# Vanguard U.S. Treasury Inflation-Protected Securities Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg U.S. Government Inflation-Linked 1–10 Year Index, a market-weighted index designed to measure the performance of US Treasury Inflation-Protected Securities ("TIPS") with maturities between 1 and 10 years.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets performed unevenly for the 12 months ended 31 December 2024.
- Across much of the developed world in the first part of the year, consumer price increases continued to moderate, labour markets remained strong and interest rates appeared to have peaked. With that supportive backdrop and with high hopes for artificial intelligence, stocks gained ground and a number of major market indices hit record highs.
- As the year progressed, investor sentiment was dented at times by some disappointing economic reports, weak readings from the manufacturing sector and a surprise rate hike by the Bank of Japan. The global economy nevertheless continued to expand, and further progress against inflation led a number of Western central banks to cut interest rates. The European Central Bank began to do so in June, the Bank of England in August and the US Federal Reserve in September.
- Global stocks returned 16.69%, as measured by the FTSE Global All Cap Index in US dollars. By region, the US turned in a stronger performance than the rest of the world as a whole.
- Global bonds returned –1.69%, as measured by the Bloomberg Global Aggregate Index in US dollars on an unhedged basis. US bonds, however, finished in modestly positive territory.
- Treasury Inflation-Protected Securities (TIPS) fared better than their nominal peers. The fund's benchmark index returned 3.25% for the 12 months.
- Within the benchmark, shorter-duration bonds posted higher returns than longer-duration bonds.

Benchmark returns in the commentary above are in US dollars.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

## 2. Basis of Presentation.

The financial statements are prepared in accordance with accounting standards generally accepted in Ireland, including Financial Reporting Standard ("FRS") 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland issued by the Financial Reporting Council (the "FRC"), Irish statute comprising the Companies Act 2014, as amended, the UCITS Regulations, the CBI UCITS Regulations and the Listing Rules of the Euronext Dublin.

To more appropriately reflect the Company's business as an investment fund, the Company has determined that the headings and sub-headings of the financial statements require adaptation from the requirements in the Companies Act 2014 and certain wordings and format of the financial statements have been adapted from those contained in FRS 102, Section 3.

A Cash Flow Statement has not been presented due to the exemption contained in FRS 102, Section 7.1A.

The information required by FRS 102 to be included in a statement of comprehensive income is contained in the Statement of Operations of each Fund and the Company.

The financial statements have been prepared on a going concern basis, subject to the historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss ("FVTPL").

### 3. Significant Accounting Policies.

**(a) Critical Accounting Estimates and Judgements.** The preparation of these financial statements requires the use of certain accounting estimates and requires the Company to exercise judgement when applying the Funds' accounting policies. The estimates and associated judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, which affect the classification of financial assets and liabilities, the carrying values of financial instruments, the fair value of certain financial instruments in instances where information is not readily apparent from other sources, as well as the functional currency of the Company and Funds. Refer to Note 3(d), Note 3 (e) and Note 3 (g) for further information.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future years if the revision affects both current and future years.

**Assumptions and estimation uncertainties.** Changes in data inputs and assumptions for valuation of financial instruments could affect the reported fair value of financial instruments and the differences could be material. See financial instruments note 4 for details on assumptions and sensitivities.

**(b) Income Recognition.** Dividends, whether cash or stock, are recognised as income when the securities are quoted ex-dividend. Special dividends are treated as either capital or income depending on the facts of each particular case.

In the case of debt securities, any difference between acquisition cost and maturity value is recognised as interest income over the life of the security using the effective yield basis of calculating amortisation. Any Funds holding inflation-linked bonds recorded net positive income during the year ended 31 December 2024 (31 December 2023: same).

The treatment of returns from financial derivative instruments is dependent upon the nature of the transaction. Returns are treated as Net Gains/Losses on Financial Instruments or income, as appropriate.

Interest income on cash is recognised on an effective interest basis.

Securities-lending income is recognised on an accrual basis. Securities lending income is recognised in the Statement of Operations. Investments lent under securities lending agreement continue to be recognised in the Statement of Assets and Liabilities, as the Company continues to be exposed to all gains and losses arising from the ownership of these securities and are measured in accordance with the accounting policy for financial instruments.

All income is recognised gross of any withholding taxes incurred.

**(c) Taxation.** Current tax is recognised as the amount of income tax paid or payable in respect of the taxable overseas net profit. Withholding taxes on foreign dividends and capital gains have been provided for in accordance with the Funds' understanding of the applicable countries' tax rules and rates and are shown as a separate line item in the Statement of Operations. Deferred taxation is provided on material timing differences that have originated but not reversed by the reporting date. Deferred tax is measured at the rates expected to apply for the year in which the timing differences will reverse. Deferred taxes are not discounted to reflect the time value of money and are only recognised to the extent they are expected to crystallise.

**(d) Financial Assets and Financial Liabilities.** FRS 102 requires a reporting entity to apply either (a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments Issues; (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39, Financial Instruments: Recognition and Measurement ("IAS 39"), and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9, Financial Instruments, and the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Company has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of FRS 102.

**Classification and Measurement.** Financial instruments, which includes investments in transferable securities and financial derivative investments, are held for trading and classified and measured at FVTPL from their initial recognition. Gains and losses arising from changes in the fair value of financial assets or financial liabilities at fair value through profit or loss are presented as part of the Net Gains/Losses on Financial Instruments in the Statement of Operations, in the period in which they arise. Redeemable participating shares are classified as financial liabilities at amortised cost and are measured at the present value of the redemption amounts, which approximates their fair value. All other financial assets and liabilities are measured at amortised cost using effective interest method, which approximates fair value.

**Recognition and De-recognition.** Financial assets and financial liabilities are recognised when the Funds become a party to the contractual provision of the instruments. Purchases and sales of financial instruments are recognised on the trade date, being the date on which the Fund commits itself to the purchase or sale. Financial assets are de-recognised when the contractual rights to the cash flows from the instruments expire, or when substantially all the risks and rewards of ownership have been transferred. Financial liabilities are de-recognised when the Funds' contractual obligations are discharged, cancelled or expired.

When financial instruments are de-recognised, the realised gains and losses identified are recognised as part of the Net Gains/Losses on Financial Instruments in the Statement of Operations. Premiums received on expired options are realised as gains, while premiums paid on expired options are realised as losses. Premiums on exercised options will result in gains or losses by either increasing the proceeds received when selling the underlying security or decreasing the cost basis when purchasing the underlying security.

**(e) Fair Value Measurement.** Financial instruments are measured at fair value using a three-level hierarchy. Instruments are categorised in their entirety based on the lowest level input that is significant to the fair value measurement. Assessing the significance and observability of a particular input requires significant judgement specific to an asset or liability. Inputs are considered to be observable when they are readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

**Level 1**—Quoted prices in active markets for identical securities.

**Level 2**—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

**Level 3**—Significant unobservable inputs (including the Fund’s own assumptions used to determine the fair value of investments).

**Equities.** Equities (including warrants and rights) are valued at the latest available last traded value at year-end. Instruments traded on a recognised market are valued on the basis of valuations provided by a principal market maker or a pricing service. When applicable, unlisted and suspended instruments are based on the Investment Manager’s assessment of their net realisable value or the last traded price from broker-dealers for non-exchange-trade purposes.

**Fixed Income.** Fixed income securities (including “TBA” (To Be Announced), if applicable) traded in recognised markets are valued using the latest bid prices on the securities exchange in which they are principally traded or using valuations based on a matrix system (which considers such factors as security prices, yields, maturities and ratings), both as furnished by independent pricing services.

**Financial Derivative Instruments.** Futures contracts are valued in an active market if quoted prices are readily and regularly available; this represents the amount that would be required to close the position. Forward currency contracts are valued based on quoted forward exchange rates as provided by a reliable pricing service, bank or dealer. Credit default swaps, interest rate swaps, total return swaps, inflationary swaps and over-the-counter options (including swaptions) are valued using a pricing service; where no pricing service is available, contracts are marked-to-market daily based upon quotations received from counterparties or based upon calculations using valuation models.

**(f) Transaction Costs and Commissions.** Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment. These costs include fees and commissions paid to agents, advisors, brokers and dealers, and transfer taxes and duties. Transaction costs which are separately identifiable in the purchase and sale of financial instruments designated at FVTPL are disclosed in the Statement of Operations. For fixed income securities and certain derivatives, transaction costs are not separately identifiable from the purchase or sale price and therefore cannot be disclosed separately.

**(g) Foreign Currency.** Functional currency is the currency of the primary economic environment in which the Funds operate. If indicators of the primary economic environment are mixed, then the Directors use their judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. All transactions in foreign currencies are translated into each Fund’s functional currency at the exchange rates prevailing on the date of the transaction. At the reporting date, monetary assets and liabilities denominated in foreign currencies are translated at the prevailing exchange rates. Gains and losses arising on translation are included as part of the Net Gain/Loss on Financial Instruments in the Statement of Operations and are reported on a net basis.

The presentation currency of the Company’s financial statements is US dollars (US\$).

In preparing the aggregate Company Statement of Assets and Liabilities, all transactions have been translated into US\$. Funds which are not recorded in the Company’s presentation currency are translated to US\$ using the prevailing exchange rates as at the reporting date. For the purpose of producing the Company Statement of Operations and the Company Statement of Changes in Net Assets from the accounts of the individual Funds, average exchange rates for the year are used.

The presentational and functional currency of each Fund is:

**(h) Cash.** Cash is composed of demand deposits with financial institutions.

**Bank Overdrafts.** Bank overdrafts, when applicable, are presented as current liabilities.

**Cash Collateral.** Cash pledged as collateral against OTC derivative instruments and TBAs, if applicable, are not included within Cash but are segregated and presented separately on the Statement of Assets and Liabilities as Cash Collateral.

**Margin.** Upon entering into centrally cleared derivative instruments, cash deposits are required (initial margin) in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are made or received by the Funds each day. Margin against these financial derivative instruments is not included within Cash or Bank Overdrafts but is segregated and presented separately as Margin Cash Due from Broker or Margin Cash Due to Broker, as applicable.

In respect to share issuances or redemptions, the Company operates an umbrella cash account. Monies received or proceeds due will be held and transmitted through this account and are included in Cash and Bank Overdrafts.

**(i) Redeemable Participating Shares.** Redeemable participating shares provide shareholders with the right to redeem their shares for cash. The shares do not meet the criteria set out in Section 22.4 of FRS 102 to be classified as equity therefore, the shares are classified as financial liabilities.

**(j) Trade Date Reporting.** Investment transactions for financial statement purposes are accounted for on the trade date. This is different from the basis used for the daily dealing net asset value, which is accounted for using the trade date plus one business day.

**(k) Offsetting.** Financial assets and liabilities are offset and the net amount reported when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

**(l) Income Equalisation.** In respect to distributing share classes, the Company intends to operate equalisation arrangements and make equalisation payments in respect of each such share to reflect the pro rata payment of dividends based on the period of time the share has been owned by an investor. If an investor acquires shares at a date when the Fund has accrued income which has not yet been declared as a dividend, the Directors may credit to the equalisation account part of the subscription price representing the accrued income which would be attributable to those shares, as the case may be. When the dividend is paid, the investor will receive the same amount of cash as the existing investors, but the amount in respect of income accrued before shares were acquired will be paid not as a dividend but out of the equalisation account, as capital, comprising the repayment of part of the subscription price. The amount of equalisation, reflecting the pro rata payment of distributions based on the time period over which shares have been owned by an investor. The distribution declared amount includes income equalisation.

**(m) Swing Pricing.** The Funds employ swing pricing as a means to prevent dilution. Swing pricing results from the Company's determination to adjust the Funds' net asset value, on any dealing day, following a consideration of dealing activity (i.e. level of subscriptions and redemptions) and the level of costs associated with such activity. A dilution adjustment is exercised only for the purpose of reducing the negative effects of transaction charges in the interest of the non-dealing shareholders in the Funds and is applied consistently in respect of the Funds, and in respect of all assets of the Funds. The direction of the swing depends on whether there are net subscriptions or net redemptions in the Funds on the relevant dealing day, while the magnitude of the swing is based on pre-determined estimates of the average execution costs in the relevant asset classes in which the Funds are invested.

Any dilution adjustment did not exceed 2% of the net asset value per share of the Funds for the years ended 31 December 2024 and 31 December 2023.

