Xtrackers** (the “Company”) is registered in the Grand Duchy of Luxembourg as an undertaking for collective investment pursuant to Part I of the Luxembourg law of 17 December 2010, relating to undertakings for collective investment, as may be amended (the “Law”).

The Company is an investment company that has been incorporated under the laws of the Grand Duchy of Luxembourg as a *société d’investissement à capital variable* (“SICAV”) under the name “db x-trackers” on 2 October 2006 for an unlimited period. The liabilities of each Sub-Fund shall be segregated on a Sub-Fund by Sub-Fund basis with third party creditors having recourse only to the assets of the Sub-Fund concerned.

Relating to all Sub-Funds of the Company, the Board of Directors is of the opinion that there are no signs indicating any doubt as to the ability of these Sub-Funds to continue as a going concern, nor were there any liquidity problems for these Sub-Funds.

b) Investment Objectives and Policies

Notes to the Financial Statements (continued)

1. General (continued)

b) Investment Objectives and Policies (continued)

Index Tracking Funds with an Indirect Investment Policy (“Indirect Replication Funds”) may not invest directly in the constituents of the Reference Index. Instead, the exposure to the performance of the Reference Index will be achieved by way of derivative transactions and/or instruments (the “Derivative Transaction(s)”). In particular, an Indirect Replication Fund will conclude OTC swap transactions negotiated at arm’s length with one or more Swap Counterparties (the “OTC Swap Transaction(s)”). For the avoidance of doubt, the OTC Swap Transactions would qualify as total return swaps within the meaning of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 (the “SFTR Regulation”). Indirect Replication Funds do not currently provide for the possibility to enter into securities lending agreements, buy-sell or sell-buy back transactions, margin lending transactions or repurchase agreements (and/or reverse repurchase agreements), as covered by the SFTR Regulation. Should the Board of Directors decide to provide for such possibility, the Prospectus will be updated prior to the entry into force of such decision in order for the Company to comply with the relevant disclosure requirements of the SFTR Regulation for these Indirect Replication Funds.

In order to achieve its Investment Objective and in accordance with the Investment Restrictions, an Indirect Replication Fund may at any time invest part or all of the net proceeds of any issue of its Shares:

- (a) in Invested Assets and use one or more Derivative Transactions the purpose of which is to exchange all or part of the performance and/or income of such Invested Assets to gain exposure to the Reference Index (an “Unfunded Swap”) (refer to Note 4); and/or,
- (b) in one or more Derivative Transactions the purpose of which is to exchange all or part of the invested proceeds to gain exposure to the Reference Index (a “Funded Swap”).

The Invested Assets that can be subject to an Unfunded Swap are equity securities of issuers listed or traded on an official stock exchange of an OECD Member State unless otherwise specified in the relevant Product Annex. The Investment Manager will exclude from the universe of eligible Invested Assets certain securities as further outlined in the section headed “Sustainability Related Disclosures Under SFDR And EU Taxonomy Regulation” below.

For Funded Swaps, the maximum proportion of Net Asset Value that is subject to Derivative Transactions is 110 percent, excluding the impact of fees and foreign exchange (“FX”) hedging arrangements, as applicable; whilst the expected proportion of Net Asset Value that is subject to Derivative Transactions is 100 percent of the Net Asset Value, excluding the impact of fees and FX hedging arrangements, as applicable, unless otherwise specified in the relevant Product Annex.

For Unfunded Swaps, the maximum proportion of the Net Asset Value that is subject to Derivatives Transactions in relation to the Reference Index is 110 percent of the Net Asset Value, excluding the impact of fees and FX hedging arrangements, as applicable; whilst the expected proportion of the Net Asset Value that is subject to Derivative Transactions in relation to the Reference Index is 100 percent of the Net Asset Value, excluding the impact of fees and FX hedging arrangements, as applicable, unless otherwise specified in the relevant Product Annex.

For Unfunded Swaps, the maximum and expected proportion of the Net Asset Value that is subject to Derivatives Transactions in relation to Invested Assets is the same proportion as the proportion of the value of Invested Assets to the Net Asset Value of the relevant Sub-Fund.

