Board of Directors' Report *(continued)*

Chairman's Review

The six-month period running until the end of March 2025, which this report covers, was a mixed one for global investment markets. Some regions of the world, or sectors of the economy, performed relatively well. Examples include the Financials sector, the Chinese stock market, as well as gold. The UK market rose around 4% during this period, while European stock markets and bond markets were also up.

It was a tougher time, however, for emerging markets particularly India (after its very strong performance over the preceding year) and most notably the US. Wall Street stocks had their worst quarter for almost three years in Q1 2025. The early stages of this slump were caused in large part by weakness in the share prices of the 'Magnificent Seven', a collection of massive tech companies that have come to dominate the US market, as cracks started to appear in the narrative surrounding their multi-billion dollar investment in Artificial Intelligence.

As both the world's largest economy and stock market, much of the rest of the world still tends to follow where the US leads and rarely has this been made more apparent than in the furore over President Trump's policy of sweeping trade tariffs.

Trump showed a propensity for trade tariffs during his first term, and on the campaign trail made no secret of his intention to make use of them again. However, when his much-vaunted 'Liberation Day' came around in early April, the full scale of the tariffs caught the market by surprise. Although this happened after the technical end of this reporting period, the impact was so dramatic that it would be remiss of us to ignore it.

The declaration that blanket tariffs of at least 10% (in some cases far higher) would be applied to virtually every country on earth signalled a radical break from orthodoxy on how international trade is conducted, but this is clearly a topic about which Trump feels very strongly and he appears determined to seek redress for what he views as a system weighted against America's interests. At the time of writing, global stock markets have been experiencing volatility in a fast-changing situation, as Trump seeks to strike deals which have seen the level of tariffs applied to certain countries fluctuate significantly and in some cases be paused.

It remains to be seen what happens next, but one thing for certain is that markets have seen periods of significant volatility in the past – the global financial crisis of 2008 and the Covid pandemic of 2020 being the two largest recent examples – and come out the other side. This is a time for calm, experienced heads, investing with the freedom to take active investment decisions and not just blindly follow an index wherever it may lead.

In the current environment, Jupiter's investment managers must attempt to make sense of a fast-changing economic picture, positioning their portfolios to make the most of the opportunities that investment markets offer while insulating them from the worst of the risks, all in the service of trying to deliver long-term returns for clients. Investing in challenging times such as these requires patience, conviction and discipline.

Notes to the Financial Statements

1. General Information

The Jupiter Global Fund (the 'Company') is an open-ended investment company which qualifies as an undertaking for collective investment in transferable securities (UCITS) under part I of the law of 17 December 2010 (as amended) regarding undertakings for collective investment. The Company was incorporated in Luxembourg as a *société d'investissement à capital variable (SICAV)* on 22 September 2005 for an unlimited duration.

The Company may issue multiple classes of Shares in several funds (the 'Funds'). A separate pool of assets and liabilities is maintained for each Fund and is invested in accordance with the investment objective applicable to the relevant Fund. All liabilities attributable to a particular Fund are binding solely upon that Fund.

As at 31 March 2025 the Company was comprised of the following Funds with the following Share Classes in issue:

Notes to the Financial Statements

2. Summary of Significant Accounting Policies

a) Basis of preparation

The financial statements have been prepared in conformity with Luxembourg generally accepted accounting principles applicable to investment funds.

The financial statements have been prepared on a going concern basis, with the exception of Jupiter Global Sustainable Equities (LUX) which closed on 23 October 2024, Jupiter Europe ex-UK Equity which closed on 7 November 2024, Jupiter Global Emerging Markets Corporate Bond and Jupiter Global Emerging Markets Short Duration Bond which closed on 18 November 2024, Jupiter Global Ecology Growth which closed on 3 April 2025 and Jupiter Pan European Smaller Companies which closed on 9 April 2025. As a result the financial statements of these funds, have been prepared on a non-going concern basis with assets recorded at net realisable values and liabilities at net settlement amounts, which are deemed to equate to their fair values at 31 March 2025.

b) Financial Statements

Financial statements are presented for each Fund in the base currency of the Fund, the combined Statement of Net Assets and combined Statement of Operations and Changes in Net Assets of the Company are presented in Euro (EUR), based on the close of business exchange rate ruling on 31 March 2025.