#### 4. Risk Management Policies.

The Funds' investments in financial instruments create a direct exposure to a variety of risks. The Funds may also make investments in other underlying funds. The financial instruments which constitute these other underlying funds generally expose the Funds to indirect risks resulting from currency, interest rate, other price risk and credit risk.

The Funds may trade in financial derivative instruments such as exchange traded futures and options contracts (to manage cash flows on a short term basis and to achieve cost efficiencies), warrants, swap agreements and equity-linked notes (to gain market exposure or exposure to a particular asset class) and forward currency exchange contracts (to protect against currency fluctuations). The use of financial derivative instruments may expose the Funds to a higher degree of risk. Financial derivative instrument contracts can be highly volatile, and the initial investment is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on financial derivative instruments than on standard securities. Leveraged financial derivative instruments positions can therefore increase volatility. Global exposure is measured and monitored using the commitment approach. Leverage will not exceed 100% of the net asset value of the relevant Fund and will be done in accordance with regulations applicable to the Funds. Although the Investment Manager believes that taking exposure to underlying assets by using financial derivative instruments will benefit shareholders in certain circumstances, by reducing operational costs and creating other efficiencies, there is risk that the performance of a Fund will be imperfectly correlated with the performance that would be generated by investing directly in the underlying assets.

Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, political or regulatory conditions or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the Funds' investments and Funds' performance.

The Manager seeks to minimise potential adverse effects of risk on the Funds' performance by employing professional, experienced portfolio managers; by daily monitoring of the Funds' positions and market events; by diversifying the investment portfolio within the constraints of the investment objectives; and by periodically using derivatives to economically hedge certain risk exposures.

**Other Price Risk.** Other price risk is the risk that the value of financial instruments will fluctuate because of changes in the market. The Investment Manager considers the asset allocation of the portfolio to minimise the risk associated with particular countries or industry sectors while continuing to follow the stated investment objective.

To the extent the Company's or each Fund's portfolio reflects concentration in a particular market, industry, group of industries, sector, country or asset class, the Company or each Fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

The investment objective for an index fund is to seek to track as closely as reasonably possible the performance of its benchmark. To achieve this objective, an index fund invests primarily in securities held in its relevant benchmark index. An index fund places limitations on the amount by which a holding may deviate from the proportion in the benchmark to limit the market risk from mismatched positions.

Active funds seek the strategy set out in the investment objective.

All investments present a risk of loss of capital. Market risk volatility is assessed to ensure the effect of using financial derivative instruments is not significant enough to cause disproportionate losses to overall value and is moderated through careful selection of financial instruments.

The table below summarises the estimate of the Company's and each Fund's net assets sensitivity to a +/-10% change in the prices of its investments, whether directly or indirectly, with all other variables held constant.

**Currency Risk.** Currency risk is the risk that the value of the Funds' investments denominated in foreign currencies will fluctuate due to changes in currency exchange rates. Local interest rates and monetary policy, as well as other government fiscal and labour policies, can also adversely impact currency values. The Funds may enter into foreign currency exchange contracts for hedging purposes, which can include the economic hedging of all or a portion of the currency exposure of an investment or group of investments. The Funds may also enter into these contracts for non-hedging purposes, which can include increasing the exposure to a foreign currency, or the shifting of exposure to foreign currency fluctuations from one country to another.

The tables below indicate the currencies to which the Company and certain Funds had exposure, either directly or indirectly, the notional value of foreign currency contracts and the Funds' sensitivity to a +/- 5% changes in currency exchange rate for its exposed currencies, with all other variables held constant:

Eurozone Inflation-Linked Bond Index Fund has no foreign currency risk exposure as at 31 December 2024 and as at 31 December 2023.

**Interest Rate Risk.** Income may be affected by changes in interest rates relevant to interest bearing securities or as a result of the Investment Manager being unable to secure similar returns on the expiry of contracts or sale of securities. The value of fixed rate securities may be affected by interest rate movements or the expectation of such movements in the future. Equity securities are non-interest bearing and therefore not subject to interest rate risk. Certain financial derivative instruments (e.g. futures) and interest receivable on bank deposits or payable on bank overdrafts positions may be affected by the fluctuations of interest rates.

If the prevailing interest rates had been raised or lowered by 1%, assuming a parallel shift in the yield curve, with all other factors remaining constant, net assets could possibly have decreased or increased. Each Fund's interest rate sensitivity was determined based on the effective duration of the portfolio.

The tables below show the interest rate risk profile of the financial assets and liabilities for the Funds with significant interest rate risk as at 31 December 2024 and 31 December 2023.

**Management of Market Risk (Including Other Price, Currency and Interest Rate Risks).** Using risk models and quantitative tools, the Investment Manager performs daily reviews of exposure to: style, country, sector and currency related risk factors for equity portfolios and interest rate, credit spread and currency related risk factors for fixed income portfolios. For index funds, the Investment Manager employs a “passive” investment strategy aimed to minimise tracking-error and portfolio management related costs through the optimisation of the Funds’ relative exposure to the relevant risk factors of the benchmarks by either fully replicating a benchmark or by holding a representative sample of benchmark securities. In addition, the Investment Manager performs daily checks of performance against the respective benchmarks. Certain Funds enter into swaptions to adjust the Fund’s sensitivity to interest rates or to adjust its exposure to the underlying investments. For actively-managed funds, the Investment Manager assesses these risks in line with the unique investment objective and portfolio composition of each Fund.

Efficient portfolio management techniques, as described in Note 10, may be used to minimise transaction costs or taxes. Currency is traded as closely as possible to the close of the markets, so as to obtain exchange rates that closely approximate the rates used in the daily valuation.

**Liquidity Risk.** Liquidity risk is the risk that sufficient cash cannot be raised to meet liabilities when due. One of the key liquidity factors influencing the Company and the Funds is exposure to cash redemptions of redeemable participating shares. Hence the Company, through the Funds, invests the large majority of its assets in investments that are traded in active markets and can ordinarily be readily disposed. However, liquidity risk will occur if an issuer becomes credit-impaired or if the relevant market becomes illiquid. In such a case, it may not be possible to initiate or liquidate a position at a price deemed by the Investment Manager to be demonstrating fair value. Liquidity risk may be temporary or may last for extended periods. The Company, through the Funds, invests in securities that form part of the benchmark indices. Benchmark indices are constructed from index rules requiring securities to have a specified minimum trading volume, which, although not guaranteeing liquidity, provides indication of the liquid nature of the securities underlying the Funds. The Funds are exposed to withdrawals and contributions that are invested to ensure that exposure to the benchmark indices is maintained to meet the investment objective of the Funds. Most of the Funds’ financial liabilities, based on contractual maturities, fall due within three months.

Additionally, the Funds may use index futures contracts to a limited extent, to maintain full exposure to the index, maintain liquidity and minimise transaction costs. Funds may purchase futures contracts to immediately invest incoming cash in the market, or sell futures in response to cash outflows, thereby simulating a fully invested position in the underlying index while maintaining a cash balance for liquidity.

No shareholder owns greater than 25% of the net assets of the Company. Shareholders owning greater than 25% of the net assets of a Fund may further expose the Fund to concentration risks that could impact liquidity should one or more of these shareholders submit redemption requests.

**Management of Liquidity Risk.** To meet redemption requests and raise cash from the portfolio, daily reports of share capital activity are provided by the Administrator to facilitate the daily cash forecast, cash monitoring and portfolio management process.

Subject to certain circumstances as detailed in the Prospectus, negative impacts to liquidity or transaction costs caused by significant shareholder redemptions may be mitigated through the available liquidity measures including, but not limited to, the use of (a) its swing pricing policies, (b) distribution of underlying investments rather than cash, subject to certain conditions, in which case the shareholder may bear the cost of charges incurred in connection with the sale of such underlying investments, (c) limiting the maximum amount of daily redemptions when total redemption requests for the day exceed 10%, or (d) temporary suspension of dealing in shares. Should the Funds require, they also have access to a syndicated line of credit for temporary or emergency purposes (as disclosed in Note 9).

**Credit Risk.** Credit risk is the risk that a counterparty to a transaction or an issuer of a financial instrument will fail to pay interest and principal when due, or that perceptions of the issuer's ability to make such payments will cause the price of an investment to decline. Investment in debt securities or use of derivative contracts will generally create credit risk.

Credit risk exposure is also created through interactions with brokers and custodians. However, transactions in listed securities are settled and paid for upon delivery of securities using only approved brokers. The risk of default is therefore considered minimal because securities are delivered only when the broker has made payment and the broker is paid for purchases only once the securities have been received by the Company's Depository.

The securities lending activity of the Funds creates exposure to the borrowing counterparties which is mitigated by the collateral arrangements in place.

Credit risk may also arise from assets of the Funds which are substantially all held by the Depository. Bankruptcy or insolvency of the Depository may cause certain rights with respect to securities and other positions held to be delayed or limited. As of 31 December 2024, the Depository has a long-term credit rating of A+ from Fitch (31 December 2023: A+). Additionally, the Depository ensures there is legal separation of non-cash assets held in custody, that such assets are held on a fiduciary basis and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under custody. All securities held in custody by the Depository are segregated from the Depository's own assets, whether in a vault, in segregated accounts on the books of sub-custodians or in an account maintained at a central securities depository. The Depository maintains segregated accounts per client on its own books as well as on the books of sub-custodians in local markets, where possible.

In addition, the Funds hold cash with counterparties (as disclosed in Note 11) which is subject to credit risk. The banks and financial institutions, other than the Depository, that held these cash are rated AA to A based on the median rating of Moody's, S&P and Fitch.

Certain Funds may use credit default swaps to a limited extent, for efficient replication of credit risk exposure or to transfer default protection on an underlying fixed income security. Credit protection purchased results in an asset which may increase credit risk, while credit protection sold results in a liability which may increase liquidity risk. The maximum exposure to credit risk on protection purchased is equal to the fair value of the asset while the maximum exposure on protection sold is equal to the notional value of the contract.

Credit risk is managed at the Fund level. For Funds invested in fixed income holdings, the following is an analysis of the concentration of issuer credit ratings. Credit ratings reflect the median of Moody's, S&P and Fitch, where possible. When less than three ratings are available, the lowest rating is utilised.

**Management of Credit Risk.** Credit risk is managed by investment policies which restrict or place limits on acceptable portfolio and net asset concentrations as well as exposure to certain instruments, credit institutions and counterparties. The Investment Manager performs daily reviews of portfolio attributes, such as sector diversification and credit quality, and adjusts where necessary to ensure that the credit risk components closely match those of the respective benchmarks. Credit ratings of debt instruments and counterparties are monitored and evaluated periodically by the Investment Manager; an approved counterparty list is maintained, and trading with approved counterparties is enforced. The Funds also enter into master netting arrangements with their counterparties and require the transfer of collateral to secure performance. The value of cash and securities pledged or received as collateral against securities lending transactions and derivative contracts is disclosed in Notes 10 and 11, respectively. Cash and securities received as collateral from counterparties are not recognised as asset because the Funds do not have the right to sell or repledge the collateral, except in the event of default.

## 5. Taxation.

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares. Any tax arising on a chargeable event is a liability of the shareholders, albeit it is paid by the Company (although if the Company fails to deduct the correct amount of tax it becomes ultimately a liability of the Company).

No Irish tax will arise on the Company in respect of chargeable events:

(a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations;

(b) certain exempted Irish tax resident shareholders who have provided the necessary signed statutory declarations; and  
(c) any transaction in relation to, or in respect of, units which are held in an a recognized clearing system as designated by order of the Irish Revenue Commissioners.

Dividends, interest and capital gains received on investments may be subject to withholding or other taxes imposed by the country from which the investment income/gains are received, and such taxes may not be recoverable. Foreign withholding taxes on dividends and interest are recognised when such taxes are not recoverable and are included in Taxation. Funds may also be subject to tax on realised and unrealised capital gains and has recognized a provision for deferred tax payable arising from material timing differences between the taxation of unrealized gains in the financial statements and actual realisable taxable profits.

The Funds have filed tax reclaims for previously withheld taxes on dividends earned in certain European Union countries. These filings are subject to various administrative and judicial proceedings within these countries. Such tax reclaims recognised during the year, if any, are included in Taxation. No other amounts for these tax reclaims are reflected in the financial statements due to the uncertainty as to the ultimate resolution of proceedings, the likelihood of receipt of these reclaims and the potential timing of payment.

