Investment risks

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. As this Fund is invested in a particular sector, you should be prepared to accept greater fluctuations in the value of the Fund than for a fund with a broader investment mandate.

Fund objective

The Fund aims to achieve long-term capital growth from a global portfolio of investments in companies predominantly engaged in the design, production or distribution of products and services related to the discretionary consumer needs of individuals. For the full objectives and investment policy please consult the current prospectus. The investment concerns the acquisition of units in an actively managed fund and not in a given underlying asset.

Glossary

ACR / Annual Compound Return: Compound returns represent the cumulative effect that gains and losses have on invested capital over time. Annual Compound Return is the annual rate of return that would be required for an investment to grow from its starting balance to its ending balance.

Alpha: The risk-adjusted excess return of an investment compared to a benchmark.

Benchmark index: A standard against which an investment fund or portfolio is measured to give an indication of relative performance.

Beta: A measure of an investment's sensitivity to market movements.

Cash and cash equivalents (CCE): The liquid assets on a company's balance sheet. Cash includes currency and demand deposits, while cash equivalents are short-term, highly liquid investments. For accounting purposes, the cash and cash equivalent figure may include the notional cost of futures (a type of derivative). This notional amount will be negative when the Fund is buying futures and positive when the Fund is selling futures.

Commodities: Basic physical goods such as energy, metals, or agricultural products, that are interchangeable within their category and traded on global markets.

Country of risk: Used to classify stocks, identifies the main country of operations/ exposure of a firm.

Distribution frequency: How often dividends and/or interest generated by an investment product are disbursed to investors.

Holdings: The contents of an investment portfolio or fund, including any products like equities, bonds or ETFs.

Market capitalisation: How much a company is worth as determined by the stock market. Calculated as the total market value of all shares. Market capitalisation breakdown definitions: Large cap (USD 10 bn+), Mid cap (USD 2bn to 9.99bn), Small cap (USD 0 to 1.99bn).

Volatility: The degree to which the price of a financial asset fluctuates over time, indicating how much and how quickly its value tends to rise or fall.

SFDR (Sustainable Finance Disclosure Regulation)

The Fund complies with Article 8 with respect to the EU's Sustainable Finance Disclosure Regulation*. As such, the Fund promotes, among other characteristics, environmental or social characteristics or a combination of those characteristics. In addition, the companies in which the Fund invests follow good governance practices. *Regulation (EU) 2019/2088 on sustainability – related disclosures in the financial services sector.

Exclusion Framework

The Fund embeds an exclusionary framework to specific activities based on UN Global Compact, severe governmental sanctions, revenue thresholds for certain activities linked to environmental and/or social criteria, as well as ensuring that companies follow good governance practices. The list of activities and their thresholds are listed below. For further details on the exclusion framework and characteristics applied by the Fund please refer to the website of the manager www.invesco.com/lu-manco/en/home.html :

UN Global Compact	• Non-compliant

Others	• Recreational cannabis: - >=5% of revenue
Good governance	• Ensure that companies follow good governance practices in the areas of sound management structures, employee relations, remuneration and tax compliance

**At Invesco we continuously monitor any applicable sanctions, including those imposed by the UN/US/EU and UK. These sanctions may preclude investments in the securities of various governments/regimes/entities and as such will be included in our compliance guidelines and workflows (designed to ensure compliance with such sanctions). The wording of international sanctions is something that we pay particular attention to as there are occasions where sanctions can exist in limited form, for example allowing investments in the secondary market. In addition to sanctions targeting entire countries, there are other thematic regimes, which may focus for example on human rights, cyber attacks, terrorist financing and corruption, which may apply to both individuals and/or entities/corporations.

Any investment decision should take into account all the characteristics of the Fund as described in the legal documents. For sustainability related aspects, please refer to: www.invesco.com/lu-manco/en/home.html.
