Objective

To generate growth and income over the long term (5 years or more) by investing in UK property-related equities (company shares) including listed closed ended real estate investment trusts ('REITs').

Performance Target: To achieve a return in excess of the FTSE EPRA Nareit UK Index over rolling five year periods (after charges). There is no certainty or promise that the Performance Target will be achieved.
The FTSE EPRA Nareit UK Index (the "Index") is a representative index of the UK property related stock market.

Portfolio securities

- The fund invests in UK property related equities.
- At least 80% of the fund must be invested in UK listed companies, while up to 20% may be invested overseas.
- The fund may also invest in other funds (including those managed by Aberdeen Investments), cash and assets that can be turned into cash quickly.

Key risks

(a) The value of investments and the income from them can fall and investors may get back less than the amount invested.
(b) Equity Risk - The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
(c) Concentration Risk - A concentrated portfolio (whether by number of holdings, geographic location or sector) may be more volatile and less liquid than a diversified one.
(d) Real Estate Investment Trust (REIT) Risk - Dividend payment policies of the REITs in which the fund invests are not representative of the dividend payment policy of the fund.

Management process

- The management team use their discretion (active management) to maintain a concentrated asset mix at sector and stock level.
- Their primary focus is on selecting companies using research techniques to select individual holdings. The research process is focused on finding high quality companies that can be held for the long term through the assessment of their business model, the industry they operate in, their financial strength, and the capability of their management team.
- Due to the active nature of the management process, the fund's performance profile may deviate significantly from that of the Index.

Derivative usage

- Derivatives are linked to the value of other assets. In other words, they derive their price from one or more underlying asset.
- Derivative usage in the fund is expected to be very limited. Where derivatives are used, this would mainly be in response to significant inflows into the fund so that in these instances, cash can be invested while maintaining the fund's existing allocations to equities.

To help you understand this fund and for a full explanation of risks and the overall risk profile of this fund and the shareclasses within it, please refer to the Key Investor Information Documents and Prospectus which are available on our website www.aberdeeninvestments.com The Prospectus also contains a glossary of key terms used in this document.

[1]The Historic Yield as at 30/06/2026 reflects distributions declared over the past twelve months as a percentage of the mid-market share price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions.
[2]These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.
[3]The Ongoing Charge Figure (OCF), is the overall cost shown as a percentage of the value of the assets of the fund. It is made up of the Annual Management Charge (AMC) of 0.68% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the fund. The Ongoing Charges figure can help you compare the annual operating expenses of different funds.

The fund is a sub-fund of abrdn OEIC I, an authorised open-ended investment company (OEIC).