The net asset values have been calculated by reference to the valuation day which might differ from their value on a dealing day. The financial statements presented in this report have been prepared on the basis of the latest calculated net asset values in the period.

The difference between opening Net Assets stated at exchange rates ruling at the beginning of the period and their value at the end of the period is shown as a 'Foreign currency translation difference' in the Statement of Operations and Changes in Net Assets.

c) Foreign currency translation

Assets and liabilities denominated in currencies other than a Fund's base currency are translated into that base currency at exchange rates ruling at the date of these financial statements. Transactions occurring during the period in currencies other than the base currency are translated at rates of exchange ruling on the transaction dates. Differences arising on translation are included in the Statement of Operations and Changes in Net Assets.

d) Investments

Securities are initially recognised at cost, being the fair value of the consideration given.

Securities listed on an official stock exchange or dealt in on any regulated market are valued at the last available price at the company's valuation point.

Open-ended funds and Closed-ended funds are valued at their last available price. Wherever practicable, the last available Net Asset Value is deemed to include the Net Asset Value calculated on the same Valuation day for any underlying fund which itself has a valuation point at or before the Company's Valuation Point being 1pm Luxembourg time.

Notes to the Financial Statements

2. Summary of Significant Accounting Policies *(continued)*

d) Investments *(continued)*

In the event that any of the securities held by a Fund on the relevant day are not listed on any stock exchange or dealt in on any regulated market or if, with respect to securities listed on any stock exchange or dealt in on any other regulated market, the basis of the price as determined above is not representative of the fair market value of the relevant securities, the value of such securities will be determined based on the reasonably foreseeable sales price determined prudently and in good faith, as delegated by the Board of Directors of the Company to Jupiter Asset Management International S.A.

Fund	Fund Currency	Number of Fair Valued Assets	Holding	Market Value	% of Net Assets
Jupiter Dynamic Bond	EUR	27	2,493,110,608	13,360,965	0.27
Jupiter Dynamic Bond ESG	EUR	1	583	4,009	–
Jupiter Financial Innovation	EUR	1	22,943	361,092	0.81
Jupiter India Select	USD	1	50,000	–	–

Gains or losses arising on the disposal of investments are calculated by reference to the first-in-first-out (FIFO) methodology.

All purchases and sales of securities are recognised on the trade date, i.e. the date the Fund commits to purchase or sell the security.

e) Contracts for difference

Contracts for difference are valued using the local daily price of the underlying listed equity then converted into the currency of the relevant Fund. The unrealised gain/(loss) on contracts for difference is included in the Statement of Net Assets as 'Unrealised gain on contracts for difference' or 'Unrealised loss on contracts for difference'. Contracts for difference are reset at month end after the Valuation Point.

Dividends on contracts for difference on underlying securities of contracts for difference are included in the Statement of Net Assets in 'Dividends receivable' for long positions and in 'Dividends payable' for short positions. Interest calculated on contracts for difference is included in the Statement of Net Assets in 'Interest receivable' for short positions and in 'Interest payable' for long positions.

f) Credit default swap contracts

A credit default swap contracts ('CDS') is a transaction in which two parties enter into an agreement, whereby the buyer pays the seller a periodic payment for the specified life of the agreement. The seller makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event does occur, the seller will then make a payment to the buyer, and the swap contract will terminate.

CDS contracts are valued by reference to service data providers, market data and algorithms.

The unrealised gain/(loss) on credit default swap contracts is included in the Statement of Net Assets as 'Unrealised gain on swap contracts' or 'Unrealised loss on swap contracts'.

The notional amount represents the highest potential liability of a contract and is not shown in the Statement of Net Assets.

Notes to the Financial Statements

2. Summary of Significant Accounting Policies *(continued)*

g) Interest Rate Swap Contracts

An interest rate swap contract ('IRS') is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

The unrealised gain/(loss) on interest rate swap contracts is included in the Statement of Net Assets as 'Unrealised gain on swap contracts' or 'Unrealised loss on swap contracts'.

h) Options

Options are contractual agreements that convey the right, but not the obligation, for the purchaser either to buy or sell a specific amount of a financial instrument at a fixed price, either at a fixed future date or at any time before maturity.

The value of options which are listed on any official stock exchange or dealt in on any Regulated Market are valued at the last available price at the company's valuation point.

Over-The-Counter ('OTC') options are valued using the Black-Scholes model. Options are valued by reference to the expected future cash flow based on the market implied performance, spot level and the volatility of the underlying asset(s).

