

# abrdn Short Dated Global Inflation-Linked Bond Tracker Fund

B Accumulation GBP

28 February 2026

## Objective

To generate income and some growth over the long term (5 years or more) by tracking the return of the Bloomberg World Government Inflation-Linked 1-10 years Index (Hedged to GBP).

**Performance Target:** To match the return of the Bloomberg World Government Inflation-linked 1-10 years Index (Hedged to GBP) (before charges). There is no certainty or promise that the Performance Target will be achieved. Bloomberg World Government Inflation-Linked Index (Hedged to GBP) (the "Index") is a representative index of the global market for inflation-linked government bonds.

## Portfolio Securities

- The fund will invest at least 90% in government bonds (which are like loans to government that pay interest) that make up the Index.
- The fund may also invest in other funds (including those managed by Aberdeen Investments), cash and assets that can be turned into cash quickly.
- The fund can invest 35% or more in bonds issued by a single government.

## Risk and reward profile

## Key risks

- The value of investments and the income from them can fall and investors may get back less than the amount invested
- Tracking Error Risk - The fund may not perform fully in-line with the index which it is tracking because of factors which may include transaction costs, timing and holding mismatching, or in the event of extreme market disruption.
- Currency Hedged Indices Risk - Due to timing differences, currency hedging applied to the fund may differ to that of the index. This may mean that the fund's performance deviates from that of the index.
- Credit Risk - The fund invests in securities which are subject to the risk that the issuer may default on interest or capital payments.

## Management process

- The management team aims to replicate performance of the Index in deciding which investments are to be included in the portfolio (passive management) and the number and weightings of investments may vary.
- Due to the nature of the passive management process the performance deviation from the Index is expected to be minimal.
