Wellington Durable Enterprises Fund

GBP N AccU

Wellington Durable Enterprises Fund (the "Fund") a Fund of Wellington Management Funds (Ireland) plc (the "Company")

ISIN: IE00BJ570V94

Management company: Wellington Luxembourg S.à r.l.

OBJECTIVES AND INVESTMENT POLICY

- The Fund seeks long-term total returns.
- The Fund will be actively managed, investing primarily in companies globally (including emerging markets) that the investment manager considers to be durable companies and that have a minimum market capitalisation of USD 2 billion at initial purchase. Durable companies are those that the investment manager considers to exhibit stability and anticipates will generate positive returns over time. The investment manager looks for stability in less conventional places such as small and mid-cap stocks, less favoured geographies or companies that are not favoured by either growth, quality or value investors. The Fund will generally be diversified by country, currency, industry and issuer, but may hold concentrated positions from time to time.
- The Fund will invest in shares and other securities with equity characteristics such as preferred stocks, convertible securities or depository receipts. The Fund may invest either directly or via derivatives.
- While there are no restrictions on the Fund's ability to use derivatives for investment purposes (such as gaining exposure to a security), derivatives are mainly used to hedge (manage) risk.
- The MSCI All Country World Index ("the Index") serves as a reference benchmark for performance comparison purposes. Whilst Fund securities may be components of the Index, the Index is not considered during portfolio construction and the investment manager will not manage the extent to which Fund securities differ from the Index. The Index is designed to measure equity market performance of developed and emerging markets.
- The Fund will seek to support certain environmental and social characteristics and will abide by the following binding restrictions:
- The Fund will not invest in the securities of any company involved in the production or mining of fossil fuels or the mining of metals.
- The Fund will not invest in companies that have supply chains which are not free from child labour or forced labour practices as measured by principles 4 and 5 of the UN Global Compact.
- The Fund will aim to achieve net zero emissions by 2050 in alignment with the Paris Agreement, by reducing the Fund's weighted average carbon intensity (WACI) by no less than 50% below the Index's 2019 WACI, as referenced by the Index, by 2030 and aim to achieve net zero by 2050. As an interim milestone, the Fund will maintain a WACI that is at least 25% less than the Index's 2019 WACI baseline as it transitions towards its 2030 and 2050 carbon footprint reduction goals.
- During normal market conditions, a minimum of 80% of the Fund's net assets will be aligned to the environmental or social characteristics of the Fund.
- Any income allocated to the share class from the Fund is reinvested.
- Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.
- This Fund may not be appropriate for investors who plan to withdraw their money within five years. An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.
- The currency of this share class is different to the base currency of the Fund and so the performance of the share class will be subject to the impact of the movement of the exchange rate between the currencies.