Below is an analysis of the tax charge for the year ended 31 December 2024 and 31 December 2023:

## 6. Distribution Policy.

The Directors intend to distribute all, or substantially all, of the net income (interest and dividends, less expenses) to distributing share class holders. Should expenses exceed income, no distribution is made. Dividend distributions are payable to shareholders of record on the date on which the dividend is declared. The Directors do not intend to declare dividends on accumulating shares.

The following table presents the payment frequency with respect to distributing share classes. If a dividend has not been declared, income and gains of such Fund will be reflected in the net asset value per share.

## 7. Net Asset Value Per Share.

The net asset value per share of each share class is calculated by dividing the total net assets of each share class by the number of shares in issue.

## 8. Share Capital.

The Company has variable share capital consisting of 500,000,030,000 authorised shares divided into 30,000 subscriber shares and 500,000,000,000 redeemable participating shares (no par value).

The Directors may issue shares of any class and create new classes of shares on such terms as the Directors may from time to time determine in relation to any Fund and in accordance with the requirements of the Central Bank. Shares may be divided into different classes to accommodate different subscription, redemption or fee arrangements, dividend provisions, or charges.

**Subscriber Shares.** There are two Subscriber Shares in issue, which are held by nominees for the Investment Manager. Subscriber Shares do not entitle the holders thereof to any dividend and on a winding-up entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company. The Subscriber Shares do not form part of the Shareholders' funds and are not included in the net asset value of the Company.

**Redeemable Participating Shares.** Members who are individuals may attend and vote at general meetings in person or by proxy. Members who are corporations may attend and vote at general meetings by appointing a representative or proxy. Subject to any special terms as to voting upon which any shares may be issued or may for the time being be held, at any general meeting on a show of hands every shareholder who (being an individual) is present in person or (being a corporation) is present by duly authorised representative shall have one vote. On a poll every such holder presents as aforesaid or by proxy shall have one vote for every share held.

If the Company shall be wound up, then the payment to the holders of the redeemable participating shares of each class, is a sum in the currency in which that class is designated, as nearly as possible equal to the Net Assets Attributable to Holders of Redeemable Participating Shares respectively. This payment is as at the date of commencement to wind up provided that there are sufficient assets available in the relevant Fund to enable such payment to be made. In the event that there are insufficient assets available in the relevant Fund to enable such payments to be made, the following recourse shall apply:

- (1) the assets of the Company not comprised within any of the Funds; and
- (2) the assets remaining in the Funds for the other classes of Shares after payment to the holders of the Shares of the class to which they relate of the amounts to which they are respectively entitled under this paragraph prorata to the total value of such assets remaining within each such Fund.

## 9. Credit Facility.

The Funds and certain other funds managed by the Manager and its affiliates participate in an annually renewable US\$4.3 billion (2023: US\$4.3 billion) committed credit facility. Each participating Fund is individually liable for its borrowings under the credit facility. Borrowings may be utilised for temporary or emergency purposes and are subject to the participating Fund's regulatory and contractual borrowing restrictions. Participating Funds are allocated an annual commitment fee of 0.10% of the undrawn facility amount as well as certain administrative fees. Any fees allocated to the Funds are paid by the Manager. Interest and direct borrowing costs associated with draws on the credit facility are charged to the Funds and recorded in the Statement of Operations.

The rate charged for borrowings under this facility is linked to the currency borrowed. Borrowings in US dollars will bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. Borrowings in currencies other than the US dollar will bear interest at an agreed-upon spread plus the Euro Interbank Offered Rate, the Daily Simple Euro Short Term Rate, the Swiss Average Rate Overnight, the Sterling Overnight Index Average or the Tokyo Interbank Offered Rate, as applicable.

The Funds had no borrowings outstanding at 31 December 2024 or at any time during the year then ended (31 December 2023: none).

## 10. Efficient Portfolio Management.

Investment techniques and financial derivative instruments (FDIs) may be employed for efficient portfolio management purposes, including hedging against market movements, currency exchange or interest rate risks. Any investment technique or use of FDIs must be one which is reasonably believed by the Investment Manager to be economically appropriate in that it is realised in a cost-effective way. Realised and unrealised gains or losses arising from financial derivative instrument transactions are accounted for through the Statement of Operations as Net Gain/(Loss) on Financial Instruments.

Securities lending is also used for efficient portfolio management. The securities lending agent is Brown Brothers Harriman & Co. The Depository is a wholly owned subsidiary of Brown Brothers Harriman & Co. All operational costs in support of the lending programme are borne by the lending agent and paid directly out of any lending agent fees. Securities lending income is net of any lending agent fees paid.

Securities on loan continue to be recognised by the Funds as financial assets because they substantially retain the risks and rewards of ownership. Similarly, security collateral received from the borrower is not recognised by the Funds as an asset because they do not have rights to sell or re-pledge the collateral, unless in the event of default. Collateral accepted by the Funds is limited to high quality sovereign debt (U.S. Treasuries, U.K. Gilts, etc.).

Securities on loan by the Funds and the value of collateral held in respect of the securities were:

## 11. Collateral.

The Funds pledge and receive non-cash collateral against financial derivative instruments and TBA transactions. Such collateral cannot be sold, re-invested or re-pledged. As a result, pledged collateral remains an asset of the Fund and is included in the Statement of Investments. Securities received as collateral are not considered assets of the Fund and will not appear in the Statement of Investments. Under these collateral agreements, upon a counterparty default (including bankruptcy), the Funds may terminate all derivatives or TBA transactions with that counterparty, determine the net amount owed by either party and sell or retain any collateral held up to the net amount owed to the Funds, with an obligation to return excess collateral to the counterparty.

In certain cases, the Funds may be required to maintain cash collateral in margin accounts or pledge cash with certain counterparties. Cash collateral held in margin accounts for futures contracts and other centrally cleared derivatives is segregated on the Statement of Assets and Liabilities and presented separately as part of "Margin Cash Due to/from Broker". Cash pledged for OTC derivative instruments and TBAs is segregated on the Statement of Assets and Liabilities and presented separately as "Cash Collateral". Additionally, the Funds may receive cash collateral, which is segregated from the Funds' cash, and is subject to restrictions. The Funds do not earn any interest from the cash collateral received nor does it have any right for re-investment, therefore any cash collateral received is not recorded as part of the Funds' assets.

At 31 December 2024, the Funds did not have any collateral pledged or received in connection with TBA transactions (31 December 2023: Nil).

In addition, the Funds receive other non-cash collateral in relation to securities lending transactions which is separately disclosed in Note 10.

Counterparties to financial derivative transactions where collateral was required to be exchanged included Bank of America N.A., Barclays Bank plc, BNP Paribas, Bank of New York Mellon, Citibank NA, Deutsche Bank AG, Goldman Sachs Bank, HSBC, JPMorgan Chase Bank, Morgan Stanley, Royal Bank of Canada, Standard Chartered Bank, State Street Bank, Toronto Dominion Bank and UBS AG.

As of 31 December 2024 and 31 December 2023, the collateral pledged or received by the Funds for financial derivative instrument transactions, including margin cash was:

## 12. Related and Connected Parties Transactions.

Parties are related if one can control or exercise significant influence over the other in making financial or operational decisions or is a member of a group which provides key management personnel services. The Company's directors and Manager are considered related parties. The Investment Manager or affiliates of the Manager, as well as any sub-investment manager or their delegate, and associated or group company of the Manager, are considered connected parties.

**Manager.** Vanguard Group (Ireland) Limited is the Funds' Manager and acts as a principal in respect of all transactions of shares in the Funds. For its services, the Manager receives a fixed single fee per share class (the "Management Fees") calculated on a daily basis and paid monthly. Out of the fees received, the Manager pays for any sub-advisers, as well as the costs of administration including audit, depositary, legal, registration and regulatory fees associated with the Funds. As a result, the Manager anticipates that the ongoing charges figure ("OCF") of each share class will closely track the Management Fees. In the event that the costs and expenses of any Fund exceed the OCF, the Manager will be responsible for discharging any excess out of its own assets. The Manager, in its sole discretion, may voluntarily waive all or part of its fee, and any such waiver could be discontinued at any time and without notice.

Any amounts due from or to the Manager at the end of the year are disclosed in the Statement of Assets and Liabilities. Amounts earned by the Manager in respect to fees for the year are disclosed in the Statement of Operations.

The Annual Management Fees for each share class as for the year ended:

## Remuneration Disclosure

Vanguard personnel providing services to the Manager are subject to the Vanguard European Remuneration Policy (the "Remuneration Policy"). The Remuneration Policy includes the remuneration requirements of the UCITS V Directive (2014/91/EU). Details of the Remuneration Policy are available through <https://www.ie.vanguard/content/dam/intl/europe/documents/ch/en/ucits-v-remuneration-policy.pdf>, which will be updated periodically to reflect changes to the policy.

The governance of remuneration within Vanguard Europe is undertaken through a tiered structure, including Vanguard's Global Remuneration Committee and the European Leadership Team. The Global Remuneration Committee also operates at The Vanguard Group level and oversees the overall compensation programmes of The Vanguard Group. The European Leadership Team is responsible for implementing the remuneration programmes in accordance with Vanguard's total rewards philosophy and global organisation, including overseeing the Remuneration Policy.

The Remuneration Policy provides for an appropriate balance of fixed salary; benefits, such as pension; and annual bonus and long-term incentive arrangements. Incentives are based on the overall business performance of The Vanguard Group, or individual, team, business unit and fund performance. The incentive plans were reviewed and approved by the European Leadership Team (and other applicable groups) to ensure that the plans appropriately assess financial and non-financial performance and did not encourage conflicts of interest, and to ensure that risk or compliance issues were appropriately reflected.

The European Leadership Team also reviews and approves the list of UCITS code staff annually. Identified code staff are notified and understand the code staff responsibilities.

The table below presents the aggregate total remuneration paid to staff who provide services to the Funds and the aggregate total remuneration paid to all relevant UCITS code staff.

<sup>1</sup> This is the total number of employees who are fully or partly involved in the activities of the Funds. Includes both crew who have terminated during the year and part-year Code Staff.

<sup>2</sup> The staff in this table may provide services to other entities within The Vanguard Group.

<sup>3</sup> The remuneration disclosed is the total remuneration awarded to employees for 2024.

Remuneration reflects fixed pay (salary) and performance-related pay (annual and long-term incentives). Individual incentive outcomes under the plans are based on performance assessed by reference to an appropriate balance of quantitative and qualitative measures, such as behaviour, including compliance with all applicable policies. The individual incentive outcome is fully discretionary and, if appropriate, outcomes based on financial performance can be overridden based on the qualitative measures.

## Connected Persons Disclosure

Transactions carried out with the Company by the Investment Manager, Manager, Depositary and/or associated or group companies of these ("Connected Persons") during the year ended 31 December 2024 were carried out as if negotiated at arm's length and were in the best interests of the Company's Shareholders. The Directors of the Company are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that all transactions entered into by the Company with Connected Persons are carried out as if negotiated at arm's length and in the best interests of the Company's Shareholders.

## Securities Financing Transactions Regulation (“SFTR”)

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- A repurchase/reverse repurchase agreement.
- Securities or commodities lending and securities or commodities borrowing.
- A buy-sell back transaction or sell-buy back transaction.
- A margin lending transaction.

As at 31 December 2024, the Company had securities lending programme and total return swaps as a type of SFT under the scope of the SFTR.

For total return swaps, returns are identified as the realised gains/losses and change in unrealised gains/losses on the swap contract during the reporting period which are included as part of the Net Gain/Loss on Financial Instruments in the Statement of Operations. Cost pertains to transaction costs related to entering into the swap contract. For these investments, the cost is not separately identifiable and is part of the investment performance.

## EU Sustainable Finance

The Funds listed below promoted environmental and/or social characteristics during the financial period, however, such Funds do not commit to making sustainable investments (including environmentally sustainable investments within the meaning of the Taxonomy Regulation). As such, these Funds each make a minimum commitment of 0% in environmentally sustainable investments. The Funds did not make sustainable investments during the reference period and consequently did not make any sustainable investments with an environmental objective aligned with the Taxonomy Regulation. The Taxonomy Regulation requires us to disclose the following statement in respect of the Funds listed below:

- Vanguard ESG Developed Europe Index Fund
- Vanguard ESG Developed World All Cap Equity Index Fund
- Vanguard ESG Emerging Markets All Cap Equity Index Fund
- Vanguard ESG Global Corporate Bond Index Fund
- Vanguard Selected Screened Euro Investment Grade Bond Index Fund

The “do no significant harm” principle applies only to those investments underlying the Funds that take into account the EU criteria for environmentally sustainable economic activities.