An Indirect Replication Fund may, with due regard to the best interests of its Shareholders and subject to any conditions set forth in each specific Product Annex, decide from time to time to switch partially or totally from a Funded Swap to an Unfunded Swap, and vice versa.

The Invested Assets, Derivative Transactions and any techniques used to link the Invested Assets to the Reference Index or the Derivative Transactions or the invested proceeds to the Reference Index will be managed by the relevant Investment Manager and/or Sub-Portfolio Manager. The management of the Invested Assets will generally not involve the active buying and selling of securities on the basis of investment judgement and economic, financial and market analysis.

In principle, the return that the Shareholder will receive will largely be dependent on the performance of the Invested Assets, the performance of the Reference Index and the performance of any techniques used to link the Invested Assets and/or the net proceeds from the issue of Shares to the Reference Index.

Depending on the value of the Derivative Transactions and its chosen policy, an Indirect Replication Fund may be at any time fully or partially exposed to one or more counterparties (including one or more Swap Counterparties), in which case appropriate collateral or other counterparty risk mitigation arrangements compliant with the Regulations and EMIR will be taken/implemented and/or payment will be received from the Derivative Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations and EMIR (refer to Note 9).

** This includes synthetic ETFs.

Notes to the Financial Statements (continued)

1. General (continued)

b) Investment Objectives and Policies (continued)

Index Tracking Funds with a Direct Investment Policy

Index Tracking Funds with a Direct Investment Policy ("Direct Replication Funds") may carry out their investment objective by investing in a portfolio of transferable securities or other eligible assets that may comprise either:

- (i) all, or a substantial number of, the constituents of the Reference Index (such Sub-Fund a "Full Replication Fund"), or
- (ii) an optimised sample of the constituents of the Index, or unrelated transferable securities or other eligible assets (such Sub-Fund an "Optimised Replication Fund").

Optimised Replication Funds may not hold every constituent or the exact weighting of a constituent in the Reference Index but will seek to provide a return similar to that of its Reference Index by (i) investing either in a sub-set of the constituents of the Reference Index, (ii) seeking to gain exposure to the Reference Index by utilising optimisation techniques and/or (iii) by investing in securities that are not part of that Reference Index. Use of these investment techniques, the implementation of which is subject to a number of constraints detailed in the "Investment Restrictions" section of the Prospectus, may not produce the intended results.

Full Replication Funds may from time to time not contain all of the constituents of the Reference Index, and accordingly such Sub-Funds may hold other transferable securities or other eligible assets in accordance with the Investment Restrictions. The extent to which a Full Replication Fund does not contain all of the constituents of the Reference Index will vary, and will be dependent on a number of factors which may include, but are not limited to; the nature and number of the constituents of the Reference Index (for example, where a Reference Index comprises a large number of securities, contains a number of illiquid securities or where the availability of constituent securities for purchase is limited), legal or regulatory restrictions, the size of the Sub-Fund, and the utilisation of efficient portfolio management techniques.

Actively Managed Funds

Actively Managed Funds pursue an active investment strategy that will be implemented by the Management Company and/or the Investment Managers/Sub-Portfolio Managers (as applicable) in accordance with the Investment Objective and Investment Policy as set out in the relevant Product Annex. The success of the relevant Sub-Fund is largely dependent upon the Management Company and/or the Investment Managers/Sub-Portfolio Managers (as applicable) and there can be no assurance that the Management Company and/or the Investment Managers/Sub-Portfolio Managers (as applicable) or the individuals employed by them will remain willing or able to provide advice to the Sub-Fund or that trading on this advice by the Management Company and/or the Investment Managers/Sub-Portfolio Managers (as applicable) will be profitable in the future.

Direct Replication Funds and Actively Managed Funds provide for the possibility to enter into securities lending agreements but do not currently provide for the possibility to enter into margin lending transactions or repurchase agreements (and/or reverse repurchase agreements), buy-sell or sell-buy back transactions or total return swaps as covered by the SFTR Regulation. Should the Board of Directors decide to provide for such possibility, the Prospectus will be updated prior to the entry into force of such decision in order for the Company to comply with the relevant disclosure requirements of the SFTR Regulation for these Sub-Funds.

