abrdn Short Dated Global Corporate Bond Tracker Fund

B Accumulation GBP

31 August 2026

Objective

To generate income and some growth over the long term (5 years or more) by tracking the return of the Bloomberg Global Aggregate Corporate 1-5 year Index (Hedged to GBP).
Performance Target: To match the return of the Bloomberg Global Aggregate Corporate 1-5 year Index (Hedged to GBP) (before charges). There is no certainty or promise that the Performance Target will be achieved. The Bloomberg Global Aggregate Corporate 1-5 year Index (Hedged to GBP) (the "Index") is a representative index of the global market for investment grade corporate bonds with maturity of up to 5 years.

Portfolio Securities

- The fund will invest at least 90% in bonds (which are like loans to companies that pay interest) that make up the Index.
- The fund may also invest in other funds (including those managed by Aberdeen Investments), cash and assets that can be turned into cash quickly.

This indicator reflects the volatility of the fund's share price over the last five years. See Key Investor Information Document (KIID) for details.

Key risks

(a) The value of investments and the income from them can fall and investors may get back less than the amount invested
(b) Tracking Error Risk - The fund may not perform fully in-line with the index which it is tracking because of factors which may include transaction costs, timing and holding mismatching, or in the event of extreme market disruption.
(c) Currency Hedged Indices Risk - Due to timing differences, currency hedging applied to the fund may differ to that of the index. This may mean that the fund's performance deviates from that of the index.
(d) Credit Risk - The fund invests in securities which are subject to the risk that the issuer may default on interest or capital payments.

Management process

- The management team aims to replicate performance of the Index in deciding which investments are to be included in the portfolio (passive management) and the number and weightings of investments may vary.
- Due to the nature of the passive management process, the fund's performance deviation from the Index is expected to be minimal.

Derivative usage

- The fund may use derivatives to reduce risk, reduce cost and/or generate additional income or growth consistent with the risk profile of the fund and reduce (hedge) risk related to currency movements on non-sterling bonds.
- Derivatives are linked to the value of other assets. In other words, they derive their price from one or more underlying asset. They can generate returns when the value of these underlying assets rise (long positions) or fall (short positions).
- Derivatives include instruments used to manage expected changes in interest rates, inflation, currencies or creditworthiness of corporations or governments.