The investments underlying the remaining portion of the Funds do not take into account the EU criteria for environmentally sustainable economic activities.

For further details in respect of the environmental and social characteristics promoted by the Funds and other related sustainable finance information, please see the relevant information outlined in the Appendix to this annual report.

# Report of the Depositary to the Shareholders (unaudited)

We have enquired into the conduct of the Vanguard Investment Series plc ("the Company") for the year ended 31 December 2024 in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the Shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended ("the UCITS Regulations"), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

## Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not complied we, as Depositary, must state why this is the case and outline the steps which we have taken to rectify the situation.

## Basis of Depositary opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Memorandum and Articles of Association and the appropriate regulations; and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

## Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* issued in the United Kingdom by the Financial Reporting Council.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2024 and of its increase in net assets attributable to holders of redeemable participating shares for the year then ended;
- the financial statements have been properly prepared in accordance with FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*; and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities Regulations) 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

##### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We have fulfilled our ethical responsibilities under, and we remained independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), as applied to listed entities.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### **Conclusions relating to going concern**

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the director's assessment of the entity's ability to continue to adopt the going concern basis of accounting included considering the inherent risks to the Company's business model and analysis of how those risks might affect the Company's financial resources or ability to continue operations over the going concern period. The risks we considered most likely to adversely affect the Company's available financial resources over this period was the availability of capital to meet operating costs and other financial commitments (liquidity risk) and the valuation of investments at fair value as a result of market performance (price risk).

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

### ***Detecting irregularities including fraud***

We identified the areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements and risks of material misstatement due to fraud, using our understanding of the entity's industry, regulatory environment and other external factors and inquiry with the directors. In addition, our risk assessment procedures included:

- Inquiring with the directors and other management as to the Company's policies and procedures regarding compliance with laws and regulations, identifying, evaluating and accounting for litigation and claims, as well as whether they have knowledge of non-compliance or instances of litigation or claims.
- Inquiring of directors, as to the Company's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Inquiring of directors regarding their assessment of the risk that the financial statements may be materially misstated due to irregularities, including fraud.
- Inspecting the Company's regulatory correspondence.
- Reading the Board minutes and the Audit Committee minutes.
- Performing planning analytical procedures to identify any usual or unexpected relationships.

We discussed identified laws and regulations, fraud risk factors and the need to remain alert among the audit team.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including companies and financial reporting legislation. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items, including assessing the financial statement disclosures and agreeing them to supporting documentation when necessary.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: certain aspects of company legislation recognising the financial and regulated nature of the Company's activities and its legal form.

Auditing standards limit the required audit procedures to identify non-compliance with these non-direct laws and regulations to inquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. These limited procedures did not identify actual or suspected non-compliance.

We assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. As required by auditing standards, we performed procedures to address the risk of management override of controls. On this audit we do not believe there is a fraud risk related to revenue recognition. We did not identify any additional fraud risks.

In response to the fraud risks, we also performed procedures including:

- Examining a sample of journal entries posted during the period and at year end and also performing detailed test procedures on post-closing adjustments.
- Evaluating the business impact of significant unusual transactions
- Assessing significant accounting estimates for bias
- Assessing the disclosures in the financial statements.

As the Company is regulated, our assessment of risks involved obtaining an understanding of the legal and regulatory framework that the Company operates and gaining an understanding of the control environment including the entity's procedures for complying with regulatory requirements.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remains a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

**Key audit matters: our assessment of risks of material misstatement**

Key audit matters are those matters that, in our professional judgement, were of most significance in the audit of the financial statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In arriving at our audit opinion above, the key audit matter was as follows (unchanged from 2023):

**Valuation, Accuracy and Ownership of financial assets and liabilities at fair value through profit or loss**

**Transferable Securities (Assets) USD 145,051,626,627 (2023: USD 129,311,336,933), Transferable Securities (Liabilities) USD 0 (2023: USD 23,715,758), Financial Derivative Instruments (Assets) USD 526,983,575 (2023: USD 435,122,986), Financial Derivative Instruments (Liabilities) USD 821,163,569 (2023: USD 308,995,747), together being the Company’s “Investments”.**

Refer to page 1292 (Note 3d - Financial Assets and Financial Liabilities), page 1293 (Note 3e – Fair Value Measurement) and pages 1335 to 1347 (Note 17 - Fair Value Hierarchy)

| The key audit matter  | How the matter was addressed in our audit   |
|---|---|
| <p>The Company’s investments make up 98.5% of the net asset value (“NAV”) of the Company, and are considered to be the key driver for the Company’s results.</p> <p>While the nature of the Company’s investments do not require significant levels of judgement, investments are identified as a significant area of audit focus due to their significance in the context of the financial statements as a whole.</p> <p>Due to the size of the portfolio and the fact that the investments are the main assets owned by the Company, there is a risk that the investments within the portfolio may not exist or be owned by the Company at 31 December 2024.</p> <p>Investments held by the Company include equities, fixed income securities, futures contracts, forward currency exchange contracts, credit default swap contracts, currency options, inflationary swaps, total return swap contracts and interest rate swap contracts.</p> <p>The Company’s investments have the greatest impact on our overall audit strategy and allocation of resources both at planning and completion of our audit.</p> <p>For the reasons outlined above the engagement team determine this matter to be a key audit matter.</p> | <p>Our audit procedures included:</p> <ul style="list-style-type: none"> <li>- We obtained an understanding of the process in place to record investment transactions and to price the portfolio of investments.</li> <li>- We obtained independent external confirmation of transferable securities held by the Company, including securities on loan, as at 31 December 2024 directly from the Depository. Confirmations obtained were reconciled to the Company’s records.</li> <li>- We obtained independent external confirmation of or performed alternative procedures on 100% of the financial derivative instruments held by the Company. Confirmations obtained were reconciled to the Company’s records.</li> <li>- We engaged our valuation specialist to assist us to independently re-price and value accurately 99.9% of investments held by the Company as at 31 December 2024.</li> <li>- We have tested relevant attributes of a sample of investments that are used as inputs into the valuation of investments.</li> <li>- We assessed the adequacy of the disclosures of investments in accordance with the fair value level hierarchy as set out in FRS 102.</li> </ul> <p>Based on evidence obtained, we found that no material misstatements were identified as a result of the procedures performed.</p> |

**Our application of materiality and an overview of the scope of our audit**

Materiality for the financial statements as a whole was set at USD 1,470 million (2023: USD 1,310 million), determined with reference to a benchmark of the Company’s net asset value of which it represents 100 basis points (2023: 100 basis points).

In applying our judgement in determining the most appropriate benchmark, the factors, which had the most significant impact were:

- the elements of the financial statements (for example, total assets, net asset value, total investment income and decrease in net assets attributable to holders of redeemable participating shares);
- the items on which attention of the users of the Company's financial statements tends to be focused;
- the nature of the Company, where the Company is in its life cycle, and the industry and economic environment in which the Company operates; and
- the Company's ownership structure and the way it is financed.

In applying our judgement in determining the percentage to be applied to the benchmark, the following qualitative factors, which had the most significant impact, increasing our assessment of materiality were:

- the Company's ownership structure and the way in which the entity is financed;
- the limited amount of external debt on the Company's balance sheet; and
- the stability of the business environment in which it operates.

We applied Company materiality to assist us to determine the overall audit strategy.

Performance materiality for the financial statements as a whole was set at USD 1,103 million (2023: USD 982 million), determined with reference to a benchmark of the Company's net asset value of which it represents 75 basis points (2023: 75 basis points).

In applying our judgement in determining performance materiality, the following factors were considered to have the most significant impact on our assessment of performance materiality:

- entity level control deficiencies, such as in the control environment;
- the number and severity of deficiencies in control activities, including those that may be pervasive;
- turnover of senior management or key financial reporting personnel;
- the number and/or value of detected misstatements;
- the value of uncorrected misstatements, including the cumulative current period effect of immaterial prior period uncorrected misstatements; and
- management's attitude towards correcting misstatements.

We applied Company performance materiality to assist us determine what risks were significant risks for the Company.

We reported to the Audit Committee any corrected or uncorrected identified misstatements exceeding 5 basis points (2023: 5 basis points) of the Company's net asset value, in addition to other audit misstatements that we believe warranted reporting on qualitative grounds. With specific regard to the valuation of the Company's financial assets and liabilities at fair value through profit or loss, we also report to the Audit Committee all corrected and uncorrected errors we have identified through our audit with a value in excess of 50 basis points of each sub-fund's net asset value.

Our audit was undertaken to the materiality and performance materiality level specified above and was all performed by a single engagement team in Dublin.

#### **Other information**

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the section labelled, 'Investment Objective' of each fund, 'Tracking Error', 'Performance Summary' of each fund, 'Significant Portfolio Changes' of each fund, 'Report from the Directors', 'Additional Information and Regulatory Disclosures', 'Report of the Depositary to the Shareholders', 'Additional Information for Investors in the Federal Republic of Germany', 'Additional Information for Investors in Italy' and 'Appendix: EU Sustainable Finance'. The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information undertaken during the course of the audit, we report that:

- we have not identified material misstatements in the directors' report;

- in our opinion, the information given in the directors' report is consistent with the financial statements;  
and
- in our opinion, the directors' report has been prepared in accordance with the Companies Act 2014.

***Our opinions on other matters prescribed by the Companies Act 2014 are unmodified***

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

***We have nothing to report on other matters on which we are required to report by exception***

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

**Respective responsibilities and restrictions on use**

***Responsibilities of directors for the financial statements***

As explained more fully in the directors' responsibilities statement set out on page 3, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

***Auditor's responsibilities for the audit of the financial statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/>.

***The purpose of our audit work and to whom we owe our responsibilities***

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**Product name:**  
Vanguard ESG Developed Europe Index Fund formerly Vanguard SRI European Stock Fund

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: \_\_\_%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

Effective 24th June 2024 the sub fund and benchmark changed from Vanguard SRI European Stock Fund to above and benchmark changed from FTSE Developed Europe Index to FTSE Developed Europe Choice Index. For more detail around the change click [here](#) for the share holder notice.

From 24th June 2024: Through the screening out of stocks of companies from its portfolio based on the potentially detrimental impact of their conduct or products on society and / or the environment the Fund promoted certain environmental and/or social characteristics.

This Fund is passively managed. Its objective is to track the performance of the FTSE Developed Europe Choice Index (the "Index"). For this reason, the Index also serves as the designated Reference Benchmark for the purpose of attaining the environmental and / or social characteristics promoted by the Fund.

The Index methodology excludes stocks of companies that the sponsor of the Index determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to the following:

- (a) Vice Products (adult entertainment, alcohol, gambling, tobacco, cannabis);
- (b) Non-Renewable Energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) oil sands)); and
- (c) Weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons).

The index provider defines what constitutes "involvement" in each activity. This may be based on percentage of revenue or any connection to a restricted activity regardless of the amount of revenue received, and will relate to specific parts of the supply chain. Details regarding what constitutes "involvement" for each activity and/or the revenue thresholds applied can be found in Appendix A (Product-related exclusions) of the FTSE ground rules document found at the links below under the heading 'Where can the methodology used for the calculation of the designated index be found?'. Additional details regarding the rules applied by the Index provider, including treatment of company ownership structures, can be found in the documents which are linked to in the ground rules document.

The Index methodology also excludes stocks of companies based on certain controversial conduct, which is achieved by excluding companies that have been deemed 'Non-Compliant' (determined to be causing or contributing (or directly linked) to severe or systemic and/or systematic violations of international norms) in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards by reference to data provided by a third party data provider (further details of which may be obtained in the documents linked to in the 'Further Information on the Index' section below).

The Index also excludes companies specifically on the USA's Department of Homeland Security's Uyghur Forced Labor Prevention Act Entity List.