The types of securities in which Direct Replication Funds and Actively Managed Funds may invest include American depositary receipts ("ADRs"), global depositary receipts ("GDRs"), and/or non-voting depositary receipts ("NVDRs"). Such Sub-Funds may also invest in bank deposits, Money Market Instruments and money market funds to carry out their investment objective and/or for treasury purposes. Such Sub-Funds may also receive income in respect of the securities held by them. Taxes may be imposed on income received from securities held by a Sub-Fund.

Direct Replication Funds and Actively Managed Funds may from time to time invest temporary cash balances (such as subscription proceeds which are pending investment or any other temporary cash balances) in FDIs to gain market exposure and to seek to reduce Tracking Error.

The Investment Manager may exclude from the portfolios of the Sub-Funds certain securities as further outlined in the section headed "Sustainability-related disclosures under SFDR and EU taxonomy regulation" of the Prospectus.

In addition, the Investment Manager reserves the right to exclude from the portfolios of the Sub-Funds any securities which do not comply with the Investment Manager's policies.

Notwithstanding the foregoing, it should be noted that due to exceptional circumstances, such as, but not limited to, disruptive market conditions or extremely volatile markets, instances may arise which cause a Direct Replication Fund's tracking accuracy to diverge substantially from the Reference Index. Due to various factors, including the Sub-Fund's fees and expenses involved, the concentration limits described in the Investment Restrictions, other legal or regulatory restrictions, and, in certain instances, certain securities being illiquid, it may not be possible or practicable to purchase all of the constituents in proportion to their weighting in the Reference Index or purchase certain of them at all.

** This includes synthetic ETFs.

Notes to the Financial Statements (continued)

1. General (continued)

c) The Shares

The Shares will be issued by the Company exclusively in relation to Sub-Funds with the aforementioned Investment Policies and may be subscribed in cash or in kind (or a combination of both in cash and in kind).

The Shares may be differentiated between Distribution Shares (identified by the letter “D”) and Capitalisation Shares (identified by the letter “C”). Other Classes may be offered with specific features such as fee structures, minimum subscription amount, investor eligibility criteria or other specific features. The Shares will be listed for trading on one or more stock exchanges unless otherwise specified in the relevant Product Annex of the Prospectus.

2. Accounting policies

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used are as follows:

a) Valuation of investments

The Net Asset Value of the Company is at any time equal to the total of the Net Asset Values of the Sub-Funds.

The Net Asset Value of the Sub-Funds shall be determined in accordance with the following rules:

- (i) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- (ii) the value of all securities which are listed or traded on an official stock exchange or traded on any other Regulated Market will be valued on the basis of the last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. The Board of Directors will approve a pricing service which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate;
- (iii) securities not listed or traded on a stock exchange or a Regulated Market will be valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors;
- (iv) securities issued by open-ended investment funds shall be valued at their last available net asset value or in accordance with item (ii) above where such securities are listed;
- (v) the liquidating value of futures, forward or options contracts that are not traded on exchanges or on other organised markets shall be determined pursuant to the policies established by the Board of Directors, on a basis consistently applied. The liquidating value of futures, forward or options contracts traded on exchanges or on other organised markets shall be based upon the last available settlement prices of these contracts on exchanges and organised markets on which the particular futures, forward or options contracts are traded; provided that if a futures, forward or options contract could not be liquidated on such Business Day with respect to which a Net Asset Value is being determined, then the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable. The net realised gain / (loss) on forward foreign exchange is included in the financial statements as “Net realised gain / (loss) on foreign exchange”;
- (vi) liquid assets and money market instruments may be valued at nominal value plus any accrued interest or using an amortised cost method; this amortised cost method may result in periods during which the value deviates from the price the relevant Sub-Fund would receive if it sold the investment. The Management Company may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets will be valued at their fair value as determined in good faith pursuant to procedures established by the Board of Directors. If the Board of Directors believes that a deviation from the amortised cost per Share may result in material dilution or other unfair results to Shareholders, the Board of Directors shall take such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results;
- (vii) the total return swaps (“TRS”) transactions will be consistently valued based on a calculation of the net present value of their expected cash flows. TRS are marked to market at each NAV Date;

** This includes synthetic ETFs.

Notes to the Financial Statements (continued)

2. Accounting policies (continued)

a) Valuation of investments (continued)

- (viii) all other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.

b) Investment transactions

The net realised gain / (loss) on sale of investments is determined on the basis of the average cost of investments sold. Investment transactions are accounted for on a trade date basis.

