abrdn UK Mid-Cap Equity Fund

I Acc

31 August 2026

Objective

To generate growth over the long term (5 years or more) by investing in UK mid-capitalisation equities (company shares).

Performance Target: To achieve a return in excess of the FTSE 250 ex Investment Trusts Index over rolling five year periods (after charges). There is no certainty or promise that the Performance Target will be achieved.
The FTSE 250 ex Investment Trust Index (the "Index") is a representative index of the stock market for the UK mid-sized companies.

Portfolio securities

- The fund will invest at least 60% in equities of UK mid-sized companies.
- UK mid-sized companies are defined as any company of a size similar to those in the Index.
- The fund may also invest in smaller and larger UK companies.
- The fund may also invest in other funds (including those managed by Aberdeen Investments), cash and assets that can be turned into cash quickly.

Performance Data: Share Class I Acc.
Benchmark history: Portfolio constraining benchmark – FTSE 250 ex Investment Trusts
Source: Factset. Basis: Total Return, NAV to NAV, UK Net/Gross Income Reinvested.
On the 2nd June 2025, the fund's performance target changed from aiming to outperform the index by 3% before charges to aiming to achieve a return in excess of the index after charges."Fund (Net)" refers to the actual unit price performance of the shareclass shown; "Fund(Gross)" adds back charges such as the annual management charge to present performance on the same basis as the performance target / performance comparator / portfolio constraining benchmark. These figures do not include the initial charge; if this is paid it will reduce performance from that shown.

Past performance is not a guide to future returns and future returns are not guaranteed.

Key risks

(a) The value of investments and the income from them can fall and investors may get back less than the amount invested.
(b) Equity Risk - The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
(c) Smaller and Mid Cap Risk - The shares of small and mid-cap companies may be less liquid and more volatile than those of larger companies.
(d) Concentration Risk - A concentrated portfolio (whether by number of holdings, geographic location or sector) may be more volatile and less liquid than a diversified one.

Management process

- The management team use their discretion (active management) to maintain a diverse asset mix at sector and company level.
- Their primary focus is on company selection using the management team's quality, growth and momentum approach. It aims to identify companies that show a range of high quality characteristics, have the ability to deliver sustained long term growth and are displaying positive growth in their earnings.
- Due to the active nature of the management process, the fund's performance profile may deviate significantly from that of the Index.
  Please note: The fund's ability to buy and sell smaller and mid-sized companies and the associated costs can be affected during periods of market stress. In certain circumstances investors in the fund may not be able to sell their investment when they want to.

Derivative usage

- Derivatives are linked to the value of other assets. In other words, they derive their price from one or more underlying asset
- Derivative usage in the fund is expected to be very limited. Where derivatives are used, this would mainly be in response to significant inflows into the fund so that in these instances, cash can be invested while maintaining the fund's existing allocations to equities.

To help you understand this fund and for a full explanation of risks and the overall risk profile of this fund and the shareclasses within it, please refer to the Key Investor Information Documents and Prospectus which are available on our website www.aberdeeninvestments.com The Prospectus also contains a glossary of key terms used in this document.

[1]The Historic Yield as at 31/07/2026 reflects distributions declared over the past twelve months as a percentage of the mid-market share price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions.
[2]These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.
[3]The Ongoing Charge Figure (OCF), is the overall cost shown as a percentage of the value of the assets of the fund. It is made up of the Annual Management Charge (AMC) of 0.75% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the fund. The Ongoing Charges figure can help you compare the annual operating expenses of different funds.