Pre 24th June 2024: The Sub-Fund promoted environmental and social characteristics by excluding companies from its portfolio based on the impact of their conduct or products on society and / or the environment, the Sub-Fund promoted certain environmental and/or social characteristics. The Index provider has developed a screening process designed to analyse companies issuing securities in the Index. The screening process seeks to exclude Index constituents that are issued by companies which (as determined by the Index provider) are involved in certain business activities related to (1) chemical and biological weapons, (2) cluster munitions, (3) anti-personnel land mines 4) nuclear weapons or (5) the manufacture and distribution of tobacco products.

The screening process also seeks to exclude Index constituents that are issued by companies. Through the screening out of stocks of companies from its portfolio based on the potentially detrimental impact of their conduct or products on society and / or the environment, the Sub-Fund promoted certain environmental and/or social characteristics. The Index provider has developed a screening process designed to analyse companies issuing securities in the Index. The screening process seeks to exclude Index constituents that are issued by companies which (as determined by the Index provider) are involved in certain business activities related to (1) chemical and biological weapons, (2) cluster munitions, (3) anti-personnel land mines, (4) nuclear weapons and or (5) the manufacture and distribution of tobacco products.

The screening process also seeks to exclude Index constituents that are issued by companies based on certain controversial conduct, which is achieved by excluding companies that have been deemed 'Non-Compliant' (determined to be causing or contributing (or directly linked) to severe or systemic and/or systematic violations of international norms) in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards through third party data which is utilised by the Index provider.

A Reference Benchmark has not been designated for the purpose of attaining the environmental and / or social characteristics promoted by the Sub-Fund.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 1.74%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.01%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the sustainability indicators perform?**

The Investment Manager measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Index.

Regarding the extent to which the exclusions have been applied, the exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Index can be found in the table below. These figures are weighted averages of the actual rate of exclusion by market value as at the end of March, June, September and December 2024.

| Exclusion Category   | Exclusion Rate (%) |
|----------------------|--------------------|
| Controversies        | 2.39%              |
| Non-Renewable Energy | 15.33%             |
| Vice Products        | 3.82%              |
| Weapons              | 4.37%              |
| Overall Exclusions   | 24.64%             |

● **...and compared to previous periods?**

| Exclusion Category | 2023  | 2022  |
|--------------------|-------|-------|
| Overall            | 5.61% | 5.66% |

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social

and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By avoiding investment in controversial weapons (i.e., cluster munitions, land mines, biochemical and nuclear weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)<sup>1</sup>

<sup>1</sup>The values of this principal adverse impact indicator can be found in the table below. These figures are weighted averages of the actual values as at the end of March and June 2024.

Post 24th June - Dec year end 2024: By excluding stocks of companies that the sponsor of the Index determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas, and (vi) oil sands)), the Fund considers the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector<sup>2</sup>

By excluding stocks of companies that the sponsor of the Index determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to weapons (including chemical & biological weapons, cluster munitions and anti-personnel landmines), the Fund considers the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)<sup>2</sup>

The third party data which is utilized by the Index provider considers a number of norms and standards including those that are enshrined in the UN Global Compact and the Organization for Economic Co-operation and Development Guidelines for Multinational Enterprises. By excluding stocks of companies based on certain controversial conduct (which is achieved by excluding companies that meet certain criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards and other international norms)), the Fund considers the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.<sup>2</sup>

<sup>2</sup>For the period post the changes to the Fund effective from 24th June 2025. These figures are weighted averages of the actual values as at the end of September and December 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

| Indicator  | Impact | Measure    | Data Coverage % |

**Asset allocation** describes the share of investments in specific assets.

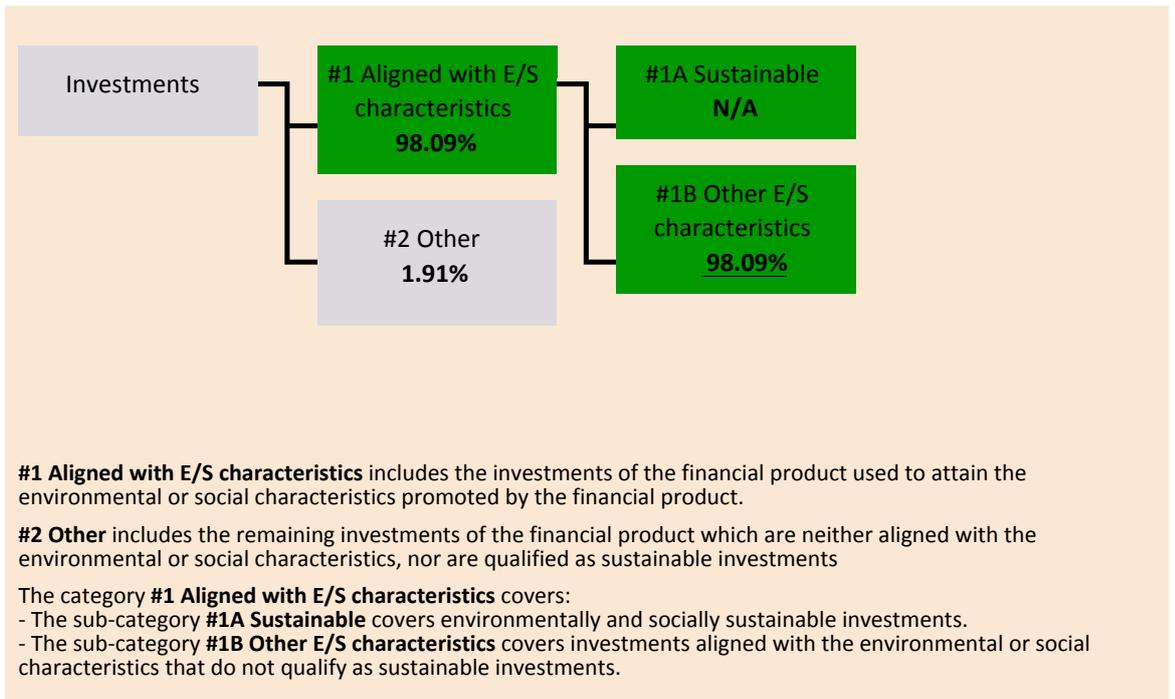

## What was the proportion of sustainability-related investments?

Please see the information below in this respect.

### ● **What was the asset allocation?**

The Fund invested 98.09% (Compared to 2023: 99.63%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to make any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 1.91% (Compared to 2023: 0.37%) of the Fund's net assets were invested in other investments ("#2 Other"), which were not aligned with environmental and/or social characteristics promoted by the Fund.

## ● In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Industry Benchmark Classification) with the other sectors at level 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of March, June, September and December 2024.

| Utilities              | Multi-Utilities                      | 0.33%    |

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 1.74%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.01%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

The figures are not subject to an assurance provided by one or more auditors or a review by one or more third parties.

are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

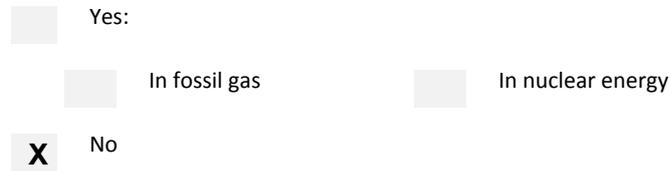

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

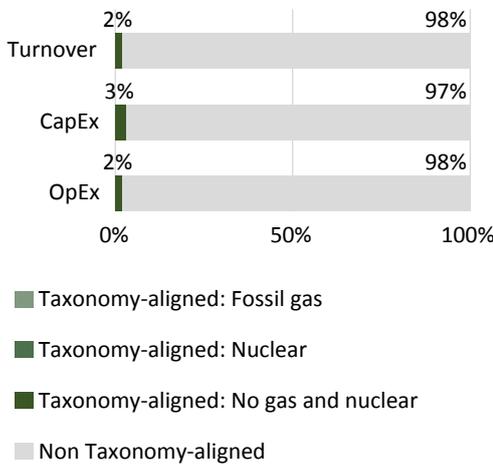

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>(1)</sup>?**

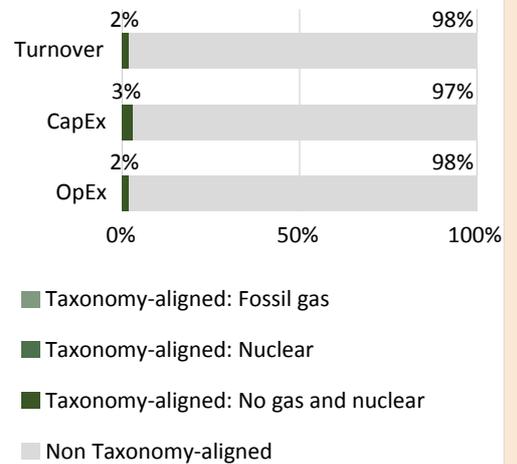

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 100.00% of the total Investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.06%
- Enabling Activities = 1.11%

The figures are weighted averages of the actual values as at the end of March, June, September and December 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Please note that for the 2024 reporting period is the first time Vanguard is reporting the following EU Taxonomy environmental objectives as the taxonomy-aligned data has been made available for this period: Climate Change Adaptation, Sustainable use and protection of water and marine resources, Transition to a circular economy, Pollution prevention and control and Protection and restoration of biodiversity and ecosystems.

| Environmental Objectives                                     | 2023 | 2022 |
|--|------|------|
| Climate Change Mitigation                                    | 0.01 | 0.02 |

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

**What was the share of socially sustainable investments?**

Not applicable.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The remaining 1.91% (Compared to 2023: 0.37%) of net assets which fell into the sub-category “#2 Other” represents the indirect exposures which were used for efficient portfolio management purposes only. Such assets were cash, FX and financial derivative instruments which are used for liquidity management, and such assets are not subject to any minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

## How did this financial product perform compared to the reference benchmark?

Please see the information below in this respect.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### ● **How does the reference benchmark differ from a broad market index?**

The Index is constructed from the FTSE Developed Europe Index which is then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

### ● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

See above.

### ● **How did this financial product perform compared with the reference benchmark?**

The figures in the table below show financial performance between June 24th 2024 and December 31st 2024.

Please note that the benchmark index tracked by the Fund changed with effect from 24 June 2024 the performance data relates to the FTSE Developed Europe Choice Index.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

Effective 24 March 2025, certain changes were made to the Index tracked by the Fund. The information below is presented prior to such changes taking effect. Further information on the current investment policy of the Fund can be found in the current prospectus.

Through the screening out of stocks of companies from its portfolio based on the potentially detrimental impact of their conduct or products on society and / or the environment the fund promoted certain environmental and/or social characteristics.

This Fund is passively managed. Its objective is to track the performance of the FTSE Developed All Cap Choice Index (the "Index"). For this reason, the Index also serves as the designated Reference Benchmark for the purpose of attaining the E/S characteristics promoted by the Fund.

The Index methodology excluded stocks of companies that the sponsor of the Index determined (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from, certain activities relating to the following activities:

- (a) Vice Products (adult entertainment, alcohol, gambling, tobacco, cannabis);
- (b) Non-Renewable Energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services and (iv) oil and gas and thermal coal power generation; and
- (c) Weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons).

The Index methodology also excludes companies based on certain controversial conduct, which is achieved by excluding companies that meet the following criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anticorruption standards: For large and mid-cap sized companies (as determined by the Index provider), those which have been deemed 'Non-Compliant' with such standards; For small-cap size companies (as determined by the Index provider), those which have been deemed either 'Watchlist' or 'Non-Compliant' with such standards, in each case by reference to data provided by a third party data provider (further details of which may be obtained in the prospectus). The Index also excludes companies specifically on the USA's Department of Homeland Security's Uyghur Forced Labor Prevention Act Entity List.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.23%
- Climate Change Adaptation = 0.01%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

### ● **How did the sustainability indicators perform?**

The Investment Manager measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE Developed All Cap Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately. The exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Parent Index can be found in the table below. These figures are weighted averages of the actual rate of exclusion by market value as at the end of March, June, September and December 2024.

| Exclusion Category   | Exclusion Rate (%) |
|----------------------|--------------------|
| Controversies        | 2.75%              |
| Non-Renewable Energy | 13.66%             |
| Vice Products        | 1.88%              |
| Weapons              | 4.12%              |
| Overall Exclusions   | 19.00%             |

### ● **...and compared to previous periods?**

|--------------------|--------|--------|
| Overall            | 20.16% | 20.63% |

### ● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding stocks of companies that the sponsor of the Index determined (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to non-renewable energy (nuclear power and fossil fuels (which included (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services and (iv) oil and gas and thermal coal power generation the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding stocks of companies that the sponsor of the Index determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to weapons (including chemical & biological weapons, cluster munitions and anti- personnel landmines), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

The third party data which is utilized by the Index provider considers a number of norms and standards including those that are enshrined in the UN Global Compact and the Organization for Economic Co-operation and Development Guidelines for Multinational Enterprises.