The net realised gain / (loss) on sale of investments is disclosed in the financial statements as “Net realised gain / (loss) on investments”.

c) Conversion of foreign currencies

Accounting records are kept for each Sub-Fund in its reference currency. The combined statement of net assets and statement of operations and changes in net assets of the Company are presented in Euro based on the exchange rate prevailing at the date of the Statement of Net Assets.

Income and expenses in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the transaction date.

Assets and liabilities in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the Statement of Net Assets.

The purchase price of the securities purchased in currencies other than the reference currency of the Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the purchase of the securities.

d) Income

Interest is recorded on an accrual basis net of withholding tax and includes amortization on a straight line basis of premiums and accretion of discounts that are disclosed in the financial statements as “Accretion of discount”. Dividends are accounted for on the ex-date, net of withholding tax.

e) Cross Sub-Fund investments

Xtrackers PORTFOLIO UCITS ETF held cross investments as at 30 June 2024, the market value of which represents 0.077% of the combined net assets. These investments are included for presentation purposes within the combined Statement of Net Assets.

f) Net Asset Value

This semi-annual report is prepared on the basis of the last available net asset value of the Sub-Funds as at 30 June 2024.

3. Taxation of the Company

Under current law and practice, the Company is not liable to any Luxembourg income taxes, stamp or other tax. Investment income and capital gains, if any, received or realised by the Company may, however, be subject to taxation in the country of origin at varying rates, which normally cannot be recovered by the Company.

** This includes synthetic ETFs.

3. Taxation of the Company (continued)

Although the Company is, in principle, subject in Luxembourg to a subscription tax (“*Taxe d’Abonnement*”) at an annual rate of 0.05% or 0.01% for the category of shares reserved to institutional investors, all Sub-Funds which are index-tracking ETFs are exempt from such tax as (i) their Shares are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public; and (ii) their exclusive objective is to reflect the performance of one or more indices, it being understood that this condition of exclusive objective does not prevent the management of liquid assets, if any, on an ancillary basis, or the use of techniques and instruments used for hedging or for purposes of efficient portfolio management. A Grand-Ducal regulation may determine additional or alternative criteria with respect to the indices under that exemption.

The Company or its Sub-Funds, may benefit from reduced subscription tax rates depending on the value of the relevant Sub-Fund’s net assets invested in economic activities that qualify as environmentally sustainable within the meaning of Article 3 of the EU Taxonomy Regulation (the “Qualifying Activities”), except for the proportion of net assets of the Company or its Sub-Funds, invested in fossil gas and/or nuclear energy related activities.

4. Total Return Swaps

The Total Return Swap agreements are concluded at the beginning of the life of the Sub-Fund with the transferable securities and money market instruments having a similar cost to the notional value of the Reference Index. This position may however change during the life of the swap whereby the cost of the transferable securities and money market instruments, including net purchased accrued interest, may become higher / lower than the notional value of the Reference Index due to additional purchases / sales of transferable securities and money market instruments compared to the index notional.

The “Net amount to swap counterparty and unrealised result on swap” shown in the statement of net assets represents the net gains / losses on the total return swaps, adjusted for (i) the total return swaps’ costs and (ii) its fees (i.e. enhancement accruals).

The split of Net realised gain / (loss) on swap and Change in net unrealised gain / (loss) on swap shown in the Statement of Operations as at 30 June 2024, is provided in the table below.

As required by the Securities Financing Transactions Regulation (see Note 5), the Company is required to disclose the amount of assets engaged in total return swaps expressed as an absolute amount and as a proportion of the Sub-Funds' Net Asset Value. The percentage of net assets disclosed in the above table is calculated using the Unrealised gain / (loss) on Swap in absolute terms divided by the total Net Asset Value. This figure is not representative of the counterparty risk calculation.