The Company may purchase and sell put and call options through regulated exchanges and OTC markets. Options purchased by the Company provide the Company with the opportunity to purchase (call options) or sell (put options) the underlying asset at an agreed-upon value either on or before the expiration of the option. The Company is exposed to credit risk on purchased options only to the extent of their carrying amount, which is their market value.

i) Forward currency exchange contracts

The Company may enter into forward currency exchange contracts to hedge against exposures to foreign currency fluctuations. The carrying value of these contracts is the gain or loss that would be realised if the position was closed out on the valuation date, and is included in the Statement of Net Assets as 'Unrealised gain on forward currency exchange contracts' and 'Unrealised loss on forward currency exchange contracts'. Upon the closing of the contract, the gain or loss is recorded in the 'Net realised gain/(loss) on forward currency exchange contracts'.

j) Financial future contracts

Regulated financial future contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains and losses by 'marking-to-market' on a daily basis to reflect the market value of the contracts at the end of each business day's trading. The unrealised gain/(loss) on financial future contracts is included in the Statement of Net Assets as 'Unrealised gain on financial future contracts' or 'Unrealised loss on financial future contracts'. Variation margin payments are made or received, depending upon whether losses or gains are incurred. When a contract is closed, the Company records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract.

Notes to the Financial Statements

2. Summary of Significant Accounting Policies *(continued)*

k) Income recognition

Bonds may be purchased at a discount or at a premium. Such discount or premium is amortised over the life of the bond using straight line amortisation. Amortisation is recorded as part of interest income included in 'Interest income from investments, net of withholding taxes' in the Statement of Operations and Changes in Net Assets.

Interest income is recognised as the interest accrues unless collectability is in doubt.

Dividend income is recognised when the right to receive the dividend is established.

Income is presented net of withholding taxes in the Statement of Operations and Changes in Net Assets.

l) Expense recognition

Expenses are accounted for on an accrual basis. Expenses are charged to the Statement of Operations and Changes in Net Assets except for expenses incurred on the acquisition of an investment which are included within the cost of that investment and expenses arising on the disposal of investments, which are deducted from the disposal proceeds.

m) Dividend distributions payable

Dividend distributions payable by the Company are recorded on the ex-date.

n) Net Asset Value per Share

The Net Asset Value per Share is calculated by dividing the Net Assets of the relevant Class of Shares in a Fund included in the Statement of Net Assets by the number of Shares of the relevant Class in that Fund in issue at the period end.

o) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Exchange rate

The exchange rate used for the financial statements as at 31 March 2025 is as follows:

Currency	Rate
EUR = 1	
USD	1.08205

Notes to the Financial Statements

4. Investment Management

The Management Company appointed Jupiter Asset Management Limited ('JAML') as Investment Manager to provide certain administrative and management services.

The Investment Management Fee is calculated and accrued per Fund on the basis of the daily Net Asset Value of each Fund and is payable monthly in arrears. The fee rates per annum charged and applicable to each Class of Shares during the period ended 31 March 2025 are as follows:

Notes to the Financial Statements

4. Investment Management (continued)

Where a Fund invests in other funds managed by the same Investment Manager, the Fund will not be subject to additional management fees. These related management fee reimbursements are included in 'Management fee rebates' in the Statement of Operations and Changes in Net Assets and amounted to EUR 238,010 for the period ended 31 March 2025 as follows:

Fund	Fund Currency	Amount
Jupiter Dynamic Bond	EUR	238,010

Where a Feeder Fund invests in a Master Fund managed by the same Investment Manager, the management fees are charged at the Feeder Fund level only.

None of the Funds are entitled to accrue a performance fee on any of the Classes of Shares.

5. Aggregate Operating Fee

To seek to protect the Shareholders from fluctuations in ordinary operating expenses, the Company shall pay to the Management Company a fixed level of fee (the 'Aggregate Operating Fee'), which will be determined as an annual percentage of the Net Asset Value of the Class of Shares for each Fund, and the Management Company will be responsible for paying all of the ordinary fees and expenses out of the Aggregate Operating Fee received by it, including (but not limited to) the following:

- Management Company fees and expenses;
- Depositary, fund accounting, custody, transfer agency and fiduciary fees payable to Citibank Europe plc, Luxembourg Branch. The depositary fee consists of safekeeping, administration and transaction charges;
- Set up costs incurred in connection with the launch of a new Fund;
- Costs of operating special purpose subsidiaries;
- Any fees and expenses involved in registering and maintaining the registration of the Fund with any governmental agencies or stock exchanges in the Grand Duchy of Luxembourg and in any other country together with associated support fees;
- Paying agent fees;
- Dividend/income distribution fees;
- Costs of agents employed by the Company, Correspondents and permanent representatives in places of registration;
- Financial and regulatory reporting costs;
- Governmental charges, taxes and duties;
- Costs related to the preparation and filing of tax or other reports in respect of the operations of the Company or its Shareholders;
- Costs related to the preparation and publication of data, literature and shareholder communications, including the costs of preparing, printing and distributing prospectuses, Key Investor Information Documents ('KIIDs'), Key Facts Statements ('KFSs') (for Hong Kong investors), explanatory memoranda, periodical reports or registration statements, and the costs of any reports to Shareholders;
- Directors' remuneration, their insurance coverage and reasonable travelling costs and out-of-pocket expenses in connection with board meetings;
- Legal fees; and
- Audit fees.

Save for the payment of the Aggregate Operating Fee, the Company shall have no obligation with respect to the ordinary operating expenses.

Notes to the Financial Statements

5. Aggregate Operating Fee (continued)

The Aggregate Operating Fee will accrue on a daily basis. The application of the Aggregate Operating Fee against capital or income is fund specific and further details are published in the Company's prospectus which is available at www.jupiteram.com. The Aggregate Operating Fee is accrued at each calculation of the Net Asset Value and is disclosed in the relevant KIIDs and (for Hong Kong Investors) KFSs from time to time by comprising part of the ongoing charges of a Share Class.

The Aggregate Operating Fee is calculated and accrued per Fund on the basis of the daily Net Asset Value of each Fund at each Valuation Point and is payable monthly. The fee rates per annum charged and applicable to each Class of Shares during the period ended 31 March 2025 are as follows:

Notes to the Financial Statements

6. Management Company Responsibilities

Jupiter Asset Management International S.A. ('JAMI') is appointed as the Management Company.

The list of the funds managed by the Management Company may be obtained, on request, at the registered office of the Management Company.

The Management Company may market the Shares directly to investors and may enter into agreements to appoint distributors to act as intermediaries or nominees for investors subscribing for Shares through their facilities. The Management Company has also entered into a distribution agreement with Jupiter Asset Management Limited.

The Management Company has delegated its investment management functions to Jupiter Asset Management Limited, the Investment Manager.

In the context of its administration functions, the Management Company has delegated its administration functions to Citibank Europe plc, Luxembourg Branch, the Administrator.

In the context of its marketing function, the Management Company may enter into agreements with Distributors pursuant to which the Distributors agree to act as intermediaries or nominees for investors subscribing for Shares through their facilities.

The Management Company will monitor on a continual basis the activities of the delegates. The agreements entered into between the Management Company and the relevant third parties provide that the Management Company can give at any time further instructions to such third parties, and that it can withdraw their mandate with immediate effect if this is in the interest of the Shareholders. The Management Company's liability towards the Company is not affected by the fact that it has delegated certain functions to third parties.

The Company pays to the Management Company the Aggregate Operating Fee and the Management Company will be responsible for paying certain Company costs out of the Aggregate Operating Fee received by it. Refer to Note 5 for further information. Full details are published in the Company's prospectus which is available at www.jupiteram.com.

7. Administration, Custodian and Depositary Fees

Citibank Europe plc, Luxembourg Branch was appointed to perform central administration duties for the Company pursuant to a delegation of such duties to it by the Management Company, and was appointed by the Company Board as the Depositary.

Citibank Europe plc, Luxembourg Branch as Administrator, Custodian and Depositary was entitled to receive custodian fees, fund accounting fees, transfer agency fees and fiduciary fees.

The custodian fee consists of safekeeping, administration and transaction charges. Safekeeping and administration charges are applied to the market value of the assets of the country of the underlying investments held in custody at the end of the billing period. The transaction charges are based on the number of transactions in a particular country. The safekeeping and administration fee rate varies according to the country of the underlying investments and decreases depending on the thresholds in a particular country.

The fund accounting fee is the sum of the base NAV calculation fee plus the total of all other fees, including but not limited to financial reporting, share class valuation, tax reporting and all other fees detailed in the fee schedule agreement.

