PERFORMANCE BENCHMARK

The Fund will measure its performance against the ICE Bank of America Merrill Lynch Global High Yield ex Bank Capital & Junior Subordinated (100% Hedged into sterling) TR Index as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of the asset class, credit quality, sectors and geographical areas in which the Fund predominantly invests.

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the investment weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

KEY RISKS ASSOCIATED WITH THIS FUND

- There is no guarantee that the Fund will achieve its objectives.
- This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- Investments in bonds/money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.
- Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.
- The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.
- Emerging Markets have additional risks due to less-developed market practices.
- The Fund may not always find another party willing to purchase an asset that the Fund wants to sell which could impact the Fund's ability to sell the asset or to sell the asset at its current value.
- The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.
- The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.
- A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

Before subscribing, investors should read the most recent Prospectus and KIID for each fund in which they want to invest. Go to www.bnymellonim.com

The Prospectus and KIID are available in English and in an official language of the jurisdictions in which the Fund is registered for public sale.
