Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Invesco Environmental Climate Opportunities Bond Fund (the "Fund")
A sub-fund of Invesco Funds (the "Umbrella Fund")
Class Z accumulation - USD (ISIN: LU1814057243) (the "Share Class")

The Fund is managed by Invesco Management S.A., part of the Invesco Group.

Objectives and Investment Policy

- The objective of the Fund is to generate income and achieve medium to long term capital growth and to support the transition to a low carbon economy over the medium to long term.
- The Fund invests primarily in debt instruments issued by investment grade companies worldwide, which meet the Fund's environmental, social and governance (ESG) criteria as further detailed below. The Fund is, however, permitted to invest in debt instruments issued by non-investment grade or unrated companies.
- Screening is employed to exclude issuers that do not meet the Fund's criteria, including but not limited to, the level of involvement in certain activities such as fossil fuels as well as non-climate-related sectors such as unconventional weapons and tobacco.
- Positive screening is used to identify corporate debt instruments where the issuers' activities positively contribute to the transition to a low carbon economy, based on the investment manager's proprietary methodology. The Fund also invests in bonds issued by companies that have committed to reduce their greenhouse gas (GHG) emissions to net zero by 2050 in line with the Paris Agreement on climate change and debt instruments with sustainable characteristics.
- The Fund may use securities lending for efficient portfolio management purposes.
- The Fund may invest in debt instruments which are in financial distress (distressed securities).
- The Fund may invest in contingent convertibles.
- The Fund may make significant use of derivatives (complex instruments) in order to (i) reduce the risk and/or generate additional capital or income and/or (ii) meet the Fund's investment objectives by generating varying amounts of leverage (i.e. where the Fund gains market exposure in excess of the net asset value of the Fund).
- The Fund is actively managed and is not constrained by its benchmark, the 85% ICE BofA Global Corporate Index USD-Hedged (Total Return) and 15% ICE BofA Global High Yield Index USD Hedged (Total Return), which is used for comparison purposes. However, as the benchmark is a suitable proxy for the investment strategy, it is likely that some of the issuers in the Fund are also components of the benchmark. As an actively managed fund, this overlap will change and this statement may be updated from time to time.
- The Fund has broad discretion over portfolio construction and therefore it is expected that over time the risk return characteristics of the Fund may diverge materially to the benchmark.
- The Fund promotes environmental, social and governance (ESG) criteria as covered under Article 8 of the Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector.
- You can buy and sell shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.

Risk and Reward Profile

Lower Risk ← → Higher Risk

Typically lower rewards — Typically higher rewards

1	2	3	**4**	5	6	7

- The Share Class is in risk category 4 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- The Fund may use Bond Connect to access Renminbi instruments traded in Mainland China. This may result in additional liquidity risk and operational risks including settlement and default risks, regulatory risk and system failure risk.
- Changes in interest rates will result in fluctuations in the value of the Fund.
- The Fund may invest in contingent convertible bonds which may result in significant risk of capital loss based on certain trigger events.
- Debt instruments are exposed to credit risk which is the ability of the borrower to repay the interest and capital on the redemption date.
- The Fund may invest in distressed securities which carry a significant risk of capital loss.
- The lack of common standards may result in different approaches to setting and achieving ESG objectives. In addition, the respect of the ESG criteria may cause the Fund to forego certain investment opportunities.
- The Fund may use derivatives (complex instruments) for investment purposes which may result in the Fund being significantly leveraged and may result in large fluctuations in the value of the Fund. The use of derivatives transactions may expose the Fund to counterparty risks that may result in losses to the Fund associated with the bankruptcy or insolvency of a counterparty.
- The Fund may invest in a dynamic way across assets/asset classes, which may result in periodic changes in the risk profile, underperformance and/or higher transaction costs.
- Investments in debt instruments which are of lower credit quality may result in large fluctuations in the value of the Fund.
- As a portion of the Fund may be exposed to less developed countries, you should be prepared to accept large fluctuations in the value of the Fund.
- It may be difficult for the Fund to buy or sell certain instruments in stressed market conditions. Consequently the price obtained when selling such instruments may be lower than under normal market conditions.
- A more detailed description of risk factors that apply to this Fund is set out in Section 8 of the Prospectus.

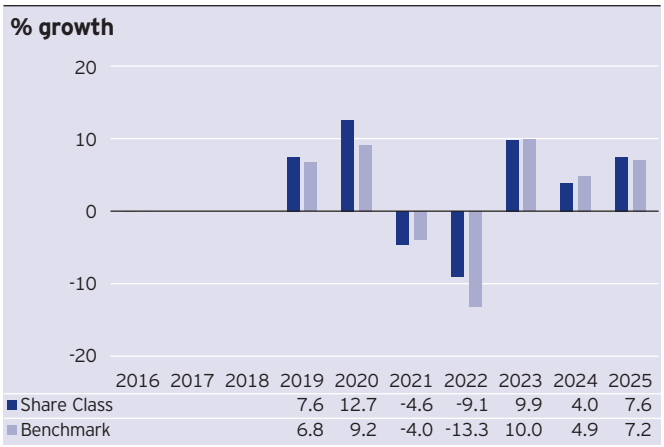
Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None
Any charges shown above are the maximum that might be taken out of your money before it is invested.	
Charges taken from the Share Class over a year	
Ongoing charge	0.70%
Charges taken from the Share Class under certain specific conditions	
Performance fee	None

- Any entry charge shown is a maximum figure. Where charges are shown, in some cases you might pay less; you can find this out from your financial adviser or distributor.
- The ongoing charges figure is based on expenses for the year ending February 2025. This figure may vary from year to year. It excludes portfolio transaction costs except in the case of an entry or exit charge paid by the Fund when buying or selling shares/units in another fund.
- If you switch funds, you will pay a maximum switching charge of 1% on your new fund.
- For more information about charges please see Section 4, Section 9 and Appendix A of the Fund's Prospectus.

Past Performance



- The Fund launched in 1994.
- The Share Class launched in 2018.
- The base currency of the Fund is USD.
- Past performance of the Share Class is calculated in USD.
- Performance is calculated after deduction of ongoing charges, portfolio transactions costs and is inclusive of gross income reinvested. Any entry /exit charges shown are excluded from the calculation.
- Past performance is not a guide to future performance.
- As the Fund is actively managed, it is not intended that the performance of the Share Class will track the performance of 85% ICE BofA Global Corporate Index USDHedged (Total Return) and 15% ICE BofA Global High Yield Index USD-Hedged (Total Return) (the "Benchmark"). Prior to 18 January 2024, the performance of the Share class was compared to another benchmark: 75% ICE BofA Global Corporate Index USDHedged (Total Return) and 25% ICE BofA Global High Yield Index USD -Hedged (Total Return). Prior to 14 October 2021, the performance of the Share class was compared to another benchmark: the Bloomberg Global Aggregate Index (Total Return).

— The performance shown in the chart prior to 14 October 2021 was based on an objective and investment policy that no longer applies. For further details, please see www.invescomanagementcompany.lu.

Practical Information

- Depositary: The Bank of New York Mellon SA/NV, Luxembourg Branch.
- The Luxembourg tax regime may have an impact on your personal tax position and there may be tax implications in your country of residence and/or origin.