The transfer agency fee is based on the number of transactions processed, the number of holdings (shareholder accounts), the number of new investor accounts opened and include fund/class set-up and annual maintenance fees, enhanced fund distribution support, platform connectivity fee and out-of-pocket expenses.

Notes to the Financial Statements

7. Administration, Custodian and Depositary Fees *(continued)*

The fiduciary fee per Fund is calculated as the greater of the minimum annual fee or an ad valorem fee based upon the Fund's month-end NAV.

These fees are included under the Aggregate Operating Fee. Refer to Note 5 for further details.

8. Auditor Fees and Terms of Engagement

Ernst & Young, *société anonyme* (EY), has been appointed by the shareholders at their annual general meeting as Auditor of the Company for the current period and the shareholders have authorised the Board to agree with the Auditor on its terms of appointment.

The fees of the Auditor are included under the Aggregate Operating Fee. Refer to Note 5 for further details.

9. Other Expenses

There are certain other fees that are payable in addition to the Aggregate Operating Fee and the Investment Management fees.

Each Share Class bears the costs relating to certain transactions such as the costs of buying and selling underlying securities, costs charged by any financial institution or organisation in relation to swap agreements or over-the-counter transactions, bank charges relating to delivery, receipt of securities or to foreign exchange transactions and fees relating to collateral management, transaction costs, interest on bank overdraft and any other extraordinary fees and expenses.

Each Share Class also bears any extraordinary expenses incurred due to external factors, some of which may not be reasonably foreseeable in the normal course of activity of the Company such as, without limitation, any litigation expenses or any tax, levy, duty or similar charge of fiscal nature imposed on the Company or its assets by virtue of a change of laws or regulations.

For so long as the Company and any of the Funds remain authorised by the Securities and Futures Commission ('SFC') in Hong Kong, the Company has undertaken that no marketing or advertising expenses will be paid by the Company. Any marketing and advertising expenses will instead be paid by the Investment Manager.

10. Directors' Fees, Expenses and Interests

Mr. Jacques Elvinger is a partner of the Luxembourg law firm of Elvinger Hoss Prussen, *société anonyme*, which provides legal services to the Company.

The Chairman receives fees of EUR 35,500 and each Director receives fees of EUR 30,000 (including taxes) per annum. Mr Simon Rowson is employed by the Investment Manager JAML although the fees due have been waived. In addition, all Directors are entitled to reimbursement by the Company of any expenses directly incurred in the execution of their duties as Directors.

No Director holds any shares in the Company nor has any interest in any transaction which, during the period under review, has been effected by the Company and is unusual in its nature or conditions, or is significant to the business of the Company.

Directors' remuneration, insurance coverage and reasonable expenses directly incurred in the execution of their duties as Directors are included under the Aggregate Operating Fee. Refer to Note 5 for further details.

Notes to the Financial Statements

11. Taxe d'abonnement and Other Operational Taxes

The Company is liable in Luxembourg to a tax (*taxe d'abonnement*), such tax being payable quarterly and calculated on the Net Asset Value of the Company at the end of the relevant calendar quarter. The *taxe d'abonnement* is levied at a rate of 0.01% per annum on Funds or Classes reserved to Institutional Investors (Class G, I, U1, U2, U3, U4, X and Y) and at 0.05% per annum on other Funds or Share Classes (Class A, C, D, E, K, L, N, S, T and Z). No such tax is payable in respect of the portion of the assets of each Fund invested in other Luxembourg collective investment undertakings which are subject to this tax. *Taxe d'abonnement* is included under the Aggregate Operating Fee, refer to Note 5 for further details.

Under current law and practice, the Company is not liable to Luxembourg taxes on income or capital gains, nor are dividends paid by the Company liable to any Luxembourg withholding tax.

Interest, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

Where the withholding tax in certain jurisdictions has been raised at a rate higher than the rate applicable to comparable domestic UCITS funds, the Company has launched a withholding tax reclaim with the national tax authorities of those countries, with no guarantee of success. If and when those tax reclaims are successful, the proceeds of tax reimbursement are recognised in the Statement of Operations and Changes in Net Assets as 'Dividend income, net of withholding taxes'.

