

BlackRock Market Advantage Fund

Class D British Pound

UK Retail Funds

Unless otherwise stated, Performance, Portfolio Breakdowns and Net Asset information as at: 30-Nov-2024. All other data as at 09-Dec-2024.

This document is marketing material. For Investors in the UK. Investors should read the KIID/PRIIPs document and prospectus prior to investing, and should refer to the prospectus for the funds full list of risks.

FUND OVERVIEW

- The Fund aims to provide a return on your investment (generated through an increase in the value of the assets held by the Fund and/or income received from those assets) which exceeds 3 month Sterling Overnight Index Average Rate (SONIA) compounded in arrears by 3.5 % per annum (gross of fees) over the medium to long term (3 to 5 consecutive years). Compounding in arrears is a methodology that compounds daily values of the overnight rate throughout the relevant term period (i.e.3 Months).
- The Fund will invest on a global basis in any or all of the following asset classes: equity securities (e.g. shares), fixed income securities (e.g. bonds), permitted money-market instruments (e.g. debt instruments with short-term maturities), permitted deposits, cash, other funds and derivatives (i.e. investments the prices of which are based on one or more underlying assets).
- The above-mentioned asset classes and the extent to which the Fund is invested in these may vary without limit depending on market conditions and other factors at the investment adviser's (IA) discretion.

RISK INDICATOR

Lower Risk

Potentially Lower Rewards

Higher Risk

Potentially Higher Rewards

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Changes to interest rates, credit risk and/or issuer defaults will have a significant impact on the performance of fixed income securities. Non-investment grade fixed income securities can be more sensitive to changes in these risks than higher rated fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
- The Fund uses quantitative models in order to make investment decisions. As market dynamics shift over time, a quantitative model may become less efficient or may even present deficiencies under certain market conditions.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due. If a financial institution is unable to meet its financial obligations, its financial assets may be subject to a write down in value or converted (i.e. "bail-in") by relevant authorities to rescue the institution.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

GLOSSARY

Average Market Cap: The average market capitalization of a fund's equity portfolio gives you a measure of the size of the companies in which the fund invests. Market capitalization is calculated by multiplying the number of a company's shares outstanding by its price per share.

Price to Book Ratio: represents the ratio of the current closing price of the share to the latest quarter's book value per share.

Analyst Driven % is the analyst input into the overall rating assignment, including direct analyst coverage and inheritance of an analyst-rated pillar

Modified Duration: A measure of price sensitivity of a bond to changes in interest rates. The Modified Duration of the fund is calculated as the average of the underlying bonds' modified duration values, adjusted to take account of their relative weight (size) within the fund.

Price to Earnings: A valuation ratio of a company's current share price compared to its per-share earnings in the current forecast year, calculated as current share price divided by current earnings per share.

Data Coverage % is available input data for rating calculation at the Pillar level

IMPORTANT INFORMATION:

The Ongoing Charge may be discounted depending on the size of the fund.

**The Morningstar Medalist Rating™ is the summary expression of Morningstar's forward-looking analysis of investment strategies using a rating scale of Gold, Silver, Bronze, Neutral, and Negative. The ratings indicate which investments Morningstar believes are likely to outperform a relevant index or peer group average on a risk-adjusted basis over time. Analysts assign three pillar ratings (People, Parent and Process) based on their qualitative assessment, subject to the oversight of the Analyst Rating Committee, and monitor and reevaluate them at least every 14 months. For more detailed information about these ratings and methodology, please go to global.morningstar.com/managerdisclosures. The ratings are not statements of fact, nor credit or risk ratings. The rating (i) should not be used as the sole basis in evaluating an investment product, (ii) involves unknown risks which may cause expectations not to occur or to differ from what was expected, (iii) are not guaranteed to be based on complete or accurate assumptions, (iv) involve the risk that the return target will not be met due to unforeseen changes in management, technology, economic development, interest rate development, operating and/or material costs, competitive pressure, supervisory law, exchange and tax rates, and/or changes in political and social conditions, and (v) should not be considered an offer or solicitation to buy or sell the investment product.

In the UK and Non-European Economic Area (EEA) countries: this is issued by BlackRock Investment Management (UK) Limited, authorised and regulated by the Financial Conduct Authority. Registered office: 12 Throgmorton Avenue, London, EC2N 2DL. Tel: + 44 (0)20 7743 3000. Registered in England and Wales No. 02020394. For your protection telephone calls are usually recorded.