By excluding stocks of companies based on certain controversial conduct (which is achieved by excluding companies that meet certain criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles and other international norms)), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of this principal adverse impact indicator can be found in the table below. These figures are weighted averages of the actual values as at the end of March, June, September and December 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor. Each data provider uses different approaches to assess ESG credentials, which can result in different outcomes in their determination of a company's involvement in certain business activities.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

| Indicator  | Impact | Measure    | Data Coverage % |

## What was the proportion of sustainability-related investments?

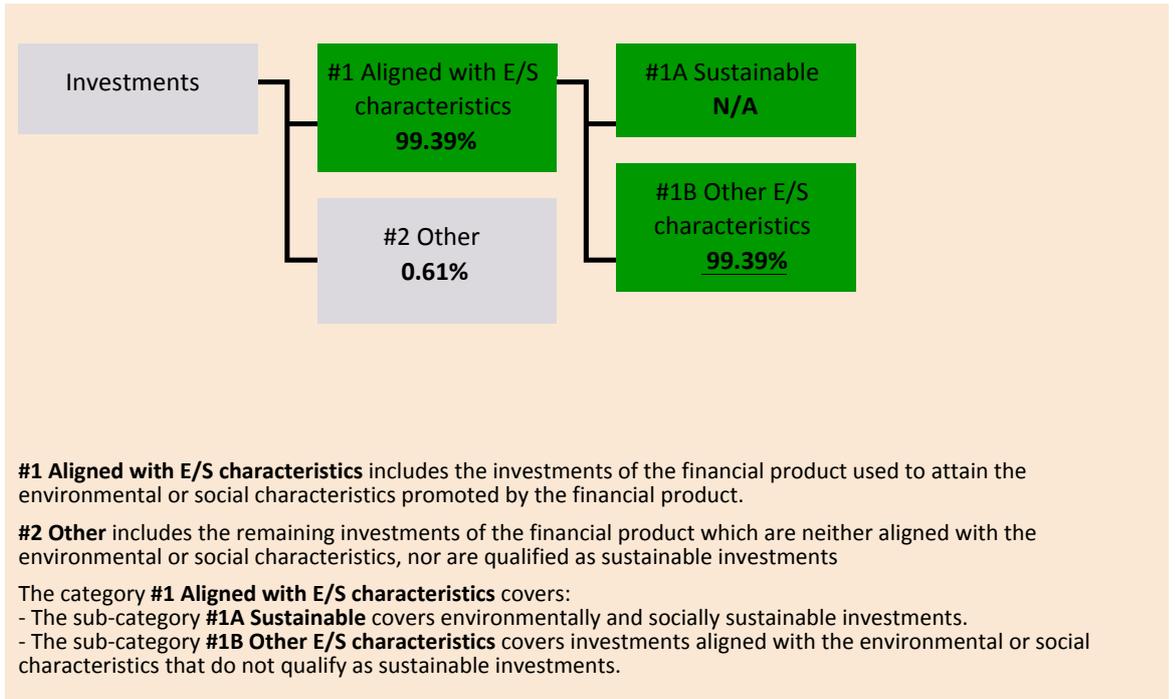

Please see the information below in this respect.

**Asset allocation** describes the share of investments in specific assets.

### ● **What was the asset allocation?**

The Fund invested 99.39% (Compared to 2023: 99.46%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to make any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 0.61% (Compared to 2023: 0.54%) of the Fund's net assets were invested in other investments ("#2 Other"), which were not aligned with environmental and/or social characteristics promoted by the Fund.

## ● In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Industry Benchmark Classification) with the other sectors at level 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of March, June, September and December 2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.23%
- Climate Change Adaptation = 0.01%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

The figures are not subject to an assurance provided by one or more auditors or a review by one or more third parties.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement

greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

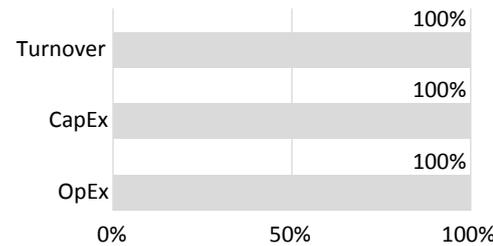

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>(1)</sup>?**

Yes:  In fossil gas  In nuclear energy

No:

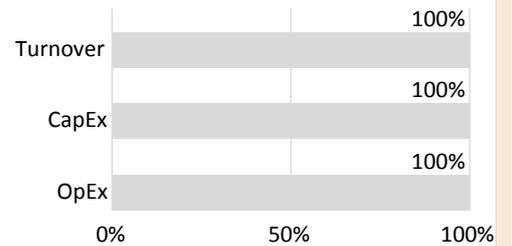

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned: No gas and nuclear
- Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned: No gas and nuclear
- Non Taxonomy-aligned

This graph represents 100.00% of the total Investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.01%
- Enabling Activities = 0.13%

The figures are weighted averages of the actual values as at the end of March, June, September and December 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

Please note that for the 2024 reporting period is the first time Vanguard is reporting the following EU Taxonomy environmental objectives as the taxonomy-aligned data has been made available for this period: Climate Change Adaptation, Sustainable use and protection of water and marine resources, Transition to a circular economy, Pollution prevention and control and Protection and restoration of biodiversity and ecosystems.

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

### What was the share of socially sustainable investments?

Not applicable.

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining 0.61% (Compared to 2023: 0.54%) of net assets which fell into the sub-category “#2 Other” represents the indirect exposures which were used for efficient portfolio management purposes only. Such assets were cash, FX and financial derivative instruments which are used for liquidity management, and such assets are not subject to any minimum environmental or social safeguards.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

## How did this financial product perform compared to the reference benchmark?

Please see the information below in this respect.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### ● *How does the reference benchmark differ from a broad market index?*

The Index was constructed from the FTSE Developed All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

### ● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

See above.

### ● *How did this financial product perform compared with the reference benchmark?*

The figures in the table below show financial performance between January 1st 2024 and December 31st 2024.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

**Yes**

**No**

It made **sustainable investments with an environmental objective**: \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: \_\_\_%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

Effective 24 March 2025, certain changes were made to the Index tracked by the Fund. The information below is presented prior to such changes taking effect. Further information on the current investment policy of the Fund can be found in the current prospectus.

Through the screening out of stocks of companies from its portfolio based on the potentially detrimental impact of their conduct or products on society and / or the environment the fund promoted certain environmental and/or social characteristics.

This Fund is passively managed. Its objective is to track the performance of the FTSE Emerging All Cap Choice Index (the "Index"). For this reason, the Index also serves as the designated Reference Benchmark for the purpose of attaining the E/S characteristics promoted by the Fund.

The Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, the following activities:

- (a) Vice Products (i.e., adult entertainment, alcohol, gambling, tobacco, cannabis);
- (b) Non-Renewable Energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)); and
- (c) Weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons).

The Index methodology also excluded companies that, as determined by the Index provider, are involved in severe controversies (i.e., companies which do not meet the labour, human rights, environmental, and anticorruption standards as defined by the United Nations Global Compact Principles).

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.03%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%

- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the sustainability indicators perform?**

The Investment Manager measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE Emerging All Cap Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately. The exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Parent Index can be found in the table below. These figures are weighted averages of the actual rate of exclusion by market value as at the end of March, June, September and December 2024.

| Exclusion Category   | Exclusion Rate (%) |
|----------------------|--------------------|
| Controversies        | 8.48%              |
| Non-Renewable Energy | 12.42%             |
| Vice Products        | 2.34%              |
| Weapons              | 2.42%              |
| Overall Exclusions   | 20.86%             |

● **...and compared to previous periods?**

| Exclusion Category | 2023   | 2022   |
|--------------------|--------|--------|
| Overall            | 21.09% | 18.76% |

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

## How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding stocks of companies that the sponsor of the Index determined (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to non-renewable energy (nuclear power and fossil fuels (which included (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services (iii) coal extraction, production and supporting services and (iv) oil and gas and thermal coal power generation), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding stocks of companies that the sponsor of the Index determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to weapons (including chemical & biological weapons, cluster munitions and anti-personnel landmines), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

The third party data which is utilized by the Index provider considers a number of norms and standards including those that are enshrined in the UN Global Compact and the Organization for Economic Co-operation and Development Guidelines for Multinational Enterprises.

By excluding stocks of companies based on certain controversial conduct (which is achieved by excluding companies that meet certain criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards and other international norms), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of this principal adverse impact indicator can be found in the table below. These figures are weighted averages of the actual values as at the end of March, June, September and December 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor. Each data provider uses different approaches to assess ESG credentials, which can result in different outcomes in their determination of a company's involvement in certain business activities.

| Indicator  | Impact | Measure    | Data Coverage % |
|--|--------|------------|-----------------|
| Exposure to companies active in the fossil fuel sector   | 2      | Percentage | 96%             |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | 0      | Percentage | 96%             |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)                                 | 1      | Percentage | 96%             |

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 January 2024 to 31 December 2024

**Asset allocation** describes the share of investments in specific assets.

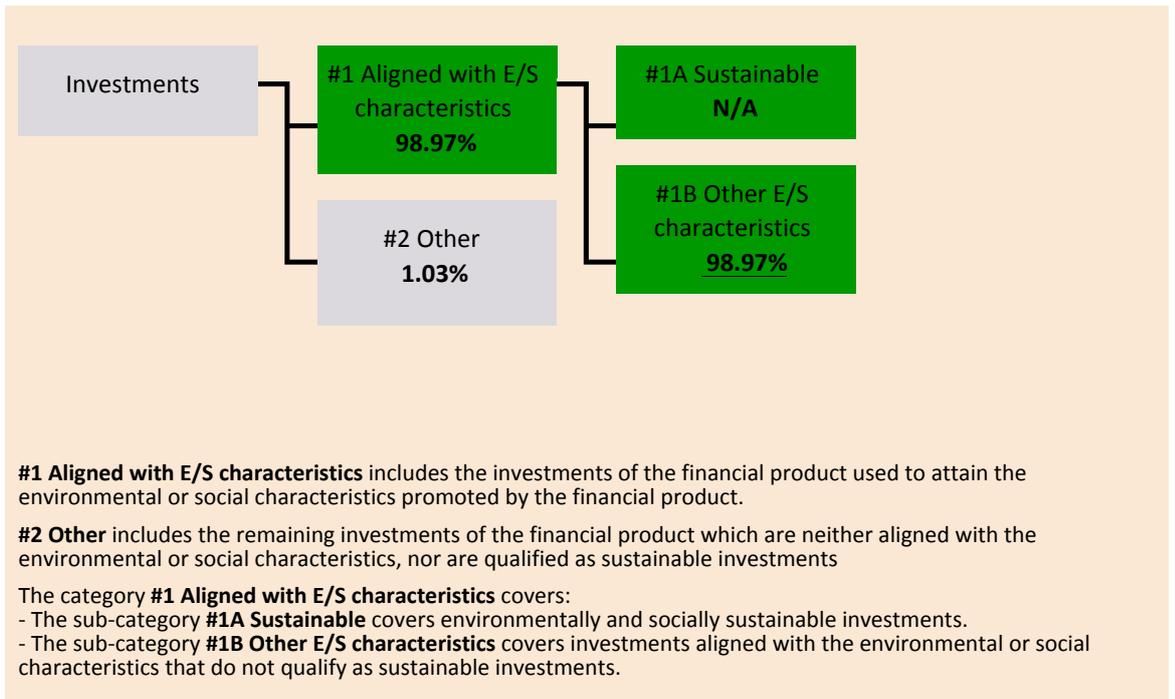

## What was the proportion of sustainability-related investments?

Please see the information below in this respect.

### ● **What was the asset allocation?**

The Fund invested 98.97% (Compared to 2023: 98.64%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to make any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 1.03% (Compared to 2023: 1.36%) of the Fund's net assets were invested in other investments ("#2 Other"), which were not aligned with environmental and/or social characteristics promoted by the Fund.