Withholding tax reclaims accrued by the Company during the period ended 31 March 2025 amounted to:

Fund	Fund Currency	Amount
Jupiter Dynamic Bond	EUR	31,783
Jupiter European Growth	EUR	2,237,278
Jupiter Financial Innovation	EUR	249,663
Jupiter Global Ecology Growth	EUR	9,671
Jupiter Global Equity Growth Unconstrained	USD	5,255
Jupiter Global Sovereign Opportunities	USD	24,018
Jupiter Global Value	USD	1,155,762
Jupiter Pan European Smaller Companies	EUR	185,574

12. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis. The Investment Manager and its affiliates, the Directors, Management Company and other related agents of the Company are considered connected parties.

13. Use of Dealing Commission

The Investment Manager pays for research services from its own resources and its clients take on no research costs at all.

During the period ended 31 March 2025, no brokerage commission rebates were obtained by the Investment Managers or any of their connected persons and no soft commission arrangements were in place.

Notes to the Financial Statements

14. Swing Pricing

The Funds adopted a partial swing pricing process. Under certain circumstances (for example, large volumes of deals) investment and/or disinvestment costs may have an adverse effect on the Shareholders' interests in a Fund. In order to prevent this effect, the Investment Manager, as delegated by the Board of Directors, has the discretion to allow for the Net Asset Value per Share to be adjusted by effective dealing and other costs and fiscal charges which would be payable on the acquisition or disposal of assets in the relevant Fund if the net capital activity exceeds, as a consequence of the sum of all subscriptions, redemptions or switches in such a Fund, such threshold percentage (the 'Threshold') as may be determined from time to time by the Investment Manager, as delegated by the Board of Directors, of the Fund's total Net Assets on a given Valuation Day.

If the net capital activity on a given Valuation Day leads to a net inflow of assets above the threshold in the relevant Fund, the Net Asset Value used to process all subscriptions, redemptions or switches in such a Fund is adjusted upwards by a swing factor that shall be determined from time to time by the Investment Manager, as delegated by the Board of Directors.

If the net capital activity on a given Valuation Day leads to a net outflow of assets above the threshold in the relevant Fund, the Net Asset Value used to process all subscriptions, redemptions or switches in such a Fund is adjusted downwards by a swing factor that shall be determined from time to time by the Investment Manager, as delegated by the Board of Directors.

A factor is calculated for each Fund based on the prices of the first business day of the month preceding the relevant quarter and the average transaction costs over the previous 12 months.

The swing factor calculation is based on:

- The bid-offer spread of the underlying portfolio of investments;
- The transaction costs;
- Any taxes

The price of each class in each Fund will be calculated separately but any dilution adjustment will affect the price of shares of each class of the relevant Fund identically, up to a maximum of 2%.

The dilution adjustment is recorded as the 'Net Realised Gains/(Losses) on Investments in securities' in the Statement of Operations and Change in Net Assets.

Notes to the Financial Statements

15. Statement of Changes in the Portfolio

A listing of the statement of changes in the portfolio during the period is available upon request to any investor at the registered office of the Company free of charge.

16. Transaction Costs

For the period ended 31 March 2025 the applicable Funds incurred transaction costs related to purchase or sale of transferable securities as follows:

Fund	Fund Currency	Amount
Jupiter Dynamic Bond	EUR	114,882
Jupiter European Growth	EUR	1,194,022
Jupiter Europe ex-UK Equity	EUR	4,307
Jupiter Financial Innovation	EUR	69,370
Jupiter Global Ecology Growth	EUR	1,060

Jupiter Global Value	USD	123,991
Jupiter India Select	USD	456,710
Jupiter Japan Select	USD	21,038
Jupiter Pan European Smaller Companies	EUR	34,254

The above transaction costs include brokers' fees, depositary's transaction specific fees, stamp duty fees, or security transaction taxes, where applicable. These costs are directly linked to the acquisition or sale of investments, to the extent that such costs are shown separately on transaction confirmations.

The transaction costs consisting of brokers' fees, stamp duty fees, or security transaction taxes, where applicable are included in the Statement of Net Assets as 'Investments in securities at cost' and in the Statement of Operations and Changes in Net Assets in 'Net change in unrealised appreciation/(depreciation) on investments' for the purchase of securities. For the sale of securities, they are netted from the 'Due to brokers' amount and from the 'Net realised gain/(loss) on sale of investments' in the Statement of Operations and Changes in Net Assets. Costs related to the acquisition and disposal of fixed income instruments are not separately identifiable from the transaction price.

Notes to the Financial Statements
