A SUB-FUND OF KOTAK FUNDS | Class C (Acc) GBP LU0863495312 | MANAGEMENT COMPANY: FundRock Management Company S.A.

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives and investment policy

Objective The Sub-Fund aims to increase the value of your investment over the long term.

Portfolio securities The Sub-Fund invests mainly in shares of companies that are located, registered, or doing significant business in India. The Sub-Fund will seek to deliver returns in a socially responsive manner by combining a value and growth oriented investment philosophy with an Environmental Social and Governance ("ESG") principle overlay. The Investment Manager integrates Environmental Social and Governance ("ESG") factors in its investment management process and evaluates companies on the basis of these factors before an investment decision is made. These, thereby promoting, among other characteristics, environmental and social characteristics within the meaning of Article 8 of SFDR.

Benchmark MSCI India Index

The Sub-Fund uses the benchmark for performance comparison purposes. The Sub-Fund is actively managed. This means the investment manager is taking investment decisions with the intention of achieving the Sub-Fund's investment objective with complete discretion with respect to portfolio allocation and overall level of exposure to the market. The investment manager is not in any way constrained by the benchmark in its portfolio positioning, and the Sub-Fund will not hold all, or indeed may not hold any, of the benchmark constituents. The deviation from the benchmark may be complete or significant.

Designed for The Sub-Fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Base currency USD

Dealing You can place orders to buy or sell Sub-Fund shares at any time. The Sub-Fund is open for business every day that is a banking day in Luxembourg and Mumbai, and on which the Bombay Stock Exchange and the National Stock Exchange in India are open. Orders placed before 1 PM Luxembourg time on any Sub-Fund's business day will generally be processed that day.

The Sub-Fund offers both accumulation shares (shares in which any dividend income received are added to the share price) and dividend shares (shares in which any dividend income received are paid out to investors).

Key terms defined

Shares Securities that represent an ownership stake in a company.

Risk and reward profile

More about this rating

The above rating is calculated using industry-standard methods and is based on medium-term volatility (how sharply the Sub-Fund's actual or estimated share price has gone up and down over five years). Going forward, the Sub-Fund's actual volatility could be higher or lower, and its rated risk/reward level could change. The lowest rating does not mean a risk-free investment. Historical data may not be a reliable indication for the future.

Why is this Sub-Fund in category 6?

The Sub-Fund focuses on a single country i.e India. The Indian stock markets are more volatile than the stock markets of the developed economies of Western Europe and North America. Political and economic challenges may temporarily result in illiquid markets and higher volatility in prices and currencies.

Risks materially relevant not adequately captured by the SRRI

Exchange Rate Risk If your currency as an investor is different from the subscription currency of the Sub-Fund, changes in currency exchange rates could also reduce any investment gains or increase any investment losses.

Tax risk Tax treatment of foreign investments in India may be varied by the Indian Government without notice.

Counterparty risk The Sub-Fund could lose money if an entity with which it does business becomes unwilling or unable to honor its obligations to the fund.

Liquidity risk Certain securities could become hard to value, or to sell at a desired time and price.

Focused strategy risk Funds with a narrow or concentrated investment strategy may experience higher risk and return volatility than funds with a more diversified approach.
