

iShares J.P. Morgan EM Local Govt Bond UCITS ETF USD (Dist)

December Factsheet

Performance, Portfolio Breakdowns and Net Asset information as at: 31-Dec-2021

All other data as at 06-Jan-2022

For Investors in the UK. Investors should read the Key Investor Information Document and Prospectus prior to investing.

The Fund seeks to track the performance of an index composed of local currency government bonds from Emerging Market countries.

As of 12th July 2017, the benchmark for this fund changed from Bloomberg Barclays EM Local Currency Government Bond Index to J.P. Morgan GBI-EM Global Diversified 10% Cap 1% Floor

KEY BENEFITS

- 1 Diversified exposure to emerging market bonds, denominated in local currency
- 2 Direct investment in government bonds
- 3 Emerging markets exposure through investment grade and high yield government bonds

Key Risks: Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk. Emerging markets are generally more sensitive to economic and political conditions than developed markets.

GROWTH OF 10,000 USD SINCE INCEPTION

12 MONTH PERFORMANCE PERIODS (% USD)

	31/12/2016 - 31/12/2017	31/12/2017 - 31/12/2018	31/12/2018 - 31/12/2019	31/12/2019 - 31/12/2020	31/12/2020 - 31/12/2021	2021 Calendar Year
Fund	14.07%	-7.15%	11.56%	1.71%	-10.36%	-10.36%
Benchmark	15.16%	-6.23%	12.56%	2.67%	-9.74%	-9.74%

ANNUALISED PERFORMANCE (% USD)

	1 Year	3 Years	5 Years	10 Years	Since Inception
Fund	-10.36%	0.57%	1.50%	-0.22%	-1.11%
Benchmark	-9.74%	1.42%	2.41%	0.46%	-0.47%

The figures shown relate to past performance. Past performance is not a reliable indicator of future results and should not be the sole factor of consideration when selecting a product or strategy. Share Class and Benchmark performance displayed in USD, hedged fund benchmark performance is displayed in USD. Performance is shown on a Net Asset Value (NAV) basis, with gross income reinvested where applicable. Performance data is based on the net asset value (NAV) of the ETF which may not be the same as the market price of the ETF. Individual shareholders may realize returns that are different to the NAV performance. The return of your investment may increase or decrease as a result of currency fluctuations if your investment is made in a currency other than that used in the past performance calculation. **Source:** BlackRock

Capital at risk. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed.

Holdings are subject to change.

Key Risks Continued: Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets and failed/delayed delivery of securities or payments to the Fund. Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment. Fixed income securities issued or guaranteed by government entities in emerging markets generally experience higher 'Credit Risk' than developed economies. Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due. Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily. Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

GEOGRAPHIC BREAKDOWN (%)

Geographic exposure relates principally to the domicile of the issuers of the securities held in the product, added together and then expressed as a percentage of the product's total holdings. However, in some instances it can reflect the location where the issuer of the securities carries out much of their business.

IMPORTANT INFORMATION:

Issued by BlackRock Advisors (UK) Limited, which is authorised and regulated by the Financial Conduct Authority. Registered office: 12 Throgmorton Avenue, London, EC2N 2DL, Tel: +44 (0)20 7743 3000. Registered in England and Wales No. 00796793. For your protection, calls are usually recorded. Please refer to the Financial Conduct Authority website for a list of authorised activities conducted by BlackRock. BlackRock is a trading name of BlackRock Advisors (UK) Limited. iShares plc, iShares II plc, iShares III plc, iShares IV plc, iShares V plc, iShares VI plc and iShares VII plc (together 'the Companies') are open-ended investment companies with variable capital having segregated liability between their funds organised under the laws of Ireland and authorised by the Central Bank of Ireland. Further information about the Fund and the Share Class, such as details of the key underlying investments of the Share Class and share prices, is available on the iShares website at www.ishares.com or by calling +44 (0) 845 357 7000 or from your broker or financial adviser. The indicative intra-day net asset value of the Share Class is available at <http://deutsche-boerse.com> and/or <http://www.reuters.com>. A UCITS ETF's units / shares that have been acquired on the secondary market cannot usually be sold directly back to the UCITS ETF itself. Investors who are not Authorised Participants must buy and sell shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees and additional taxes in doing so. In addition, as the market price at which the Shares are traded on the secondary market may differ from the Net Asset Value per Share, investors may pay more than the then current Net Asset Value per Share when buying shares and may receive less than the current Net Asset Value per Share when selling them. Any decision to invest must be based solely on the information contained in the Company's Prospectus, Key Investor Information Document and the latest half-yearly report and unaudited accounts and/or annual report and audited accounts. Investors should read the fund specific risks in the Key Investor Information Document and the Company's Prospectus.

BlackRock has not considered the suitability of this investment against your individual needs and risk tolerance. The data displayed provides summary information, investment should be made on the basis of the relevant Prospectus which is available from your Broker, Financial Adviser or BlackRock Advisors (UK) Limited. We recommend you seek independent professional advice prior to investing.

Any decision to invest must be based solely on the information contained in the Company's Prospectus, Key Investor Information Document and the latest half-yearly report and unaudited accounts and/or annual report and audited accounts. Investors should read the fund specific risks in the Key Investor Information Document and the Company's Prospectus.

