OBJECTIVE AND INVESTMENT POLICY

Objective

To grow both income and capital over a five year period.

Investment policy

What the fund invests in

- 80% to 100% in company shares.
- Up to 20% in bonds, cash and near cash, other transferable securities, other funds (up to 10%) managed by Artemis and third party funds, money market instruments, and derivatives.

Use of derivatives

The fund may use derivatives for efficient portfolio management purposes to:

- reduce risk
- manage the fund efficiently.

Where the fund invests

- Globally

Industries the fund invests in

- Any

Other limitations specific to this fund

- None

Investment strategy

- The fund is actively managed.
- The manager favours companies which exhibit strong levels of free cashflow generation (cash that is left over after a company pays for its operating and capital expenditures which can be returned to investors through dividends and share buybacks) relative to other companies in the market, dividend distribution and dividend growth.
- Detailed financial review of companies and wider economic analysis is also undertaken.

Benchmarks

- MSCI AC World NR
A widely-used indicator of the performance of global stockmarkets, in which the fund invests. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.
- IA Global Equity Income NR
A group of other asset managers' funds that invest in similar asset types as this fund, collated by the Investment Association. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

RISK CONSIDERATIONS

To ensure you understand whether this fund is suitable for you, please read the Key Investor Information which is available, along with the fund's Prospectus, from www.artemisfunds.com or www.fundinfo.com.

The fund is exposed to the following risks:

Market volatility risk	The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.
Currency risk	The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.
Charges from capital risk	Where charges are taken wholly or partly out of a fund's capital, distributable income may be increased at the expense of capital, which may constrain or erode capital growth.
Emerging markets risk	Compared to more established economies, investments in emerging markets may be subject to greater volatility due to differences in generally accepted accounting principles, less governed standards or from economic or political instability. Under certain market conditions assets may be difficult to sell.
Income risk	The payment of income and its level is not guaranteed.