The table below lists the exposure to invested assets and the underlying asset (Reference Index) as at 30 June 2024.

8. Securities lending

Sub-Funds with a Direct Investment Policy may enter into securities lending transactions (“Securities Lending Transactions”) for up to 50% (or up to 30% for Authorised Sub-Funds with a Direct Investment Policy and up to 25% for Sub-Funds with a Direct Investment Policy eligible for investment in a PEA (*Plan d’Epargne en Action*)⁽¹⁾) of their assets to generate additional income and therewith offset part or all of their costs. Such transactions are strictly regulated and must, amongst other things, be able to be terminated at any time at the initiative of the Company. Securities Lending Transactions nonetheless give rise to certain risks including valuation and operational risks and market and counterparty risks.

Depending on the value of the Securities Lending Transactions and its chosen policy, a Sub-Fund may be at any time fully or partially exposed to one or more counterparties, in which case appropriate collateral or other counterparty risk mitigation arrangements compliant with, (i) Part I of the Luxembourg law of 17 December 2010, as amended, (ii) any amendment or replacement legislation thereto for the time being in force, (iii) any regulation of any type taken in pursuance of (i) and (ii), (iv) the Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 as regards depositary functions, remunerations policies and sanctions, including its mandatory implementing legislations on an EU or Home Member State level, (v) any sub-custodian agreement entered into between the Securities Lending Agent (as defined below), the Company, the Management Company and State Street Bank International GmbH, Luxembourg Branch (“SSBL”) as well as (vi) any rule, guideline and general or specific position from time to time adopted by the CSSF pursuant thereto (the “Regulations”) will be taken/implemented and/or payment will be received from the Securities Lending Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations.

For the Sub-Funds with a Direct Investment Policy, the Company has appointed Deutsche Bank AG, acting through its Frankfurt am Main head office and its London and New York branches as the Securities Lending Agent (the “Securities Lending Agent”). The Securities Lending Agent has been authorised (i) to enter into Securities Lending Transactions on behalf of the Company and (ii) to invest any cash received/held on behalf of the Company as collateral pursuant to such Securities Lending Transactions, in accordance with and within the limits set forth in the Agency Securities Lending and Repurchase Agreement, the rules set out in the Prospectus and the Regulations.

The Depositary has delegated the safekeeping function of certain non-cash collateral received by the Sub-Funds to Deutsche Bank AG.

Any income generated by Securities Lending Transactions (reduced by any applicable direct or indirect operational costs and fees arising therefrom and paid to the Securities Lending Agent and, as the case may be, to the relevant Investment Manager and/or the Sub-Portfolio Manager) will be payable to the relevant Sub-Fund. Unless otherwise specified in the relevant Product Annex and to the extent the Securities Lending Agent undertakes Securities Lending Transactions in relation to a Sub-Fund, the Securities Lending Agent, the relevant Investment Manager and/or the Sub-Portfolio Manager, as the case may be, shall receive a fee for the services provided in this respect.

⁽¹⁾ As defined below in paragraph 3 of the entitled Information for Shareholders.

The Company may have to provide variation margin for a Sub-Fund (i.e. collateral collected by a counterparty to reflect the results of the daily marking-to-market or marking-to-model of outstanding non-cleared OTC derivative contracts) to its counterparty to an OTC derivative transaction. In relation to the OTC derivative transactions entered into between the Company and counterparties (including Swap Counterparties), the Company may deliver or receive requested collateral by way of title transfer or by way of pledge, depending on the terms of the agreement between the relevant Sub-Fund and the counterparty.

The value of non-cash collateral pledged and cash collateral received by counterparty for each Sub-Fund is detailed in the following table, as at 30 June 2024:

10. Management Company Fee and Fixed Fee

a) Management Company Fee

In accordance with and subject to the terms of the Management Company Agreement, the annual Management Company Fee will accrue on each calendar day and will be calculated on each Valuation Day on the basis of a percentage of (i) the last available Net Asset Value of each Sub-Fund or Class of Shares or (ii) the Initial Issue Price multiplied by the number of outstanding Shares of each Sub-Fund or Class of Shares (as indicated for each Sub-Fund or Class of Shares in the relevant Product Annex).

