Wellington Global Equity Income Fund (the "Fund") a Fund of Wellington Management Funds (Luxembourg) III SICAV (the "Umbrella Fund")

ISIN: LU2552457082

Management company: Wellington Luxembourg S.à r.l.

OBJECTIVES AND INVESTMENT POLICY

- The Fund seeks long-term total returns in excess of the MSCI All Country World Index (the "Index"), as well to provide income in excess of broader equity markets, primarily investing in large cap companies worldwide.
 - The Fund will be actively managed, based on the belief that the market undervalues the long-term growth potential of businesses with strong returns, capital discipline and sustainable dividends; and that valuation sensitivity and balance sheet strength can provide downside mitigation and support a patient long term investment horizon. The investment manager seeks to identify a diversified portfolio of companies that show or provide:
 - Ability to pay dividends –sustainable revenue growth, return on invested capital and cash flow
 - Willingness to pay dividends – shareholder focused management, proven track record of shareholder returns
 - Downside mitigation – valuation sensitive, high-quality businesses with strong balance sheets
 - The Fund seeks to generate a level of income that is greater than the income of broad equity markets (as measured by the Index) over the long term, however this is not guaranteed and is dependent on market conditions. The Fund does not have an absolute income target, the level of income should be expected to fluctuate over time.
 - The Fund will seek to support certain environmental and social characteristics and will abide by the following binding restrictions:
 - The Fund will seek to achieve net zero emissions by 2050 in alignment with the Paris Agreement, by investing a minimum of 30% of the Fund's NAV (excluding cash and cash equivalents) in companies which have established or have committed to establish science-based targets, with this percentage increasing to 55% by 2030 and 100% of the Fund by 2040.
 - A minimum of 30% of the Fund's net assets will be aligned to the environmental characteristics of the Fund.
 - The Index serves as a reference benchmark for performance comparison purposes. In addition, the FTSE All World High Dividend Yield Index (the "Secondary Index") serves as a secondary reference benchmark for market context purposes. Whilst Fund securities may be components of either the Index or Secondary Index (the "Indices"), the Indices are not considered during portfolio construction and the investment manager will not manage the extent to which Fund securities differ from the Indices.
 - The Fund will invest in shares and other securities with equity characteristics such as preferred stocks, convertible securities, or depository receipts. The Fund may invest either directly or via derivatives.
 - While there are no restrictions on the Fund's ability to use derivatives for investment purposes (such as gaining exposure to a security), derivatives are mainly used to hedge (manage) risk.
 - Any income allocated to the share class from the Fund is distributed.
 - Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.
 - The currency of this share class is different to the base currency of the Fund and so the performance of the share class will be subject to the impact of the movement of the exchange rate between the currencies.
- For full investment objectives and policy details, please refer to the Prospectus.

RISK & REWARD PROFILE

< LOWER RISK

< Typically Lower Rewards

HIGHER RISK >

Typically Higher Rewards >

The indicator is not a measure of the risk of capital loss, but a measure of the previous ups and downs in value of the Fund. It is based on historical data and may not be a reliable indicator of the Fund's future risk profile. If the Fund has been in operation for less than 5 years, representative history, such as a comparable share class or index, may have been used to create the indicator.

- The indicator may shift over time and is not a target or guarantee.
- The lowest category does not represent a risk-free investment.
- The Fund is classified as a 5 as over the past 5 years the average amount by which returns varied each year was equal to or above 10% and less than 15%.

MATERIAL RISKS RELEVANT TO THE FUND WHICH ARE NOT FULLY CAPTURED BY THE INDICATOR:

CAPITAL: Investment markets are subject to economic, regulatory, market sentiment and political risk which can trigger unexpected capital loss.

COUNTERPARTY: The institutions with which the Fund may trade or invest, or to which assets may be entrusted, may fail to meet their obligations which could impact the operational capability or value of your investment.

CURRENCY: The value of the Fund may be affected by changes in currency exchange rates. Unhedged currency risk may subject the Fund to significant volatility.

DERIVATIVES: Specific risks such as operational issues, complexity, and valuation may be linked to the possible use of derivatives.

EMERGING MARKETS: Emerging markets may be subject to custodial and political risks, and volatility. Investment in foreign currency entails exchange risks.

EQUITIES: Investments may be volatile and may fluctuate according to market conditions, the performance of individual companies and that of the broader equity market.

INVESTMENT IN CHINA: Changes in Chinese political, social or economic policies or securities law and regulations may significantly affect the value of the Fund. Chinese securities may be subject to trading suspensions which could impact the Funds investment strategy and affect performance. Chinese tax law is applied under policies that may change without notice and with retrospective effect.

LIQUIDITY: The Fund may invest in securities that are less liquid and may be more difficult to buy or sell in a timely fashion and/or at fair value.

OPERATIONAL: The impact of breakdowns in systems, internal procedures and human error.

SUSTAINABILITY: A Sustainability Risk can be defined as an environmental, social or governance event or condition that, if it occurs, could cause an actual or potential material negative impact on the value of an investment. Further information on specific Sustainability Risks can be found in the Fund's prospectus.

A more detailed description of the risk factors that apply to the Fund is set out in the section "Risk Factors" in the Prospectus.
