has been applicable within the European Union since 1 October 2018. The IDD affects all aspects of the insurance business, including the recruiting of insurance distributors entailing training and advanced training, product development, the advisory process including wide-ranging duties to provide information, the distribution of standardised information sheets, the handling of conflicts of interest and compensation.

Insurance supervisory authority

The Austrian insurance supervisory authority is a part of the Austrian Financial Market Authority (FMA) that was established as an independent authority in April 2002. Its supervision extends to private-sector insurance companies with registered offices in Austria.

International Accounting Standards (IAS)

The IAS are international accounting standards – also see International Financial Reporting Standards.

International Financial Reporting Standards (IFRS)

The IFRS are international financial reporting standards. Since 2002, the designation IFRS has stood for the overall framework of all standards adopted by the International Accounting Standards Board (IASB). Standards that were previously adopted, however, are still cited as IAS.

Loss reserve

A reserve for losses that have already been incurred but have not yet been settled. These losses can be divided into two categories: reserves for reported but not yet settled claims ("Reported But Not Settled", "RBNS"), and reserves for claims that have been incurred but have not yet been reported, or the correct amount has not been reported ("Incurred But Not (Enough) Reported", "IBNR", "IBNER").

Market capitalisation (stock market value)

This equals the value of a stock corporation calculated by multiplying the current stock exchange price by the total number of shares issued.

Mathematical reserve

A reserve calculated according to mathematical principles for future insurance payments in the life and health insurance balance sheet units. In the health insurance balance sheet unit, this is also referred to as an ageing reserve.

Net earned premiums

The portion of premiums written that is allocated to the reported financial year.

Non-life

Non-life insurance includes the property and casualty insurance and health insurance segments.

Nordics

Nordics includes the countries of Denmark, Norway, Sweden and Finland. VIG Holding is represented by branches in Denmark, Norway and Sweden. The EU freedom to provide services allows customers to also be served in Finland. Note that differences may exist between this definition and the definition of Nordics or Northern Europe used by other companies, financial institutions (e.g. IMF, OECD, WIFO, IHS), etc.

Operating return on equity (operating RoE)

Operating RoE measures the profitability of the Group by expressing the business operating result as a ratio of the capital employed. This ratio is calculated by dividing the business operating result by the average shareholders' equity. Shareholders' equity adjusted for a provision for unrealised gains and losses is used for this purpose.

Organic growth

Organic growth means the growth of a company resulting from the company's own financial strength. Such growth is therefore not the result of purchasing other companies.

Own Risk and Solvency Assessment (ORSA)

Under Article 45 of Directive 2009/138/EC, every insurance company must perform the Own Risk and Solvency Assessment (ORSA) as part of its risk management system.

Personal insurance

Personal insurance includes all insurance that covers personal risks (such as life insurance, health insurance and accident insurance).

Premium

Agreed fee paid in exchange for assumption of risk by an insurance company.

Premiums written

Direct business premiums written are comprised of set premiums, plus policyholder collateral payments, but not including insurance or fire service taxes, reduced by premiums cancelled during the financial year. In indirect business, the premiums written correspond to the premiums that the ceding insurer has indicated for offset.

Present value

Current value of future cash flows, calculated by discounting the future cash flows with a certain discount rate.

Price-earnings ratio (PE ratio)

A financial ratio for evaluating shares. The PE ratio is the ratio of the share price to the earnings per share in a reference period, or to the expected earnings per share in a future period. If the reference period is defined as one year, the PE ratio is the end-of-year price divided by the earnings per share in that year.

Profit participation

See profit-related premium refunds.

Profit-related premium refunds

The policyholder's profit participation in the profit of the insurance class in question (mandatory for traditional life insurance).

Profit-unrelated premium refunds

Contractually accorded refund of premiums to the policyholder.

Provision for unearned premiums

Unearned premiums are the portion of premiums written that were specified for the period following the balance sheet date and are therefore not included in the income for the reported financial year. These premiums are used to cover obligations arising after the balance sheet date.

Rating

A rating is an evaluation on a scale of the creditworthiness of a debtor (countries, companies, etc.) often carried out by a specialised rating agency. Also see Standard and Poor's.