## ● In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Industry Benchmark Classification) with the other sectors at level 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of March, June, September and December 2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.03%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

The figures are not subject to an assurance provided by one or more auditors or a review by one or more third parties.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of

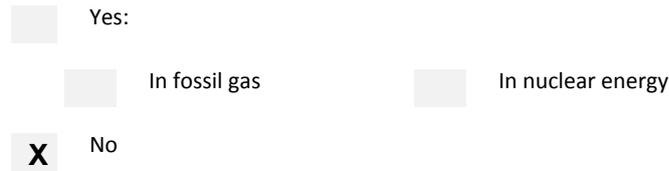

greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

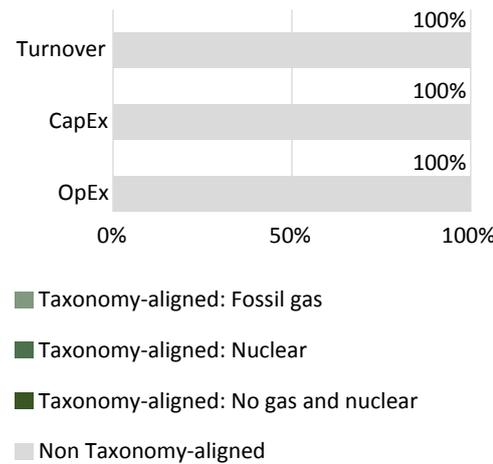

the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>(1)</sup>?**

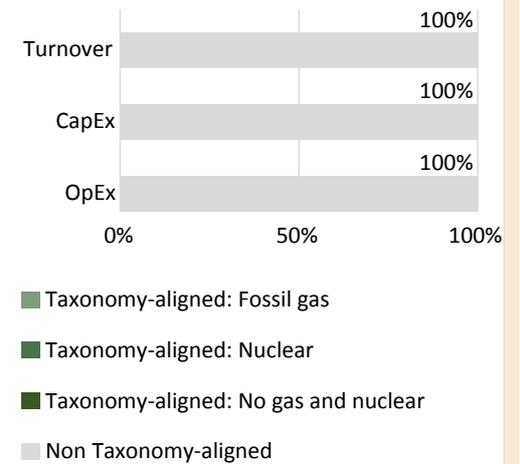

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**1. Taxonomy-alignment of investments including sovereign bonds\***

**2. Taxonomy-alignment of investments excluding sovereign bonds\***

This graph represents 100.00% of the total Investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

**What was the share of investments made in transitional and enabling activities?**

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.00%
- Enabling Activities = 0.00%

The figures are weighted averages of the actual values as at the end of March, June, September and December 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

Please note that for the 2024 reporting period is the first time Vanguard is reporting the following EU Taxonomy environmental objectives as the taxonomy-aligned data has been made available for this period: Climate Change Adaptation, Sustainable use and protection of water and marine resources, Transition to a circular economy, Pollution prevention and control and Protection and restoration of biodiversity and ecosystems.

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

| Environmental Objectives                                     | 2023 | 2022 |
|--|------|------|
| Climate Change Mitigation                                    | 0    | 0    |

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

**What was the share of socially sustainable investments?**

Not applicable.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The remaining 1.03% (Compared to 2023: 1.36%) of net assets which fell into the sub-category “#2 Other” represents the indirect exposures which were used for efficient portfolio management purposes only. Such assets were cash, FX and financial derivative instruments which are used for liquidity management, and such assets are not subject to any minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

## How did this financial product perform compared to the reference benchmark?

Please see the information below in this respect.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### ● *How does the reference benchmark differ from a broad market index?*

The Index was constructed from the FTSE Emerging All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

### ● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

See above.

### ● *How did this financial product perform compared with the reference benchmark?*

The figures in the table below show financial performance between January 1st 2024 and December 31st 2024.

| Share Class                 | Fund Performance (%) | Reference Benchmark Performance (%) |

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

**Yes**    **No**

It made **sustainable investments with an environmental objective**: \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: \_\_\_%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

Effective 31 March 2025, certain changes were made to the Index tracked by the Fund. The information below is presented prior to such changes taking effect. Further information on the current investment policy of the Fund can be found in the current prospectus.

Through the screening out of bonds issued by corporate issuers from its portfolio based on the potentially detrimental impact of the relevant corporate issuer's conduct or products on society and / or the environment, the Fund promoted certain environmental and social characteristics.

This Fund is passively managed. Its objective is to track the performance of the Bloomberg MSCI Global Corporate Float Adjusted Bond Screened Index (the "Index") which is a designated Reference Benchmark for the purpose of attaining the environmental and / or social characteristics promoted by the Fund.

The Index methodology excluded the bonds of corporate issuers that MSCI determined (a) were involved in specific parts of the supply chain for and/or (b) derived revenue (above a threshold specified by the Index Provider) from, certain activities related to the following:

(a) adult entertainment, alcohol, gambling, tobacco, (b) nuclear weapons, controversial weapons, conventional weapons, civilian firearms (c) nuclear power, or fossil fuels, thermal coal, oil, gas or oil sands).

The index methodology also excluded the bonds of corporate issuers that, as determined by MSCI, had no controversy score or a controversy score of zero as defined by MSCI's ESG controversies assessment framework.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.70%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental

objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the sustainability indicators perform?**

The Investment Manager measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the Bloomberg Global Aggregate Float Adjusted Corporate Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the reference benchmark appropriately. The exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Parent Index can be found in the table below. These figures are the actual rate of exclusion by market value as at the end of March, June, September and December 2024.

| Exclusion Category   | Exclusion Rate (%) |
|----------------------|--------------------|
| Controversies        | 3.21%              |
| Non-Renewable Energy | 18.07%             |
| Vice Products        | 5.05%              |
| Weapons              | 3.13%              |
| Overall Exclusions   | 27.87%             |

● **...and compared to previous periods?**

| Exclusion Category | 2023   | 2022   |
|--------------------|--------|--------|
| Overall            | 30.05% | 34.82% |

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding the bonds of corporate issuers that MSCI determined (a) to be involved in specific parts of the supply chain for, and/or (b) deriving revenue (above a threshold specified by the Index provider) from certain business activities related to nuclear power or fossil fuels, thermal coal, oil or gas, the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for, and/or (b) derive revenue (above a threshold specified by the Index provider) from certain business activities related to controversial weapons (chemical & biological weapons, cluster munitions and anti-personnel landmines), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

MSCI's controversy score framework considers a number of global norms and conventions including the ten principles of the United Nations Global Compact and the Organisation for Economic Co-operation and Development Guidelines for Multinational Enterprises. By excluding the bonds of corporate issuers that as determined by MSCI, have no controversy score or a controversy score of zero defined by MSCI's ESG controversies assessment framework the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of this principal adverse impact indicator can be found in the table below. These figures are the actual values as at the end of March, June, September and December 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor. Each data provider uses different approaches to assess ESG credentials, which can result in different outcomes in their determination of a company's involvement in certain business activities.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

| Indicator  | Impact | Measure    | Data Coverage % |
|--|--------|------------|-----------------|
| Exposure to companies active in the fossil fuel sector   | 0      | Percentage | 85%             |
| Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | 1      | Percentage | 85%             |
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)                                 | 0      | Percentage | 85%             |

**Asset allocation** describes the share of investments in specific assets.

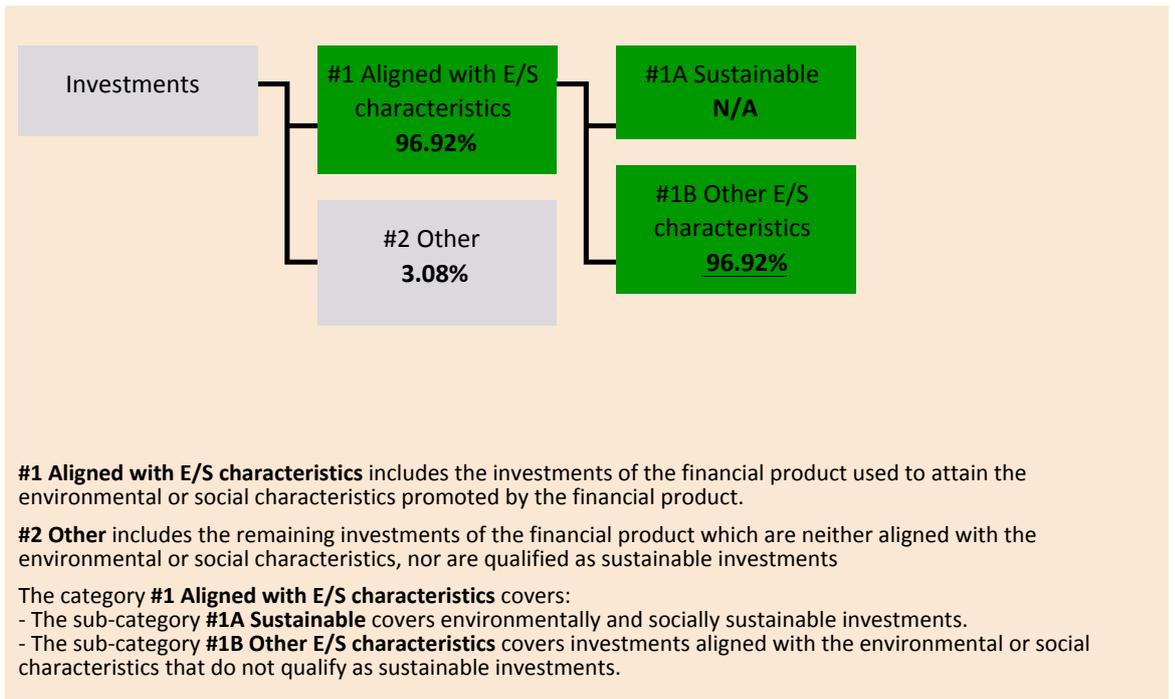

## What was the proportion of sustainability-related investments?

Please see the information below in this respect.

### ● **What was the asset allocation?**

The Fund invested 96.92% (Compared to 2023: 98.95%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to make any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 3.08% (Compared to 2023: 1.05%) of the Fund's net assets were invested in other investments ("#2 Other"), which were not aligned with environmental and/or social characteristics promoted by the Fund.

## ● In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Global Industry Classification System) with the other sectors at level 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of March, June, September and December 2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.70%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

The figures are not subject to an assurance provided by one or more auditors or a review by one or more third parties.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement

among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

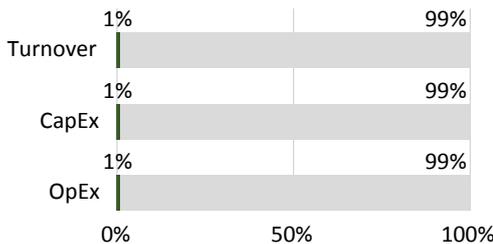

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>(1)</sup>?**

Yes:  In fossil gas  In nuclear energy

No:

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned: No gas and nuclear
- Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned: No gas and nuclear
- Non Taxonomy-aligned

This graph represents 100.00% of the total Investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.02%
- Enabling Activities = 0.43%

The figures are the actual values as at the end of March, June, September and December 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

Please note that for the 2024 reporting period is the first time Vanguard is reporting the following EU Taxonomy environmental objectives as the taxonomy-aligned data has been made available for this period: Climate Change Adaptation, Sustainable use and protection of water and marine resources, Transition to a circular economy, Pollution prevention and control and Protection and restoration of biodiversity and ecosystems.

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

| Environmental Objectives                                     | 2023 | 2022 |
|--|------|------|
| Climate Change Mitigation                                    | 0    | 0    |
| Climate Change Adaptation                                    | N/A  | N/A  |
| Sustainable Use and Protection of Water and Marine Resources | N/A  | N/A  |
| Transition to a Circular Economy                             | N/A  | N/A  |

| Protection and Restoration of Biodiversity and Ecosystems    | N/A  | N/A  |

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

### What was the share of socially sustainable investments?

Not applicable.

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining 3.08% (Compared to 2023: 1.05%)- of net assets which fell into the sub-category “#2 Other” represents the indirect exposures which were used for efficient portfolio management purposes only. Such assets were cash, FX and financial derivative instruments which are used for liquidity management, and such assets are not subject to any minimum environmental or social safeguards.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded the bonds of issuers that MSCI determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria. Further monitoring is in place surrounding new issues which may be eligible for inclusion in the Fund between rebalances.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

## How did this financial product perform compared to the reference benchmark?

Please see the information below in this respect.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### ● *How does the reference benchmark differ from a broad market index?*

The Index was constructed from the Bloomberg Global Aggregate Float Adjusted Corporate Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

### ● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

See above.

