Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

M&G China Fund

a sub-fund of M&G Investment Funds (10)
Sterling Class I – Accumulation shares ISIN no. GB00BS3F1B51
Managed by M&G Securities Limited

Objective and investment policy

The fund aims to provide a higher total return (the combination of capital growth and income), net of the Ongoing Charges Figure, than that of the MSCI China with 100% China A Shares Index over any five-year period.

Core investment: At least 80% of the fund is invested in the equity securities and equity related instruments of companies that are incorporated, listed, domiciled or do most of their business in the People's Republic of China. This may include investing via Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect.

Other investments: Other funds (including funds managed by M&G) and cash or assets that can reduce be turned into cash quickly.

Derivatives Usage: To reduce risks and costs.

Strategy in brief: The fund manager uses a fundamental, bottom-up approach to identify stocks that are likely to outperform based on their financial and market characteristics. The fund manager performs fundamental analysis on companies assessing their potential in light of their financial, economic, political, and regulatory conditions to identify opportunities arising from significant deviation between the price and the estimated value of the stock.

The strategy focuses in particular on those stocks where the fund manager believes it has a strong insight, and uses independent, proprietary research to identify opportunities from the investment universe of securities and concentrates its research on these companies. Stock selection is expected to be the main driver of performance.

Benchmark: MSCI China with 100% China A Shares Index

The benchmark is a target which the fund seeks to outperform. The index has been chosen as the fund's benchmark as it best reflects the scope of the fund's investment policy. The benchmark is used solely to measure the Fund's performance and does not constrain the fund's portfolio construction.

The fund is actively managed. The fund manager has complete freedom in choosing which investments to buy, hold and sell in the fund. The fund's holdings may deviate significantly from the benchmark's constituents.

For performance measurement purposes the benchmark is shown or hedged into the relevant share class currency.

Other information

You can buy and sell shares in the fund on any business day. Instructions received before 12 noon will be dealt at that day's price.

Any income from the fund will be rolled up into the value of your investment.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These can be higher when investing outside Europe.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Low risk — High risk

Typically lower rewards — Typically higher rewards

1	2	3	4	5	**6**	7

- The above risk and reward indicator is based on simulated historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 6 because its simulated Net Asset Value has shown high rises and falls in value historically.
- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
- The fund may invest in China A shares. Investments in assets from China are subject to changeable political, regulatory and economic conditions, which may cause difficulties when selling or collecting income from these investments. In addition, such investment is made via the Stock Connect system, which may be more susceptible to clearing, settlement and counterparty risk. These factors could cause the fund to incur a loss.
- Investing in emerging markets involves a greater risk of loss due to greater political, tax, economic, foreign exchange, liquidity and regulatory risks, among other factors. There may be difficulties in buying, selling, safekeeping or valuing investments in such countries.
- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.
- The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.
- Operational risks arising from a failure or delay in operational processes and systems, or the failure of a third party provider may affect the value of your investments. Where this results in compensation needing to be paid, this may be paid some time after the original loss is experienced.

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.70%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the period/year ending 30 September 2025. This figure may change from year to year. It excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Annual Charge which may be discounted depending on the size of the fund. The Annual Charge without any discount is 0.70%. The fund's annual report for each financial year will include details on the exact charges made.