Reinsurance

Reinsurance is when an insurance company insures a portion of its risk with another insurance company.

Single premium

A single premium is a special type of premium payment for life insurance in which a self-chosen amount is paid as a single premium at the beginning of the policy.

Solvency II

Solvency II is a legal directive applicable in Europe for the capital adequacy of insurance companies. It concerns methods for risk-based management of the overall solvency of insurance companies and also includes qualitative elements (e.g. internal risk management).

Special markets

There is a distinction between special markets that are reportable segments under IFRS 8 and special markets according to the country portfolio for the VIG 25 strategic programme. The ten special markets according to the country portfolio include: Denmark, Germany, Liechtenstein, Italy, Norway, Türkiye, Georgia, Belarus, France and Sweden. The Special Markets reportable segment includes Germany, Georgia, Liechtenstein and Türkiye.

There are branch offices in some countries that are managed by companies assigned to other reportable segments.

Standard & Poor's (S&P)

S&P is an internationally recognised rating agency. It analyses and evaluates companies, countries and bonds, among other things. It uses its own rating scale, which ranges from AAA for the highest category to CC for the lowest when rating the financial strength of insurance companies. The ratings can be modified by adding a plus or minus sign.

Stress test

Stress tests are a special form of scenario analysis. The objective is to arrive at a quantitative assessment of the potential losses incurred by portfolios in the event of extreme market fluctuations.

Underwriter

Underwriters are responsible for evaluating risks in the insurance industry, and have the authority to underwrite risks. They estimate the probability and size of a loss, calculate insurance premiums and establish policy terms.

Underwriting provisions

Underwriting provisions consist of the provision for outstanding claims, mathematical reserve, unearned premiums, provisions for profit-related and profit-unrelated premium refunds, the equalisation provision and other underwriting provisions.

Unit- and index-linked life insurance

Insurance where the investment in financial instruments is made at the policyholder's risk. The financial instruments in this area are valued at fair value, with the underwriting reserves shown at the value of the financial instruments.

Value-at-risk (VaR)

The VaR concept is a procedure used to calculate potential losses arising from changes in the price of a trading position. This loss potential is expressed using a specific confidence

limit (e.g. 98%), and is calculated based on market-related price changes.

Value of new business

The present value of future annual surpluses that can be generated from new policies concluded in the current financial year.

VIG or VIG Insurance Group

As a rule, this term refers to all consolidated VIG (insurance) companies. If a statement refers exclusively to the activities of the Holding, the term VIG Holding is used.

Volatility

Volatility refers to the fluctuations in securities prices, currency prices and interest rates.

Address · Notes · General information

NOTICE

This annual report includes forward-looking statements based on current assumptions and estimates that were made by the management of VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe to the best of its knowledge. Disclosures using the words "expected", "target" or similar formulations are an indication of such forward-looking statements. Forecasts related to the future development of the Company are estimates made on the basis of information available as of the date this report went to press. Actual results may differ from the forecasts if the assumptions underlying the forecast prove to be wrong or if unexpectedly large risks occur.

Calculation differences may arise when rounded amounts and percentages are summed automatically.

The annual report was prepared with great care to ensure that all information is complete and accurate. The possibility of rounding, typesetting or printing errors, however, cannot be ruled out completely.

ADDRESS

VIENNA INSURANCE GROUP AG
Wiener Versicherung Gruppe
Schottenring 30
1010 Vienna

Phone: +43 (0) 50 390 22000

WEBSITE – ONLINE REPORT

The annual report is available in German and English on our Internet website (www.vig.com) under Investor Relations and can also be downloaded in both languages as a PDF file.

Service tip

Online annual report

The VIG Insurance Group website provides an online version of the annual report that is optimised for both the Internet and mobile devices. All sections may be downloaded in PDF form. You can also download the most important tables as Excel files. Other features such as links within the report and a comparison with the previous year create transparency and take you directly to the information being sought. The online version of the report also allows you to perform a full-text search quickly and easily. The search results are presented on an overview page, sorted by relevance. The term being searched for is highlighted in colour on this page and on the page in the report.

In case of doubt, the German version is authoritative

Editorial deadline: 14 March 2023
