

### Investment Objective

The Unicorn UK Income Fund aims to provide an income by investing in UK companies. UK companies are defined as those which are incorporated or domiciled in the UK, or have a significant part of their operations in the UK.

### Investment Policy/Strategy

The Fund may also invest, at its discretion, in other transferable securities and deposits and cash. The Fund may also enter into certain derivative and forward transactions for hedging purposes.

The Fund invests at least 80% in UK companies which are quoted companies with a bias towards small and medium sized companies (those with a market value of less than £4 billion). Some of the companies in which the Fund invests may be quoted on AIM. AIM is the London Stock Exchange's international market for smaller, growing companies.

### Fund Commentary

The UK Income Fund recorded a total return of +3.0% in May, compared to an average total return of 2.1% from the IA UK Equity Income sector over the same period.

The primary contributor was 4imprint, which added 0.4% to overall Fund performance. 4imprint released a strong trading update during the month, which reported on encouraging trends in trading. Other notable contributors included; Polar Capital, Bodycote, Clipper and LondonMetric, each of which added 0.3% to overall Fund performance.

The principal detractor was Telecom Plus. Telecom Plus's share price drifted in the absence of news flow, costing the Fund 0.4% in overall performance terms.

No changes were made to the portfolio during the month.

Unicorn Asset Management Limited (Unicorn) is an independent, specialist fund management group, established in July 2000.

Unicorn focuses on long term, long only, investment in UK quoted companies and aims to achieve superior absolute returns through the application of traditional, fundamental principles of investment.

All figures within this factsheet have been calculated with reference to 31 May 2021 with exception to the on going charge figure which is based on the annual accounts for the 12 months ended 30 September 2020

- Past performance is not a guide to future performance. The value of investments and the income from them may go down as well as up and investors may not get back the full amount of their original investment
- Unicorn Asset Management do not give out investment advice, we recommend that you contact a financial advisor if you are unsure whether to invest
- Investors should also read the Prospectus and KIID document of the fund before making an investment
- Equities are subject to greater degrees of market risk than other types of investment, such as bonds or money market instruments. You should not invest unless you are prepared to accept a higher degree of risk
- Investing in smaller companies, including AIM companies, can carry greater risks than those usually associated with large capitalisation companies. Smaller companies are likely to be less established and may not have access to the financial resources available to their larger counterparts. The shares of smaller companies are relatively illiquid and under-researched.
- Taxation levels, benefits and reliefs may all vary depending on individual circumstances and are subject to change
- Opinions expressed in this factsheet are subject to change without notice.
- A key objective of the Fund is to provide income, therefore, some or all of the annual management charge is taken from capital rather than income. This can reduce the potential for capital growth.
- Unicorn Asset Management Limited are authorised and regulated by the Financial Conduct Authority.
