Accumulation Class

- *This indicator shows how much a fund has risen and fallen in the past, and therefore how much a fund's returns have varied. It is a measure of a fund's volatility. The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains.*

- *This indicator is based on historical data and may not be a reliable indication of the future risk profile of this fund.*
- *The risk and reward profile shown is not guaranteed to remain the same and may shift over time. Number 1 on the scale does not mean that a fund is risk free.*

Important Information
