

JPM Global Equity Income Fund

Class: JPM Global Equity Income Fund C - Net Accumulation (GBP hedged)

Fund overview

| | | | |
|--|-------------------------|--------------------------------|------------------------------------|
| ISIN GB00B8DB5B19 | Sedol B8DB5B1 | Bloomberg JPGEICH LN | Reuters GB00B8DB5B19.LUF |
| Investment objective: To provide a portfolio designed to achieve income by investing, at least 80% of the Fund's assets globally, in equities, in any economic sector whilst participating in capital growth over the long-term (5-10 years). | | | |
| Investment approach | | | |
| <ul style="list-style-type: none"> • Uses a fundamental, bottom-up stock selection process. • Investment process built on stock level analysis by a global research team. • Seeks to identify companies with sustainably high dividends and/or sustainable dividend growth potential. | | | |
| BENCHMARK USES | | | |
| The Fund is actively managed. The Benchmark is a Performance Comparator and the Fund may bear little resemblance to its Benchmark. The Benchmark has been chosen as it reflects the main investment universe and strategy for the Fund. | | | |
| Portfolio manager(s) | Share class | Class launch | |
| Helge Skibeli Sam Witherow Michael Rossi | currency GBP | 20 Aug 2012 | |
| Fund reference | Fund assets | Domicile United Kingdom | |
| currency GBP | £692.8m | Entry/exit charges | |
| | Fund launch | Entry charge (max) 0.00% | |
| | 7 Feb 2007 | Exit charge (max) 0.00% | |
| | NAV 415.40p | Ongoing charge 0.87% | |

ESG information

ESG approach - Integrated

ESG Integration is the systematic inclusion of financially material ESG factors, alongside other relevant factors, in investment analysis and investment decisions with the goals of managing risk and improving long-term returns. ESG integration does not by itself change this product's investment objective, exclude specific types of companies or constrain its investable universe. This product is not designed for investors who are looking for a product that meets specific ESG goals or wish to screen out particular types of companies or investments, other than those required by any applicable law such as companies involved in the manufacture, production or supply of cluster munitions. ESG integration does not imply that the Fund is marketed or authorised as an ESG product in any jurisdiction where such authorisation is required.

Key risks

The Fund is subject to **Investment risks** and **Other associated risks** from the techniques and securities it uses to seek to achieve its objective.

The table below explains how these risks relate to each other and the **Outcomes to the Shareholder** that could affect an investment in the Fund.

Investors should also read [Risk Descriptions](#) in the Prospectus for a full description of each risk.

Investment risks *Risks from the Fund's techniques and securities.*

| Techniques | Securities | |
|---------------|------------------|-------------------|
| Concentration | Emerging markets | Smaller companies |
| Hedging | Equities | |

Other associated risks *Further risks the Fund is exposed to from its use of the techniques and securities above.*

| | | |
|----------|-----------|--------|
| Currency | Liquidity | Market |
|----------|-----------|--------|

Outcomes to the Shareholder *Potential impact of the risks above*

| Loss | Volatility | Failure to meet the Fund's objective. |
|---|---|---------------------------------------|
| Shareholders could lose some or all of their money. | Shares of the Fund will fluctuate in value. | |

General Disclosures

Before investing, obtain and review the current Prospectus, Key Investor Information Document (KIID) and the Key Features Document/Terms & Conditions for this fund which are available in English from JPMorgan Asset Management (UK) Limited or at <https://am.jpmorgan.com>.

This material should not be considered as advice or an investment recommendation. Fund holdings and performance are likely to have changed since the report date.

To the extent permitted by applicable law, we may record telephone calls and monitor electronic communications to comply with our legal and regulatory obligations and internal policies. Personal data will be collected, stored and processed by J.P. Morgan Asset Management in accordance with our EMEA Privacy Policy www.jpmorgan.com/emea-privacy-policy

For additional information on the fund's target market please refer to the Prospectus.

The risk indicator is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class. The risk and reward category shown above is not guaranteed to remain unchanged and may change over time. A Share Class with the lowest risk rating does not mean a risk-free investment. See Key Investor Information Document (KIID) for details.

Performance information

Source: J.P.Morgan Asset Management. Share class performance shown is based on the quoted price of the share class, assumes any net income was reinvested, and includes ongoing charges but not any entry or exit fees.

Indices do not include fees or operating expenses and you cannot invest in them.

The Yield reflects net distributions declared over the past 12 months as a percentage of the quoted price at the date shown. It does not include the Entry charge and investors may be subject to tax on their distributions. Where a portion of the fund's expenses are charged to

capital this has the effect of increasing the distribution for the year and constraining the fund's capital performance to an equivalent extent.

The performance shown prior the launch date of this share class relates to the A share class. The A share class performance has not been amended or simulated to adjust for the lower ongoing fees of the C share class.

Definitions

NAV Net Asset Value of a fund's assets less its liabilities per Share.

Quoted Price The single price at which all client orders are executed.

Correlation measures the strength and direction of the relationship between movements in fund and benchmark returns. A correlation of 1.00 indicates that fund and benchmark returns move in lockstep in the same direction.

Alpha (%) a measure of excess return generated by a manager compared to the benchmark. An alpha of 1.00 indicates that a fund has outperformed its benchmark by 1%.

Beta measures a fund's sensitivity to market movements (as represented by the fund's benchmark). A beta of 1.10 suggests the fund could perform 10% better than the benchmark in up markets and 10% worse in down markets, assuming all other factors remain constant. Usually the higher betas represent riskier investments.

Annualised volatility (%) measures the extent to which returns vary up and down over a given period.

Sharpe ratio performance of an investment adjusting for the amount of risk taken (compared a risk-free investment). The higher the Sharpe ratio the better the returns compared to the risk taken.

Tracking error (%) measures how much a fund's returns deviate from those of the benchmark. The lower the number the closer the fund's historic performance has followed its benchmark.

Information ratio measures if a manager is outperforming or underperforming the benchmark and accounts for the risk taken to achieve the returns. A manager who outperforms a benchmark by 2% p.a. will have a higher IR than a manager with the same outperformance but who takes more risk.
