Morningstar and its content providers assume no responsibility for any losses or damage that result from any use of the information provided. Past performance is not a guarantee of future results. To determine the Morningstar Rating, funds of a comparable group in issue for at least three years are considered. The long-term performance serves as a basis, taking into account fees and risk. As a result, the funds are awarded stars, which are calculated monthly: Top 10%: 5 stars; next 22.5%: 4 stars; middle 35%: 3 stars; next 22.5%: 2 stars; flop 10%: 1 star. A ranking, rating or award is not an indicator of future performance and is subject to change over time.
- 2) Calculated at the net asset value, excl. front-end load, distributions reinvested. Calculation according to method as defined by BVI, the German Fund Companies Association. **Any front-end loads reduce the capital employed and the performance.** All performance data of Allianz UK Listed Opportunities Fund - C (Acc) - GBP prior to the launch date, 27/03/2014, refer to another share class of the same investment fund, Allianz UK Listed Opportunities Fund, a unit trust is an investment fund organized under the laws of United Kingdom managed by ????, namely Allianz UK Listed Opportunities Fund - A (Acc) - GBP (ISIN GB0031383515) launched on 20/06/2002. This does not imply that Allianz UK Listed Opportunities Fund - C (Acc) - GBP will experience a similar performance in the future. All share classes/investment funds mentioned above are based on the same investment objectives and strategies as well as risk profiles and fee structures. Past performance does not predict future returns
- 3) Benchmark history: until 31/12/2022 FTSE UK Series All Share Total Return Gross (in GBP)
- 4) SFDR: EU Sustainable Finance Disclosure Regulation. Information accurate at time of publishing.
- 5) The stated ongoing charges reflect the total expense ratio (TER) of the Fund. In the event of a new issue, a short financial year or a fee adjustment, the Fund's ongoing charges will be estimated. Ongoing charges may vary from year to year and do not include transaction costs for the purchase or sale of assets for the Fund. In addition, no costs resulting from any performance-related remuneration are included in ongoing charges.
- 6) The Sharpe ratio states the relationship between the return generated by the fund and the investment risk. The fund's excess return versus the risk-free market rate is compared to volatility. Negative values are not meaningful.
- 7) Volatility measures the fluctuation range of the fund's performance over a specified period of time.
- 8) Measure of the proportion of fund assets that is invested differently from the benchmark.
- 9) The dividend yield corresponds to the expected dividend divided by the current price of the share, expressed as a percentage. (eDiv/share price) where: eDiv = product of the last dividend payment and the number of expected dividend payments per year (e.g. the expected dividend for a share with quarterly dividend payment corresponds to the dividend for the last quarter times four). The dividend yield depends both on the amount of the dividend and the current price of the share. Both these key variables may be subject to constant change. The dividend yield is only a snapshot based on the current amount of the dividend and the current share price; **as a result, it is not suitable as an indicator of the future performance of an equity fund.**
- 10) This is for guidance only and not indicative of future allocation.

Disclaimer

Investing involves risk. The value of an investment and the income from it may fall as well as rise and investors might not get back the full amount invested.
