CT Select UK Equity Income Fund

Share Class: 2 Inc, a Fund of Columbia Threadneedle (UK) ICVC 1 (ISIN GB00B60HHR87).
This Fund is managed by Columbia Threadneedle Fund Management Limited.

Objectives and investment policy

The Fund aims to achieve an income yield which is higher than that of the FTSE All-Share Index, with some long-term capital growth.

The Fund invests primarily in equities (ordinary shares) of UK companies. These are companies in any economic sector that may be listed, quoted or traded in the UK or elsewhere but which are incorporated, domiciled or conduct a significant portion of their business in the UK. Some companies may however have overseas earnings as part of their trading profits.

The investment manager will invest in companies which, in their opinion, generally produce an above average yield. The Fund may invest in any industry sector.

From time to time at the investment manager's discretion, the Fund may also obtain an indirect exposure to these equities by investing in other collective investment schemes (which may include schemes managed by Columbia Threadneedle Investments).

To the extent that the Fund is not fully invested in equities of UK companies or collective investment schemes, the Fund may also invest in other transferable securities (including non-UK equities), money market instruments, warrants, cash and near cash. The Fund may use derivatives (an investment contract between the Fund and a counterparty the value of which is derived from one or more underlying equities) for the purposes of efficient portfolio management only.

The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the FTSE All-Share index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition.

Income generated by the Fund will be distributed six monthly.

There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years.

You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on the rate at which the value of the investments held by the Fund have moved up and down in the past.

The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment.

Yield Risk: the yield on the FTSE All-Share Index can fall and rise and is not guaranteed.

Charges from Capital Risk: taking the charges from the capital of the Fund to increase the distributable income may impact on capital returns.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.
