Performance for the I Inc unit class in GBP, launched on 26 August 2005. Source: Lipper. Performance assumes all fund charges have been taken and that all income generated by the investments, after deduction of tax, remains in the fund. Please note, the benchmark is priced at the close whereas the fund is priced earlier. This can lead to artificially high tracking difference stated on the factsheet.

INDEX FUND MANAGEMENT TEAM

The Index Fund Management team comprises 25 fund managers, supported by two analysts. Management oversight is provided by the Global Head of Index Funds. The team has average industry experience of 15 years, of which seven years has been at LGIM, and is focused on achieving the equally important objectives of close tracking and maximising returns.

Higher fund constituents vs. index constituents may be due to liquidity positions, derivatives, short term investments and fractional unit differences.

KEY RISKS

- The value of an investment and any income taken from it is not guaranteed and can go down as well as up; you may not get back the amount you originally invested.
- The fund could lose money if any institution providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The fund may have underlying investments that are valued in currencies that are different from sterling (British pounds). Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
- The Fund has a sustainability and/or ESG focus in its investment process which may i) limit the Fund's exposure to or exclude certain companies, industries or sectors ii) impact the Fund's investment performance compared to other funds that do not apply such criteria and, iii) differ from an investor's own sustainability and/or ESG criteria.