This document is not, and under no circumstances is to be construed as an advertisement or any other step in furtherance of a public offering of shares in the United States or Canada. This document is not aimed at persons who are resident in the United States, Canada or any province or territory thereof, where the companies/securities are not authorised or registered for distribution and where no prospectus has been filed with any securities commission or regulatory authority. GLOSSARY

Total Expense Ratio (TER): A measure of the total costs associated with managing and operating a fund. The TER consists primarily of the management fee plus other expenses such as trustee, custody, or operating expenses. It is expressed as a percentage of the fund's total net asset value.

Distribution yield: The distribution yield represents the ratio of distributed income over the last 12 months to the fund's current Net Asset Value.

Effective Duration: is a measure of the potential impact on a bond or portfolio price of a 1% change in interest rates across all maturities. It takes into account the possible changes in expected bond cash flows for bonds with embedded optionality (for example the bond issuer's right to redeem bonds at a pre-determined price on certain dates) due to the 1% change in rates.

Product Structure: Indicates whether the fund buys the actual underlying securities in the index (i.e. Physical) or whether the fund gains exposure to those securities by buying derivatives, such as swaps (known as 'Synthetic'). Swaps are a form of contract that promises to provide the return of the security to the fund, but the fund does not hold the actual security. This can introduce a risk that the counterparty defaults on the "promise" or contract.

Weighted Average Maturity (WAM): A bond's maturity is the length of time until the principal amount of the bond is to be repaid. WAM of the ETF is calculated as the average of the underlying bonds' maturities, adjusted to take account of their relative weight (size) within the fund.

Weighted Average Coupon (WAC): The coupon is the annual interest rate paid by a bond issuer on the face value of the bond. WAC of the ETF is calculated as the average of the underlying bonds' coupon rates, adjusted to take account of their relative weight (size) within the fund.

Methodology: Indicates whether the product is holding all index securities in the same weight as the index (replicating) or whether an optimised subset of index securities is used (optimised/sampled) in order to efficiently track index performance.

Weighted Average Yield to Maturity: The rate of return anticipated on a bond, if it is held until maturity. Yield to Maturity of the ETF is calculated as the average of the underlying bonds' yields, adjusted to take account of their relative weight (size) within the fund.

SUSTAINABILITY CHARACTERISTICS

Sustainability Characteristics can help investors integrate non-financial, sustainability considerations into their investment process. These metrics enable investors to evaluate funds based on their environmental, social, and governance (ESG) risks and opportunities. This analysis can provide insight into the effective management and long-term financial prospects of a fund.

The metrics below have been provided for transparency and informational purposes only. The existence of an ESG rating is not indicative of how or whether ESG factors will be integrated into a fund. The metrics are based on MSCI ESG Fund Ratings and, unless otherwise stated in fund documentation and included within a fund's investment objective, do not change a fund's investment objective or constrain the fund's investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund's investment strategy, please see the fund's prospectus.

MSCI ESG Fund Rating (AAA-CCC)	BBB	MSCI ESG Quality Score (0-10)	4.53
MSCI ESG Quality Score - Peer Percentile	64.96%	MSCI ESG % Coverage	98.80%
Fund Lipper Global Classification	Bond Emerging Markets Global LC	MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES)	-
Funds in Peer Group	254		

All data is from MSCI ESG Fund Ratings as of **07-Dec-2021**, based on holdings as of **31-Oct-2021**. As such, the fund's sustainable characteristics may differ from MSCI ESG Fund Ratings from time to time.

To be included in MSCI ESG Fund Ratings, 65% of the fund's gross weight must come from securities covered by MSCI ESG Research (certain cash positions and other asset types deemed not relevant for ESG analysis by MSCI are removed prior to calculating a fund's gross weight; the absolute values of short positions are included but treated as uncovered), the fund's holdings date must be less than one year old, and the fund must have at least ten securities. For newly launched funds, sustainability characteristics are typically available 6 months after launch.

ESG GLOSSARY:

MSCI ESG Fund Rating (AAA-CCC): The MSCI ESG Rating is calculated as a direct mapping of ESG Quality Scores to letter rating categories (e.g. AAA = 8.6-10). The ESG Ratings range from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC).

MSCI ESG Quality Score - Peer Percentile: The fund's ESG Percentile compared to its Lipper peer group.

Fund Lipper Global Classification: The fund peer group as defined by the Lipper Global Classification.

Funds in Peer Group: The number of funds from the relevant Lipper Global Classification peer group that are also in ESG coverage.

MSCI ESG Quality Score (0-10): The MSCI ESG Quality Score (0 - 10) for funds is calculated using the weighted average of the ESG scores of fund holdings. The Score also considers ESG Rating trend of holdings and the fund exposure to holdings in the laggard category. MSCI rates underlying holdings according to their exposure to industry specific ESG risks and their ability to manage those risks relative to peers.

MSCI ESG % Coverage: Percentage of a fund's holdings that have MSCI ESG ratings data.

MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES): Measures a fund's exposure to carbon intensive companies. This figure represents the estimated greenhouse gas emissions per \$1 million in sales across the fund's holdings. This allows for comparisons between funds of different sizes.

IMPORTANT INFORMATION:

Certain information contained herein (the "Information") has been provided by MSCI ESG Research LLC, a RIA under the Investment Advisers Act of 1940, and may include data from its affiliates (including MSCI Inc. and its subsidiaries ("MSCI")), or third party suppliers (each an "Information Provider"), and it may not be reproduced or disseminated in whole or in part without prior written permission.