The Management Company is also entitled to receive reimbursement for any reasonable expenses that were made in its capacity as management company of the Company in the context of the execution of the Management Company Agreement and that were not reasonably foreseeable in the ordinary course of business.

Notwithstanding the above, the Management Company and the Company may agree on a different fee structure in respect of a certain Sub-Fund or Class of Shares, as indicated in the relevant Product Annex.

The Management Company may pay a Distribution Fee to the Distributor out of the Management Company Fee. A Distributor may re-allocate an amount of the Distribution Fee to a sub-distributor (as applicable). The Management Company shall remunerate the Investment Managers out of the Management Company Fee as agreed from time to time between the two parties. Each Investment Manager shall remunerate out of the applicable Investment Management Fee any appointed Sub-Portfolio Manager, as agreed from time to time between the parties.

The table hereafter reflects the maximum Management Company Fee's annual rate applied to related UCITS in which Xtrackers PORTFOLIO UCITS ETF invests as at 30 June 2024.

Information for Shareholders

1. Online publication of investment portfolios, collateral holdings and swap exposures

Shareholders can view the swap exposures and investment portfolios or collateral holdings for each Sub-Fund on www.Xtrackers.com. The information is available under the “ETF Information” tab section for each Sub-Fund.

2. Adjustment to OTC Swap Transactions to reflect index replication costs

As per the Prospectus, each of the Swap Counterparties may enter into hedging transactions in respect of the OTC Swap Transaction(s). According to the OTC Swap Transaction(s) entered into between the Sub-Funds and the Swap Counterparty, the Sub-Funds shall receive the performance of the Reference Index adjusted to reflect certain index replication costs, taxes and any other transaction costs or charges incurred by the Swap Counterparty in relation to the OTC Swap Transaction. These costs may include, amongst other things, costs, taxes or other duties associated with the buying, selling, custody, holding or any other transactions relating to investments in transferable securities and/or OTC Swap Transactions and/or collateral. In extreme market conditions and exceptional circumstances, particularly in connection with less developed markets and emerging markets, such costs may increase significantly and as a result the OTC Swap Transaction Costs may increase. The Shareholders will therefore bear indirectly the OTC Swap Transaction Costs which may be passed on to certain Indirect Replication Funds by the Swap Counterparty and may affect the ability of the Indirect Replication Fund to achieve its Investment Objective. The OTC Swap Transaction Costs may also differ depending on the Reference Index whose performance the Sub-Funds aim to reflect. The OTC Swap Transaction Costs may also vary from time to time depending on actual market conditions.

•Situation 1: the Reference Index is “long” (i.e. its objective is to reflect the performance of its constituents). Then the index replication costs will be associated with (i) the buying and selling by the Swap Counterparty of the constituents of the Reference Index in order to reflect the Reference Index performance; or (ii) custody or other related costs incurred by the Swap Counterparty in relation to holding the constituents of the Reference Index; or (iii) taxes or other duties imposed on the buying or selling of the constituents of the Reference Index; or (iv) taxes imposed on any income derived from the constituents of the Reference Index; or (v) any other transactions performed by the Swap Counterparty in relation to the constituents of the Reference Index.

•Situation 2: the Reference Index is “leveraged” (i.e. its objective is to reflect the daily leveraged performance of the long version of the Reference Index). Then the index replication costs will be associated with (i) the buying and selling and any borrowing and/or financing of the constituents of the Reference Index in order to reflect the Reference Index performance, (ii) custody or other related costs incurred by the Swap Counterparty in relation to holding the constituents of the Reference Index, (iii) financing charges incurred to safeguard against severe market movements of the constituents of the Reference Index, (iv) unexpected financing costs in the event of severe market movements, (v) taxes imposed on any income derived from the constituents of the Reference Index, or (vi) any other transactions performed by the Swap Counterparty in relation to the constituents of the Reference Index.