### ● *How did this financial product perform compared with the reference benchmark?*

The figures in the table below show financial performance between January 1st 2024 and December 31st 2024.

| Share Class                       | Fund Performance (%) | Reference Benchmark Performance (%) |

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

**Yes**

**No**

It made **sustainable investments with an environmental objective**: \_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: \_\_%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

Effective 11 February 2025 The sub name has changed from above to Vanguard Selected Screened Euro Investment Grade Bond Index Fund. For more detail around the change click here for the Share holder notice. ([https://fund-docs.vanguard.com/CHANGES\\_TO\\_THE\\_VANGUARD\\_SRI\\_EURO\\_INVESTMENT\\_GRADE\\_BOND\\_INDEX\\_FUND.pdf](https://fund-docs.vanguard.com/CHANGES_TO_THE_VANGUARD_SRI_EURO_INVESTMENT_GRADE_BOND_INDEX_FUND.pdf))

Through the screening out of bonds issued by corporate issuers based on the potentially detrimental impact of the relevant issuer's conduct or products on society and / or the environment the Fund promoted certain environmental and/or social characteristics.

The Index provider has developed a screening process designed to analyse certain securities in the Index. The screening process seeks to exclude Index constituents that are issued by corporate issuers that (as determined by the Index provider) are (1) involved in the production of controversial weapons such as cluster munitions, land mines, biological weapons, chemical weapons and/or nuclear weapons and/pr (2) are involved in the manufacture of tobacco products. The screening process also seeks to exclude Index constituents that, are issued by corporate issuers that have allegedly or actually been directly involved in very severe controversies and/or violations of international norms and principles, that have a negative environmental, social and/or governance impact above a particular severity threshold (as determined by the Index provider).

A Reference Benchmark has not been designated for the purpose of attaining the environmental and / or social characteristics promoted by the fund.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 2.19%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.01%
- Pollution prevention and control = 0.01%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental

objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the sustainability indicators perform?**

The Investment Manager measured the attainment of the environmental and/or social characteristics by assessing that the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Index.

Regarding whether the exclusions have been applied, the exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Index can be found in the table below. These figures are weighted averages of the actual rate of exclusion by market value as at the end of March, June, September and December 2024.

| Exclusion Category   | Exclusion Rate (%) |
|----------------------|--------------------|
| Controversies        | 5.05%              |
| Non-Renewable Energy | 0.00%              |
| Vice Products        | 0.42%              |
| Weapons              | 0.46%              |
| Overall Exclusions   | 5.93%              |

● **...and compared to previous periods?**

| Exclusion Category | 2023  | 2022  |
|--------------------|-------|-------|
| Overall            | 1.83% | 1.88% |

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

## How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding Index constituents that the Index provider determines to be involved in controversial weapons (i.e., cluster munitions, land mines, biological weapons, chemical weapons and/or nuclear weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

The values of this principal adverse impact indicator can be found in the table below. These figures are weighted averages of the actual values as at the end of March, June, September and December 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor. Each data provider uses different approaches to assess ESG credentials, which can result in different outcomes in their determination of a company's involvement in certain business activities.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

| Indicator  | Impact | Measure    | Data Coverage % |
|--|--------|------------|-----------------|
| Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | 0      | Percentage | 79%             |

## What were the top investments of this financial product?

The top investments of this Fund are set out below. These figures are percentages of net assets and are weighted averages of the market value as at the end of March, June, September and December 2024.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 January 2024 to 31 December 2024

**Asset allocation** describes the share of investments in specific assets.

## What was the proportion of sustainability-related investments?

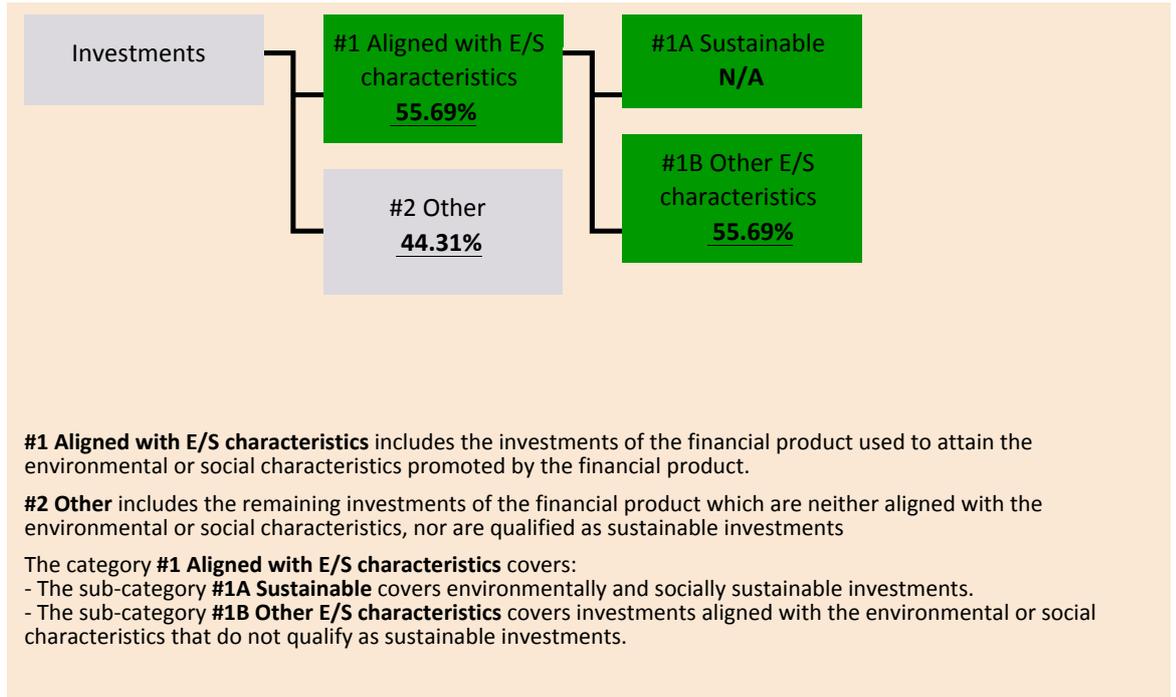

Please see the information below in this respect.

### What was the asset allocation?

The Fund invested 55.69% (Compared to 2023: 56.06%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to make any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 44.31% (Compared to 2023: 43.94%) of the Fund's net assets were invested in other investments ("#2 Other"), which were not aligned with environmental and/or social characteristics promoted by the Fund.

Note: Following a review of the data, we have adjusted the figures reported last year for 2023 to reflect the screening process applied by the index provider. Further, with effect from 1 December 2024, the Index provider applied the screening process to covered bonds (being bonds issued by corporate issuers and backed by a pool of assets with dual recourse to both the issuer and the assets) in addition to the corporate issuers already covered by the screening process.

## ● In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Global Industry Classification System) with the other sectors at level 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of March, June, September and December 2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 2.19%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.01%
- Pollution prevention and control = 0.01%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for Climate Change Mitigation and Climate Change Adaptation are weighted averages of the actual values as at the end of March, June, September and December 2024. For the other four EU taxonomy environmental objectives the figures are weighted averages of the actual values as at the end of September and December 2024 as this is due to when the data was available.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

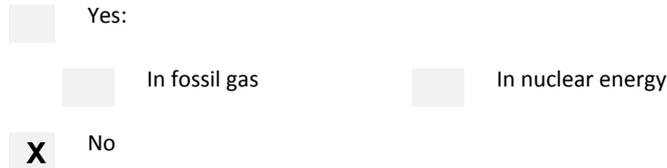

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The figures are not subject to an assurance provided by one or more auditors or a review by one or more third parties.

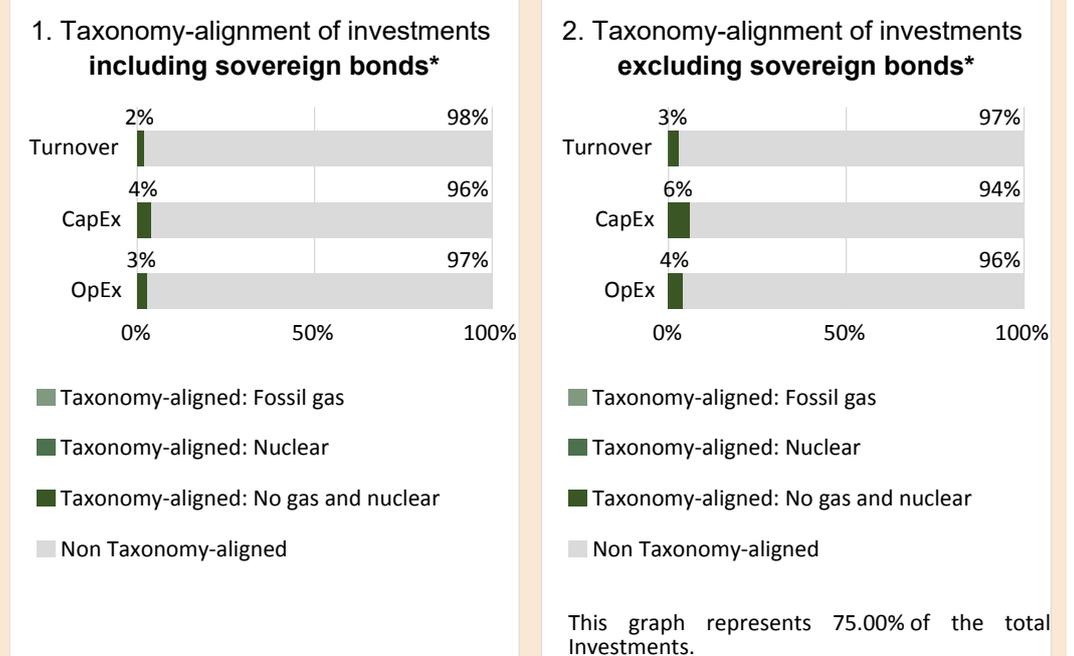

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>(1)</sup>?**

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.07%
- Enabling Activities = 1.18%

The figures are weighted averages of the actual values as at the end of March, June, September and December 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

Please note that for the 2024 reporting period is the first time Vanguard is reporting the following EU Taxonomy environmental objectives as the taxonomy-aligned data has been made available for this period: Climate Change Adaptation, Sustainable use and protection of water and marine resources, Transition to a circular economy, Pollution prevention and control and Protection and restoration of biodiversity and ecosystems.

| Environmental Objectives                                     | 2023 | 2022 |
|--|------|------|
| Climate Change Mitigation                                    | 0.01 | 0    |
| Climate Change Adaptation                                    | N/A  | N/A  |
| Sustainable Use and Protection of Water and Marine Resources | N/A  | N/A  |
| Transition to a Circular Economy                             | N/A  | N/A  |
| Pollution Prevention and Control                             | N/A  | N/A  |
| Protection and Restoration of Biodiversity and Ecosystems    | N/A  | N/A  |

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

**What was the share of socially sustainable investments?**

Not applicable.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The remaining 44.31% (Compared to 2023: 43.94 %) of net assets which fell into the sub-category “#2 Other” represents securities issued by government-related *and supranational entities* as well as securitised assets which were not subject to the screening process as well as the indirect exposures which were used for efficient portfolio management purposes only. Such assets were cash, FX and financial derivative instruments which are used for liquidity management, and such assets are not subject to any minimum environmental or social safeguards.

Note: With effect from 1 December 2024 the Index provider applied the screening process to covered bonds (being bonds issued by corporate issuers and backed by a pool of assets with dual recourse to both the issuer and the assets) in addition to the corporate issuers already covered by the screening process.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager undertakes independent oversight of the investment management processes and systems. As part of this oversight, the investment and operational risks are considered. The Investment Manager oversees ESG risk as part of our general investment risk and operational risk monitoring activities.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Sub-Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

The Index does not determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes. This is because the exclusionary screening methodology (that promotes the relevant environmental and social characteristics) was applied outside of the Index that this financial product tracks.

- How does the reference benchmark differ from a broad market index?***

Not applicable.
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.
- How did this financial product perform compared with the reference benchmark?***
