Schroder International Selection Fund

The Company

Schroder International Selection Fund (the "Company") organised as a "société anonyme" is an open-ended 'umbrella' company incorporated under Luxembourg law, which enables investors to choose from 'Sub-Funds' (specific portfolios of assets and liabilities within the Company having their own net asset value and represented by a separate class or classes of shares) offering different investment objectives.

This report covers the year from 1 January 2022 to 31 December 2022. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The last day on which prices were calculated was 30 December 2022, the last working day of the year.

At the date of this report, 139 Sub-Funds were available for investment. Sanctions imposed following Russia's invasion of Ukraine, combined with the partial closure of the Russian Stock Exchange and the resultant inability of market participants to trade and achieve settlement reliably in Russian assets, has prevented certain assets from being able to be valued and disposed of. Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (<http://www.schroders.lu>).

Hereafter, names of the Sub-Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A.; Sponsoring entity GIIN: 4RIMT7.00000.SP.442

For sub-funds registered in the UK, as required by the Financial Conduct Authority (FCA), Schroders entered into the Temporary Permissions Regime (TPR). This regime allows registered sub-funds to be distributed and marketed in the UK/to UK investors post Brexit.

Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ("RCSL").
3. Its obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A. (the "Management Company"), which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ("ALFI") code of conduct, the principles of which the Company has voluntarily adopted.

Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier ("CSSF") and, in the case of annual reports, with the RCSL.

The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

Furthermore, the following changes took effect during the year:

1 March 2022

Management Fees decreased for Schroder ISF European Alpha Absolute Return Class A and Class B from 2.00% to 1.50%, Class C and Class IZ from 1.00% to 0.75% and Class E from 0.50% to 0.375%.

Management Fees increased for Schroder ISF Sustainable Asian Equity Class U, Class F from 1.25% to 1.50% and Class IZ from 0.50% to 0.75%.

24 March 2022

Management Fees increased for Schroder ISF Sustainable Asian Equity Class A from 1.25% to 1.50%.

1 May 2022

Management Fees increased for Schroder ISF Sustainable Asian Equity Class C from 0.50% to 0.75%.

18 July 2022

The Schroder ISF Emerging Europe Fund was re-opened following its suspension on 25 February 2022. Alongside its reopening, the sub-Fund was reorganised with the creation of new share classes to which the portfolio of Russian assets are allocated. The "Side Pocket" classes shown on page 14 are denominated in Euro and are closed for subscriptions and redemptions.

Investment Manager's Report

Economic review

As 2022 began, concerns were already growing over rising inflation and the likely need for major central banks to raise interest rates swiftly. Those inflation worries were exacerbated by Russia's invasion of Ukraine in February. The invasion led Western nations to impose sanctions on Russian oil and other commodities, which fed through into further price rises.

As the year progressed, worries grew that European economies that had previously been dependent on Russian natural gas could face power shortages. However, a combination of LNG imports, milder winter weather and reduced consumption meant these shortages did not transpire.

The debate over rising inflation, potential interest rate rises, and the consequent impact on economic growth dominated the year. US GDP contracted in Q1 and Q2 2022, but expanded again in Q3 and Q4. The eurozone avoided recession, despite the impact of significantly higher energy prices for much of the year. US inflation hit a peak of 9.1% for the year in June, slowing thereafter but still remaining well above the Federal Reserve's 2% target. Eurozone inflation hit 10.6% in October, slowing slightly in the following months.

Given the still-elevated inflation, major central banks reaffirmed their commitment to tighten monetary policy in order to bring inflation back towards target. By the end of the year, the US Federal Reserve had raised the federal funds rate to 4.25-4.5%, while the Bank of England's base rate was 3.5%. The European Central Bank's deposit rate was 2.0%. Even the Bank of Japan took steps to tighten monetary policy, tweaking its yield curve control policy so as to allow long-dated yields to rise further.

The UK political situation proved volatile. Boris Johnson stepped down as prime minister in the summer and Liz Truss was elected by Conservative party members as the new party leader and by extension new UK prime minister. However, her tenure proved short-lived after a "mini-budget" from her chancellor Kwasi Kwarteng was poorly received by markets. In October she was replaced as prime minister by Rishi Sunak.

While most regions had emerged from pandemic restrictions by early 2022, China was a significant exception. The "zero-Covid" policy held firm for much of the year, with lockdowns affecting major cities and weighing on economic activity. The policy was lifted towards year-end. China was in further focus during the autumn as the 20th Party Congress signalled a shift from a laissez-faire era of economic growth to a more managed form of growth, including greater self-sufficiency in key technologies.

Equity market review

Stock markets had a difficult year against the backdrop of higher inflation and rising borrowing costs. Global equities, as measured by the MSCI World index, fell 18.1% in US dollar terms. There was wide variation within the market though with value shares strongly outperforming compared to growth stocks. This was because of higher interest rates making the future cash flows of those growth stocks less valuable.

Meanwhile, energy – a lowly valued sector – experienced strong gains as a result of increased demand as economies continued their recovery from the pandemic, and due to sanctions placed by the West on Russian oil exports.

Emerging markets experienced slightly weaker performance, with the MSCI Emerging Markets index returning -20.1% in US dollar terms. Commodity producers – such as the Latin American markets – were among the few to post gains.

Fixed income review

The Global Aggregate bond market recorded its largest annual loss for over 40 years. Higher inflation led to an aggressive response by global central banks, driving up yields and volatility. Yields move inversely to prices so rising yields meant falling prices.

The US 10-year yield rose from 1.51% to 3.88%, with the two-year rising from 0.73% to 4.42%. Germany's 10-year yield increased from -0.18% to 2.57%. The UK 10-year yield increased from 0.97% to 3.67% and 2-year rose from 0.68% to 3.56%.

Rising US interest rates were dollar-supportive for much of the year, though this shifted more recently amid signs US inflation may have peaked. Signs of softer inflation have prompted slower rate hikes. Despite the reversal in the dollar's fortunes in the final quarter, it remained the best performing G10 currency in 2022.

It was a particularly challenging year for risk assets, with high yield bearing the brunt of the market sell-off and broad underperformance of credit compared to government bonds. There was some improvement in the performance of credit towards the end of the year as sentiment improved.

Outlook

The path of inflation is critical to the outlook. Although there are signs that headline consumer price index (CPI) inflation has peaked in the US, it may prove costly to reduce in terms of the loss of GDP. Inflation continues to run well above central bank targets of 2% around the world. Recent data in the US has been softer than expected and the headline CPI rate appears to have peaked in June at 9.1%.

The Schroders economics team continues to believe that inflation will come down in the coming months, but unfortunately this will require a recession in the advanced economies. Inflation in the emerging economies is less of a problem as central banks in the region moved earlier than in the advanced economies.

In China, the economy is expected to grow. Activity has already begun to pick up sharply as the number of Covid infections has subsided, the near term outlook for the economy is good. Growth is likely to be stronger than generally expected and that should support further returns from local assets.

Audit report

To the Shareholders of
Schroder International Selection Fund

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Schroder International Selection Fund (the “Fund”) and of each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the combined statement of net assets as at 31 December 2022;
- the schedule of investments as at 31 December 2022;
- the combined statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for SISF Dynamic Indian Income Bond and SISF European Large Cap where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