•Situation 3: the Reference Index is “short” (i.e. its objective is to reflect the daily inverse performance of the long version of the Reference Index) or “short and leveraged” (i.e. its objective is to reflect the leveraged daily inverse performance of the long version of the Reference Index). Then the index replication costs will be associated with (i) the borrowing and/or financing of the constituents of the Reference Index in order to reflect the Reference Index performance, (ii) financing charges incurred to safeguard against severe market movements of the constituents of the Reference Index, (iii) unexpected financing costs in the event of severe market movements or (iv) any other transactions performed by the Swap Counterparty in relation to the constituents of the Reference Index.

In addition, from time to time each Swap Counterparty may achieve certain benefits or enhancements as a result of its hedging activities. In certain circumstances, the Swap Counterparty may, in its absolute and sole discretion, decide to pay some or all of such benefits or enhancements to the Sub-Fund under the OTC Swap Transaction(s) in addition to any payments contractually due under the OTC Swap Transaction(s). The OTC Swap Transactions of the following Sub-Funds were adjusted by the below figures in the valuation of the swaps prevailing as at 30 June 2024. A positive figure in the table means that the OTC Swap Transactions of the relevant Sub-Fund were subject to a negative adjustment which reflects an underperformance of the Sub-Fund versus the Reference Index. Equally a negative figure in the table means that the OTC Swap Transactions of the relevant Sub-Fund were subject to a positive adjustment /enhancement which reflects an overperformance of the Sub-Fund versus the Reference Index. These figures are netted against the benefits or enhancements as a result of a Swap Counterparty’s hedging activities that were received under the OTC Swap Transaction(s), if any. These costs may vary over time in accordance with market conditions and market practice.

Xtrackers MSCI AC ASIA EX JAPAN ESG SWAP UCITS ETF*	MSCI AC ASIA EX JAPAN LOW CARBON SRI LEADERS CAPPED INDEX	1 March 2024

MSCI Limited announced that changes were made to the capping methodologies of the Reference Indices. From the Effective Dates, in addition to the existing issuer level capping methodology of the Reference Indices and the country deviation weighting scheme with regards to the MSCI Emerging Markets Asia Select ESG Screened Index (at least quarterly), the following country capping treatment for the Reference Indices was implemented: should the combined weight of constituents from India exceed 18% at month-end, a capping process would be triggered such that the Reference Index would be reweighted with the excess weight distributed among the remaining constituents in proportion to their existing weights in the Reference Index.

Additionally, a daily monitoring process was put in place to reset the weight of India to 18% should the combined weight of Indian constituents exceed 20% at the end of any business day prior to month-end.

7. On 11 April 2024, the Company informed former Shareholders of Xtrackers MSCI EUROPE ENERGY ESG SCREENED UCITS ETF (the "Sub-Fund") that the negotiated preferred credit/debit interest rates effective from 1 January 2023 for the sub-funds of the Company were not implemented in relation to the Company's cash accounts resulting in incorrect calculations of month end interest proceeds on cash balances for the sub-funds of the Company. Furthermore, the Sub-Fund received a refund relating to a Central Securities Depositories Regulation penalty. As a result, a residual amount (the "Residual Amount") for the Sub-Fund had arisen which was not accrued in the Net Asset Value per Share for the Sub-Fund on the termination date of the Sub-Fund.

The Residual Amount was paid to the former Shareholders of the Sub-Fund on or around 12 April 2024 by way of payment to the Common Depository Nominee for onwards payment to the ICSDs. The details of the Residual Amount are set out in the table below:

Sub-Fund	Residual Amount	Residual Amount per Share

The TER percentage is presented in the Share Class' currency.

The TER expresses the sum of all fees and incidental costs charged on an ongoing basis to the collective investment scheme's assets (operating expenses) taken retrospectively as a percentage of the net assets, and is in principle calculated as follows according to the Swiss Asset Management Association (AMAS) Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes from 16 May 2008 (dated 5 August 2021):

* This is a synthetic ETF.

8. Total Expense Ratio (continued)

$$\text{TER \%} = \frac{\text{Total operating expenses in CU}^*}{\text{Average net assets in CU}^*} \times 100$$

* CU = currency units in the accounting currency of the collective investment scheme

Where

- operating expenses equal total expenses, excluding negative investment income and
- the average net fund assets correspond to the arithmetic average of the total net fund assets on each valuation day.
