

BNY Mellon Global Equity Fund

Institutional Shares W (Acc.)

PERFORMANCE DISCLOSURE

Past performance is not a guide to future performance. The value of investments and the income received can fall as well as rise and investors may not get back the original amount invested. Please refer to the prospectus, KIID and other fund documents for a full list of risks and before making any investment decisions. Documents are available in English and in selected local languages where the fund is registered. Go to bny.com/investments. Returns may increase or decrease as a result of currency fluctuations.

INVESTMENT MANAGER

Newton Investment Management: Newton seeks to deliver strong outcomes to its clients by taking an active, multidimensional and engaged investment approach, applied across its active equity, income, absolute-return (including fixed-income), multi-asset and thematic strategies, and strategies with sustainability characteristics.

INVESTMENT OBJECTIVE

The Fund aims to achieve capital growth over the long term (5 years or more).

PERFORMANCE BENCHMARK

The Fund will measure its performance against the MSCI AC World NR Index as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of the asset class, sectors and geographical areas in which the Fund predominantly invests.

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the investment weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviated from the Benchmark.

INDEPENDENT RESEARCH RATINGS

Ratings should not be used for making an investment decision and do not constitute a recommendation or advice in the selection of a specific investment or class of investments.

KEY RISKS ASSOCIATED WITH THIS FUND

- The value of investments can fall. Investors may not get back the amount invested. Income from investments may vary and is not guaranteed. Currency Risk: This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- Derivatives Risk: Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- Emerging Markets Risk: Emerging Markets have additional risks due to less-developed market practices. Concentration Risk: A fall in the value of a single investment may have a significant impact on the value of the Fund because it typically invests in a limited number of investments.
- Charges to Capital: The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.
- Counterparty Risk: The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.
- A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".
