abrdn Sterling Short Term Government Bond Fund

I Inc

31 July 2026

Objective

To generate income and some growth over the medium to long term (3 to 5 years) by investing in UK Government bonds with a maturity of up to five years.

Performance Target: To achieve a return in excess of the FTSE Actuaries UK Conventional Gilts (1-5 Years) Index over rolling three year periods (after charges). There is no certainty or promise that the Performance Target will be achieved.
The FTSE Actuaries UK Conventional Gilts (1-5 Years) Index (the "Index") is a representative index of the market for UK Government bonds with a maturity of up to 5 years.

Portfolio securities

- The fund invests at least 80% in government bonds (which are like loans to governments that pay interest) issued or guaranteed by the UK Government with a maturity of up to 5 years.
- The fund may also invest in other bonds (including those issued by government-related bodies and corporations) of any maturity, issued anywhere in the world. The fund will employ techniques to reduce (hedge) risk related to currency movements on non-sterling bonds.
- The fund may also invest in other funds (including those managed by Aberdeen Investments), cash and assets that can be turned into cash quickly.

Performance Data: Share Class I Inc.
Benchmark history: Portfolio constraining benchmark – FTSE Actuaries UK Conventional Gilts up to 5 Years
Source: Factset. Basis: Total Return, NAV to NAV, UK Net/Gross Income Reinvested.
On the 2nd June 2025, the fund's performance target changed from aiming to outperform the index by 3% before charges to aiming to achieve a return in excess of the index after charges."Fund (Net)" refers to the actual unit price performance of the shareclass shown; "Fund(Gross)" adds back charges such as the annual management charge to present performance on the same basis as the performance target / performance comparator / portfolio constraining benchmark. These figures do not include the initial charge; if this is paid it will reduce performance from that shown.

Past performance is not a guide to future returns and future returns are not guaranteed.

(d) Derivatives Risk - The use of derivatives may involve additional liquidity, credit and counterparty risks and may lead to substantial loss and increased volatility in adverse market conditions. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.
